The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the text of the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment to the text of the bill inserted a new section at the end of the bill.

The House agreed to the Senate amendment with an amendment which inserted after the matter inserted by the Senate the combined texts of H.R. 3347, H.R. 3313, H.R. 661, and H.R. 3409 as reported to the House.

The Senate recedes from its disagreement to the amendment of the House inserting the texts of H.R. 3347, H.R. 3313, H.R. 661, and H.R. 3409, with an amendment to the text of H.R. 3409. The House recedes to the amendment of the Senate. The differences between the text of the bill as amended by the Senate, the House amendment, and the amendment agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

TERMINATION OF THE APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO CZECHOSLOVAKIA AND HUNGARY

(Sections 1 and 2 of House bill; sections 1 and 2 of House bill as amended by Senate; sections 1 and 2 of conference agreement.)

CONGRESSIONAL FINDINGS AND PREPARATORY PRESIDENTIAL ACTION

(Section 1 of House bill; section 1 of House bill as amended by Senate; section 1 of conference agreement.)

Present Law

No provision.

Section 1 contains Congressional findings and notes preparatory Presidential action. Subsection (a) makes a number of findings related to Hungary's and Czechoslovakia's respect for fundamental human rights; their policies of free emigration for their citizens; and the political and economic reforms undertaken by both countries. Subsection (b) notes that the President, in anticipation of the enactment of the bill, has directed the U.S. Trade Representative to negotiate with both countries to preserve the commitments contained in the bilateral commercial agreements that are consistent with the General Agreement on Tariffs and Trade; and to obtain other appropriate commitments.

House Bill as Amended by Senate

Identical provision.

Conference Agreement

The conferees agree to both the House and Senate provisions.

TERMINATION OF APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO CZECHOSLOVAKIA AND HUNGARY

(Section 2 of House bill; section 2 of House bill as amended by Senate; section 2 of conference agreement.)

Present Law

Title IV of the Trade Act of 1974, as amended by the Customs and Trade Act of 1990, sets forth three requirements relating to freedom of emigration which must be met, or waived by the President, in order for the President to grant nondiscriminatory, most-favored-nation (MFN) status to a nonmarket economy country. Title IV also requires that a trade agreement providing MFN status remain in force between the United States and the nonmarket economy country receiving MFN status and sets forth minimum provisions which must be included in such an agreement.

Presidential waivers and reports under Title IV—and thus a country's MFN status—are subject to disapproval by Congress. If the President determines that a country is in full compliance with the Jackson-Vanik freedom of emigration requirements, section 402(b) requires that he submit a report to the Congress by June 30 and December 31 of each year that such country receives MFN treatment, describing the nature of the country's emigration laws and policies. The country's MFN status may be revoked, if a joint resolution disapproving the December 31 compliance report is enacted into law within 90 legislative days of the delivery of the report to Congress. If such a resolution is enacted, the country's MFN status is rescinded, effective 60 calendar days after enactment.

Annual Presidential recommendations under section 402(d) for a 12-month extension of authority to waive Jackson-Vanik freedom of emigration requirements (either generally or for specific countries) are subject to a joint resolution of disapproval passed by the Congress within 60 calendar days after expiration of the previous waiver extension. An additional 15 legislative days, following the 60 calendar day period for initial passage, is available for consideration of any veto message. If such a resolution is enacted, the country's MFN status is rescinded, effective 60 calendar days after enactment.

House Bill

Section 2 provides for the termination of application of Title IV of the Trade Act of 1974 to Czechoslovakia and Hungary. Subsection (a) authorizes the President to determine that such title should no longer apply to Hungary or Czechoslovakia, or to both; and after making such a determination, proclaim the extension of nondiscriminatory, MFN treatment to the products of that country. Subsection (b) provides that after the extension under subsection (a) of MFN treatment to the products of a country, Title IV of the Trade Act of 1974 shall cease to apply to that country.

House Bill as Amended by Senate

Identical provision.

Conference Agreement

The conferees agree to both the House and Senate provisions.

AMENDMENTS TO THE EMERGENCY UNEMPLOYMENT COMPENSATION ACT OF 1991

(Section 3 of House bill as amended by Senate; section 3 of conference agreement.)

Present Law

All States are eligible to provide Emergency Unemployment Compensation (EUC) benefits to unemployed workers who have exhausted their unemployment benefits under existing programs. These benefits are available between November 17, 1991, and July 4, 1992.

There are three levels of weeks of eligibility for EUC benefits. The number of weeks of benefits payable to an unemployed worker in a particular State is determined by combinations of State adjusted insured unemployment rates (AIURs), exhaustion rates (ERs), and total unemployment rates (TURs). All rates are rounded to the nearest tenth of a percentage point. For example, 2.95 percent would be rounded to 3.0 percent.

The AIUR for a State is the insured unemployment rate for a given month plus the number of workers who have exhausted their regular State benefits in the last three months added to the numerator.

The ER is the percentage obtained by dividing the average monthly number of workers who have exhausted their regular State benefits during the last 12 months by the average monthly number of individuals filing initial claims for regular State benefits during the last 12-month period ending 6 months earlier. (For the reachback and initial benefit periods an eight-month average ending with September was used.)

The TUR is the percentage obtained from the ratio of all unemployed workers to all workers in the labor force in that State during the last six months for which data are published.

States can receive 6, 13, or 20 weeks as follows:

All States get at least 6 weeks.

States with AIURs of at least 4 percent *or* AIURs of at least 2.5 percent *and* exhaustion rates of at least 29 percent get at least 13 weeks.

States with AIURs of at least 5 percent or TURs of at least 9 percent get 20 weeks.

Once a State has "triggered on" for a 6, 13, or 20 weeks period of EUC benefits, the State remains triggered on that tier for at least 13 weeks, even if it drops to a lower tier during that period. Alternatively, if a State's moves to a higher tier during that period, workers in that State qualify for the additional benefits.

Also, once an unemployed worker becomes eligible for 6, 13, or 20 weeks of EUC benefits, the worker is paid for all weeks to which he is entitled, even if the State drops to a lower tier or the program expires before the worker has received the full number of weeks of benefits.

Unemployed workers who have exhausted their benefits under the regular unemployment program between March 1 and November 16 are eligible to receive EUC benefits in States which qualify as 13- or 20-week States or which had AIURs of at least 3 percent. Qualifying States are eligible for a minimum of 6 weeks of "reachback" benefits, however, States on the second and third tiers are eligible to pay for 13 or 20 weeks, respectively.

House Bill

No provision.

Senate Amendment

The Senate amendment replaces the three tier system of 20, 13, and 6 weeks of emergency unemployment compensation with a two tier system of 20 and 13 weeks. The 9 States and Puerto Rico with total unemployment rates of at least 9 percent or adjusted insured unemployment rates of at lest 5 percent still would receive 20 weeks of benefits. The other 41 States and the District of Columbia and Virgin Islands would receive 13 weeks of benefits. In addition, reachback coverage would be added for all States so that the 18 States and the Virgin Islands that do not currently receive these benefits would become eligible to provide them. Finally, the expiration date of the program would change from July 4, 1992, to June 13, 1992.

Conference Agreement

The conferees agree to the Senate amendment.

REPEAL OF THE PROHIBITION ON THE IMPORTATION OF SOVIET GOLD COINS

(Section 4 of House amendment; section 4 of conference agreement.)

Present Law

Section 510 of the Comprehensive Anti-Apartheid Act of 1986 prohibits the importation into the United States by any person, including a bank, of any gold coins minted in the Union of Soviet Socialist Republics (USSR) or offered for sale by the Government of the USSR. Any individual who violates the prohibition or implementing regulations is subject to a fine of not more than five times the value of the gold coins involved.

Imports of gold coins enter the United States duty-free.

House Amendment

Section 4 repeals section 510 of the Comprehensive Anti-Apartheid Act of 1986.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

EXTENSION OF NONDISCRIMINATORY TREATMENT TO ESTONIA, LATVIA, AND LITHUANIA

(Title I of House amendment; Title I of conference agreement.)

CONGRESSIONAL FINDINGS

(Section 101 of House amendment; section 101 of conference agreement.)

Present Law

No provision.

House Amendment

Section 101 makes a number of findings relating to the history of U.S. diplomatic relations with the Baltic states; their forcible incorporation into the Soviet Union in 1940; and their successful efforts to restore their independence from the Soviet Union, which occurred on September 6, 1991.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

EXTENSION OF NONDISCRIMINATORY TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA

(Section 102 of House amendment; section 102 of conference agreement.)

Present Law

The law governing U.S. trade relations with nonmarket economy counties is Title IV of the Trade Act of 1974 (the so-called Jackson-Vanik amendment), as amended by the Customs and Trade Act of 1990. That title requires the President to deny MFN status to those nonmarket economy countries which did not receive such status on the date of enactment. Because Estonia, Latvia, and Lithuania on the date of enactment were under the forcible control of the Soviet Union, this prohibition applied to those states.

Title IV also authorizes the President to extend MFN status to a nonmarket economy country, if that country meets three requirements relating to the freedom of emigration of its citizens. Alternatively, the President may waive those requirements and extend MFN status on an annual basis to a nonmarket economy country, subject to disapproval by Congress. Finally, Title IV requires that a trade agreement providing MFN status remain in force between the United States and the nonmarket economy country receiving MFN status; and it sets forth minimum provisions which must be included in such an agreement.

General Note 3(b) of the Harmonized Tariff Schedule of the United States includes Estonia, Latvia, and Lithuania on the list of countries subject to Column 2 (non-MFN) rates of duty.

House Amendment

Section 102 applies nondiscriminatory, MFN treatment to the products of Estonia, Latvia, and Lithuania, notwithstanding Title IV or any other provision of law. It amends General Note 3(b) to remove these three countries from the application of Column 2 (non-MFN) rates of duty.

These provisions apply with respect to goods imported on or after the 15th day after the date of enactment of the Act.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

TERMINATION OF APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO THE BALTICS

(Section 103 of House amendment; section 103 of conference agreement.)

Present Law

Title IV of the Trade Act of 1974, as amended, has applied to Estonia, Latvia, and Lithuania by virtue of their forcible incorporation into the Soviet Union in 1940.

House Amendment

Section 103 provides that title IV shall cease to apply to Estonia, Latvia, and Lithuania, effective as of the 15th day after the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

SENSE OF THE CONGRESS REGARDING PROMPT PROVISION OF GSP TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA

(Section 104 of House amendment; section 104 of conference agreement.)

Present Law

Title V of the Trade Act of 1974 authorizes the President to provide duty-free, Generalized System of Preferences (GSP) treatment to any eligible article from designated beneficiary developing countries, subject to certain conditions and limitations. Under Section 502, the President is prohibited from designating as beneficiary developing countries certain specified developed countries, including the Soviet Union; communist countries unless certain criteria are satisfied; and countries which do not meet other specified criteria. Because Estonia, Latvia, and Lithuania are now independent of the Soviet Union, they are eligible for GSP benefits, subject to the criteria of Title V.

House Amendment

Section 104 expresses the sense of the Congress that the President should take prompt action under Title V to provide GSP benefits to the products of Estonia, Latvia, and Lithuania.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

TRADE PREFERENCE FOR THE ANDEAN REGION

(Title II of House amendment.)

SHORT TITLE

(Section 201 of House amendment.)

Present Law

No provision.

House Amendment

Section 201 provides that the title may be cited as the "Andean Trade Preference Act" (ATPA).

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

AUTHORITY TO GRANT DUTY-FREE TREATMENT

(Section 202 of House amendment.)

Present Law

Bolivia, Ecuador, Colombia, and Peru receive most-favored-nation, column 1 rate of duty treatment and are designated as beneficiary countries for duty-free treatment on eligible articles under the Generalized System of Preferences (GSP) program.

House Amendment

Section 202 authorizes the President to proclaim duty-free treatment for all eligible articles from any beneficiary country in accordance with the provisions of the ATPA.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

BENEFICIARY COUNTRY

(Section 203 of House amendment.)

Present Law

No provision. The designation authority and criteria that apply under section 212 (b) and (c) of the Caribbean Basin Economic Recovery Act (CBERA) to beneficiary countries under the Caribbean Basin Initiative (CBI) program, are nearly identical to the provisions of section 203. Section 212 of the CBERA has similar withdrawal and suspension authorities and notification and reporting requirements with respect to CBI beneficiary countries.

House Amendment

Section 203 authorizes the President to consider only Bolivia, Ecuador, Colombia, and Peru for designation as beneficiary countries under the ATPA. Before designating any country, the President must notify the Congress of his intention to make the designation, together with the considerations entering into the decision. Designation by the President of a country as a beneficiary country is subject to 7 specific conditions, most of which are subject to waiver if he determines that designation of the country will be in the national economic or security interest of the United States and reports that determination and the reasons therefor to the Congress. The President must also take 12 other specific factors into account in designating any beneficiary country.

The President may withdraw or suspend beneficiary country status or duty-free treatment on any article of any beneficiary country if he determines after designation that the country should be barred from designation because of changed circumstances. The President must submit to the Congress every 3 years a complete report on the operation of the ATPA.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

ELIGIBLE ARTICLES

(Section 204 of House amendment.)

Present Law

Imports from the Andean countries are subject to normal customs provisions for determining origin, except that articles eligible for duty-free treatment under the GSP program are subject to the rules-of-origin specified under section 503 of the Trade Act of 1974. The rule-of-origin requirements for duty-free treatment under the ATPA are nearly identical to the requirements under section 213(a) of the CBERA for determining origin under the CBI program.

Section 223 of the CBERA provides that if the President considers that implementation of revised rules of origin for products of CBI beneficiary countries would be appropriate, he shall transmit such legislation to the Congress, after taking into account a report and recommendations of the U.S. International Trade Commission (ITC) and advice from various sources.

The product exclusions from eligibility for duty-free treatment and the duty reductions on imports of certain leather products under the CBI program are identical to the ATPA, except that rum is eligible for duty-free treatment under the CBERA.

Additional U.S. Notes 2, 3, and 4 of Chapter 17 of the Harmonized Tariff Schedule of the United States (HTS) authorize the imposition of duties or quotas on imports of sugars, syrups, and molasses. Presidential Proclamation 6179, signed on September 13, 1990, provided for the establishment of tariff-rate quotas on sugar imports beginning on October 1, 1990, to replace the system of absolute quotas. Under the tariff-rate quota system, the Secretary of Agriculture announces a quantity of sugar that will be subject to current tariff rates (the "lower tier" tariff rate), which is then allocated among country suppliers. Any additional quantities of sugar above these allocated amounts are subject to a tariff rate of 16 cents per pound, raw value (the "upper tier" tariff rate). GSP and CBI beneficiary countries are eligible to receive

UMI

duty-free treatment on the quantities of sugar permitted entry at the lower tier tariff rate. All four Andean countries currently have sugar import allocations subject to GSP duty-free treatment.

The CBI program contains identical authorities for granting import relief and taking emergency action on agricultural perishable products.

House Amendment

Section 204 requires duty-free treatment on any article, not otherwise excluded from eligibility, which is the growth, product, or manufacture of a beneficiary country if (1) that article is imported directly from a beneficiary country into the U.S. customs territory; and (2) the sum of (a) the cost or value of materials produced in one or more Andean beneficiary countries or one or more CBI beneficiary countries, plus (b) the direct costs of processing operations performed in one or more Andean or CBI beneficiary countries is not less than 35 percent of the appraised value of the article (which may include Puerto Rico and Virgin Islands content and up to 15 percent of the value of U.S. content). Section 204 also specifies requirements which the Secretary of the Treasury must prescribe in regulations. The President may include revised rules of origin for duty-free treatment under the ATPA similar to revised rules for CBI duty-free treatment in any suggested legislation submitted to the Congress pursuant to section 223 of the CBERA.

Section 204 excludes from eligibility for duty-free treatment: (1) Textiles and apparel articles, which are subject to textile agreements; (2) footwear ineligible for GSP duty-free treatment; (3) canned tuna; (4) petroleum or petroleum products; (5) certain watches and watch parts; (6) handbags, luggage, flat goods, work gloves, and leather wearing apparel ineligible for GSP duty-free treatment, which are subject to 20 percent duty reductions not to exceed 2.5 percent ad valorem implemented over 5 years; (7) sugars, syrups, and molasses subject to over-quota rates of duty; and (8) rum.

The President may suspend duty-free treatment on any eligible article under import relief or national security authorities. In any report to the President on an import relief investigation involving a duty-free article under the ATPA, the ITC must state whether and to what extent its injury findings and remedy recommendations apply to imports from beneficiary countries. Under emergency relief provisions for imports of perishable agricultural products, within 7 days after receiving a recommendation from the Secretary of Agriculture (within 14 days after the filing of a petition) that emergency action is warranted, the President must withdraw duty-free treatment or determine not to take emergency action. No proclamation under the ATPA shall affect fees imposed pursuant to section 22 of the Agricultural Adjustment Act of 1933.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

RELATED AMENDMENTS

(Section 205 of House amendment.)

Present Law

Note 4 and tariff items under subchapter IV of chapter 98 of the HTS provide a duty-free tourist allowance to returning U.S. residents arriving directly or indirectly from foreign countries (including Andean countries) of $400, or $600 in the case of CBI beneficiary countries. U.S. residents returning from foreign countries may bring in not more than one liter of alcoholic beverages duty-free and excise-tax free; residents returning from CBI beneficiary countries may enter one additional liter duty-free if produced in a CBI beneficiary country.

General Note 3(a)(iv) of the HTS provides that goods imported from U.S. insular possessions shall receive no less favorable duty treatment than accorded to eligible articles imported from beneficiary countries under the GSP or CBI programs.

House Amendment

Section 205 increases the duty-free tourist allowances for U.S. residents returning directly or indirectly from Andean beneficiary countries from $400 to $600 and for one additional liter of alcoholic beverages if produced in an Andean country.

Goods imported from U.S. insular possessions will receive duty treatment no less favorable than the treatment afforded such goods imported from a beneficiary country under the ATPA.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

INTERNATIONAL TRADE COMMISSION REPORTS ON IMPACT OF THE ANDEAN TRADE PREFERENCE ACT

(Section 206 of House amendment.)

Present Law

No provision. Section 215 of the CBERA requires a similar report by the ITC with respect to the CBI program.

House Amendment

Section 206 requires the ITC to prepare and submit to the Congress a report on the economic impact of the ATPA on U.S. industries and consumers and on the effectiveness of duty-free treatment in promoting drug-related crop eradication and crop substitution efforts of the beneficiary countries, initially on the first two years of the program and annually thereafter.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

IMPACT STUDY BY SECRETARY OF LABOR

(Section 207 of House amendment.)

Present law

No provision. Section 216 of the CBERA contains an identical requirement with respect to the CBI program.

House Amendment

Section 207 requires the Secretary of Labor to make an annual report to the Congress of its review and analysis of the impact of the ATPA on U.S. labor.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

EFFECTIVE DATE AND TERMINATION OF DUTY-FREE TREATMENT

(Section 208 of House amendment.)

Present Law

No provision.

House Amendment

Section 208 provides that the ATPA takes effect on the date of enactment, and that duty-free treatment terminates 10 years after the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

CONTROL AND ELIMINATION OF CHEMICAL AND BIOLOGICAL WEAPONS

(Title III of House amendment; Title III of conference agreement.)

SHORT TITLE

(Section 301 of House amendment; section 301 of conference agreement.)

Present Law

Title V of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (Public Law 102–138) entitles the provisions of that title the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

PURPOSES

(Section 302 of House amendment; section 302 of conference agreement.)

Present Law

Title V of Public Law 102–138 states the purposes of the title as mandating U.S. sanctions and encouraging international sanctions against chemical and biological weapons (CBW) country violators, supporting multilateral proliferation controls, urging cooperation with the Australia Group and other suppliers' groups, and requiring Presidential reports on chemical and biological weapons proliferation.

House Amendment

Same as present law.

Senate Amendment.

No provision.

Conference Agreement

The Senate recedes.

MULTILATERAL EFFORTS

(Section 303 of House amendment; section 303 of conference agreement.)

Present Law

Title V of Public Law 102–138 specifies measures that the United States shall take to lead and coordinate multilateral efforts to control the proliferation of chemical and biological weapons.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

UNITED STATES EXPORT CONTROLS

(Section 304 of House amendment; section 304 of conference agreement.)

Present Law

Title V of Public Law 102–138 directs the President to use the authorities of the Arms Control Act and the Export Administration Act of 1979 to control the exports of defense articles and services and other goods and technologies which he determines would assist a country in acquiring the capability to develop, produce, stockpile, deliver, or use chemical or biological weapons. It also provides for a list of goods and technology.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

SANCTIONS AGAINST CERTAIN FOREIGN PERSONS

(Section 305 of House amendment; section 305 of conference agreement.)

Present Law

Title V of Public Law 102–138 directs the President to impose sanctions on foreign persons who have knowingly and materially contributed to efforts by certain countries, projects, or entities to use, develop, produce, stockpile, or acquire chemical or biological weapons. It urges the President to undertake consultation with the country of jurisdiction in order to secure corrective action. It permits the President to delay imposition of sanctions against a foreign person for up to 90 days to pursue consultations and corrective action. It requires the President to report within 90 days after his determination on the status of the consultations and permits him to delay the imposition of sanctions for an additional 90 days if the President determines and certifies to Congress that the government is pursuing corrective actions. Upon making a determination that a foreign person has engaged in the prohibited activities, the President is required to impose government procurement sanctions against that person for at least 12 months, after which the sanctions may be terminated if the President determines and certifies that the violations have ceased. Certain exceptions also are provided (e.g., for certain defense articles and services or existing contracts). This section also provides for a Presidential waiver after 12 months, based on the President's determination that such a waiver is important to the national security interests of the United States.

House Amendment

Section 305 adds import sanctions to the sanctions which must be imposed against a foreign person found to be engaged in prohibited activities.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

DETERMINATIONS REGARDING USE OF CHEMICAL OR BIOLOGICAL WEAPONS

(Section 306 of House amendment; section 306 of conference agreement.)

Present Law

Title V of Public Law 102–138 directs the President, once information becomes available to him, to determine, within 60 days of his receipt of pertinent information, whether any foreign country has used or made substantial preparation to use chemical weapons in violation of international law or against its own nationals. It also stipulates that the Senate Foreign Relations Committee and House Foreign Affairs Committee Chairmen, upon consultation with their ranking Minority Members, may request from the President a report on the information held by the Executive branch pertinent to the suspected violation.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

SANCTIONS AGAINST USE OF CHEMICAL OR BIOLOGICAL WEAPONS

(Section 307 of House amendment; section 307 of conference agreement.)

Present Law

Title V of Public Law 102–138 applies to any government which the President determines has used, or is making substantial preparation to use, chemical or biological weapons in violation of international law or against its own nationals. It establishes a two-tier sanctions regime. Once a determination is made, the President shall impose immediately the specified U.S. Government-associated sanctions (foreign assistance, arms sales, arms sales financing, government credit or financing, exports of national security-sensitive goods and technology). If, after 3 months, the President is not able to certify to Congress that the violation has ceased, that the government in question has provided assurances about no further use, and that the government is willing to allow on-site inspections by international observers, then the President shall impose three out of five possible sanctions (multilateral development bank assistance, bank loans, further export restrictions, diplomatic relations, landing rights). The President may remove the country sanctions after 12 months if he determines and can certify these same changes in conduct by the government in question.

The Presidential waiver authority in present law allows the President to waive the imposition of sanctions if he determines and certifies to Congress that it is essential to the national security interests of the United States; and if the President notifies the Committee on Foreign Relations in the Senate and the Committee on Foreign Affairs in the House of Representatives of his determination and certification at least 15 days before the waiver takes effect, in accordance with foreign aid reprogramming procedures. The President also must report on the rationale for, and circumstances of, his waiver.

The President also may waive the sanctions if he determines and certifies to the Congress that there has been a fundamental change in the leadership and policies of the government of the sanctioned country, and if the President notifies the Congress at least 20 days before the waiver takes effect.

Present law also provides contract sanctity for contracts and agreements entered into before the date on which the President imposes sanctions unless such contract sanctity would assist the country in using chemical or biological weapons in violation of international law.

House Amendment

The landing rights sanction in section 307 specifies the steps to be taken by the Secretary of Transportation in implementing this sanction and providing for emergency procedures.

With respect to import sanctions, the President must notify the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives, rather than the Committees on Foreign Relations and Foreign Affairs, of his determination and certification at least 15 days before the waiver takes effect. The notification requirement with respect to sanctions other than import sanctions is unchanged.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

PRESIDENTIAL REPORTING REQUIREMENTS

(Section 308 of House amendment; section 308 of conference agreement.)

Present Law

Title V of Public Law 102–138 requires a Presidential report to Congress 90 days after enactment of the amendment and every 12 months thereafter. This report is intended to be comprehensive and to include such information as a description of actions taken to carry out this title; efforts by countries and subnational groups to develop, produce, and use chemical or biological weapons; and any use of such weapons by a country in violation of international law.

House Amendment

Same as present law.

Senate Amendment

No provision.

Conference Agreement

The Senate recedes.

REPEAL OF DUPLICATIVE PROVISIONS

(Section 309 of Senate amendment to House amendment; section 309 of conference agreement.)

Present Law

Title V of Public Law 102–138 establishes a framework of sanctions for the proliferation and use of chemical and biological weapons.

House Amendment

No provision.

Senate Amendment to House Amendment

Section 309 repeals Title V of Public Law 102–138 and the amendments to other laws made by that title. It establishes the effective date of Title III of H.R. 1724 and the amendments to other laws contained therein as the date of enactment of Public Law 102–138.

Conference Agreement

The House recedes.

DAN ROSTENKOWSKI,
SAM GIBBONS,
Managers on the Part of the House.

LLOYD BENTSEN,
BOB PACKWOOD,
Managers on the Part of the Senate.

Mr. ROSTENKOWSKI. Mr. Speaker, pursuant to House Resolution 306, I call up the conference report on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. SHARP). Pursuant to the rule, the conference report is considered as having been read.

The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 30 minutes, and the gentleman from Texas [Mr. ARCHER] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks on the conference report presently being considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the conference report on H.R. 1724. This report contains modifications to the recently enacted Emergency Unemployment Compensation Act of 1991 and a number of very important trade provisions.

The original bill provides for termination of the Jackson-Vanik provisions of the Trade Act of 1974 and permanent extension of most-favored-nation treatment to Hungary and Czechoslovakia.

On November 20, the House concurred in the Senate amendment to H.R. 1724, which replaces the three-tier benefit system enacted in the Emergency Unemployment Compensation Program of 6, 13, and 20 weeks with a two-tier system of 13 and 20 weeks. An additional 24 State programs could provide 13 weeks of extended benefits instead of 6 weeks, and 19 additional State programs would be eligible for the reachback provisions under the new program. To pay for these two changes, the duration of the program would be cut by 3 weeks, from July 4 to June 13, 1992, but no State would lose benefits.

Because this bill will be enacted after the effective date of the program, there are certain requirements in present law relating to eligibility requirements for extended benefits that States will not be able to meet. I want to clarify that it is the expectation of the conferees that the Department of Labor will waive these requirements, in order that States will not be penalized for failure to take actions that, given the retroactive nature of this legislation, they cannot reasonable be expected to take.

The conference report includes the provisions of all four trade bills which the House passed by voice voter on November 20 as a composite amendment to the Senate-passed bill. The Senate agreed to repeal of the ban in the Comprehensive Anti-Apartheid Act of 1986 on importation of Soviet gold coins, the extension of unconditional most-favored-nation status to the Baltic States of Estonia, Latvia, and Lithuania, and United States export controls and sanctions against foreign persons and countries involved in the production and use of chemical and biological weapons.

Finally, Mr. Speaker, the Senate agreed to the provisions of H.R. 661, the Andean Trade Preference Act, an administration initiative to provide economic alternatives for the Andean nations to combat illegal drugs. The conference agreement fulfills the instruction passed on November 21 to the House conferees to insist on the position of the House with regard to this legislation.

Mr. Speaker, I urge my colleagues to support the conference report on H.R. 1724.

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House conferees were very successful in winning approval of all of H.R. 1724's trade provisions. Those initiatives are important. The conference acted wisely.

Several of the provisions are reflective of the improved international situation in which we find ourselves.

They achieve permanent normalized trade relations with Hungary, Czechoslovakia, and the Baltic nations of Estonia, Latvia, and Lithuania.

Permanent most-favored-nation treatment is a positive signal we can send those who have struggled for economic reform and political freedom.

MFN for the Soviet Union is not contained in this bill. It is addressed, however, in a separate resolution which we passed last week—and which passed the Senate yesterday. This conference report does, however, contain a related measure.

It repeals the prohibition on the importation of gold coins from the Soviet Union—fulfilling a commitment made by the United States during talks on the bilateral trade agreement.

The chemical and biological weapons control measure contained in the conference report retains important waiver authority and flexibility for the President. It will be helpful in crafting an effective and judicious response to violations in this area.

I was particularly pleased by the inclusion of the Andean trade initiative in the final agreement. It is an important part of the President's war on illicit drug production. It fulfills his commitment to the Presidents of Bolivia, Columbia, Ecuador, and Peru to help them stimulate other exports.

Last week's 416-to-0 vote in the House on Phil Crane's motion to instruct conferees sent a clear signal to the Senate. This antidrug initiative is important.

The Senate got our message. The measure stayed in the conference agreement.

Final passage will send an equally clear signal to the Andean nations. The United States stands with them in their efforts to combat illegal drug trafficking by developing other products for export.

I can't say enough about the tireless efforts of our colleague Phil Crane, the ranking Republican on the Trade Subcommittee. He has been the congressional leader on the Andean initiative and deserves great credit for moving it forward. So does Chairman Rostenkowski—for holding firm on the House position in the face of last minute Senate hesitancy.

These trade issues are important. They deserve our support. I want to vote for them. Once again I can't. They remain packaged with still another unemployment benefit expansion—at levels I cannot support.

Less than 2 weeks ago, President Bush signed into law a $5.2 billion program of temporary extended benefits.

That plan had serious flaws—but at least it targeted relief to workers in States with high unemployment levels.

The package before us today amends that brand new law. It provides 7 more weeks of benefits in States which need them the least. Sixteen of those States have insured unemployment rates under 2 percent. Once again, Congress has cringed before the icon of political expediency.

This expansion strikes a blow at the foundation of the unemployment compensation program. It perverts the basic premise of extended benefits—that they should be concentrated in those areas where it's hardest for unemployed workers to find a job.

It's no fun being a lonely dissenting voice on this issue. The conference report will be adopted with little opposition.

It's important, though, that someone reminds this body of the groundwork we are laying today.

The next time we see the extended benefits issue, the call will be for a costly, permanent, nontargeted program which will require a significant tax increase.

I reserve the balance of my time.

Mr. PEASE. Mr. Speaker, I yield 2 minutes to the gentleman from Oklahoma [Mr. McCurdy].

Mr. McCURDY. Mr. Speaker, the conference report on H.R. 1724 contains virtually all of the provisions on chemical and biological weapons proliferations found in the conference report on H.R. 1415, the State Department authorization for fiscal years 1992 and 1993, which was passed by the House on October 8, 1991.

When the State Department authorization conference report was on the floor, I engaged in a colloquy with the gentleman from California [Mr. Berman]. The purpose of the colloquy was to clarify the circumstances in which the President could delay a determination that a foreign person had knowing and materially contributed to the proliferation of chemical or biological weapons.

Inasmuch as the provisions which gave rise to the colloquy are contained in the conference report now before us, and the purpose of legislative history, I include at this point in the Record a reflection of the colloquy between Mr. Berman and myself as it appeared on page H7640 of the Congressional Record for October 8, 1991.

Mr. McCURDY. Mr. Speaker, will the gentlemen yield?

Mr. BERMAN. I yield to the gentlemen from Oklahoma.

Mr. McCURDY. Mr. Speaker, if the chairman of the subcommittee would allow it, I would like to engage him in a colloquy.

I would like to clarify the provisions in H.R. 1415 that amend the Export Administration Act and the Arms Export Control Act to provide for sanctions against foreign companies involved in the development or production of chemical and biological weapons. These provisions mandate sanctions once the President makes a determination that a foreign person has "knowingly and materially" contributed to the efforts by any foreign country to develop or use biological or chemical weapons.

I strongly endorse this effort to sanction foreign companies involved in the proliferators of chemical and biological weapons. I rise to clarify one point concerning the Presidential determinations called for in these provisions. It has come to my attention that, in rare circumstances, a premature determination might inhibit the flow of information which is necessary to the full imposition of sanctions against all violators. It seems to me that the President should be allowed to delay such a determination where it is necessary to protect intelligence sources and methods which are being used to acquire further, possibly more important, information on CBW proliferation.

Is it your understanding that the protection of intelligence sources or methods for the stated purpose may be a factor in deciding on the timing of a Presidential determination that a foreign person is contributing to CBW proliferation?

Mr. BERMAN. Mr. Speaker, reclaiming any time, to answer the gentleman from Oklahoma [Mr. McCurdy], chairman of the House Permanent Select Committee on Intelligence, it is my understanding that the President, in rare circumstances, could delay a determination that a foreign person has knowingly and materially contributed to CBW proliferation if such a delay is necessary to protect intelligence sources or methods essential to the acquisition of further intelligence about CBW proliferation. Such a delay would be appropriate, for example, where the United States is using the sensitive intelligence sources or methods to gather information on other CBW proliferation, or where additional time is needed to develop nonsensitive information that could be used to explain publicly the imposition of sanctions. However, such a delay should not be indefinite, because the ultimate purpose of these provisions is to sanction those foreign persons that we know to be knowingly and materially involved in CBW proliferation. Moreover, the delay should only be for the purpose of furthering our policy of sanctioning those proliferators. A delayed determination would not be justified to further any other policy.

Mr. McCURDY. Mr. Speaker, if the gentleman would continue to yield, I thank my colleague for this clarification. I, too, would like to add my congratulations to the chairman of the subcommittee for his stewardship of this bill this year.

☐ 1910

Mr. ARCHER. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois. [Mr. Crane].

Mr. CRANE. Mr. Speaker, I am forced to rise in opposition to this conference report despite the fact that I strongly favor many of the trade-related initiatives within it, including a measure which I sponsored myself. I cannot, however, in good conscience support an unemployment measure which would expand benefits to States which have an unemployment rate of less than 2 or 3 percent. Surely, our country cannot afford to be so generous as to expand such benefits to States which clearly do not have an unemployment problem.

Despite my strong objection to the unemployment provision, I would like to remind my colleagues of the positive aspects of this legislation. H.R. 1724 includes two measures to extend Most-Favored-Nation trading status to Czechoslovakia and Hungary as well as to each of the individual Baltic States. Granting MFN to these deserving nations will show that America is committed to helping the growing number of Democratic nations throughout the world.

I am particularly pleased that the Andean Trade Preference Act has been incorporated into H.R. 1724. Having introduced the bill earlier this year, I have been very interested in seeing it move rapidly through the legislative process. The fact that it has come to the floor this quickly is evidence of this body's firm commitment to the war against drugs.

Drafted by the Administration, the Andean Trade Preference Act is a very important aspect of the President's enterprise for the Americas initiative. This bill is designed to assist the Andean Nations; Colombia, Bolivia, Ecuador, and Peru, in their struggle to eliminate the production, processing and shipment of illegal drugs by removing the duties on a number of products originating in the region. As a result of this measure, the poor peasant farmers—who have been forced to rely on the drug trade to earn their daily bread—will be provided with an opportunity to engage in legitimate crop production.

Since nearly all of the cocaine entering the United States originates in the Andean region, our country stands to gain a great deal from the Andean Trade Preference Act. And while this act alone will not eliminate the flow of cocaine into the United States, this program coupled with the others which fall under the purview of the enterprise for the Americas initiative, will contribute significantly to the growth and prosperity of the Andean countries, thereby giving them the means to address the serious drug problems facing our hemisphere.

In addition, passage of this measure will in effect be an acknowledgement of the substantial sacrifices the Andean countries have already made in the war against drugs. And perhaps today's actions will spur even greater efforts in that direction.

I wish to thank Chairman Gibbons, Chairman Rostenkowski, and the ranking Republican on the Ways and Means Committee, Bill Archer, for all their efforts in helping to move the Andean legislation so swiftly.

It is truly with deep regret that I must vote against H.R. 1724.

Mr. PEASE. Mr. Speaker, I yield 1 minute to the gentleman from Kentucky [Mr. Mazzoli].

Mr. MAZZOLI. Mr. Speaker, I thank the gentleman from Ohio, the acting chairman, for yielding this time to me, and commend the full committee chairman, the gentleman from Illinois [Mr. Rostenkowski], and our congressional classmate, the gentleman from Texas [Mr. Archer] for the work they have done.

Mr. Speaker, certainly I rise in support of permanent MFN status for the emerging East Bloc nations of Hungary and Czechoslovakia, and also for those brave nations, formerly a part of the U.S.S.R.; but in addition to those wonderful things, I would like to speak momentarily in favor of the amendments made by the distinguished Committee on Ways and Means on the formulas for the extension of unemployment benefits to the states.

My home State of Kentucky was one which would have received only 6 weeks, a very welcome 6 weeks, I must say, under the original bill, but now it will receive 13 weeks, which is even more important to the many thousands upon thousands of unemployed in Louisville and Jefferson County and throughout the Commonwealth of Kentucky.

So I realize it took a lot of doing to reach this point tonight. I want to thank all those responsible and rise in very strong support of this conference report.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. Santorum].

Mr. SANTORUM. Mr. Speaker, I thank the distinguished ranking minority member for whom I have as much respect for as any Member in this body for yielding me this time.

I was not going to speak on this bill, but when I heard the gentleman say he was a lone voice speaking out against this unemployment compensation switch, I wanted to join him in that. I voted against this bill the last time for that specific reason.

We in Pennsylvania are hurting and have been hurting for a long time in my area. This recession has taken a very heavy toll, but the people in Pennsylvania under this bill are going to get less benefits than they would

VOL 137
PT 24
NO 26
1991 — JA 3 1992
UMI

under the bill that is currently the law right now, because they shortened the timeframe that allows us to get benefits, so I am voting against this bill. I think every Member from Pennsylvania should vote against this bill.

If we are really serious about extending unemployment compensation benefits to the people who are hurting, who cannot get jobs, not in States in which we have 3-percent unemployment and have healthy economies, but in States where people are really hurting, if that is what this body cares about, about people who are hurting out there who cannot find jobs, then this is a sham. We should be giving those benefits to people who need them and in the States where it is hard to find jobs, and this is the State of Pennsylvania.

So I rise in support of the position of the gentleman on that and I will be opposing the vote, even though there may be many things in this bill, as the gentleman from Illinois just said, that I support and in fact was a cosponsor of the legislation; but I find this absolutely repugnant for this precedent and for this insult to the people who are really hurting in this country.

I also find it very ironic that we are here discussing unemployment compensation extensions when what we should be discussing is getting these people a job and considering a growth package right now before we get out of here for Thanksgiving.

Mr. PEASE. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I must say it pains me that my colleagues on the Ways and Means Committee, the distinguished gentleman from Texas [Mr. ARCHER] and the distinguished gentleman from Illinois [Mr. CRANE] like this bill a lot, but they cannot quite bring themselves to vote for it. Some of us, I guess, on this side, are going to have to provide the votes to give not only trade preferences to some very important nations around the world, but also unemployment benefits to workers who badly need them.

I rise to support of all the sections of this bill, particularly the portions dealing with MFN for Czechoslovakia and Hungary and the Batlic states.

Eastern Europe is going through a dramatic transformation. The people of those countries need a great deal of help in adjusting to changing their systems from one of communism to one of free enterprise and democracy. There is a limit to how much we can do in terms of actual aid to those countries, but certainly providing them with trading privileges, allowing them to join the community of nations in the trading arena can mean a great deal to them, can encourage investment in those countries, can allow them over a period of a few years hopefully to transform their economies and that will be the best contribution we can make to those countries.

Mr. Speaker, I had the privilege of being in Estonia in the first part of September of this year on the day that the Supreme Soviet officially recognized the independence of Estonia. On that occasion we were speaking to some Estonian officials about granting MFN and saying that we were going to do it for the Soviet Union and we were not sure whether we ought to make the granting of MFN for Estonia a part of the granting of that MFN for the Soviet Union or whether we ought to act separately.

I remember vividly that the Estonian official with whom we are talking turned and said, "As of today, the Soviet Union is a foreign nation as far as Estonia is concerned."

Last week, as has been noted, we did provide MFN to the Soviet Union. Today we do so for Estonia, Latvia, and Lithuania as well. I think that is a very appropriate step on our part.

Now, as far as unemployment compensation is concerned, I think we ought to set their record straight. We have heard three speakers now on the Republican side of the aisle complain about this bill, complain about what they would term I guess excessive generosity of these benefits.

I would hope perhaps the gentleman from Pennsylvania [Mr. SANTORUM] who spoke just before myself would leave his home in Pittsburgh and drive down the turnpike a little ways to Youngstown, OH, and tell unemployed workers in Youngstown that they are not entitled, that they are not worthy of the employment benefits which we provide in this bill.

☐ 1920

I am from Ohio. We have serious economic problems, high levels of unemployment in Ohio, and I certainly take exception to anybody who claims that we are not deserving, that our workers are not deserving of 13 weeks of unemployment compensation.

Let me enter into the RECORD a little history, as far as the unemployment compensation is concerned.

Early in the Reagan administration, at the insistence of the Reagan administration, the trigger mechanism for extended benefits was changed so it made it virtually impossible for States to trigger onto extended benefits, which I guess is the way the Reagan administration wanted it to be.

We had the anomaly that later on in the 1980's when we had extremely high unemployment in some States it still was not high enough to trigger onto extended benefits because the trigger was what they called the insured unemployment rate, which is those people who are collecting unemployment at any given time. And in many, many States with very high lingering, continuing high unemployment the number of people who are insured and collecting unemployment was rather small because they, most of them, had already exhausted their benefits.

So I and others during the 1980's have been working to make the trigger something other than the insured unemployment rate. We tried to use the total unemployment rate, much more indicative in deciding whether a State needs extended benefits or not. We passed two bills in this House and sent them to the President. Both of them used the total unemployment rate as the trigger mechanism.

The President thwarted our effort both times.

Three weeks ago we reported out of the Committee on Ways and Means again a bill that uses the total unemployment rate as the trigger mechanism. Using that trigger mechanism many States qualify for 6 weeks, some for 13, some for 20, and many of them qualified for reachback, for the persons who had already exhausted their benefits.

But the Bush administration was not happy with that. They could not tolerate so many unemployed people getting benefits. So they insisted on going back to the insured unemployment rate. And what that did was to knock several States back from 13 to 6 weeks and it knocked a number of States out of eligibility for reachback provisions at all.

The Senate in its wisdom during deliberations last week insisted that that injustice be corrected. That injustice has been corrected in the legislation before us now.

Under this legislation those in all States would be eligible for at least 13 weeks, some for 20 weeks, and most would be eligible, in fact, all would be eligible for some reachback provisions.

If my colleagues from the other side of the aisle want to complain that an arbitrary eligibility for at least 13 weeks goes contrary to reasoned determination of how many people are unemployed in any State, I would remind them that the real atrocity of the last 10 years has been the insistence of the Republican administrations, two of them, on using the insured unemployment rate, which certainly did not measure in any reasoned or rational way the necessity in one State or another to have extended benefits.

I think this is a very good package. I commend it to the support of my colleagues.

Mr. GUARINI. Mr. Speaker, I rise in strong support of the conference report on H.R. 1724, particularly as it relates to the Andean Trade Preference Act. I am pleased to be one of the original cosponsors of this most important piece of legislation, and it has been one of my top legislative priorities.

The Andean Trade Preference Act is targeted at four countries—Colombia, Boliva, Peru, and Ecuador. These countries have been waging a life and death struggle against illegal drugs. They are also emerging democracies. This legislation will help promote their

economic development. In so doing, these nations will be able to combat more effectively the narcotics problem and provide a standard of living for their people conducive to democratic development.

Nearly all the world's coca is produced in Peru and Bolivia. Colombia, as we all know, is the major processing point for cocaine. Although there is much that must be done in the United States to curb the demand for drugs, we cannot ignore the supply side of the equation. These countries, at great cost, have made considerable progress in dealing with the drug problem. Assassination and terrorism are scourges that they must live with.

President Bush, at the Cartagena summit, recognized the importance of increasing economic opportunities for these countries if they are to have any chance in their fight against illegal drugs. The President also recognized the mutual economic benefit to both Latin America and the United States of increased trading opportunities within our hemisphere.

This legislation will serve both purposes. The United States will have increased access to goods from the Andean region, as well as new export opportunities. This bill will improve economic prospects in the Andean region and create growth opportunities. It will lead to progress in eradicating the production, processing and shipment of illegal drugs. Improved trade will also enable these countries to buy more of our goods.

I urge my colleagues to support this conference report.

Mr. ARCHER. Mr. Speaker, I have no further requests for time and I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time and I move the previous question on the conference report.

The previous question was ordered.

The conference report was agreed to.

A motion to reconsider was laid on the table.

CORRECTING TECHNICAL ERROR IN ENROLLMENT OF H.R. 1724

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent for the immediate consideration of the concurrent resolution (H. Con. Res. 249) correcting a technical error in the enrollment of the bill, H.R. 1724.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

Mr. ARCHER. Mr. Speaker, reserving the right to object, I shall not object, but I take this time for the purpose of requesting the chairman of the Committee on Ways and Means to explain what is involved.

Mr. ROSTENKOWSKI. Mr. Speaker, will the gentleman yield?

Mr. ARCHER. I yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. I thank the gentleman for yielding.

Mr. Speaker, this resolution makes clear that individuals whose unemployment insurance benefit year expired after February 28, 1991 would be eligible for so-called reachback benefits under the Emergency Unemployment Compensation Act of 1991. It was requested by the administration, and it is consistent with the intent of this act.

Mr. ARCHER. Mr. Speaker, there is no opposition to this resolution as I understand it.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The SPEAKER pro tempore. The reading of the concurrent resolution will be dispensed with.

The text of the concurrent resolution is as follows:

H. CON. RES. 249

Resolved by the House of Representatives (the Senate concurring),

That, in the enrollment of the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, the Clerk of the House of Representatives shall make the following correction:

Strike section 3(a)(3) of the bill and insert the following:

(3) Section 102(f)(3)(A) of the Emergency Unemployment Compensation Act of 1991 is amended to read as follows:

"(A) IN GENERAL.—If any individual has a benefit year which ends after February 28, 1991, such individual shall be entitled to emergency unemployment compensation under this Act in the same manner as if such individual's benefit year ended no earlier than the last day of the first week following November 16, 1991."

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON H.R. 2212, UNITED STATES-CHINA ACT OF 1991

Mr. FROST. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 307 and ask for its immediate consideration.

The SPEAKER pro tempore. The Clerk read the resolution, as follows:

H. RES. 307

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The question is, Will the House now consider House Resolution 307?

The question was taken; and (two-thirds having voted in favor thereof) the House agreed to consider House Resolution 307.

The SPEAKER pro tempore. The gentleman from Texas [Mr. FROST] is recognized for 1 hour.

Mr. FROST. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from New York, [Mr. SOLOMON], pending which I yield myself such time as I may consume. During debate on this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, H. Res. 307 waives all points of order against the conference report on H.R. 2212 and against its consideration. The rule also dispenses with the reading of the conference report.

Mr. Speaker, H.R. 2212 stipulates that the President may not waive the Jackson-Vanik requirements with respect to granting MFN status to the products of the People's Republic of China unless he reports that China has met certain human rights objectives. In particular, China must account for and release citizens held for the 1989 Tiananmen Square incident.

In addition, Mr. Speaker, the President must report that China has made significant progress on trade and weapons proliferation issues.

Mr. Speaker, Representative PELOSI deserves our praise for her patience and perseverance. This measure is in large part due to her hard work. Chairman ROSTENKOWSKI also deserves our gratitude as does Mr. SOLOMON. They have worked hard to shepherd this measure through the Congress. We hope the President will sign it.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this rule, providing consideration for the conference report on the Pelosi bill which places conditions on the further extension of most-favored-nation trade status to the People's Republic of China. And I pay special tribute to the bill's sponsor, the gentlewoman from California [Ms. PELOSI], for without her driving determination, my colleagues, this bill would not be before us today.

I can assure you of that, Mr. Speaker, there are so many problems in our relations with Communist China that it's just hard to know where to start.

Whether we look at Chinese missile sales to unsavory governments throughout the World—at Chinese assistance to countries in building nuclear reactors, capable of producing fissionable materials for nuclear bombs—at Chinese repression in Tibet and slave labor production of goods—and so on, it's just plain clear that the Chinese Communist Government must change its ways.

Mr. Speaker, of course, nothing sticks in our craw more than the massacre perpetrated by Communist-led troops in Tiananmen Square, a little over 2 years ago.

Yes. Hundreds of innocent people died.

No. We have not forgotten.

Mr. Speaker, I am pleased to stand here and offer my support for the rule-making in order the conference report on H.R. 2212, a bill that will place conditions on any further extension of United States trade benefits to the so-called People's Republic of China.

Frankly, Mr. Speaker, I would have preferred, to cut off those benefits completely—to place punishing tariffs on their goods, goods—often made with slave labor and often bearing the counterfeit trademark of American-made goods—often secreted into the United States through third countries in clear violation of the bilateral trade agreements that that Government solemnly signed with us.

Mr. Speaker, in each of the last 2 years, I offered this House a chance to end most-favored-nation status for Communist China—to end it outright.

In both cases, an overwhelming majority of the Members voted for that course of action in passing my bills that recinded special trade preference for China.

Regrettably, the Senate failed to uphold the House's action in both cases.

Mr. Speaker, when I stood in the well of this House speaking on behalf of my first effort to cut off most-favored-nation status for Communist China, I pointed out that an article in the Chinese Communist Press, at that time, indicated that the Chinese Communist leadership felt, as early as 1 year after its Tiananmen massacre, that the world was already losing its concern for justice in that bloody crime.

I said then that Communist China would not respect democratic rights any more after the extension of most-favored-nation status, than it did before.

I believe that the facts since then, have borne me out.

Mr. Speaker, the Tiananmen Square massacre took place so soon after the extension of most-favored-nation status in 1989, that we could not act in time.

In 1990, our efforts died in the Senate.

Now, in 1991, a conference report is before us. One that will make it difficult for the so-called People's Republic of China, to get another extension next year without changing its ways.

Yes; I am disappointed that we have not yet cut off MFN.

But, yes; I am pleased at the progress that we are making toward that goal and this bill is a strong step in that direction.

The Communist Chinese Government knows now that we have not forgotten and that we will not forget.

Mr. Speaker, in closing, let me say this. I greatly respect President Bush and how hard he is working—using a carrot-and-stick approach—to get the Communists to respect their people's freedom and rights.

He is working to strengthen the international controls covering Chinese arms sales, and working to cut off Chinese counterfeit and slave-labor-manufactured goods.

☐ 930

He just recently sent Secretary of State Baker to Beijing with, what I am sure, was a clear message that their actions will have consequences.

But our purpose here today is to show that there is indeed a stick—a big stick—and that there will indeed be consequences for Communist China—if his calls for reform continue to fall on deaf ears.

My colleagues, passage of the bill this rule makes in order will help President Bush get the message across to the old men in the so called Great Hall of the People that we, the American people, will not tolerate a ruthless regime that has no respect for the human rights of decent, helpless people, the citizens of China. Mr. Speaker, that is why I urge support of this rule, and I urge support of the conference report that will follow it.

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, for the purposes of debate only, I yield 2 minutes to the gentleman from Ohio [Mr. PEASE].

Mr. PEASE. Mr. Speaker, I rise in support of this bill, in very strong support, and I thank our chairman, the gentleman from Illinois [Mr. ROSTENKOWSKI], for his active leadership in bringing it to the floor today.

Mr. Speaker, It is going to be unusual, I think for almost anybody to stand up on the floor today and discuss this bill without making reference to the gentlewoman from California [Ms. PELOSI]. If ever there was a bill which owed its progress to one person, this is it. She has been absolutely tenacious in advancing the bill, pushing and retrieving it from various backwaters, making sure that it did not get forgotten and getting it on the floor today, and I would like to commend her for the outstanding job that she has done in getting this piece of legislation before us.

Mr. Speaker, after Tiananmen Square I tried to figure out what our response should be. I introduced very shortly thereafter a bill to condition MFN for China. We had a debate 2 years ago, and last year, earlier this year on that, my bill, and that of the gentlewoman from California [Ms. PELOSI] and others. I am pleased that my bill played a small part in this effort but whatever role I played is small compared to that of the gentlewoman from California [Ms. PELOSI], and I want to give full credit to her.

Mr. Speaker, I rise then in support of this rule and in support of the conference report.

Mr. SOLOMON. Mr Speaker, I yield such time as he may consume to the distinguished gentleman from California. [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, I rise in strong support of the gentlewoman from California [Ms. PELOSI]. She chose to come over to this side of the aisle with her fight against the MFN for China unless they met certain requirements, and I think that these requirements are in order. It is very seldom, I think, that we can find that on foreign issues that we can support the other side of the aisle, and this is one that I am glad to. Every country that I would ever have fought against in combat, the Chinese, and the Soviets, and even the French, would supply weapons to those countries. It is not just the slavery, it is not just the drug trade, but I think the weapons sales and how they could influence the future of the world.

Mr. Speaker, I think to give them most-favored-nation status would be a crime in itself, and I thank the gentlewoman from California [Ms. PELOSI] for her foresight.

Mr. SOLOMON. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. Mr. Speaker, I thank the distinguished gentleman from New York [Mr. SOLOMON] for yielding this time to me and for his hard work on this bill, and also the distinguished gentlewoman from California [Ms. PELOSI] for her leadership on this bill.

Mr. Speaker, let me simply say that we are right now facing a world in which dangerous technology is being transferred at a very rapid rate, and this technology is going to result in over 15 nations having ICBM capability within a very short period of time, and other lesser missile technology and lesser missile capability that can mean in the end dead Americans in a conflict and dead allies of America.

Mr. Speaker, we saw in the Iraqi situation a lot of Western technology coming back at us and back at our soldiers and sailors in the sands of the Middle East. China can either have a salutary effect on this situation, or they can exacerbate this enormous problem of technology transfer to irresponsible parties. So far China has opted for the latter route, and they have in transferring Silkworm missiles and other technology to adversaries of America placed the men and women of America's Armed Forces in harm's way.

Mr. Speaker, I applaud the authors of this measure for the conditions that they are laying down for China to follow.

☐ 1940

I think China is going to largely determine whether or not the terrorists with high technology, in this new era we are moving into as we leave the Soviet-United States confrontation era, the era with terrorists and their high technology, will be largely affected by the political decisions that China

makes. I hope that China makes the right decisions. If they do not make the right decisions, they certainly should not be the beneficiaries of American trade preferences.

Second, Members of this House have visited Chinese labor camps and have seen for themselves that slave labor indeed is being used to make products that are competing with American products on American shelves at American retail outlets. That is absolutely unacceptable, and I know that this measure offered by the gentlewoman from California [Ms. PELOSI] and the gentleman from New York addresses this area also, that of slave labor being utilized to create indeed exports to the very country that is condemning the activities that took place at Tiananmen Square in actions subsequent to those.

Let me thank the gentlewoman from California [Ms. PELOSI] and the gentleman for their leadership in this area, and I thank the chairman of the full committee, the gentleman from Illinois [Mr. ROSTENKOWSKI].

Mr. Speaker, I stand in full support of the resolution.

Mr. SOLOMON. Mr. Speaker, I yield such time as he may consume to another distinguished Californian, the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I thank the gentleman for yielding time to me, and I rise in strong support of this rule and of the measure.

I want to join in congratulating the gentlewoman from California [Ms. PELOSI] as well as the gentleman from New York [Mr. SOLOMON], along with the many others who have been working on this legislation for a long time now.

I would like to join in the remarks that the gentleman from New York made about President Bush and Secretary of State Baker with regard to this issue. Recently I had the occasion to hear Jim Baker explain what had happened in China. I think some progress is being made, but I think—and he probably would not agree with this—that by passing this resolution we will help them, not hurt them, and get the Chinese to do the right thing.

Mr. SOLOMON. Mr. Speaker, I yield 4 minutes to the gentleman from South Carolina [Mr. RAVENEL].

Mr. RAVENEL. Mr. Speaker, I rise in strong support of the legislation, and I want to associate myself with the remarks previously made by the gentlewoman from California [Ms. PELOSI], and the gentleman from New York [Mr. SOLOMON].

I was over there during the summer with a group that was sponsored by the Chamber of Commerce of Hong Kong. Quite frankly, I had never been to the Far East, and we were just absolutely amazed by what we encountered when we went over there. Senator Brown headed the delegation, and there were about a dozen Members of Congress who went with us.

We found that the Chinese people were well-fed and well-clothed, but if they professed themselves politically, they were grabbed up off the street or wherever they happened to be and they were summarily thrown into jail. They disappeared and, I imagine, in some instances worse.

The estimates over there are that there are approximately 10 million people working in prisons in China, and they manufacture every conceivable thing under the sun. Most of those manufactured items are shipped to Hong Kong. The labels are changed, and then they are sold throughout the world. A great many of those prison-made items are sold in the United States.

In my State of South Carolina we are losing approximately 5,000 textile jobs a year, so it affects us directly.

We were denied permission to visit the dissidents who were in prison over there, one in particular, a young man by the name of Wang Juntao. Everywhere we went, we requested permission to see the leaders, and finally we got to the First Secretary of the Communist party in China, and he said, no, he could not make arrangements for us to meet Wang Juntao, who was being held under very severe conditions.

So I asked the man, I said, "Let me tell you something, man. You are the head knocker here in China. If you can't make arrangements for us to meet Mr. Wang Juntao, who in the world can?"

Well, he sloughed that answer off, but subsequently, through some efforts of some good Caucasians who were over there, we were able to meet with his wife, Mrs. Ho. You probably read just the other day when Mrs. Ho tried to meet with some of Secretary Baker's delegation, she was arrested and held overnight. This is a charming young lady. She confirmed what we had been told about the conditions under which these young folks were held.

At one of the meetings we had with the Chinese officials, one of them approached me on a lesser level, I feel sure, and he said, "What do you think we ought to do?"

I said, "We need a sign. We need an expression of good will back in the United States, in the Congress, before we vote on most-favored-nation status."

He said, "What would you suggest?"

I said, "Why don't you let these young kids go? You've got less than a hundred of them now still in jail from the Tianamen Square situation. Why don't you just let them go and let them come to the United States? We will take them as political refugees. They will all continue their education at colleges and universities around our country, and probably in 10 or 15 years they will all be Chinese millionaires. That is the kind of thing you need to do as an expression of good will."

Of course, we have heard nothing from them. They are just as intransigent now as they were back then. I thought surely when Mr. Baker went to China as a representative of the President, he would have more success than our delegation and Ms. PELOSI'S delegation had. But absolutely not. They have absolutely stonewalled the situation.

What they cannot understand is why we associate trade with human rights. They just cannot understand this. We told them repeatedly all of this. We said that in our country the two are inseparable, and the American people do not want to do business with people who treat folks like they are treating them

So I think the legislation provided by this rule is apropos and very much on time. I hope that all the Members will vote for the rule by a substantial margin.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Texas [Mr. BARTON], who has been so active and helpful in this area.

Mr. BARTON of Texas. Mr. Speaker, I, too, rise in strong support of the rule and the legislation, the conference report granting most-favored-nation trade status for China.

I would like to commend the gentlewoman from California [Ms. PELOSI] for the continuing good work she has done on this issue, as well as the gentleman from New York [Mr. SOLOMON], the gentleman from New York [Mr. GREEN], the gentleman from Washington [Mr. MILLER], the gentleman from Georgia [Mr. JONES], and many, many others for the fine work they have done.

I consider this bill to be a continuing step in our efforts to make the current leadership in communist China understand that the American people will not forget what happened at Tiananmen Square, that we are sincerely dedicated to keeping hope alive that one day freedom will be allowed to flourish in that land. This is another bill that would do that.

I would point out that last week several of my colleagues and I introduced another piece of legislation that will allow those Chinese students and adult nonstudents who are in this country and were in this country when Tiananmen Square occurred to stay in this country permanently should they choose to do so, if the President has not certified that conditions exist so that they would be allowed to return peacefully to China.

We all know that Secretary of State Jim Baker recently returned to China. He went there with high hopes, and unfortunately those hopes were frustrated.

☐ 1950

The Chinese Government refused to make any concessions. In fact, several individuals that wanted to meet with the Secretary were prevented forcefully from meeting with him.

While the Secretary went with all the good intentions, he did not come back with any substantive progress.

This bill that we will vote on later this evening is a cleaned up version of the bill that passed the House overwhelmingly not too many months ago. It is a much cleaner bill. It is much more narrowly drawn, much more straightforward, but still has real conditions for MFN to be granted. It would require that the Chinese release the prodemocracy demonstrators currently imprisoned in China or Tibet; it would require that they commit not to sell missiles to Syria or Iran; it would require that there be significant progress in human rights, in nuclear proliferation, and in trade.

It is a straightforward piece of legislation. If we pass it tonight overwhelmingly, I am sure that when we reconvene in the second session of this Congress, that it will also pass in the Senate, and hopefully the President will sign it and it will set the stage to really begin the process of bringing China back into the League of Nations.

Mr. Speaker, I thank the gentleman for allowing me this time.

Mr. FROST. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to take a minute to commend my colleague from Texas [Mr. BARTON] who just spoke, who has consistently spoken out on this issue over a long period of time, even when other Members were not calling attention to it.

Mr. SOLOMON. Mr. Speaker, in yielding back the balance of my time, let me just point out that there are few countries left in the world that still operate under the failed political philosophy of communism, a philosophy that has no respect for human life and human decency at all. I guess there is still Cuba, there is still Vietnam, there is still North Korea, and, of course, there is still the People's Republic of China with one-fifth of the world's population.

That is a shame. Many countries throughout the world are throwing off the shackles of communism and moving toward democracy. But it isn't happening yet in China.

If we are going to be successful in China, I just want to say once again that the gentlewoman from California [Mr. PELOSI] in her dogged determination to see this bill through the House and the Senate and back here with this conference report in what we hope are the waning hours of this session this year, will certainly have to get all the credit in the world. I pay deep tribute to her for that.

Mr. Speaker, I hope that every Member will support this rule and then give unanimous support to a very fine bill that will send the right message to the Chinese leadership: That we will not tolerate this kind of treatment of decent human beings.

Mr. Speaker, I urge support of the rule.

Mr. Speaker, I yield back the balance of my time.

Mr. FROST. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

Mr. ROSTENKOWSKI submitted the following conference report and statement on the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes:

CONFERENCE REPORT (H. REPT. 102–392)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2212), regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "United States-China Act of 1991".

SEC. 2. FINDINGS AND POLICY.

(a) FINDINGS.—The Congress makes the following findings:

(1) The Chinese people have provided a dramatic demonstration of their desire for democratic freedoms. Thousands of courageous Chinese students and workers, men and women, demonstrated on June 4, 1989, that they were willing to die, or face imprisonment or exile, in pursuit of democratic self-determination and human rights.

(2) The Government of the People's Republic of China, which is a member of the United Nations and obligated to uphold the Charter of the United Nations and the Universal Declaration of Human Rights, continues to engage in flagrant violations of internationally recognized human rights, including—

(A) torture and cruel, inhuman, or degrading treatment or punishment;

(B) prolonged detention without charges and trial and sentencing of persons solely for the nonviolent expression of their political views;

(C) arbitrary arrest and the unacknowledged detention of persons; and

(D) use of forced labor of prisoners to produce cheap products for export to countries, including the United States, in violation of international labor treaties and United States law.

(3) The Government of the People's Republic of China has denied Chinese citizens who support the pro-democracy movement and others the right of free, unimpeded emigration.

(4) The Government of the People's Republic of China has restricted the number of students permitted to study abroad, required some college students to attend military indoctrination courses, and required university graduates to work 5 years after graduation and to pay large sums of money before being eligible to apply for study outside China.

(5) The Government of the People's Republic of China continues to violate the internationally recognized human rights of the people of Tibet and uses the People's Liberation Army and police forces to intimidate and repress Tibetan and Chinese citizens peacefully demonstrating for democratic change and religious freedom.

(6) The Government of the People's Republic of China is engaging in unfair trade practices against the United States by failing to protect intellectual property rights, raising tariffs, employing taxes as a surcharge on tariffs, using discriminatory customs rates, imposing import quotas and other quantitative restrictions, barring the importation of some items, using licensing and testing requirements to limit imports, and falsifying country of origin documentation to transship textiles to the United States through third countries.

(7) The Government of the People's Republic of China has not demonstrated its willingness and intention to participate as a full and responsible party in good faith efforts to control the proliferation of dangerous military technology and weapons, including biological, chemical, and nuclear weapons technologies.

(8) The Government of the People's Republic of China has interfered with the movement toward self-rule by the people of Hong Kong in their political, cultural, and economic activities.

(9) The President of the United States has suspended all government-to-government sales and commercial exports of defense articles and services to China and issued an Executive order to treat sympathetically requests by Chinese students in the United States to extend their stay.

(10) United States policy toward China has failed to prevent or discourage the People's Republic of China from—

(A) committing violations of internationally recognized human rights, including the rights of the people of Tibet;

(B) taking action that results in the proliferation of dangerous military technology and weapons; and

(C) engaging in unfair trade practices against the United States.

(b) POLICY.—It is the sense of the Congress that—

(1) with respect to the actions of the People's Republic of China in the areas of human rights, weapons proliferation, and unfair trade practices, the President should take such actions as necessary to achieve the purposes of this Act, including, but not limited to—

(A) instructing the United States delegation to the United Nations Commission on Human Rights to actively seek the appointment of a special rapporteur to investigate violations of internationally recognized human rights in China and to seek allied and Soviet support for such an investigation;

(B) directing the United States Trade Representative to take appropriate action pursuant to section 301 of the Trade Act of 1974 with respect to the trade practices of the People's Republic of China which are unreasonable, unjustifiable, or discriminatory and which burden or restrict United States commerce;

(C) interacting more forcefully with our allies, especially Japan and European countries, to accomplish the restriction of transfers of technology to China; and

(D) encouraging members of the Missile Technology Control Regime, and other countries, as appropriate, to set up a working group to develop a common policy concerning missile transfers to other countries by the People's Republic of China;

(2) the sanctions being applied against the People's Republic of China on the date of enactment of this Act should be continued and strictly enforced; and

(3) the President should submit the report required by the Joint Resolution relating to the approval and implementation of the proposed agreement for nuclear cooperation between the United States and the People's Republic of China (Public Law 99–183; 99 Stat. 1174).

SEC. 3. ADDITIONAL OBJECTIVES WHICH THE GOVERNMENT OF CHINA MUST MEET IN ORDER TO RECEIVE NONDISCRIMINATORY TREATMENT.

(a) IN GENERAL.—The President may not recommend the continuation of a waiver in 1992 for a 12-month period under section 402(d) of the Trade Act of 1974 for the People's Republic of China unless the President reports in the document required to be submitted by such section that the government of that country—

(1) has, in regard to the events that led up to, and occurred during and after, the violent repression of dissent in Tiananmen Square on June 3, 1989—

(A) provided an accounting of citizens who were detained, accused, or sentenced as a result of the nonviolent expression of their political beliefs during those events; and

(B) released citizens who were imprisoned after such detention, accusation, or sentencing; and

(2) has made overall significant progress in achieving the objectives outlined in each of the categories of—

(A) human rights, as described in subsection (b);

(B) trade, as described in subsection (c); and

(C) weapons proliferation, as described in subsection (d).

(b) HUMAN RIGHTS.—The human rights objectives described in this subsection are—

(1) taking appropriate action to prevent gross violations of internationally recognized human rights in the People's Republic of China, including Tibet;

(2) preventing exports of products made by prisoners and detainees assigned to labor camps, prisons, detention centers, and other facilities holding detainees, and allowing United States officials and international humanitarian and intergovernmental organizations to inspect the places of detention suspected of producing export goods to ensure that appropriate steps have been taken and are in effect;

(3) terminating religious persecution in the People's Republic of China, including Tibet, and releasing leaders and members of all religious groups detained, incarcerated, or under house arrest as a result of the expression of their religious beliefs;

(4) removing restrictions in the People's Republic of China, including Tibet, on freedom of the press and on broadcasts by the Voice of America;

(5) terminating the acts of intimidation and harassment of Chinese citizens in the United States, including the return and renewal of passports confiscated by authorities as retribution for prodemocracy activities;

(6) ensuring access of international human rights monitoring or humanitarian groups to prisoners, trials, and places of detention;

(7) ensuring freedom from torture and from inhumane prison conditions;

(8) terminating prohibitions on peaceful assembly and demonstration imposed after June 3, 1989;

(9) fulfilling its commitment to engage in high-level discussions on human rights issues; and

(10) adhering to the Joint Declaration on Hong Kong that was entered into between the United Kingdom and the People's Republic of China.

(c) TRADE.—The trade objectives described in this subsection are—

(1) providing adequate protection of United States patents, copyrights, and other intellectual property rights;

(2) providing American exporters fair access to Chinese markets, including lowering tariffs, removing nontariff barriers, and increasing the purchase of United States goods and services; and

(3) ceasing unfair trade practices against the United States which are unreasonable and discriminatory and which burden or restrict United States commerce.

(d) WEAPONS PROLIFERATION.—The weapons proliferation objectives described in this subsection are—

(1) adopting a national policy which adheres to, and ceasing activities inconsistent with—

(A) the limitations and controls contained in the Missile Technology Control Regime;

(B) the standards and guidelines set by the Nuclear Suppliers Group; and

(C) the standards and guidelines set by the Australia Group on chemical and biological arms proliferation; and

(2) taking clear and unequivocal steps to assure that the People's Republic of China is not assisting and will not assist any nonnuclear weapons state, directly or indirectly, in acquiring nuclear explosive devices or the materials and components for such devices.

SEC. 4. SANCTIONS BY OTHER COUNTRIES.

If the President decides not to seek a continuation of a waiver in 1992 under section 402(d) of the Trade Act of 1974 for the People's Republic of China, he shall, during the 30-day period beginning on the date that the President would have recommended to the Congress that such waiver be continued, undertake efforts to ensure that members of the General Agreement on Tariffs and Trade take similar action with respect to the People's Republic of China.

SEC. 5. ENFORCEMENT OF PROHIBITION AGAINST IMPORTATION OF CONVICT-MADE GOODS.

Section 307 of the Tariff Act of 1930 (19 U.S.C. 1307) is amended—

(1) by striking "All goods" and inserting "(a) IN GENERAL.—All goods";

(2) by striking "'Forced Labor,'" and inserting "(b) FORCED LABOR.—'Forced Labor,'"; and

(3) by adding at the end thereof the following new subsection:

"(c) PENALTIES.—

"(1) IN GENERAL.—Any person who—

"(A) enters or imports, or attempts to enter or import, goods, wares, articles, or merchandise into the customs territory of the United States in violation of subsection (a); and

"(B) knew or should have known that such entry or importation, or attempted entry or importation, was in violation of such subsection, shall be liable to pay to the United States a civil penalty.

"(2) AMOUNT OF PENALTY.—Any civil penalty imposed under paragraph (1) shall be in an amount not to exceed—

"(A) $10,000 for one violation;

"(B) $100,000 in the case of a person previously subject to a penalty for one violation under this section; or

"(C) $1,000,000 in the case of a person previously subject to penalties for more than one violation under this section.

"(3) The Secretary of the Treasury shall by regulation prescribe procedures for imposing penalties under this section, including, but not limited to, prepenalty notice.

SEC. 6. REPORT BY THE PRESIDENT.

If the President recommends in 1992 that the waiver referred to in section 3 be continued with respect to the People's Republic of China, the President shall include in the document required to be submitted to the Congress by section 402(d) of the Trade Act of 1974 a report on the extent to which the Government of the People's Republic of China has, during the period covered by the report, complied with the provisions of section 3.

SEC. 7. DEFINITIONS.

For the purposes of this Act:

(1) ACTS OF INTIMIDATION AND HARASSMENT.—The term "acts of intimidation and harassment" in section 3(b)(5) means actions taken by the Government of the People's Republic of China that are intended to deter or interfere with, or to be in retaliation for, the nonviolent expression of political beliefs by Chinese citizens within the United States.

(2) DETAINED AND IMPRISONED.—The terms "detained" and "imprisoned" include, but are not limited to, incarceration in prisons, jails, labor reform camps, labor reeducation camps, and local police detention centers.

(3) FORCED LABOR.—The term "forced labor" has the meaning given to such term by section 307 of the Tariff Act of 1930 (19 U.S.C. 1307).

(4) GROSS VIOLATIONS OF INTERNATIONALLY RECOGNIZED HUMAN RIGHTS.—The term "gross violations of internationally recognized human rights" in section 3(b)(1) includes, but is not limited to, torture, cruel, inhuman, or degrading treatment or punishment, prolonged detention without charges and trial, causing the disappearance of persons by the abduction and clandestine detention of those persons, secret judicial proceedings, and other flagrant denial of the right to life, liberty, or the security of any person.

(5) MISSILE TECHNOLOGY CONTROL REGIME.—The term "Missile Technology Control Regime" means the agreement, as amended, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan, announced on April 16, 1987, to restrict sensitive missile-relevant transfers based on an annex of missile equipment and technology.

(6) SIGNIFICANT PROGRESS.—(A) The term "significant progress" in section 3(a)(2) means the implementation of measures that will meaningfully reduce, or lead to the termination of, the practices identified in that paragraph.

(B) With respect to section 3(d)(1), progress may not be determined to be "significant progress" if the President determines that, on or after November 26, 1991, the People's Republic of China has transferred to Syria or Iran—

(i) ballistic missiles or missile launchers for the weapons systems known as the M-9 or the M-11; or

(ii) material, equipment, or technology which would contribute significantly to the manufacture of a nuclear explosive device.

And the Senate agree to the same.

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

H.R. 2212, REGARDING THE EXTENSION OF MOST-FAVORED-NATION TREATMENT TO THE PRODUCTS OF THE PEOPLE'S REPUBLIC OF CHINA, AND FOR OTHER PURPOSES

1. Short Title (Section 1 of Senate Amendment; Section 1 of Conference Agreement)

Present law

No provision.

House bill

No provision.

Senate amendment

United States-China Act of 1991.

Conference agreement

House recedes.

2. Findings and Policy (Section 2 of Senate Amendment; Section 2 of Conference Agreement)

Present law

No provision.

House bill

No provision.

Senate amendment

Sets forth certain findings relating to the prodemocracy demonstrations of the Chinese people; the actions and policies of the Government of China, including its continuing violations of internationally-recognized human rights, the denial of free emigration to citizens supporting the prodemocracy movement, weapons proliferation, support for the Khmer Rouge, restrictive trade practices, and interference in Hong Kong; and the policies of the United States toward China. States the sense of the Congress that U.S. sanctions in the areas of technology exports and international monetary loans should be continued and strictly enforced and that the U.S. Government should consult with the U.S. business community regarding guidelines for corporate activity in China.

Conference agreement

House recedes with an amendment: (1) to make various conforming, clarifying, and technical changes; (2) to drop the finding relating to the Khmer Rouge, and the policy statement relating to guidelines for corporate activity; (3) to merge section 3 of the Senate amendment (relating to Presidential action) into the policy section, with conforming changes; and (4) to add to the policy section a provision that the President should submit the report required by Public Law 99-183 regarding China's nuclear nonproliferation policies.

3. Renewal of MFN Status—Additional Objectives (Section 1(a) of House Bill; Section 4 of Senate Amendment; Section 3 of Conference Agreement)

A. HUMAN RIGHTS OBJECTIVES

Present law

Section 402 of the Trade Act of 1974, as amended by the Customs and Trade Act of 1990, sets forth three objectives relating to freedom of emigration which must be met, or waived by the President, before a nonmarket economy country may be granted MFN status. A Presidential waiver must be renewed annually, in order for a country's MFN status to remain in effect.

Section 307 of the Tariff Act of 1930 prohibits the importation of goods made by convict or forced labor, and directs the Secretary of the Treasury to prescribe regulations for the enforcement of the prohibition.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President reports that the Chinese government—

(1) has provided an accounting of citizens detained, accused, or sentenced as a result of the nonviolent expression of their political beliefs during and after the June 1989 Tiananmen Square incident;

(2) has released citizens who were imprisoned after such detention, accusation, or sentencing;

(3) is adhering to the Joint Declaration on Hong Kong;

(4) does not support or administer any program of coercive abortion or involuntary sterilization; and

(5) has taken appropriate steps to prevent exports of products made by prisoners and detainees, and has allowed U.S. and international inspection of places of detention.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government—

(1) has accounted for those citizens detained, accused, or sentenced as a result of the nonviolent expression of their political beliefs;

(2) has released those citizens who were imprisoned after such detention, accusation or sentencing;

(3) is adhering to the Joint Declaration on Hong Kong;

(4) does not support or administer any program of coercive abortion or involuntary sterilization; and

(5) has ceased exporting to the United States products made by convict, forced, or indentured labor under penal sanctions.

Conference agreement

Senate recedes with an amendment: (1) dropping the objective relating to abortion; and (2) moving the objectives relating to prison labor exports and Hong Kong to the "significant progress" section, with conforming changes.

B. WEAPONS PROLIFERATION OBJECTIVES

Present law

The Missile Technology Control Act (Title VII of Public Law 101-510) establishes requirements for negotiations and controls on the proliferation of missiles and technology, with trade and foreign policy sanctions required for violations.

House bill

Provides that the President may not recommend the continuation of a wavier in June 1992 for a 12-month period for China, unless the President reports that the Chinese government has provided assurances that it—

(1) is not assisting and will not assist any nonnuclear state is acquiring nuclear explosive devices or the materials and components for such devices; and

(2) will not contribute to the proliferation of missiles and adheres to the Missile Technology Control Regime, at least with respect to countries in the Middle East and South Asia.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has ceased supplying arms and military assistance to the Khmer Rouge.

Conference agreement

The conferees agreed to merge the various provisions in the bill relating to weapons proliferation into one provision and to move that provision to the "significant progress" category. The provision sets forth two objectives relating to weapons proliferation and adds a definition which states that progress may not be determined to be "significant progress," if the President determines that, on or after November 26, 1991, the People's Republic of China has transferred to Syria or Iran certain missiles or nuclear technologies or devices.

Senate recedes on the Khmer Rouge objective.

C. TRADE OBJECTIVES

Present law

No provision.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President reports that the Chinese government has moderated its position on Taiwan's accession to the GATT.

Senate amendment

No provision.

Conference agreement

Senate recedes, with an amendment moving the provision to the "significant progress" section.

D. "SIGNIFICANT PROGRESS" OBJECTIVES

(i) Human rights

Present law

No provision.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President reports that the Chinese government has made overall significant progress in:

(1) taking appropriate action to prevent gross violations of internationally recognized human rights in China, including Tibet;

(2) ending religious persecution in China, including Tibet;

(3) removing restrictions in China, including Tibet, on press freedom and VOA broadcasts;

(4) terminating intimidation and harassment of China citizens in the United States;

(5) ensuring access of international human rights groups to prisoners, trials, and places of detention;

(6) ensuring freedom from torture and inhumane prison conditions; and

(7) terminating prohibitions on peaceful assembly and demonstration imposed after June 3, 1989.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has made significant progress in:

(1) taking appropriate action to prevent gross violations of internationally-recognized human rights and fundamental freedoms in China and Tibet, including ending religious persecution and restriction on press freedom and VOA broadcasts;

(2) terminating intimidation and harassment of Chinese citizens in the United States;

(3) ensuring access of international human rights groups to prisoners, trials, and places of detention;

(4) fulfilling its commitment to engage in high-level discussions on human rights;

Conference agreement

Senate recedes with an amendment adding an objective relating to high-level discussions on human rights.

(ii) Weapons proliferation

Present law

See description under item 3(b) above.

House bill

No provision

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has made significant progress in adopting a national policy which adheres to, and ceasing activities inconsistent with, the Missile Technology Control Regime and the standards and guidelines set by the Nuclear Suppliers group and the Australia Group on chemical and biological arms proliferation.

Conference agreement

See description under item 3(b).

(iii) Trade

Present law

Section 301 of the Trade Act of 1974 authorize the U.S. Trade Representative (USTR) to take action to enforce U.S. rights under trade agreements or eliminate foreign practices that violate trade agreements or are unjustifiable and burden or restrict U.S. commerce.

"Special" 301 authorizes the USTR to take action to achieve protection of U.S. intellectual property rights, and market access for U.S. persons that rely on intellectual property rights, in priority foreign countries.

House bill

No provision.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government has made significant progress in—

(1) providing adequate protection of U.S. intellectual property rights;

(2) providing American exporters fair market access, including lowering tariffs, removing nontariff barriers, and increasing the purchase of U.S. goods and services; and

(3) ceasing unfair trade practices against the United States which are unreasonable and discriminatory and burdensome and restrict U.S. commerce through a variety of unfair trade practices.

Conference agreement

House recedes with an amendment dropping the detailed list of unfair trade practices (which is retained in the "Findings" section).

(iv) Other

Present law

Public Law 99-183, relating to nuclear cooperation between the U.S. and China, prohibits exports and transfers of U.S. nuclear material, facilities, or components to China unless the President certifies and reports to Congress that China has met certain requirements related to nuclear nonproliferation.

House bill

Provides that the President may not recommend the continuation of a waiver in June 1992 for a 12-month period for China, unless the President has made the certification and submitted the report required by Public Law 99-183 on China's nuclear nonproliferation policies.

Senate amendment

Provides that China may not be granted MFN status for the 12-month period beginning July 3, 1992, unless the President reports that the Chinese government is reducing assistance to Cuba, whether in the form of subsidized trade, management of trade balances, or in any other form.

Conference report

House recedes, with an amendment to add statement to policy section that the President should submit the report required by Public Law 99-183 regarding China's nuclear nonproliferation policies. See also description under item 3(b) with respect to weapons proliferation.

Senate recedes on objective relating to Cuba.

4. Presidential Action (Section 3 of Senate Amendment; Section 1(b) of Conference Agreement

Present law

No provision.

House bill

No provision.

Senate amendment

Directs the President to take the following actions:

(1) interact more forcefully with U.S. allies and multilateral lending institutions to restrict technology transfer to China;

(2) encourage members of the Missile Technology Control Regime to set up a working group to develop a common policy concerning China's missile transfers to other countries;

(3) direct the USTR to take appropriate action under section 301;

(4) encourage the UN Human Rights Commission to issue a report on human rights conditions in China, and encourage U.S. allies and the Soviet Union to encourage issuance of such a report; and

(5) take any other action the President deems advisable to achieve the purposes of the Act.

Conference agreement

House recedes with an amendment moving the provision to the "Policy" section, with conforming changes.

5. Termination of MFN Status (Section 5 of Senate Amendment)

Present law

Section 402(c)(3) of the Trade Act of 1974, states that the President may, at any time, terminate by Executive order any waiver granted under that subsection. (In addition, the President may choose not to extend the annual waiver of any country upon expiration of the waiver.)

House bill

No provision.

Senate amendment

Requires termination of China's MFN status no later than July 3, 1992, if the President determines after enactment of this Act that China has transferred to Syria or Iran (1) ballistic missiles or missile launchers for the M–9 or M–11 weapons systems or (2) material equipment, or technology which would contribute significantly to the manufacture of a nuclear explosive device.

Conference agreement

See description under item 3(c).

6. Sanctions by Other Countries (Section 6 of Senate Amendment; Section 4 of Conference Agreement)

Present law

No provision.

House bill

No provision.

Senate amendment

Delays effective date of any denial of China's MFN status pursuant to this Act for a 60-day period, during which time the President is required to undertake efforts to ensure that GATT members take similar action with respect to China.

Conference agreement

House recedes with an amendment, conforming the provision to the timetable in Title IV of the Trade Act of 1974 relating to the President's waiver notice (i.e., 30 days prior to the expiration of the previous waiver).

7. Enforcement of Ban on Imports of Convict-Made Goods (Section 7 of Senate Amendment; Section 5 of Conference Agreement)

Present law

Section 307 of the Tariff Act of 1930 prohibits the importation of goods made by convict or forced labor. Current regulations outline detailed procedures to be followed in enforcing the prohibition.

House bill

No provision.

Senate amendment

Establishes civil penalties for violations of the import prohibition under section 307 of the Tariff Act of 1930 and a procedure for parties to petition the Department of Commerce to enforce such prohibition.

Specifically, requires civil penalties of $10,000 for one violation; $100,000 for two violations; and $1,000,000 for three or more violations. Establishes detailed procedures for prepenalty notice and hearings; and for private petitions by "any public interest group, human rights organization, or entity representing an industry adversely affected by imports of convict-made goods." Provides that the Secretary of the Treasury may prescribe sanctions for abuse of discovery and abuse of process.

Conference agreement

House recedes on provision establishing civil penalties for violations of the import ban, with an amendment adding a "knowing" standard.

Senate recedes on the provision establishing private petition procedures. The conferees note that existing Customs regulations to enforce section 307 (19 CFR 12.42-12.62) establish detailed procedures for petitions from "any person" who has reason to believe that prohibited merchandise is being, or is likely to be, imported into the United States.

8. Report by the President (Section 2 of House Bill; Section 4 of Senate amendments; Section 6 of Conference Agreement)

Present law

Section 402(d) of the Trade Act of 1974 provides that if the President determines that further extension of the waiver authority will substantially promote the objectives of freedom of emigration, he may recommend extension of such authority for successive 12-month periods. Any such recommendation must be accompanied a document transmitted to Congress, setting forth his reasons for recommending extension of the waiver authority, and a statement setting forth his reasons for determining that extension of the waiver will substantially promote Title IV's objectives with respect to a particular country.

House bill

Provides that if the President recommends extension of China's waiver in 1992, he must submit as part of the document required in section 402(d) a report on the extent to which the government of China has implemented the measures listed in section 1(a).

Senate amendment

Similar provision.

Conference agreement

Senate recedes.

9. Definitions (Section 1(b) of House Bill; Section 8 of Senate Amendment; Section 7 of Conference Agreement)

Present law

No provision.

House bill

Provides definitions of a number of terms used in the bill, among which: "the term significant progress means the implementation of measures that will meaningfully reduce, or lead to the termination of, the repressive practices identified under item 3."

Senate amendment

Similar provision. However, it defines significant progress as "specific actions taken to achieve the objectives stated" under item 3.

Conference agreement

The conferees agree generally to merge the House and Senate definitions, with conforming amendments. However, the Senate recedes on the definition of "significant progress."

From the Committee on Ways and Means:
DAN ROSTENKOWSKI,
SAM GIBBONS,
ED JENKINS,
THOMAS J. DOWNEY,
DONALD J. PEASE,
From the Committee on Foreign Affairs:
DANTE B. FASCELL,
STEPHEN J. SOLARZ,
Managers on the Part of the House.

From the Committee on Finance:
LLOYD BENTSEN,
DANIEL PATRICK MOYNIHAN,
GEORGE J. MITCHELL,
BOB PACKWOOD,
Managers on the Part of the Senate.

Mr. ROSTENKOWSKI. Mr. Speaker, pursuant to House Resolution 307, I call up the conference report on the bill (H.R. 2212) regarding the extension of most-favored-nation to the products of the People's Republic of China, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to order of the House of today, Tuesday, November 26, 1991, the conference report is considered as having been read.

The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 30 minutes, and the gentleman from Illinois [Mr. CRANE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the conference report on H.R. 2212.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was not objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the conference report on H.R. 2212, relating to the extension of China's most-favored-nation [MFN] status, is the culmination of months of hard work and tireless effort on the part of a number of Members of Congress. However, I particularly want to commend Congresswoman NANCY PELOSI for the dedicated efforts that she has devoted to keeping the issue of human rights in China squarely before us. The fact that we are here today considering this conference report is due in large measure to her efforts.

H.R. 2212 passed the House on July 10, 1991, with a number of amendments relating to human rights and weapons proliferation. The Senate passed the bill on July 23, with additional amendments, relating not only to human rights and weapons proliferation, but also to trade and other matters.

The conference report on H.R. 2212, in general, merges the two bills, with amendments. It provides that the President may not recommend the continuation of a Jackson-Vanik waiver for China in 1992, unless he reports that China has met two objectives relating to the accounting for, and release of, citizens detained, accused, or sentenced after the June 1989 Tiananmen Square incident. It also provides that the waiver may not be extended unless the President reports that China has made overall significant progress in a number of objectives relating to human rights, trade, and weapons proliferation.

Mr. Speaker, although I had a number of reservations about the bill as it passed the House and Senate, I support the conference report today. The Chinese Government does not seem to have gotten the message which the United States Congress has been trying to send loud and clear—that the American people expect the Chinese leaders to live up to a much higher standard of behavior toward their own people and the security concerns of other countries than they have exhibited to date. Adoption of the conference report on H.R. 2212 should leave no doubt in the minds of China's leaders as to where the American people and their elected representatives stand. I urge my colleagues to join me in support of the conference report.

Mr. Speaker, I reserve the balance of my time.

Mr. CRANE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in opposition to the conference report on H.R. 2212. I would like at the outset, however, to pay tribute to our distinguished colleague from California [Ms. PELOSI] for what I deem intentions that are an expression of the sentiments of the overwhelming majority, probably 99.9 percent, of the American people. The gentlewoman is concerned, and properly so, about the condition human rights for minorities in China, she is concerned about issues of arms proliferation, and she would like to see a significant change in the move in direction that more truly reflects the values that we mutually share.

However, I must say that I have serious reservations as to whether doing it in this manner, where you dictate specific terms and in effect back the rulers of the People's Republic of China into a corner and expect them to make concessions, is a way to accomplish the goal.

The Chinese are very proud people. In fact, the Oriental nations are comprised of very proud people.

I remember one time when we were negotiating with some of the Japanese Government officials back in 1981, in terms of seeking to get concessions from them. We were tutored on the eve of each one of those meetings as to how to diplomatically put our proposals on the table, let them mull them over, sleep on it for a night, come back the next day, and move another inch or two in the direction of our goals. It took us the better part of a week before finally the representatives of the Japanese Government said they had listened to our arguments, they found them persuasive, and they accepted our positions.

Mr. Speaker, that was a diplomatic process that runs contrary to our tendency to just lock horns and wrestle across the table and insist that before sundown, or before the crack of dawn, we are going to get the concessions we would like to see.

Mr. Speaker, the administration has been maintaining multilevels of negotiations with the Chinese Government to effect reforms in areas other than trade, but trade is one of those where we are locked into a confrontation with them right now on intellectual property rights, and it does not look good.

□ 2000

We have the capacity under existing law to effect some kind of retaliatory action, and the administration is going to speak to this point tomorrow. But what I submit to my colleagues is that if these conditions are viewed as demands by the Chinese Government that they do not feel they are capable of capitulating to without losing face, where are we?

The fact of the matter is, we have other nations in this world, in fact, major trading partners of our own that are engaged in routine trade. They tender the equivalent of most-favored-nation treatment to China and simultaneously make no effort whatsoever to effect meaningful reforms in the areas that the gentlewoman from California [Ms. PELOSI] wants to address.

In other words, it is make a buck, get in, get out. We are, I think, the only Nation that has endeavored to try and effect these kinds of reforms. And the only way in which I take issue with the gentleman from California is whether what we are doing is designed to accomplish that objective. I fear quite the contrary, that if they view this as out of the question and slam the door in our faces, as a consequence of that, when we have had this escalating trade, and I think we are now, they are our 10th largest trading partner. And there is a lot of American investment going on in southern China. There is, in addition, by their probably worst enemy in their own perception, namely the Republic of China on Taiwan, they are investing finally and providing jobs and improvement of the economic condition in China.

What if the door is slammed in our face as a consequence of this? What have we accomplished? Did we help the students? Did we cause a deterrence from further commission of this sin that they perpetrated in Tiananmen Square? We enhanced our negotiating condition in terms of trying to get an end to nuclear arms proliferation?

I would argue that quite the contrary, we are putting these same people at risk because the rulers in that country have nothing to worry about. No one is in a position to overthrow them.

They control the guns. They control the Government. And so they go on and only the people suffer.

In addition to that, I would argue that there is a risk involved in this affecting Hong Kong. As we know, in 1997, Hong Kong will, under the agreement between Great Britain and China, be transferred back to the government of the mainland. And when we were over there on a trip that was referred to earlier this summer, there was suddenly a shift in outlook on the part of business people in Hong Kong who initially figured they are going to sell it off and throw it out and sink it or else they were going to incorporate Hong Kong into a slave state. And they concluded that is changing, that there are meaningful reforms that are taking place on the mainland that are positive.

As a result of that, they had a hopeful outlook. And they said this had occurred just within the last 12 months. And primarily because of the business ties and connections especially in southern China.

As the gentleman who spoke about that trip earlier mentioned, what we saw in Beijing, what we saw in Shanghai was mindboggling. We saw all kinds of billboards advertising products in English and Chinese. We saw happy, flourishing people. We saw all the young people in Western attire. We saw kids with English logos on all their T-shirts. We saw a distinct absence of any military presence except for an occasional guard at a government building.

In addition to that, in the middle of the week we visited the Great Wall of China. There were easily a quarter of a million people that we could see there, 99 percent of whom were Chinese, fathers, mothers, children. And we saw hucksters with their little temporary shops peddling goods and wares to the Chinese as well as to Americans.

We went to Shanghai and went down streets that would just boggle the mind where there was shop after shop after shop lining both sides of the street and considerable business activity going on in daylight hours, even a florist shop doing business. We do not find florist shops thriving in impoverished countries.

But this level of economic activity by entrepreneurs, not time clock punchers, these are people that had to make the distinction between gross and net income. These are people who had to understand marketing skills. People who had to understand servicing products. There people had an understanding of free enterprise.

And this Communist representative sitting next to me on the bus, I reminded her that they believe in a command autonomy in communism, and we are the champions of free enterprise in this world, right? I said we can afford to send some people over here and learn from your entrepreneurs on both sides of the street.

What I am saying is the situation is not hopeless but I am arguing is that with this well-intentioned effort on the part of the gentlewoman from California, we run the risk of cutting off our contacts. We run the risk of terminating forthwith the positive influence that we have exerted and we alone have exerted on mainland China.

To be sure, none of us will forget Tiananmen Square and to be sure come next December 7, none of us will forget Pearl Harbor. But on the other hand, there has been progress made, not as great as we would like to see by any manner of means, but I would suggest that we run the very real risk, if we adopt this measure, which the President has indicated he will veto for the same reasons I am advancing, if we terminate this contact, we run the risk of inflicting even greater injury on the very people we want to help.

For that reason, I urge my colleagues to vote no on H.R. 2212.

Mr. Speaker, I rise in strong opposition to the conference report on H.R. 2212. Let there be no mistake. These provisions would end U.S. economic ties to China and plunge this strategically important country into isolationism and economic stagnation. The President has vowed to veto it.

The United States would no longer be able to employ its influence to improve human rights and ensure political freedoms in China, and to preserve democracy and economic independence in Hong Kong. A normalized trade relationship, highlighted by MFN, is essential if we are to reform Chinese policies, both by example and by political and economic leverage. Trade must exist for this strategy to be successful.

This bill is replete with lofty goals and good intentions.

Congress understandably wants to end repression, guarantee human rights, resolve all trade problems and eliminate nuclear proliferation with the stroke of a pen. However, I think we all know how unrealistic this legislation is. We understand the President is right to want to stay engaged in dialog with the Chinese.

This very day, we are engaged in tough negotiations with China on specific trade problems.

So far China has not been responsive on intellectual property rights, and the United States will retaliate in a precise and effective way. The retaliation list will be announced tomorrow.

We should not throw everything out the window with a bill like H.R. 2212. No dialog means no solutions.

The actions of the current Chinese leadership against their own people are abhorrent and painful to contemplate.

The world is outraged at the notorious events in Tiananmen Square. However, these repressive policies will not be transformed by legislation that undermines our President and sacrifices American economic interests.

The President has demonstrated strength of will and purpose in dealing with the complicated foreign policy and economic interests of the United States in China.

For that, he is admired throughout the world. I believe Americans are proud of the leadership role of the United States in defending democracy and individual freedoms.

This bill will save no student from prison and no dissident from censure. Our disengagement will only make their fate more uncertain and shrouded in secrecy. Normalized trade relations are an essential tool for the President in crafting an effective China policy that will result in meaningful reforms.

Mr. Speaker, I urge my colleagues to vote "no" on the conference report to accompany H.R. 2212.

Mr. Speaker, I reserve the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 6 minutes to the gentlewoman from California [Ms. PELOSI], pointing out that the gentlewoman from California did a tremendous amount of work and, a great deal of credit for considering this legislation at this point in time is due to her efforts.

Ms. PELOSI. Mr. Speaker, I thank the chairman for making this opportunity possible for us to bring this legislation to the floor today. He is indeed generous with his remarks, but he is also indeed responsible for us having reached, to be able to reach this compromise.

Many people on the floor said to me today, I want a tougher bill, or I do not want any bill at all. But that is what this is, it is a compromise which I believe reflects the concerns of this body but achieves some doable clear and concise conditions of which China can easily understand in order to receive renewal of most-favored-nation status next year.

I want to also thank the gentleman from Florida [Mr. GIBBONS], the gentleman from New York [Mr. SOLARZ], the gentleman from Ohio [Mr. PEASE], who spoke during rule when the gentleman from Illinois [Mr. ROSTENKOWSKI], brought us all together to begin the forging of a compromise.

I want to thank the gentleman from New York [Mr. SOLOMON], and the gentleman from Massachusetts, [Mr. MOAKLEY], for helping us; the gentleman from Texas [Mr. FROST] for getting the rule to come to the floor so quickly and so many Members on both sides of the aisle who worked so hard, the gentleman from New York [Mr. GILMAN], many of the Members are present and will speak to this.

I would also like, before proceeding, to thank Rob Leonard, Joanna, Shelton, and George Wise of the committee and subcommittee staff and my own staff person, Craig Middleton, for all of their hard work because it has been indeed months that we have been working on this. So to the chairman and the ranking member, the committee and the subcommittee, the staff, I thank them all very much. By persevering with this and not letting this legislation be forgotten, we are sending a clear message that those prisoners who were arrested for peacefully demonstrating in Tiananmen Square are not forgotten by this body as well.

Others have mentioned some of the concerns that are addressed in this legislation. The conditions address three areas of concern: human rights, trade, and nuclear proliferation. Much has been written and said about the repressive policies of the Chinese regime in regard to freedom of speech, religion and press. We were stunned by the massacre in Tiananmen Square 2½ years ago and continue to deplore the ongoing arrest and detention because of the practice of religion, the violations of freedom of the press and jamming of Voice of America.

Americans have heard this over and over. It is well-documented by Asia Watch and Amnesty International and indeed included in the findings in this conference report. Many of us have addressed this issue on the floor before. Improvement of human rights and basic freedoms were the conditions for our original bill.

However, actions taken by the Chinese Government have caused Members of the House and Senate to insist that language regarding nuclear proliferation and violations of our trade relationship be included in this bill. I do not agree that there have been great improvements made as far as the Chinese Government is concerned.

So in addition to principle, there are some very practical reasons, Mr. Speaker, why we ask our colleagues to support conditional renewal.

☐ 2010

As we develop working relations with China we must, I believe, insist that our relationship make the political situation there freer, the world safer, and the trade fairer to American workers. That is why this legislation is important to our constituents.

Since 1989, the Chinese Government has blatantly violated our trade relationship by refusing to remove barriers to our products in China. As a result we have a growing trade deficit—$6 billion in 1989, $9 billion in 1990, and a projected $15 billion for 1991—$30 billion since 1989, nearly all of it since Tiananmen Square.

In addition, American workers are placed at a disadvantage by having to compete costwise with prison labor. The use of transshipments also hurts American workers. This is the process by which fake labels are placed on products or put onto products to indicate that they come from someplace other than China in order to circumvent our import quotas.

This legislation, this conference report, also addresses violation of our copyright and intellectual property rights by the Chinese. We have just heard that the trade representative is going to take action because they have failed to address the situation adequately.

Mr. Speaker, in almost every way the Chinese have violated our trade relationship.

Next, I would like to move on, in the interest of time, to the issue of China's role in nuclear proliferation. In a year when we went to war because of Saddam Hussein's development of nuclear weapons, it is clear that this is an overriding concern to the American people. The conference report clarifies the nuclear proliferation condition by requiring that most-favored-nation status not be granted in 1992, if China sells missiles to Syria or Iran. China must also assure that it will not sell nuclear weapons to nonnuclear states, unsafeguarded states, and will abide by the missile technology control regime.

I commend the Chairman for forging this compromise, because I believe it has resulted in an excellent conference report that is clear, concise, focused—a true instrument for leverage. We do not want to break off the relationship with China or isolate China, so we do want to relate to them based on principle and the practical aspects of our fairness to American workers and making the world safer.

So I think that this bill is not only good for our relationship with China but will stand the scrutiny of being legislation that says in our bilateral relationships we should have terms that make the world safer by addressing nuclear proliferation, that makes trade fairer by being fairer to American workers, instead of clobbering them with the violations that the Chinese have, and by making the world freer by allowing a free discourse on issues in all countries in the world.

I am proud that we are taking up this issue today. I thank all the Members, Democrat and Republican alike, for their assistance in this.

Mrs. KENNELLY. Mr. Speaker, I yield 1 minute to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I voted against the original bill but I did so because of my concern over the sale of agricultural products to China. But over the past few months, particularly after talking with my colleague, the gentlewoman from California, [Ms. PELOSI], I have had some serious misgivings and reflections.

In the case of Iraq, it was my amendment to the farm bill a year ago that cut off agricultural sale because of their human rights violations. In the case of the USSR I fought against the renewal of Jackson-Vanik and MFN until their human rights policy changed. The same with El Salvador.

So would China, with an abysmal human rights policy and nuclear proliferation problems, be different? Should it be spared from a uniquely American effort to modify the way it treats its own citizens? I think not.

This conference report is better than the original bill on the merits and it is easier to support on that basis, but I support it because it is right and it may just increase the prospects for freedom in China.

Mr. CRANE. Mr. Speaker, I yield 3 minutes to our distinguished colleague the gentleman from Michigan [Mr. BROOMFIELD].

Mr. BROOMFIELD. Mr. Speaker, despite the efforts of the administration, China has continued to violate the norms of international behavior. Some progress has been made in restraining the actions of the Chinese Government, but China still threatens to become the world's largest outlaw state.

We have all seen what mischief can result when even a smaller country like Iraq flouts the principles of acceptable international behavior. Through its policies on human rights, exports of military technology, and trade China threatens the stability of the entire world order.

The world was shocked and stunned when the Chinese Government, in June 1989, turned the guns of the military against peaceful protesters. Since then we have watched in horror as repression continued. And we have been disappointed again and again by the failure of the Chinese to address the fundamental issues in United States-China relations.

We can never close our eyes to what the Chinese Government did at Tiananmen Square. Nor can we, however, afford to close the doors entirely to China.

Despite our repugnance for its government, we must continue if at all possible to engage the Chinese Government and try to aid the Chinese people. The best way to 'promote political change in China is to continue cooperating toward steady economic growth.

The conference report absolutely requires—for continued MFN trade status—only that the Chinese Government address the unresolved human rights issues associated with the Tiananmen Square massacre and its aftermath. On other major issues it requires only "overall significant progress." With respect to missile or nuclear proliferation the only absolute condition is that China not transfer such technology to Iran or Syria.

Mr. Speaker, the conditions set in this bill can easily be met by the Chinese Government. Indeed, they should be our bottom line in dealing with China.

I believe that this bill contains enough flexibility for the President to use in putting pressure on the Chinese Government to resolve human rights abuses and remedy other violations of generally accepted international norms. The administration, through Secretary Baker's recent trip and other actions, has already done much to address these issues.

Let us hope that our action today will help the administration work to change the policies of the Chinese Government.

Mr. KENNELLY. Mr. Speaker, I yield 1 minute to the gentleman from North Dakota, [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, I appreciate the gentlewoman yielding time to me.

Following on the heels of the discussion of my colleague, the gentleman from Kansas [Mr. GLICKMAN], let me say that this is not an issue of boycott. With respect to those of us who come from grain country, and we are concerned about selling grain around the world, this is not a boycott issue. We are not suggesting shutting off trade with the Chinese. The issue here is do we expect, for the extension of MFN, for the Chinese to meet certain acceptable standards, standards we expect them to meet in the course of human dignity.

☐ 2020

The Chinese, frankly, have an enormous trade deficit with us. We have a deficit with them and it is growing radically. It seems to me we ought to expect the People's Republic of China to buy much more grain from us than they now buy.

I support the initiatives of the gentlewoman from California. I think we ought to stand up for something in the country and say that we expect a certain level of behavior coming from that country.

No, I do not want to shut off grain shipments. That is not what the issue is about. The issue is about trying to get the Chinese Government to conform to certain patterns of behavior in exchange for the extension of most-favored-nation status.

Mr. CRANE. Mr. Speaker, I yield 4 minutes to our distinguished colleague, the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. Mr. Speaker, I thank the gentleman for yielding me this time.

As I said before in the debate on the rule, I strongly support this conference report.

Mr. Speaker, at this late hour, and with the politics of the Presidential season now coming upon us, there are many issues that divide us as Democrats and Republicans. However, today there are many other issues that should unite us, and no such issue on which we can all unite is more important than the encouragement and protection of human rights—at home and abroad.

To that end, I believe the conference report on this bill, H.R. 2212, should make a very substantial contribution.

Chairman ROSTENKOWSKI is to be commended for his initiative in putting together a conference report which we can all support on both sides of the aisle. America is always most effective when it speaks with just voice on trade and foreign policy issues. This conference report will enable America's message of support for the suffering people of China to come through loudly and clearly.

And, of course, Mr. Speaker, whenever we consider the plight of the Chinese people, we really have to pay tribute to their champion in this House the gentlewoman from California [Ms. PELOSI], believe me.

Her tenacity in moving this bill forward, and in keeping our attention constantly focused on the needs of the Chinese people, in both the Senate and the House, is an inspiration to us all. It really is to me.

But Mr. Speaker, the Chinese leadership does not seem to get it—it does not seem to understand that membership in the community of nations confers responsibilities along with the privileges that they enjoy from us. The Chinese leadership is always enthused about the privileges, but accepting the responsibilities is another story altogether.

Beijing's continued defiance of every international standard concerning the proliferation of weapons of mass destruction, as well as its continued denial of basic human rights for the Chinese people demands a response from this congress, and we are getting that here today with this bill. The assurances that were supposedly given on these subjects to Secretary Baker 10 days ago just are not enough.

The Chinese leadership has given assurance repeatedly—oftentimes to members of this Chamber from both sides of the aisle. You heard members speak about being there last month, 2 months ago, 3 months ago and the Chinese gave all of us those assurances. But they just do not mean anything.

The Chinese record is filled with broken promises, abusive behavior, and yes, outright lies. But just mention privileges, and the Chinese leadership pushes to the head of the line.

Mr. Speaker, for this year—1991—the Chinese trade surplus against the United States will reach $13 billion, thanks to MFN. Mr. Speaker, we are running a trade deficit with China that is second only to the one we have with Japan. Just think of that.

Mr. Speaker, to run such a deficit with a Government which is undemocratic, which specializes in slave labor for export, and which thumbs its nose at every international norm, is as morally wrong as it is economically idiotic.

Mr. Speaker, many months ago this House passed my resolution to immediately cutoff MFN for China. It passed overwhelmingly, but never got through the other body.

I would have preferred that approach here tonight, but this legislation will send a strong message to the Chinese leadership: Treat people with human decency, or else you are not going to trade with us, with Americans.

Mr. Speaker, I urge unanimous support for the legislation of the gentlewoman from California [Ms. PELOSI]. Please vote for it.

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentleman from Oregon [Mr. AUCOIN].

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

Mr. AUCOIN. Mr. Speaker, I was deeply offended, as were the Oregonians that I represent, with the indifferent stonewalling treatment that the Chinese gave our Secretary of State when he recently visited China. He merely asked in the name of all Americans for attention to basic human rights, and to this day the Chinese rulers are resisting and are stonewalling.

So I rise in strong support of this conference agreement tonight because it puts the United States of America on the side of human rights, democracy and justice in China. Since the House passed this bill in July there has been no meaningful improvement in the Chinese Government's incarceration of political prisoners, its oppression in Tibet, or its denial of the most basic human rights for its citizens. Instead, we have seen more reports of China's irresponsible readiness to supply nuclear technology and weapons of mass destruction to Iran, to Iraq, to Algeria, and to other such regimes in unstable parts of the world. These actions by China pose a grave threat to world peace.

Now we are told that high-ranking Chinese officials have promised to behave more responsibly in the future.

Well, I say and Oregonians say, promises are not enough. That is why we must pass this conference agreement.

This bill would allow the President to renew most-favored-nation status for China only if China releases pro-democracy demonstrators imprisoned in China and Tibet, does not sell missiles to Syria or Iran, and makes significant progress in improving human rights, preventing nuclear proliferation, removing trade barriers to United States products and ending the export of prison-made goods. It is a good proposal and it deserves our support tonight.

Mrs. KENNELLY. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. ENGEL].

Mr. ENGEL. Mr. Speaker, I thank my friend for yielding me this time.

Mr. Speaker, I, too, was a part of the delegation back in August which visited China. I must say, first of all, that I rise in strong support of the conference report.

What frustrated all of us and my colleague, the gentleman from South Carolina [Mr. RAVENEL] explained it very genuinely on the floor, he and I held a press conference in Benjing expressing our frustration.

The Chinese officials were personally friendly to all of us. They were very gracious hosts and were very nice personally, but when it came to discussing human rights, they did not budge an inch. In fact, it was as if they had prerecorded their answers to us, anticipating what we would say and they could have just as well pushed a button and that would have been the pre-recorded answer; because we certainly did not get any satisfaction to any of the questions that were asked.

When we spoke about human rights, we were told that there were no human rights violations.

When we said we were very concerned about the actions in Tiananmen Square, we were told that they acted very cautiously and prudently in Tiananmen Square. They said that no other nation on this Earth would have allowed the demonstrations to continue and they said that they actually were very restrained in what they did.

It is almost an insult to one's intelligence to receive the kinds of answers we got from the Chinese officials.

When we spoke about Tibet, they told us that the Tibetan people welcomed them with open arms.

When we asked about sales of missiles to Syria, we were stonewalled.

When we asked the Secretary General, the head man in China, to allow us to see one of the prisoners who was jailed in the Tiananmen Square uprising, he told us that he did not have the power to allow us to see dissidents.

It was very, very frustrating. They tell us not to interfere with the internal affairs of China.

I would say that what is going on in China with the human rights abuses is not simply internal affairs, but it is a concern for all the world, certainly a concern for the United States of America.

Yes, it is important to have good relations with China and I would like to see nothing better than for Chinese-United States relations to improve, but not at the price of terrorism, not at the price of people not having freedom, not at the price to allow those brave young men and women who stood in Tiananmen Square and yearned for the same kinds of freedom that we in America yearn for and take for granted, not at the price of selling them out.

We have to stand up and say that we will never allow these human rights abuses to continue with business as usual. We will never allow the tyranny that goes on.

□ 2030

The insult to injury was when Secretary Baker came back last week and was really not given anything at all. It is time this Congress acted. I am pleased to enthusiastically support the conference report.

Mr. CRANE. Mr. Speaker, I yield 3 minutes to our distinguished colleague, the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of the Conference Report on H.R. 2212, legislation to condition renewal of most-favored-nation status to the People's Republic of China [PRC] and I commend the gentlewoman from California [Ms. PELOSI] for her dedicated efforts in support of this measure and Ways and Means Chairman, Mr. ROSTENKOWSKI, for putting together a reasonable compromise measure. The House Foreign Affairs Committee has conducted extensive hearings with regard to China's human rights violations.

Since the Tiananmen Square massacre in 1989, human rights conditions in the PRC have not improved. The PRC government continues to repress any form of prodemocracy sentiments, engages in continuing violations of internationally recognized human rights, uses forced labor on a vast scale to produce exports, and brutally occupies Tibet.

Some of my colleagues have argued that China is an extensively poor country and that we should help it progress by keeping the doors open. Economic progress, we are told, will eventually lead to political pluralism. It is not too difficult to recognize that they have been wrong and that unconditional MFN for China has only served to close the door to progress in both areas. If we truly want a sound economic environment that supports investment, then we should help nurture a democratic form of government in Beijing. By permitting the renewal of unconditional MFN we would be bankrolling the communist regime and perpetuating a fragile political and economic system.

Let me also add that the Communist government ruling the People's Republic of China sells nuclear technology and ballistic missiles to just about any middle eastern tyrant who wants them, nurtures the despicable Khmer Rouge, threatens the emerging democracies in Mongolia, Nepal and Taiwan, undercuts the President's efforts to mount an international campaign to persuade North Korea to halt its nuclear weapons program, and arms the authoritarian rulers of Burma who have placed the latest Nobel prize winner under house arrest and who have oppressed their people.

To understand why China seems so determined to sell arms indiscriminately to practically everyone without regard to the international destabilization it causes, it would help to know a little more about the level of corruption in China's ruling circles. My colleagues should be made aware that we are informed that Deng Xiaoping's son-in-law and the PRC's vice president's son are personally profiting from China's arms sales. They run a company by the name of Polytechnology which is China's leading exporter of arms. Costind, another Chinese arms exporter, is run by the children and spouse of China's military leaders.

If my colleagues really want to see both economic and political progress in China then we need to start pressuring the clans that run, own and enslave it. Accordingly, I urge my colleagues to support the Conference Report on H.R. 2212, which imposes significant conditions on any consideration of most-favored-nation status for the People's Republic of China.

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia [Mr. JONES].

Mr. JONES of Georgia. I thank the gentlewoman for yielding this time to me.

Mr. Speaker, I would also like to thank the gentlewoman from California [Ms. PELOSI] for her leadership on this issue. I have heard her speak in Washington quite eloquently and I have heard her speak in Beijing eloquently. And I think she speaks in the best tradition of the American spirit, but also she has displayed those Chinese traits of patience, perseverance, compassion that make the Chinese people such a great culture.

Mr. Speaker, about 2½ years ago, in June 1989, in Beijing, a young man stood in front of a long column of tanks, and he stopped them, if only momentarily, as the world watched, our imagination captured by his courage.

Tonight, as we deliberate here, in prisons throughout China are hundreds, perhaps thousands of young people who are sitting in prisons, who are looking to us for a sign. They were arrested for doing things that we take for granted, for assembling, for speaking, for speaking freely about their dreams of a democratic China.

The distinguished gentleman from Illinois has talked of face, that Oriental tradition of saving face. I would suggest that it is not just the Marxists, the brutal Marxist dictators who have the Chinese people under their heels that have face, but also the 1.1 billion Chinese people, such as those we speak of in those prisons, who have face and who want to save it.

We can do something about that. We can send a clear message tonight. If you believe that China should release those nonviolent prodemocracy demonstrators from Tiananmen Square and if you believe they should stop the practice of slave labor and prison labor, if you believe they should stop the practice of transshipments, stop the practice of shipping nuclear technology to Syria and Iran, then you should support this resolution.

Mr. CRANE. Mr. Speaker, I yield 2 minutes to our distinguished colleague, the gentleman from Indiana [Mr. BURTON].

I rise in support of the conference report which places conditions on the renewal of most-favored-nation status [MFN] for the People's Republic of China [PRC].

On November 17, 1991, Secretary of State James Baker returned from his 3-day visit to China, the first by a high-ranking United States official since the Tiananmen Square massacre in 1989. The visit brought back memories of President Nixon's trip in 1972. The purpose of each was founded in an effort to mend strained Sino-U.S. relations.

The context of the two trips, though, could not have been more different. Efforts to cajole the Chinese into entering strategic partnerships to keep the Soviet Union off balance were not discussed, nor were attempts made to woo the Chinese into the American corner. Rather, the emergence of democracy around the world has placed the U.S. firmly in a position of strength in dealing with China. The content of the meetings last week reflected the shifts: the U.S. consistently demanded change. Meanwhile China is becoming increasingly isolated.

The results of Secretary Baker's trip verify what we already know to be true. One official present at the meetings described the Chinese officials as "recalcitrant"—obstinately defiant. Was there ever any doubt? The Chinese continue to export forced labor products, practice unfair trade policy, and recklessly sell nuclear technology to states such as Pakistan, Syria, Algeria, and now Iran. If this Congress were to step back and observe, I think we would quickly conclude that China is following a well-designed plan to ruin its chances of getting MFN. China remains obstinately defiant.

Today we are considering the conference report which would extend MFN status to China. We have an opportunity to strengthen our position with China, or weaken it. The conference report, if passed, would allow the President to renew MFN for China only if the Chinese Government agrees to a short list of fair and concise conditions.

We have before us an opportunity to help the Chinese people and I encourage my colleagues to send a strong message to China that the United States will no longer tolerate defiance to internationally recognized standards of fundamental human rights.

Mr. BURTON of Indiana. I thank the gentleman for yielding.

Mr. Speaker, 10 million people, 10 million people in prisons, gulags in China, 10 million.

Think about that. That is twice as many people, almost, as there are in the State of Indiana, which I represent. That is more people than there are in the Los Angeles County, one of the biggest counties in the United States. Ten million people suffering under the tyranny of the Communist slave system.

They are providing the slave labor which is making goods that we are buying in this country.

Mr. Speaker, we had a $13 billion trade deficit with them last year. That means we bought $13 billion more in goods then they bought from us. And we do not know about the underground staff that they were sending over here.

It is made by 10 million slave laborers. Now, I do not know how many people saw that "60 Minutes" piece that was on television not long ago, but I watched it twice. They had people going undercover, making deals with people who are in those prisons. Then they would flash over to the people running that government. The people running the governmet said, "No, we don't use any slave labor." Then they would cut back to the guy running the prison and the guy running the prison would say, "Well, yes, we can get you the goods you people want. Our people will make them." Any they said, "Well, what about the the quality? Now are we going to guarantee that?" And the guys running the prison said, "Well, if they don't produce quality goods, we will beat them, we will torture them," and they said that on national television here in the United States, and we saw it time and again.

And yet, we still do business with these guys.

It is my opinion if we really believe in democracy, freedom and human rights, we will send a message to the Communist Government of China that we are not going to do business with them if they continue this attitude and continue using people as slave laborers.

We saw the manifestations of their attitude when they ground those young people who wanted freedom and democracy in Tiananmen Square into dog meat with their tanks. Yet, we still do business with them.

I want to congratulate the gentlewoman from California [Ms. PELOSI]. She has done yeoman service for this body, for the country and for the people who are fighting for freedom and democracy in China.

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentlewoman from Washington [Mrs. UNSOELD].

Mrs. UNSOELD. Mr. Speaker, I commend the chairman, the committee and the very persistent gentlewoman from California [Ms. PELOSI].

This conference report sends the right message at the right time. It tells China, that America will not stand idly by while an isolated leadership tramples on human rights and peddles dangerous military technologies.

All of us applauded the recent release of hostages in Lebanon. But what about the hundreds of hostages languishing in Chinese prisons, facing deprivation, forced labor, and torture? The only crime these people committed was to demonstrate principle and courage. Are we going to remain silent in the face of their suffering?

The Chinese Government calculates that they can violate any internationally held norm of decency and the United States will do nothing. They believe they can sell missiles and nuclear technology to anyone who will pay—and the U.S. will do nothing. They believe they can keep their markets closed to most U.S. exports—(adding $15 billion to the U.S. trade deficit this year alone), and the U.S. will do nothing.

□ 2040

Mr. Speaker, our vote today will send a clear and simple message to Beijing: "Don't be so smug. Don't assume the United States will turn a blind eye while you trample upon rights which we hold sacred and upon which our Nation was founded." These are rights for which Chinese men and women and Tibetan men and women have gone to prison for and died for. It is time for all of us in Congress to stand up with them in their struggle for freedom.

Mr. Speaker, we can do so tonight with our vote.

Mr. CRANE. Mr. Speaker, I yield 3 minutes to our distinguished colleague from Virginia [Mr. WOLF].

Mr. WOLF. Mr. Speaker, I want to begin by paying tribute to the gentlewoman from California [Ms. PELOSI] for her efforts, and I know, as a result of this bill tonight, people will be released from prison.

The two points that I would like to cover is, first, when I was there several months ago with Congressman CHRIS SMITH, we visited Beijing Prison No. 1. There were 41 or 42 Tiananmen Square demonstrators who were in the prison for speaking out for democracy. It was a cold day, about 25 degrees and snowing, and the prison was absolutely freezing. They were working on manufacturing socks and plastic shoes called jelly shoes for export around the world in competition with textile manufacturers in South Carolina, and North Carolina, and New England and around this country.

For those men who are in prison tonight this passage of this bill by an overwhelming vote will be so important.

Second, Mr. Speaker, many Members, when we went to Beijing, signed a letter to Li Peng asking that they release those who are in prison for religious freedom. There are 70 priests, ministers, and bishops who are in prison, some up to 32 years, that have not been out of prison for 32 years. The passage of this legislation by an overwhelming vote I believe will open up the prison doors and allow those bishops, and priests and ministers to leave.

Thirdly, for those of my colleagues on my side who voted no the last time I say, "You can vote yes this time. This is a much more watered-down bill. It is a bill that perhaps can even be signed by the President. But your vote makes a difference tonight, and I want to tell you why."

As we met with the families of those people, they told us that, when the Congress acts, and Voice of America then records what happens in this body, it makes a difference. So, tomorrow night, when they are listening with their little crystal sets somewhere in Beijing, or wherever they are, and know that the United States Congress stood with the Chinese people, it will make a difference.

So, Mr. Speaker, I strongly urge those on my side who voted no before on the other bill to please vote yes on this bill to open up the prisons, to let the bishops, and the priests, and the rabbis out, to prohibit the export of slave-labor-made goods into the United States and send a message that we care.

I say to the gentlewoman from California, "Ms. PELOSI, I want to again take may hat off to you and what you're doing here tonight. I know it will make a tremendous difference in the lives of so many people."

Mrs. KENNELLY. Mr. Speaker, I yield 2 minutes to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Speaker, I thank the gentlewoman from Connecticut [Mrs. KENNELLY] for yielding this time to me.

Mr. Speaker, I want to join my colleague on the Helsinki Commission, the gentleman from Virginia [Mr. WOLF], who is such a strong fighter for human rights, both within the Helsinki process and around the world. I also want to join him in congratulating the gentlewoman from California [Ms. PELOSI]. Rarely does a single Member make such an impact on an issue as she has done.

The Universal Declaration of Human Rights that the United Nations promulgated said that there was a certain standard that we would expect human beings to be treated by all nations. Subsequently, the United States, the Soviet Union, and 33 other nations signed the Helsinki Final Act, again reiterating a commitment to a certain level of standards for the treatment of human beings by governments. The United States was in the leadership of raising the issue time, after time, after time that the Soviet Union and the other Eastern European nations were not in fact, according to human beings, at that level to which they had agreed. They protested repeatedly year in and year out that those issues were the internal affairs of those nations. We rejected that premise. Instead the United States and most of the Western world adopted the premise that the well-being of any individual human being was the concern of the international community and that there were certain international standards which we would expect those with whom we did business, either politically, or socially, or culturally, in whatever way, would meet those standards. It was not, frankly, just until a few years ago that the Soviet Union, and with the freedom of the Eastern European nations, that the premise of international affairs justifying mistreatment and human abuse was banned.

Mr. Speaker, this bill says the United States will expect certain levels of performance from those with whom we do business. It is the right thing to do. It ought to be adopted unanimously. I urge my colleagues, each and every one, to strongly support this legislation.

Mr. CRANE. Mr. Speaker, I yield 2 minutes to our distinguished colleague from California [Mr. ROHRABACHER].

Mr. ROHRABACHER. Mr. Speaker, we are not asking that the Communist regime in China be perfect, but we do expect that any regime that has most-favored-nation status at least be evolving in the right direction. The Communist regime is not only tyrannical, not only does it have hands that are dripping with blood of those who are struggling for democracy, but it is not getting any better. It is not going in the right direction.

This administration begged us not to threaten China's most-favored-nation status. Now the boneheads at the State Department act surprised when the gangsters in Peking tell Secretary Jim Baker to shove off and to get our noses out of their business. Well, Mr. Speaker, the butchers of Tiananmen Square are thumbing their nose. They are laughing at us while profiting from a trade policy that should be reserved for free countries.

I believe in free trade. Our goal should be free trade between free people. It is an absolute abomination that products made by slave labor are making their way onto the shelves of America's markets.

Let us set conditions on giving most-favored-nation status to the Communist regime in China. They can still think of us as ugly Americans, but at least they will not think of us as dumb Americans. If we want to get their attention, let us start turning a smiling face toward Taiwan, where they have made great progress in democracy, but, most importantly, let us make it clear to the Communist regime and those struggling for freedom whose side America is on. If there is any question in anybody's mind whose side we are on, something is dreadfully wrong. The legislation of the gentlewoman from California [Ms. PELOSI] will help correct that and make it clear that America is still the land of the free and the home of the brave, the last and best hope for all of mankind.

Mrs. KENNELLY. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. SOLARZ].

Mr. SOLARZ. Mr. Speaker, when the President asked the Congress to renew most-favored-nation tariff status for China, the challenge we faced was to fashion a response which would make it clear both to the people and to the leaders of China that the United States was on the side of democracy rather than dictatorship, of reform rather than repression, but which was also designed to enhance, rather than diminish, the prospects for democracy and human rights in China.

□ 2050

Basically, we had three options. First, we could have unconditionally renewed MFN, as the President wanted us to do, on the theory that this would enable us to better persuade the leaders of China to make the kind of changes and reforms we sought. But I would suggest that a policy of constructive engagement vis-a-vis China is

no more likely to succeed than was the policy of constructure engagement vis-a-vis South Africa.

Unless the Chinese leaders know that there is a price to be paid, in the absence of their willingness to address our concerns, there can be little hope for any real progress in the PRC.

The second option was to reject MFN for China entirely. But however emotionally satisfying such a response would have been, I suggest that it would have also been counterproductive. It would not have brought the gerontocracy which had seized power in Bejing to its knees. It would have more likely resulted in a decision on the part of the Chinese leaders to crack down than to open up, and this would have badly hurt Hong Kong, in whose economic vitality we have a significant national interest.

The third option was to make the renewal of MFN conditional, as we do in this conference report, on overall progress toward the achievement of our objectives in the area of human rights, economic relations, and the proliferation of weapons of mass destruction.

This conference report gives the President enormous flexibility. It does not require perfection, but it does require progress, and I think the gentlewoman from California [Ms. PELOSI], together with the chairman of the committee, the gentleman from Illinois [Mr. ROSTENKOWSKI], and the distinguished ranking minority member, all deserve enormous credit for fashioning a formula which is truly responsible. It encourages the Chinese leaders to move in the right direction. It gives the President ample flexibility in implementing the legislation.

Mr. Speaker, I not only urge its adoption by the House but I urge the President to sign it because I truly believe this is the best way to say to the people of China that we are on the side of democracy, while encouraging the Chinese leaders to move in that direction.

Mr. CRANE. Mr. Speaker, I yield two minutes to our distinguished colleague, the gentleman from New Jersey [Mr. SMITH].

Mr. SMITH of New Jersey. Mr. Speaker, I thank my friend, the gentleman from Illinois, for yielding time to me.

Mr. Speaker, I rise in support of the conference report conditioning MFN for the People's Republic of China.

Mr. Speaker, the legislation before us permits the President to renew MFN for the PRC provided the Chinese Government:

Releases nonviolent prodemocracy demonstrators imprisoned during and after the Tiananmen Square incident;

Does not sell missiles to Syria or Iran; and

Makes overall significant progress in each of the following three categories:

Human rights: Allowing human rights monitoring groups access to prisoners, ceasing the jamming of Voice of America, ending restrictions on freedom of religion, speech, press and assembly in China and Tibet.

Nuclear proliferation: Assuring that it will not sell nuclear weapons technology to non-nuclear states and will abide by guidelines of the Missile Technology Control Regime, MTCR.

Trade: Removing barriers to United States products entering Chinese markets, ending the export of prison-made goods, stopping violations of intellectual property rights, ending the use of transshipments to evade U.S. import quotas.

In late March, Mr. Speaker, Congressman FRANK WOLF and I spent the better part of a week in Beijing and Shanghai to promote human rights as part of an ongoing human rights effort.

We talked and argued with several government officials and visited Beijing Prison No. 1, a prison that unjustly incarcerates at least 40 political prisoners. We also met with Premier Li Peng and made a strong case—face to face—for human rights with the Chinese leader.

We told Li Peng that all Americans—including the President and Congress—continue to be outraged concerning the brutality by Chinese troops in Tiananmen Square. We urged the immediate release of all political prisoners.

The conference report I am pleased to point out appropriately uses our economic clout to encourage the release of these brave souls.

We raised the issue of convict labor and told Li Peng that products made by inmates—especially political prisoners—are absolutely unwelcomed on our shores and in our markets. The conference report includes language to address this concern.

We asked Li Peng to take steps to reverse the current crackdown on religious freedom. The evidence clearly suggests an all-out assault on people of faith is underway in China. Mr. WOLF presented Li Peng a list of 78 known prisoners of conscience—men and women who languish in gulags solely because of their religious beliefs. The conference report accommodates this concern for which I am grateful.

Finally, we expressed our outrage over the systematic exploitation of women and children—the family—who suffer terribly as a direct result of the PRC's brutal one child per couple policy with its heavy reliance on forced abortion and forced sterilization.

On two occasions this House has condemned this violation of women's rights and children's rights as "crimes against humanity." We have also withheld funds to the U.N. Population Fund for its support and comanagement of coercive abortion. But these modest steps need to be augmented by additional action. This conference report fails on that score.

Mr. Speaker, since 1979, it is estimated that over 120 million babies have been slaughtered by the state—approximately 90 percent of these abortions being the result of coercion. Forced abortion—coercive population control—is a horrible crime against women and babies.

Thus, while I support this compromise conference report, it deeply saddens the heart that the anti-coercion language adopted by this House when the bill was originally considered was dropped in conference.

Chinese women and children deserve better than that.

Mr. CRANE. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from Washington [Mr. MILLER].

Mr. MILLER of Washington, Mr. Speaker, I see so many of my colleagues here who have worked so hard on this issue, including the gentlewoman from California [Ms. PELOSI] and the gentleman from Georgia [Mr. JONES], with whom I traveled to China just a short time ago to discuss this subject of human rights.

People listening to this debate must be wondering, why are we so exorcised about this Chinese Government? Well, this is a government that sends missiles to make trouble in the Middle East. This is a government that sends prison-made goods into our country to compete with goods made by our own labor. This is a government that sends its own people to prison for worshiping God and for speaking out for political freedom.

Now we have a chance to send this Chinese Government a message, and the message is this: that access on favorable terms to the United States market depends in the future on the Chinese Government stopping this conduct and obeying the norms that civilized nations follow.

Mr. Speaker, I am from a trade-dependent area in Washington State. My constituents, however, understand that we cannot ignore what is going on in China. We understand, sure, that in the short run we may risk losing trade by this measure, but we understand that in the longrun there will be more trade and investment in a world where human rights are honored and not ignored.

Mr. Speaker, let us pass this conference report.

Mrs. KENNELLY. Mr. Speaker, I yield 1 minute to the gentleman from Connecticut [Mr. GEJDENSON].

Mr. GEJDENSON. Mr. Speaker, this is really the least that we can do. This is the world's leading democratic government. This is the country that set the standard for the world for human rights and civil liberties, and there should not be one standard for Europeans and one standard for the rest of the world.

The courage of those young people at Tiananmen Square crushed by the Chinese tanks ought not be forgotten. Whether they labor today in prisons to manufacture goods shipped to the United States or whether the entire society with its lack of freedom is the issue, this country's voice ought to be loud and clear, and it gives me great pride that on this issue there is a bipartisan effort within this House to condemn the actions of the Chinese Government and to take a far stronger stand than our own administration has been willing to take.

Mr. Speaker, I would particularly like to commend the gentlewoman from California [Ms. PELOSI] and all the others on both sides of the aisle, including the gentleman from Washington [Mr. MILLER] and the gentleman from Georgia [Mr. JONES], who have led this effort to make sure that America stands on the side of those who are oppressed and not on the side of the oppressors.

Mrs. KENNELLY. Mr. Speaker, I yield back the balance of my time.

Mr. CRANE. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I have heard that the Chinese are proud. The Asian-American is proud. He has helped to build this country. The families have stressed education in the home, and they teach that if you work hard, you can make it in this country.

These are the same Asian-Americans who have asked us to support conditional renewal of MFN. We need to send a strong message. We support a norm of international behavior that the Chinese will not adhere to. This is a message that life, liberty, and the pursuit of happiness is part of our new world order.

☐ 2100

Yes, if they call if face, if they call it arrogance and they spurn the United States' offer, so be it. There are many countries that want our trade.

Hal Lindsey in "The Lake Great Planet Earth" gives us an inside look at future China. Support conditional renewal of MFN for a safer world, for a better world, and thank the gentleman from Illinois [Mr. ROSTENKOWSKI] and the gentlewoman from California [Ms. PELOSI] for this legislation.

Mr. CRANE. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I rise in support of the conference report on H.R. 2212, most-favored-nations status for China.

Mr. Speaker, I will not repeat all that has been so eloquently stated by my colleagues about human rights abuses in China, slave labor, near genocide in Tibet and arms sales to terrorist nations.

I do want to add to the charges against the brutal Communist dictators of China one that is seldom mentioned—probably even little known. That is the cruel actions it has taken against the Mongolian people of Inner Mongolia.

The Mongolian people of what used to be called Inner Mongolia, just to the south of the Mongolian Republic have been deliberately subjected to extremely cruel treatment, and because of the sending of thousands of ethnic Chinese to the area, are now a minority in their own land.

Mr. Speaker, in August, as the Chairman of the National Republican Institute, I led a delegation to the Mongolian Republic, the second country in the world to become Communist, the first Communist country in Asia to throw out a Communist government, to see if we could be of assistance in the move toward democracy.

While we were there, we met dissidents who had escaped from imprisonment in Inner Mongolia and fled to Mongolia. Their crime? To say that they would like to have democracy as well.

Mr. Speaker, I want to join in commending Ms. PELOSI, who certainly has been the leader in this fight.

Mr. SCHULZE. Mr. Speaker, I rise in support of the conference report to H.R. 2212.

As I and many of my colleagues have noted during this and last year's debate on whether to extend most-favored-nation trading status to China, that country's emigration and human rights policies clearly have worsened since the brutal massacre at Tiananmen Square. Further, China is steadily adding to its nearly $15 billion trade surplus with the United States through the use of cheap prison labor.

No mystery are they, the worsening conditions within China have been confirmed by several organizations: Amnesty International, ASIA's Watch, the Library of Congress and, even our very own Department of State.

Given that China's emigration policy is not in compliance with title 4 of the Trade Act of 1974, I have argued strenuously that this Nation is not legally entitled to the preferential tariff rates accorded under the MFN program.

For this reason, I and some very committed colleagues—including Messrs. SOLOMON, MARKEY and ROSE—have led a 2-year effort to terminate China's MFN status. In fact, in 1980, I was just as vehement in my opposition to President Carter's recommendation that China be granted MFN treatment in the first place.

Regrettably, over the past decade, the State Department has argued just as strenuously that a policy of appeasement—as opposed to the more heavy-handed approach preferred by most of us—is the way to yield positive change in China. This policy failed in the 1980's, and it will continue to fail in the 1990's. Chinese leaders neither respect nor respond to the carrot approach. Indeed, they arrogantly chew up the carrots and spit them in the faces of those who naively offer them. It is time to wield a stick!

I regret being in the position in which I find myself today. Whether I vote for or against the legislation before us, China still receives most-favored-nation status—and that truly disgusts me!

However, I commend the gentlelady from California, Ms. PELOSI, for her tireless efforts in bringing this conference report to the floor. At this stage, H.R. 2212 represents the strongest message we can sent to the Chinese leaders, and it and its author deserve our strong support.

Mr. LANCASTER. I speak today in full support of the conference report on H.R. 2212, which would allow the President to renew MFN for China only if the Chinese Government does three things: Releases imprisoned pro-democracy demonstrators held in China and Tibet; stops selling missiles to Syria or Iran; and makes "significant progress" in improving human rights, stemming nuclear proliferation, and practicing equitable trade policy.

Each of those provisions is completely defensible in its own right. In combination they represent a package worthy of strong bipartisan support.

The Chinese Government battles words with tanks. The Chinese Government denies its citizens the most basic of human rights. The Chinese Government abides by its own rules as it contributes to nuclear proliferation while most civilized countries work to stem such activity. The Chinese Government enjoys a growing multibillion-dollar trade surplus with the United States as it denies entry of United States products into its own markets. And the Chinese Government remains confident that the United States will continue to extend MFN to China irrespective of its ignoble practices and policies.

It is time for the United States Congress to speak with a loud and unified voice in telling the Chinese Government they are very much mistaken. We will not reward their shameful ways with preferential trade treatment. We will instead pass into law this conference report. We will send the signal that we will do business with China on our terms, not on terms dictated by the Chinese Government—especially when those terms work to the disadvantage of American interests.

The conference report is clear, it makes sense, and it is simply the right thing to do. I urge my colleagues to support the conference report.

Mr. OWENS of Utah. Mr. Speaker, I rise in strong support of the conference report and to express my appreciation to the chairman [Mr. ROSTENKOWSKI] and the gentlelady from California [Ms. PELOSI] for their support and leadership.

Mr. Speaker, we are tired of the new China syndrome, where Chinese leaders promise to change, yet China continues to supply nuclear technology to pariah states and sophisticated missiles to terrorist countries. And while the blood of the Tianenmen Square massacre is still fresh, America rewarded China with a high level visit from Secretary Baker.

I do not doubt the President's commitment to human rights, fair trade, and restrictions on the proliferation of nuclear and missile technology. By passing this conference report with a two-thirds majority, we will help the President press these important principles with the Government of the People's Republic of China.

Nearly 2 decades ago, I voted for the Jackson-Vanik Amendment. As my colleagues know, this amendment conditioned the extension of MFN to the Soviet Union on the Soviet's emigration policies.

Today, Mr. Speaker, we can point to a changed Soviet Union. It can no longer be viewed as the evil empire. It has changed its emigration policies, and while minorities still face an uncertain future, the historic Jackson-Vanik Amendment has been waived.

The Soviet Union has changed.

Sadly, the situation in China has deteriorated. Since the Tianenmen Square massacre, over 30,000 pro-democracy activists have been detained. Some, and we don't know exactly whom and how many, have been executed. More than 800 activists have been imprisoned and the Chinese secret police continues to investigate, harass, and persecute others thought to support the democracy movement.

This President, this Congress, this country, must not send a message of weakness. We must not disappoint those Chinese citizens who have sacrificed their lives and their futures for democracy.

As Jackson-Vanik helped lay the groundwork for the changes we are seeing today in the Soviet Union, conditioning MFN to China will set a similar standard for our relations with China and pose a vital, tangible symbol of hope and American commitment for democratic activists in China.

Mr. Speaker, this is not a partisan issue. An overwhelming bipartisan majority voted for the bill. And this is not a political issue. The President shares our goals.

Clearly, the issue here is one of tactics.

I was one who thought that Secretary Baker's trip was premature. That the Chinese had not given even a glint of hope of progress. But I was willing to give the administration the benefit of the doubt.

Secretary Baker was tough. He pressed the hardliners but there was no give. They even arrested two activists just prior to his arrival just to remind us who is boss.

I can imagine the thoughts of Chinese leaders. They are thinking that there will be no price to pay for their intransigence. They are thinking that their gross human rights violations will go without any real American response. That they can continue to provide nuclear and missile technology to terrorist states with impunity. That they can violate U.S. trade laws, export prison-made goods and stomp on the American worker without censure.

Now, after Secretary Baker returned form Beijing empty-handed, we have an obligation to put up or shut up.

I urge my colleagues to support this conference report, and I hope that the other body and the President are listening.

Mr. MARKEY. Mr. Speaker, I rise in reluctant support of the conference report on H.R. 2212, regarding the extension of most-favored nation status for the People's Republic of China.

There is much in the conference report which I strongly endorse, particularly provisions in the bill relating to human rights in China and the status of the pro-democracy protesters who have been imprisoned and mistreated since the Tiananmen Square massacre. At the same time, I must note that the nuclear non-proliferation requirements contained in the conference report are significantly weaker than the language of the House resolution.

Last June I testified in favor of tough nuclear non-proliferation conditions on MFN extension before the Ways and Means Committee last June and I worked with the gentleman from New York [Mr. DOWNEY] and my Republican colleague [Mr. SOLOMON] to craft the language which Mr. DOWNEY attached to H.R. 2212 in the Ways and Means Committee.

The House China MFN resolution would have conditioned extension of MFN status for the People's Republic of China on two factors:

First, the Chinese Government would have had to provide clear and unequivocal assurances to the United States that it is not assisting any non-weapons state—either directly or indirectly—to acquire nuclear explosive devices or the materials and components for such devices.

Second, the House resolution would have required that before MFN status could be extended, the President of the United States must certify to Congress that based on the assurances provided by the Chinese Government, as well as all other information available to the President, that the Chinese were in fact not assisting any state in acquiring nuclear explosives.

Specifically, under the House resolution, in order for MFN status to be extended for the People's Republic of China, the President would be required to submit the report and make the certifications required under the 1985 congressional resolution which approved the United States-People's Republic of China Nuclear Cooperation Agreement. The 1985 legislation conditioned United States-Chinese nuclear cooperation on the People's Republic of China Government providing the United States with additional information regarding its nuclear non-proliferation policies and practices.

Based on this information, the President was required to certify that China was not in violation of section 129 of the Atomic Energy Act. Section 129 of the act bars U.S. nuclear cooperation with any country which has "assisted, encouraged, or induced any non-nuclear-weapons state to engage in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices." Section 129 also bars such cooperation with nations which have transferred reprocessing equipment, materials, or technology to the sovereign control of a non-nuclear-weapons state. To date, neither the report or the certifications required under the 1985 resolution have been made, and administration officials have acknowledged that this failure is directly tied to Chinese continuing misbehavior on nuclear non-proliferation.

Unfortunately, the conference report has substantially weakened the nuclear non-proliferation requirements set forth in the original House and Senate resolutions.

Instead of a tough nuclear non-proliferation requirement that actually ties MFN extension to a requirement that China's reckless nuclear non-proliferation practices come to an end, the conference report requires only that China make "overall significant progress" in "adopting a national policy" which: First, adheres to, and ceasing activities inconsistent with the standards and guidelines set by the Nuclear Suppliers Group; and, second takes clear and unequivocal steps to assuring the PRC is not assisting any non-weapons state in acquiring nuclear explosives.

The conference report states that the "significant progress standard" would not be met if the President determined that on or after November 26, 1991, the People's Republic of China had transferred to Syria or Iran material, equipment, or technology which would contribute significantly to the manufacture of a nuclear explosive device. Interestingly, this requirement would not apply to any transfers of equipment or technology to Iran which occurred before today's date—such as the Chinese transfers of calutrons and reactor technology to Iran, which was reported on by the Washington Post earlier this year. It would also not apply to Chinese nuclear assistance to other potential proliferators—such as Algeria or Pakistan—despite substantial evidence that China has previously assisted these countries in acquiring nuclear weapons technologies.

The conference report also expresses the sense of the Congress that the President should submit the report required under the 1985 congressional resolution on United States-People's Republic of China nuclear cooperation.

While I would have preferred tougher nuclear non-proliferation requirements as a condition of MFN extension, I am reluctantly supporting the conference report today because I believe the final language, while less stringent than the house resolution, nonetheless represents an improvement over current law, which does not link MFN for China to nuclear non-proliferation.

Mr. CRANE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mrs. KENNELLY. Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore (Mr. MFUME). The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mrs. KENNELLY. Mr. Speaker, I object to the vote on the ground that a quorum is not present, and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 409, nays 21, answered "present" 1, not voting 3, as follows:

ANSWERED "PRESENT"—1

Murphy

NOT VOTING—3

Davis
LaRocco
Martinez

☐ 2120

Mr. McCANDLESS, Mrs. VUCANOVICH, and Mr. LEWIS of Florida changed their vote from "yea" to "nay."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. MFUME). The Chair announces that pursuant to the provisions of clause 5, rule I, that he will postpone further proceedings today on each scheduled motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, and votes previously postponed, will be taken after the expiration of a recess.

CRANSTON-GONZALEZ NATIONAL AFFORDABLE HOUSING ACT AMENDMENTS

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3576) to amend the Cranston-Gonzalez National Affordable Housing Act to reserve assistance under the HOME Investment Partnership Act for certain insular areas, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Senate Amendment:

Strike out all after the enacting clause and insert:

SECTION 1. RESERVATION OF ASSISTANCE.

Section 217(a) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12747(a)) is amended—

(1) in the first sentence of paragraph (1), by inserting "and after reserving amounts for the insular areas under paragraph (3)" before the first comma; and

(2) by adding at the end the following new paragraph:

"(3) INSULAR AREAS.—

"(A) IN GENERAL.—For each fiscal year, of any amount approved in an appropriations Act to carry out this title, the Secretary shall reserve for grants to the insular areas an amount that reflects—

"(i) their share of the total population of eligible jurisdictions; and

"(ii) any adjustments that the Secretary determines are reasonable in light of available data that are related to factors set forth in subsection (b)(1)(B).

"(B) SPECIFIC CRITERIA.—The Secretary shall provide for the distribution of amounts reserved under this paragraph among the insular areas in accordance with specific criteria to be set forth in a regulation promulgated by the Secretary after notice and public comment.

"(C) TRANSITIONAL PROVISIONS.—For fiscal year 1992, the reservation for insular areas specified in subparagraph (A) shall be made from any funds which become available for reallocation in accordance with the provisions of section 216(6)(A).".

SEC. 2. DEFINITIONS.

Section 104 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12704) is amended—

(1) in paragraph (1), by striking "Guam" and all that follows through "the Marshall Islands" and inserting "the insular areas"; and

(2) by adding at the end the following new paragraph;

"(24) The term 'insular areas' means Guam, the Northern Mariana Islands, the United States Virgin Islands, and American Samoa."

SEC. 3. EXTENSION OF TIME TO SUBMIT CDBG STATEMENT.

Notwithstanding any other provision of law, the City of Petersburg, Virginia is authorized to submit not later than 10 days following the enactment of this Act, and the Secretary of Housing and Urban Development shall consider and accept, the final statement of community development objectives and projected use of funds required by section 104(a)(1) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(a)(1) in connection with a grant to the

City of Petersburg under title I of such Act for fiscal year 1991.

SEC. 4. LOW-INCOME HOUSING COVENANTS.

Section 515(p)(4) of the Housing Act of 1949 (42 U.S.C. 1485(p)(4)) is amended by adding at the end "The preceding sentence shall not be interpreted as authorizing the Secretary to—

"(A) limit the ability of a housing credit agency to require an owner of housing, in order to receive a low-income housing tax credit, to enter into a restrictive covenant, in such form and for such period as the housing credit agency deems appropriate, to maintain the occupancy characteristics of the project as prescribed in section 42(h)(6) of the Internal Revenue Code of 1986; or

"(B) deny or delay closing of financing under this section of the existence, or occupancy terms, of any such restrictive covenant.".

SEC. 5. FLOOD ELEVATION DETERMINATION.

Notwithstanding the time limit set forth in section 1363(c) of the National Flood Insurance Act of 1968 (42 U.S.C. 4104(c) and (d)), St. Charles Parish, Louisiana, may file an appeal with the Director of the Federal Emergency Management Agency with respect to certain flood elevation determinations for the area in and near the Ormond Country Club Estates located in St. Charles Parish, Louisiana, not later than June 1, 1992.

Mr. GONZALEZ (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Texas?

Mr. McCANDLESS. Mr. Speaker, reserving the right to object, I do so to ask my honorable chairman, the gentleman from Texas, Mr. GONZALEZ, if he would explain the basis for his request and the subject matter in the request.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. McCANDLESS. I yield to the gentleman from Texas.

Mr. GONZALEZ. Mr. Speaker, the House passed H.R 3576 as amended, which is what we are offering here, on October 21, and it passed it under suspension of the rules as a technical amendment to the HOME Program to correct a series of unintended problems which would have prevented the four U.S. territories from participating in the HOME Program.

On Saturday last the Senate passed an amendment to H.R. 3576 and has returned the bill to the House for a final consideration. One, in addition to providing funding to the territories under the HOME Program, the bill extends the deadline for filing a final statement under the CDBG Program for Petersburg, Virginia;

Two, it corrects a glitch in the law governing the FmHA section 515 Rural Rental Housing Program to enable loan closings for projects using the low-income housing tax credit, and it extends a time deadline for filing an appeal for floodplain determinations in St. Charles Parish, LA.

These additional provisions have been accepted by both sides of the aisle, and I urge the adoption of H.R. 3576.

Mr. McCANDLESS. Mr. Speaker, I thank the gentleman. It is my understanding that the ranking minority member of our committee has concurred in this.

Mr. RIGGS. Mr. Speaker, I rise today in support of this urgently needed legislation. Amidst all the partisan rhetoric and bitterness generated by our debate over an economic growth package, I ask for a moment of reason and careful consideration of the legislation before us. This body has an opportunity to rise above the petty politics and, by extending this package of productive tax credits, show the American people that the Congress is still looking out for their best interests.

I have heard it said that you can claim to be an advocate for the people all year, but it's your vote that counts. That statement is particularly germane today, while we consider whether we will provide housing for literally hundreds of thousands of people. I would argue that passing this bill does not go far enough and that Congress should make all of the credits contained in this package permanent provisions of the tax code.

My concern with the extension of these tax credits stems from my background as a small businessman in the real estate industry. I know from personal experience how effective incentives can be in driving policy, and how well the low income housing tax credit in particular has been received in the market. I would remind my colleagues that the low income housing tax credit is the last Federal tax incentive remaining which encourages private sector production of affordable housing stock.

I represent the First Congressional District of California, which happens to include 2 of the 10 least affordable housing markets in the entire United States. Based on my own personal experience and the outcry from my constituents, I must conclude that much of America is the victim of a serious social illness in the form of increasing homelessness and general poverty. These programs we are considering have developed an excellent track record of combatting such social problems since their enactment. Thus, unless we're philosophically opposed to the creation of affordable housing or we think that helping low-income families achieve the American dream of home ownership isn't a worthwhile goal, the House of Representatives has no excuse for failing to pass this bill.

As Members of Congress, it is our responsibility to act in a timely manner to extend these successful credits. I honestly do not believe I would be doing my job if I voted against this legislation. I urge my colleagues to affirm the American dream as well as the faith of the people in their leadership by doing what is right and voting for this bill. I am submitting for the RECORD an editorial which speaks eloquently on the need for action and was written by my constituent, Mr. Arnold Sternberg, Director of Burbank Housing Development Corp. of Sonoma County, California.

HOUSING AID VITAL TO SONOMA COUNTY—CLOSE TO HOME

(By Arnold Sternberg)

Ken Harney's syndicated column in Sunday's real estate supplement paints a bleak picture for the future of affordable housing across the nation. In his column, Harney reports that the two federal programs which are the backbone of the nation's affordable housing effort may disappear at the end of this year.

The two programs whose demise he predicts are the mortgage revenue bond program, which provides permanent financing at below market interest rates for the first-time home buyers, and the federal low-income housing tax credit program, which is designed to attract private investment to make low-rent apartment development possible.

To understand what these two programs mean to Sonoma County, one need look no further than the Burbank Housing Development Corporation's experience in utilizing these programs:

In Petaluma, two sweat-equity projects, the 32-unit Magnolia Hills and the 8-house Madison Manor as well as the just-completed 29-unit Cherry Hill home ownership opportunity and the soon-to-start Hillview Oaks (30 town homes in the Corona-Ely annexation area), all rely on mortgage revenue bonds for financing.

In Santa Rosa, the 40-house self-help Rancho Miguel and Gardner Construction's 62-house development—Parkside—now going up at Piner and Fulton, are also largely financed with the same mortgage revenue bond program.

On the rental side, Burbank developed the 23-unit Madrone Village in Petaluma and the 20 senior apartments, Mountain Terrace II, in Healdsburg, using the tax-credit program. Also slated for tax-credit financing is Burbank's 50-unit apartment development in Rohnert Park and the 24-bed Burbank-Community Support Network joint venture, for which ground was just broken on Aston Avenue in Santa Rosa, a development designed to house formerly homeless people with a history of mental illness and other disabilities.

Burbank also utilized mortgage revenue bond financing in developing the 60-unit Gravenstein Apartments in Sebastopol, the 40 apartments at West Avenue in Santa Rosa and the 7-unit Cubernet project for seniors in Sonoma.

Virtually none of these 208 home-ownership opportunities would have been available to first-home buyers without the mortgage revenue bond program and none of these 225 below market rent apartments could have been built without the federal low-income housing tax credit program and mortgage revenue bond financing.

Harney's column should be read, therefore, as a "call to arms" for all those interested in solving, at least in part, the affordable housing program in Sonoma County. Our elected representatives need to know what has been done by just one small nonprofit developer in this county using these two programs.

Harney's predictions notwithstanding, the two programs can be saved and extended if this community, beginning with the Chamber of Commerce's November 15, symposium on affordable housing, can put this effort at the top of its legislative "must" list.

In the House of Representatives the extension vehicle for tax credits is HR–413 and for the mortgage revenue bond bill, it is HR–1067. Congressman Riggs and Congresswoman Boxer, Senators Cranston and Seymour need to hear from you on this subject now.

Mr. MCCANDLESS. Mr. Speaker, based upon that explanation, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Texas?

There was no objection.

A motion to reconsider was laid on the table.

IMPROVING OPERATIONAL EFFICIENCY OF JAMES MADISON MEMORIAL FELLOWSHIP FOUNDATION

Mrs. LOWEY of New York. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3932) to improve the operational efficiency of the James Madison Memorial Fellowship Foundation, and for other purposes.

The Clerk read as follows:

H.R. 3932

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENT OF JAMES MADISON MEMORIAL FELLOWSHIP ACT

The James Madison Memorial Fellowship Act (20 U.S.C. 4501 et seq.) is amended—

(1) in subsection (b) of section 803, by adding at the end the following new paragraph:

"(3) A member of the Board whose term has expired may continue to serve until the earlier of—

"(A) the date on which a successor has taken office; or

"(B) the date on which the Congress adjourns sine die to end the session of Congress that commences after the date on which the member's term expired."; and

(2) in subsection (a) of section 811—

(A) in paragraph (1)—

(i) by striking "an other" and inserting "and other"; and

(ii) by striking "(1)"; and

(B) by striking paragraph (2).

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from New York [Mrs. LOWEY] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. GOODLING] will be recognized for 20 minutes.

The Chair recognizes the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York, Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3932 is important legislation to allow the James Madison Memorial Fellowship Foundation to begin full operation of its scholarship program.

In general, we all recognize that our Nation urgently needs to expand Federal student aid programs. The James Madison Memorial Fellowship Program, which is aimed at strengthening the teaching of the principles and development of the United States Constitution, is a particularly worthy and important fellowship program.

The bill is very simple. When the Fellowship Foundation was created, it was endowed with a trust fund that has subsequently accrued interest. This bill permits the Madison Foundation to get down to the business of awarding fellowships by using the interest which has accrued on its endowment to fund its fellowship program, while protecting the trust fund itself.

It is important to point out that this legislation requires no Federal funding. It has received bipartisan support within the Committee on Education and Labor, from Chairman BILL FORD and ranking member BILL GOODLING, and it has been endorsed by the administration.

Mr. Speaker, this legislation will help us improve the quality of education in our Nation and will help broaden the understanding and appreciation of our Constitution and our democratic system of government. There are few objectives that are more worthy of our strong support.

I would urge all Members to support this bill, and at this point, I would yield to the gentleman from Virginia, who introduced this important legislation and has worked hard to see that it is enacted.

Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia [Mr. SISISKY] who has produced this important legislation and has worked hard to see that it is enacted.

Mr. SISISKY. Mr. Speaker, I rise today in support of legislation to allow the James Madision Memorial Fellowship Foundation to begin full operation of its fellowship program. It is only fitting that in the year we commemorate the bicentennial of the ratification of the Bill of Rights, we also grant to the foundation—named after the Bill of Right's principal author—the ability to perform its worthy mission assigned by Congress.

Mr. Speaker, the Madison Foundation is a living memorial to James Madison: Father of the Constitution, fourth President of the United States, and truly a great Virginian. It was established by Congress in 1986 as a part of the bicentennial commemoration of the U.S. Constitution. This program will award fellowships nationwide to outstanding graduate students preparing to become secondary school teachers in the fields of American history and government. This program will also award fellowships to experienced high school teachers seeking to strengthen their knowledge in the same area. Madison fellows will agree to teach full-time in secondary schools for at least 1 year for each year of assistance, and will emphasize the U.S. Constitution in their teaching.

The legislation we are considering today is actually very simple. In addition to two house-keeping provisions, this measure permits the Madison Foundation to embark on its mission of strengthening the teaching in our Nation's schools of the framing, principles, and development of the U.S. Constitution. It does so by allowing the Madison Foundation to use the interest which has accrued on its endowment to fund its fellowship program, while protecting the corpus of the Foundation's trust fund.

While enacting this important legislation will require no Federal funding, it will pay dividends for years to come. These dividends will be deeper understanding of American government, increased knowledge of the rights and responsibilities of citizens under the Constitution, and an enhanced spirit of civic participation in both teachers and students * * * the same spirit which inspired our Nation's Founding Fathers.

This bill has the support of the Education and Labor Committee Chairman, Mr. FORD, and the committee's ranking minority member, Mr. GOODLING. In addition, the measure is supported by Senators HATCH and KENNEDY in the other body. Furthermore, it has been scrutinized and endorsed by the Office of Management and Budget. I urge my colleagues to support this worthwhile legislation which promotes a program that emphasizes the Constitution and higher education. It is indeed deserving of our support.

☐ 2130

Mr. GOODLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the program envisioned here is very laudable. We have a serious problem, however, in that when we put up the $20 million, the Foundation indicated putting up $10 million would be an easy kind of thing to do. Unfortunately, they have not done it.

I just want to make it very, very clear, that when they come back next year and ask to use the interest on the $20 million that the taxpayers put up, that I will do my very best to make sure that it is not granted, unless they have shown a very good faith effort to get their $10 million which they originally said would be easy to do.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. GOODLING. Yes, I am happy to yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, this is sounding a little like a shell game to me. The taxpayers put up $20 million with the idea that the foundation was going to put up $10 million, and now they have not gotten their $10 million, but they are going to come back and use the interest on the money originally put up by the taxpayers, is that right?

Mr. GOODLING. That is right, $4 million.

Mr. WALKER. Now, how much money has been raised by the Foundation so far?

Mr. GOODLING. I will yield to the gentleman from Virginia [Mr. [SISISKY] to anwer that.

Mr. SISISKY. Mr. Speaker, they are in the process of raising money.

Mr. WALKER. Have they raised half of it?

Mr. SISISKY. Mr. Speaker, if the gentleman will yield, I do not believe they have. I do not know the figure, but if the gentleman will let me explain. One of the projects was a coin bill which we are waiting to do in 1993 and this was the problem. We have not yet passed a coin bill for the James Madison Foundation to raise the money.

Mr. WALKER. But as I understand it, this is not a coin bill either. What this is doing is simply saying that we are going to now use the interest money, which is essentially money that the taxpayers have already forwarded.

Now, I am a little confused. How are we going to raise the $10 million that was a part of the $20 million guarantee?

Mr. SISISKY. Mr. Speaker, if the gentleman will yield further, we are in the process of raising the money from foundations and other things. We are having trouble, in all honesty, on the issue of raising the money.

Mr. WALKER. Well, does the figure of $50,000 sound right?

Mr. SISISKY. I think we raised more than $50,000. Is the gentleman saying $50,000?

Mr. WALKER. I have had it indicated to me that the total that has been raised so far out of the $10 million is $50,000.

Mr. SISISKY. I think we have raised more than $50,000, but I am really not sure of the figure, honestly, I am not.

Mr. WALKER. Well, I am concerned about the process that we are using here at the very last minute.

Mr. Speaker, I thank the gentleman for yielding to me.

Mr. WELDON. Mr. Speaker, will the gentleman yield?

Mr. GOODLING. I am happy to yield to the gentleman from Pennsylvania.

Mr. WELDON. Mr. Speaker, I thank my colleague for yielding to me.

I would just like to ask a question. I am not against this particular bill or the concept, but I understand there was an attempt made, or there has been a bill introduced to offer a coin that would generate approximately $10 million in funding, and now instead of that coin bill, we are offering a bill that will in fact allow the interest to be used, to which I am not objecting.

My question is do the sponsores plan to continue to move the coin bill forward to raise the additional amount of funds necessary to match the $20 million of public funding?

Mr. SISISKY. Mr. Speaker, if the gentleman will yield, we would like to move the coin bills forward.

Mr. WELDON. Well, the only thing I would say to my colleagues in the House, and once again not being against this, but the scenario of what happened here today was that there was going to be a package of four coin bills offered shortly that my colleagues are going to be asked to vote upon.

In the initial package of those coin bills the Madison coin bill was included in that package. It was only removed because there was an outcry nationally from the American Fire Service, the 3 million people who have been working for 2 years to pass a Ben Franklin coin in 1993, which the Madison bill would completely knock out.

Now we are finding that not only are we going to pass this bill, which is going to allow the interest to be used, the $4 million, but we are going to come back and pursue a 1993 coin bill to raise additional funds for the James Madison Foundation, and again jeopardize the number one priority of the National Fire Service, which is the Ben Franklin coin bill.

I really find this somewhat outrageous.

While I do not want to disagree with my friend and told him I did not want to stand up here and oppose it, what is happening is we are going to have the coin bill come back again that will raise the money for this, and I do not know where the Foundation is raising its money on its own.

As a matter of fact, my friend and colleague on the Republican side who is offering the bill with my good colleague and friend, the gentleman from Virginia, was not even aware what this bill was 5 minutes ago. He thought this was the coin bill, because the staff had not told him that they changed it from a coin bill that now allows the Foundation to use the interest on the money generated.

I find this offensive, especially in light of the fact that with the coin bill that was being proposed, there was no limitation on the administrative overhead, the funds to be used for salaries.

I just find this an outrageous way to try to fund what in fact is a very worthwhile project.

Mr. GOODLING. Taking back my time, Mr. Speaker, I again reiterate that I have no objection to the legislation tonight.

I will be very much in opposition to any attempt next year to use the interest, unless the foundation has made a very good-faith effort to raise their part of the money.

Mr. ALLARD. Mr. Speaker, will the gentleman yield?

Mr. GOODLING. I yield to the gentleman from Colorado.

Mr. ALLARD. Mr. Speaker, today I join with my distinguished colleague, Congressman NORMAN SISISKY, in supporting H.R. 3932, a bill which will improve the operational efficiency of the James Madison Memorial Fellowship Foundation. Since coming to Congress, I have been a strong supporter of the education programs of the Madison Foundation.

Under the direction of Adm. Paul A Yost, the former Commandant of the U.S. Coast Guard, the foundation is in its first year of full operation. However, Admiral Yost, and the trustees of the foundation have indicated that there are several provisions which need to be addressed in order to improve the operations of the foundation.

This legislation does three things: First, it allows existing members of the board of trustees of the foundation to continue serving at the end of their term until the President of the United States either reappoints that trustee or he appoints that trustee's successor. This will allow the foundation to continue its operations more efficiently because there will be a fully functioning board of trustees at all times to oversee the foundation's activities.

Second, a typographical error is corrected in the foundation's original legislation.

Third, the foundation will be relieved of its current mandate to raise an additional $10 million from private and other sources before fellowships can be awarded. Raising this large amount of funds has proven to be difficult, and there is a great need for the foundation to be in operation before potential donors are comfortable in funding the foundation's educational programs.

I want to assure the members of the House that this legislation does not allow the foundation to spend any of its original $20 million trust fund. The foundation will only be able to use the interest the trust fund has accrued. The foundation fully intends to continue to raise funds from private and other sources.

Finally, I would like to point out to my colleagues that the Office of Management and Budget has reviewed this legislation and has given its approval of its enactment.

I ask that my colleagues join me in supporting this important legislation which will help the Madison Foundation accomplish the mandate on educating our Nation's secondary school teachers.

Mr. GOODLING. Mr. Speaker, I want to make sure that the third gentleman from Pennsylvania just speaking was not speaking of this gentleman, the first gentleman from Pennsylvania, when he said that he did not know what was in the legislation. I know very well what is in the legislation.

Mr. Speaker, I yield back the balance of my time.

Mrs. LOWEY of New York. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentlewoman from New York [Mrs. LOWEY] that the House suspend the rules and pass the bill, H.R. 3932.

The question was taken; and on a division (demanded by Mr. WALKER) there were—yeas 14, nays 3.

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

□ 2140

GENERAL LEAVE

Mrs. LOWEY of New York. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 3932 the bill just considered.

The SPEAKER pro tempore (Mr. MFUME). Is there objection to the request of the gentlewoman from New York?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONOR OF H.R. 2797

Mr. HANCOCK. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2797.

The SPEAKER pro tempore is there objection to the request of the gentleman from Missouri?

There was no objection.

COMMENDING PEOPLE OF GUAM AND HAWAII FOR SACRIFICES AND CONTRIBUTIONS MADE DURING WORLD WAR II

Mr. DE LUGO. Mr. Speaker, I move the House suspend the rules and pass the resolution (H. Res. 293) commending the people of Guam and Hawaii for the sacrifices and contributions they made during World War II.

The Clerk read as follows:

H. RES. 293

Whereas on December 8, 1941, the Imperial Japanese Forces attacked the territory of Guam;

Whereas such forces bombed the marine barracks of the United States in the village of Sumay, the Piti Navy Yard, the U.S.S. Penguin, and the U.S.S.R.L. Barnes;

Whereas on December 10, 1941, Guam became the only populated community of the United States to be invaded and forcibly occupied by such forces;

Whereas the residents of Guam, particularly the resident forces of the United States Navy and Marine Corps and the local force known as the Navy Insular Force, valiantly defended the territory in the face of overwhelming opposition;

Whereas the Navy Insular Force was singled out by its commander for its defense of the Governor's Palace at the Plaza de Espana;

Whereas Guam was occupied by the enemy for 32 months, until the armed forces of the United States liberated the territory in July 1944;

Whereas, throughout the occupation, individuals on Guam were beaten or executed for remaining loyal to the United States, for aiding and providing food to imprisoned members of the armed forces of the United States, and for hiding members of the armed forces of the United States from the enemy;

Whereas the people of Guam were denied basic civil liberties and were forced to construct airstrips, dig caves, install antilanding barriers, grow food, and raise livestock for the Imperial Japanese Forces;

Whereas the people of Guam were deprived of sufficient food, clothing, and medical care by such forces;

Whereas a number of Chamorro men were executed for refusing to reveal the whereabouts of a sailor from the United States who was hiding on Guam;

Whereas the people of Guam were forced to live in a concentration camp under inhuman conditions;

Whereas in Tinta on July 15, 1944, and again in Faha on July 16, 1944, 30 residents of Merizo, Guam were taken into a cave and executed by members of the Imperial Japanese Forces;

Whereas on December 7, 1941, military installations of the United States in the territory of Hawaii, including Pearl Harbor, were attacked by armed forces of Japan;

Whereas among the defenders of Hawaii were the 298th and 299th Infantry Regiments, which included large numbers of Hawaii National Guardsmen who had been mobilized previously and residents of Hawaii who had been drafted in 1940 and 1941;

Whereas the 2,403 Americans killed in that attack included 68 civilian residents of Hawaii;

Whereas residents of Hawaii employed in civilian jobs at Pearl Harbor and other military installations responded courageously by manning anti-aircraft guns, fighting fires, tending to the wounded, and performing rescue operations;

Whereas individuals at Pearl Harbor Naval Ship Yard performed heroic work in raising and repairing the ships of the Pacific Fleet of the United States which had sunk or sustained damage during the December 7th attack, which work resulted in the return to active service of 18 out of 21 such ships;

Whereas such individuals played a vital role in making the Pacific fleet fit to fight in subsequent battles of World War II;

Whereas the University of Hawaii Reserve Officers' Training Corps was mobilized to defend Hawaii against the threat of imminent enemy invasion, making such corps the only unit of the Reserve Officers' Training Corps to be mobilized for active duty;

Whereas the members of the such corps and other residents of Hawaii were activated into the Hawaii Territorial Guard for the purpose of defending the Hawaiian islands;

Whereas the loyalty of Americans of Japanese Ancestry came under unjustified suspicion in the aftermath of the attack on Pearl Harbor even though many of the residents of Hawaii who assisted courageously in the defense of Pearl Harbor and other military installations on December 7, 1941, as well as many of those uniform poised in defense of Hawaii, were Americans of Japanese Ancestry;

Whereas such unjustified suspicion resulted in the wrongful internment of some 110,000 Americans of Japanese Ancestry;

Whereas Hawaii was placed under martial law from 1941 to 1944 and its people were denied a number of fundamental constitutional rights, such as the right to petition for habeas corpus;

Whereas the imposition of martial law suspended the constitutional provisions which protected minorities, compounding the difficult situation of Americans of Japanese Ancestry;

Whereas Americans of Japanese Ancestry in the territory of Hawaii were unjustly discharged from the Hawaii Territorial Guard and removed from combat units;

Whereas such individuals, who resolved to demonstrate their loyalty, engaged in volunteer defense work by enlisting in the Varsity Victory Volunteers and similar organizations;

Whereas such individuals, when they were permitted to serve in combat units, demonstrated beyond question their loyalty by volunteering to serve in the armed forces of the United States in record numbers; and

Whereas such individuals compiled extraordinarily distinguished records in the 100th Infantry Battalion, the 442nd Regimental Combat Team, and the Military Intelligence Service: Now, therefore, be it

Resolved, That the House of Representatives commends—

(1) the people of Guam for their patriotism, bravery, loyalty to the United States, and many sacrifices during World War II, particularly during the invasion and occupation of the territory of Guam;

(2) the members of the Navy Insular Force and United States Navy and Marine Corps for the efforts and sacrifices they made in defense of the United States;

(3) the people of Hawaii for their sacrifices and contributions to the war effort of the United States, particularly during the attack on Pearl Harbor on December 7, 1941; and

(4) the members of the Hawaii Territorial Guard, the Varsity Victory Volunteers, the civilian workers at Pearl Harbor Naval Ship Yard and other military installations in Hawaii, the 100th Infantry Battalion, the Military Intelligence Service, and the 442nd Regimental Combat Team for their sacrifices and contributions to the war effort of the United States, particularly during the attack on Pearl Harbor on December 7, 1941.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Virgin Islands [Mr. DE LUGO] will be recognized for 20 minutes, and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

Mr. DE LUGO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as the title of the resolution states, House Resolution 293 would commend our fellow Americans in Guam and Hawaii for the sacrifices and contributions they made during World War II.

It recounts some of these sacrifices and contributions in great and—in some cases—painful, detail. And as dramatic and horrifying as some of these details may sound, they are not exaggerated.

In fact, there is even more that could be said if a complete description of the suffering of our fellow Americans in Guam and Hawaii were given.

The resolution, further, commends the people of Guam for their patriotism, bravery, loyalty, and sacrifices during the war; those who defended our Nation in what were then both territories; and the people of Hawaii for their sacrifices and contributions, particularly during the attack on Pearl Harbor.

We certainly cannot say too much in these areas.

The 50th anniversary of the attack on Pearl Harbor—and the 50th anniversary of the invasion of Guam—is, of course, an appropriate time for the House to remember the deeds of these Americans and thank them for what they did.

And we should do so with more than just a mere passing through.

One reason is that their sacrifices and contributions were so great and so important.

Another, though, is that while World War II may now be a distant memory for some Americans, the painful memories have not faded for many of the people who were in the front line in the Pacific.

In fact, some of the sadder legacies of World War II are the very real problems related to it that we still face in Guam. Indeed, they are such powerful issues that they affect consideration of the island's relationship to the rest of our country, a matter that is now being reconsidered.

Guam is the only present United States territory with a sizable population occupied by enemy forces during the war. The attack on lightly-fortified Guam—which occurred almost simultaneously with the attack on Pearl Harbor—was followed by the subjugation of the people to enemy military rule.

The hardships of this time were tremendous: Guamanian people were denied basic human rights in their own homeland; they were imprisoned, forced to labor, tortured, and murdered, often by beheading.

They were made to suffer precisely because of their patriotism.

Then, their island was virtually destroyed during its liberation by U.S. forces. And, later, their land was often unfairly taken by their liberators.

I first came to understand the emotion and importance attached to the issues dating to this period when I learned of them from our late colleague Antonio Won Pat, whose own brother was, I believe, executed by the enemy when it occupied the island. Of course, Tony served with distinction for many years in this House.

I have also come to understand this matter from Tony's successor, our colleague BEN BLAZ, who himself suffered hardships inflicted by the enemy during his youth.

The gentleman from Guam has pressed for action on two measures to respond to these issues. One would return land unfairly taken from his people by the U.S. military that is no longer needed by the military. The other would compensate his people for war suffering and losses, an issue on which we have also worked with Senator George Bamba of Guam.

The Subcommittee on Insular and International Affairs, which I am privileged to chair, has spent a lot of time—through oversight and legislation—on both of these matters as well as on the very important question of the future Guam-United States relationship, which they influence.

I know that I am joined by the gentleman from California [Mr. LAGOMARSINO] the ranking Republican of the subcommittee, as well as the gentleman from Guam, when I say that we very much hope that we will be able to reach agreement with all concerned on these matters.

So, I regard this resolution, in part, as a step that we can take now to demonstrate our sincere appreciation to the people of Guam along a path of concluding our responsibilities to them arising out of World War II.

Another step that we can certainly take next year is to provide the funds needed to acquire the land designated as the war in the Pacific National Park in 1978.

I hope that the park will be fully operational before the 50th anniversary of the liberation of Guam 2½ years from now. I also hope that the American Memorial Park in the nearby North Mariana Islands, which would also commemorate World War II suffering, will be fully funded by then.

While it is difficult to resolve many of these issues relating to World War II in our Pacific insular areas, the extent of the sacrifices and the fervor of the people compel us to continue to keep trying to do so.

So, it is with a deep sense of duty and appreciation that I urge the House to approve this resolution, recalling the immeasurable suffering of the people of Guam and Hawaii during that time of adversity and commending them for their bravery and loyalty. It should never be forgotten.

Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of House Resolution 293 introduced by my colleague BEN GILMAN, Which commends our fellow United States citizens in Guam and Hawaii for their courageous sacrifices and contributions made during World War II. Many of their individual efforts have become legendary particularly among those who joined the U.S. Armed Forces and served with great distinction. SENATOR DANIEL INOUYE of Hawaii is a great example of one who took up the call to arms in defense of our country and was decorated for his bravery on the battlefield.

My good friend from Guam, BEN BLAZ, also lived through the occupation of Guam seeing firsthand the terrors of war and the joys of liberation by the United States Armed Forces. He later joined the Marine Corps and rose through the ranks to become general. It has indeed been a pleasure and an honor to work with General Blaz and to serve with him on the Committee on Interior and Insular Affairs and the Committee on Foreign Affairs. Not only has he distinguished himself in his prior military career, he has made his mark here in the Congress as well. His handling of the very complicated California Desert Protection Act is a testament to the excellence of his work.

There are also many unsung heroes from Guam and Hawaii who gave their lives or parts of their lives as a result of their loyalty to the United States during the war. This became dramatically evident during hearings which were held by the Subcommittee of Insular and International Affairs on which I serve regarding World War II war reparations. Many of the survivors of the atrocities of World War II told horrific tales of torture and forced labor during the occupation of Guam. One woman showed the broad red scar stretching across the back of her neck where enemy forces had attempted a beheading and left her for dead among other victims. This U.S. citizen is only one of many who suffered the trials of World War II while remaining loyal to the United States and who deserve more than public recognition.

I have worked closely with the Chairman of the Subcommittee on Insular and International Affairs, RON DE LUGO, to develop Guam war reparations legislation which would be equitable to all and acceptable to the Senate and the administration. In spite of our efforts in the last Congress, opposition in Guam arose to the war reparations legislative compromise based on the false assumption that greater reparation levels could be obtained.

As we approach the 50th anniversary of the start of World War II, it is fully appropriate and necessary to remember the challenges endured by our fellow U.S. citizens in two great Pacific archipelagoes: the Marianas and Hawaii. I urge my colleagues to join in commending the people of Guam, the southernmost island of the Mariana Islands, and Hawaii for the sacrifices and contributions made during World War II. Perhaps one day restitution will be provided for those who suffered the tribulations of occupation in the same spirit which recognition is given through this resolution.

□ 2150

Mr. Speaker, I reserve the balance of my time.

Mr. DE LUGO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I again want to urge my colleagues to approve this measure so that the people of Guam and Hawaii will know how much the House of Representatives appreciates their tremendous sacrifices and contributions made during World War II. Finally, I want to commend our colleagues, the gentleman from Guam [Mr. BLAZ], the gentleman from New York [Mr. GILMAN], the gentleman from Hawaii [Mr. ABERCROMBIE] and others for proposing this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN], the author of the resolution.

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of House Resolution 293 along with my colleagues, the gentleman from Guam [Mr. BLAZ], the gentleman from New York [Mr. SOLARZ], the gentleman from Hawaii [Mr. ABERCROMBIE], the gentleman from Iowa [Mr. LEACH], the gentleman from American Samoa [Mr. FALEOMAVAEGA], and the gentleman from California [Mr. LAGOMARSINO] who joined with me in sponsoring this legislation commending the people of Guam and Hawaii for their sacrifices and their contributions to the allied effort during World War II. I want particularly to commend my good friend, the gentleman from Guam [Mr. BLAZ], for his dedication and diligent work on behalf of his constituents and all the veterans, as well as the gentleman from Hawaii [Mr. ABERCROMBIE] on behalf of his constituents, and I thank the gentleman from the Virgin Islands [Mr. DE LUGO], the distinguished subcommittee chairman, and the distinguished ranking minority member of that committee, the gentleman from California [Mr. LAGOMARSINO].

Mr. Speaker, the date of December 7, 1941, is the day that will long live in infamy and will live forever in the minds of all Americans. Virtually every American recognizes the significance of that fateful day which brought the United States into the Second World War. However December 8 also represents a terrible day for Americans and freedom. On that day the Imperial Japanese forces attacked the Territory of Guam, bombing the village of Sumay, the Piti Navy Yard, the U.S.S. *Penguin* and the U.S.S. *R.L. Barnes*, and on December 10, 1941, Guam became the only populated community of the United States to be invaded and forcefully occupied by Japanese forces.

Mr. Speaker, one unfortunate result of these terrible attacks was the suspicion and internment of some 110,000 Americans of Japanese ancestry. This measure appropriately recognizes the partiotism and loyalty of many Americans of Japanese ancestry who served during World War II in the Armed Forces of the United States.

This resolution also specifically recognizes the outstanding contributions of individuals of the 100th Infantry Battalion, the 44th Regimental Combat Team and the Military Intelligence Service, all of whom served in World War II.

Finally, Mr. Speaker, this resolution recognizes the efforts of the Navy Insular Force, and the U.S. Navy and Marine Corps for their efforts and many sacrifices on behalf of our Nation in that part of the world.

Mr. Speaker, the original cosponsor of this resolution, the gentleman from Guam [Mr. BLAZ], regretted that an overseas mission prevented him from taking part in this discussion, and he has asked that his remarks be made part of the RECORD of this debate. The gentleman from Guam, in noting "America's Forgotten Patriots," stated:

> I'd like to remind my colleagues that the word "forgotten" is used bittersweetly, for all too often the people of Guam have had to ask, "How can we be forgotten when we were not remembered in the first place?"

Mr. Speaker, I thank my colleagues for their generous support for this measure, and I again commend the people of Guam and Hawaii for their extensive sacrifices.

Mr. LAGOMARSINO. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. ROHRABACHER].

Mr. ROHRABACHER. Mr. Speaker, I would just like to add my voice of support to this piece of legislation.

As we have heard this evening, the people of Guam were attacked simultaneously with the people of Hawaii and Pearl Harbor, the American sailors there at Pearl Harbor, and, as we also have noted tonight, there was a great deal of heroism that some of our fellow Americans have not remembered, that the people of Guam, they were probably some of the most heroic citizens of the war, and yet for so often now, as we are looking at this 50th anniversary, their heroism has been totally forgotten.

Mr. Speaker, that is why this legislation is so important. These were Americans. The Japanese who invaded those islands knew they were Americans, and they treated them like they were occupying American territory.

Now I will never forget as a kid my dad was a Marine lieutenant colonel, and we know a lot about the Marines and about what was going on in World War II, but one story that I heard about was some of the Marines and some of the military people there who survived the Japanese attack and went into the countryside in Guam, for years Guamanians went and took them at great personal risk. These people, if they would have been caught giving aid to these Americans hiding out from the Japanese; as a matter of fact, some of them were executed, and I think a couple of the Americans survived. I remember reading the story about one of these men, and Harry was telling me about brave Guamanians who would come and give them food. That was the only thing that helped them survive, and then of course, after the harsh years of occupation, what happened? The Americans came to liberate the island, and of course, as is true with a great military, we obliterated everything in our path, and these heroic people who loved this country; their heart just tingles when they see the American flag, and, after going through all this suffering from World War II, and then to have their island obliterated while it was being liberated, it is just something that we Americans cannot afford to forget at this 50th anniversary.

What always brings this to mind is of course that our colleague, this gentleman, but this brave man, this courageous man who serves with us, the gentleman from Guam [Mr. BLAZ], and he of course, as we know, he himself is an American hero, not necessarily for what he did in World War II because I am not sure what it was, and he has told us he did some things then, but we know what he did in Vietnam, we know what he did as a soldier, and we know what Guamanians have been doing these last 50 years to protect this country and to promote the cause of human freedom throughout the world.

Mr. Speaker, this is something we should all be grateful for. This resolution helps us express that in just one little way, just to say we are grateful to these people. We are grateful to the people of Hawaii, but, yes, we are grateful to these Americans, these Americans in Guam who have been such wonderful Americans, and done so much for our country and shown us what kind of people Americans are all about, and they are the people of Guam.

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of House Resolution 293, legislation I introduced along with my colleagues Mr. BLAZ, Mr. SOLARZ, Mr. ABERCROMBIE, Mr. LEACH, Mr. FALEOMAVAEGA, and Mr. LAGOMARSINO commending the people of Guam and Hawaii for their sacrifices and their contributions to the Allied effort during World War II, and I want to particularly commend my good friend, the gentleman from Guam [Mr. BLAZ] for his dedication and diligent work on behalf of his constituents and the gentleman from Hawaii, Mr. Mr. ABERCOMBIE, and all veterans and I thank the gentleman from the Virgin Islands, the distinguished Committee Chairman, Mr. DELUGO, and the distinguished ranking Minority member, the gentleman from California, Mr. LAGOMARSINO.

The day of December 7, 1941, is a day that will live in infamy forever in the minds of Americans. Virtually every American recognizes the significance of that fateful day which brought the United States into the Second World War. However, December 8, 1941, also represents a terrible day for Americans and freedom. On that day the Imperial Japanese forces attacked the Territory of Guam, bombing the village of Sumay, the Piti Navy Yard, the U.S.S. *Penguin*, and the U.S.S. *R.L. Barnes*. On December 10, 1941, Guam became the only populated community of the United States to be invaded and forcibly occupied by Japanese forces.

One unfortunate result of these terrible attacks was the suspicion and internment of some 110,000 Americans of Japanese ancestry. This measure appropriately recognizes the patriotism and loyalty of many Americans of Japanese ancestry who served during World War II in the Armed Forces of the United States. The resolution specifically recognizes

the outstanding contributions of individuals of the 100th Infantry Battalion, the 44th Regimental Combat Team, and the Military Intelligence Service.

Finally, this resolution recognizes the efforts of the Navy Insular Force, and the United States Navy and Marine Corps for their efforts and sacrifices on behalf of the United States.

Mr. Speaker, the original cosponsor of this resolution, the gentleman from Guam, Mr. BLAZ, regreted that an overseas mission prevented him from taking part in this discussion and has asked that his remarks be made a part of the record of this debate. Mr. BLAZ, in noting "America's Forgotten Patriots," stated: I would like to remind my colleagues that the word forgotten is used bittersweetly, for all too often the people of Guam have to ask "How can we be forgotten when we were not remembered in the first place?"

Mr. Speaker, I thank my colleagues for their support for this measure and I again commend the people of Guam and Hawaii for their sacrifices.

Mr. BLAZ. Mr. Speaker, as we prepare to celebrate this Thanksgiving holiday, I am particularly humbled that the Congress is extending this accommodation and expression of gratitude to the people of Guam for their service to America. At this time, I would like to insert in the Record "America's Forgotten Patriots" remarks I delivered in the House on November 21, 1991. I would like to remind my colleagues, however, that the word forgotten is used bittersweetly, for all to often the people of Guam have to ask "How can we be forgotten, when we were not remembered in the first place?"

I am very grateful to the gentleman from New York, Mr. BENJAMIN GILMAN for extending this courtesy to the people of Guam. It is the most this Congress can give for them, and it is the least that they deserve.

AMERICA'S FORGOTTEN PATRIOTS

Mr. BLAZ. Mr. Speaker, as thousands gather in Hawaii on December 7 to commemorate the 50th anniversary of America's entry in World War II, hundreds of journalists and photographers will memorialize the event and broadcast it to the entire world. A million words will be spoken by the President of the United States and other dignitaries to honor the memories of the hundreds of soldiers, sailors, Marines and civilians who were killed and wounded on that infamous day 50 years ago at Pearl Harbor.

As tragic and as devastating as that assault on Pearl Harbor was 50 years ago, we have learned that little note has been made and even less has been remembered about the attack on that other harbor—Apra Harbor, on Guam. This other attack bears striking similarities to the one at Pearl Harbor: same time, same enemy, same American blood, same shattering of a peaceful island community.

Yet, for all these similarities, there is at least one major difference worth noting: Whereas Hawaii was attacked, Guam was attacked * * * and invaded * * * and captured * * * and occupied. For almost 3 years, our people quietly suffered the burden of hostile occupation by enemy forces. No other American territory has suffered the same fate.

As excruciating and as harrowing as this occupation would later prove to be, our people did not surrender without a fight and did not stop fighting after the surrender. In the face of an overwhelmingly larger enemy force, a handful of U.S. sailors and U.S. Marines stood their ground. Standing beside them, with equal valor and courage but with even greater pride and determination, were the members of the Navy Insular Force. For these men, native Chamorros all, the defense of Guam meant the defense of home, family and honor. Although they wore the same U.S. Navy uniforms, their pay was exactly 1/2 that of their stateside comrades. Although they fought under the same U.S. flag, they were considered only half-brothers in the patronizing, colonial society on Guam at that time. Yet, when it came time to shed blood against foreign invaders, the Chamorros of the Navy Insular Force demonstrated their loyalty to the U.S. in the same way they demonstrated their love for the U.S. principles of freedom and democracy: not halfheartedly, but totally and whole-heartedly.

Regrettably, this chapter of American history appears to have slowly faded into the recesses of our Nation's collective subconsciousness. While our country may not remember the lives that were lost, the families that were torn asunder and the homes that were destroyed on that tragic day 50 years ago, these sacrifices are no less real to us and will forever be burned into the psyches of our people.

As a 13-year-old boy who witnessed these events half a century ago, I am often asked by friends and acquaintances to share my memories of that momentous and pivotal period in our history. There are many horrible and appalling stories I could tell about the atrocities inflicted upon our people—about mysterious disappearances of friends, about discoveries of decapitated corpses tied to trees, about clearing jungles under the barrel of a gun and about the hunger and deprivation of concentration camps. While the sting of remembering these events is very real to those who lived through them and should never be forgotten, I have decided over the years to remember also the brighter sides of that dark period.

There were long hours sitting on a log with our parents sharing their thoughts and experiences with us much like the generations before them had done.

There were the groups of neighboring farmers who pooled their strength to push back the jungle so we could plant.

There were men echoing each other's folk song at twilight as they cut tuba.

There were devout men who emerged among our group as natural leaders to lead us in prayer during our most trying and fearful moments as we labored to finish the airfield under incredible duress.

There was the young Japanese officer who taught me Japanese in exchange for my father teaching him English and who, after getting to know us, innocently asked my father why we were at war.

There were the U.S. Marines who, after hopping island to island, eventually liberated one of their own and seemed almost as glad as we were that they came back to Guam.

Under the adverse conditions of that time, I learned things that no school could ever teach me. I learned to give freely, even when there was nothing to share. I learned to be tolerant, even when conditions were intolerable. I learned to be strong, even though my body was weak. I learned to speak volumes in the silence of eye contact. And I learned the sweetness that can be found in the saltiness of sweat.

Looking around me now, 50 years later, I wonder if those of us who lived and died through those trying times were really ever forgotten—how can we be forgotten if we were never really remembered in the first place?

And those who claim to remember us now, do not really know us: Like the U.S. Postal Commission that just issued in 1991 a set of commemorative stamps for World War II that trivializes and dishonors Guam by labeling it a mere "outpost." Like some of the leaders of our great Nation who will congregate at Pearl Harbor in memory of the brave men and women who died there, but whose continuing unawareness of the Guam chapter of this momentous period in our history prevents them from returning the salute extended by the brave men and women of Guam 50 years ago.

On this, the 50th anniversary of World War II, and for the fathers, mothers, brothers, sisters, sons and daughters of Guam who lived and died through that period, I offer these humble words in proud salute and in eternal gratitude to those patriots whom America may have forgotten but whom Guam shall always remember.

Mr. LAGOMARSINO. Mr. Speaker, I yield back the balance of my time.

Mr. DE LUGO. Mr. Speaker, I yield back the balance of my time.

☐ 2200

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentleman from the Virgin Islands [Mr. DE LUGO] that the House suspend the rules and agree to the resolution, H. Res. 293.

The question was taken; and—two-thirds having voted in favor thereof—the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DE LUGO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from the Virgin Islands?

There was no objection.

RELEASE OF FUNDS FOR PROVIDING MEDICAL AND HUMANITARIAN ASSISTANCE TO IRAQI CITIZENS

Mr. DYMALLY. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 168) expressing the sense of the Congress that a portion of Iraq's frozen assets be released to UNICEF for the sole purpose of providing medical and humanitarian assistance to Iraqi citizens, as amended.

The Clerk read as follows:

H. CON. RES. 168

Whereas the suffering of Iraqi citizens, especially children, continues as verified by studies by the International Study Team led by representatives of Harvard University, by the United Nations, and by UNICEF in conjunction with representatives of Tufts University, and by reports of relief agencies working in Iraq;

Whereas infant and child mortality rates in Iraq reportedly have doubled since Iraq's invasion of Kuwait;

Whereas acute shortages of food and essential medicine, poor sanitation, and lack of clean drinking water have placed a substantial portion of Iraq's population of 18,000,000 at risk to water-borne diseases;

Whereas the Iraqi health care system is operating at a fraction of its former capacity;

Whereas the United States Government and the United Nations Security Council have established a mechanism to provide relief to Iraq through United Nations Security Council Resolutions 706 and 712;

Whereas Saddam Hussein is responsible for the continuing suffering of Iraqi citizens because of his continued intransigence in not cooperating with United Nations Security Council resolutions, his refusal to allow equitable distribution of food and medicines, and his obstruction of the delivery of humanitarian assistance by the United Nations and private relief agencies; and

Whereas the condition of Iraqi children is an international humanitarian concern that must be addressed immediately: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) condemns Saddam Hussein for refusing to comply with United Nations Security Council resolutions 706 and 712, preventing an equitable distribution of food and medicine to the Iraqi people, and blocking the delivery of humanitarian assistance by the United Nations and private relief agencies;

(2) commends the President and the United Nations Security Council for their efforts to address humanitarian concerns in Iraq through United Nations Security Council Resolutions 706 and 712 and supports their continued effort to gain Iraqi compliance with these resolutions; and

(3) urges the President, consistent with United Nations Security Council resolutions 706 and 712, to explore alternatives under the auspices of the United Nations to utilize and mobilize resources necessary to get an adequate supply of food and medicine to the vulnerable populations of Iraq, especially children.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. DYMALLY] will be recognized for 20 minutes, and the gentleman from Michigan [Mr. BROOMFIELD] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. DYMALLY].

Mr. DYMALLY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the resolution we have before us tonight should be examined very carefully because this resolution has nothing to do with praising or giving any credit to Iraq or Saddam Hussein. It is very specific, and it directs its attention to the vulnerable people of Iraq, especially the children, and directs that we provide some benefit through UNICEF to help these children of Iraq.

Mr. Speaker, I want to commend the gentleman from Minnesota [Mr. PENNY] for his commitment and his courage, because this is not a very popular issue to champion now, because once you mention the word "Iraq," people begin to have reverse reactions to the whole country. But these are children who are victims of man's inhumanity to man, and we are very pleased that the gentleman from Minnesota brought this to the attention of the Committee on Foreign Affairs, and we have today presented it to the Members of the House.

Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. PENNY].

Mr. PENNY. Mr. Speaker, this resolution has gone through a variety of changes in the last several days and hours, and I appreciate the work of the many, many Members who have participated in assisting in the development of this legislation.

Mr. Speaker, for 6 long months we have watched as the death toll among young children in Iraq mounts. For the children of Iraq are in peril—not from bombs or bullets but from the effects of malnutrition and disease. This Thanksgiving while thousands of American children are feasting on roast turkey and all the trimmings, one thousand Iraqi children will likely die from starvation or illness.

Since May, study teams from a variety of institutions have been to Iraq and have reported on the troubling situation there. Much credit for drawing attention to the problems of Iraqi children in the aftermath of the gulf crisis should be given to the original Harvard study team whose initial findings reported that 55,000 Iraqi children had already died from starvation and disease and that thousands more would continue to die if conditions did not improve. Nearly concurrent with the Harvard study, a group of Arab-American doctors of the Arab-American Medical Association visited Iraq and publicized their findings with a report and videotape that was shared with every Member of Congress. Dr. Afran J. Al-Hani, a cardiologist from Chicago, has been tireless in his efforts to get assistance to Iraqi children, and it was my personal contact with him that gave me added incentive to move forward with my original resolution in June.

It was already clear in June that the children of Iraq needed assistance from the world community in order to guarantee their survival. Since many of their country's resources, such as the ability to provide electrical power, basic sanitation and clean water had been destroyed and Iraq's assets remained frozen, Iraq's ability to respond to its own children was terribly limited. It seemed that the best way to meet these needs was to use Iraq's own funds, in the form of assets frozen by coalition governments, to pay for humanitarian assistance delivered under United Nations' supervision. The original version of H. Con. Res. 168 proposed that a portion of Iraq's frozen assets be released to UNICEF for the sole purpose of providing medical and humanitarian assistance to Iraqi citizens. This resolution has gained the support of 91 of our House colleagues and I am grateful for their concern.

Other studies—one done on behalf of UNICEF by representations of Tufts University and one done under United Nations' auspices and led by Prince Sadruddin Aga Khan—corroborated and expanded the earlier findings. On August first, the International Task Force of the Select Committee on Hunger held a hearing on the situation in Iraq. Witnesses from Tufts University, UNICEF and Catholic Relief Services—all of which had "on the ground" experience in Iraq—testified to uniformly desperate conditions there—children wading through raw sewage on the streets, the lack of basic medicine, the ever-growing shortage of food.

The United Nations finally addressed the humanitarian crisis in Iraq in August when the Security Council passed Resolution 706 allowing Iraq to sell $1.6 billion worth of oil to pay for relief materials. Even as the resolution was passed, it was already known that the $1.6 billion would fall far short of the true amount needed to finance a minimum humanitarian aid effort in Iraq. The U.S. own estimate of the amount needed was $2.265 billion. However, in order for the flow of oil to begin, the resolution required that Iraq accept U.N. monitoring of relief efforts and oil pumping and that Iraq pay its first installment of reparations to Kuwait. Claiming that the resolution violates its sovereignty, the Iraqi government has thus far refused to comply with terms of the resolution. As a result, the country's children continue to suffer and die.

From August 23 to September 5, the international study team on the gulf crisis comprehensively surveyed the impact of the gulf crisis on the health and welfare of the Iraqi population. The team consisted of 87 researchers from a wide variety of disciplines including agriculture, electrical engineering, environmental sciences, medicine, economics, child psychology, sociology, and public health. The team visited all areas of Iraq and prepared an in-depth report on conditions there. They found: "The economic and social disruption and destruction caused by the gulf crisis has had a direct impact on the health conditions of the children of Iraq. Iraq desperately needs not only food and medicine, but also spare parts to repair basic infrastructure in electrical power generation, water purification, and sewage treatment. Unless Iraq quickly obtains food, medicine and spare parts, millions of Iraqis will continue to experience malnutrition and disease. Children by the tens of thousands will remain in jeopardy. Thousands will die."

With yet another study before us confirming what we had already known

and with Saddam Hussein's continued intransigence in refusing to accept the U.N. mechanism that would bring help and health to the Iraqi people, it left me and others concerned with this situation still asking the question: What can we do?

In an effort to answer that question, on November 13, the Select Committee on Hunger held a second hearing with witnesses from the International Study Team, Catholic Relief Services and the Department of State. In addition, Representative JIM MCDERMOTT from the Seventh District of Washington, who is also a physician, told of his experiences in Iraq during the month of August. By whatever standards used, the situation has not improved since the initial visits by monitoring teams last spring.

Although House Concurrent Resolution 168 proposed the use of assets to provide assistance, I was most willing to go along with either oil sales under the U.N. resolution or with the release of assets as the means by which humanitarian aid gets to Iraq. Since the Iraqis were not accepting the mechanism for oil sales, it seemed that release of assets might again be a reasonable approach to follow. While U.N. Resolution 706 does permit the use of frozen assets for humanitarian purposes in Iraq, the Bush Administration remains opposed to this approach and has advised other governments not to release assets.

It appears that we are at a stalemate on this issue. All the while, time is running out for the children of Iraq. Hundreds more children are dying or having their futures put at risk by lack of proper nutrition and medical care during critical developmental stages in their lives.

The time has passed when we can continue to wait for oil sales to move forward. Therefore, I believe we should press for another creative solution to this situation. One thing is certain: Saddam has put politics ahead of children's lives and futures. In order to save these children it is time for the world community to marshal an international effort equal to the cooperative effort demonstrated during the gulf crisis.

Passage of House Concurrent Resolution 168 as amended makes it clear that we want to act now. The resolution condemns Saddam for refusing to comply with the U.N. resolutions and calls upon President Bush to explore other U.N. alternatives consistent with resolutions 706 and 712 to get an adequate supply of food and medicine to the vulnerable populations of Iraq, especially Iraq's children.

I am grateful for the support and help of many individuals in bringing this resolution to the floor today. My thanks to the Foreign Affairs Committee, particularly Chairman FASCELL and ranking member Mr. BROOMFIELD; and to Chairman HAMILTON and Mr. YATRON whose subcommittees held jurisdiction over the legislation and to their ranking members Mr. GILMAN and Mr. BEREUTER. These subcommittees also graciously allowed me to sit with them on two occasions and ask questions of U.N. Ambassador Pickering on this issue.

The continued activity of the Select Committee on Hunger, under the direction of Chairman HALL and ranking member EMERSON, and, especially the strong leadership demonstrated by International Task Force Chairman DORGAN, was vital to keeping the plight of the children before the Congress and the public. The personal interest of Representative JIM MCDERMOTT in making a private trip to Iraq speaks volumes of the depth of his commitment. Additionally, I gratefully acknowledge the staffs of the Foreign Affairs and Hunger Committees for their assistance and the courtesy shown to me and my staff.

As we act on this legislation today, we say to the children of Iraq: we hear you and we will find a way to help you.

I urge adoption of this resolution.

Mr. DYMALLY. Mr. Speaker, briefly, let me express my thanks to the gentleman from Michigan [Mr. BROOMFIELD] for his cooperation in this matter, as well as to the gentleman from Indiana [Mr. HAMILTON], the gentleman from New York [Mr. GILMAN], and the gentleman from Nebraska [Mr. BEREUTER].

Mr. Speaker, I reserve the balance of my time.

Mr. BROOMFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker as a cosponsor, I strongly support House Concurrent Resolution 168 as amended, and commend Congressman Penny for his perseverance in bringing this matter before the House. I also commend the subcommittees for their work under Chairmen HAMILTON, and YATRON and Congressmen GILMAN and BEREUTER. Finally, I wish to recognize Committee Chairman Fascell for his leadership on this important issue.

This resolution, in its current form, was drafted in close consultation with the administration. The administration has no objection.

Mr. Speaker, what we are witnessing now in Iraq is but the latest chapter in a long saga of contempt for human life by Saddam Hussein. Just when it seemed that the Iraqi dictator had committed every atrocity imaginable, he has manifested a new resourcefulness for inflicting human suffering.

Reports by the United Nations and other organizations indicate that in Iraq there are acute shortages of food and medicine, that there is inadequate sanitation, and that clean drinking water is increasingly scarce. As a result, malnutrition and disease are increasing substantially, particularly among women and children.

How did this catastrophe happen? Did the United Nations target the civilian population of Iraq? Did the United States seek to punish the people of Iraq, or stand in the way of humanitarian relief to vulnerable populations in Iraq? Of course not.

Mr. Speaker, the responsibility for this disaster—like the responsibility for the war which preceded it—lies squarely with the Tyrant from Tikrit, Saddam Hussein. The fact is that food and medicine are not included in the U.N. embargo of Iraq.

Moreover, U.N. Security Council Resolutions 706 and 712—which were adopted under the leadership of the United States—established a mechanism for the Iraqi government to alleviate the suffering that is taking place. These resolutions permit Iraq to sell up to $1.6 billion worth of oil in order to pay for urgently needed food, medicine, and other humanitarian items.

What has been Saddam Hussein's response? He has refused to comply with these Resolutions. Worse, he has thwarted the distribution of food and medicine to vulnerable populations inside Iraq. Instead, he has actually directed humanitarian assistance to his supporters.

This resolution condemns these deplorable actions, and it commends President Bush and the U.N. Security Council for their efforts to alleviate the suffering of the people of Iraq. It also urges the President, in coordination with the United Nations, to explore alternative ways of delivering humanitarian aid to Iraq.

Mr. Speaker, this is an important and timely resolution, and I urge its adoption.

☐ 2210

Mr. Speaker, I reserve the balance of my time.

Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN], a member of the Committee on Foreign Affairs.

Mr. GILMAN. Mr. Speaker, I am pleased to rise to strongly endorse H. Con. Res. 168 and I commend the gentleman from Minnesota, Mr. PENNY, for introducing this resolution.

Saddam Hussein's barbarity toward the people of Kuwait is now being exceeded by the atrocities that he is inflicting on his own people. This brutal dictator is engaged in systematically depriving the Iraqi people of access to food, medicine, and other humanitarian supplies. Saddam Hussein continues to flout United Nations security council resolutions number 706 and number 712, diverting supplies to his supporters, and blocking the delivery of humanitarian relief by the United Nations and private relief organizations.

Mr. Speaker, I join in saluting President Bush and the U.N. Security Council for their diligence in establishing a special mechanism to facilitate humanitarian relief for Iraq, and in continuing to seek to obtain Iraq's compliance with security council resolutions number 706 and number 712.

I urge my colleagues to encourage the President, through the United Nations, to consider alternatives to bring timely relief to the people of Iraq as they continue to suffer under the deprivations of their despotic dictator.

Mr. BROOMFIELD. Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska [Mr. BEREUTER], a member who worked very hard on this resolution.

Mr. BEREUTER. Mr. Speaker, as ranking member of the Subcommittee on Human Rights and International Organizations, this member rises in strong support of House Concurrent Resolution 168.

Few things have been more heartbreaking, Mr. Speaker, than the suffering that the Iraqi people have experienced because of the leadership of Saddam Hussein since the end of the gulf war. Because of Saddam Hussein's continued flaunting of the cease-fire agreement and the subesequent U.N. Security Council resolutions, the country of Iraq faces a situation where hundreds of thousands of innocent civilians are at risk. And we know, Mr. Speaker, that countless thousands would have perished had not the United States and other nations come to the assistance of the Kurdish population in northern Iraq through "Operation Provide Comfort."

It is clear that Saddam Hussein is using the suffering of his people for his own perverse political gains. He refuses to use revenue to be generated by the sale of Iraqi oil under U.N. direction. Regions that did not unwaiveringly support Saddam's war effort are now paying the price. We know, for example, that Saddam has targeted specific communities where existing stocks of food and medicine have been seized. It is these communities, in turn, that Saddam Hussein has displayed to visiting media and dignitaries to reflect the suffering of his people. Such is the character of Saddam Hussein.

Moreover, Saddam Hussein has done his best to manipulate international relief efforts. He has diverted food supplied by the World Food Program [WFP], and given that food to the army and to party loyalists. His interference has been so serious that organizations such as the WFP and UNICEF refused to participate as long as Saddam Hussein continues to control the distribution of aid.

There is a U.N. mechanism to fund relief activities through the sale of Iraqi oil, but thus far Saddam Hussein is trying to wait out the international community. He is refusing to sell oil as long as the profits go to support U.N. humanitarian activities.

While we are all rightly outraged at the intolerable behavior of the Iraqi Government, we cannot ignore the starvation of the innocent civilians of that nation. The suffering and starvation are real. The disease and lack of medicine are real. House Concurrent Resolution 168 says that we do not quitely accept the barbarism of Saddam Hussein. It says that the United States should work with the U.N. to look for creative ways to assist the suffering people of Iraq.

Mr. Speaker, while House Cononcurrent Resolution 168 addresses the immediate problem of disease and malnutrition in Iraq, we should not delude ourselves. The problem will persist so long as the Iraq leadership has no regard for its own population. The Subcommittee on Human Rights and International Organizations, together with the Subcommittee on Europe and the Middle East, already have conducted a series of hearings on this very subject. This Member has no doubt that these hearings and appropriate pressure will continue as long as Saddam Hussein remains in power. Simply put, we will not let this issue fade away.

Mr. Speaker, this Member would take a moment to recognize the dedicated efforts of the author of this resolution, the distinguished gentleman from Minnesota [Mr. PENNY]. As a member of the Select Committee on Hunger, he has performed yeoman's work. He has effectively worked to make us all aware of the terrible suffering that is taking place in Iraq and to advance this resolution; this body is in his debt.

Mr. Speaker, this Member urges the adoption of House Concurrent Resolution 168.

Mr. HALL of Ohio. Mr. Speaker, I rise in support of the resolution offered by my colleague from Minnesota, TIM PENNY. I would also like to commend Mr. PENNY for all his fine work and leadership on the issue of humanitarian aid to Iraq. He has pursued this issue tirelessly and with great compassion since he first became aware of the growing humanitarian disaster in much of Iraq. I believe this resolution shows great flexibility in urging the President to assert greater leadership at the United Nations to find more resources to get food and medicine to the vulnerable populations of Iraq, especially children.

Mr. Speaker, this is a resolution that I believe deserves support from every Member of Congress. The United States has tried hard, through United Nations Security Council Resolutions 706 and 712, to get the Iraqi Government to allow more humanitarian aid in by using revenues from its oil sales. However, tragically, Iraq refuses to cooperate with even this measure to help their own people. But this does not mean we can give up trying—we cannot stand by and let the innocent women and children of Iraq continue to die. We have a moral obligation to try harder.

The International Task Force of the Select Committee on Hunger has held two hearings on the humanitarian situation in Iraq. The most recent one, on November 13, was even more depressing than the one last summer. Conditions have continued to deteriorate to the point where the infant and child mortality rates have at least doubled, if not tripled, since the gulf crisis. The International Study Team, a group of public health experts from Harvard and elsewhere, has just issued a second report on conditions in Iraq which paints a picture of a continuing downward spiral. There are widespread shortages of food, essential medicines, and safe water. A witness from the study team reported seeing raw sewage running through a hospital. Not surprising, these conditions have led to a public health disaster; water-borne diseases, such as cholera, are epidemic; and have increased by as much as one hundredfold in some areas.

Mr. Speaker, I know, from my constituents, that the American people don't want the children of Iraq to pay for Saddam Hussein's actions. I know that they strongly support providing humanitarian aid to the children and mothers of Iraq. This resolution urges the administration to do its utmost to provide that aid. I urge my colleagues to support the resolution.

Mr. McDERMOTT. Mr. Speaker, I commend my colleague, Mr. PENNY for sponsoring House Concurrent Resolution 168 and for his efforts to find a way to provide humanitarian aid to the people of Iraq. Mr PENNY has worked for months on this issue. His original proposal to use Iraqi frozen assets to pay for humanitarian aid is worthwhile and I am one of the 92 Members of the House who cosponsored this legislation. However, it is clear this idea is unacceptable to the administration and so we must urge the administration to seek other solutions.

House Concurrent Resolution 168, as it is now written, will not solve the public health crisis in Iraq, but certainly this resolution will send a message to the State Department and the United Nations that Congress is becoming increasingly concerned about the disasterous conditions in Iraq and the United States' response to this situation.

I traveled to Iraq in August with a human rights group as a physician examining the state of its public health system. I saw the devastation of Iraq's infrastructure wrought by the strategic bombing of the Allied Forces. The most essential aspects of a society's public health system—water, electricity, and sewage systems—were destroyed by our military assault, and these systems have yet to be adequately reconstructed.

The health of the Iraqi people is spiraling downward. The hospitals are filled with malnourished children suffering from cholera and typhoid because there is no clean water. Women are dying in childbirth because there is no anesthesia to perform cesearean sections. Diabetics are in comas because there is no insulin, and people are suffering strokes because there is no high blood pressure medication. The health care situation was critical when I was there in August, and surely it is worse today. The recent report released by

the Harvard School of Public Health investigative team confirms this.

A massive humanitarian aid effort is desperately needed in Iraq. This effort must be coordinated among the International Red Cross, the Red Crescent and the Iraqi distribution system. The relief organizations cannot deliver aid in a country of 18 million people without the use of its existing distribution system.

The administration apparently is hopeful that the U.N. resolution allowing Iraq to use proceeds from its oil sales to purchase food and medical supplies will alleviate the suffering of its people. However, the most recent negotiations between the U.N. and Saddam have failed. It is time to explore other options. The prospect that U.S. policy may well remain unchanged while negotiations on the oil sale option continue is distressing. For many innocent Iraqis, death will not wait.

The United States must find a way to move beyond its political agenda to help the people of Iraq. I urge our State Department to make this effort a priority. I realize that it is not our sole responsibility—Hussein must be willing to negotiate—but certainly the United States can increase its efforts to try to find some workable solution to the desperate situation in Iraq. We must do absolutely all that we can to achieve a solution to the food and medical crisis in Iraq.

I hope that House Concurrent Resolution 168 will send the much needed signal to the Bush administration that there is growing concern in the Congress for the health and welfare of the Iraqi people. It was not this country's policy to harm innocent Iraqis in the gulf war and it certainly should not be United States policy today.

I commend Mr. PENNY for his efforts and offer my full support to House Concurrent Resolution 168.

Mr. YATRON. Mr. Speaker, I rise in strong support of the resolution and commend the author, Mr. PENNY as well as Chairman FASCELL, Congressmen BROOMFIELD, HAMILTON, GILMAN, and BEREUTER for their leadership in bringing this legislation to the House floor.

Mr. Speaker, this resolution appropriately commends the President and the U.N. for seeking to address the humanitarian crisis in Iraq through the relevant Security Council resolutions.

The resolution calls for the President and the U.N. to explore alternatives, consistent with U.N. Resolutions 706 and 712, to bring much needed relief to hundreds of thousands of starving and sick people including children. But the resolution rightly places the blame for this tragedy squarely on the shoulders of Saddam Hussein.

Mr. Speaker, in the last year, the Subcommittee on Human Rights and International Orgranizations, which I chair, and the Europe and the Middle East Subcommittee, chaired by Congressman HAMILTON, conducted joint hearings on the U.N. role in the gulf.

Based on the testimony at these hearings, it is clear that Saddam is cynically manipulating the food supply to starve vulnerable populations centers while at the same time ensuring that his political cronies and military leaders are well fed. There are cases in which Saddam has either blocked or diverted U.N. food shipments destined for the suffering people of Iraq.

Saddam is starving the Iraqi people so as to generate anti-Americanism which he hopes will bolster his tenuous political position and he is starving his people to build a case for breaking the strict U.N. sanctions arrayed against his regime.

The current sanctions permit U.N.-administered humanitarian relief operations and the U.N. Security Council has adopted a resolution approving the sale of $1.6 billion of Bagdad's oil of which the bulk of the proceeds would be used for humanitarian assistance under strict U.N. supervision.

Saddam has rejected these arrangements because it prevents him from purchasing goods and technologies to rebuild his warmaking capacity.

The world community has justly maintained the sanctions against Saddam but it must be equally resolute in not allowing Saddam to starve hundreds of thousands of innocent people.

This resolution calls for a more assertive effort, under U.N. auspices, to remedy this ongoing tragedy. Our commitment to human rights and justice calls for no less and I urge the adoption of the resolution.

Mr. BROOMFIELD. Mr. Speaker, I yield back the balance of my time.

Mr. DYMALLY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentleman from California [Mr. DYMALLY] that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 168, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution, as amended, was agreed to.

The title of the concurrent resolution was amended so as to read:

"Concurrent Resolution condemning Saddam Hussein for refusing to comply with United Nations Security Council resolutions 706 and 712 and urging the President under the auspices of the United Nations to provide humanitarian assistance to the vulnerable populations of Iraq.".

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DYMALLY. Mr. Speaker, I ask unanimous consent that all Members may have five legislative days within which to revise and extend their remarks and include therein extraneous material on H. Con. Res. 168; the concurrent resolution just agreed to.

The SPEAKER, pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

1992 WHITE HOUSE COMMEMORATIVE COIN ACT

Mr. TORRES. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3337) to require the Secretary of the Treasury to mint a coin in commemoration of the 200th anniversary of the White House, as amended.

The Clerk read as follows:

H.R. 3337

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "1992 White House Commemorative Coin Act".

SEC. 2. COIN SPECIFICATIONS.

(a) ONE DOLLAR SILVER COINS.—

(1) ISSUANCE.—The Secretary shall issue not more than five hundred thousand (500,000) one dollar coins which shall weigh 26.73 grams, have a diameter of 1.500 inches, and shall contain 90 percent silver and 10 percent copper.

(2) DESIGN.—The design of such dollar coins shall be emblematic of the White House. On each such coin there shall be a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(b) LEGAL TENDER.—The coins issued under this Act shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 3. SOURCES OF BULLION.

The Secretary shall obtain silver for the coins minted under this Act from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 4. SELECTION OF DESIGN.

The design for each coin authorized by this Act shall be selected by the Secretary after consultation with the Curator of the White House, the Commission of Fine Arts, and the White House Historical Association.

SEC. 5 SALE OF COINS.

(a) SALE PRICE.—Notwithstanding any provision of law, the coins issued under this Act shall be sold by the Secretary at a price equal to the face value, plus the cost of designing and issuing such coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) BULK SALES.—The Secretary shall make bulk sales at a reasonable discount to reflect the lower costs of such sales.

(c) PREPAID ORDERS AT A DISCOUNT.—The Secretary shall accept prepaid orders for the coins prior to the issuance of such coins. Sales under this subsection shall be at a reasonable discount to reflect the benefit of prepayment.

(d) SURCHARGE REQUIRED.—All sales shall include a surcharge of $10 per coin.

SEC. 6. ISSUANCE OF THE COINS.

(a) TIME FOR ISSUANCE.—The coins authorized under this Act shall be issued beginning on May 1, 1992.

(b) Proof and Uncirculated Coins.—The coins authorized under this Act shall be issued in uncirculated and proof qualities. Not more than one facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

SEC. 7. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

No provision of law governing procurement or public contracts shall be applicable to the procurement of goods or services necessary for carrying out the provisions of this Act. Nothing in this section shall relieve any person entering into a contract under the authority of this Act from complying with any law relating to equal employment opportunity.

SEC. 8. DISTRIBUTION OF SURCHARGES.

The total surcharges received by the Secretary from the sale of the coins issued under this Act shall be promptly paid by the Secretary to The White House Endowment Fund (The Fund) to assist The Fund's efforts to raise an endowment to be a permanent source of support for the White House Collection of fine art and historic furnishings, and for the maintenance of the historic public rooms of the White House.

SEC. 9. AUDITS.

The Comptroller General shall have the right to examine such books, records, documents, and other data of The Fund as may be related to the expenditure of amount paid under section 8.

SEC. 10. COINAGE PROFIT FUND.

Notwithstanding any provision of law—

(1) all amounts received from the sale of coins issued under this Act shall be deposited in the coinage profit fund;

(2) the Secretary shall pay the amounts authorized under this Act from the coinage profit fund to The White House Endowment Fund; and

(3) the Secretary shall charge the coinage profit fund with all expenditures under this Act.

SEC. 11. FINANCIAL ASSURANCES.

(a) The Secretary shall take such actions as may be necessary to ensure that the minting and issuance of the coins referred to in section 2 shall not result in any net cost to the Federal Government.

(b) No coin shall be issued under this Act unless the Secretary has received—

(1) full payment thereof;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

TITLE I—1992 WHITE HOUSE COMMEMORATIVE COINS

SEC. 101. SHORT TITLE.

This title may be cited as the "1992 White House Commemorative Coin Act".

SEC. 102. COIN SPECIFICATIONS.

(a) One Dollar Silver Coins.—

(1) Issuance.—The Secretary shall issue not more than five hundred thousand (500,000) one dollar coins which shall weigh 26.73 grams, have a diameter of 1,500 inches, and shall contain 90 percent silver and 10 percent copper.

(2) Design.—The design of such dollar coins shall be emblematic of the White House. On each such coin there shall be a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(b) Legal Tender.—The coins issued under this title shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 103. SOURCES OF BULLION.

The Secretary shall obtain silver for the coins minted under this title from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 104. SELECTION OF DESIGN.

The design for each coin authorized by this title shall be selected by the Secretary after consultation with the Curator of the White House, the Commission of Fine Arts, and the White House Historical Association.

SEC. 105. SALE OF COINS.

(a) Sale Price.—Notwithstanding any provision of law, the coins issued under this title shall be sold by the Secretary at a price equal to the face value, plus the cost of designing and issuing such coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) Prepaid Orders at a Discount.—The Secretary shall accept prepaid orders for the coins prior to the issuance of such coins. Sales under this subsection shall be at a reasonable discount to reflect the benefit of prepayment.

(c) Surcharge Required.—All sales shall include a surcharge of $10 per coin.

SEC. 106. ISSUANCE OF THE COINS.

(a) Period for Issuance.—The coins authorized under this title shall be available for issue not later than May 1, 1992, but shall be issued only during the 1-year period beginning on such date.

(b) Proof and Uncirculated Coins.—The coins authorized under this title shall be issued in uncirculated and proof qualities. Not more than one facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

SEC. 107. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

No provision of law governing procurement or public contracts shall be applicable to the procurement of goods or services necessary for carrying out the provisions of this title. Nothing in this section shall relieve any person entering into a contract under the authority of this title from complying with any law relating to equal employment opportunity.

SEC. 108. DISTRIBUTION OF SURCHARGES.

The total surcharges received by the Secretary from the sale of the coins issued under this title shall be promptly paid by the Secretary to The White House Endowment Fund (The Fund) to assist The Fund's efforts to raise an endowment to be a permanent source of support for the White House Collection of fine art and historic furnishings, and for the maintenance of the historic public rooms of the White House.

SEC. 109. AUDITS.

The Comptroller General shall have the right to examine such books, records, documents, and other data of The Fund as may be related to the expenditure of amount paid under section 108.

SEC. 110. COINAGE PROFIT FUND.

Notwithstanding any provision of law—

(1) all amounts received from the sale of coins issued under this title shall be deposited in the coinage profit fund;

(2) the Secretary shall pay the amounts authorized under this title from the coinage profit fund to The White House Endowment Fund; and

(3) the Secretary shall charge the coinage profit fund with all expenditures under this title.

SEC. 111. FINANCIAL ASSURANCES.

(a) The Secretary shall take such actions as may be necessary to ensure that the minting and issuance of the coins referred to in section 102 shall not result in any net cost to the Federal Government.

(b) No coin shall be issued under this title unless the Secretary has received—

(1) full payment for such coin;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

TITLE II—WORLD CUP USA 1994 COMMEMORATIVE COINS

SEC. 201. SHORT TITLE.

This title may be cited as the "World Cup USA 1994 Commemorative Coin Act".

SEC. 202. COIN SPECIFICATIONS.

(a) Five Dollar Gold Coins.—The Secretary of the Treasury (hereafter in this title referred to as the "Secretary") shall issue not more than 750,000 five dollar coins which shall weigh 8.359 grams, have a diameter of 0.850 inches, and shall contain 90 percent gold and 10 percent alloy.

(b) One Dollar Silver Coins.—The Secretary shall issue not more than 5,000,000 one dollar coins which shall weigh 26.73 grams, have a diameter of 1.500 inches, and shall contain 90 percent silver and 10 percent copper.

(c) Half Dollar Clad Coins.—The Secretary shall issue not more than 5,000,000 half dollar coins which shall be minted to the specifications for half dollar coins contained in section 5112(b) of title 31, United States Code.

(d) Legal Tender.—The coins issued under this title shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 203. SOURCES OF BULLION.

(a) Gold.—The Secretary shall obtain gold for the coins minted under this title pursuant to the authority of the Secretary under existing law.

(b) Silver.—The Secretary shall obtain silver for the coins minted under this title from stockpiles established under the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 204. DESIGN.

(a) Design Requirements.—The design of each coin authorized hereunder shall include the official 1994 World Cup logo adopted by World Cup USA 1994, Inc., the organizing committee for the event (hereafter referred to as the "Organizing Committee") and shall reflect the unique appeal of soccer. On each coin authorized hereunder there shall be a designation of the value of the coin, and inscriptions of the words "United States of America", "E Pluribus Unum", "In God We Trust", "Liberty" and "World Cup USA 1994".

(b) Design Competition.—The Director of the United States Mint shall sponsor a nationwide open competition for the design of each coin authorized hereunder beginning not later than 3 months and concluding not later than 9 months after the date of the entitlement of this title. The Director of the United States Mint shall select 10 designs for each coin to be submitted to the Secretary, who shall select the final design for each such coin in consultation with the Organizing Committee.

SEC. 205. SALE OF COINS.

(a) Sale Price.—Notwithstanding any other provision of law, the coins issued under this title shall be sold by the Secretary at a price equal to the face value, plus the cost of designing and issuing such coins (including labor, materials, dies, use of machinery, overhead expenses, marketing and shipping).

(b) Bulk Sales.—The Secretary shall make bulk sales at a reasonable discount.

(c) Prepaid Orders at a Discount.—The Secretary shall accept prepaid orders for the coins prior to the issuance of such coins. Sales under this subsection shall be at a reasonable discount.

(d) Surcharge Required.—All sales shall include a surcharge of $35 per coin for the five dollar coins, $7 per coin for the one dollar coins, and $1 for the half dollar coins.

(e) World Cup Communities.—The Secretary shall use best efforts to market World Cup coins in the United States with particular focus on communities in which World Cup games are held.

(f) International Sales.—The Secretary, in cooperation with the Organizing Committee, shall develop an International Marketing Program to promote and sell coins outside the United States.

(g) Reports to Congress.—

(1) Required.—Not later than 15 days after the last day of each month which begins before January 1, 1996, the Secretary shall submit a report describing in detail the activities carried out under this title to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(2) Contents of Report.—Each report submitted pursuant to paragraph (1) shall include a review of all marketing activities under this section and a financial statement which details sources of funds, surcharges generated, and expenses incurred for manufacturing, materials, overhead, packaging, marketing, and shipping.

SEC. 206. ISSUANCE OF THE COINS.

(a) Period for Issuance.—The coins authorized under this title shall be minted and available for issue no later than January 3, 1994, but shall be issued only during 1994.

(b) Proof and Uncirculated Coins.—The coins authorized under this title shall be issued in uncirculated and proof qualities.

(c) Bureau of the Mint.—Not more than 1 facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

SEC. 207. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

(a) In General.—Except as provided in subsection (b), no provision of law governing procurement or public contracts shall be applicable to the procurement of goods or services necessary for carrying out the provisions of this title.

(b) Equal Employment Opportunity.—Subsection (a) shall not relieve any person entering into a contract under the authority of this title from complying with any law relating to equal employment opportunity.

SEC. 208. DISTRIBUTION OF SURCHARGES.

(a) In General.—All surcharges which are received by the Secretary from the sale of coins issued under this title shall be promptly paid by the Secretary to the Organizing Committee.

(b) Use of Proceeds.—Amounts received under subsection (a) shall be used by the Organizing Committee for purposes of organizing and staging the 1994 World Cup, with 10 percent of such funds to be made available through the United States Soccer Federal Foundation, Inc., for distribution to institutions for scholastic scholarships to qualified students.

SEC. 209. AUDITS.

The Comptroller General shall have the right to examine such books, records, documents and other data of the Organizing Committee as may be related to the expenditure of amounts paid under section 208.

SEC. 210. COINAGE PROFIT FUND.

Notwithstanding any other provision of law—

(1) all amounts received from the sale of coins issued under this title shall be deposited in the coinage profit fund;

(2) the Secretary shall pay the amounts authorized under this title from the coinage profit fund to the Organizing Committee; and

(3) the Secretary shall charge the coinage profit fund with all expenditures under this title.

SEC. 211. FINANCIAL ASSURANCES.

(a) No Net Cost.—The Secretary shall take such actions as may be necessary to ensure that the minting and issuance of the coins referred to in section 202 shall not result in any net cost to the Federal Government.

(b) Payment Assurances.—No coin shall be issued under this title unless the Secretary has received—

(1) full payment for such coin;

(2) security satisfactory to the Secretary to indemnify the United States for full payment;

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

TITLE III—SILVER MEDALS FOR VETERANS OF THE PERSIAN GULF CONFLICT

SEC. 301. PURPOSE.

It is the purpose of this title to commemorate the sacrifices made and service rendered to the United States by members of the United States Armed Forces who serve in a combat zone in connection with the Persian Gulf conflict.

SEC. 302. SILVER CONGRESSIONAL COMMEMORATIVE MEDAL.

(a) In General.—The Secretary of the Treasury shall design and strike a silver medal with suitable emblems, devices, and inscriptions to be determined by the Secretary in commemoration of the sacrifices made and service rendered to the United States by members of the United States Armed Forces referred to in section 303(a).

(b) Source of bullion.—The Secretary of the Treasury shall obtain silver for minting coins under this title only from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.) and such silver shall be furnished to the Secretary at no cost by the custodian of the stockpile.

SEC. 303. ELIGIBILITY TO RECEIVE MEDAL.

(a) In General.—Any member of the United States Armed Forces who serves in a combat zone in connection with the Persian Gulf conflict shall be eligible for a silver medal referred to in section 302.

(b) Determination.—Eligibility under subsection (a) shall be determined by the Secretary of Defense and such Secretary shall establish a list of the names of such eligible individuals before the end of the 120-day period beginning on the date of the entitlement of this title.

(c) Next of Kin.—If any member referred to in subsection (a) is deceased, the next of kin of such member may receive the medal referred to in section 302.

(d) Delivery.—The medals struck pursuant to section 302(a) shall be delivered by the Secretary of the Treasury to the Secretary of Defense and the Secretary of Defense shall arrange for the distribution of the medals to the eligible individuals.

SEC. 304. NATIONAL MEDALS.

The medals struck pursuant to this title are national medals for purposes of chapter 51 of title 31, United States Code.

SEC. 305. DUPLICATE MEDALS.

(a) Striking and Sale.—The Secretary of the Treasury may strike and sell duplicates in bronze of the silver medal described in section 302 under such regulations as the Secretary may prescribe, at a price sufficient to cover the cost of duplicates and the cost of designing and striking the medals under section 302, including labor, materials, dies, use of machinery, and overhead expenses.

(b) Proceeds in Excess of Cost to be Used to Reduce the National Debt.—Any amount received by the Secretary of the Treasury from the sale of duplicate medals under subsection (a) in excess of the costs described in such subsection shall be deposited in the general fund of the Treasury and shall be used for the sole purpose of reducing the national debt.

SEC. 306. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

(a) In General.—Except as provided in subsection (b), no provision of law governing procurement or public contracts shall be applicable to the procurement of goods and services necessary for carrying out the provisions of this title.

(b) Equal Employment Opportunity.—Subsection (a) shall not relieve any person entering into a contract under the authority of this title from complying with any law relating to equal employment opportunity.

SEC. 307. FINANCIAL ASSURANCES.

(a) No Net Cost to the Government.—The Secretary shall take such actions as may be necessary to ensure that minting and issuing medals under this title will not result in any net cost to the United States Government.

(b) No Expenditures in Advance of Receipt of Funds.—The Secretary of the Treasury shall not strike, mint, or distribute the medals described in section 302 until such time as the Secretary certifies that sufficient funds have been received by the Secretary under section 305 or from donations from private persons to ensure that striking, minting, and issuing medals described in section 302 will not result in any net cost to the United States Government.

TITLE IV—CHRISTOPHER COLUMBUS QUINCENTENARY COINS AND FELLOWSHIP FOUNDATION

SUBTITLE A—CHRISTOPHER COLUMBUS QUINCENTENARY COINS

SEC. 401. SHORT TITLE.

This subtitle may be cited as the "Christopher Columbus Quincentenary Coin Act".

SEC. 402. SPECIFICATIONS OF COINS.

(a) Five Dollar Gold Coins.—

(1) Issuance.—The Secretary of the Treasury (hereinafter in this subtitle referred to as the "Secretary") shall mint and issue not more than 500,000 five dollar coins each of which shall—

(A) weigh 8.359 grams;

(B) have a diameter of .850 inches; and

(C) be composed of 90 percent gold and 10 percent alloy.

(2) Design.—The design of the five dollar coins shall, in accordance with section 404, bear a likeness of Christopher Columbus. Each five dollar coin shall bear a designation of the value of the coin, an inscription of the

year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(b) ONE DOLLAR SILVER COINS.—

(1) ISSUANCE.—The Secretary shall mint and issue not more than 4,000,000 one dollar coins each of which shall—

(A) weigh 26.73 grams;

(B) have a diameter of 1.500 inches; and

(C) be composed of 90 percent silver and 10 percent copper.

(2) DESIGN.—The design of the one dollar coins shall, in accordance with section 404, be emblematic of the quincentenary of the discovery of America. Each one dollar coin shall bear a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(c) HALF DOLLAR CLAD COINS.—

(1) ISSUANCE.—The Secretary shall issue not more than 6,000,000 half dollar coins each of which shall—

(A) weigh 11.34 grams;

(B) have a diameter of 1.205 inches; and

(C) be minted to the specifications for half dollar coins contained in section 5112(b) of title 31, United States Code.

(2) DESIGN.—The design of the half dollar coins shall, in accordance with section 404, be emblematic of the quincentenary of the discovery of America. Each half dollar coin shall bear a designation of the value of the coin, an inscription of the year "1992", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(d) LEGAL TENDER.—The coins minted under this subtitle shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 403. SOURCES OF BULLION.

(a) GOLD.—The Secretary shall obtain gold for minting coins under this subtitle pursuant to the authority of the Secretary under existing law.

(b) SILVER.—The Secretary shall obtain silver for minting coins under this subtitle only from stockpiles established under the Strategic and Critical Minerals Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. 404. DESIGN OF COINS.

The design for each coin authorized by this subtitle shall be selected by the Secretary after consultation with the Christopher Columbus Fellowship Foundation and the Commission of Fine Arts.

SEC. 405. ISSUANCE OF COINS.

(a) FIVE DOLLAR COINS.—The five dollar coins minted under this subtitle may be issued in uncirculated and proof qualities and shall be struck at the Untied State Mint at West Point, New York.

(b) ONE DOLLAR AND HALF DOLLAR COINS.—The one dollar and half dollar coins minted under this subtitle may be issued in uncirculated and proof qualities, except that not more than one facility of the Bureau of the Mint may be used to strike any particular combination of denomination and quality.

(c) PERIOD OF ISSUANCE.—The Secretary may issue the coins minted under this subtitle during the period beginning on January 1, 1992, and ending on June 30, 1993.

SEC. 406. SALE OF COINS.

(a) IN GENERAL.—Notwithstanding any other provision of law, the Secretary shall sell the coins minted under this subtitle at a price equal to the face value, plus the cost of designing and issuing the coins (including labor, materials, dies, use of machinery, and overhead expenses).

(b) BULK SALES.—The Secretary shall make any bulk sales of the coins minted under this subtitle at a reasonable discount.

(c) PREPARED ORDERS.—The Secretary shall accept prepaid orders for the coins minted under this subtitle prior to the issuance of each coins. Sale prices with respect to such prepaid orders shall be at a reasonable discount.

(d) SURCHARGES.—All sales of coins minted under this subtitle shall include a surcharge of $35 per coin for the five dollar coins, $7 per coin for the one dollar coins, and $1 per coin for the half dollar coins.

SEC. 407. FINANCIAL ASSURANCES.

(a) No Net Cost to the Government.—The Secretary shall take such actions as may be necessary to ensure that minting and issuing coins under this subtitle will not result in any net cost to the United States Government.

(b) PAYMENT FOR COINS.—A coin shall not be issued under this subtitle unless the Secretary has received—

(1) full payment for the coin;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration Board.

SEC. 408. USE OF SURCHARGES.

(a) IN GENERAL.—The surcharges that are received by the Secretary from the sale of coins minted under this subtitle shall be deposited in the Christopher Columbus Fellowship Fund and be available to the Christopher Columbus Fellowship Foundation.

(b) AUDITS.—The Comptroller General shall have the right to examine such books, records, documents, and other data of the Christopher Columbus Fellowship Foundation as may be related to the expenditure of amounts paid under subsection (a).

SEC. 409. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

(a) IN GENERAL.—Except as provided in subsection (b), no provision of law governing procurement or public contracts shall be applicable to the procurement of goods and services necessary for carrying out the provisions of this subtitle.

(b) EQUAL EMPLOYMENT OPPORTUNITY.—Subsection (a) shall not relieve any person entering into a contract under the authority of this subtitle from complying with any law relating to equal employment opportunity.

SEC. 410. COINAGE PROFIT FUND.

(a) DEPOSITS.—All amounts received from the sale of coins issued under this subtitle shall be deposited in the coinage profit fund.

(b) PAYMENTS.—The Secretary shall make the deposits of the amounts required under section 408(a) from the coinage profit fund.

(c) EXPENDITURES.—The Secretary shall charge the coinage profit fund with all expenditures under this subtitle.

SEC. 411. REPORTS TO CONGRESS

(A) REQUIRED.—Not later than 15 days after the last day of each month which begins before July 1, 1993, the Secretary shall submit a report describing in detail the activities carried out under this subtitle to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(b) CONTENTS OF REPORT.—Each report submitted pursuant to subsection (a) shall include a review of all marketing activities under section 406 and a financial statement which details sources of funds, surcharges generated, and expenses incurred for manufacturing, materials, overhead, packaging, marketing, and shipping.

SUBTITLE B—CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION

SEC. 421. SHORT TITLE.

This subtitle may be cited as the "Christopher Columbus Fellowship Act".

SEC. 422. PURPOSE.

The purpose of this subtitle is to establish the Christopher Columbus Fellowship Program to encourage and support research, study, and labor designed to produce new discoveries in all fields of endeavor for the benefit of mankind.

SEC. 423. CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION.

(a) ESTABLISHMENT AND PURPOSES.—There is established, as an independent establishment of the executive branch, the Christopher Columbus Fellowship Foundation (hereinafter in this subtitle referred to as the "Foundation").

(b) MEMBERSHIP.—The Foundation shall be subject to the supervision and direction of the Board of Trustees. The Board shall be composed of 13 members as follows:

(1) 2 members appointed by the President in consultation with the President pro tempore of the Senate.

(2) 2 members appointed by the President in consultation with the Minority Leader of the Senate.

(3) 2 members appointed by the President in consultation with the Speaker of the House of Representatives.

(4) 2 members appointed by the President in consultation with the Minority Leader of the House of Representatives.

(5) 5 members appointed by the President.

(c) CHAIRMAN AND VICE CHAIRMAN OF THE FOUNDATION.—The President shall designate a chairman and a Vice Chairman from among the members appointed by the President.

(d) TERMS OF OFFICE; VACANCIES.—Each member of the Board of Trustees appointed under subsection (b) shall serve for a term of 6 years from the expiration of the term of such member's predecessor, except that—

(1) any member appointed to fill a vacancy occurring prior to the expiration of the term for which such member's predecessor was appointed shall be appointed for the remainder of such term; and

(2) of the members first appointed—

(A) 4 shall be appointed for a term of 2 years;

(B) 5 shall be appointed for a term of 4 years; and

(C) 4 shall be appointed for a term of 6 years,

as designated by the President.

(e) EXPENSES; NO ADDITIONAL COMPENSATION.—Members of the Board shall serve without pay, but shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of their duties as members of the Board.

SEC. 424. FELLOWSHIP RECIPIENTS.

(a) AWARD.—The Foundation is authorized to award fellowships to outstanding individuals to encourage new discoveries in all fields of endeavor for the benefit of mankind. Recipients shall be known as "Columbus Scholars".

(b) TERM.—Fellowships shall be granted for such periods as the Foundation may prescribe but not to exceed 2 years.

(c) SELECTION.—The Foundation may provide, directly or by contract, for the conduct

of a nationwide competition for the selection of fellowship recipients.

SEC. 425. STIPENDS.

Each person awarded a fellowship under this subtitle shall receive a stipend as determined by the Foundation.

SEC. 426. CHRISTOPHER COLUMBUS FELLOWSHIP FUND.

(a) IN GENERAL.—There is established in the Treasury a fund to be known as the Christopher Columbus Scholarship Fund (hereafter in this subtitle referred to as the "fund"), which shall consist of—

(1) amounts deposited under subsection (d);

(2) obligations obtained under subsection (c);

(3) amounts contributed to the Foundation; and

(4) all surcharges received by the Secretary of the Treasury from the sale of coins minted under the Christopher Columbus Quincentenary Coin Act.

(b) INVESTMENTS.—

(1) DUTY OF SECRETARY TO INVEST.—The Secretary of the Treasury shall invest in full any amount appropriated or contributed to the fund.

(2) AUTHORIZED INVESTMENTS.—Investments pursuant to paragraph (1) may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired—

(A) on original issue at the issue price; or

(B) by purchase of outstanding obligations at the market price.

(3) SPECIAL OBLIGATIONS.—The purposes for which obligations of the United States may be issued under chapter 31 of title 31, United States Code, are hereby extended to authorize the issuance at par of special obligations exclusively to the fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the public debt; except that, if such average rate is not a multiple of ⅛ of 1 percent, the rate of interest of such special obligations shall be the multiple of ⅛ of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary determines that the purchase of other obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States or original issue at the market price, is not in the public interest.

(c) SALE OF OBLIGATIONS.—Any obligations acquired by the fund (except special obligations issued exclusively to the fund in accordance with subsection (b)(3)) may be sold by the Secretary at the market price, and such special obligations may be redeemed at par plus accrued interest.

(d) INTEREST.—The interest on, and the proceeds from, the sale or redemption of any obligations held in the fund shall be credited to and form a part of the fund.

(e) AVAILABILITY OF FUND.—

(1) STIPENDS.—The fund shall be available to the Foundation for payment of stipends awarded under section 425.

(2) EXPENSES.—The Secretary of the Treasury is authorized to pay to the Foundation from the interest and earnings of the funds such sums as the Board determines are necessary and appropriate to enable the Foundation to carry out the provision of this subtitle.

(f) DISBURSEMENTS.—Disbursements from the fund shall be made on vouchers approved by the Foundation and signed by the Chairman.

SEC. 427. AUDITS.

The activities of the Foundation under this subtitle may be audited by the Comptroller General of the United States. The Comptroller General shall have access to all books, accounts, records, reports, and files and all other papers, things, or property belonging to or in use by the Foundation, pertaining to such activities and necessary to facilitate the audit.

SEC. 428. EXECUTIVE SECRETARY OF FOUNDATION.

(a) DUTIES.—There shall be an Executive Secretary of the Foundation who shall be appointed by the Board. The Executive Secretary shall be the chief executive officer of the Foundation and shall carry out the functions of the Foundation subject to the supervision and direction of the Board.

(b) COMPENSATION.—The Executive Secretary of the Foundation shall be compensated at an annual rate of basic pay not in excess of the amount payable for Executive Level V.

SEC. 429. ADMINISTRATIVE PROVISIONS.

(a) The Foundation may—

(1) appoint and fix the compensation of such personnel as may be necessary to carry out the provisions of this subtitle, except that in no case shall employees (other than the Executive Secretary) be compensated at a rate in excess of the rate of basic pay payable for GS–15 of the General Schedule;

(2) procure temporary and intermittent services of such experts and consultants as are necessary to the extend authorized by section 3109 of title 5, but at rates not in excess of the rate of basic pay payable for Executive Level V;

(3) prescribe such regulations as the Foundation may determine to be necessary governing the manner in which its functions shall be carried out;

(4) receive money and other property or restriction other than it be used for the purposes of the Foundation; and to use, sell, or otherwise dispose of such property for the purpose of carrying out its functions;

(5) accept and utilize the services of voluntary and uncompensated personnel and reimburse them for travel expenses, including per diem, as authorized by section 5703 of title 5, United States Code;

(6) enter into contracts, grants, or other arrangements, or modifications thereof, to carry out the provisions of this chapter, and such contracts or modifications thereof may, with the concurrence of two-thirds of the members of the Board, be entered into without performance or other bonds, and without regard to section 3709 of the Revised Statutes;

(7) make advances, progress, and other payments which the Board deems necessary under this chapter without regard to the provisions of section 529 of title 31, United States Code;

(8) rent office space;

(9) conduct programs in addition to or in conjunction with the Fellowship program which shall further the Foundation's purpose of encouraging new discoveries in all fields of endeavor for the benefit of making; and

(10) to make other necessary expenditures.

(b) ANNUAL REPORT.—The Foundation shall submit to the President and to the Congress an annual report of its operations under this subtitle.

Amend the title so as to read: "A Bill to require the Secretary of the Treasury to mint coins in commemoration of the 200th anniversary of the White House, and for other purposes.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. TORRES] will be recognized for 20 minutes, and the gentleman from California [Mr. MCCANDLESS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. TORRES].

Mr. TORRES. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as chairman of the Subcommittee on Consumer Affairs and Coinage of the Committee on Banking, Finance and Urban Affairs, I am calling for consideration of the White House Commemorative Coinage Act.

Mr. Speaker, I might also point out that this particular bill as amended would also involve the World Cup USA, which has passed both the House and the Senate, the Christopher Columbus coin, which has passed the House on three previous occasions, and, moreover, silver medals for veterans of Desert Storm, which has passed this House. It should be noted that the White House commemorative coin has passed the Senate.

Mr. Speaker, the three coins have all had public hearings and have been marked up by the Subcommittee on Consumer Affairs and Coinage. In this instance, the White House commemorative coin has the 40 cosponsors required in the U.S. Senate, and has the strong support of this House, including the sponsorship of the chairman and ranking minority members of the House Committee on Banking, Finance and Urban Affairs.

WORLD CUP USA 1994 COMMEMORATIVE COIN BILL DESCRIPTION OF PROVISIONS

SECTION 2

This section sets forth the specifications of the gold, silver and clad coins. The specifications are identical to previous programs which will allow the Mint a smooth transition into this program.

The mintage levels established in the bill have been questioned by some claiming the level is too low while others argue it is too high. It is impossible to predict with perfect accuracy exactly what the level of sales may be. The mintage level set in the bill is designed to strike a balance.

Since the World Cup is the largest single-sport spectacle in the world, the Committee believes the potential markets are much larger which will present the Mint with a unique opportunity for international sales. The Committee expects the Mint to work closely with the World Cup Organizing Committee in marketing the coins. The Mint's experience combined with the World Cup's international sports and marketing skills will provide an opportunity to reach the sales levels specified.

SECTION 4

This section requires the Mint to sponsor a nationwide open competition for the design of each coin. This section was added to comply with the Mint's view that the American public should be allowed to participate in the design of these coins.

SECTION 5

Subsection (b): The Mint has been criticized for not issuing bulk sale information to dealers until after the programs have begun.

In the case of the Korean Coin Program, the bulk purchase conditions were not released until the final quarter of the program. This does not provide adequate time for bulk dealers to plan marketing programs.

The Committee expects the Mint to consult with leading coin dealers and the respective trade associations in 1993 and to prepare suitable bulk sales terms and conditions. These terms and conditions should be released as soon as possible in 1993.

Subsection (c): The Committee expects the Mint to be very aggressive in marketing the coins. Since the World Cup tournament will not be held until 1994, it is very important that the Mint work closely with the World Cup to secure a substantial number of prepaid orders. The Committee directs the Mint to work closely with the World Cup Organizing Committee to take advantage of every opportunity for early sales.

The Committee expects the Mint to pay the surcharges from prepaid orders to the World Cup Organizing Committee within a reasonable time after they are received.

Subsection (e): The World Cup will be held in several cities across the nation. This affords excellent marketing opportunities for the Mint. The Committee expects the Mint to work with banks and retailers in those venue cities to establish distribution outlets. The Mint may designate these distributors as "Official U.S. Mint World Cup Coin Distributors." The Mint should include in their reports to Congress a report detailing their efforts to develop this distribution system.

Subsection (f): The World Cup is an international sporting event. The Committee believes there is an excellent opportunity for international marketing. The Committee expects the Mint to work with the World Cup Organizing Committee to establish international marketing and distribution systems. The Mint may designate international distributors as "Official U.S. Mint World Cup Coin Distributors" with concurrence of World Cup 1994.

Subsection (g): The Committee intends for the Mint to work in a cooperative fashion with the Congress and World Cup to provide timely information on the performance of the coin program.

The Committee would like to see a very successful program and believes that cooperative reporting will provide the information necessary to help the Mint and World Cup maximize the potential of this program.

Since coin programs are short-term (i.e. one year in duration), it is difficult to react quickly to any potential marketing opportunities unless there is an ongoing update of what is actually occurring with the program.

The Committee anticipates the format of the reports will follow the example provided by the Mint in the Mint Budget Authorization Report—H.R. 2631; July 15, 1987; Page 77. Furthermore, we acknowledge that the Mint was required to provide similar reports by the 1984 Olympic Coin Program (P.L. 97-220). This reporting amendment attempts to follow the earlier reporting requirements so as not to be unnecessarily disruptive to the Mint operations.

The Committee understands that it will be difficult for the Mint to provide actual numbers in the early days of the program. Therefore, we recognize that the Mint will have to estimate many of the early costs. However, the Committee expects the Mint to update their estimates with the actual costs when they become available. Even the estimates will be helpful to show early trends in the programs performance.

SECTION 6

The Committee's intent is to have coins available for sale January 3, 1994. The terms "issued" and "issuance" are to be interpreted broadly, not restrictively. The Committee understands that coins sold on December 31, 1994 cannot practically be delivered to customers until 1995. The Committee expects the Mint to push coin sales through the end of the calendar year even if some deliveries have to be made in 1995.

SECTION 8

Subsection (a): The Committee intends that the purpose of the World Cup 1994 Commemorative Coin Program is to raise surcharges for the World Cup USA 1994 Organizing Committee. However, it is also our intent that the program shall not result in any net cost to the Federal Government.

In prior coin programs, there has often been a residual operating profit at the conclusion of a program. This residual operating profit is the balance remaining from a specific program after the Federal Government has recovered all its costs to operate a program. The profit accrues because in order to comply with Section 11(a), the Mint must make sure it has raised sufficient funds from the sale of each coin to cover the costs associated with producing and marketing the coin. Since it is extremely difficult to predict exactly what those costs may be, the Mint must make sure their estimates are conservative so there is not a shortfall. In other words, this residual operating profit is the difference between the Mint's estimated costs and their actual costs.

While the Committee accepts this practice as a means to insure that a coin program results in no net cost to the Federal Government, the Committee feels strongly that the Mint should not use this practice to generate profits for the Mint. As stated earlier, the intent of the legislation is to generate surcharges for World Cup while incurring no net cost to the Federal Government. If the Committee finds that the Mint has used this practice to generate excessive profits for the Mint, the Committee will revisit this issue.

Subsection (b): Ten percent of the funds made available by subsection 8(a) will be available to the United States Soccer Federation Foundation, Inc. for distribution to institutions for scholastic scholarships to qualified students. The scholastic scholarships shall go to any groups for distribution to qualified students that meet the following criteria:

Definition of "Institutions"—In selecting institutions to provide scholastic scholarships to qualified students, the Committee expects that the United States Soccer Federation Foundation shall select no more than five recipients, provided that the institution:

Is a 501(c)(3) non-profit which includes as its mission increasing the representation of qualified students, as defined in the following section, in higher education by providing scholarship assistance to students pursuing college degrees;

Serves all of the geographic and ethnic subgroups of a target population consisting principally of qualified students; and

Provides educational services, scholastic scholarships and related services to qualified students.

The Committee does not intend that institutions of higher learning, trade associations, for-profit institutions, units of state or local government, or other organizations or entities providing scholastic scholarships that are generally available to persons other than qualified students be considered by the United States Soccer Federation Foundation for participation in the programs authorized by this section.

Definition of "qualified student"—The Committee intends that the term "qualified students" be interpreted narrowly by institutions providing scholastic scholarships. The Committee intends to limit scholarships under this section to the most undereducated persons and groups in American society. The Committee expects that "qualified students" shall be identified based on the following criteria:

Individuals who are "first-generation" college students, i.e., whose parents did not complete a course of study at an accredited institution of higher learning; and

Individuals who are "economically disadvantaged", i.e., who come from families with incomes at or below the median family income of the U.S. population, or who are members of communities with median incomes at or below 70% of the median family income of the U.S. population; and

Individuals who are "educationally disadvantaged," because of developmental disability, national origin, nativity or limited-English proficiency, or attended school districts with dropout rates at least twice as high as the national average; and

The scholastic scholarship fund will be targeted to minority student groups that have a high school completion rate of less than 60 percent.

Provided further,

That at least one such institution serves as an umbrella organization for at least 125 affiliated local community-based organizations. Such institution provides capacity-building assistance, public policy analysis and advocacy, public information efforts, and special catalytic efforts on behalf of economically and educationally disadvantaged persons. Such institution is governed by organizational by-laws that require a Board of Directors reflective of the geographic, gender and ethnic composition of a target population consisting principally of qualified students and their families, as defined in this section. Such institution includes a corporate board of advisors composed of at least twenty senior executives of major corporations.

That at least one such institution is a 501(c)(3) nonprofit organization whose sole mission is to provide scholarship assistance to qualified students in all fifty states and Puerto Rico. Scholarship recipients are selected on the basis of academic achievement and personal strengths, and represent hundreds of both public and private colleges and universities across the nation. Recipients are also reflective of the composition of five national regions. Such institution annually selects scholarship recipients using a process of regional review committees. In addition, such institution is governed by organizational bylaws which require a board of directors comprised of corporate and educational leaders.

That at least one such institution is a 501(c)(3) nonprofit organization with a national scope and a primary goal to provide post high school scholarship assistance to qualified students in all fifty states and the territories of the United States of America. Scholarship recipients are selected on the basis of academic achievement, community leadership and financial need. Such institution is governed by organizational by-laws that require officers, board of directors, and trustees who are business and community leaders throughout the nation and are dedicated to the educational advancement of a target population of qualified students as defined in this section.

Student eligibility: A qualified student who is in attendance or who has been accepted for admission, as a full-time undergraduate or graduate student at an accredited institution of higher education may apply.

The Committee recognizes that institutions must have some flexibility in the selection of scholarship recipients; however, we expect that, except in unusual or exceptional circumstances, each scholarship recipient shall meet three of the four broad criteria in addition to other criteria set forth by the institution.

SECTION 11

As mentioned earlier, the Committee expects the Mint to use best efforts to insure this program results in no net cost to the Federal Government.

Mr. TORRES. Mr. Speaker, I reserve the balance of my time.

□ 2220

Mr. McCANDLESS. Mr. Speaker, I yield myself such time as I may consume.

First, I would like to compliment the subcommittee chairman and his staff for working with us on some areas in which we had some small disagreements and the consensus is a result of a bill that we are able to support entirely. I wanted to express my appreciation here in the House for the cooperation of the gentleman from California [Mr. TORRES] and his staff.

We have before us H.R. 3337, sponsored by the gentleman from Louisiana [Mr. BAKER], and we have essentially four titles to this. The first title is the White House Commemorative Coin, which is to be minted in 1992, given the successful conclusion of this bill. The beneficiary of this coin is the White House Endowment Fund, which has the responsibility of furnishing and preserving the public rooms of the White House.

I might add that no taxpayers' money is used for the preservation and refurbishing of public rooms at the White House. So this indeed is a necessary revenue to continue to perform that function.

Title II deals with the World Cup Commemorative Coin to be minted in 1994, and it is the basis for supporting the World Cup Games here in the United States and the funding necessary to bring that about, one of the first of its kind for the United States.

Title III deals with silver medals, which are to be issued for veterans of the Persian Gulf conflict. And I might add, in that particular case in title III, the funding will be entirely paid for by private donations and the sale of the bronze duplicates. No taxpayers' money or support is going to be involved.

Finally, Part 4, the Christopher Columbus coin, to be minted in 1992, has a beneficiary in the form of the Christopher Columbus Fellowship for scholarships for discoveries, which was passed by the House back in July on a vote of 408 to 2.

That pretty much covers it, Mr. Chairman, along with what our subcommittee chairman has said.

Mr. Speaker, I yield such time as he may consume to the gentleman from Louisiana [Mr. BAKER].

Mr. BAKER. Mr. Speaker, I certainly wish to express my appreciation to the gentleman as well as the chairman of the subcommittee, the gentleman from California [Mr. TORRES] for their cooperativeness in bringing this resolution to the floor this evening. Of course, it accomplishes a number of important purposes, but the primary concern to me is the White House Commemorative Coin which accomplishes two very important goals: the first being to recognize the laying of the cornerstone of the White House some 200 years ago, an important historical achievement for the City of Washington. And secondarily, to recognize an important responsibility of proceeds from the sale of this coin, and that is to provide the resources to perform an important refurbishment and remodeling of the White House which has not been done for many years.

For these two reasons I think the issuance of this claim is a very important purpose. I simply rise to commend the chairman and the ranking Member for their cooperativeness in providing this opportunity.

Mr. WELDON. Mr. Speaker, will the gentleman yield?

Mr. BAKER. I yield to the gentleman from Pennsylvania.

Mr. WELDON. Mr. Speaker, will the gentleman answer a question for me? There have been some rumors circulating that there is some involvement of Hallmark Cards in the issuance of this coin. Is the gentleman aware of any involvement of Hallmark Cards?

Mr. BAKER. Mr. Speaker, the only interest expressed to me so far has been a very nice letter from Barbara Bush explaining her interest in the matter and hoping that it is successful for the benefit of the White House Historical Society as well as for the White House staff.

Mr. WELDON. But there is no involvement of Hallmark Cards?

Mr. BAKER. Mr. Speaker, not to my knowledge.

Mr. McCANDLESS. Mr. Speaker, I yield myself such time as I may consume.

I might add in response to the question of the gentleman, again, this money is used by the White House Endowment Fund for the sole purpose of furnishing and preserving the public rooms of the White House, which no taxpayers' money is used for or has been used for in the past.

Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. RIDGE].

Mr. RIDGE. Mr. Speaker, I thank the gentleman for yielding.

First of all, let me commend both my colleagues, having served on that subcommittee, most Members cannot appreciate the length of time that it takes normally for a Member of the House or a Member of the Senate to meet the criteria that the subcommittee sets up in order to get a resolution to the floor creating a commemorative coin. I know it takes a great deal of time because I served on that subcommittee and marshalled one through. It took over a period of 2 years to fruition. So I want to commend both gentlemen.

I think particularly the Persian Gulf coin, the World Cup coin and the Christopher Columbus coin were very much involved, my colleague and I, the gentleman from Ohio [TOM SAWYER] have been very much involved in this celebration, the quincentennary celebration, and that will go a long way in meeting some of the goals of that celebration that was identified by Congress in, I think it was 1984, to be enjoyed by this country next year.

I guess just one comment I want to make, and it is perhaps somewhat critical. As I scan the four coins, I certainly support titles II, III and IV. I understand the purpose of title I. I just wish rather than having been sent up a White House commemorative coin, they would have sent out an economic package. I think that is great that they are going to use some of this money to refurbish the White House, and I will question the alacrity with which it managed to get through the hoops and the loops that everybody is normally required to jump through, but I did want to thank my colleagues for their work and recognize publicly that it is normally a very difficult thing to get a commemorative coin to this floor.

I thank them for their efforts and clearly the sponsors of these coins certainly deserve to be congratulated.

Mr. McCANDLESS. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. WELDON].

Mr. WELDON. Mr. Speaker, I, too, want to thank my colleague, the gentleman from Pennsylvania [Mr. RIDGE] for his cooperation on a number of issues that we have worked together on, one of which is a coin bill that is currently before the Subcommittee on Consumer Affairs and Coinage. I also want to thank the chairman of the Subcommittee on Consumer Affairs and Coinage, the gentleman from California [Mr. TORRES] and the ranking member, the gentleman from California [Mr. McCANDLESS] for their straightforward dialogue with us as we have tried to push forward a coin that recognizes the Nation's Fire Service in the year 1993.

It is not part of this process. I am disappointed in that, but there is no coin yet designated for 1993, and that option is still open.

I am a cosponsor of the coin bills that are in this particular resolution with the exception of the White House

VOL 137
PT 24
NO 26
1991 — JA 3 1992
UMI

coin bill, which I understand was just recently put together within the last month or so.

I applaud my colleagues who have brought forward the Christopher Columbus coin, the World Cup coin, the bill of the gentleman from California [Mr. TORRES] and the silver medal honoring the troops from Desert Storm. I think they are all very valuable and worthwhile functions.

I guess I could add the same thing on the White House coin with the exception that I am also disappointed, as my colleague, the gentleman from Pennsylvania [Mr. RIDGE] has mentioned, that it did not go through the full process of committee hearings and markup even though it is for a very valuable cause.

That disappoints me because we have been pressuring the White House for some 2 years to support the 1993 coin that honors the Nation's Fire Service, and I would hope that they would give the same full support and endorsement for that bill in the second half of this session of Congress as they have for the White House commemorative coin.

The Fire Service bill and coin has no overhead money and it would basically go to benefit the 1½ million direct fire fighters and the 3 million total dependents and family members who are part of the Fire Service family. It is the number one priority of the Fire Service Nationwide and currently has over 270 cosponsors.

It passed the Senate in the last session of Congress. Senators JOE BIDEN and BILL ROTH were the cosponsors of that bill this year.

So it is my hope that we can move that bill forward in the second half of this session. I will not oppose this bill, even though I have some concerns about the White House coin, because the other coins I have publicly cosponsored.

I would ask the committee, subcommittee chairman and the ranking member, to work with us next year for a markup process so that we can move forward with a 1993 coin.

Mr. McCANDLESS. Mr. Speaker, I yield myself such time as I may consume.

I think it would be of interest, with the permission of our subcommittee chairman, to maybe comment a little bit about the circumstances surrounding the White House commemorative coin. I include for the record at this point a copy of a letter addressed to Mrs. Earle Craig, Chairman of the White House Endowment Fund, from Mrs. Barbara Bush.

THE WHITE HOUSE
Washington, October 10, 1991.

Mrs. EARLE M. CRAIG, Jr.
Chairman, The White House Endowment Fund, Midland, TX.

DEAR DOTTIE, The 200th anniversary of the laying of the cornerstone of the White House this coming year—October 13, 1992—is a milestone we all look forward to celebrating. I am delighted both that plans for congressional authorization of a commemorative coin are undeway and that the proceeds from the sale of this coin will go to The White House Endowment Fund toward a permanent endowment for the furnishing and preservation of the public rooms of the White House. As we all know, no taxpayers' money is used for the preservation and refurbishing of the public rooms of the White House, and therefore the funds from the sale of this commemorative coin will be an important contribution to a White House endowment.

George and I are both grateful for the work of the White House Historical Association in seeking authorization of a commemorative coin, and we are grateful to all who are working on behalf of what we consider to be a wonderful opportunity to acknowledge an important date and to augment an endowment for the White House.

Warmly,

BARBARA.

☐ 2230

Mr. McCANDLESS. Continuing, the White House commemorative coin is scheduled to be introduce at the 200th anniversary of the laying of the cornerstone. It is intended to be introduced in 1992 in conjunction with or in the same year, I should say, as the Christopher Columbus coin.

The coin collectors are very dubious about too many commemorative coins, and as a result encouraged the subcommittee to limit the number. I would point out that in this case we have an unusual situation, not because it is the White House commemorative but because there are only going to be 500,000 silver dollars issued based upon the successful conclusion of this legislation commemorating the 200th anniversary of the White House cornerstone laying, as opposed to the normal type, for example, the Christopher Columbus coin, which is scheduled to be introduced in 1992 and will have 500,000 $5 gold pieces, 4 million silver dollars, and 6 million half dollar class.

So we are not really sending up something special that is going to be in conflict, but what it is the subcommittee and the chairman have been attempting to accomplish, and that is to zero in on excellent subjects to give maximum benefit to the commemorative coin, which in turn produces the revenues that continue to support these kinds of projects.

Mr. Speaker, I reserve the balance of my time.

Mr. TORRES. Mr. Speaker, I thank the ranking minority member of the subcommittee for his comments. To be sure, this particular commemorative coin will raise the necessary funds for the endowment fund, which will be utilized, as is well pointed out, for those aspects of the White House, the furnishing, the refurbishing of the rooms, the buying of fine art, the restoration of pieces of furniture and the buying of pieces of antique furniture that are still in private collections.

This is a house for all Americans and I think this is an appropriate way for coins to be sold to the public at no expense to the taxpayers, the money to be used for these important aspects.

Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Ohio, [Mr. SAWYER].

Mr. SAWYER. Mr. Speaker, I thank the gentleman from California [Mr. TORRES], my friend, and welcome this opportunity to rise and join in support of this entire piece of legislation. I am particularly pleased to associate myself with the remarks of my friend and colleague on the Subcommittee on Census and Population, the gentleman from Erie, PA, Mr. RIDGE, in his comments about the importance of the whole range of these undertakings, but particularly with regard to the Christopher Columbus Quincentennary commemorative coin.

As some may know, this has been a difficult year in terms of trying to focus the work of that Commission and to provide appropriate funding for that work. Among the vehicles for that purpose has been the coining of this particular commemorative piece in recognition of the 500th anniversary of Columbus' voyages. That difficulty has received a considerable amount of publicity in recent weeks.

I rise on this particular occasion to recognize the substantial difference in the work that has gone before that may have been troubled at times, and to distinguish that from the work that goes ahead from this time forward as a result of the good work that is being done on the floor here today in providing a vehicle for the support of the Columbus scholarships and the continuing work of the Columbus Quincentennary Commission under the new leadership of its new chairman, Frank Donnatelli, whose efforts have been of the highest order and worthy of the kind of support we are giving him here today.

Mr. RIDGE. Mr. Speaker, will the gentleman yield?

Mr. SAWYER. I am happy to yield to the gentleman from Pennsylvania.

Mr. RIDGE. Mr. Speaker, as the ranking member on the subcommittee privileged to serve with my friend and colleague, the gentleman from Ohio, I just want to associate myself with his remarks. Mr. Donnatelli has steered this celebration, as the *Nina*, the *Pinta*, and the *Santa Maria*, back out of very difficult waters. It looks like the sailing is going to be a lot smoother, particularly with this effort that our colleagues here brought before the House. It gives them a funding vehicle to not only deal with the scholarship fund but I think it also elevates in a very positive way the kind of celebration we want to engage in this year as a country, and I want to associate myself with his remarks.

Mr. SAWYER. Mr. Speaker, I thank the gentleman for his comments.

Mr. GILMAN. Mr. Speaker, will the gentleman yield?

Mr. SAWYER. I yield to the gentleman from New York.

Mr. GILMAN. Mr. Speaker, I thank the gentleman for yielding.

I want to commend both the gentleman from Ohio [Mr. SAWYER] and the gentleman from Pennsylvania [Mr. RIDGE] for putting the quincentennary back on the right track. We have had extensive hearings and this coin will certainly help these great ceremonies that they are planning under the direction of Mr. Donnatelli, but it was these two gentleman, the gentleman from Ohio [Mr. SAWYER], and the gentleman from Pennsylvania [Mr. RIDGE], who have helped to bring back the Commission to where it belongs with the proper objectives, the proper resources, and the proper ethics. I thank the gentleman for their work.

Mr. SAWYER. I thank the gentleman for his comments.

Mr. ANNUNZIO. Mr. Speaker, I rise in support of this legislation. The Chairman of the Consumer Affairs and Coinage Subcommittee, Mr. TORRES, is to be congratulated for his work in the field of coinage. His leadership is what has enabled the House to consider this legislation this evening.

I want to address the title of this bill which authorizes the minting of coins in commemoration of the quincentenary of the discovery of America by Christopher Columbus in 1492.

I recognize that there is much debate over whether Columbus was actually the first to discover The New World. There may well have been others that got here first. The difference is that when Columbus discovered America, it stayed discovered.

The Columbus coin title not only provides for the minting of coins in commemoration of the Columbus Quincentenary, but it establishes a Columbus Fellowship program with the surcharges raised from the sale of the coins. These Fellowships would be awarded to scholars, inventors, and the like so that they can work toward discoveries for the benefit of mankind. The scholarships would be awarded by a non-partisan Board of Directors whose members would be appointed by the President after consultation with the leadership of both Bodies of Congress.

If all the coins under this bill were sold, over $50 million would be raised for the Columbus Foundation established under this bill. This money, along with donations which the Foundation could accept, would be used to establish an endowment for the award of the Fellowships.

Mr. Speaker, this bill will establish a lasting memorial to the greatest explorer in history. The time is short for beginning this coin and fellowship program. I urge the passage of the bill.

Mr. McCANDLESS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. TORRES. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MFUME). The question is on the motion offered by the gentleman from California [Mr. TORRES] that the House suspend the rules and pass the bill, H.R. 3337, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. TORRES. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks in H.R. 3337, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

BICENTENNIAL OF THE DISTRICT OF COLUMBIA

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 356) designating December 1991 as "Bicentennial of the District of Columbia Month," and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. RIDGE. Mr. Speaker, reserving the right to object, I do so, first of all, to acknowledge the work of our colleague, the gentleman from Virginia [Mr. BLILEY] who is the chief sponsor of this joint resolution.

Mr. Speaker, further reserving the right to object, I yield to the gentlewoman from the District of Columbia [Ms. NORTON].

Ms. NORTON. Mr. Speaker, I want to thank my colleagues for the honor and recognition they give to the people of the District of Columbia in House Joint Resolution 356 honoring our bicentennial.

Mr. Speaker, this resolution acknowledges the Democratic majesty of the District of Columbia. As the Nation's city, it praises the creation of the District as an important act of self-government designed to strengthen and preserve the political institutions of a free people. We acknowledge with sincere appreciation the role the District of Columbia has been given to play in the development of the Nation's free institutions. We ask only that the act of self-governance inherent in our creation be extended to the 650,000 people who reside in the District.

Through greater home rule and ultimately statehood we seek to join the family of free and equal States that comprise the United States. We live for that day. Pending its sunrise, we are gratified and delighted with the bipartisan praise in this House for the District, its place in history, and the extraordinary dedication and energy of its people.

Mr. SAWYER. Mr. Speaker, will the gentleman yield?

Mr. RIDGE. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from Ohio.

Mr. SAWYER. Mr. Speaker, I thank my friend from Pennsylvania for yielding and I rise only to express the real gratitude we owe to the gentlewoman from the District of Columbia for the extraordinary effort that she has brought forth to bring this matter before us today. It may not be known to many who listen, the extraordinary effort that some Members have gone through to accomplish this. The gentleman from Richmond had the foresight to introduce the measure, but as much as anyone, it was the gentlewoman from the District of Columbia who today put together the signatures necessary to bring this before us tonight.

☐ 2240

That is an extraordinary accomplishment and I wanted to take just a moment to recognize it.

Mr. RIDGE. Mr. Speaker, I want to join my friend in singing the praises of the gentlewoman. It was definitely through her energetic initiative throughout this day that we were able to bring this matter to the floor this evening.

H.J. RES. 356

Whereas the year 1991 is recognized as the 200th anniversary of the District of Columbia because many of the events important to the founding of the Nation's Capital occurred during that year;

Whereas on January 24, 1791, George Washington selected the site along the Potomac River as the district for the permanent seat of the Government of the United States where the vision of the infant nation dedicated to the principles of self-government could be realized;

Whereas in February 1791, Andrew Ellicott and Benjamin Banneker began to survey the new district, which would become the center of a continent and leader of the free world;

Whereas on September 9, 1791, the Commissioners charged with the founding of the city informed Major Pierre L'Enfant that the Federal district was to be called the Territory of Columbia and the Federal city the City of Washington;

Whereas on December 13, 1791, L'Enfant's grand plan for the development of the Nation's Capital, which included magnificent vistas, radiating avenues, beautiful parks and promenades, cascading fountains, and public spaces for national monuments, and which reflected the patriotic enthusiasm that the Federal city forever serve as a temple to liberty, was submitted to the Congress;

Whereas on December 19, 1791, the State of Maryland forever ceded and relinquished to the Congress and the Government of the United States the final land grant to form the new district;

Whereas the creation of the District of Columbia was an important act of self-government by the first Federal Congress designed to strengthen and preserve the political institutions of a free people, and the District itself is a time-honored symbol of the Republic;

Whereas the grandeur and beauty of the District of Columbia are acclaimed throughout the world;

Whereas the sacrifices of a people dedicated to freedom are forever remembered in the inspiring memorials located in the District of Columbia.

Whereas the people of the District of Columbia have made contributions to the arts, law, music, and culture that have been recognized throughout the Nation and the world;

Whereas the District of Columbia is a national treasure as the repository of much of our Nation's history; and

Whereas the District of Columbia is truly where the people of the United States, through our elected representatives, exercise the right of self-governance: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That December 1991 is designated as "Bicentennial of the District of Columbia Month", and the President is authorized and requested to issue a proclamation—

Whereas (1) honoring the 200th anniversary of the founding of the District of Columbia as the Nation's Capital; and

Whereas (2) calling upon the people of the United States to observe such month with appropriate ceremonies and activities.

Mr. RIDGE. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the joint resolution, as follows:

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1572

Mr. MACHTLEY. Mr. Speaker, I ask unanimous consent to remove my name as cosponsor of H.R. 1572.

The SPEAKER pro tempore. (Mr. MFUME). Is there objection to the request of the gentleman from Rhode Island?

There was no objection.

BASKETBALL CENTENNIAL DAY

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution, House Joint Resolution 372, designating December 21, 1991, as "Basketball Centennial Day" and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. RIDGE. Reserving the right to object, Mr. Speaker, I do simply to acknowledge the work of our colleague, the gentleman from Massachusetts [Mr. NEAL] who is the chief sponsor of this resolution.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the joint resolution, as follows:

Whereas basketball, the only major sport funded in America, was invented by Dr. James Naismith in 1891;

Whereas the first basketball game was played by Dr. James Naismith's gymnastics class, using nine players on each side, peach baskets nailed to the wall at both ends of the gym, and a soccer ball;

Whereas basketball was first played by women in 1893;

Whereas basketball, the American Game, grew in popularity over the next two years throughout the United States and several foreign countries, and by the turn of the century was being played in 20 nations;

Whereas basketball became an official Olympic sport in Berlin in 1936, and the United States defeated Canada to win the first Gold Medal;

Whereas basketball at every level of play has been enjoyed by millions of spectators;

Whereas our youth—the future of our Nation—have become involved in various basketball leagues that have contributed to the ideals of dedication, commitment, and teamwork; and

Whereas basketball, the American Game, is played and enjoyed by many people in America and in the rest of the world; Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That December 21, 1991, is designated as "Basketball Centennial Day". The President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

RECOGNIZING CONTRIBUTIONS OF FEDERAL CIVILIAN EMPLOYEES DURING ATTACK ON PEARL HARBOR AND DURING WORLD WAR II

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate Joint Resolution 198, to recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. RIDGE. Reserving the right to object, Mr. Speaker, I do so to identify and acknowledge the work of the sponsor of the resolution, our colleague, the gentleman from Hawaii [Mr. Abercrombie] and also to yield such time as he may consume to our colleague, the gentleman from New York [Mr. GILMAN], a member of the full committee.

Mr. GILMAN. Mr. Speaker I am pleased to rise in support of Senate Joint Resolution 198, a bill recognizing the contributions that Federal employees provided during World War II and specifically during the attack on Pearl Harbor. I would like to commend the gentleman from Hawaii, Mr. ABERCROMBIE for bringing this measure to the floor of the House at this appropriate time.

We all fully recall that infamous date, December 7, 1941 when the Imperial Japanese forces attacked Pearl Harbor, beginning our Nation's involvement in the Second World War. I am pleased to stand here today, nearly 50 years later, as the ranking member of the House Post Office and Civil Service Committee, to recognize the service and self-sacrifice given to our nation by our Federal employees.

The dedication, valor, and contributions made by our Federal employees during the Japanese attack on Pearl Harbor and subsequently throughout World War II exhibited the highest standards of professionalism and patriotism. The men and women employed by the Federal Government provided expertise, vital services to those in uniform, and to the civilian population.

Accordingly, Mr. Speaker, I urge my colleagues to join in supporting the resolution remembering the dedication of our Federal civilian employees.

Mr. ABERCROMBIE. Mr. Speaker, as we approach the 50th anniversary of Pearl Harbor, our thoughts naturally turn to the sacrifices and bravery shown by U.S. personnel on December 7, 1941.

Their heroism inspired the Nation to steel its resolve and settle for nothing less than total victory in World War II.

That ordeal has been seared into our national consciousness.

It is no exageration to say that Pearl Harbor was a defining moment in American history.

This month and next, Pearl Harbor military veterans throughout the Nation are standing tall as they receive the special Pearl Harbor Commemorative Medal authorized last year by Public Law 101–511.

These men and women richly deserve this belated recognition as their memories—and ours—travel a half-century back in time to the day their lives were changed forever in the shattering trauma of Pearl Harbor.

While we rightly commemorate the dedication of the soldiers, sailors and marines of December 7, we can not forget the forgotton heroes of Pearl Harbor.

I am speaking of the Federal civilian employees of the Pearl Harbor Naval Ship Yard, Hickam Field, and other military installations on the island of Oahu.

They, too, demonstrated heroism and suffered casualties in the defense of the United States.

While the attack raged, they fired antiaircraft guns, fought fires, rescued the drowning, rendered first aid and performed a thousand and one other tasks at peril to their lives.

They include—and I cite only a few of the thousands of examples of quiet bravery:

Mary Helen Stevens, the Pearl Harbor base librarian, who organized volunteers to tend the wounded * * *

Ponciano Bernardino, of the submarine base, who led a makeshift group of civilians to fight fires in Drydock One * * *

George Walters, a crane operator, who frustrated dive bombing attacks on the battleship Pennsylvania by moving his crane between the diving planes and the helpless ship * * *

On Tai Pang, of Pearl Harbor's Shop 02, who transported the wounded under fire * * *

And mechanic's helper Clifford Oliver of Hickam Field, who drove a truck into a burning building to remove precious aircraft engines.

As I said, Mr. Speaker, this is only a small sampling of the bravery shown by civilian Federal employees who demonstrated a devotion that went far above and beyond the call of duty for a librarian * * *

a shop worker * * *

a mechanic's helper * * *

a crane operator.

Other civilian employees paid with their lives for their dedication to duty:

August Akina * * *
Philip Eldred * * *
Benigno Cabaay * * *
Tai Ching Loo * * *
Daniel LaVerne.

House Joint Resolution 368 honors these splendid men and women by declaring December 4, 1991, to be Federal Civilian Employee Remembrance Day.

As we mark this turning point in history, I thank every member for their support of this resolution.

Especially the gentleman from Guam and the gentlelady from Hawaii for their help on this measure.

As we remember Pearl Harbor, let us salute its unsung heroes: the Federal civilian employees who rose to the occasion so magnificently.

Mr. RIDGE. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the joint resolution, as follows:

S.J. RES. 198

To recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II.

Whereas on Sunday morning, December 7, 1941, at 7:55 a.m., the first wave of dive and hight level bombers from the Imperial Japanese Combined Fleet attacked Hickam and Wheeler Airfields in the United States territory of Hawaii;

Whereas the first bombs fell on Ford Island at Pearl Harbor;

Whereas American fighter planes were strafed and destroyed on the ground at Pearl Harbor, Hickman Airfield, Kaneohe Naval Air Station, Bellow Airfield, Ewa Marine Corps Air Station, Schofield Barracks, and Wheeler Air field;

Whereas the United States Pacific Fleet was devastated, but its carriers were still afloat, and Pearl Harbor's shipyards, fuel storage area, and submarine base remarkably suffered very little damage;

Whereas Federal civilian employees responded magnificantly that fateful morning and met their country's call to duty with distinction and valor;

Whereas Federal civilian employees were instrumental in the remarkable salvage effort to raise and repair several of the naval vessels that were put back in action before the end of World War II;

Whereas of the 2,403 Americans killed in connection with the attack on Pearl Harbor, 68 were civilians, and of the 1,178 Americans wounded in connection with the attack, 35 were civilians;

Whereas Federal civilian employees exhibited the highest sense of patriotism and exemplary performance at Pearl Harbor and during World War II;

Whereas on December 4, 1991, ceremonies coordinated by the National Park Service will be held in the State of Hawaii to recognize the contributions of Federal civilian employees; and

Whereas we should honor these distinguished individuals during the commemoration of the fiftieth anniversary of the attack on Pearl Harbor: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That December 4, 1991, is designated as "Federal Civilian Employees Remembrance Day". The President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such day with appropriate ceremonies and activities recognizing the important contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II, and thanking such dedicated and committed individuals for their sacrifice and devotion to their country.

The Senate joint resolution was ordered to be read a third time, was read the third time and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the several resolutions just considered and passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

HEALTH CARE FOR COAL MINERS

(Mr. RAHALL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RAHALL. Mr. Speaker, I rise on behalf of the 35,000 retired coal miners and their families in West Virginia who depend on the UMWA health and retirement funds for health care benefits in support of the Coal Industry Retiree Health Benefit Act of 1991 being introduced today in the House of Representatives.

The pressing need to establish a sound and viable health care delivery system for miners and their families is second to none. Yet, today, the health funds are in deficit, threatening the continuity of benefits to both existing and future retirees.

Currently about 60 percent of all beneficiaries under the health funds are miners who retired from companies that have gone out of business. An additional 15 percent are retired from companies which have, simply put, walked away from their responsibilities to provide health care to their former employees. As such, 75 percent of the retirees served by the funds never worked for, or had any connection with, a currently contributing company.

This is not only causing a growing deficit in the funds, but means that the responsibility for providing these retirees with health care coverage is being shouldered by members of the Bituminous Coal Operators Association. The result: For every dollar current BCOA member companies contribute for their own retirees they pay $3 for other companies' retirees.

I would submit that this is an unjust situation.

It should be noted that the funds are unique, and what would normally be a matter solely for the private sector is not in this instance. There is a federal responsibility to these funds. The genesis for the funds dates back to 1946 in an agreement between then-UMW President John L. Lewis and the Federal Government to resolve a long-running labor dispute. At the time, President Truman had ordered the Interior Secretary to take possession of all bituminous coal mines in the country in an effort to break a United Mine Workers of America strike. Eventually, Lewis and Secretary Julius Krug reached an agreement that included an industrywide, miner controlled health plan.

The legislation being introduced today in the House is identical to the measure sponsored by the junior Senator from West Virginia, JAY ROCKEFELLER. The Senator explained the bill in great detail when he introduced it on November 19, 1991, and I would refer my colleagues to his remarks as to the particulars of this measure. I would, however, note that nobody is eager to place a new tax on the coal industry in this country. Nor, should this be viewed as a matter of union versus nonunion companies.

The bottom line is that we, as a Nation, must ensure that retired coal miners and their families are provided with health care coverage, now and in the future. I believe that the bill being introduced today represents our best chance to reach that goal.

RECESS

The SPEAKER pro tempore (Mr. MFUME). The Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 10 o'clock and 45 minutes p.m.), the House stood in recess subject to the call of the Chair.

☐ 0040

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore [Mr. BROWN] at 12 o'clock and 43 minutes a.m., on November 27, 1991 (Legislative day of November 26, 1991).

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 543. An Act to establish the Manzanar National Historic Site in the State of California, and for other purposes.

H.R. 2370. An Act to expand the boundaries of Stones River National Battlefield, Tennessee, and for other purposes.

H.R. 3049. An Act to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization.

H.R. 3508. An Act to amend the Public Health Service Act to revise and extend certain programs relating to the education of individuals as health professionals, and for other purposes.

The message also announced, That the Senate insists upon its amendment to the bill (H.R. 3508) "An Act to amend Public Health Service Act to revise and extend certain programs relating to the education of individuals as health professionals, and for other purposes" requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. KENNEDY, Mr. METZENBAUM, Mr. SIMON, Mr. HATCH, and Mrs. KASSEBAUM to be the conferees on the part of the Senate.

The message also announced, That the Senate agrees to the amendments of the House to bill (S. 1532) entitled "An Act to revise and extend the programs under the Abandoned Infants Assistance Act of 1988, and for other purposes" with an amendment.

The message also announced that the Senate had passed bills and a joint resolution of the following titles, in which the concurrence of the House is requested:

S. 367. An act to amend the Job Training Partnership Act to encourage a broader range of training and job placement for women, and for other purposes.

S. 447. An act to recognize the organization known as The Retired Enlisted Association, Incorporated.

S. 452. An act to authorize a transfer of administrative jurisdiction over certain land to the Secretary of the Interior, and for other purposes.

S. 606. An act to amend the Wild and Scenic Rivers Act by designating certain segments of the Allegheny River in the Commonwealth of Pennsylvania as a component of the National Wild and Scenic Rivers System, and for other purposes.

S. 1187. An act to amend the Stock Raising Homestead Act to provide certain procedures for entry onto Stock Raising Homestead Act lands, and for other purposes.

S. 1528. An act to establish the Mimbres Culture National Monument and to establish an archeological protection system for Mimbres sites in the State of New Mexico, and for other purposes.

S. 1577. An act to amend the Alzheimer's Disease and Related Dementias Services Research Act of 1986 to reauthorize the Act, and for other purposes.

S. 1707. An act to authorize the establishment of the Fort Totten National Historic Site.

S. 1743. An act to amend the Wild and Scenic Rivers Act by designating certain rivers in the State of Arkansas as components of the National Wild and Scenic River System, and for other purposes.

S. 1770. An act to convey certain surplus real property located in the Black Hills National Forest to the Black Hills Workshop and Training Center, and for other purposes.

S. 2098. An act to authorize the President to appoint Major General Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration.

S.J. Res 23. Joint resolution to consent to certain amendments enacted by the legislature of the State of Hawaii to the Hawaiian Homes Commission Act, 1920.

ELECTION OF MEMBER TO A STANDING COMMITTEE

Mr. HOYER. Mr. Speaker, by direction of the Democratic Caucus, I offer a privileged resolution (H. Res. 308), and I ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 308

Resolved, That the following named Member be, and is hereby elected to the following standing committee of the House of Representatives:

Committee on Public Works and Transportation: Lucien Blackwell, Pennsylvania.

The resolution was agreed to.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON H.J. RES. 157, DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS AND TRANSFERS FOR RELIEF FROM THE EFFECTS OF NATURAL DISASTERS, FOR OTHER URGENT NEEDS, AND FOR INCREMENTAL COST OF OPERATION DESERT SHIELD/DESERT STORM ACT OF 1992

Mr. WHITTEN submitted the following conference report and statement on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes:

CONFERENCE REPORT (H. REPORT. 102–394)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H.J. Res. 157) "making technical corrections and correcting enrollment errors in certain Acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the joint resolution, and agree to the same with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, to provide dire emergency supplemental appropriations for the fiscal year ending September 30, 1992, and for other purposes, namely:

SUPPLEMENTAL APPROPRIATIONS

DEPARTMENT OF DEFENSE—MILITARY PROCUREMENT

MISSILE PROCUREMENT, ARMY

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for "Missile procurement, Army", $78,000,000, to remain available for obligation until September 30, 1994, and in addition, $67,000,000 to be derived by transfer from "Missile procurement, Air Force, 1991/1993", to remain available for obligation until September 30, 1993.

SHIPBUILDING AND CONVERSION, NAVY

For an additional amount for "Shipbuilding and conversion, Navy", for LSD–41 dock landing ship, cargo variant program, advance procurement of engines and generators, $25,000,000, to remain available for obligation until September 30, 1996.

NATIONAL GUARD AND RESERVE EQUIPMENT

For an additional amount for "National Guard and Reserve equipment", $10,100,000, to remain available until September 30, 1994, for the purchase of one MH–60G helicopter.

TITLE I—EMERGENCY SUPPLEMENTAL APPROPRIATIONS

CHAPTER I

DEPARTMENT OF DEFENSE—MILITARY

OPERATION DESERT SHIELD/DESERT STORM

(TRANSFER OF ADDITIONAL FUNDS)

For additional incremental cost of the Department of Defense, the Department of Veterans Affairs, and the Department of Transportation associated with operations in and around the Persian Gulf as part of operations currently known as Operation Desert Shield (including Operation Desert Storm) and under the terms and conditions of the "Operation Desert Shield/Desert Storm Supplemental Appropriations Act, 1991" (Public Law 102–28), in addition to the amounts that may be transferred to appropriations available to the Department of Defense and other Departments pursuant to that Act, not to exceed $3,968,500,000 may be transferred during fiscal year 1992 from either the Defense Cooperation Account, or as appropriate, the Persian Gulf Regional Defense Fund, to the following accounts in not to exceed the following amounts:

OPERATIONS AND MAINTENANCE

(TRANSFER OF FUNDS)

OPERATION AND MAINTENANCE, ARMY

For an additionl amount for "Operation and maintenance, Army", $227,300,000.

OPERATION AND MAINTENANCE, NAVY

For an additional amount for "Operation and maintenance, Navy", $270,000,000.

OPERATION AND MAINTENANCE, MARINE CORPS

For an additional amount for "Operation and maintenance, Marine Corps", $75,000,000.

OPERATION AND MAINTENANCE, ARMY RESERVE

For an additional amount for "Operation and maintenance, Army Reserve", $23,200,000.

OPERATION AND MAINTENANCE, NAVY RESERVE

For an additional amount for "Operation and maintenance, Navy Reserve", $28,300,000.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For an additional amount for "Operation and maintenance, Army National Guard", $41,900,000.

PROCUREMENT

(TRANSFER OF FUNDS)

AIRCRAFT PROCUREMENT, ARMY

For an additional amount for "Aircraft procurement, Army", $270,800,000, to remain available for obligation until September 30, 1994.

MISSILE PROCUREMENT, ARMY

For an additional amount for "Missile procurement, Army", $21,800,000, to remain available for obligation until September 30, 1994.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For an additional amount for "Procurement of weapons and tracked combat vehicles, Army", $63,000,000, to remain available for obligation until September 30, 1994.

OTHER PROCUREMENT, ARMY

For an additional amount for "Other procurement, Army", $80,500,000, to remain available for obligation until September 30, 1994.

AIRCRAFT PROCUREMENT, NAVY

For an additional amount for "Aircraft procurement, Navy", $521,000,000, to remain available for obligation until September 30, 1994.

WEAPONS PROCUREMENT, NAVY

For an additional amount for "Weapons procurement, Navy", $8,100,000, to remain available for obligation until September 30, 1994.

OTHER PROCUREMENT, NAVY

For an additional amount for "Other procurement, Navy", $112,700,000, to remain available for obligation until September 30, 1994.

PROCUREMENT, MARINE CORPS

For an additional amount for "Procurement, Marine Corps", $4,300,000, to remain available for obligation until September 30, 1994.

AIRCRAFT PROCUREMENT, AIR FORCE

For an additional amount for "Aircraft procurement, Air Force", $309,500,000, to remain available for obligation until September 30, 1994.

OTHER PROCUREMENT, AIR FORCE

For an additional amount for "Other procurement, Air Force", $560,000,000, to remain available for obligation until September 30, 1994.

PROCUREMENT, DEFENSE AGENCIES

For an additional amount for "Procurement, Defense Agencies", $76,900,000, to remain available for obligation until September 30, 1994.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

(TRANSFER OF FUNDS)

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For an additional amount for "Research, development, test and evaluation, Army", $47,800,000, to remain available for obligation until September 30, 1993.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For an additional amount for "Research, development, test and evaluation, Navy", $6,100,000, to remain available for obligation until September 30, 1993.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For an additional amount for "Research, development, test and evaluation, Air Force", $24,300,000, to remain available for obligation until September 30, 1993.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

For an additional amount for "Research, development, test and evaluation, Defense Agencies", $28,100,000, to remain available for obligation until September 30, 1993.

DEFENSE BUSINESS OPERATIONS FUND

(TRANSFER OF FUNDS)

For an additional amount for "Defense business operations fund", $1,140,000,000.

DEPARTMENT OF TRANSPORTATION

(TRANSFER OF FUNDS)

COAST GUARD

OPERATING EXPENSES

For an additional amount for "Operating expenses", $17,900,000, to remain available for obligation until expended.

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINISTRATION—MEDICAL CARE

(TRANSFER OF FUNDS)

For an additional amount for "Medical care", $10,000,000.

DEPARTMENT OF DEFENSE—MILITARY

(TRANSFER OF EXISTING FUNDS)

For the purpose of adjusting amounts which may be transferred pursuant to the "Operation Desert Shield/Desert Storm Supplemental Appropriations Act, 1991" (Public Law 102–28) and under the terms and conditions of that Act, during the fiscal year 1992, the Secretary of Defense may make adjustments to the amounts provided for transfer by such Act in amounts not to exceed $6,282,400,000 and provide for the transfer of such amounts to the following accounts in not to exceed the following amounts to be available to the Department of Defense during fiscal year 1992: Provided, That the Secretary of Defense shall provide prior notification to the Committees on Appropriations of the House of Representatives and the Senate indicating the accounts from which the funds will be derived for such transfers:

MILITARY PERSONNEL

(TRANSFER OF FUNDS)

MILITARY PERSONNEL, ARMY

To be derived by transfer, $685,000,000 for "Military personnel, Army".

MILITARY PERSONNEL, NAVY

To be derived by transfer, $70,000,000 for "Military personnel, Navy".

MILITARY PERSONNEL, MARINE CORPS

To be derived by transfer, $18,000,000 for "Military personnel, Marine Corps".

MILITARY PERSONNEL, AIR FORCE

To be derived by transfer, $81,000,000 for "Military personnel, Air Force".

RESERVE PERSONNEL, ARMY

To be derived by transfer, $80,000,000 for "Reserve personnel, Army".

RESERVE PERSONNEL, AIR FORCE

To be derived by transfer, $4,000,000 for "Reserve personnel, Air Force".

NATIONAL GUARD PERSONNEL, ARMY

To be derived by transfer, $10,000,000 for "National Guard personnel, Army".

NATIONAL GUARD PERSONNEL, AIR FORCE

To be derived by transfer, $3,000,000 for "National Guard personnel, Air Force".

OPERATION AND MAINTENANCE

(TRANSFER OF FUNDS)

OPERATION AND MAINTENANCE, ARMY

To be derived by transfer, $2,717,500,000 for "Operation and Maintenance, Army".

OPERATION AND MAINTENANCE, NAVY

To be derived by transfer, $1,080,000,000 for "Operation and maintenance, Navy".

OPERATION AND MAINTENANCE, MARINE CORPS

To be derived by transfer, $165,000,000 for "Operation and maintenance, Marine Corps".

OPERATION AND MAINTENANCE, AIR FORCE

To be derived by transfer, $1,241,400,000 for "Operation and maintenance, Air Force".

OPERATION AND MAINTENANCE, ARMY RESERVE

To be derived by transfer, $6,000,000 for "Operation and maintenance, Army Reserve".

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

To be derived by transfer, $59,200,000 for "Operation and maintenance, Air Force Reserve".

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

To be derived by transfer, $3,600,000 for "Operation and maintenance, Army National Guard".

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

To be derived by transfer, $58,700,000 for "Operation and maintenance, Air National Guard".

GENERAL PROVISIONS—CHAPTER I

SEC. 101. The prohibition in section 132(a)(2) of Public Law 101–189 (103 Stat. 1383) does not apply to the obligation of $70,200,000 provided in "Aircraft procurement, Army" of chapter I, title I for the procurement of AH–64 Apache attack helicopters.

SEC. 102. Of the funds provided in title III of Public Law 101–165 for "Other procurement, Air Force", not more than $80,000,000 shall be available, and may be obligated and expended, for costs arising from the cancellation of the Alaskan OTH–B radar program and powerplant lease: Provided, That such funds will be available for contract termination, site restoration, modification of facilities and other costs associated with the termination of the Alaskan OTH–B radar program and powerplant lease, or the transfer and modification of facilities and material located at or procured for the Alaskan OTH–B radar program or powerplant to any other Department of Defense activitiy or program at the OTH–B radar powerplant site.

KURDISH PROTECTION FORCE

(TRANSFER OF FUNDS)

SEC. 103. In addition to other transfer authority granted by this or any other Act, and under the terms and conditions of the "Operations Desert Shield/Desert Storm Supplemental Appropriations Act, 1991" (Public Law 102–28), the Secretary of Defense may transfer not to exceed $100,000,000 for costs incurred during fiscal years 1991 and 1992 from the Defense Cooperation Account, or as appropriate, the Persian Gulf Regional Defense Fund to appropriate Department of Defense appropriations for costs incurred through February 1992 in support of U.S. military forces in and around Iraq and Turkey known as the Kurdish Protection or Ready Reaction Force.

RESTRICTION OF ARMS SALES TO SAUDI ARABIA AND KUWAIT

SEC. 104. (a) No funds appropriated or otherwise made available by this or any other Act may be used in any fiscal year to conduct, support, or administer any sale of defense articles or defense services to Saudi Arabia or Kuwait until that country has paid in full, either in cash or in mutually agreed in-kind contributions, the following commitments made to the United States to support Operation Desert Shield/Desert Storm:

(1) In the case of Saudi Arabia, $16,839,000,000.

(2) In the case of Kuwait, $16,006,000,000.

(b) For purposes of this section, the term "any sale" means any sale with respect to which the President is required to submit a number certification to the Congress pursuant to the Arms Export Control Act on or after the effective date of this section.

(c) This section shall take effect 120 days after the date of enactment of this joint resolution.

(d) Any military equipment of the United States, including battle tanks, armored combat vehicles, and artillery, included within the Conventional Forces in Europe Treaty definition of "conventional armaments and equipment limited by the Treaty", which may be transferred to any other NATO country shall be subject to the notification procedures stated in section 523 of Public Law 101–513 and in section 634A of the Foreign Assistance Act of 1961.

MIDDLE EAST HUMANITARIAN RELIEF

Sec. 105. (a) Of the funds appropriated from the Defense Cooperation Account for the Kurdish Ready Reaction Force, up to $15,000,000 may be made available only for the prepositioning of relief supplies in the Middle East to meet emergency Kurdish and other Iraqi-related humanitarian needs and related transportation costs. (b) In addition, the Secretary of Defense may transfer up to $15,000,000 in additional funds from the Defense Cooperation Account to the appropriate appropriations accounts within the Department of Defense for these Kurdish and other Iraqi-related humanitarian purposes.

CLASSIFIED PROGRAM

SEC. 106. (a) In section 110 of the Classified Annex incorporated into the Department of Defense Appropriations Act, 1992, the matter beginning with "Notwithstanding" and ending with "Provided, That" shall have no force or effect.

(b) The funds described in section 110 of such Classified Annex may be obligated for the program described therein only in accordance with the Classified Annex incorporated into the National Defense Authorization Act for Fiscal Years 1992 and 1993.

SEC. 107. None of the funds available to the Department of Defense in fiscal year 1992 may be used by the Department of the Army to award a contract for the procurement of four-ton dolly jacks if such equipment is or would be manufactured outside the United States of America and would be procured under any contract, agreement, arrangement, compact or other such instrument for which any provisions including price differential provisions of the Buy American Act of 1933, as amended, or any other Federal buy national law was waived: Provided, That the Secretary of the Army may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.

(TRANSFER OF FUNDS)

SEC. 108. In addition to other transfer authority available to the Department of Defense, the Secretary of Defense may transfer from amounts appropriated to the Department of Defense for fiscal year 1992 for operation and maintenance or from balances in working capital accounts established under section 2208 of title 10, United States Code, not to exceed $400,000,000, to the appropriate accounts within the Department of Defense for reducing the Soviet nuclear threat and for the purposes set forth in the Soviet Nuclear Threat Reduction Act of 1991 contained in H.R. 3807, as passed the Senate on November 25, 1991, and under the terms and conditions of such Act: Provided, That the readiness of the United States Armed Forces shall not be diminished by such transfer of funds.

(TRANSFER OF FUNDS)

SEC. 109. In addition to other transfer authority available to the Department of Defense, the Secretary of Defense, upon the declaration of an emergency by the President under the terms of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, may transfer from amounts appropriated to the Department of Defense for fiscal year 1992 or from balances in working capital accounts established under section 2208 of title 10, United States Code, not to exceed $100,000,000, to the appropriate accounts within the Department of Defense, in order to transport by military or commercial means, food, medical supplies, and others types of humanitarian assistance to the Soviet Union, or its Republics, or localities therein—with the consent of the relevant Republic government or its independent successor—in order to address emergency conditions which may arise therein, and for the purposes set forth in section 301 of H.R. 3807, as passed the Senate on November 25, 1991, and under the terms and conditions of such section 301 of H.R. 3807: Provided, That the readiness of the United States Armed Forces shall not be diminished by such transfer of funds: Provided further, That the Committees on Appropriations be notified of transfers under this provision fifteen days in advance.

CHAPTER II

DEPARTMENT OF VETERANS AFFAIRS

ADMINISTRATIVE PROVISION

Section 518(a) of the "General Provisions" in H.R. 2519, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1992, is amended by striking out "Section 662A(c)" and inserting in lieu thereof "Section 1722A(c)".

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ADMINISTRATIVE PROVISION—HOME

Section 217(a) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12747(a)) is amended—

(1) in the first sentence of paragraph (1), by inserting "and after reserving amounts for the insular areas under paragraph (3)" before the first comma; and

(2) by adding at the end the following new paragraph:

"(3) INSULAR AREAS.—For each fiscal year, of any amounts approved in appropriations Acts to carry out this title, the Secretary shall reserve for grants to the insular areas the greater of (A) $750,000, or (B) 0.5 percent of the amounts appropriated under such Acts. The Secretary shall provide for the distribution of amounts reserved under this paragraph among the insular areas pursuant to specific criteria for such distribution. The criteria shall be contained in a regulation promulgated by the Secretary after notice and public comment.".

Section 104 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12704) is amended—

(1) in paragraph (1), by striking "Guam" and all that follows through "American Samoa,"; and

(2) by adding at the end the following new paragraph:

"(24) The term 'insular area' means any of the following: Guam, the Northern Mariana Islands, the Virgin Islands, and American Samoa.".

ADMINISTRATIVE PROVISION—STAFFING

The Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1992 (H.R. 2519), is amended—

(1) in the appropriation paragraph entitled "Personal Services and Travel, Office of Public and Indian Housing" by striking "$10,424,000" and inserting in lieu thereof "$12,788,000" each time it appears in the paragraph;

(2) in the appropriating paragraph entitled "Personal Services and Travel, Office of Policy Development and Research" by striking "$10,705,000" and inserting in lieu thereof "$8,717,000"' each time it appears in the paragraph; and

(3) in the appropriating paragraph entitled "Personal Services and Travel, Office of General Counsel" by striking "$14,985,000" and inserting in lieu thereof "$14,609,000" each time it appeard in the paragraph.

INDEPENDENT AGENCIES

COURT OF VETERANS APPEALS

SALARIES AND EXPENSES

Of the funds made available under this head in Public Law 102–139, not to exceed $950,000, to remain available until September 30, 1993, shall be available for the purpose of providing financial assistance (through grant or contract made, to the maximum extent feasible, not later than 150 days after enactment of this Act) to facilitate the furnishing of legal and other assistance, without charge, to veterans and other persons who are unable to afford the cost of legal representation in connection with decisions to which section 7252(a) of title 38, United States Code, may apply, or with other proceedings in the Court, through a program that furnishes case screening and referral, training and education for attorney and related personnel, and encouragement and facilitation of pro bono representation by members of the bar and law school clinical and other appropriate programs, such as veterans service organizations, and through defraying expenses incurred in providing representation to such persons: Provided, That such grants or contracts shall be made by the Legal Services Corporation pursuant to a reimbursable payment from the United States Court of Veterans Appeals for the purposes described herein: Provided further, That the Legal Services Corporation is authorized to receive a reimbursable payment from the United States Court of Veterans Appeals for the purpose of providing the financial assistance described herein: Provided further, That no funds made available herein shall be used for the payment of attorney fees: Provided further, That, not later than 180 days after the enactment of this Act, and, again, not later than one year after a grant or contract is made pursuant to the provisions of this paragraph, the Legal Services Corporation and the United States Court of Veterans Appeals shall report to the appropriate committees of the Congress regarding the implementation of the provisions of this paragraph.

ENVIRONMENTAL PROTECTION AGENCY

ADMINISTRATIVE PROVISION

Of the funds appropriated for the wastewater treatment facilities fund under title VI of the Federal Water Pollution Control Act, up to one-half of one per centum may be made available by the Administrator for direct grants to Indian tribes for construction of wastewater treatment facilities.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF

(INCLUDING TRANSFER OF FUNDS)

For emergency disaster assistance payments necessary to provide for expenses in presidentially-declared disasters under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, an additional amount for "Disaster relief", $943,000,000, to remain available until expended, of which $143,000,000 shall be available only after submission to the Congress of a formal budget request by the President designating the $143,000,000 as an emergency: Provided, That up to $1,250,000 of the funds made available under this heading may be transferred to, and merged with, amounts made available to the Federal Emergency Management Agency under the heading "Salaries and expenses" in the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1992 (Public Law 102–139): Provided further, That hereafter, beginning in fiscal year 1993, and in each year thereafter, notwithstanding any other provision of law, all amounts appropriated for disaster assistance payments under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) that are in excess of either the historical annual average obligation of $320,000,000, or the amount submitted in the President's initial budget request, whichever is lower, shall be considered as "emergency requirements" pursuant to section 251(b)(2)(D) of the Balanced Budget and Emergency Deficit Control Act of 1985, and such amounts shall hereafter be so designated.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

RESEARCH AND DEVELOPMENT

The last proviso under this heading in the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations, 1990 (Public Law 101–144), is hereby deleted.

NATIONAL COMMISSION ON SEVERELY DISTRESSED PUBLIC HOUSING

SALARIES AND EXPENSES

(TRANSFER OF FUNDS)

For necessary expenses of the National Commission on Severely Distressed Public Housing, in carrying out its functions under title V of the Department of Housing and Urban Development Reform Act of 1989 (Public Law 101–235), $250,000, to remain available until expended, to be derived by transfer from amounts provided to the Department of Housing and Urban Development under the heading "Salaries and expenses" in Public Law 102–139.

CHAPTER III

DEPARTMENT OF AGRICULTURE

COMMODITY CREDIT CORPORATION

In view of the occurrence of recent natural disasters—similar to the volcano eruption of 1980, the earthquake of 1989, and the hurricane of 1989—droughts, floods, freezes, tornadoes, and other catastrophes which resulted in billions of dollars in damages, and in an effort to restore the economy and to alleviate the effects of the disasters, an additional $1,750,000,000, to remain available until expended, is hereby made available for losses associated with 1990 crops as authorized by P.L. 101–624, and for losses associated with 1991 and 1992 crops under the same terms and conditions: Provided, That $995,000,000 of this amount is available for payments to producers for losses on either 1990 or 1991 crops, at the producer's option: Provided further, That the remaining $755,000,000 shall be available only to the extent an official budget request, for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, is transmitted to the Congress: Provided further, That this $755,000,000 shall be available for crop losses for one of the years 1990, 1991 or 1992, at the producer's option, but shall not be for a year for which disaster payments were previously provided to the producer: Provided further, That $100,000,000 of the $755,000,000 is set aside for program crops planted in 1991 for harvest in 1992: Provided further, That, consistent with the amounts made available above, emergency loans made with respect to damage to an annual crop planted for harvest in 1991 under subtitle C of the Consolidated Farm and Rural Development Act shall be made available without regard to the purchase of crop insurance under the Federal Crop Insurance Act by the producer who requests such a loan.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

Notwithstanding any other provision of law, funds available to the Animal and Plant Health Inspection Service of the Department of Agriculture for fiscal year 1992 shall be made available as a grant in the amount of $530,000 to the State of Maine Department of Agriculture, Food and Rural Resources for potato disease detection, control, prevention, eradication and related activities including the payment of compensation to persons for economic losses associated with such efforts conducted or to be conducted in the State of Maine and any unobligated balances of funds previously appropriated or earmarked for potato disease efforts by the Secretary of Agriculture shall remain available until expended by the Secretary.

TITLE II–GENERAL PROVISIONS

SEC. 200. FINDING OF DIRE EMERGENCY CONDITIONS.—The Congress finds that—

(a) the President has designated and requested the Congress to designate over $1,140,000,000 in 1991 international assistance funds to meet emergency needs in foreign lands;

(b) natural disasters (including floods, droughts, tornadoes, hurricanes, earthquakes, freezes, and typhoons) have occurred in the United States and its territories causing loss of life, human suffering, loss of income, and property loss or damage with dire emergency financial situations;

(c) since October 1990, there have been 44 presidentially-declared disasters and 89 disasters declared by the Secretary of Argiculture affecting every area of the Nation in almost every State for which Federal funds are not available to meet emergency needs, resulting in calls for the National Guard and other assistance;

(d) as a consequence of these disasters, millions of acres of land are or were under water, millions of acres of farm land are not able to be planted, and highways, dams, roads, and bridges have not been repaired. Many of the people in communities, counties, States, and many private businesses have been dangerously affected, and the local authorities in many cases are unable to meet the financial costs; and

(e) the combination of the effects of these conditions and the current recession constitutes a dire emergency situation (8,582,000 people are unemployed, total employment has declined by over 1,400,000 jobs in the last year, over 7,500 businesses are failing each month, and foreign purchases of United States land and companies are increasing) which will, if not corrected by increased production, necessitate the need for a Job Creation Bill similar to what was enacted in 1983.

SEC. 201. No part of any appropriation contained in this joint resolution shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

CONGRESSIONAL DESIGNATION OF EMERGENCY

SEC. 202. Although the President has only designated portions of the funds in this joint resolution pertaining to the incremental costs of Desert Shield/Desert Storm and certain Federal Emergency Management Agency costs as "emergency requirements", the Congress believes that the same or higher priority should be given to helping American people recover from natural disaters and other emergency situations as has been given to foreign aid "emergency" needs. The Congress therefore designates all funds in Titles I and II of this joint resolution as "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

RESTRICTIONS ON ASSISTANCE FOR KENYA

SEC. 203. (a) Restrictions.—None of the funds appropriated by this joint resolution or any other provision of law under the heading "Economic Support Fund" or "Foreign Military Financing Program" may be made available for Kenya unless the President determines, and so certifies to the Congress, that the Government of Kenya—

(1) has released all political detainees and has ended the prosecution of individuals for the peaceful expression of their political beliefs;

(2) has ceased the physical abuse or mistreatment of prisoners;

(3) has restored judicial independence;

(4) has taken significant steps toward respecting human rights and fundamental freedoms, including the freedom of thought, conscience, belief, expression, and the freedom to advocate the establishment of political parties and organizations; and

(5) has implemented the principle of freedom of movement, including the right of all citizens of Kenya to leave and return to their country.

(b) PROHIBITION.—

(1) LIMITATION ON NEW PROJECT ASSISTANCE.—During fiscal year 1992, funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of part I of the Foreign Assistance Act of 1961 that are provided for assistance to the Government of Kenya for new projects shall be made available only for new projects—

(A) that promote basic human needs, directly address poverty, enhance employment generation, and address environmental concerns; or

(B) to improve the performance of democratic institutions, or otherwise promote the objectives being sought in the certification required by subsection (a).

(2) CONGRESSIONAL NOTIFICATION.—During fiscal year 1992, none of the funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of the Foreign Assistance Act of 1961 shall be obligated unless the Committees on Appropriations are notified at least 15 days in advance in accordance with the regular notification procedures of those Committees.

(3) APPLICABILITY.—The provisions of paragraphs (1), and (2) of this subsection shall cease to apply 30 days after the certification described in subsection (a) is made to the Congress.

(c) DATE OF AVAILABILITY OF FUNDS.—None of the funds appropriated by this joint resolution or any other provision of law under the heading "Economic Support Fund" or "Foreign Military Financing Program" may be obligated or expended for Kenya until 30 days after the certification described in subsection (a) is made to the Congress.

SENSE OF THE SENATE REGARDING UNITED STATES RECOGNITION OF UKRAINIAN INDEPENDENCE.

SEC. 204. (a) FINDINGS.—The Senate makes the following findings:

(1) On August 24, 1991, the democratically elected Ukrainian parliament declared Ukrainian independence and the creation of an independent, democratic state—Ukraine.

(2) That declaration reflects the desire of the people of Ukraine for freedom and independence following long years of communist oppression, collectivization, and centralization.

(3) On December 1, 1991, a republic-wide referendum will be held in Ukraine to confirm the August 24, 1991, declaration of independence.

(4) Ukraine is pursuing a peaceful and democratic path to independence and has pledged to comply with the Helsinki Final Act and other documents of the Conference on Security and Cooperation in Europe.

(5) Ukraine and Russia signed an agreement on August 29, 1991, recognizing each other's rights to state independence and affirming each other's territorial integrity.

(6) Ukraine, a nation of 52,000,000 people, with its own distinct linguistic, cultural, and religious traditions, is determined to take its place among the family of free and democratic nations of the world.

(7) The Congress has traditionally supported the rights of people to peaceful and democratic self-determination.

(8) As recognized in Article VIII of the Helsinki Final Act of the Conference on Security and Cooperation in Europe, "all peoples always have the right, in full freedom, to determine, when and as they wish, their internal and external political status, without external interference, and to pursue as they wish their political, economic, social and cultural development".

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the President—

(1) should recognize Ukraine's independence and undertake steps toward the establishment of full diplomatic relations with Ukraine should the December 1, 1991, referendum confirm Ukrainian parliament's independence declaration; and

(2) should use United States assistance, trade, and other programs to support the Government of Ukraine and encourage the further development of democracy and a free market in Ukraine.

SEC. 205. The appropriation entitled "Fishing Vessel Obligation Guarantees" in Public Law 102–140 is amended by striking the sum "$10,000,000" and inserting in lieu thereof the sum "$24,000,000".

SEC. 206. From the funds made available for Land Acquisition of the United States Fish and Wildlife Service in the fiscal year 1992 Department of the Interior and Related Agencies Appropriations Act (Public Law 102–154), $965,000 is hereby appropriated by transfer to the Resource Management account of the United States Fish and Wildlife Service.

SEC. 207. Notwithstanding any other provisions of law, amounts received by the United States for restitution and future restoration (including replacement or acquisition of equivalent natural resources) in settlement of United States v. Exxon Corporation and Exxon Shipping Company (Case No. A90–015–1CR and 2CR), hereinafter the Plea Agreement, United States v. Exxon Corporation et al. (Civil No. A91–082–CIV) and State of Alaska v. Exxon Corporation et al. (Civil No. A91–083–CIV), hereinafter referred to together as the Agreement and Consent Decree, as approved by the United States District Court for the District of Alaska on October 8, 1991, in fiscal year 1992 and thereafter shall be deposited into the Natural Resource Damage Assessment and Restoration Fund established by Public Law 102–154. Such amounts, and the interest accruing thereon, shall be available to the Federal Trustees identified in the Agreement and Consent Decree for necessary expenses for assessment and restoration of areas affected by the discharge of oil from the T/V EXXON VALDEZ on March 23–24, 1989, for fiscal year 1992 and thereafter in accordance with the Plea Agreement and the Agreement and Consent Decree: Provided, That such amounts (and accrued interest) shall remain available until expended: Provided further, That such amounts may be transferred to any account, as authorized by section 311(f)(5) of the Federal Water Pollution Control Act (33 U.S.C. 1321(f)(5)), to carry out the provisions of the Plea Agreement and the Agreement and Consent Decree: Provided further, That herein and hereafter any amounts deposited into the Natural Resource Damage Assessment and Restoration Fund shall be invested by the Secretary of the Treasury in interest bearing obligations of the United States to the extent such amounts are not, in his judgment, required to meet current withdrawals: Provided further, That interest earned by such investments shall be available for obligation without further appropriation: Provided further, That, for fiscal year 1992, the Federal Trustees shall provide written notification of the proposed transfer of such amounts to the Appropriations Committees of the House of Representatives and the Senate thirty days prior to the actual transfer of such amounts: Provided further, That, for fiscal year 1993 and thereafter, the Federal Trustees shall submit in the President's Budget for each fiscal year the proposed use of such amounts.

WAIVER OF CERTAIN RECOVERY REQUIREMENTS

SEC. 208. Section 2713(d) of the Public Health Service Act (42 U.S.C. 300aaa–12(d)) is amended by striking "(a)(2)" and inserting "(a)".

SEC. 209. (a) Section 307E of the Legislative Branch Appropriations Act, 1989 (40 U.S.C. 216c), is amended to read as follows:

"SEC. 307E. (a) The Architect of the Capitol, subject to the direction of the Joint Committee on the Library, is authorized to—

"(1) construct a National Garden demonstrating the diversity of plans, including the rose, our national flower, to be located between Maryland and Independence Avenues, S.W., and extending from the Botanic Garden Conservatory to Third Streets, S.W., in the District of Columbia; and

"(2) solicit, receive, accept, and hold gifts, including money, plant material, and other property, on behalf of the Botanic Garden, and to dispose of, utilize, obligate, expend, disburse, and administer such gifts for the benefit of the Botanic Garden, including among other things, the carrying out of any programs, duties or, functions of the Botanic Garden, and for constructing, equipping, and maintaining the National Garden referred to in paragraph (1).

"(b)(1) Gifts or bequests of money under subsection (a)(2) shall, when received by the Architect, be deposited with the Treasurer of the United States, who shall credit these deposits as offsetting collections to an account entitled "Botanic Garden, Gifts and Donations". The gifts or bequests described under subsection (a)(2) shall be accepted only in the total amount provided in appropriations acts.

"(2) Receipts, obligations, and expenditures of funds under this section shall be included in annual estimates submitted by the Architect for the operation and maintainance of the Botanic Garden and such funds shall be expended by the Architect, without regard to section 3709 of the Revised Statutes, for the purposes of this section after approval in appropriations Acts. All such sums shall remain available until expended, without fiscal year limitation.

"(c)(1) In carrying out this section and his duties, the Architect of the Capitol may accept personal services, including educationally related work assignments for students in nonpay status, if the service is to be rendered without compensation.

"(2) No person shall be permitted to donate his or her personal services under this section unless such person has first agreed, in writing, to waive any and all claims against the United States arising out of or in connection with such services, other than a claim under the provisions of chapter 81 of title 5, United States Code.

"(3) No person donating personal services under this section shall be considered an employee of the United States for any purpose other than for purposes of chapter 81 of title 5, United States Code.

"(4) In no case shall the acceptance of personal services under this section result in the reduction of pay or displacement of any employee of the Botanic Garden.

"(d) Any gift accepted by the Architect of the Capitol under this section shall be considered a gift to the United States for purposes of income, estate, and gift tax laws of the United States.".

(b) Pursuant to section 307E of the Legislative Branch Appropriations Act, 1989, not more than $2,000,000 shall be accepted and not more than $2,000,000 of the amounts accepted shall be available for obligation by the Architect for preparation of working drawings, specifications, and cost estimates for renovation of the Conservatory of the Botanic Garden.

SEC. 210. (a) The caption for section 713 of title 18, United States Code, is amended as follows:

"§713. Use of likenesses of the great seal of the United States, the seals of the President and Vice President, and the seal of the United States Senate."

(b) Subsection (a) of Section 713 of title 18, United States Code, is amended by inserting "or the seal of the United States Senate," after "Vice President of the United States,".

(c) Subsection (c) of section 713 of title 18, United States Code, is—

(1) amended to read as follows:

"A violation of the provisions of this section may be enjoined at the suit of the Attorney General,

(1) in the case of the great seal of the United States and the seals of the President and Vice President, upon complaint by any authorized representative of any department or agency of the United States; and

(2) in the case of the seal of the United States Senate, upon complaint by the Secretary of the Senate."; and

(3) redesignated as subsection (d).

(d) Section 713 of title 18, United States Code, is amended by inserting after subsection (b) the following new subsection:

"(c) Whoever, except as directed by the United States Senate, or the Secretary of the Senate on its behalf, knowingly uses, manufactures, reproduces, sells or purchases for resale, either separately or appended to any article manufactured or sold, any likeness of the seal of the United States Senate, or any substantial part thereof, except for manufacture or sale of the article for the official use of the Government of the United States, shall be fined not more than $250 or imprisoned not more than six months, or both.".

(e) The table of sections for chapter 33 of title 18, United States Code, is amended by striking the item for section 713 and inserting the following:

"713. Use of likenesses of the great seal of the United States, the seals of the President and Vice President, and the seal of the United States Senate.".

SEC. 211. Section 311(i) of the Legislative Branch Appropriations Act, 1991 (2 U.S.C. 59e(i)) is amended by striking out "with respect to sessions of Congress beginning with the second session of the One Hundred Second Congress," and inserting in lieu thereof "beginning on May 1, 1992,".

SEC. 212. The Secretary of Defense shall continue the construction of a composite medical replacement facility located at Nellis Air Force Base, Nevada, as authorized in the Military Construction Authorization Act for Fiscal Years 1990 and 1991 (division B of Public Law 101–189) and the Military Construction Authorization Act for Fiscal Year 1991 (division B of Public Law 101–510) and as provided for in the Military Construction Appropriations Act, 1990 (Public Law 101–148) and the Military Construction Appropriations Act, 1991 (Public Law 101–519).

SEC. 213. Unobligated funds in the amount of $990,000 authorized and appropriated under Public Law 102–143 for bridge safety repairs in Vermont shall be made available as follows—$350,000 to the City of Barre for the Granite Street Bridge, $350,000 to the City of Montpelier for the Bailey Avenue Bridge, $90,000 to the Town of Brandon for the replacement of the Dean Bridge, and $90,000 for the Town of Williston and $110,000 for the Town of Essex for the North Williston Road Bridge—without regard to whether or not such expenses are incurred in accordance with sections 101, 106, 110, and 120 of title 23 of the United States Code.

SEC. 214. Section 4001(a)(14) of the Employment Retirement Income Security Act of 1974 (29 U.S.C. 1301(a)(14)) is amended—

(1) by striking "and" at the end of subparagraph (A);

(2) by adding "and" at the end of subparagraph (B); and

(3) by adding at the end the following new subparagraph:

"(C)(i) notwithstanding any other provision of this title, during any period in which an individual possesses, directly or indirectly, the power to direct or cause the direction of the management and policies of an affected air carrier of which he was an accountable owner, whether through the ownership of voting securities, by contract, or otherwise, the affected air carrier shall be considered to be under common control not only with those persons described in subparagraph (B), but also with all related persons; and

"(ii) for purposes of this subparagraph, the term—

"(I) 'affected air carrier' means an air carrier, as defined in section 101(3) of the Federal Aviation Act of 1958, that holds a certificate of public convenience and necessity under section 401 of such Act for route number 147, as of November 12, 1991;

"(II) 'related person' means any person which was under common control (as determined under subparagraph (B)) with an affected air carrier on October 10, 1991, or any successor to such related person;

"(III) 'accountable owner' means any individual who on October 10, 1991, owned directly or indirectly through the application of section 318 of the Interanl Revenue Code of 1986 more than 50 percent of the total voting power of the stock of an affected air carrier;

"(IV) 'successor' means any person that acquires, directly or indirectly through the application of section 318 of the Internal Revenue Code of 186, more than 50 percent of the total voting power of the stock of a related person, more than 50 percent of the total value of the securities (as defined in section 3(20) of this Act) of the related person, more than 50 percent of the total value of the assets of the related person, or any person into which such related person shall be merged or consolidated; and

"(V) 'individual' means a living human being;".

This joint resolution may be cited as the "Dire Emergency Supplemental Appropriations and Transfers for Relief From the Effects of Natural Disasters, for Other Urgent Needs, and for Incremental Cost of 'Operations Desert Shield-Desert Storm' Act of 1992".

And the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the joint resolution and agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONGERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes to the two Houses on the amendment of the Senate to the joint resolution (H.J. Res. 157) making dire emergency supplemental appropriations and transfers for relief from the effects of natural disasters, for other urgent needs, and for incremental costs of "Operation Desert Shield/Desert Storm" for the fiscal year ending September 30, 1992, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

Report language included by the House in the report accompanying H.R. 3543 (H. Rept 102–255) which is not changed by the report of the Senate (S. Rept 102–216), and Senate report language which is not changed by the conference are approved by the committee of conference. The statement of the managers while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

The conference agreement deletes technical corrections and enrolling error corrections to four fiscal year 1991 appropriations acts that were proposed by the House and stricken by the Senate. These corrections have already been made in an earlier supplemental appropriations act, Public Law 102–27.

SUPPLEMENTAL APPROPRIATIONS

DEPARTMENT OF DEFENSE—MILITARY PROCURMENT

MISSILE PROCUREMENT, ARMY

(INCLUDING TRANSFER OF FUNDS)

PATRIOT

The conferees have provided $145,000,000, including $67,000,000 derived by transfer from contract savings on the Maverick missile, for the procurement of additional Patriot missiles. The Army is directed to procure as many new missiles as possible with the funding available.

SHIPBUILDING AND CONVERSION, NAVY

The conferees agree to provide $25,000,000 in advance procurement funding to finance long lead items, including engines and generators, for the LSD cargo variant.

NATIONAL GUARD AND RESERVE EQUIPMENT

The conferees agree to provide $10,100,000 for the purchase of one MH–60G helicopter for the Air National Guard.'

TITLE I-EMERGENCY SUPPLEMENTAL APPROPRIATIONS

Chapter I

DEPARTMENT OF DEFENSE—MILITARY

OPERATION DESERT SHIELD/DESERT STORM

(TRANSFER OF ADDITIONAL FUNDS)

The conferees agree to provide $3,968,500,000 for additional incremental costs of the Department of Defense, the Department of Veterans Affairs, and the Department of Transportation, as follows:

MILITARY PERSONNEL

(TRANSFER OF FUNDS)

The conferees agree not to provide an additional amount for National Guard Personnel, Army, as proposed by the Senate instead of $40,200,000 as proposed by the House in H.R. 3543.

OPERATION AND MAINTENANCE

(TRANSFER OF FUNDS)

The conference agreement on additional transfers for Operation and Maintenance is as follows:

	Conference
Operation and Maintenance:	
Army	$227,300,000
Navy	270,000,000
Marine Corps	75,000,000
Army Reserve	23,200,000
Navy Reserve	28,300,000
Army National Guard	41,900,000
Total	665,700,000

PROCUREMENT

The supplemental request proposed transfers from the Defense Cooperation Account or the Persian Gulf Regional Defense Fund to the procurement accounts in the amount of $1,472,900,000. The conference agreement includes transfers totalling $2,028,600,000 as follows:

Appropriation Account/Line Item	Quantity	Amount
Aircraft Procurement, Army:		
AH–64 Helicopter	6	$70,200,000
CH–47D Modification	2	27,000,000
OH–58D Modifications	12	90,200,000
UH–60 Helicopter	6	38,400,000
UH–60 Helicopter (Replaces UH–1)	7	45,000,000
Total	—	270,800,000
Missile Procurement, Army:		
TOW/STINGER Restockage	—	21,800,000
Total	—	21,800,000
Procurement of Weapons and Tracked Combat Vehicles, Army:		
M1A1 Tanks	18	63,000,000
Total	—	63,000,000
Other Procurement, Army:		
HMMWV	155	4,800,000
HEMTT M977	42	6,600,000
HEMTT M978	161	27,300,000
5 Ton Truck FMTV	436	41,800,000
Total	—	80,500,000
Aircraft Procurement, Navy:		
SH–60B Helicopter	1	17,000,000
F/A–18 Aircraft	5	135,000,000
F/A–18 Aircraft (Replaces A–6)	4	108,000,000

Appropriation Account/Line Item	Quantity	Amount
AV–8B Aircraft	6	230,000,000
AH–1W Helicopter (Replaces AH–1J)	2	18,000,000
OV–10 Series Modifications		13,000,000
Total		521,000,000
Weapons Procurement, Navy:		
5–inch 54 Gun Mount	1	8,100,000
Total		8,100,000
Other Procurement, Navy:		
Civil Engineering Equipment		97,700,000
MK–103 Mine Clearing Sleds		2,100,000
Trucks		300,000
Medical Support Equipment		12,600,000
Total		112,700,000
Procurement, Marine Corps:		
Light Armored Vehicle	4	4,300,000
Total		4,300,000
Aircraft Procurement, Air Force:		
F–15E Aircraft	3	268,800,000
F–117A Aircraft		40,700,000
Total		309,500,000
Other Procurement, Air Force:		
Laser Guided Bomb Kits		460,000,000
Combined Effects Munitions		100,000,000
Total		560,000,000
Procurement, Defense Agencies:		
AC–130 Aircraft (Spec. Ops. Command)	1	71,400,000
UH–60L Helicopter (Spec. Ops. Command)	1	5,500,000
Total		76,900,000
Grand Total		2,028,600,000

AVAILABILITY OF FUNDS

The conference agreement retains Senate language in each of the procurement appropriations making the funds available for obligation until September 30, 1994.

AH–64 APACHE HELICOPTER

The conference agreement includes $70,200,000 for procurement of six AH–64 Apache helicopters, as proposed by the Senate. The conference agreement also retains Senate Section 101 which sets aside a provision of Public Law 101–189 to make this procurement possible.

AIR FORCE MUNITIONS

The Senate bill included a provision permitting the use of $100,000,000 of the $460,000,000 included for procurement of laser guided bomb kits for the procurement instead of combined effects munitions. The conference agreement deletes this provision and includes $460,000,000 for procurement of laser guided bomb kits and $100,000,000 for the procurement of combined effects munitions.

AC–130 GUNSHIP

The conferees agree with the House language in H.R. 3543 that an AC–130 "U" model shall be procured with funding provided under Procurement, Defense Agencies.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The supplemental request proposed transfers from the Defense Cooperation Acccount or the Persian Gulf Regional Defense Fund to the Research, Development, Test and Evaluation accounts in the amount of $108,500,000. The conference agreement includes transfers totalling $106,300,000 as follows:

	Conference
Research, Development, Test and Evaluation, Army:	
Chem-Bio Defense Equipment—Adv. Development	$7,500,000
Night Vision System—Eng. Development	8,000,000
Chemical/Smoke Equipment Defeating Technologies	1,300,000
Special Army Program	1,600,000
Combat Vehicle and Automotive Technology	1,100,000
Military Engineering Technology	1,100,000
TRACTOR HOLE	2,100,000
Materials and Structures Adv. Technology	0
Joint Surveillance and Target Attack Radar System	0
Logistics and Engineer Equipment—Eng. Development	2,100,000
Army Test Ranges	1,400,000
Exploitation of Foreign Items	6,200,000
Base Operations	0
Landmine War/Barrier Adv. Technology	1,700,000
Various Programs Under $1 million	13,700,00
Total, RDT&E, Army	47,800,000
Research, Development, Test and Evaluation, Navy:	
Tactical Command System	1,300,000
Mine Countermeasures	2,200,000
Various Programs Under $1 million	2,600,000
Total, RDT&E, Navy	6,100,000
Research, Development, Test and Evaluation, Air Force:	
Airborne Warning and Control System (AWACS)	7,300,000
C(3) Advanced Development	0
EW Development	1,800,000
Joint Surveillance System	3,300,000
Constant Source	3,800,000
Armament Ordnance Development	700,000
Surface Defense Suppression	3,400,000
Various Programs Under $1 million	4,000,000
Total, RDT&E, Air Force	24,300,000
Research, Development, Test and Evaluation, Defense Agencies:	
Flying Carpet	10,300,000
DART	5,600,000
Other DARPA	6,300,000
OSD	2,800,000
DCA	300,000
SOCOM	2,700,000
DSPO	100,000
Total, RDT&E, Defense Agencies	28,100,000
Total, Research, Development, Test and Evaluation:	$106,300,000

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

MEDICAL RESEARCH

The conferees agree that within the funds appropriated in the Department of Defense Appropriations Act, 1992, for medical technology in Research, Development, Test and Evaluation, Army, $3,000,000 shall be made available for the PYROCAP B–136 project as described in the conference report of the National Defense

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

OVER THE HORIZON TARGETING

The conferees direct that of the $33,977,000 appropriated in fiscal year 1992 for the Tactical Command System (program element 0604231N), $2,974,000 is only for Over the Horizon Targeting which had been requested by the Navy in program element 0604707N. DD Form 1414 for fiscal year 1992 shall show the Over the Horizon Targeting funds as an item of special interest, a decrease to which requires prior Congressional approval.

155MM LIGHTWEIGHT HOWITZER

The report accompanying the National Defense Authorization Act for Fiscal Years 1992 and 1993 recommended the provision of $2,500,000 for the Marine Corps and Army Lightweight 155mm Howitzer program. The conferees on H.J. Res. 157 support that endorsement. The conferees direct that up to $2,500,000 of the funds appropriated in the Department of Defense Appropriations Act, 1992, for Research, Development, Test and Evaluation, Navy, shall be used only for necessary planning and preparation of the fiscal year 1993 Lightweight 155mm Howitzer competitive demonstration program.

DEFENSE BUSINESS OPERATIONS FUND

(TRANSFER OF FUNDS)

The conference agreement on additional transfers for the Defense Business Operations Fund is as follows:

	Conference
Defense Business Operations Fund:	
Army Supply Operations	$410,000,000
Navy Supply Operations	450,000,000
Air Force Supply Operations	280,000,000
Total	1,140,000,000

DEPARTMENT OF TRANSPORTATION

(TRANSFER OF FUNDS)

COAST GUARD

OPERATING EXPENSES

The conferees agree to provide $17,900,000 for an additional amount for operating expenses of the Coast Guard. The conferees further agree that these amounts shall be available until expended.

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINSTRATION

MEDICAL CARE

(TRANSFER OF FUNDS)

Transfers $10,000,000 from funds available for the costs of Operation Desert Shield/Desert Storm to medical care, instead of transferring $10,000,000 from the same source and earmarking the funds for marriage and family counseling services for veterans of the Persian Gulf War and their spouses and families, contingent upon authorizing legislation during this Congress, as proposed by the Senate. The conferees agree that the $10,000,000 should be available for a subsequently authorized program for marriage and family counseling services for veterans of the Persian Gulf War and their spouses and famillies (or for similar, currently authorized services if specific legislation is not enacted) and for other medical services for Persian Gulf veterans.

DEPARTMENT OF DEFENSE—MILITARY

(TRANSFER OF EXISTING FUNDS)

The conferees agree to provide authority to realign $6,282,400,000 of funds previously transferred pursuant to the "Operation Desert Shield/Desert Storm Supplemental Appropriations Act, 1991" (Public Law 102–28).

GENERAL PROVISIONS—CHAPTER I

AH–64 APACHE HELICOPTER

The conferees agree to the Senate general provision (Sec. 101) which enables obligation of funds for the AH–64 Apache helicopter.

OTH–B RADAR

The conferees agree to the Senate provisions (Sec. 102) regarding the Over-the-Horizon Backscatter Radar.

KURDISH PROTECTION FORCE

(TRANSFER OF FUNDS)

The conferees agree to provide $100,000,000 by transfer for expenses resulting from U.S. participation in the Kurdish Protection Force (KPF) (Sec. 103). The conferees direct that no later than March 1, 1992, the Secretary of Defense shall provide the Committees on Appropriations of the House and Senate with a report detailing (1) the full costs of the KPF operation, to include the amount paid by other allied participants; (2) the rules of engagement under which the KPF operates, and (3) the assistance being provided to the KPF by the Government of Turkey.

RESTRICTIONS AND ARMS SALES TO SAUDI ARABIA AND KUWAIT

The conferees have included language proposed by the Senate (Sec. 104), which takes effect 120 days after the date of enactment of this joint resolution, restricting the use of funds to conduct, support, or administer any sale of defense articles or defense services to Saudi Arabia or Kuwait until they have fully paid their mutually agreed commitments to the United States to support Operation Desert Shield/Desert Storm. The House bill contained no similar provision.

The conferees have included further language requiring the notification of United States military equipment transfers to other NATO countries under the provisions of the Conventional Forces in Europe Treaty.

PARKING TICKETS OWED BY DIPLOMATS OF SAUDI ARABIA AND KUWAIT

It has been brought to the attention of the conferees that diplomats of many countries have failed to pay parking fees and fines in both the District of Columbia and the City of New York. Special action was taken to notify foreign ambassadors of the obligation of diplomats to pay these fines in a letter from the Office of Foreign Missions of the Department of State in June, 1991.

Despite this letter, New York City records indicate that for 1989 and 1990 Saudi Arabian diplomats located at the Saudi Consulate and the Saudi Mission in New York City have 1,247 outstanding tickets valued at $41,151. Additionally, District of Columbia records indicate that 2,752 tickets owed by Saudi Arabian diplomats and valued at $121,250 are outstanding from the last three years

Diplomats of Kuwait, according to District of Columbia records, have 56 tickets valued at $2,465 still outstanding despite recent actions clearing up other overdue tickets.

The conferees are disturbed by this failure of foreign diplomats to live within simple domestic laws. The conferees warn that continued failure to pay parking fines by foreign diplomats will result in legislative consideration of measures both to restrict benefits granted to such countries and to restrict diplomatic privileges enjoyed by such countries.

MIDDLE EAST HUMANITARIAN ASSISTANCE

(TRANSFER OF FUNDS)

The conferees have modified language proposed by the Senate (Sec. 105) to give the Secretary of Defense discretionary authority to provide $15,000,000 from the "Defense Cooperation Account for the Kurdish Ready Reaction Force", and $15,000,000 from the "Defense Cooperation Account" for the prepositioning of humanitarian relief supplies in the Middle East. The conferees have included this provision in order to address needs that may occur related to Iraqi Kurds. The House had no similar language.

The conferees also agree that the Department of Defense is to thoroughly coordinate this program with the Office of Disaster Assistance within the Agency for International Development. Fiscal Year 1991 funds remain available for Middle East humanitarian support through the Agency for International Development, and the conferees want to make sure that the AID program and the DOD program are proceeding with proper coordination. The Committees on Appropriations are to be notified in advance on the use of the funds under this authority.

CLASSIFIED PROGRAM

The conferees agree to the Senate amendment (Sec. 106) modifying section 110 of the Classified Annex incorporated by reference into the "Department of Defense Appropriations Act, 1992". Additional guidance by the conferees is contained in a classified letter accompanying this statement of the managers.

FOUR-TON DOLLY JACKS

The conferees agree to include language (Sec. 107) which prohibits the use of fiscal year 1992 appropriated funds to procure four-ton dolly jacks outside the United States unless the Secretary of Defense determines such procurement is necessary in the interest of national security.

In February 1991, the Department awarded a contract to an overseas firm to procure 814 four-ton dolly jacks. Subsequently, this firm has failed to successfully complete first article testing on two occasions.

Therefore, the conferees direct the Department of Defense to terminate contract DAAA09–91–C–0353 if the contractor fails to complete first article testing.

SOVIET NUCLEAR WEAPONS CONTROL AND DESTRUCTION

The conferees agree to a general provision (Sec. 108) which would allow the Secretary of Defense to transfer up to $400,000,000 from fiscal year 1992 operation and maintenance funds and from cash balances in the working capital funds to other Department of Defense appropriation accounts to cover the costs of the United States Government in assisting the Soviet Union and/or emerging political structures on the territory of the former Soviet Union in dismantling nuclear weapons.

The conferees are adamant that any funds used for this purpose cannot come at the expense of the readiness of U.S. forces. In addition, the conferees agree that none of the funds for transfer may be derived from programs which were increased in the Department of Defense Appropriations Act for fiscal year 1992 above the amount requested. Further, no funds shall be transferred from environmental clean-up and natural and cultural resource management activities.

No funds may be transferred to provide U.S. assistance in destroying nuclear weapons unless the President first certifies to the Congress that the potential recipient is committed to making a substantial investment of its resources for dismantling or destroying such weapons; foregoing any military modernization that is designed to replace destroyed weapons of mass destruction; foregoing any use of fissionable and other components of destroyed nuclear weapons in new nuclear weapons; and taking adequate measures to prevent any transfer of nuclear weapons or their components to any third party.

The conferees further stipulate that the Secretary of Defense shall submit to the Committee on Appropriations for prior approval under established reprogramming procedures any proposed transfer authorized by this section.

EMERGENCY TRANSPORTATION

The conferees agree to a general provision (Sec. 109) authorizing the Secretary of Defense at the direction of the President to transfer funds from Department of Defense fiscal year 1992 funds and working capital accounts to the appropriate Department of Defense appropriations to allow the Department of Defense to transport by military or commercial means, food, medical supplies, and other types of humanitarian assistance to the Soviet Union, or its Republics, or localities therein, in order to address emergency conditions which may arise. The provision of humanitarian assistance shall be carried out under the terms and conditions established as authorized by section 301 of H.R. 3807 as passed the Senate on November 25, 1991.

The conferees are adamant that any funds used for the purposes provided herein cannot come at the expense of the readiness of the United States Armed Forces. Further, the conferees stipulate that none of the funds for transfer may be derived from programs which were increased by the Department of Defense Appropriations Act for fiscal year 1992 above the amount requested. Further, no funds shall be transferred from environmental clean-up and natural and cultural resource management activities.

Finally, the conferees agree that the Secretary of Defense shall submit to the Committees on Appropriations for prior approval under established reprogramming procedures any proposed transfer authorized by this section.

CHAPTER II

DEPARTMENT OF VETERANS AFFAIRS

ADMINISTRATIVE PROVISION

Inserts language reflecting a recodification in a general provision in the 1992 VA, HUD, and Independent Agencies Appropriations Act, as proposed by the Senate. An identical provision is contained in H.R. 3543.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ADMINISTRATIVE PROVISIONS

Includes language adjusting the amounts appropriated for three salaries and expenses appropriations in the Department of Housing and Urban Development as proposed by the Senate, amended to permit four U.S. territories to participate in the HOME program. Both of these provisions are in H.R. 3543.

Concern has been expressed regarding potential 1992 staffing restrictions in HUD. The Department has recently indicted that it does not anticipate the need for any furloughs. In the future, HUD needs to more accurately estimate personal service costs and to better monitor employment levels in housing to ensure they do not increase beyond levels that can be funded.

UMI

INDEPENDENT AGENCIES

COURT OF VETERANS APPEALS

SALARIES AND EXPENSES

Inserts language as proposed by the Senate authorizing that not to exceed $950,000 of 1992 Court of Veterans Appeals' funds be available through a reimbursable payment to the Legal Services Corporation for grants or contracts to organizations that provide legal assistance to veterans in *pro se* cases before the court. The conferees wish to make clear that these funds will provide for a *demonstration* program in fiscal years 1992 and 1993. Further funding of these types of services will depend upon an independent evaluation of the demonstration program and the availability of funds.

ENVIRONMENTAL PROTECTION AGENCY

ADMINISTRATIVE PROVISION

Inserts language proposed by the Senate providing that up to one half of one percent of funds appropriated may be available as direct grants to Indian tribes for the construction of wastewater treatment facilities.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF FUND

Appropriates $943,000,000 for the disaster relief fund, as proposed by the Senate in H.J. Res. 157 and the House in H.R. 3543. Of this amount, $800,000,000 has been designated as an emergency and therefore is not subject to the spending caps contained in the Budget Enforcement Act of 1990. The conferees have agreed that the remaining $143,000,000 will be available if the President submits a formal budget request and designates these funds as emergency in nature. This supplemental appropriation is urgently needed for disaster assistance to 38 states and territories. The Committees on Appropriations have been assured by both FEMA and OMB that this amount, when combined with unobligated balances, recoveries from prior years and the regular 1992 appropriation, will be sufficient to meet FEMA's costs for all outstanding prior year disasters, and a normal level of disaster activity for the remainder of the fiscal year.

In addition, language has been included that specifies that in future years, commencing with fiscal year 1993, only amounts in excess of either the historical average for disaster relief of $320,000,000, or the amount submitted in the President's initial budget request, whichever is lower, will be considered "emergency" in nature under the Balanced Budget and Emergency Deficit Control Act of 1985. The conference agreement provides an automatic designation as an emergency on the part of Congress and the President for any amounts that are signed into law in the future that exceed the specified threshold. The conferees and the Administration agree that this language assures that the Committees on Appropriations will not be scored in future years for providing less than the historical average of $320,000,000 for the disaster relief fund.

Language is also included permitting FEMA to transfer up to $1,250,000 to salaries and expenses appropriation, (which would also be designated as an emergency), from the disaster relief fund as proposed by the Senate. These funds will support an additional 25 FTE to meet disaster assistance workload requirements.

The conferees also note that many projects resulting from the Loma Prieta earthquake have not yet been funded. Of the funds allocated for Loma Prieta disaster assistance activities, the conferees urge FEMA to expedit projects, such as Loma Prieta damaged hospitals, where critical and compelling community needs such as health care are at stake.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

RESEARCH AND DEVELOPMENT

Inserts language as proposed by the Senate repealing the development cost "cap" on the Comet Rendezvous Asteroid Flyby/Cassini mission as contained in the fiscal year 1990 VA, HUD, and Independent Agencies Appropriations Act. In the recently enacted 1992 NASA appropriation, the conferees agreed to reduce the CRAF/Cassini mission by $117,300,000. This reduction will cause a delay of approximately one year in the mission. That will result in an increase in the $1,600,000,000 existing development "cap." This proviso would repeal that dollar cap which was included in the 1990 appropriation bill. The conferees direct that a new CRAF/Cassini development cost "cap" be transmitted with the 1992 NASA operating plan. The conferees also want to restate the further direction contained in the conference report accompanying the 1992 bill requiring that NASA submit in connection with the fiscal year 1992 operating plan, proposed "caps" for all development (and where applicable) operations activities covering all programs funded within the agency. The conferees believe that this action is essential in view of the anticipated extremely limited budget resources available in the coming fiscal year.

NATIONAL COMMISSION ON SEVERELY DISTRESSED PUBLIC HOUSING

SALARIES AND EXPENSES

The conferees have included $250,000 for the National Commission on Severely Distressed Public Housing, to be derived by transfer from the salaries and expenses account of the Department of Housing and Urban Development. These funds are necessary to permit the Commission to complete its work. The conferees expect the Commission to deliver its report to the Congress at the earliest possible date, but in no event later than June 1, 1992, to allow for consideration of its contents as part of the fiscal year 1993 appropriations bill.

CHAPTER III

DEPARTMENT OF AGRICULTURE

COMMODITY CREDIT CORPORATION

The conference agreement includes $1,750,000,000 for disaster payments to farmers and ranchers to compensate them for losses suffered from natural disasters during crop years 1990, 1991, and 1992. The agreement provides the same smount proposed by the House in H.R. 3543 and the same amount proposed by the Senate.

The conference agreement earmarks $995,000,000 for disaster payments authorized by Public Law 101–624 for crop year 1990 and for crop year 1991 under the same terms and conditions. Payments are available for losses which occurred in either 1990 or 1991, at the producer's option.

The conference agreement also provides $755,000,000 for crop years 1990, 1991, and 1992 under the same terms and conditions as authorized in P.L. 101–624 which shall be available only upon receipt of an official budget request or requests.

The conference agreement amends Senate language which provided that for purposes of this Act the term "1991 crop" shall include any program crop planted in 1991 for harvest in 1992. The conferees were unable to finance losses of crops planted in 1991 for harvest in 1992 as a dire emergency at this time. But, the conferees have set aside $100,000,000 of the $755,000,000 to meet such problems, subject to receipt of an official budget request or requests.

The conferees will expect that all payment limitations now in law be implemented carefully and all applications for assistance be considered on a case-by-case basis.

CROP INSURANCE WAIVER FOR EMERGENCY LOANS

The conference agreement amends Senate language that waives the requirement to have crop insurance in 1990 and 1991 to obtain emergency loans. H.R. 3543 contained no similar provision. The agreement waives the requirement for 1991 only, since the 1990 requirement was waived previously.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

The conference agreement earmarks $530,000 of existing funds for a grant to the State of Maine Department of Agriculture for potato disease efforts as proposed by the Senate. H.R. 3543 contained no similar provision.

SOIL CONSERVATION SERVICE

EMERGENCY WATERSHED PROTECTION

The conference agreement deletes the $50,000,000 for the Emergency Watershed Protection Program proposed by the House in H.R. 3543 and the $28,000,000 proposed by the Senate.

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

EMERGENCY CONSERVATION PROGRAM

The conference agreement deletes the $5,000,000 for the Emergency Conservation Program proposed by the House in H.R. 3543. The Senate resolution contained no similar provision.

FOOD AND NUTRITION SERVICE

SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The conference agreement deletes the $100,000,000 for the Special Supplemental Food Program for Women, Infants, and Children (WIC) proposed by both the House and the Senate. The fiscal year 1992 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act provided $2,600,000,000 for the WIC program, an increase of $250,000,000 or 10.6 percent over the fiscal year 1991 level. Since 1980 Congress has increased WIC funding by 253 percent, resulting in average monthly participation increasing from 1.9 million persons in 1980 to 4.9 million persons in 1991.

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The conference agreement deletes funding that was proposed by the Senate in H.J. Res. 157 for Flood Control, Mississippi River and Tributaries, Operation and Maintenance, General and Flood Control and Coastal Emergencies.

DEPARTMENT OF THE INTERIOR

BUREAU OF RECLAMATION

CONSTRUCTION PROGRAM

The conference agreement deletes language proposed by the Senate regarding the Buffalo Bill Dam Modification project in Wyoming.

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

H.J. Res. 157 that would have appropriated $5,000,000 to the State Department, notwithstanding Sec. 15 of the State Department Basic Authories Act, for rewards for information leading to the arrest, return to trail, and conviction of international terrorists. Neither the House version of H.J. Res. 157 nor the House Bill (H.R. 3453) contained such funds.

The Senate amendment has been deleted because this supplemental appropriation of $5,000,000 would not meet the definition of an emergency, and would result in additional spending and thereby cause a sequester of funds in fiscal year 1992.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH AND FACILITIES

The Conference agreement does not include the Senate amendment to H.J. Res. 157 which would have appropriated $300,000 for the Interjurisdictional Fisheries Program for the restoration of shellfishing beds in Rhode Island damaged by Hurricane Bob. Neither the House version of H.J. Res. 157 nor the House Bill (H.R. 3543) contained funds for this purpose.

In addition, the conference agreement does not include the provision in the House Bill (H.R. 3543) which would have appropriated $1,300,000 to restore lost computer and related telecommunications equipment destroyed by a fire at NOAA's Office of Administration in Suitland, Maryland. Neither the House version of H.J. Res. 157 nor the Senate amendment to H.J. Res. 157 included funds for this purpose.

The conference agreement does not include either the House or the Senate supplemental items for NOAA. The conferees now believe there are sufficient funds currently available to NOAA in fiscal year 1992, both from carryover balances and new appropriations, to handle these requirements.

U.S. INFORMATION AGENCY

SALARIES AND EXPENSES

(TRANSFER OF FUNDS)

The conference agreement does not include the Senate language in H.J. Res. 157 that would have provided for a transfer of $5,600,000 to USIA to allow for the continued participation of the United States in the 1992 Columbus Quincentennial Expositions in Seville, Spain, and Genoa, Italy. The transfer comes from funds provided to the Board for International Broadcasting for the Israel Relay Station project. Neither the House version of H.J. Res 157 nor the House Bill (H.R. 3543) contained such a transfer of funds.

The Senate language has been deleted because an identical provision has been included in the conference agreement on the Department of Defense Appropriations Act, 1992, which the House and Senate have already approved.

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES

Three provisions with respect to Interior and related agencies appropriations which were adopted by the House in H.R. 3543, Making Dire Emergency Supplemental Appropriations and Transfers for Relief from the Effects of Natural Disasters, for Other Urgent Needs, and for Incremental Costs of "Operation Desert Shield/Desert Storm" for the Fiscal Year Ending September 30, 1992, and for Other Purposes, were not included by the Senate in H.J. Res. 157. The conference agreements with respect to those provisions are as follows:

First, no funding is provided for emergency reclamation projects under the abandoned mine reclamation fund in the Office of Surface Mining Reclamation and Enforcement. The House had provided $10,300,000 in Title I, Chapter V of H.R. 3543 for emergency abandoned mine reclamation projects. The Congress has recently addressed this issue in Public Law 102–154.

Second, no funding is provided for U.S. Geological Survey emergency assistance to local and State governments to assess geologic and hydrologic effects and develop preparedness and response plans for disasters. The House had provided $5,000,000 in Title I, Chapter V of H.R. 3543 for this program.

Third, no funding is provided for the Forest Service in the Department of Agriculture to address critical health and safety projects included in its maintenance, repair and restoration backlog. The House had provided $25,000,000 in Title I, Chapter V of H.R. 3543 to address the maintenance backlog.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

CENTERS FOR DISEASE CONTROL

The conference agreement deletes appropriation of $90,000,000 for the childhood immunization program proposed by the Senate. The House version of H.J. Res. 157 contained no funds for this purpose. H.R. 3543 as passed by the House included $90,000,000 for the program. The 1992 Labor-HHS-ED Appropriations Bill includes $297,845,000 for this purpose, an increase of $80,314,000 over fiscal year 1991. The conferees have deleted supplemental funding because of budgetary constraints.

ADMINISTRATION FOR CHILDREN AND FAMILIES

HUMAN DEVELOPMENT SERVICES

The conference agreement deletes appropriation of $1,200,000,000 for the Head Start program proposed by the Senate. The House version of H.J. Res. 157 contained no funds for this purpose. H.R. 3543 as passed by the House included $1,200,000,000 for the program. The 1992 Labor-HHS-ED Appropriations Bill includes $2,201,800,000 for Head Start, an increase of $250,000,000 over fiscal year 1991. The conferees have deleted supplemental funding because of budgetary constraints.

It was recently brought to the conferees' attention that the White House Conference on Aging will run out of funds by December 31, 1991. While sufficient funds were provided in the fiscal year 1992 Labor, Health and Human Services and Education Appropriations Act for operations of the Conference, these funds were contingent upon enactment of authorizing legislation. This legislation will probably not be enacted until sometime next year. Therefore, the conferees would entertain a reprogramming request to continue current staff and mandatory costs for operation of the White House Conference until authorizing legislation is enacted. The conferees also expect, within thirty days of enactment of this legislation, to receive a full report on carryover balances and needs for the Conference for fiscal year 1992.

DEPARTMENT OF EDUCATION

FOREIGN LANGUAGE ASSISTANCE

It has been brought to the conferees' attention that final regulations regarding the use of fiscal year 1991 foreign language assistance funds have not yet been issued. The conferees feel that the Department has had more than sufficient time to issue these regulations and therefore direct the Department to issue final regulations within fifteen days of enactment of this legislation.

LEGISLATIVE BRANCH

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

The conference agreement provides no funds for "Salaries and expenses, House of Representatives" instead of $50,000 as provided in H.R. 3543.

TITLE II—GENERAL PROVISIONS

The conference agreement inserts a Finding of Dire Emergency Conditions. Such a finding was included in H.R. 3543. No findings was included in H.J. Res. 157, as amended by the Senate. The conferees agree that dire emergency conditions exist and have repeated this finding in the resolution.

The conference agreement includes a limitation on the obligations of all funds in the joint resolution beyond fiscal year 1992 except as expressly provided as proposed by the Senate. The House parallel bill H.R. 3543 contained a similar provision.

CONGRESSIONAL DESIGNATION OF EMERGENCY REQUIREMENTS

The conference agreement includes a Congressional "emergency requirement" designation at section 202 that designates all funds in Titles I and II of the joint resolution as "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. Under section 251(b)(2)(D) of that Act, amounts appropriated for discretionary accounts that are designated as emergency requirements by the President and by Congress shall constitute automatic adjustments to the appropriate Budget Enforcement Act discretionary spending limits.

The conference agreement deletes a provision proposed by the Senate that would have made available only those funds the President designated, prior to enactment, as emergency requirements. There was no similar provision included in H.R. 3543.

The conference agreement deletes language proposed by the Senate in sections 213 and 214 dealing with abortion.

RESTRICTIONS ON FOREIGN ASSISTANCE FOR KENYA

Section 203. The conferees have modified Senate language on prohibiting foreign assistance to Kenya. The new language clarifies that the Presidential determination for Kenya must indicate that the Government of Kenya has taken significant steps toward allowing for the freedom to advocate the establishment of political parties and organizations. The House bill included no language on Kenya.

RECOGNITION OF UKRAINIAN INDEPENDENCE

Section 204. The conferees have agreed to include Sense of the Senate language concerning the recognition of the Ukraine. The Senate had proposed the language as a Sense of Congress. The House had no similar language.

MONITORING OF FOREIGN GRAIN

The conference agreement deletes Senate language in section 218 and 219 that required monitoring of domestic uses made of certain foreign grain after importation; including certification and quarterly reporting, customs and civil penalties, and suspension or debarment for use of foreign grain in certain agricultural trade programs. H.R. 3543 contained no similar provision.

FIRE BLIGHT

The conference agreement deletes Senate language in section 225 which amended the Food, Agriculture, Conservation, and Trade Act of 1990 to provide that fire blight is included in the definition "damaging weather" for purposes of determining eligibility for disaster payments. Fire blight is a highly infectious bacterial disease of apples, pears, and other orchard crops. H.R. 3543 contained no similar provisions.

The conferees agree that fire blight may be a "related condition" for purposes of section 2251 of the Food, Agriculture, Conservation, and Trade Act of 1990 and losses should be eligible for disaster payments where the condition has been accelerated or exacerbated naturally as a result of damaging weather.

ORCHARD CROPS

The conference agreement deletes Senate language in section 226 which amended the Food, Agriculture, Conservation, and Trade Act of 1990 to expand disaster payments to provide for the rehabilitation or restoration of trees damaged rather than just the replanting of trees. The Senate amendment also increased the payment limitation for the losses from $25,000 to $75,000 per person. H.R. 3543 contained no similar provision.

EXTENSION OF CERTAIN FERC-ISSUED LICENSES

The conference agreement deletes language proposed by the Senate in Section 217 regarding extensions of certain FERC-issued licenses.

Section 205. The conference agreement changes, from $10,000,000 to $24,000,000, the limitation for the loan guarantee program level under "Fishing Vessel Obligations Guarantees" in P.L. 102–140, the Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriation Act, 1992. This change in the limitation for the loan program level is consistent with the current subsidy rate estimated by the Office of Management and Budget for that program.

The Senate amendment in Sec. 206 of H.J. Res. 157 would have eliminated the limitation of $10,000,000 on such loan guarantees contained in P.L. 102–140. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained any similar provision.

The conference agreement does not include the Senate provision in Sec. 211 of H.J. Res. 157 that would have added language amending Section 511(e) of the Controlled Substances Act to authorize the Attorney General to transfer forfeited real property to States for use as public areas for recreational or historic purposes. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained this language.

The Senate language was deleted because this policy issue should be addressed by the appropriate legislative committee of the Congress. In addition, this provision was deleted because it would have violated the Pay-As-You-Go (PAYGO) provisions of the Budget Enforcement Act.

The conference agreement does not include the Senate provision in Sec. 212 of H.J. Res. 157 that would have added language expressing the Sense of the Senate concerning the investigation, arrest and prosecution of individuals involved in the destruction of Pan Am Flight 103. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained this language.

The conferees agree that: (1) the President of the United States should pursue by any and all legal means the apprehension for trial of the individuals indicted for the destruction of Pan Am Flight 103; (2) the President should offer awards for information leading to the arrest and return of these individuals; and (3) the investigation of the bombing of Pan Am Flight 103 must continue until all individuals involved in the commission of this crime are brought to justice.

The conference agreement does not include the Senate provision in Sec. 222 of H.J. Res. 157 that would have added language amending subchapter IV of chapter 35, United States Code to allow the Secretary of State to waive, for up to three years, the current five-year employment limitation placed on individuals serving with the Intergovernmental Panel on Climate Change. Neither the House version of H.J. Res. 157 nor the House bill (H.R. 3543) contained this language.

The Senate provision was deleted since this is a policy matter which should be addressed by the appropriate legislative committee of the Congress.

U.S. FISH AND WILDLIFE SERVICE

Section 206. The conference agreement transfers $965,000 from U.S. Fish and Wildlife Service land acquisition to U.S. Fish and Wildlife Service resource management as proposed by the Senate. The $965,000 is derived from the $3,800,000 provided for water rights acquisition for Stillwater National Wildlife Refuge in Nevada and is to be used for various activities under the Truckee-Carson-Pyramid Lake Settlement Act such as NEPA compliance, endangered species protection, fishery technical assistance and ecological contaminant studies. This provision was included as section 205 in the Senate-passed bill. The House has no similar provision.

EXXON VALDEZ

Section 207. The conference agreement amends Senate proposed section 224 to deposit funds from the Exxon settlement with the United States and Alaska into the Natural Resource Damage Assessment and Restoration Fund in the Department of the Interior rather than in the Oil Spill Liability Trust Fund as proposed by the Senate. The House had no similar provision. The agreement also provides for the earning of interest on funds deposited and Congressional review of the use of the funds.

FIREFIGHTING

The conference agreement deletes section 215 proposed by the Senate which adds the words "emergency presuppression" to the Emergency Department of the Interior Firefighting Fund established in Public Law 102–154. The additional language is unnecessary because funding for emergency presuppression activities historically has been part of wildfire suppression activities already included in the account. It was the intent of the conferees on Public Law 102–124 that emergency presuppression continue to be charged to the emergency account along with wildfire suppression, as defined in the Department's fiscal year 1992 budget justification. The conferees on this bill also expect this practice to continue.

The conference agreement also deletes section 216 proposed by the Senate which adds the words "emergency presuppression" to the Emergency Forest Service Firefighting Fund established in Public Law 102–154. The additional language is unnecessary because funding for emergency presuppression activities historically has been part of the "Fighting Forest Fires" activity which was the basis for the new emergency fund. It was the intent of the conferees on Public Law 102–154 that emergency presuppression continue to be charged to the emergency account along with wildfire suppression, as described in the agency's fiscal year 1992 budget justification. The conferees on this bill also expect this practice to continue.

NATIONAL PARK SERVICE

The conference agreement deletes section 220 proposed by the Senate which directs the National Park Service to consult with the Bureau of Indian Affairs and the Crow Tribe of Montana to explore joint opportunities with the private sector for the purpose of implementing the General Management Plan for the Custer Battlefield National Monument. The House had no similar provision. The conferees agree that the National Park Service is to work with the Bureau of Indian Affairs and the Crow Tribe of Montana and the private sector to implement the Custer Battlefield National Monument general management plan.

Also, in response to language included in Senate Report 102–216, the conferees agree that the National Park Service may perform maintenance at the Bureau of Indian Affairs school in Phoenix Arizona to the extent authorized by law.

HEAL LOAN BORROWING

The conference agreement deletes language proposed by the Senate which would have permitted loan authority for Health Education Assistance Loans (HEAL) to be used for new, as well as continuing, borrowers. The conferees believe that the HEAL loan limitation for fiscal year 1992 contained in H.R. 3839, the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1992, provides sufficient legal authority for the Department of Health and Human Services to make HEAL loans to new borrowers. This provision was contained in section 209 of H.J. Res. 157. The House bill did not include a similar provision.

Section 208. Mental Health Facilities Cost Recovery: The conference agreement inserts language proposed by the Senate which amends the Public Health Service Act to permit the Secretary of the Department of Health and Human Services to waive recovery rights to Federal funds used for construction of community mental health facilities if the facility is sold or transferred. The Secretary already has authority to waive recovery if the facility is no longer used for its original purpose, but is retained by the original owners. The conferees agree that this authority will only be used when the proceeds of any sale or transfer are used for purposes which are compatible with the original grant award.

Section 209. The conference agreement provides that, for fiscal year 1992, not more than $2,000,000 of donated funds may be accepted or obligated for the preparation of working drawings, specifications, and cost estimates for renovation of the Botanic Garden conservatory, as was provided in the Senate bill, and amends the FY 1989 Legislative Branch Appropriations Act to authorize the Architect of the Capitol, subject to the direction of the Joint Committee on the Library, to construct a National Garden and to solicit and accept certain gifts on behalf of the United States Botanic Garden for the purpose of constructing the National Garden or for the general benefit of the Botanic Garden, to deposit such gift funds in the Treasury of the United States and, subject to approval in appropriations Acts, to expend such sums. The conference agreement authorizes the Architect of the Capitol to accept non-compensated personal services for these purposes, and any gift accepted shall be considered a gift to the United States for purposes of income, estate, and gift tax laws.

Section 210. The conference agreement amends the language of the Senate bill to establish protection and criminal penalties for the unauthorized use of any likeness of the seal of the United States Senate and sets a $250 fine and six month imprisonment for violations, and provides that violations may be enjoined by suit of the Attorney General

upon complaint by the Secretary of the Senate. The conferees have deleted the inclusion of the seal of the House of Representatives, or changes in criminal penalties imposed on unauthorized use of the great seal of the United States or the seals of the President and Vice President, but urge the Committees on the Judiciary of the House and Senate to study the matter, including the appropriate penalties for unauthorized use of government seals.

Section 211. Upon request of the managers on the part of the Senate, the conference agreement includes a provision not included in either the House or Senate bills. The provision delays until May 1, 1992, the effective date specified in Sec. 311(i) for subsection (d) of the Legislative Branch Appropriations Act, 1991.

Section 212. The Senate amendment to H.J. Res. 157 included Section 203 of Title II, General Provisions, which directs the Secretary of Defense to continue construction of a composite medical replacement facility located at Nellis Air Force Base, Nevada. The conferees agree with the Senate provision to continue construction of the facility but have revised the Senate language to correct the citations. The conference agreement also changes the section number.

Section 213. The conference agreement includes a provision allocating $990,000 of previously appropriated funds to certain bridge safety repair projects in the State of Vermont as proposed by the Senate. The House bill (H.R. 3543) contained no similar provision.

Section 214. The conference agreement inserts a provision amending the Employment Retirement Income Security Act of 1974 to define the accountable owner of Trans World Airlines as any individual who on October 10, 1991, owned directly or indirectly through the application of section 318 of the Internal Revenue Code of 1986 more than 50 percent of the total voting power of the stock of Trans World Airlines.

The conference agreement does not include the House provision in Sec. 301 of H.R. 3543 that contained language making technical corrections to the Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriations Act, 1992. Neither the House version of H.J. Res. 157 nor the Senate amendment to H.J. Res. 157 contained this provision.

The House language was deleted since an identical provision has been included in the Department of Interior Appropriations Act, 1992.

The conference agreement amends the title of the joint resolution as proposed by the Senate. The original title, as passed the House, is no longer appropriate because this resolution is no longer a technical corrections and enrollment error corrections resolution. H.J. Res. 157, as amended by the Senate, and H.R. 3543 are parallel bills. The title to H.J. Res. 157, as amended by the Senate, and the title to H.R. 3543 are identical, and this same title has been agreed to by the conferees.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1992 recommended by the Committee of Conference, with comparisons to the fiscal year 1992 budget estimates, and the House and Senate bills for 1992 follow:

Budget estimates of new (obligational) authority, fiscal year 1992	[1] $3,641,700,000
House bill, fiscal year 1992 .	[1] $7,486,250,000
Senate bill, fiscal year 1992	[1] $7,980,500,000
Conference agreement, fiscal year 1992	[1] $6,889,600,000
Conference agreement compared with:	
Budget estimates of new (obligational) authority fiscal year 1992	[1] +3,247,900,000
House bill, fiscal year 1992	[1] −596,650,000
Senate bill, fiscal year 1992	[1] −1,090,900,000

[1] Includes Desert Shield/Desert Storm funds.

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 102–395) on the resolution (H. Res. 309) waiving all points of order against the conference report on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

Ms. SLAUGHTER of New York. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 309 and, pursuant to House Resolution 294, ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 309

Resolved, that upon adoption of this resolution it shall be in order to consider the conference report on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts making appropriations for the fiscal year ending September 30, 1991, and for other purposes. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The gentlewoman from New York [Ms. SLAUGHTER] is recognized for 1 hour.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from California [Mr. DREIER], pending which I yield myself such time as I may consume.

During debate on this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 309 waives all points of order against the conference report on H.J. Res. 157 and against its consideration. The rule also provides that the conference report will be considered as having been read.

The dire emergency supplemental provides necessary funding for the incremental costs of Operation Desert Storm. Funds are appropriated from the Persian Gulf foreign contribution gift account.

Mr. Speaker, the conference report also provides $943 million for disaster assistance through the Federal Emergency Management Agency and provides $1.75 billion for the Commodity Credit Corporation to pay for crop losses caused by agricultural disasters.

There are now 44 Presidentially-declared disasters affecting 33 States. The Secretary of Agriculture has declared 89 agricultural disasters affecting 39 States. It is time, Mr. Speaker, to address American needs. This measure needs to be swiftly enacted.

Finally, Mr. Speaker, we have a bill providing for domestic needs which the President will sign. All funds are either agreed to as an emergency or will only be obligated if the President designates them to be an emergency or the funds are derived from existing funds. The supplemental appropriation act conforms to all budget requirements.

Mr. Speaker, this is the customary rule for conference reports. I urge my colleagues to adopt the rule and move this important legislation forward.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in opposition to this rule because it allows this con-

ference report to move forward without a separate vote on a very controversial provision. The conferees inserted into it a transfer of $500 million from our defense budget to aid the Soviet Union. Of that amount, $400 million will be earmarked for the destruction of that country's nuclear arsenal, and the other $100 million to deliver private humanitarian aid.

I have no objection to the humanitarian aid funding and, in concept, I support the use of United States expertise and technology to help the Soviet Union dismantle its menacing nuclear capability. But what concerns me about the $400 million earmark is that it does not require that American personnel and know-how be utilized in the dismantling process. In addition, I am still concerned with reports that Soviet aid continues to flow to third world dictators in spite of assurance that it would end.

In addition to the Soviet giveaway, Mr. Speaker, the conference report goes beyond what is necessary for emergency spending, and it evades the pay-as-you-go requirements by requiring the President to come up with the funds when he submits his fiscal year 1993 budget proposal. Once again, we are shirking our responsibility in setting budget priorities by throwing our dirty laundry onto the lap of the only person in this Government who is willing to lead: President Bush.

Mr. Speaker, it may be late in this session of Congress, but it's not too late to produce responsible legislation. For this reason, I urge my colleagues to defeat this rule, and I reserve the balance of my time.

Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 5 minutes to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. Mr. Speaker, I thank the gentlewoman for yielding.

Let me explain exactly what we did. The Defense Subcommittee met in the last 4 or 5 days with Director Gates of the CIA, and also today we met with General Colin Powell and Secretary Dick Cheney. They all agree the Soviet Union is in disarray. They believe that a crisis is imminent. They believe that the biggest danger in the Soviet Union today is the possibility of nuclear proliferation.

The Senate started this idea, passed it overwhelmingly, and their proposal was to authorize $500 million for dismantling nuclear weapons and $200 million for humanitarian aid. The gentleman from Pennsylvania [Mr. MCDADE], and I did not agree with that. We argued vigorously against the way they had laid it out. We believed that it should be reduced to $400 million for dismantling the nuclear weapons. We believed it should be left to the discretion of the President if he wanted to use the aid. We believed that American personnel should be used in dismantling the equipment overseas.

Our biggest concern is that the independent countries who have talked to Secretary Cheney do not want these nuclear weapons moved back to Russia, they want them dismantled in the independent countries, Ukraine being a perfect example.

We believe it has to be done. We think in the long run it will substantially reduce our defense needs and the expense of defense in this country.

The humanitarian side of it, we did not appropriate any money for humanitarian aid. We appropriated money to transport voluntary aid that may be made available in the United States. We think this balance gives the President a legitimate tool to be able to respond to a crisis which may happen in the next couple of months. I am convinced listening to Secretary Cheney that the military is disintegrating, has disintegrated substantially. I believe that if we do not take action to allow the President to have available to him these tools in the next couple of months we will have a real crisis that he could not respond to because we would not be in session.

We also safeguard the process by insisting on observing reprogramming procedures. The money can come from O&M and there is nobody that protects O&M more carefully than the gentleman from Pennsylvania [Mr. MCDADE], and myself. We believe that is the heart of the defense structure of this country. But we also believe that this money will save money in the long run.

Everything we did in this bill was to make sure that Congress safeguards its rights by making sure that the Defense Department has to request reprogramming of the funds so we know exactly where they come from, and at the same time we allow the President the discretion to make the decision about whether he needs to use this aid, but it will be American military personnel trained to dismantle these weapons.

We think that in the long run it will be substantially safer in this country and reduce our defense expenditure if we give the Soviets this aid. The initial proposal was for $1 billion humanitarian aid. Chairman ASPIN brought this to our attention. We had a concern with that, because we were not sure how it will be distributed. We were not sure it would get to the people it needed to get to.

I think this is a legitimate compromise. I think it is necessary. I think the Soviet Union at this point is in a very dangerous situation. I think we would make a grave mistake if we did not make this money available to the President to use at his discretion.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, let me simply say I agree with everything said by the gentleman from Pennsylvania, and I would simply say that I wish every Member of this House could have shared the experience that a number of the Members of the House did have in August when we were in Budapest and had a very sober meeting with Boris Yeltsin's Foreign Minister. If the Members could have heard him describe their concerns about the availability of nuclear warheads in a variety of republics, the Members would understand why this is necessary. I think for anybody who participated in that conversation it was one of the most sobering experiences we have ever had.

It seems to me that this is the single most important thing we can do right now to stabilize that situation and to enable us to reach those weapons and assist in their destruction while we have a window of opportunity to do so.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to simply ask the distinguished chairman of the Subcommittee on Defense, I would like to say that I totally agree with everything that has been said, and it is very clear that every single one of us desperately wants to see an elimination of those 2,000 nuclear warheads that exist in the Ukraine and in the other republics. That is the goal that we have.

The concern that emanates from this side is that we may not be using the very best vehicle possible to assure that. Why is it that we could not see the Pentagon in fact move ahead and do that without this, what is perceived by some on this side as rather vague language which could potentially end up as being nothing but a foreign aid package which would go to the Soviet Union. This has been understandably frustrating for the American people and specifically many Members of this House?

Mr. MURTHA. Mr. Speaker, will the gentleman yield?

Mr. DREIER of California. I am happy to yield to my friend from Pennsylvania.

Mr. MURTHA. Mr. Speaker, let me say that we tried to be as specific as possible and yet give the President the flexibility he needed to be able to dismantle these nuclear weapons. The supplemental language relects what happened in the authorization bill, they have to stop production of their nuclear weapons or the President has to be assured that they have stopped production, because we do not want them building new weapons while we are, on the other hand, dismantling old weapons.

I do not think there is any other vehicle. Everything came together at once. Director Gates was just confirmed and Secretary Cheney and Colin Powell had focused on the problem, the

Soviets have deteriorated substantially in the last few months, and I really believe it would be a mistake for us not to allow the President to have this opportunity to respond to what I consider could be the major crisis of this century.

Mr. DREIER of California. Mr. Speaker, I know my friend can understand, and I appreciate that answer, the concern about the prospect of a foreign aid package going to the Soviet Union. That is the fear that many on this side have raised

Mr. MURTHA. I think you are absolutely right. For instance, I remember talking to a steelworker, a volunteer who drives me around back in the district, and I said, "Ozzie, what do you think of the idea of giving the Russians new humanitarian aid?" He said, "I never saw any skinny Russians on television."

I think that is the tone of the American people. This is an entirely different situation. We are talking here about making money available to the President to dismantle a real threat to this country, and I believe it is important, it is the right way to do it. It is not foreign aid, it is helping security of this country, in my estimation.

Mr. DREIER of California. Mr. Speaker, let me thank my very healthy and robust colleague for that very adequate response.

Mr. McDADE. Mr. Speaker, will the gentleman yield?

Mr. DREIER of California. I am happy to yield to the gentleman from Pennsylvania.

Mr. McDADE. Mr. Speaker, I thank my good friend for yielding.

I want to begin by apologizing to all our colleagues in the House in that this comes in at a very late hour, late in the session, and it is natural there should be concerns raised, indeed, on both sides of the aisle about how exactly this is structured, and where it came from. Let me say that I believe that the gentleman from Pennsylvania, Mr. MURTHA, completely described the process which we went through to arrive at his conclusion to make this money available to the President. I support it. I think it is in the national interest of this country to be in a posture to enable the President, should he decide to, and he must come back to us, may I say to my friend from California, should he decide to utilize the authorities that we have granted him in this legislation.

☐ 0100

On Sunday next, as has been mentioned, the Ukraine will vote and in all likelihood they are going to vote for complete independence and become an independent nuclear power.

We had a meeting this morning, as my friend, the gentleman from Pennsylvania said, with the Secretary of Defense and with the Chairman of the Joint Chiefs of Staff, to see if we had the capability should we put this option on the President's list to be able to go into the Ukraine. They are not going to give those missiles back to the Soviet Union, not to Russia, or what was the Soviet Union.

Mr. DREIER of California. We want to assure that they will not.

Mr. McDADE. Well, everybody's opinion is that they will not. I agree with my friend, the gentleman from California.

The question was would we have the capability of using U.S. personnel to be able to go in and demobilize those weapons if the Ukrainians should invite us in and say to the President, "Send us help. We want to get rid of these weapons, but they are not going to go back to the Soviet Union."

The only dismantling plant of the Soviet Union for nuclear weapons is in Russia itself, not in the Ukraine or any of the other Republics.

So we thought it was in the national interest, may I say to my good friend, to make this authority available to the President after it goes through certifications, and he comes back to the Congress.

If he wishes to do it, may I say to my friend, we have given him the authority, but I want to assure my friend there is no pass-through of money to the Soviet Union in any foreign aid form, that this is money going to the President for his discretion.

Mr. DREIER of California. Mr. Speaker, I thank the extraordinarily distinguished ranking member of the subcommittee and the full committee for that excellent explanation.

Mr. Speaker, I yield 5 minutes to the gentleman from Pennsylvania [Mr. WALKER], the third Pennsylvanian to whom I will yield.

Mr. WALKER. Mr. Speaker, I thank the gentleman for returning to Pennsylvania.

I appreciate the discussion here on the $500 million of the money going to the Soviet Union.

There are a couple other issues in this bill, though, that I think need to be raised that bother me fairly significantly. I am concerned that we do not let it slip through here in the early morning hours.

For example, I understand there is a provision in this bill giving the Senate an additional 4 months to comply with the Ethics Code. Back when the Senate was getting its pay increase to $125,000, part of the reason for giving them the pay increase was that they were going to comply with the Ethics Code.

Now it turns out that the Senate has decided they are not going to live the same as we in the House, that indeed they want another 4 months in order to come into compliance with that code. I think that is a concern.

As a matter of fact, it has been represented to me that this is taking care of one U.S. Senator who would like to pay off some debts and therefore is requesting that we do not take care of this matter for another 4 months. I think that is a concern.

I think it is terribly wrong that the pay raise went forward and we are still going to have the Senate out of compliance with the Ethics Code that was supposed to accompany it.

Second, I think there is another serious matter that has been buried down in this bill which essentially amounts to a bill of attainder, or an ex-post facto law, whichever one you want, and this involves one executive or one owner of an airline who is being told that he has to assume full financial responsibility ex-post facto and who has indicated that if in fact this law is passed, he intends to shut down the airline, thereby putting 30,000 people out of work.

I think we saw the other day that we make mistakes when we do some of these kinds of things, as we did with the credit card. Here is another instance where we may well be responsible for putting 30,000 people on the streets.

At a time of economic problems, I doubt that it is a very good idea for Congress to take a step which apparently will result in 30,000 more people out of work. That also bothers me.

I do not quite understand why when we are dealing with very serious issues that are in this bill, we all of a sudden find buried down in the language in these many pages that are sitting before us these kinds of provisions, which I think a number of the Members may have some concerns about.

Mr. FAZIO. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I am glad to yield to the gentleman from California.

Mr. FAZIO. Mr. Speaker, I cannot speak to the TWA issue affecting Mr. Icahan and the airline employees, the second point the gentleman made.

I just want to point out to my colleagues that the first point was thoroughly discussed in the conference on at least two occasions and there was no effort to bury it down deep in the report.

I think we have given the other body 4 additional months to try to reconcile their procedures so that they can make a clean and clear distinction, as we have in this body, between official expenses and political and politically related expenses.

Mr. WALKER. How many months have they had so far?

Mr. FAZIO. They have had a year.

Mr. WALKER. They have had a year. It seems to me any reconciling that could have been done and should have been done could have taken place within that year.

Mr. FAZIO. Mr. Speaker, I tend to agree with the gentleman from Pennsylvania, but I did so to accommodate

Senator STEVENS and other Members of the other body, who felt that they needed additional time.

Now, we have offered the services of the House staff to help them reach some conclusions.

Mr. WALKER. For what reason? Could the gentleman explain to us, I mean, if there was a thorough discussion, for what reason do they need an additional 4 months over the 1 year that they have already had?

Mr. FAZIO. Mr. Speaker, if the gentleman will yield further, they seem to think they have been stymied on some very difficult questions about how they can extricate themselves from the situation they are in now, whereby they often comingle their political expenses and their official expenses.

Mr. WALKER. Were they not supposed to stop comingling these funds when they took the pay raise in the bill?

Mr. FAZIO. First of all, Mr. Speaker, if the gentleman will yield further, it has nothing to do with the pay raise. This agreement was reached in the context of reaching some sort of compromise on the franking issue. That is the context in which we then said to the Senate, "We will meet you halfway, but in order to make sure that we are playing on the same field, on a level playing field, we would like you to follow the same procedures the House has."

Mr. WALKER. It was directly related to the pay raise, because of course the pay raise when it passed here, we said we were going to comply with certain new ethical standards and so on.

Now, the Senate also having not taken the pay raise, did not agree to do that. When they took the pay raise, they made that agreement. That is where the tie-in is. That is a personal point here.

Mr. FAZIO. Mr. Speaker, if the gentleman will yield further, I do not really need to argue with the gentleman. We are both on the same side here. In fact, it was this subcommittee that I chair that forced the Senate to accept these changes.

Mr. WALKER. I agree with the gentleman.

Mr. FAZIO. So I am only pointing out to the gentleman that it was not done in the context of the pay raise. It was done in the context of another disagreement we had between the two bodies.

I can pledge to the gentleman and all my colleagues in both parties here tonight that this is the last extension the Senate is going to get.

Mr. WALKER. Mr. Speaker, I thank the gentleman.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 5 minutes to the gentleman from Wisconsin [Mr. ASPIN], the chairman of the Committee on Armed Services.

Mr. ASPIN. Mr. Speaker, I thank the gentlewoman for yielding this time to me.

Let me commend the Committee for the work they did on this issue of helping the Soviets to dismantle their nuclear weapons.

I think the compromises that the gentleman from Pennsylvania and the gentleman from Wisconsin worked out I think are tremendous.

I think the funding here is about as well as we can do under the circumstances, and I think that the effort here is really something that people will look back on from the future. They will look back and say this was an historic turn of events, that this was a very, very sensible policy, that this was not foreign aid. This was defense by another means.

I think that the gentleman from Pennsylvania [Mr. MURTHA], the gentleman from Wisconsin [Mr. OBEY] and all the Members of the Committee here should be commended for their work.

Mr. BURTON of Indiana. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. Yes, I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Speaker, I just have a couple questions.

As I understand it, the people from the Ukraine would rather have Americans in there dismantling these weapons than the Soviets?

Mr. ASPIN. Exactly so.

Mr. BURTON of Indiana. Now, what I do not understand, if we are going to have American personnel in there, American military personnel, why is the $400 million for this purpose going to the Soviets? Why is it not going to our Defense Department and the Defense Department will do it? Maybe I missed that point. Perhaps the gentleman could just explain it a little better.

Mr. ASPIN. The $400 million is not going to the Soviets, nor is the $400 million for American transports. Those will be going to Americans to help Americans in the case of the $400 million, and in the case of transportation, technical advisors and other things to get them to the Ukraine, to get them housed and fed and deployed on temporary duty to the Ukraine to help them establish them there so they can dismantle the weapons.

Similarly, for the $100 million, the $100 million does not go to the Soviet Union. It goes to augmenting the costs of transportation of the U.S. military, more fuel, more operating hours of the equipment, so that when they help move the equipment or move the food and medicine to the Soviet Union.

Mr. BURTON of Indiana. One final question, and I think I know the answer. But why did this not come out of the Defense budget instead of having it come out of this Supplemental?

Mr. ASPIN. We would love to have had it come out of the Defense budget. In fact, my original proposal was to take the $100 million out of the Defense budget, but we ran into a buzz saw here a few weeks ago on that issue.

I think as the proposition was reworked by the Appropriations Committee, and indeed the mood has changed slightly, plus the third thing that has happened is that there have been a lot more stories coming out of the Soviet Union about the state of disaster they are in, that therefore the best place they found to put it was on the supplemental.

☐ 0110

But my original proposal was to take it out of the Defense budget and to divert the funds from the Defense budget. Now it is on the supplemental because, frankly, that is the only thing that is left.

Let me yield to the gentleman from Pennsylvania.

Mr. MURTHA. Let me add to the answer: Actually, most of this will be operation and maintenance money, and that is why we felt that is an area where it could come from. We resisted and tried to get some from foreign aid, but it really is an American military project; that is the way it looks to us.

Mr. BURTON of Indiana. If the gentleman would yield further, I was just talking to the other gentleman from Pennsylvania [Mr. MCDade] and he indicated it would come out of the Defense budget.

Mr. ASPIN. That is right. It was originally part of the DOD authorization conference report, but that was dropped out of that. It is now part of the supplemental. But the actual money for the funding for it comes out of the O&M account in the Department of Defense.

Mr. DREIER of California. Mr. Speaker, I yield 3 minutes to a very able member of the Committee on Armed Services, the gentleman from San Diego, our top gun, the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, are we are out of our minds? I heard Mr. SANTORUM this afternoon stand up, saying that we did not have enough money to carry over unemployment.

The Members on the other side of the aisle for the last month are saying we need money for unemployment, we need money here.

This money comes out of defense, out of O&M funds. Let me tell you, for the people who have never been in the military: What does that mean? O&M? That means the kids sitting at Miramar do not have enough fuel to fly and train or have parts. At Nellis Air Force Base, the same thing.

That money comes out of defense.

The original cost was supposed to be $1 billion. Remember, the Soviet Union was not supposed to be a threat anymore. That is why you are cutting defense by 25 percent.

I saw Members of the Democratic side sit up here and fight tooth, hook, and nail over base closures because it cost them jobs. You cut defense by 25 percent, and then you try to take out another $1 billion? That is ludicrous. You are costing Americans lives. You are costing Americans jobs, and I am damn tired of it.

O&M funds go for training people, fuel, parts for machines and aircraft.

We cannot do that. Do you have any idea how many jobs? I read today that McDonnell Douglas is sending some of their work for their airliners to Taiwan. I heard a Democratic Senator saying that the President is not doing enough.

Well, let us take half a billion dollars and maybe supplement our own defense work and maybe building those to help the unions. But a billion dollars or a half-a-billion-dollars to the Soviet Union? Not on my watch.

I sit and watch the Committee on Armed Services pork barrel. A Member of the other body wanted 117's built that the Air Force did not even want. Even if they had the money, they did not want it. But yet the pork barrel in the appropriations, that particular Member forced it through and cost this country F-14 upgrade.

That is pork-barrel spending. I would not send one penny to the Soviet Union, not one penny. Even in the foreign aid bill, we sent money and a message to take money out of Jordan. No; the conference put it back in. Not one penny to the Soviet Union, the Ukraine, or anybody else out of defense. You are costing American lives.

The same way they did in Vietnam, the liberals have cut defense by 25 percent.

Do you have any idea how many jobs? Hundreds of thousands of jobs have been cut; electricians, military—if you sell pizzas or cars or real estate, those jobs have been lost. And you still want to cut it more? Not on my watch.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate, I yield 2 additional minutes to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. I thank the gentlewoman for yielding again.

Let me emphasize this money is not going to the Soviet Union, this money is going to United States personnel to help dismantle weapons that threaten the United States. These independent countries do not want these weapons to go back to Russia.

The Ukraine, for instance, has a couple of thousand nuclear missiles and warheads they want to keep in the Ukraine. They are asking us to help them dismantle those weapons and in the end this will save us substantial amounts of money.

Our O&M budget is $80 billion. Now, there is nobody who protects this budget more than I do. I have offered amendment after amendment over the years to increase O&M. But I think this is a good expenditure of money, not to the Soviet Union but to help the independent countries around the Soviet Union to reduce the threat to this country.

I think it is a wise expenditure of funds in the long run which will allow the President to provide technical assistance if he decides that it is a threat. Listening to Director Gates and Secretary Cheney, they believe, as I believe, that there is a possibility of a real threat in the next couple of months and we need to have U.S. personnel helping them dismantle these weapons systems to reduce the threat to the United States.

Mr. CUNNINGHAM. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the gentleman from California.

Mr. CUNNINGHAM. I thank the gentleman for yielding.

Mr. Speaker, I sat on the Coral Sea with 20-year-old airplanes because I did not have enough parts and enough fuel to fly them. O&M, and you say you fight for it, is critical to training. We want to cut defense, but you say you want a smaller force, well equipped, well trained, just like the desert act, where they are taking away some of the training that we have now through the environmentalists. Now we are trying to take some of the same training regardless if it goes to personnel, military, it is still taking it away from O&M budget out of military training.

Mr. DREIER of California. Mr. Speaker, I yield such time as he may consume to the distinguished ranking member of the Committee on Rules, the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. I thank the gentleman for yielding this time to me.

Ladies and gentlemen, I was not going to speak on this appropriations bill. I was going to wait until we take up the next bill, which is the implementation legislation for the CFE Treaty. We really have the cart before the horse here because we are debating a supplemental appropriations bill concerning a bill we are going to take up in the next few minutes, which is the authorizing bill. And as I read the amendments concerning the provision of aid to the Soviet Union that are going to be adopted in the bill that we will be taking up in a few minutes, the language says, "The program under this section shall be limited to cooperation among the United States, the Soviet Union and its republics." It goes on to say in this amendment, "Such cooperation may also involve the funding of critical short-term requirements related to weapons destruction."

I am just having a very difficult time trying to figure out why we are taking money for this purpose out of the defense budget. If we are going to use this money for American troops and American vehicles, and those troops and vehicles are going to cross through Poland, Czechoslovakia, and Hungary into the Ukraine or into Russia or wherever they are going, why do we have to take the money out of the defense budget? There are funds right now to go in there and dismantle the nuclear weapons and bring them out back through Poland, Czechoslovakia, and Hungary and into our NATO countries.

So I just do not understand that provision. We really should have debated it, the bill itself, the authorizing bill, before we got into this supplemental.

Lastly, without taking too much time, when we had an emergency situation called Desert Storm, we all put our heads together and, over a period of time, we worked out a cumulative fund whereby Japan and Germany and all of the NATO countries pitched in and helped because Desert Storm was to their mutual benefit.

I heard my good friend, JOHN MURTHA, mention that it is in the best interests of the United States that we support this new provision and that we do it now; it is an emergency. Anything could happen.

Well, I think that same kind of emergency that we had in Desert Storm and that same kind of mutual benefit applies to this. I see my friend, PAT SCHROEDER, sitting over there. She and I have worked for years on burden sharing, trying to get our NATO allies to carry their fair share of the burden.

There needs to be a fair share of the burden in this Soviet aid provision. Why should we be committing $700 million? I give my good friends, JOHN MURTHA and JOE MCDADE, credit for saving us $200 million because they reduced the Senate's authorization down to $500 million, and that is great. But, that is still a lot of money we are talking about in this bill.

As my colleagues know, if this Soviet aid package had been subject to regular order and the Committee on Foreign Affairs had been working on it, and the Committee on Armed Services had been working on it, and the same thing was happening over in the Senate, we would not be taking this up in the middle of the night right now.

The gentleman from Florida [Mr. FASCELL] came up to the Committee on Rules a few minutes ago, and said, "Since receiving this legislation last night, we have worked hard." The gentleman from Wisconsin [Mr. ASPIN] and the gentleman from Florida [Mr. FASCELL] have worked hard. But, as my colleagues know, we are rushing into this thing.

Until hearings are held, until there is a demonstrated need, we should not be passing this aid package tonight. The emergency is not here tonight. We are voting on something about which we do not have any idea of what it is. The phrase I just read which says that we are going to cooperate with the Soviets.

Mr. Speaker, to me that means we are going to give the Soviet Union the

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

money to help them dismantle these weapons. The program under this section shall be limited to cooperation among the United States, the Soviet Union and its republics, and then it goes on again to say, "Such cooperation may also involve the funding."

So, it is just so open-ended, there is no legislative intent written here, no hearings to go by.

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to the gentleman from Wisconsin.

Mr. ASPIN. Mr. Speaker, let me just point out to the gentleman from New York [Mr. SOLOMON] that there have been hearings. The House Committee on Armed Services held hearings on this issue way back at the beginning of September, so there have been hearings.

Second, on the issue of cooperation, indeed part of our hope is that the administration will take whatever is in this bill and this proviso and go out and leverage a bigger effort on behalf of the objectives in this bill by getting help from our allies. Indeed that was what we hoped they would do and encourage them in a lot of language in there that says we would like the President to take the initiative and organize an international effort along these lines, not just take the money that we are talking about here from the United States taxpayers, but actually go out and get it from the Japanese, and from the Germans, and from other NATO countries, from wherever we can to try and get this program.

Indeed part of the program is going to have to come from some of the others because of the humanitarian aid. The only thing we have got in humanitarian aid here is the transportation part, so it is going to have to be an international effort and a cooperation, and again the money is going to essentially Americans.

We are not going to hand over the dollars here. There is no handing over of cash. That is money down a rat hole with a country that has not straightened out its basic economic infrastructure and its basic pricing system and established a rule of law and private property. We cannot funnel economic aid into that country without losing a lot of it, and that is not what we are doing here.

This is essentially providing American expertise on nuclear weapons and American transportation to move food and medicine. That is what this bill is about.

Mr. SOLOMON. Mr. Speaker, I hope that the gentleman from Wisconsin [Mr. ASPIN] is right. And it seems to me that if the total cost here is going to be $500 million, our share of it compared to all of the NATO countries should be, let us say, 10 or 20 percent. Then we only would be putting up a hundred million. And let us pass the hat around and collect the other $400 million from our friends.

Mr. BURTON of Indiana. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Speaker, I thank the gentleman from New York [Mr. SOLOMON] for yielding. I just have one brief question.

Was there any consultation with our NATO allies about this beforehand, and, if so, did anybody raise the issue that the gentleman from New York has raised, and that is would they be willing to pay part of this $400 million cost for dismantling these weapons?

Mr. OBEY. Mr. Speaker, would the gentleman yield so I can answer?

Mr. SOLOMON. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, frankly I would be shocked if at this point the costs being incurred by Germany alone for a variety of assistance programs in the Soviet Union, if that cost alone did not exceed $10 billion.

Mr. SOLOMON. Excuse me, gentlemen. There is going to be a meeting in the Committee on Rules on the highway bill. Passing that bill will help us get out of here so that we can go home. And so I yield back the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield 3 additional minutes to the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr. Speaker, I am going to yield again to the gentleman from Indiana [Mr. BURTON] to make sure that he gets the answer to his question. Basically, let met try to explain.

We, meaning the Committee on Armed Services and people who have been interested in this proposal, have had a chance to explore it with people who have been coming through the country or coming through the Capitol here to see whether in fact they are interested in doing this, and we got generally a favorable response. We are not in a position to negotiate the deal. The President and the Secretary of State and the Secretary of Defense are really the people who are under the Constitution to negotiate this thing. We have explored it with various government leaders who have come through and found that there was a favorable response. That is basically as far as we could go.

Mr. BURTON of Indiana. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Speaker, I do not want to belabor the point, but I would like to just end by saying those weapons are much closer to Germany and the other countries over in NATO than they are to us, and it seems to me that they would be very anxious to participate in paying for this dismantlement.

Mr. ASPIN. No question, and that is why they are interested.

Mr. GREEN of New York. Mr. Speaker, will the gentleman yield to me on this point?

Mr. ASPIN. I yield to the gentleman from New York.

Mr. GREEN of New York. Mr. Speaker, I cannot believe that anyone in this House wants Germans to start playing with nuclear weapons.

Mr. ASPIN. Definitely we do not, but that is why the Germans are interested in having the United States and an international organization go into the Ukraine and help the Ukrainians dismantle their weapons.

I think there is an opportunity here, as the gentleman from Pennsylvania [Mr. MURTHA] talked about. We have an opportunity here that is open now, a window of opportunity that is opened here, while these countries, and particularly we are going to have a vote, as somebody pointed out, very shortly coming up on Ukrainian independence, and that is an opportunity for us to take advantage of the fact that the Ukrainians do not want to transship those nuclear weapons back to Russia and would welcome outside help in dismantling those weapons. It is an opportunity.

Mr. HENRY. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Michigan.

Mr. HENRY. With all due respect, Mr. Speaker, my concern on this, if the Ukrainians need assistance, the quickest thing that is going to stir up a countercoup in the Soviet Union itself or in the Russian republics is going to be unwanted American troops, American vehicles, American assistance dismantling what Russians regard as their armament in the Ukraine, and I think something of this magnitude needs a lot more consideration by this conference, and it concerns me very much.

Mr. MURTHA. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Pennsylvania.

Mr. MURTHA. Mr. Speaker, let me say that in talking to Secretary Cheney and to Mr. Gates, they both believe that these countries will welcome American troops into their country to dismantle nuclear weapons.

Mr. HENRY. Well, I raise the question because it is, as the gentleman from Pennsylvania [Mr. MURTHA] said, an historic decision being made on very short notice.

Mr. ASPIN. Absolutely historic.

Mr. NAGLE. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Iowa.

Mr. NAGLE. Mr. Speaker, I thank the gentleman from Wisconsin [Mr. ASPIN] for yielding.

I have spent some specific time on that Ukrainian situation the gentleman made reference to, but that is not the situation there. It is very important that we recognize that the current leadership of the Ukrainians are not necessarily consistent with our own interests or consistent with the problem that we have over there.

As a matter of fact, taking the weapons out from the Ukrainians and this current leadership is probably very, very important. They are not necessarily our friends, and I have not been impressed with this peaceful intention towards the Soviet Union itself, or Russia, and, therefore, I think the point of the gentleman from Wisconsin is very well taken.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this has been a fascinating debate on the authorization bill, H.R. 3807, the CFE authorization bill, and actually I should remind our colleagues that at this moment we are debating the rule for the supplemental appropriations bill.

Mr. Speaker, I yield 2 minutes to my very good friend, the gentleman from New York [Mr. GREEN], an able member of the Committee on Appropriations.

□ 0130

Mr. GREEN of New York. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I have long argued in this House that the major risk of nuclear holocaust that this country and the world faced was not a confrontation with the Soviet Union but the "N-nation" problem, the risk that nuclear weapons will proliferate and so many countries will have them that they will become uncontrollable. Suddenly, we have a situation, with the breakup of the Soviet Union, that that very breakup may create the "N-nation" problem, because so many of the Soviet republics may get their hands on nuclear weapons.

What this rule lets us bring to the floor is a bill which provides $400 million from funds previously appropriated so that, if the President chooses to use those funds, he can become a player in this situation and can help in trying to avoid proliferation of nuclear weapons among those new countries.

I do not see how anyone in this House can be fearful of such a provision. I do not see how anyone in this House can help but think that that is a useful tool to provide to the President of the United States. So I hope that my colleagues would put aside the confusion that seems to have been raised about this issue at this late hour.

Understand that all this bill is doing is giving the President of the United States some additional capacity in terms of dollars to deal with this problem.

Vote for the rule, and then vote for the supplemental appropriation.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 5 minutes to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I thank the gentlewoman for yielding me this time.

Mr. Speaker, I want to say that I rarely take the floor to engage in many debates, because I think too much talk goes on here, but I must tell you how very angry I am about this bill that is coming up.

We have just heard all the things we did moving heaven and Earth. Let me tell you what else happened.

Everything we put in there for children we took out, o-u-t, out. When we get to this dire, urgent supplemental, what we are saying is we are breaking our covenant with our children. We are not even making the first year's commitment.

Both the House and the Senate voted to at least meet the first-year commitment on immunizations, on the WIC program defeat, and on Head Start to keep it on track so that by the year 1996 it would be fully funded.

Now, I do not know about you, but I think 1996 is too long, but, OK, we accepted that. We accepted it as a challenge.

We had CEO's from America's major Fortune 500 companies here saying how important this was that every dollar we spent we saved all sorts of money. We have had testimony up to the wazoo, we have had hearings up to the wazoo. Everybody says they are for Head Start, WIC, and immunizations. The Surgeon General has talked about it, and yet when both the House and Senate passed it, nevertheless in conference it came out.

I must say that I find it shocking that everything else in the world is an important disaster that we have to deal with, but not our children.

One-third of the children under the age of 6 are in poverty in this country, and if we do not invest in them, we will never, never be able to compete, and we are really shooting ourselves in the foot when it comes to the future.

Mrs. BOXER. Mr. Speaker, will the gentlewoman yield?

Mrs. SCHROEDER. I am happy to yield to the gentlewoman from California.

Mrs. BOXER. Mr. Speaker, I want to say at this very late hour, or early hour, depending on how you look at it, I want to thank the gentlewoman for her clear voice.

I want to say to the gentlewoman that it is very difficult to come here at this hour and be a voice of discontent, and the fact that the gentlewoman is doing it, she is doing it not only as the gentlewoman from Colorado but as Chair of the Select Committee on Children, Youth and Families.

Our country is in trouble. Our children are in trouble, and if we do not move to make sure that those children are educated and fed and nourished and have health care, you know, we are talking about our allies here. Maybe the gentlemen over there ought to understand that our allies immunize 90 percent of their children, and in this country we immunize 50 percent of our children. I guess they are not particularly interested in it.

But, again, I just want to thank the gentlewoman and tell her that I am with her on this, and I think, you know, children do not write checks. Maybe that is why they do not have a voice. I am glad the gentlewoman is here, and I am glad she made her statement.

Mrs. SCHROEDER. I must say that I am very, very dismayed. We did everything we know how to do. We passed it on both sides, and yet the conference took it out.

There are all sorts of reasons, people can say, but it is interesting to me that continually we see everything else is a disaster but out children. It is also interesting to me that we have studies that would fill this Chamber showing that every dollar we spend in the Federal budget this year on a child, on those three programs, we will save anywhere from $3 to $10 next year in the Federal budget, so forget the children, forget anything, this is a phenomenal investment, and yet somehow they just do not count.

I do not know what we do to make them count. I do not know what we do to keep our covenant to America's children, but to think that we are writing off one-third of our youngest kids, to think that only 25 to 30 percent of the children eligible for Head Start are getting it in this country, when we talk about it, to think that 60 percent of the children in New York City have not had their shots and 50 percent of the children in the Nation's Capital have not, I am shocked. I think that is a disaster.

I am just very ashamed to be part of this body tonight and to see how we are treating our future.

Mr. EDWARDS of California. Mr. Speaker, will the gentlewoman yield?

Mrs. SCHROEDER. I am happy to yield to the gentleman from California.

Mr. EDWARDS of California. Mr. Speaker, I believe the conference also took out the Senate-passed amendment approved by the Senate the other night offered by Senator WIRTH that would have provided or allowed women in the service overseas to pay for their own abortions in military hospitals, and that was also removed by the conference.

Mrs. SCHROEDER. I am so pleased the gentleman from California pointed that out, too. Yes, women and children first.

The Russians got in. We have the Turks off budget. We have the Kurds off budget. Kurds, yes; kids, no. Turks, yes; kids, no.

When do we think about our kids, and when do we think about America's women?

This is a bill that basically is bailing out the final cost of the war, and other things got added to it.

Well, why do not the Kuwaitis help bail us out? They have got megabucks, and gigabucks, and all I can see the main purpose is we got the Emir back on his throne. We can be talking about a little burden-sharing there. He could be helping.

We could find all sorts of things that we could be doing.

But to see American women who went overseas to defend our rights being denied those same rights that they fought for overseas and to see children being treated this way, I think, is an outrage.

Mr. DREIER of California. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan [Mr. HENRY].

Mr. HENRY. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I would simply want to once again reflect on the comments I made very briefly in my exchange with the gentleman from Wisconsin [Mr. ASPIN].

This is, indeed, a very historic provision in this bill relative to giving the President funds and discretionary authority to assist in the dismantling of the Soviet Union's nuclear stockpile.

I do want to remind our Members, however, that there are three major actors in the process over there right now: the Soviet Union, what there is left of it; the Russian Republic; and the Ukrainian Republic.

The context of this discussion has taken place in terms of what if the Ukraine asserts its independence, what if the Ukraine then asks for assistance in defusing and dismantling these terrible devices? My question is only: What if, in fact, we give that assistance, and what does that do in terms of the potential for Russian reaction, or what is left of the Soviet Union, the Soviet Union's reaction?

I would simply say that the context of the discussion and the context of the legislation troubles me deeply, because this may very well be a two-edged sword in historicity of the moment maybe quite different than what most of us anticipate at this point in time.

☐ 0140

Mr. DREIER of California. Mr. Speaker, I yield 2 minutes to the gentleman from New Mexico [Mr. SCHIFF], who has some important questions to ask.

Mr. SCHIFF. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I would like to ask a question of the distinguished chairman of the Committee on Armed Services [Mr. ASPIN] or the chairman of the Subcommittee on Defense of the Committee on Appropriations [Mr. MURTHA], because I do not think I heard this question answered earlier.

If this aid is primarily for U.S. forces to help dismantle nuclear weapons inside the Soviet Union, why do we have to take this money out of the defense budget and separately identify it for that purpose? If it were to remain in the defense budget, would it not be available for the same purpose?

Mr. MURTHA. Mr. Speaker, will the gentleman yield?

Mr. SCHIFF. I yield to the gentleman from Pennsylvania.

Mr. MURTHA. Mr. Speaker, I think the President had to have authority, and we were very careful to give him specific authority, to allow him to go forward with a program if he saw fit. In international relations, right now I do not think anybody has any peer. I think he is a good one to make the judgments. But it is primarily for American personnel, for American military personnel or experts in dismantling this equipment. So he needed authority, and we are giving him that authority to send troops or experts in, using O&M money.

I think in the long run it will save us money.

Mr. SCHIFF. Mr. Speaker, reclaiming my time, we are taking $500 million out of the O&M budget.

Mr. MURTHA. Mr. Speaker, if the gentleman will yield further, we will actually save money down the road. It is the ultimate SDI. We are destroying these missiles on the ground, is actually what we are doing. We are being invited in by these independent countries.

Mr. SCHIFF. Mr. Speaker, I would again ask the respected subcommittee chairman this question: There is just one aspect of this that I still find not being answered, and that is simply this: Why in the appropriations process are we taking $500 million out of the Department of Defense budget for the President to be able to use Department of Defense, which is to say military, personnel, to accomplish a task? If the funds were to remain in the DOD budget, then, with the proper authority, is the money not there for the President to use if he sees fit now as Commander-in-Chief?

Mr. MURTHA. Mr. Speaker, if the gentleman will yield further, we think the President needs this appropriation in order to go forward. He had to make the judgment. We leave it up to him. We make the money available. If he thinks it is necessary in the next couple of months, it would be in the defense budget. But this specific authority to send troops or experts into the Soviet Union to dismantle weapons, there is a question. We try to eliminate that question.

Mr. DREIER of California. Mr. Speaker, I yield 30 seconds to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Speaker, I have a question for the gentleman from Pennsylvania [Mr. MURTHA]. Right now, as I understand it, there are over 30,000 nuclear warheads that we are looking at. Over 10,000 of those warheads as we are sitting here today are involved here. I am concerned about nuclear weapons. When we expend half a billion out of our training, it just concerns me that there is a delta there in which we lose the training versus what we actually get out of the Ukranian nuclear weapons.

The SPEAKER pro tempore [Mr. BROWN]. The time of the gentleman has expired. The Chair would announce that the gentleman from California [Mr. DREIER] has 30 seconds remaining.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. Mr. Speaker, would the gentleman from California [Mr. CUNNINGHAM] repeat his question?

Mr. CUNNINGHAM. Mr. Speaker, with us having 30,000 warheads that we are looking at, over 10,000 of those are looking at us right now, the small amount in the Ukraine is a pittance. I am concerned about nuclear weapons, but how would we ever pay to dismantle all of those? I agree, it is like SDI, getting rid of those missiles.

Mr. MURTHA. Mr. Speaker, I do not think any of us can predict how much it will cost. Nobody could give me an estimate from the Department of Defense or from the White House. We are just making money available in case the President feels he needs to help them if they request it. We hope that they do request it. We hope we can dismantle those weapons in the Ukraine or any of the other independent states surrounding the Soviet Union.

As far as reducing our capability in the United States, we say specifically if you use O&M money, you cannot reduce the readiness of U.S. forces. We think if we reduce the capability of the Russians to fire weapons at the United States, or any other country, we obviously need less defense in the United States.

So it kind of balances off in our estimation. We are going to spend over $4 billion this year for SDI, so this is one way to destroy those weapons on the ground.

Mr. MYERS of Indiana. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the gentleman from Indiana.

Mr. MYERS of Indiana. Mr. Speaker, section 108 provides money may come from O&M, but it also may come from surplus in the capital account. Section 108 gives discretion to the Department of Defense as well as to the President to use available funds. We suggest two areas. They do have to come back for reprogramming. That all has to be reprogrammed. The President has to

come back and certify that the Soviet Union is doing their part, that none of the fissionable material might be used in building a new weapon.

There are a lot of things we put in here that they must do to get the technical assistance that this provides.

Ms. SLAUGHTER of New York. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Vermont [Mr. SANDERS].

Mr. SANDERS. Mr. Speaker, I thank the gentlewoman for yielding.

Mr. Speaker, the fact of the matter is that since I have been here in Congress for the last 11 months, there has not been a whole lot of discussion on this floor that has impressed me terribly much. I did not come here to vote $80 billion for the savings and loan institutions. I did not come here to vote $70 billion for a bailout of the commercial banks, or $290 billion for an inflated military budget.

I did come here to try to do something to address the fact that 20 percent of our children are living in poverty. Several weeks ago the gentlewoman from Colorado [Mrs. SCHROEDER] came up with an intelligent and serious proposal that called for $1.4 billion to go to the Head Start Program, to go to the WIC Program, to go to children's immunization programs.

There was a good debate here, and the people on the floor, Members of Congress, voted that $1.4 billion.

Tonight, at a quarter to 2 in the morning, we have learned that out of nowhere the conference committee rejected that money for children in need.

Mr. Speaker, my proposal and thought is we should reject this rule, send it back to the Committee on Rules, and tell them we want a rule which will once again allow us to vote that $1.4 billion for the children of this country.

Mr. DREIER of California. Mr. Speaker, I yield 30 seconds to the gentleman from Lomita, CA, (Mr. ROHRABACHER).

Mr. ROHRABACHER. Mr. Speaker, maybe our colleague from Colorado, (Mrs. SCHROEDER) could answer this, too: Why, if it was so important, did it take until 2½ weeks ago for the gentlewoman to come up with this idea. How come for all this year, if it is so important as we are talking about it now, the gentlewoman waited until 2½ weeks ago? Why did the gentlewoman wait that long?

Ms. SLAUGHTER of New York. Mr. Speaker, I yield 1 minute to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I pointed out in my speech exactly why where we are is where we are. That is that we are at the end of the year where we have a shortfall. At the beginning of the year we made the commitment to attempt to fully fund these three core programs by 1996. So to get there, there is like a stair step of incremental increases.

The problem was while we made that commitment in January, here we are now taking Polaroid shots as to where we are, and some of that money we were to commit has gotten chipped away, plus more children have fallen into poverty. Even today's newspapers talk about how many more children have fallen into poverty, much faster than was projected. So it takes more money to get to that point.

So we are looking at the year-end, and the dire urgent supplemental was the only thing moving that you could then make that course correction to make sure you kept that covenant that you made to at least get to the first year.

☐ 0150

My problem is, if we did this in the very first year, imagine where we are going to be by 1996. There is already talk from the administration and other places to forget it, and maybe we will try and do it by the year 2000.

My question is, How many generations of American kids do we let this happen to?

I really hope that the gentleman understands that.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. BROWN). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SANDERS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 242, nays 175, not voting 17, as follows:

☐ 0210

Mr. MFUME, Mr. ROBERTS, Ms. PELOSI, and Mr. OWENS of New York changed their vote from "yea" to "nay."

Messrs. MRAZEK, OLVER, and CONDIT changed their vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 585

Mr. OLIN. Mr. Speaker, I ask unanimous consent that my name be removed as cosponsor of the bill, H.R. 585, the Biological Diversity Conservation and Environmental Research Act.

The SPEAKER pro tempore (Mr. BROWN of California). Is there objection to the request of the gentleman from Virginia?

There was no objection.

CONFERENCE REPORT ON H.J. 157, DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS AND TRANSFERS FOR RELIEF FROM THE EFFECTS OF NATURAL DISASTERS, FOR OTHER URGENT NEEDS, AND FOR INCREMENTAL COST OF OPERATION DESERT SHIELD/DESERT STORM ACT OF 1992

Mr. WHITTEN. Mr. Speaker, pursuant to the rule just adopted, I call up the conference report on the joint resolution (H.J. Res. 157) making technical corrections and correcting enrollment errors in certain acts, making appropriations for the fiscal year ending September 30, 1991, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Pursuant to House Resolution 309, the conference report is considered as read.

(For conference report and statement, see prior proceedings of the House of today.)

The gentleman from Mississippi [Mr. WHITTEN] will be recognized for 30 minutes, and the gentleman from Pennsylvania [Mr. MCDADE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Mississippi [Mr. WHITTEN].

GENERAL LEAVE

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report on the joint resolution (H.J. Res. 157) making dire emergency supplemental appropriations and transfers for relief from the effects of natural disasters, for other urgent needs, and for incremental costs of Operation Desert Shield/Desert Storm for the fiscal year ending September 30, 1992, and for other purposes, and that I may be allowed to include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

Mr. WHITTEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the debate we just heard is illustrative of what we have to deal with in the Committee on Appropriations.

I have said before and I have said it seriously that we are going to have to give our domestic programs a foreign address to get them taken care of.

We have heard the debate here about the WIC Program and others. Let me tell you what the facts are.

I was one, and I apologize for it, who recommended the Budget Act, and it has not worked at all like it was planned. We recommended the Budget Act because funding was going around the Committee on Appropriations and leading us into debt right and left.

We recommended that the Budget Committee be made up of five members from the Ways and Means Committee, five members from the Appropriations Committee and five members from the various legislative committees so that we might hold the spending of the Government in line with revenues and by enabling the Appropriations Committee to have the strong voice to hold it back.

We did not get that. We got a committee weighted in favor of the legislative committees.

May I say, since 1945 we have held the appropriation bills $180 billion below the recommendations of all the Presidents. However, just since 1980, our debt has gone from less than $1 to $4 trillion. With spending going around the Committee on Appropriations the Budget Act has not succeeded. It has not worked and that causes the situation that we saw tonight.

May I say again that in the conference we were faced with the fact that if we kept funding not only this WIC Program, but several others, we would have had sequestration and everything would be cut, and the certainty of that came from the other side of the Capitol.

We tried to hold the things in line that we had. They were sound, not only the programs referred to, but other items which were very sound.

I say again that if we are going to look after our own country, we are going to have to put first things first and see that we are held up, by Budget Act requirements as we were in our conference.

Now, I am not going to argue with my colleagues who spoke so eloquently about the needs of the youth of this country. We strongly recognize those needs, I will say that conditions are a little better than might be expected in that we have $2.6 billion in the WIC section of the fiscal year 1992 Appropriations Act. Not only that, but we provided $250 million above what we had last year. I do not say that complaining. I just say that we have done the best we could within the limits of what is possible, and I want to say this as we begin this debate.

Now, the other side of this, I am going to say I hope you will take time to read my full remarks in the RECORD, but listen to what I say now.

At this time, I call your attention to the fact that economically and financially as a nation we face a national emergency—a dire emergency. All this year I have been saying that anyone who reads a newspaper, watches television, or talks to neighbors is bound to realize we are in a deep recession and, judging by history, it will take a real effort if we are to avoid a long drawn out depression.

Despite the fact that our Committee on Appropriations has held the total of appropriations bills $180,800 million below the recommendations of our Presidents since 1945, today we owe a debt of $4 trillion and have outstanding loan and deposit guarantees of another $5 trillion. We can work our way out of this only by increasing production and regaining our domestic markets and our normal share of foreign markets. History will decide whose fault it is—and our domestic policy of placing foreign relations ahead of the domestic economy, where we are letting our real wealth deteriorate, will figure prominently in that.

On November 22, I pointed out how the trade deficit has grown by over $1.1 trillion since 1981 as follows:

[In billions of dollars]

	Amount
1981	$34.6
1982	38.4
1983	64.2
1984	122.4
1985	133.6
1986	155.1
1987	170.3
1988	137.1
1989	129.4
1990	123.4

In addition, conditions are terrible because of natural disasters—hurricanes, earthquakes, freezes, drought, floods, tornadoes, and more recently, wildfires—which have been declared disasters by the President and the Secretary of Agriculture which affect every State in the Union. These disasters have created a dire emergency which must be addressed to prevent a cutting back on vital ongoing programs.

Mr. Speaker, it will take time if we are to work out of the present problem. We need to get our country moving, to increase production, to again export more than we import—and we need to start now for we live in a competitive world.

The conference agreement provides agricultural disaster assistance for crop years 1990, 1991, and to some extent, 1992 in the amount of $1,750 million—$995 million now and $755 million when the President submits a budget request.

The agreement also includes $943 million for the Federal Emergency Management Agency—$800 million now and $143 million when the President submits a budget request.

In addition, the conferees agreed to provide $4,083,500,000 for the incremental costs of Operation Desert Shield/Desert Storm.

As a start, we must join together to adopt this Dire Emergency Disaster Assistance Bill.

The conditions resulting from the widespread disasters continue to get worse. There are now 44 Presidentially declared disasters which affect 33 States and an additional 89 disasters have been declared by the Secretary of Agriculture which affect 39 States. With reductions in employment, in production, and exports resulting from these disasters, when added to our mistaken policies, it is apparent that the Nation must take action. It has been over 6 months since we called attention to the problem, the facts of which are well known.

In the years 1990 and 1991, disaster declarations have been declared or are pending for 11 States in the East, 8 States in the Southeast, 8 South Central States, 11 North Central States, 6 States in the Northwest, and 6 States in the Southwest. Thus, in connection with this, the Congress and the President have declared these domestic needs to be dire emergencies so that other essential programs won't be reduced by sequestration as has been done to fiscal year 1991 programs which were reduced thirteen ten-thousandths of 1 percent by the Office of Management and Budget based on its own counting without the approval of the Congress.

To begin to meet these problems, this Dire Emergency Supplemental provides funds to meet the disasters which have hit the Nation since last October and to provide more funds for Hurricane Hugo damage and the 1989 California earthquake.

Recently, Hurricane Bob struck the Northeast coast. To date, estimated costs for the disasters declared due to this hurricane are approximately $52 million.

Farmers in Minnesota and Iowa were unable to plant their crops due to an unprecedented spring and summer rainfall. Furthermore, many crops which may have been planted were destroyed because of flooding.

Since early spring of this year, tremendous storms with accompanying torrential rain and winds have hit areas of the country. At one point, over 4 million acres of land in the Mississippi River Delta were inundated, destroying or damaging drainage ditches, bridges, roads, homes, and farms. Additionally, some of the worst drought conditions of the century have affected other parts of the country.

Since October 1990, there have been disasters which resulted in calls for the National Guard and other assistance. Mr. Chairman, in fiscal 1990 the Guard was called out 292 times in 38 States; in fiscal 1991, 337 times in 42 States. This need will continue and shows the tremendous peacetime mission the Guard has. Because they are local, they play a big part in support of the regular services.

Mr. Speaker, this is a good agreement, and I urge it be adopted.

☐ 0220

I do not know whether any of you have noticed it, but each week whatever groceries you buy have increased in price. For the years 1990 and 1991 the agricultural related disaster declarations have been getting worse.

What we are trying to do in this bill, and what we have done, is to recommend funds for holding our country together.

May I say again that your committee is trying to save our country and restore it. And I point out again the policies that we have been following have contributed greatly to our decline. We have given away billions of dollars of our domestic markets, and we are the ones who set up the European Common Market, not they; we are the ones that financed the defense of Japan so that they could build up their economy, and then we get stuck.

May I say again that in voting for this bill tonight, we are trying to save our country. I want to say right now that just as sure as I am standing here, we are going to be faced with the need for a jobs bill. Since 1981, the 1981 Tax Act has lost over $2.4 trillion in income. In 1982 we had a disastrous year, a rescission of over $14 billion, and by late 1982 we had a recession.

During Easter 1983, at the request of my colleagues, I stayed here and worked out the jobs bill. We came up with a jobs bill which left it up to the local people so that you had something to show for it. In other words, investment spending. We bailed out the country.

At the local level throughout the United States, we tried to be sure we got our money's worth.

May I say again, so many people do not realize or seem to know that wealth and money are not the same thing. They are not. Wealth is solid, material things. We are going to have to try to look after our own country because all this foreign aid and military spending depends on your own country to finance and support it.

May I say again it is not the fault of this committee or this group of conferees that these items that have been complained about are not included. We were faced with sequestration, which means everything would have been cut. We had to bring back the best we could.

So, if you want to go after the real problem, go after that which holds back what we can do—the Budget Act. If you do not stay within the limits, then sequestration takes effect. That is what we have to work with.

That is where your problem is caused.

I repeat again, for what it is worth, for WIC we have $250 million increase over last year to take care of an additional 300,000 participants per month. I agree with you the need is there, and I agree we are right in trying to hold the country together. We are going to have to look after our own country because all the rest depends on our country.

The other thing I want to say to you is that we live in a competitive world. We tried to sell apples in foreign countries, and they turned us down because they have artificial coloring on them. We tried to sell breed stock cattle to England, and they would not let us sell it because of the hoof and mouth disease; they had it, and we did not.

So I say tonight, it is time we look at our situation, see where the cause is, and correct it.

But I would like for you to understand these other facts—we have to regain our foreign markets, maintain our present domestic markets, and get away from being told what we can do by the Office of Management and Budget, and get away from the sequestration.

Mr. Speaker, I urge adoption of this conference report and reserve the balance of my time.

Mr. MURTHA. Mr. Speaker, chapter 1 of the bill deals with the matters affecting the Department of Defense:

Approved $4 billion in new authority to finance the costs of Operation Desert Shield/Desert Storm.

These appropriations were requested to replace material lost or consumed during combat and to provide for the rehabilitation and repair of equipment resulting from heavy use during Desert Shield/Desert Storm.

In addition, authority is provided to transfer $6.3 billion among accounts in fiscal year 1991 to adjust funding previously provided in the initial Desert Shield/Desert Storm supplemental enacted last April.

The most recent cost estimate of the conflict is $61.1 billion.

After factoring out: cash contributions from foreign countries; in-kind assistance from various countries; and the fact that various equipment which was destroyed will not be replaced, the actual cost of the conflict not covered by foreign contributions is estimated to be approximately $4.4 billion.

Basically, we have approved the budget request with several exceptions:

We provided $145,000,000 in additional funds to buy Patriot missiles.

We provided $25,000,000 in additional funds for advance procurement of engines and generators for the LSD–41 dock landing ship.

We provided $10,100,000 for the purchase of one MH–60E helicopter for the National Guard and Reserve.

We provided authority to allow the transfer of not to exceed $400,000,000 of defense funds to aid in the destruction of nuclear and other weapons in the Soviet republics and the Soviet Union.

We provided authority to allow the transfer of not to exceed $100,000,000 of defense funds to provide transportation of food, medical supplies, and other humanitarian assistance to the Soviet Union and the Soviet republics.

The SPEAKER pro tempore (Mr. BROWN). The gentleman from Pennsylvania [Mr. MCDADE] is recognized for 30 minutes.

Mr. MCDADE. Mr. Speaker, let me say to my colleagues that I have the long speech and the short speech, and you are going to get the short one at 20 minutes past 2 in the morning

I want to say this is the first time, my friends, in the 5 months this bill has been pending that I have risen in support of this bill. It is not only me, but I want you to know that every member of the conference committee on both sides of the aisle has signed the conference report.

The President, I am authorized to tell you, is waiting, should we decide to send the bill down, to sign it.

It has three principal components in it:

The first component is the funding for the Desert Storm operation, roughly $4 billion, all of which is funded by foreign contributions and is outside of the budget caps.

The second portion of it consists of emergency money for agricultural disasters in the country. That sum is $995 million, and covers crop year 1990 or 1991, at the farmer's choice. There is an additional $755 million that becomes available if the President requests it and designates it as an emergency.

The third major component in the bill is for disaster assistance under the Federal Emergency Management Administrations which is in the bill at $800 million, and covers the backlog of every single natural disaster which has occurred around the country and for which a lot of your communities are sitting and waiting. There is an additional $143 million that becomes available if the President requests it and designates it as an emergency.

That is the essence of the bill.

I urge your approval of the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. WHITTEN. Mr. Speaker, I yield 2 minutes to my colleague, the gentleman from Arkansas [Mr. ALEXANDER].

Mr. ALEXANDER. Mr. Speaker, I commend the action of the conferees to correct the practice of the Defense Department of exporting American jobs to foreigners. Section 107 prevents the use of U.S. tax dollars to import 4-ton dolly jacks that are efficiently manufactured here at home. It is anti-American to export jobs to foreign countries when jobs are scarce in the United States. This practice must be stopped. I appreciate the committee for supporting my amendment. This section saves American jobs and keeps our people working so they can support their families.

Mr. Speaker, I would like to engage the chairman of the Subcommittee on Energy and Water, the gentleman from Alabama [Mr. BEVILL] in a short colloquy.

Mr. Speaker, when the Senate passed the fiscal year 1992 dire emergency supplemental appropriations bill, an amendment was adopted regarding an extension of certain FERC license deadlines for hydroelectric power projects which have or are soon to expire. That amendment, which was identical to S. 1283 as passed by the Senate, was dropped during conference consideration of the dire emergency supplemental appropriations measure.

I am aware that the House committee with jurisdiction over S. 1283, and a similar bill, H.R. 2677, which I introduced, plans to take action on these proposed extensions en bloc in the near future. I seek clarification from the chairman that the conferees's action to delete the amendment was in deference to the House authorization committee and in no way reflects on the merits of the proposed extensions.

Mr. Speaker, I ask the gentleman, is this correct?

Mr. BEVILL. Mr. Speaker, will the gentleman yield?

Mr. ALEXANDER. I yield to the chairman, the gentleman from Alabama [Mr. BEVILL].

Mr. BEVILL. I thank the gentleman for yielding.

Mr. Speaker, the gentleman is correct.

Mr. MCDADE. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from New York [Mr. GREEN] a member of our subcommittee.

Mr. GREEN of New York. I thank the distinguished ranking minority member of the Committee on Appropriations for yielding the time to me.

I take this time because I think Members should understand that, in addition to appropriating funds to clean up the FEMA backlog, we have established important new grounds rules for FEMA of which everyone should be aware.

The appropriations for FEMA involve a total of $943 million, of which $800 million is agreed to between the Administration and the Congress as emergency funds for 1990 Budget Act purposes. The balance of $143 million may be spent by the administration only if the administration determines that the purpose for which it seeks the funds qualifies as an emergency under the 1990 Budget Act and will not trigger a sequester. That is what we did for the current fiscal year.

□ 0230

But in addition to that, as I mentioned, we established some new ground rules, because the administration has been complaining that the shortfall in funds which we were facing this calendar year was the result of congressional failure to provide as much money to the disaster relief account as history had suggested it needed and as the administration had requested, and frankly the administration had a good case in making that claim. As a result, this bill provides that there will be a baseline established of $320 million for a fiscal year, which is agreed to as the recent historical average of emergency needs for the FEMA program, or such lesser amount as the administration may request in its budget recommendations for any fiscal year. That amount will be a baseline which must be met before amounts above that level, which are agreed to by the Congress and the administration, may be deemed to be emergencies.

So, Mr. Speaker, I think that this agreement will deal with the concerns of the administration that by underfunding this account in past years we created an artificial emergency. we shall now have a baseline by which to judge that every year.

Since the report of the managers is a little obscure in its language, let me make it clear that shortfalls below the baseline do not carry over from year to year. So, for example, if the administration requests $320 million, and we appropriate only $250 million, and only $250 million is needed in that fiscal

year, then the $70 million shortfall does not carry over, and we start afresh in the next fiscal year. So there will be no carryover of gaps between the baseline and the amount appropriated if in fact the lower appropriation proves to be all that is needed in that fiscal year.

I apologize to my colleagues for discussing this at this hour of the night, but I think it is important to make clear in the RECORD and for my colleagues' understanding just what the ground rules are going to be as to when FEMA appropriations are going to be considered emergencies and when they are not.

Mr. WHITTEN. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. Fazio], a member of the committee.

Mr. FAZIO. Mr. speaker, I appreciate the gentleman from Mississippi [Mr. WHITTEN] yielding this time to me.

Mr. Speaker, I simply want to thank the chairman for help on three different disasters that have faced California in the last years. we are still finding $300 million in the Loma Prieta earthquake in this bill. There will be at least $300 million to deal with the freeze that beset the San Joaquin Valley and $100 million to take care of those people in the city of Oakland who suffered the loss of public facilities.

I know that the California delegation appreciates the committee's assistance in the context of this supplemental, and I am hopeful that a much larger percentage of them will support final passage than supported the rule.

Mr. Speaker, I rise in strong support of the conference report on the dire emergency appropriations bill for fiscal year 1992.

The measure is a good compromise. It will get some immediate relief to the victims of natural disasters throughout our country, affording them the same assistance that we have provided to the victims of natural disaster in other parts of the world.

Despite my strong support for the conference report, Mr. Speaker, I remain disappointed that the President would not agree to make the full $1.75 billion in crop loss disaster assistance and $943 million in FEMA aid, as proposed by the House, immediately available.

The House and Senate have both stated very emphatically the belief that there are emergency requirements outstanding that will reach at least the levels set in the original House and Senate bills. We know, for example, that eligible crop losses across the country may exceed $2 billion.

But the President was unwilling to make immediately available what we believe to be the required level of disaster assistance. Therefore, while under the measure we have made most of the funds immediately available, a portion of the moneys will be made available only if the President determines that an emergency exists and thereby releases the funds. No further action by Congress will be required, however.

Of the $1.75 billion in crop loss assistance, $995 million will be made available immediately and $755 million is provided, contingent upon a Presidential declaration that an emergency exists. Of the $943 million for FEMA, $800 million will be available immediately and $143 million could be made available by the President, if he exercises his emergency authority.

But the conference report appropriates what we believe will be required to meet our Federal disaster assistance obligations and gives the President the authority and flexibility to respond.

Mr. Speaker, for my own State of California this bill is particularly critical. My State has suffered from one major natural disaster after another. The bay area is still recovering from the Loma Prieta earthquake. The Oakland fire last month was among the worst natural disasters to hit our State. And, the farmers and farm communities throughout the State, particularly in the San Joaquin Valley, are still trying to recover from the devastating freeze which hit the State last December.

The measure will provide roughly $100 million to help rebuild fire damaged areas of Oakland, up to $425 million for farmers and farm communities hit by last December's freeze, and an estimated $300 million to clear up Federal obligations still outstanding from the 1989 Loma Prieta earthquake.

Mr. Speaker, all year long, the President has been handing out aid to the victims of disasters in foreign countries. And, while these are laudable causes, he has repeatedly turned his back on those in our own country who have suffered from similar emergencies. We have fought and fought for this aid, and, now, hopefully, the President will sign this bill and get the aid flowing to those in our own country who are entitled to this essential assistance.

I want to also explain another item which affects the legislative branch appropriation.

In section 209, we have provided authority to spend donated funds for construction drawings and specifications for the replacement of the Botanic Garden Conservatory.

All Members should realize that part of this historic building will be torn down within a few weeks. The middle portion—the Palm House—is in such a deteriorated and even dangerous condition that it must be razed.

The balance of the building—the Fern House, the Orangerie, the display halls—all require immediate structural and environmental repair.

The entire project will cost from $20 to $30 million. We did not even have the funds for the construction drawings.

So the good people who are raising donations for the National Garden—Lindy Boggs, the wives of Senator BENTSEN and Senator JOHNSON—came to us and said they would like to raise funds for the design. That will cost almost $2 million.

The Senate bill gave the Architect of the Capitol the authority to expend the $2 million—but subject to an authorization bill being passed.

We were informed that the authorizing committees—Senate Rules and House Administration—would probably not get to that matter this session.

So the conferees on the supplemental decided to insert the authorization also, so that this important design could go forward.

We had to make some adjustments in the authorization introduced by Senator PELL because of the scorekeeping rules. The OMB and CBO agreed those adjustments were necessary to prevent the bill from being scored and perhaps trigger a sequestration.

The conferees have provided authority to accept gifts or bequests of money in the amounts provided in appropriation acts in section 307E(b)(1). It is not the intent of the conferees that gifts or bequests of a nonmonetary nature be included in such limitations.

So all we are doing is trying to use other sources of funds—private donations—to keep our physical plant in repair. I think we owe that to the American people.

Mr. MCDADE. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Missouri [Mr. COLEMAN], the ranking member of the Committee on Agriculture.

Mr. COLEMAN of Missouri. Mr. Speaker, I rise to express my support of language included in this conference report that will protect the pension benefits of thousands of TWA employees. The amendment ensures that up to $1 billion of unfunded pension liability will not, by means of a slick legal maneuver, be transferred to the Pension Benefit Guaranty Corporation.

The owner of TWA, Carl Icahn, is currently negotiating with creditors to develop a prepackaged bankruptcy agreement. Under current law, Mr. Icahn, as the holder of more than 80 percent of the airline's common stock, is deemed in control of TWA. Furthermore, the law holds the other businesses he controls in common with TWA liable for the pension obligations.

Mr. Icahn proposes, as part of the agreement, to decrease his ownership below 80 percent, but to retain control of the TWA board and management. If accepted, this proposal would insulate Mr. Icahn and his financial empire from the liability for the unfunded pension obligations. Those obligations have been estimated to be from $150 to $900 million.

Mr. Speaker, this amendment has been very narrowly drawn, and applies only to the particular situation involving TWA. Without it, the Pension Benefit Guaranty Corporation, already dealing with an accumulated deficit of $1.8 billion, will be forced to pickup some $440 million in guaranteed benefits for TWA employees. And without it, TWA employees will lose an estimated $400 million in promised, but not PBGC guaranteed, pension benefits.

I urge my colleagues to accept this language.

Mr. WHITTEN. Mr. Speaker, I yield 3 minutes to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I thank the gentleman from Mississippi [Mr. WHITTEN] very much for yielding this time to me.

Mr. Speaker, I just wanted to say again that, as I read this bill, the congressional designations of emergency

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

points out that, while the President had only designated portions of the funds dealing with Desert Shield and Desert Storm, the Congress believed others should have a higher priority, and that is what I had hoped children would get.

I must say that, as I read this bill, and I have not had time to get through all of it, but I see in here a $1½ million to the State of Maine for potato disease. There is something in here I do not understand where we are increasing $14 million to something called fishing vessel obligation guarantees. Then the Kurdish protection forces, and, as my colleagues know, I can keep reading this about the Kuwaitis and the Saudis not paying their parking tickets to the tune of a lot of money, and on, and on, and on.

Mr. Speaker, I just, as I say, am very sad to stand here and take on the Committee on Appropriations, but, when I look at all of this, I certainly think America's children were entitled to the same kind of coverage, and it saddens me. I have to keep reiterating this over and over again, but the more I read, the more I am horrified at those who got a higher priority than kids, and that makes me very sad.

Mr. McDADE. Mr. Speaker, I yield 1 minute to my colleague, the gentleman from Pennsylvania [Mr. GEKAS].

Mr. GEKAS. Mr. Speaker, I thank the gentleman from Pennsylvania [Mr. McDADE] for yielding this time to me.

Mr. Speaker and Members of the House, in voting in favor of this resolution, I cast that vote to keep faith with the farmers who will benefit from the impact of this legislation, and with the FEMA personnel who also will benefit, and we who at large know what devastation the farms of our country have faced this past year during the drought.

Mr. WHITTEN. Mr. Speaker, I yield 1 minute to myself.

Mr. Speaker, I would like to point out, in view of statements that have been made earlier, the fiscal year 1992 appropriations bill, which was signed into law October 28, 1991, provides $2.6 billion for WIC—an increase of $250 million above the 1991 level. May I say that there were 4.9 million persons in fiscal year 1991 that were served, and, for the present year, 5.2 million persons—an increase of 300,000. Within the limits of the possible we have done the very best we could, and I think the RECORD should show it.

Mr McDADE. Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. Mr. Speaker, I thank the gentleman from Pennsylvania [Mr. McDADE] for yielding this time to me.

On page 158–200 of the report I come across an interesting item that sounds like a dire emergency to me.

Notwithstanding any other provision of law, funds available to the Animal and Plant Health Inspection Service of the Department of Agriculture for fiscal year 1992 shall be made available as a grant in the amount of $530,000 to the State of Maine Department of Agriculture, Food and Rural Resources for potato disease detection, control, prevention, eradication and related activities including the payment of compensation to persons for economic losses associated with such efforts conducted or to be conducted in the State of Maine and any unobligated balances of funds previously appropriated or earmarked for potato disease efforts by the Secretary of Agriculture shall remain available until expended by the Secretary.

Mr. Speaker, is this a dire emergency that was requested by the President?

Mr McDADE. Mr. Speaker, I yield myself such time as I may consume.

May I say to my colleague that it was not in the budget submitted by the President, no.

Mr. WALKER. I thank the gentleman from Pennsylvania.

Mr. WHITTEN. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. CHAPMAN].

Mr. CHAPMAN. Mr. Speaker, I would like to take less than a minute to thank the gentleman from Mississippi [Mr. WHITTEN] for this legislation. I urge my colleagues to support it.

Contained in this bill, the disaster assistance is going to assist agriculture producers all across this country. A number of those are in my northeast Texas district where in May 1990 the Red River was 10 miles wide. Tens of thousands of acres of farmland were flooded. Those folks have had no funding for the authorized disaster programs that Congress has passed.

□ 0240

Tonight we will give them that needed funding, breathe life into those producers, and for that, Mr. Chairman, my constituents owe you a debt of gratitude, and so do I.

I urge my colleagues to support this legislation and help us rebuild the assets that have made this country great and give our agriculture producers around this country a chance to get back on their feet.

Mr. McDADE. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. EWING].

Mr. EWING. Mr. Speaker, I rise in strong support of the dire emergency supplemental legislation, which includes much-needed relief for those affected by natural disasters throughout the country, including this summer's Midwest drought.

The country has seen an unusually high level of natural disasters, including drought, flooding, freezing, and fires. In Illinois, many farmers had no rain at all during the critical growing season. Many are facing significant looses, some are facing total losses. Without this legislation, many will go out of business and join the ranks of the unemployed.

While national production may be average, this drought has been spotty, and those who have been hit have been hit very hard. This legislation is critically necessary to thousands of agricultural producers.

This drought comes on the heels of devastating droughts in 1980, 1983, and 1988 and is particularly devastating to many farmers who are still trying to recover financially from this long string of droughts.

Drought relief has been languishing in Congress for over 4 months. The time has come for us to act. I want to thank the President and congressional leaders for reaching this agreement. If we act tonight, we can deliver this much-needed assistance before Christmas.

Mr. Speaker, drought relief is very important for our economy and for thousands of farmers and others throughout the country. I urge my colleagues to support this legislation.

Mr. WHITTEN. Mr. Speaker, I yield 5 minutes to the gentleman from Illinois [Mr. HAYES].

Mr. HAYES of Illinois. Mr. Speaker, you are going to get some regular order. I was almost asleep until I saw this in here where they deleted certain provisions from this bill.

I want to ask if I can engage in a colloquy with the chairman of the committee.

What were the reasons for the deletion of the agreement not to include supplemental appropriations for $1.2 billion for Head Start; $100 million for women and children, the WIC Program; and the Nutrition Program; and $90 million for the Childhood Immunization Program?

I cannot go back to my poor kids in my community and not be able to explain why we do not have this kind of money.

Mr. NATCHER. Mr. Speaker, will the gentleman yield?

Mr. HAYES of Illinois. I am happy to yield to the gentleman from Kentucky.

Mr. NATCHER. Mr. Speaker, I want to say to my friend from Chicago that I do not know of a single Member in this House who is against Head Start, against the WIC Program, or against the Childhood Immunization Program.

The amendment offered by the gentlewoman from Colorado, as the gentleman knows, added $1.2 billion to the Head Start Program. The regular bill, I say to my friend from Chicago, had $2,202,000,000 for Head Start for fiscal year 1992. This is an increase of $250 million. This follows a $400 million increase in Fiscal Year 1991. As far as the Childhood Immunization Program is concerned, in the regular bill we have $298 million, and this is an $80 million increase over 1991.

Not a single dollar of the money added by the gentlelady would have been dropped by the conferees if it had not been for the two letters that the conferees received from OMB. One of them was directed to the Chairman of the Committee on Appropriations in the Senate, Mr. BYRD. The other was directed to my chairman, the gentleman from Mississippi [Mr. WHITTEN]. These letters informed the conferees that if these supplemental amounts remained in the bill, not qualifying under the emergency category, there would be a sequester. This sequester would be up to 2.7 percent across the entire domestic discretionary budget for fiscal year 1992. The gentleman from Illinois would not like it, and I would not like it. Think about it.

Let me say to the gentleman that this 2.7-percent reduction across the entire budget would cover all 10 domestic appropriation bills. Not $1 would have been removed if these amounts added by the gentlewoman from Colorado could have been classified under the emergency category. Every dollar would have remained in there. The gentleman and I are both for Head Start. We are both for the WIC Program. We are also for childhood immunization.

Mr. HAYES of Illinois. I am not sure OMB is, if I can reclaim my time.

Mr. NATCHER. No. I understand. But let me say this to the gentleman; I do not know of a Member in this House that is against any one of these three programs. They would have remained if there had not been the threat of this sequester.

Mr. HAYES of Illinois. I want it clearly understood that I am not blaming the gentleman, but I want it clearly understood, too, that our priorities are on the wrong end. We are not doing enough for poor kids who are tomorrow's leaders in this great Nation of ours. We tend to forget. We do not know where our priorities are. We look at some of the money we spent for bridges and other things within this bill, and when you really look at it, we are really behind the times of where we need to move.

Mr. McDADE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WHITTEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. BROWN). Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. DANNEMEYER. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 303, noes 114, not voting 17, as follows:

Messrs. CAMPBELL of Colorado, MFUME, and GREEN of Texas changed their vote from "aye" to "no."

Mr. WILLIAMS changed his vote from "no" to "aye."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON GOVERNMENT OPERATIONS TO FILE SUNDRY REPORTS

Mr. CONYERS. Mr. Speaker, I ask unanimous consent that the Committee on Government Operations have until 6 p.m. on Friday, December 20, 1991, to file sundry reports.

The SPEAKER pro tempore (Mr. BROWN). Is there objection to the request of the gentleman from Michigan?

There was no objection.

TAX EXTENSION ACT OF 1991

The SPEAKER pro tempore. The unfinished business is the question of sus-

□ 0326

Mr. HUTTO changed his vote from "nay" to "yea."

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. WEISS. Mr. Speaker, I was unavoidably absent on certain rollcall votes on November 6 and 7. I wish to have the RECORD indicate that had I been present, I would have voted "aye" on rollcall votes 283, 376, 385, and 386.

I would have voted "no" on rollcall votes 321, 322, and 363.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 585, THE NATIONAL BIOLOGICAL DIVERSITY CONSERVATION AND ENVIRONMENTAL RESEARCH ACT

Mr. SCHEUER. Mr. Speaker, I ask unanimous consent that the name of Hon. JAMES OLIN be removed from the list of cosponsors to H.R. 585, the National Biological Diversity Conservation and Environmental Research Act. His name was placed on the list due to a clerical error.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2824

Mr. LANCASTER. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2824.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF HOUSE CONCURRENT RESOLUTION 210

Mr. SMITH of Florida. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of House Concurrent Resolution 210.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

KONIAG LANDS CONVEYANCE AMENDMENTS OF 1991

The SPEAKER pro tempore. The unfinished business is the question of suspending the rules and passing the bill, H.R. 3638.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Yesterday the House vacated the ordering of the yeas and nays on Saturday, November 23, 1991, by unanimous consent.

The question is on the motion offered by the gentleman from North Carolina [Mr. JONES] that the House suspend the rules and pass the bill, H.R. 3638.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION PROVIDING FOR DISPOSITION OF SENATE AMENDMENTS TO H.R. 3807, CONVENTIONAL FORCES IN EUROPE TREATY IMPLEMENTATION ACT OF 1991

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 102–401) on the resolution (H. Res. 316) providing for disposition of the Senate amendments to the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 102–402) on the resolution (H. Res. 317) waiving all points of order against the conference report on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for the construction of highways, for highway safety programs, and for mass transit programs, and for other purposes, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

□ 0330

WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 317 and, pursuant to House Resolution 294, ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 317

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for the construction of highways, for highway safety programs, and for mass transit programs, and for other purposes. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore (Mr. HOYER). The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, I yield the customary 30 minutes to the gentleman from Ohio [Mr. MCEWEN] pending which I yield myself such time as I may consume.

Mr. MOAKLEY. Mr. Speaker, during debate on House Resolution 317, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 317, is the rule providing for the consideration of the conference report on H.R. 2950, the Intermodel Surface Transportation Infrastructure Act of 1991. The rule waives all points of order against the conference report and against its consideration. The rule also provides that the conference report will be considered as read.

Mr. Speaker, H.R. 2950 provides a total of $151 billion for surface transportation over the next 6 years. The conference report authorizes $119 billion for highway construction and $32 billion for mass transit construction and expansion.

In addition, Mr. Speaker, the conference report authorizes $38 billion for a 155,000-mile National Highway System, $16 billion for a bridge replacement and rehabilitation program, $24 billion for the flexible surface transportation program, and increases from 85 to 90 percent the guaranteed minimum allocation for each State relative to its share of highway trust fund contributions.

Mr. Speaker, Chairman ROE and the ranking Republican member, Mr. HAMMERSCHMIDT, deserve our praise for their relentless efforts in bringing this most important measure to this phase of the legislative process. The gentleman from California, Mr. MINETA and the gentleman from Pennsylvania, Mr. SHUSTER also deserve our gratitude for the many long hours they have spent on this bill.

Mr. Speaker, this conference agreement strikes a reasonable balance and represents a consensus on this important legislation. The effort all the conferees deserves the appreciation of all Members of the House and I urge Members to support the rule and the conference report.

Mr. MCEWEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I join the distinguished chairman of the Committee on Rules, the gentleman from Massachusetts [Mr. MOAKLEY] in the explanation of the conference report, House Resolution 317, the Intermodal Surface Transportation and Infrastructure Act of 1991.

As was stated by the chairman, the rule does waive points of order and brings before us the major provisions of this important legislation.

I join the chairman in expressing my appreciation to the chairman of the committee, the gentleman from New Jersey [Mr. ROE] and the ranking member of the full committee, the gentleman from Arkansas [Mr. HAMMERSCHMIDT], the chairman of the Subcommittee on Surface Transportation, the gentleman from California [Mr. MINETA], and his ranking member, the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. Speaker, only five provisions of the bill that were not mentioned by the chairman that I would make note of. Of the $119 billion for highway construction and repairs, $31.5 billion is for mass transit; a Federal-State match share of 80/20 for all programs except interstate highway projects, which will be 90/10; authorization of $7.2 billion for completion of the Interstate System as well as $16 billion for a rebuilding program for the Nation's bridges; a Corridor of National Significance Program; and a freeze to prevent expanded use of triple-trailer trucks.

Mr. Speaker, it is vitally important that this legislation, which is an authorization beginning October 1, recognizing this is the end of November, it is important for this legislation to be enacted.

Mr. Speaker, I urge the support of the House.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio [Mr. TRAFICANT].

Mr. TRAFICANT. I thank the gentleman for yielding.

Mr. Speaker, the Republicans want a growth package, the Democrats want a growth package, the American people are looking for an economic growth package. This is probably the best economic growth package that the Congress will vote on. This will set in motion high-speed rail, it will complete the intermodal system and our highway system, and this bill will create potentially 2 million jobs, 2 million jobs. This may be the most important economic growth package we will vote on in the next 8 years.

I encourage everybody to vote for the rule.

I appreciate the work done by the committee under the first big time of our committee chairman, the gentleman from New Jersey [Mr. ROE], the gentleman from Arkansas [Mr. HAMMERSCHMIDT], the gentleman from Pennsylvania [Mr. SHUSTER], and the gentleman from California [Mr. MINETA].

This is a good bill.

Mr. MCEWEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

APPOINTMENT OF CONFEREES ON H.R. 3595, MEDICAID MORATORIUM AMENDMENTS OF 1991

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3595) to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the medicaid program and to maintain the treatment of intergovernmental transfers as such a source with a Senate amendment thereto, disagree to the Senate amendment, and request a conference with the Senate thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California? The Chair hears none and, without objection, appoints the following conferees: Messrs. DINGELL, WAXMAN, and LENT.

There was no objection.

JUDICIAL NATURALIZATION AMENDMENTS OF 1991

Mr. MAZZOLI. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3049) to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments as follows:

Senate amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Miscellaneous and Technical Immigration and Naturalization Amendments of 1991".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—JUDICIAL NATURALIZATION CEREMONIES AMENDMENTS

Sec. 101. Short title of title.
Sec. 102. Court authority to administer oaths of allegiance for naturalization.

TITLE II—O AND P NONIMMIGRANT AMENDMENTS

Sec. 201. Short title of title.
Sec. 202. Repeal of numerical limitations on P-1 and P-3 nonimmigrants; GAO report.
Sec. 203. Standards for classification of P-1 nonimmigrants.

TITLE I—JUDICIAL NATURALIZATION CEREMONIES AMENDMENTS

SEC. 101. SHORT TITLE OF TITLE.

This title may be cited as the "Judicial Naturalization Ceremonies Amendments of 1991".

SEC. 102. COURT AUTHORITY TO ADMINISTER OATHS OF ALLEGIANCE FOR NATURALIZATION.

(a) IN GENERAL.—Subsection (b) of section 310 of the Immigration and Nationality Act (8 U.S.C. 1421), as amended by section 401(a) of the Immigration Act of 1990, is amended to read as follows:

"(b) COURT AUTHORITY TO ADMINISTER OATHS.—

"(1) JURISDICTION.—Subject to section 337(c)—

"(A) GENERAL JURISDICTION.—Except as provided in subparagraph (B), each applicant for naturalization may choose to have the oath of allegiance under section 337(a) administered by the Attorney General or by an eligible court described in paragraph (5). Each such eligible court shall have authority to administer such oath of allegiance to persons residing within the jurisdiction of the court.

"(B) EXCLUSIVE AUTHORITY.—An eligible court described in paragraph (5) that wishes to have exclusive authority to administer the oath of allegiance under section 337(a) to persons residing within the jurisdiction of the court during the period described in paragraph (3)(A)(i) shall notify the Attorney General of such wish and, subject to this subsection, shall have such exclusive authority with respect to such persons during such period.

"(2) INFORMATION.—

"(A) GENERAL INFORMATION.—In the case of a court exercising authority under paragraph (1), in accordance with procedures established by the Attorney General—

"(i) the applicant for naturalization shall notify the Attorney General of the intent to be naturalized before the court, and

"(ii) the Attorney General—

"(I) shall forward to the court (not later than 10 days after the date of approval of an application for naturalization in the case of a court which has provided notice under paragraph (1)(B)) such information as may be necessary to administer the oath of allegiance under section 337(a), and

"(II) shall promptly forward to the court a certificate of naturalization (prepared by the Attorney General).

"(B) ASSIGNMENT OF INDIVIDUALS IN THE CASE OF EXCLUSIVE AUTHORITY.—If an eligible court has provided notice under paragraph (1)(B), the Attorney General shall inform each person (residing within the jurisdiction of the court), at the time of the approval of the person's application for naturalization, of—

"(i) the court's exclusive authority to administer the oath of allegiance under section 337(a) to such a person during the period specified in paragraph (3)(A)(i), and

"(ii) the date or dates (if any) under paragraph (3)(B) on which the court has scheduled oath administration ceremonies.

If more than one eligible court in an area has provided notice under paragraph (1)(B), the Attorney General shall permit the person, at the time of the approval, to choose the court to which the information will be forwarded for administration of the oath of allegiance under this section.

"(3) SCOPE OF EXCLUSIVE AUTHORITY.—

"(A) LIMITED PERIOD AND ADVANCE NOTICE REQUIRED.—The exclusive authority of a court to administer the oath of allegiance under paragraph (1)(B) shall apply with respect to a person—

"(i) only during the 45-day period beginning on the date on which the Attorney General certifies to the court that an applicant is eligible for naturalization, and

"(ii) only if the court has notified the Attorney General, prior to the date of certification of eligibility, of the day or days (during such 45-day period) on which the court has scheduled oath administration ceremonies.

"(B) AUTHORITY OF ATTORNEY GENERAL.—Subject to subparagraph (C), the Attorney General shall not administer the oath of allegiance to a person under subsection (a) during the period in which exclusive authority to administer the oath of allegiance may be exercised by an eligible court under this subsection with respect to that person.

"(C) WAIVER OF EXCLUSIVE AUTHORITY.—Notwithstanding the previous provisions of this paragraph, a court may waive exclusive authority to administer the oath of allegiance under section 337(a) to a person under this subsection if the Attorney General has not provided the court with the certification described in subparagraph (A)(i) within a reasonable time before the date scheduled by the court for oath administration ceremonies. Upon notification of a court's waiver of jurisdiction, the Attorney General shall promptly notify the applicant.

"(4) ISSUANCE OF CERTIFICATES.—The Attorney General shall provide for the issuance of certificates of naturalization at the time of administration of the oath of allegiance.

"(5) ELIGIBLE COURTS.—For purposes of this section, the term 'eligible court' means—

"(A) a District Court of the United States in any State, or

"(B) any court of record in any State having a seal, a clerk, and jurisdiction in actions in law or equity, or law and equity, in which the amount in controversy is unlimited.".

(b) CONFORMING AMENDMENTS.—

(1) FUNCTIONS OF CLERKS.—Section 339(a) of such Act (8 U.S.C. 1450(a)) is amended —

(A) by striking paragraph (1) and inserting the following:

"(1) deliver to each person administered the oath of allegiance by the court pursuant to section 337(a) the certificate of naturalization prepared by the Attorney General pursuant to section 310(b)(2)(A)(ii),",

(B) in paragraph (2), by inserting "a list of applicants actually taking the oath at each scheduled ceremony and" after "Attorney General",

(C) by striking paragraph (3),

(D) in paragraph (4), by striking the period at the end and inserting ", and" and by redesignating such paragraph as paragraph (3),

(E) by inserting after paragraph (3), as so redesignated, the following new paragraph:

"(4) be responsible for all blank certificates of naturalization received by them from time to time from the Attorney General and shall account to the Attorney General for them whenever required to do so.", and

(F) by adding at the end the following:

"No certificate of naturalization received by any clerk of court which may be defaced or injured in such manner as to prevent its use as herein provided shall in any case be destroyed,

but such certificates shall be returned to the Attorney General.".

(2) EXPEDITED ADMINISTRATION OF OATH.—Subsection (c) of section 337 of such Act (8 U.S.C. 1448) is amended to read as follows:

"(c) Notwithstanding section 310(b), an individual may be granted an expedited judicial oath administration ceremony or administrative naturalization by the Attorney General upon demonstrating sufficient cause. In determining whether to grant an expedited judicial oath administration ceremony, a court shall consider special circumstances (such as serious illness of the applicant or a member of the applicant's immediate family, permanent disability sufficiently incapacitating as to prevent the applicant's personal appearance at the scheduled ceremony, developmental disability or advanced age, or exigent circumstances relating to travel or employment). If an expedited judicial oath administration ceremony is impracticable, the court shall refer such individual to the Attorney General who may provide for immediate administrative naturalization.".

(3) FEES.—Section 344 of such Act (8 U.S.C. 1455) is amended by adding at the end the following new subsection:

"(f)(1) The Attorney General shall pay over to courts administering oaths of allegiance to persons under this title a specified percentage of all fees described in subsection (a)(1) collected by the Attorney General with respect to persons administered the oath of allegiance by the respective courts. The Attorney General, annually and in consultation with the courts, shall determine the specified percentage based on the proportion, of the total costs incurred by the Service and courts for essential services directly related to the naturalization process, which are incurred by courts.

"(2) The Attorney General shall provide on an annual basis to the Committees on the Judiciary of the House of Representatives and of the Senate a detailed report on the use of the fees described in paragraph (1) and shall consult with such Committees before increasing such fees.".

(c) EFFECTIVE DATE.—The amendments made by this title shall take effect 30 days after the date of the enactment of this Act.

TITLE II—O AND P NONIMMIGRANT AMENDMENTS

SEC. 201. SHORT TITLE OF TITLE.

This title may be cited as the "O and P Nonimmigrant Amendments of 1991".

SEC. 202. REPEAL OF NUMERICAL LIMITATIONS ON P-1 AND P-3 NONIMMIGRANTS; GAO REPORT.

(a) IN GENERAL.—Section 214(g)(1) of the Immigration and Nationality Act (8 U.S.C. 1184(g)(1)), as added by section 205(a) of the Immigration Act of 1990, is amended—

(1) by adding "or" at the end of subparagraph (A),

(2) by striking ", or" at the end of subparagraph (B) and inserting a period, and

(3) by striking subparagraph (C).

(b) REPORT.—(1) By not later than October 1, 1994, the Comptroller General of the United States shall submit to the Committees on the Judiciary of the Senate and of the House of Representatives a report containing information relating to the admission of artists, entertainers, athletes, and related support personnel as nonimmigrants under subparagraphs (O) and (P) of section 101(a)(15) of the Immigration and Nationality Act, and information on the laws, regulations, and practices in effect in other countries that affect United States citizens and permanent resident aliens in the arts, entertainment, and athletics, in order to evaluate the impact of such admissions, laws, regulations, and practices on such citizens and aliens.

(2) Not later than 30 days after the date the Committee of the Judiciary on the Senate receives the report under paragraph (1), the Chairman of the Committee shall make the report available to interested parties and shall hold a hearing respecting the report. No later than 90 days after the date of receipt of the report, such Committee shall report to the Senate its findings and any legislation it deems appropriate.

SEC. 203. STANDARDS FOR CLASSIFICATION OF P-1 NONIMMIGRANTS.

(a) SUBSTITUTION OF NEW STANDARDS.—Clause (i) of section 101(a)(15)(P) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended to read as follows:

"(i)(a) is described in section 214(c)(4)(A) (relating to athletes), or (b) is described in section 214(c)(4)(B) (relating to entertainment groups);".

(b) NEW STANDARDS.—Section 214(c)(4) of such Act, as added by section 207(b)(2)(B) of the Immigration Act of 1990, is amended by redesignating subparagraphs (A) through (C) as subparagraphs (C) through (E) and by inserting before subparagraph (C), as so redesignated, the following new subparagraphs:

"(A) For purposes of section 101(a)(15)(P)(i)(a), an alien is described in this subparagraph if the alien—

"(i) performs as an athlete, individually or as part of a group or team, at an internationally recognized level of performance, and

"(ii) seeks to enter the United States temporarily and solely for the purpose of performing as such an athlete with respect to a specific athletic competition.

"(B)(i) For purposes of section 101(a)(15)(P)(i)(b), an alien is described in this subparagraph if the alien—

"(I) performs with or is an integral and essential part of the performance of an entertainment group that has (except as provided in clause (ii)) been recognized internationally as being outstanding in the discipline for a sustained and substantial period of time,

"(II) in the case of a performer or entertainer, except as provided in clause (iii), has had a sustained and substantial relationship with that group (ordinarily for at least one year) and provides functions integral to the performance of the group, and

"(III) seeks to enter the United States temporarily and solely for the purpose of performing as such a performer or entertainer or as an integral and essential part of a performance.

"(ii) In the case of an entertainment group that is recognized nationally as being outstanding in its discipline for a sustained and substantial period of time, the Attorney General may, in consideration of special circumstances, waive the international recognition requirement of clause (i)(I).

"(iii)(I) The one-year relationship requirement of clause (i)(II) shall not apply to 25 percent of the performers and entertainers in a group.

"(II) The Attorney General may waive such one-year relationship requirement for an alien who because of illness or unanticipated and exigent circumstances replaces an essential member of the group and for an alien who augments the group by performing a critical role.

"(iv) The requirements of subclauses (I) and (II) of clause (i) shall not apply to alien circus personnel who perform as part of a circus or circus group or who constitute an integral and essential part of the performance of such circus or circus group, but only if such personnel are entering the United States to join a circus that has been recognized nationally as outstanding for a sustained and substantial period of time or as part of such a circus.".

SEC. 204. CONSULTATION REQUIREMENT.

Section 214(c) of the Immigration and Nationality Act, as amended by section 207(b)(2) of the Immigration Act of 1990, is amended—

(1) in paragraph (3)(A), by striking "after consultation with peer groups in the area of the alien's ability" and inserting "after consultation in accordance with paragraph (6)",

(2) in paragraph (3)(B), by striking ""after consultation with labor organizations with expertise in the skill area involved" and inserting "after consultation in accordance with paragraph (6) or, in the case of such an alien seeking entry for a motion picture or television production, after consultation with such a labor organization and a management organization in the area of the alien's ability",

(3) in paragraph (4)(C), as redesignated by section 203(b), by striking "clause (ii) of",

(4) in paragraph (4)(D), as redesignated by section 203(b), by striking "after consultation with labor organizations with expertise in the specific field of athletics or entertainment involved" and inserting "after consultation in accordance with paragraph (6)",

(5) by redesignating paragraph (6) as paragraph (7), and

(6) by inserting after paragraph (5) the following new paragraph:

"(6)(A)(i) To meet the consultation requirement of paragraph (3)(A) in the case of a petition for a nonimmigrant described in section 101(a)(15)(O)(i) (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a peer group (or other person or persons of its choosing, which may include a labor organization) with expertise in the specific field involved.

"(ii) To meet the consultation requirement of paragraph (3)(B) in the case of a petition for a nonimmigrant described in section 101(a)(15)(O)(ii) (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the skill area involved.

"(iii) To meet the consultation requirement of paragraph (4)(D) in the case of a petition for a nonimmigrant described in section 101(a)(15)(P)(i) or 101(a)(15)(P)(iii), the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the specific field of athletics or entertainment involved.

"(B) To meet the consultation requirements of subparagraph (A), unless the petitioner submits with the petition an advisory opinion from an appropriate labor organization, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization within 5 days of the date of receipt of the petition. If there is a collective bargaining representative of an employer's employees in the occupational classification for which the alien is being sought, that representative shall be the appropriate labor organization.

"(C) In those cases in which a petitioner described in subparagraph (A) establishes that an appropriate peer group (including a labor organization) does not exist, the Attorney General shall adjudicate the petition without requiring an advisory opinion.

"(D) Any person or organization receiving a copy of a petition described in subparagraph (A) and supporting documents shall have no more than 15 days following the date of receipt of such documents within which to submit a written advisory opinion or comment or to provide a letter of no objection. Once the 15-day period has expired and the petitioner has had an opportunity, where appropriate, to supply rebuttal evidence, the Attorney General shall adjudicate such petition in no more than 14 days. The Attorney General may shorten any specified time

period for emergency reasons if no unreasonable burden would be thus imposed on any participant in the process.

"(E)(i) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant artists or entertainers described in section 101(a)(15)(O) or 101(a)(15)(P) to accommodate the exigencies and scheduling of a given production or event.

"(ii) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant athletes described in section 101(a)(15)(O)(i) or 101(a)(15)(P)(i) in the case of emergency circumstances (including trades during a season).

"(F) No consultation required under this subsection by the Attorney General with a nongovernmental entity shall be construed as permitting the Attorney General to delegate any authority under this subsection to such an entity. The Attorney General shall give such weight to advisory opinions provided under this section as the Attorney General determines, in his sole discretion, to be appropriate.".

SEC. 205. AMENDMENTS RELATING TO O NONIMMIGRANTS.

(a) DEFINITION OF EXTRAORDINARY ABILITY IN THE ARTS FOR O NONIMMIGRANTS.—Section 101(a) of the Immigration and Nationality Act, as amended by sections 123 and 204(c) of the Immigration Act of 1990, is amended by adding at the end the following new paragraph:

"(46) The term 'extraordinary ability' means, for purposes of section 101(a)(15)(O)(i), in the case of the arts, distinction.".

(b) ELIMINATING ADDITIONAL PAPERWORK REQUIREMENT FOR O–1'S.—Section 101(a)(15)(O)(i) of the Immigration and Nationality Act, as amended by section 207(a)(3) of the Immigration Act of 1990, is amended by striking ", but only" and all that follows up to the semicolon at the end.

(c) CLARIFICATION OF SIGNIFICANT PHOTOGRAPHY FOR O–2S.—Section 101(a)(15)(O)(ii)(III)(b) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by striking "significant principal photography" and inserting "significant production (including pre- and post-production work)".

(d) CLARIFICATION OF MULTIPLE EVENTS FOR VISAS FOR O NONIMMIGRANTS.—Section 214(a)(2)(A) of the Immigration and Nationality Act, as added by section 207(b)(1) of the Immigration Act of 1990, is amended by inserting "(or events)" after "event".

(e) CONSULTATION WITH RESPECT TO READMITTED O–1 NONIMMIGRANTS.—Section 214(c)(3) of the Immigration and Nationality Act, as added by section 207(b)(2)(B) of the Immigration Act of 1990, is amended by adding at the end the following: "The Attorney General shall provide by regulation for the waiver of the consultation requirement under subparagraph (A) in the case of aliens who have been admitted as nonimmigrants under section 101(a)(15)(O)(i) because of extraordinary ability in the arts and who seek readmission to perform similar services within 2 years after the date of a consultation under such subparagraph. Not later than 5 days after the date such a waiver is provided, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization.".

SEC. 206. AMENDMENTS RELATING TO P NONIMMIGRANTS.

(a) ELIMINATING 3-MONTH OUT-OF-COUNTRY RULE FOR P–2 AND P–3 NONIMMIGRANTS.—Section 214(a)(2)(B) of the Immigration and Nationality Act, as added by section 207(b)(1) of the Immigration Act of 1990, is amended—

(1) by striking "(B)(i)" and inserting "(B)", and

(2) by striking clause (ii).

(b) TREATMENT OF FOREIGN ORGANIZATIONS FOR P–2 NONIMMIGRANTS.—Section 101(a)(15)(P)(ii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by inserting "or organizations" after "and an organization".

(c) TREATMENT OF P–2 NONIMMIGRANTS.—(1) Section 101(a)(15)(P)(ii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by striking ", between the United States and the foreign states involved".

(2) Section 214(c)(4)(E) of the Immigration and Nationality Act, as added by 207(b)(2)(B) of the Immigration Act of 1990 and as redesignated by section 203(b) of this title, is amended by striking ", in order to assure reciprocity in fact with foreign states".

(d) PERFORMANCE OF TEACHING AND COACHING FUNCTIONS BY P–3 NONIMMIGRANTS.—Section 101(a)(15)(P)(iii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended—

(1) by striking "for the purpose of performing" and inserting "to perform, teach, or coach", and

(2) by inserting "commercial or noncommercial" before "program".

SEC. 207. OTHER AMENDMENTS.

(a) RETURN TRANSPORTATION REQUIREMENT FOR O AND P NONIMMIGRANTS.—Section 214(c)(5) of the Immigration and Nationality Act, as added by section 207(b)(2) of the Immigration Act of 1990, is amended by inserting "(A)" after "(5)" and by adding at the end the following new subparagraph:

"(B) In the case of an alien who enters the United States in nonimmigrant status under section 101(a)(15)(O) or 101(a)(15)(P) and whose employment terminates for reasons other than voluntary resignation, the employer whose offer of employment formed the basis of such nonimmigrant status and the petitioner are jointly and severally liable for the reasonable cost of return transportation of the alien abroad. The petitioner shall provide assurance satisfactory to the Attorney General that the reasonable cost of that transportation will be provided.".

(b) ENTRY OF FASHION MODELS UNDER H–1B.—Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, as amended by section 205(c)(1) of the Immigration Act of 1990, is amended—

(1) by inserting "or as a fashion model" after "214(i)(1)", and

(2) by inserting "or, in the case of a fashion model, is of distinguished merit and ability" after "214(i)(2)".

(c) ANNUAL REPORT.—

(1) IN GENERAL.—Section 214(c) of the Immigration and Nationality Act (8 U.S.C. 1184(c)(3)), as amended by section 207(b)(2) of the Immigration Act of 1990 and by section 204 of this title, is amended by adding at the end the following new paragraph:

"(8) The Attorney General shall submit annually to the Committees on the Judiciary of the House of Representatives and of the Senate a report describing, with respect to petitions under each subcategory of subparagraphs (H), (O), (P), and (Q) of section 101(a)(15) the following:

"(A) The number of such petitions which have been filed.

"(B) The number of such petitions which have been approved and the number of workers (by occupation) included in such approved petitions.

"(C) The number of such petitions which have been denied and the number of workers (by occupation) requested in such denied petitions.

"(D) The number of such petitions which have been withdrawn.

"(E) The number of such petitions which are awaiting final action.".

(2) DEADLINE FOR FIRST REPORT.—The first report under section 214(c)(8) of the Immigration and Nationality Act shall be provided not later than April 1, 1993.

SEC. 208. EFFECTIVE DATE.

The provisions of, and amendments made by, this title shall take effect on April 1, 1992.

TITLE III—MISCELLANEOUS AND TECHNICAL CORRECTIONS

SEC. 301. SHORT TITLE OF TITLE; REFERENCE TO THE IMMIGRATION AND NATIONALITY ACT.

(a) This title may be cited as the "Immigration Technical Corrections Act of 1991".

(b) In this title, the term "INA" means the Immigration and Nationality Act.

SEC. 302. CORRECTIONS RELATING TO TITLE I OF THE IMMIGRATION ACT OF 1990.

(a)(1) Section 201 of the INA, as amended by section 101(a) of the Immigration Act of 1990, is amended—

(A) in subsection (c)(3), by striking "(3) The number computed under this paragraph for a fiscal year" and inserting the following:

"(3)(A) The number computed under this paragraph for fiscal year 1992 is zero.

"(B) The number computed under this paragraph for fiscal year 1993 is the difference (if any) between the worldwide level established under paragraph (1) for the previous fiscal year and the number of visas issued under section 203(a) during that fiscal year.

"(C) The number computed under this paragraph for a subsequent fiscal year"; and

(B) in subsection (d)(2), by striking "(2) The number computed under this paragraph for a fiscal year" and inserting the following:

"(2)(A) The number computed under this paragraph for fiscal year 1992 is zero.

"(B) The number computed under this paragraph for fiscal year 1993 is the difference (if any) between the worldwide level established under paragraph (1) for the previous fiscal year and the number of visas issued under section 203(b) during that fiscal year.

"(C) The number computed under this paragraph for a subsequent fiscal year".

(2) Section 101 of the Immigration Act of 1990 is amended by adding at the end the following new subsection:

"(c) TRANSITION.—In applying the second sentence of section 201(b)(2)(A)(i) of the Immigration and Nationality Act (as amended by subsection (a)) in the case of a alien whose citizen spouse died before the date of the enactment of this Act, notwithstanding the deadline specified in such sentence the alien spouse may file the classification petition referred to in such sentence within 2 years after the date of the enactment of this Act.".

(3) Section 202(a)(4)(A) of the INA, as amended by section 102(1) of the Immigration Act of 1990, is amended by striking "MINIMUM".

(b)(1) Section 112 of the Immigration Act of 1990 is amended—

(A) in subsection (c), by striking "temporary or" before paragraph (1), and

(B) by adding at the end the following:

"(d) DEFINITIONS.—The definitions in the Immigration and Nationality Act shall apply in the administration of this section.".

(2) Section 203(b) of the INA, as inserted by section 121(a) of the Immigration Act of 1990, is amended—

(A) in paragraphs (1), (2), and (3), by striking "40,000" and inserting "28.6 percent of such worldwide level" each place it appears,

(B) in paragraph (1)(C), by striking "who seeks" and inserting "the alien seeks",

(C) in paragraphs (4) and (5), by striking "10,000" and inserting "7.1 percent of such worldwide level" each place it appears, and

(D) in paragraph (2)(B), by inserting "professions," after "arts,".

(3) Section 216A of the INA, as inserted by section 121(b)(1) of the Immigration Act of 1990, is amended—

(A) in subsection (c)(2)(A), by inserting "(and the alien's spouse and children if it was obtained on a conditional basis under this section or section 216)" after "status of the alien", and

(B) in subsections (c)(3)(B) and (d)(2)(A), by striking "obtaining the status of".

(4) Section 121(b)(2) of the Immigration Act of 1990 is amended by striking "exclusion" and inserting "deportation".

(5) Section 124(a) of the Immigration Act of 1990 is amended—

(A) in paragraph (1)—

(i) by inserting "(or paragraph (2) as the spouse or child of such an alien)" after "paragraph (3)", and

(ii) by adding at the end the following new sentence: "If the full number of such visas are not made available in fiscal year 1991 or 1992, the shortfall shall be added to the number of such visas to be made available under this section in the succeeding fiscal year."; and

(B) in paragraph (3)(A), by striking "(and has been so employed during the 12 previous, consecutive months)" and inserting "except for temporary absences at the request of the employer and has been employed in Hong Kong for at least 12 consecutive months".

(6) Section 132 of the Immigration Act of 1990 is amended—

(A) in subsection (a), by inserting "(or in subsection (d) as the spouse or child of such an alien)" after "subsection (b)";

(B) in subsection (a), by adding at the end the following new sentence: "If the full number of such visas are not made available in fiscal year 1992 or 1993, the shortfall shall be added to the number of such visas to be made available under this section in the succeeding fiscal year.";

(C) in subsection (b)(1), effective after fiscal year 1992, by striking "that is not contiguous to the United States and";

(D) in subsection (c)—

(i) effective beginning with fiscal year 1993, by striking "in the chronological order in which aliens apply for each fiscal year" and inserting "strictly in a random order among those who qualify during the application period for each fiscal year established by the Secretary of State",

(ii) by inserting before the period at the end the following: "and except that if more than one application is submitted for any fiscal year (beginning with fiscal year 1993) with respect to any alien all such applications submitted with respect to the alien and fiscal year shall be voided", and

(iii) by adding at the end the following: "If the minimum number of such visas are not made available in fiscal year 1992 or 1993 to such natives, the shortfall shall be added to the number of such visas to be made available under this section to such natives in the succeeding fiscal year. In applying this section, natives of Northern Ireland shall be deemed to be natives of Ireland."; and

(E) in subsection (e)—

(i) by striking "the grounds" and all that follows through "shall not apply, and",

(ii) by striking "of such section" and inserting "of section 212(a) of the Immigration and Nationality Act", and

(iii) by adding at the end the following: "In addition, the provisions of section 212(e) of such Act shall not apply so as to prevent an individual's application for a visa or admission under this section.".

(7) Section 134(a) of the Immigration Act of 1990 is amended by inserting "(or in subsection (d) as the spouse or child of such an alien)" after "subsection (b)".

(c)(1) Section 141 of the Immigration Act of 1990 is amended—

(A) in the heading, by striking "LEGAL",

(B) in subsection (a), by striking "Legal",

(C) in subsection (a)(1)(B), by striking "of the Subcommittee" and all that follows through "International Law", and

(D) by adding at the end the following new subsection:

"(i) PRESIDENTIAL REPORT.—The President shall conduct a review and evaluation and provide for the transmittal of reports to the Congress in the same manner as the Commission is required to conduct a review and evaluation and to transmit reports under subsection (b).".

(2) The item in the table of contents of such Act relating to section 141 is amended to read as follows:

"Sec. 141. Commission on Immigration Reform.".

(d)(1) Section 152(b)(1)(A) of the Immigration Act of 1990 is amended by striking "who has performed faithful service" and inserting "and has performed faithful service as such an employee".

(2) Section 245 of the INA, as amended by section 2(c) of the Armed Forces Immigration Adjustment Act of 1991, is amended—

(A) in subsection (c)(2), by inserting "(J)," after "(I),", and

(B) by adding at the end the following new subsection:

"(h) In applying this section to a special immigrant described in section 101(a)(27)(J)—

"(1) such an immigrant shall be deemed, for purposes of subsection (a), to have been paroled into the United States; and

"(2) in determining the alien's admissibility as an immigrant—

"(A) paragraphs (4), (5)(A), and (7)(A) of section 212(a) shall not apply, and

"(B) the Attorney General may waive other paragraphs of section 212(a) (other than paragraphs (2)(A), (2)(B), (2)(C) (except for so much of such paragraph as related to a single offense of simple possession of 30 grams or less of marijuana), (3)(A), (3)(B), (3)(C), or (3)(E)) in the case of individual aliens for humanitarian purposes, family unity, or when it is otherwise in the public interest.

The relationship between an alien and the alien's natural parents or prior adoptive parents shall not be considered a factor in making a waiver under paragraph (2)(B). Nothing in this subsection or section 101(a)(27)(J) shall be construed as authorizing an alien to apply for admission or be admitted to the United States in order to obtain special immigrant status described in such section.".

(3) Section 241(h) of the INA, as amended by section 153(b) of the Immigration Act of 1990, is amended by striking the comma after "(3)(A)".

(4) Section 154 of the Immigration Act of 1990 is amended—

(A) in subsection (b)(1)(A), by inserting "or China" after "Hong Kong",

(B) in subsection (b)(1)(B)(i), by inserting "of" after "of section 203(a)", and

(C) by striking paragraph (3) of subsection (c).

(5) Section 155 of the Immigration Act of 1990 is amended—

(A) in subsection (a), by inserting "(or section 203(e), in the case of fiscal year 1992)" after "203(c)", and

(B) in subsection (b), by striking "or the child" and inserting "or who are the spouse or child".

(e)(1) Section 161(a) of the Immigration Act of 1990 is amended by striking "in this section," and inserting "in this title, this title and".

(A) by inserting "or an application for labor certification before such date under section 212(a)(14)" after "before such date)",

(B) in subparagraph (A), by inserting "or application" after "such a petition",

(C) in subparagraph (A), by inserting ", or 60 days after the date of certification in the case of labor certifications filed in support of the petition under section 212(a)(14) of such Act before October 1, 1991, but not certified until after October 1, 1993" after "(by not later than October 1, 1993", and

(D) by adding at the end the following new sentence:

"In the case of a petition filed under section 204(a) of such Act before October 1, 1991, but which is not described in paragraph (4), and for which a filing fee was paid, any additional filing fee shall not exceed one-half of the fee for the filing of the new petition referred to in subparagraph (A).".

(3) Section 203(f) of the INA, as inserted by section 162(a) of the Immigration Act of 1990, is amended—

(A) by striking "PRESUMPTION.—" and all that follows through "so described." and inserting "AUTHORIZATION FOR ISSUANCE.—", and

(B) by striking "201(b)(1) or in subsection (a) or (b)" and inserting "201(b)(2) or in subsection (a), (b), or (c)".

(4) Section 204(a)(1) of the INA, as amended by section 162(b) of the Immigration Act of 1990, is amended—

(A) in subparagraph (A), by adding at the end the following: "An alien described in the second sentence of section 201(b)(2)(A)(i) also may file a petition with the Attorney General under this subparagraph for classification under such section.",

(B) in subparagraph (F), by striking "Secretary of State" and inserting "Attorney General", and

(C) in subparagraph (G)(iii), by striking "or registration".

(5) Section 204(e) of the INA, as amended by section 162(b)(3) of the Immigration Act of 1990, is amended by striking "a immigrant" and inserting "an immigrant".

(6) Paragraph (1) of section 162(e) of the Immigration Act of 1990 is repealed, and the provisions of law amended by such paragraph are restored as though such paragraph had not been enacted.

(7) Section 245(b) of the INA, as amended by section 162(e)(3) of the Immigration Act of 1990, is amended—

(A) by striking "201(a)" and inserting "202 and 203", and

(B) by striking "for the succeeding fiscal year" and inserting "for the fiscal year then current".

(8) Effective as if included in section 162(e) of the Immigration Act of 1990—

(A) clauses (ii)(II) and (iii)(II) of section 101(a)(27)(I) of the INA are amended by striking "applies for a visa or adjustment of status" and inserting "files a petition for status",

(B) section 216(g)(1) of the INA is amended by striking "203(a)(8)" and inserting "203(d)"; and

(C) section 221(a) of the INA is amended by striking "nonpreference,".

(9) Effective as if included in the Immigration Nursing Relief Act of 1989, section 212(m)(2)(A) of the INA is amended, by inserting after the first sentence following clause (vi) the following: "Notwithstanding the previous sentence, a facility that lays off a registered nurse other than a staff nurse still meets clause (i) if, in its attestation under this subparagraph, the facility has attested that it will not replace the nurse with a nonimmigrant described in section 101(a)(15)(H)(i)(a) (either through promotion or otherwise) for a period of 1 year after the date of the lay off.".

(10) Effective as if included in the Immigration Nursing Relief Act of 1989, as amended by section 162(f)(1)(B) of the Immigration Act of

1990, section 2(b) of the Immigration Nursing Relief Act of 1989 is amended by inserting after "registered nurse," the following: "who, as of September 1, 1989, is present in the United States and had been admitted to the United States in the status of nonimmigrant under section 101(a)(15)(H)(i) of such Act to perform services as a registered nurse but has failed to maintain that status due to the expiration of the time limitation with respect to such status,".

SEC. 303. CORRECTIONS RELATING TO TITLE II OF THE IMMIGRATION ACT OF 1990.

(I) in subsection (e)(4)(B), by inserting "a" after "with respect to"; and

(J) in subsection (e)(5), by striking subparagraph (A) and redesignating subparagraphs (B) through (D) as subparagraphs (A) through (C), respectively.

(7) The 8th sentence of section 242(b) of the INA, as amended by section 545(e) of the Immigration Act of 1990, is amended to read as follows: "Such regulations shall include requirements that are consistent with section 242B and that provide that—

"(1) the alien shall be given notice, reasonable under all the circumstances, of the nature of the charges against him and of the time and place at which the proceedings will be held,

"(2) the alien shall have the privilege of being represented (at no expense to the Government) by such counsel, authorized to practice in such proceedings, as he shall choose,

"(3) the alien shall have a reasonable opportunity to examine the evidence against him, to present evidence on his own behalf, and to cross-examine witnesses presented by the Government, and

"(4) no decision of deportability shall be valid unless it is based upon reasonable, substantial, and probative evidence.".

SEC. 307. CORRECTIONS RELATING TO TITLE VI OF THE IMMIGRATION ACT OF 1990.

(a) Section 212(a) of the INA, as amended by section 601(a) of the Immigration Act of 1990, is amended—

(1) in paragraph (1)(A), by adding "or" at the end of clause (ii);

(2) in paragraph (3)(A)(i), by inserting "(I)" after "any activity" and by inserting "(II)" after "sabotage or";

(3) in paragraph (3)(B)(iii)(III), by striking "an act of terrorist activity" and inserting "a terrorist activity";

(4) in paragraph (3)(D)(iv), by striking "if the alien" and inserting "if the immigrant";

(5) in paragraph (3)(C)(iv), by striking "identities" and inserting "identity";

(6) in paragraph (5)(C), by striking "preference immigrants" and all that follows through the end and inserting the following: "immigrants seeking admission or adjustment of status under paragraph (2) or (3) of section 203(b).";

(7) in paragraph (6)(B)—

(A) by striking "who seeks" and inserting "(a) who seeks",

(B) by striking "(or" and inserting ", or (b) who seeks admission", and

(C) by striking "felony)" and inserting "felony,";

(8) in paragraph (6)(E)—

(A) by redesignating clause (ii) as clause (iii), and

(B) by inserting after clause (i) the following new clause:

"(ii) SPECIAL RULE IN THE CASE OF FAMILY REUNIFICATION.—Clause (i) shall not apply in the case of alien who is an eligible immigrant (as defined in section 301(b)(1) of the Immigration Act of 1990), was physically present in the United States on May 5, 1988, and is seeking admission as an immediate relative or under section 203(a)(2) (including under section 112 of the Immigration Act of 1990) or benefits under section 301(a) of the Immigration Act of 1990 if the alien, before May 5, 1988, has encouraged, induced, assisted, abetted, or aided only the alien's spouse, parent, son, or daughter (and no other individual) to enter the United States in violation of law.";

(9) in paragraph (8)(B), by striking "alien" the first place it appears and inserting "person"; and

(10) in paragraph (9)(C)—

(A) in clause (i), by striking everything that follows "entry of" and inserting "an order by a court in the United States granting custody to a person of a United States citizen child who detains or retains the child, or withholds custody of the child, outside the United States from the person granted custody by that order, is excludable until the child is surrendered to the person granted custody by that order.", and

(B) in clause (ii), by striking "to an alien who" and all that follows through "signatory" and inserting "so long as the child is located in a foreign state that is a party".

(b) Section 212(c) of the INA, as amended by section 601(d)(1) of the Immigration Act of 1990, is amended by striking "subparagraphs (A), (B), (C), or (E) of paragraph (3)" and inserting "paragraphs (3) and (9)(C)".

(c) Section 212(d)(3) of the INA, as amended by section 601(d)(2)(B)(i) of the Immigration Act of 1990, is amended—

(1) by striking "(3)(A)," and inserting "(3)(A)(i)(I), (3)(A)(ii), (3)(A)(iii)," each place it appears, and

(2) by striking "(3)(D)" and inserting "(3)(E)" each place it appears.

(d) Section 212(d)(11) of the INA, as added by section 601(d)(2)(F) of the Immigration Act of 1990, is amended by inserting "and in the case of an alien seeking admission or adjustment of status as an immediate relative or immigrant under section 203(a) (other than paragraph (4) thereof)" after "section 211(b)".

(e) Section 212(g)(1) of the INA, as amended by section 601(d)(3) of the Immigration Act of 1990, is amended by striking "section (a)(1)(A)(i)" and inserting "subsection (a)(1)(A)(i)".

(f) Section 212(h) of the INA, as amended by section 601(d)(4) of the Immigration Act of 1990, is amended—

(1) in the matter before paragraph (1), by striking "in the case of" and all that follows through "permanent residence"; and

(2) in paragraph (1)—

(A) in the matter before subparagraph (A), by inserting "(A) in the case of any immigrant" after "(1)",

(B) by striking "and" at the end of subparagraph (A),

(C) by striking "and" at the end of subparagraph (C) and inserting "or",

(D) by redesignating subparagraphs (A) through (C) as clauses (i) through (iii), respectively, and

(E) by adding at the end the following:

"(B) in the case of an immigrant who is the spouse, parent, son, or daughter of a citizen of the United States or an alien lawfully admitted for permanent residence if it is established to the satisfaction of the Attorney General that the alien's exclusion would result in extreme hardship to the United States citizen or lawfully resident spouse, parent, son, or daughter of such alien; and".

(g) Section 212(i) of the INA, as amended by section 601(d)(5) of the Immigration Act of 1990, is amended by striking "alien" and "alien's" each place it appears and inserting "immigrant" and "immigrant's", respectively.

(h) Section 241(a) of the INA, as amended by section 602(a) of the Immigration Act of 1990, is amended—

(1) by striking "deportable as being", and by inserting "deportable" after "the following classes of";

(2) in paragraph (1)(D)(i), by inserting "respective" after "terminated under such";

(3) in paragraph (1)(E)(i), by inserting "any" before "entry" the second and third places it appears;

(4) in paragraph (1)(E), by redesignating clause (ii) as clause (iii) and by inserting after clause (i) the following new clause:

"(ii) SPECIAL RULE IN THE CASE OF FAMILY REUNIFICATION.—Clause (i) shall not apply in the case of alien who is an eligible immigrant (as defined in section 301(b)(1) of the Immigration Act of 1990), was physically present in the United States on May 5, 1988, and is seeking admission as an immediate relative or under section 203(a)(2) (including under section 112 of the Immigration Act of 1990) or benefits under section 301(a) of the Immigration Act of 1990 if the alien, before May 5, 1988, has encouraged, induced, assisted, abetted, or aided only the alien's spouse, parent, son, or daughter (and no other individual) to enter the United States in violation of law.";

(5) in paragraph (1)(G), by striking "212(a)(5)(C)(i)" and inserting "212(a)(6)(C)(i)";

(6) in paragraph (1)(H), by striking "paragraph (6) or (7)" and inserting "paragraph (4)(D)";

(7) in paragraph (2)(D), by inserting "or attempt" after "conspiracy";

(8) in paragraph (3), by adding at the end the following:

"(C) DOCUMENT FRAUD.—Any alien who is the subject of a final order for violation of section 274C is deportable.";

(9) in subparagraphs (A) and (B) of paragraph (4), by striking "after entry has engaged" and inserting "after entry engages"; and

(10) in paragraph (4)(C)(ii), by striking "excluability" and inserting "excludability".

(i) Section 102 of the INA, as amended by section 603(a)(2) of the Immigration Act of 1990, is amended by striking "paragraph (3) (other than subparagraph (E)) of section 212(a)" each place it appears and inserting "subparagraphs (A) through (C) of section 212(a)(3)".

(j) Effective as if included in section 603(a)(5) of the Immigration Act of 1990, section 210(b)(7)(B) of the INA is amended by striking "212(a)(19)" and inserting "212(a)(6)(C)(i)".

(k) Effective as if included in section 602(b) of the Immigration Act of 1990, section 241 of the INA is amended—

(1) by striking subsection (d), and

(2) in the subsection (h) (added by section 153(b) of the Immigration Act of 1990) by striking "exist" and inserting "existed" and by redesignating the subsection as subsection (c).

(l) Effective as if included in section 603(a) of the Immigration Act of 1990:

(1) Sections 207(c)(3) and 209(c) of the INA, as amended by section 603(a)(4)(B) of the Immigration Act of 1990, are each amended by striking "subparagraphs (A)" and inserting "subparagraph (A)".

(2) Section 210A(e)(2)(B) of the INA is amended by striking clauses (iii) and (iv) and inserting the following:

"(iii) Paragraph (3) (relating to security and related grounds).".

(3) Section 217(a) of the INA is amended by striking "(26)(B)" and inserting "(7)(B)(i)(II)".

(4) Section 218(g)(3) of the INA is amended by striking "212(a)(14)" and inserting "212(a)(5)(A)(i)".

(5) Section 244A(c) of the INA, as inserted by section 302(a) of the Immigration Act of 1990, is amended—

(A) in paragraph (2)(A)(iii)(I), by striking "paragraphs (9) and (10)" and inserting "paragraphs (2)(A) and (2)(B)"; and

(C) by amending subclause (III) of paragraph (2)(A)(iii) to read as follows:

"(III) paragraphs (3)(A), (3)(B), (3)(C), or (3)(E) of such section (relating to national security and participation in the Nazi persecutions or those who have engaged in genocide).".

(6) Section 245A(d)(2)(B)(ii) of the INA is amended—

(A) by striking subclause (IV),

(B) by redesignating subclause (II) as subclause (IV) and by transferring and inserting it after clause (III),

(C) by redesignating subclause (III) as subclause (II),

(D) by inserting after subclause (II) (as so redesignated) the following new subclause:

"(III) Paragraph (3) (relating to security and related grounds).", and

(E) by striking "Subclause (II)" and inserting "Subclause (IV)".

(7) Section 272(a) of the INA is amended by striking the comma before "shall pay".

(8) Section 584(a)(2) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, as amended by section 603(a)(20)(B) of the Immigration Act of 1990, is amended by striking "(D)" and inserting "(E)".

(9) Section 599E of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1990 (Public Law 101–167) is amended by striking "(23)(B), (27), (29), or (33)" and inserting "(2)(C) and subparagraphs (A), (B), (C), or (E) of paragraph (3)".

(10) Section 2(a)(3) of the Immigration Nursing Relief Act of 1989 is amended by striking "212(a)(14)" and inserting "212(a)(5)(A)".

(m) Effective as if included in section 603(b) of the Immigration Act of 1990—

(1) paragraph (4)(B) of such section is amended by striking "in paragraph (2)", and

(2) section 242(e) of the INA is amended by striking "paragraphs (4), (5), (6), (7), (11), (12), (14), (15), (16), (17), (18), or (19)" and inserting "paragraph (2), (3), or (4)".

SEC. 308. CORRECTIONS RELATING TO TITLE VII OF THE IMMIGRATION ACT OF 1990.

(a) Effective October 1, 1991, section 245(e)(3) of the INA, as added by section 702(a)(2) of Immigration Act of 1990, is amended by striking "204(h)" and inserting "204(g)".

(b) Section 702(b) of the Immigration Act of 1990 is amended by striking "204(h) (8 U.S.C. 1154(h))" and inserting "204(g) (8 U.S.C. 1154(g)), as redesignated by section 162(b)(6) of this Act,".

(c) Section 304(f) of the Immigration Reform and Control Act of 1986, as amended by section 704(b) of the Immigration Act of 1990, is amended—

(1) by striking "appointment in the and" and inserting "appointment and", and

(2) by striking "civil" the first place it appears and inserting "competitive".

(d) Section 404(b)(2)(A) of the INA, as added by section 705(a)(5) of the Immigration Act of 1990, is amended by adding at the end the following new sentence:

"In applying clause (i), the providing of parole at a point of entry in a district shall be deemed to constitute an application for asylum in the district."

SEC. 309. ADDITIONAL MISCELLANEOUS CORRECTIONS.

(a)(1)(A) Section 209 of the Department of Justice Appropriations Act, 1989 (title II of Public Law 100–459, 102 Stat. 2203) is amended—

(i) in subsection (a)—

(I) by striking "Title 8, United States Code, section 1356 is amended by adding" and inserting "Section 286 of the Immigration and Nationality Act (8 U.S.C. 1356) is amended by adding at the end", and

(II) in the subsection (o) added by such subsection, by striking "will" and inserting "shall"; and

(ii) by amending subsection (b) to read as follows:

"(b) Section 344(g) of the Immigration and Nationality Act (8 U.S.C. 1455(g)) is amended by inserting after 'Treasury of the United States' the following: 'except that all such fees collected or paid over on or after October 1, 1988, shall be deposited in the Immigration Examinations Fee Account established under section 286(m)'.".

(B) The fourth proviso under Immigration and Naturalization Service in the Department of Justice Appropriations Act, 1990 (title II of Public Law 101–162, 103 Stat. 1000) is amended to read as follows: ": Provided further, That section 286(n) of the Immigration and Nationality Act (8 U.S.C. 1356(n)) is amended by striking 'in excess of $50,000,000' and by striking the second sentence".

(2)(A) Section 286 of the INA, as amended by section 210 of the Department of Justice Appropriations Act, 1991, is amended—

(i) in subsection (h)(1)(A), by inserting a period after "available until expended",

(ii) in subsection (m), by striking "additonal" and inserting "additional",

(iii) by moving the left margins of subsection (q)(2) and the matter in subsection (q)(3)(A) (before clause (i)) 2 ems to the left,

(iv) in subsection (q)(3)(A), by inserting "the" after "The Secretary of", and

(v) in subsection (q)(5)(B), by striking "subsection (q)(1)" and inserting "paragraph (1)".

(B) Section 210(a)(2) of the Department of Justice Appropriations Act, 1991, is amended by striking "in which fees" and inserting "in which the fees".

(3) The amendments made by paragraph (1) and (2) shall be effective as if they were included in the enactment of the Department of Justice Appropriations Act, 1989 and the Department of Justice Appropriations Act, 1990, respectively.

(b)(1) Section 101(a)(15)(D)(i) of the INA is amended by inserting a comma after "States)".

(2) The item in the table of contents of the INA relating to section 242A is amended by striking "Procedures" and inserting "procedures".

(3) The item in the table of contents of the INA relating to section 345 is repealed.

(4) Section 101(c)(1) of the INA is amended by striking "322, and 323" and inserting "and 322".

(5) Section 204(f)(4)(A)(ii)(II) of the INA, as redesignated by section 162(d)(6) of the Immigration Act of 1990, is amended by striking "section 652 of such Act" and inserting "the second and third sentences of such section".

(6) Paragraph (3) of section 210(d) of the INA is amended—

(A) by indenting the paragraph (and its subparagraphs) 2 ems to the right;

(B) by striking "the Immigration and Naturalization Service (INS) pursuant to section 210(d) of the Immigration and Nationality Act (INA)" and inserting "Service pursuant to this subsection";

(C) in the matter before subparagraph (A), by striking "INS" each place it appears and inserting "Service";

(D) in subparagraph (A), by striking "as defined in section 210(a)(1)(A) of the INA the INS" and inserting "described in subsection (a)(1)(A) the Service";

(E) in subparagraph (A), by striking "in the INA" and inserting "in this Act";

(F) in subparagraph (B), by striking "as defined in section 210(a)(1)(B)(1)(B) of the INA" and inserting "described in subsection (a)(1)(A)"; and

(G) in subparagraph (B), by striking "section 210(b)(1)(A)" and inserting "subsection (b)(1)(A)".

(7) Section 212(j) of the INA is amended by striking "International Communication Agency" in paragraphs (1)(D) and (3) and inserting "United States Information Agency".

(8) Section 218(i)(1) of the INA is amended by striking "274A(g)" and inserting "274A(h)(3)".

(9) Section 242(h) of the INA is amended by inserting a comma after "Parole".

(10) Section 242A(a) of the INA is amended by striking "101(a)(43)" and inserting "101(a)(43))".

(11) Section 274A(b)(1)(D)(ii) of the INA is amended by striking "clause (ii)" and inserting "clause (i)".

(12) Section 286(e)(1)(D) of the INA is amended by striking "of this title".

(13) Section 313(a)(2) of the INA is amended by inserting "and" before "(F)" and by striking "; (G)" and all that follows through "of 1950" the second place it appears.

(14) Section 344(c) of the INA, as redesignated by section 407(d)(19)(F) of the Immigration Act of 1990, is amended by striking "of this subchapter" and inserting "of this title".

(15) The amendments made by section 8 of the Immigration Technical Corrections Act of 1988 shall be effective as if included in the enactment of the Immigration and Nationality Act Amendments of 1986 (Public Law 99–653).

SEC. 310. EFFECTIVE DATES.

Except as otherwise specifically provided, the amendments made by (and provisions of)—

(1) sections 302 through 308 shall take effect as if included in the enactment of the Immigration Act of 1990,

(2) section 309(a) shall be effective with respect to allotments for fiscal years beginning with fiscal year 1989, and

(3) section 309(c) shall take effect on the date of the enactment of this Act.

Amend the title to read as follows: "An Act to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, to revise provisions relating to O and P nonimmigrants, and to make certain technical corrections relating to the immigration laws.".

Mr. MAZZOLI (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Kentucky?

Mr. FISH. Mr. Speaker, reserving the right to object, I do so solely for the purpose of asking the chairman of the subcommittee if he would explain the measure.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. FISH. Mr. Speaker, I yield to the gentleman from Kentucky.

Mr. MAZZOLI. I thank the gentleman for yielding.

Mr. Speaker, the Senate amendment to H.R. 3049 is extremely meritorious and deserves the House's support.

The House passed H.R. 3049 by voice vote on November 12. The measure, as passed by the House, is quite simple: It restores to our Federal and State courts the authority to conduct naturalization ceremonies for new citizens.

The Senate amendment to H.R. 3049 incorporates the House-passed bill nearly verbatim. The Senate amendment differs only in that it tightens the language of the House bill to ensure that those courts that conduct naturalization ceremonies are fully reimbursed for their costs by the Immigration Service, but will not in fact make a profit. The Judicial Conference of the United States strongly supports this amendment.

The Senate amendment also includes a provision to ensure that if a court is

UMI

unable to conduct a naturalization ceremony it has scheduled, notification will be given promptly to those applicants who would be affected.

Beyond that, the Senate amendment includes, without change, the text of H.R. 3048, a measure that passed yesterday. That measure relaxes the entry requirements for certain types of foreign artists, athletes, and entertainers.

In addition, the Senate amendment includes, with minor changes, the text of H.R. 3670, which is also a measure the House passed yesterday. That bill makes a series of technical amendments to the Immigration and Naturalization Act.

Mr. FISH. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. It there objection to the initial request of the gentleman from Kentucky?

There was no objection.

A motion to reconsider was laid on the table.

AUTHORIZING THE PRESIDENT TO APPOINT MAJ. GEN. JERRY RALPH CURRY TO OFFICE OF ADMINISTRATOR OF THE FEDERAL AVIATION ADMINISTRATION

Mr. OBERSTAR. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2098) to authorize the President to appoint Maj. Gen. Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

Mr. CLINGER. Mr. Speaker, reserving the right to object, and I will not object, I do so for the purpose of inquiring of the chairman of the subcommittee the purpose of this legislation.

Mr. OBERSTAR. Mr. Speaker, will the gentleman yield?

Mr. CLINGER. I yield to the gentleman from Minnesota.

Mr. OBERSTAR. I thank the gentleman for yielding.

Mr. Speaker, the legislation now before us would allow Maj. Gen. Jerry Ralph Curry to serve as Administrator of the Federal Aviation Administration while remaining on the retired list of the U.S. Army.

The legislation is necessary because of a provision in the 1958 law establishing the Federal Aviation Administration which requires that the FAA Administrator be a civilian and not on the active or retired list of the armed services. This law is important in the interests of establishing civilian primacy over the regulations of the Nation's airspace.

While it is important to retain generally this provision regarding the Office of FAA Administrator, I believe the requirement should be waived in this instance so that General Curry can be appointed and not lose any of the military retirement benefits he has earned. Without this bill, he would have to resign his commission and be removed from the retirement list of the Army in order to be appointed Administrator which would harm his pension benefits.

The Aviation Subcommittee held hearings on this legislation yesterday and received testimony from General Curry. General Curry is very much aware of the need for civilian control of the airspace, and I do not expect undue military influence to creep into his management of the airspace just because he is a retired officer.

The Congress has passed similar legislation on a number of previous occasions. It is important that we do so again today in order that General Curry can be confirmed and appointed so that there is little loss in the continuity of leadership at this important agency. The current Administrator, James B. Busey, has also been nominated by the President to become Deputy Secretary of Transportation. So without this legislation passing today, the FAA would be without an Administrator for a period of weeks, possibly months.

Finally, I would note that the Senate bill we are taking up is identical to a bill, H.R. 3902, which I introduced on Saturday along with ROBERT A. ROE, Chairman of the Public Works and Transportation Committee, JOHN PAUL HAMMERSCHMIDT, our full committee ranking Republican member, BILL CLINGER, our subcommittee ranking Republican member, and NORMAN MINETA, an active member of our committee on aviation matters.

☐ 0340

The current Administrator, James B. Busey, has also been nominated by the President to become Deputy Secretary of Transportation. Unless we pass this legislation today, the FAA could be without an Administrator for a period of weeks, and maybe even months.

Mr. CLINGER. Mr. Speaker, further reserving the right to object, I yield to the ranking member, the gentleman from Arkansas [Mr. HAMMERSCHMIDT].

Mr. HAMMERSCHMIDT. Mr. Speaker, I support the request of the distinguished subcommittee chairman.

Mr. Speaker, I support this bill. Current law requires that the Administrator of the FAA be a civilian. This means that he cannot be on either the active or retired list of any military service.

This bill will allow Jerry Curry to become FAA Administrator despite his retired military status. If we do not pass this bill, General Curry would have to resign his commission and lose his pension benefits prior to serving as Administrator.

There is no reason that Jerry Curry should be required to make this sacrifice in order to serve at the FAA. At least four times in the past, we have enacted legislation to allow a military man to assume the top post at the FAA.

General Curry is well qualified for this post. He has served his country well in several capacities, most recently as Administrator of the National Highway Traffic Safety Administration. I am confident that he will make a fine FAA Administrator.

We should move quickly here so that the FAA will not be without a chief for too long. The Senate will soon approve the Curry nomination and pass its bill. I urge quick approval of S. 2098 so that Jerry Curry can move into his new position right away.

Mr. CLINGER. Mr. Speaker, further reserving the right to object, I join with the chairman in support of the unanimous consent request. It is a necessary technicality, but it will ensure that we will have Mr. Curry in the position at FAA promptly and not jeopardize his pension rights.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from Minnesota?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2098

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That notwithstanding the provisions of section 106 of title 49, United States Code, or any other provision of law, the President, acting by and with the advice and consent of the Senate, is authorized to appoint Major General Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration. Major General Curry's appointment to, acceptance of, and service in that Office shall in no way affect the status, rank, and grade which he shall hold as an officer on the retired list of the United States Army, or any emolument, perquisite, right, privilege, or benefit incident to or arising out of any such status, office, rank, or grade, except to the extent that subchapter IV of chapter 55 of title 5, United States Code, affects the amount of retired pay to which he is entitled by law during his service as Administrator. So long as he serves as Administrator, Major General Curry shall receive the compensation of that Office at the rate which would be applicable if he were not an officer on the retired list of the United States Army, shall retain the status, rank, and grade which he now holds as an officer on the retired list of the United States Army, shall retain all emoluments, perquisites, rights, privileges, and benefits incident to or arising out of such status, office, rank, or grade, and shall in addition continue to receive the retired pay to which he is entitled by law, subject to the provisions of subchapter IV of chapter 55 of title 5, United States Code.

SEC. 2. In the performance of his duties as Administrator of the Federal Aviation Administration, Major General Curry shall be subject to no supervision, control, restriction, or prohibition (military or otherwise) other than would be operative with respect to him if he were not an officer on the retired list of the United States Army.

SEC. 3. Nothing in this Act shall be construed as approval by the Congress of any fu-

ture appointments of military persons to the Office of Administrator of the Federal Aviation Administration.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. OBERSTAR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 2098, the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

REQUEST TO START DEBATE ON CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. ROE. Mr. Speaker, for the benefit of the Members of the House, the printed copy is on its way over here, but in order for us not to delay the start of this debate, I ask unanimous consent that we be able to start the discussion on this proposal pending its getting here, which should be in a few minutes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. DINGELL. Mr. Speaker, reserving the right to object, I would observe that the papers are not here yet.

Mr. ROE. Mr. Speaker, will the gentleman yield?

Mr. DINGELL. I yield to the gentleman from New Jersey.

Mr. ROE. Mr. Speaker, they are on their way over here now.

Mr. DINGELL. Does that include the signatures of all the House conferees?

Mr. ROE. We do have the signatures, they tell me, for those who chose to sign the report.

Mr. DINGELL. Mr. Speaker, I would note there are portions of that in which the Committee on Energy and Commerce has equal conferees with regard to certain matters relative to rail transit. Are those papers in the hands of my friends?

Mr. ROE. Mr. Speaker, the signature sheets are coming over here with the rest of the papers.

Mr. Speaker, I withdraw my request. We will have to wait until the papers get here.

PROVIDING FOR DISPOSITION OF SENATE AMENDMENTS TO H.R. 3807, CONVENTIONAL FORCES IN EUROPE TREATY IMPLEMENTATION ACT OF 1991

Ms. SLAUGHTER of New York. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 316 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 316

Resolved, That upon adoption of this resolution it shall be in order to consider a nondivisible motion to take from the Speaker's table the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with the Treaty of Conventional Armed Forces in Europe, with the Senate amendments thereto, and to concur in the Senate amendments with amendments printed in the report of the Committee on Rules accompanying this resolution. The motion and the Senate amendments shall be considered as having been read. Debate on said motion shall continue not to exceed one hour, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Foreign Affairs. The previous question shall be considered as having been ordered on the motion to final adoption without intervening motion. All points of order against the motion are hereby waived.

The SPEAKER pro tempore. The question is, Will the House now consider House Resolution 316?

The question was taken; and (two-thirds having voted in favor thereof) the House agreed to consider House Resolution 316.

The SPEAKER pro tempore. The gentlewoman from New York [Ms. SLAUGHTER] is recognized for 1 hour.

☐ 0350

Ms. SLAUGHTER of New York. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Ohio [Mr. MCEWEN] pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, this House resolution makes in order a nondivisible motion to take H.R. 3807 from the Speaker's table, and agree to the Senate amendments with three House amendments. The House amendments are printed in the report to accompany the rule, and all points of order are waived against the motion. Finally, the rule provides 1 hour of debate on the motion.

Mr. Speaker, H.R. 3807 authorizes the President to transfer tanks, artillery, and armored combat vehicles to member countries in NATO to implement the transfer program associated with the Conventional Forces in Europe Treaty negotiated last November in Paris. The program will allow the alliance to modernize forces and become more efficient as the burden of providing an adequate defense shifts among allied countries in Europe.

During its deliberations last night the Senate added three amendments relating to nuclear weapons destruction and emergency humanitarian assistance for the Soviet Union. Members of the Foreign Affairs and Armed Services Committees have met with their counterparts in the Senate and devised language which is mutually agreeable to all parties and—as I understand it—will be agreed to by the Senate once we have returned the legislation to that body.

The compromise agreement is included in the text of House amendments to the Senate amendments to H.R. 3807.

The House amendments authorize $400 million to facilitate the destruction of nuclear, chemical, and other weapons in the Soviet Union and put in place safeguards against the proliferation of such weapons. The amendments authorize $100 million for humanitarian aid, including food and medical supplies, to be supplied by commercial or military means to the Soviet Union, its Republics or successor entities. The amendments also provide that the President encourage the repayment of such assistance through the provision of natural resources.

Finally, the amendments authorize the Arms Control and Disarmament Agency for 2 years and further clarify the congressional oversight activities of the onsite inspection agency.

Mr. Speaker, this rule will facilitate final action on this important legislation without the necessity of convening a conference in the waning hours of the session. I urge my colleagues to adopt this resolution so that we may proceed to the consideration of these important arms control policy initiatives.

Mr. Speaker, I reserve the balance of my time.

Mr. MCEWEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentlewoman from New York has explained what this rule will provide; namely, a self-executing rule to adopt a number of Senate and House amendments, waive all points of order against the consideration of those amendments as a part of the Arms Control Export Act of 1991 as amended, and bring it quickly to the floor.

Because it is a self-executing rule, I cannot support it. Even at this late hour, we should not abandon proper procedures to enact amendments in one fell swoop, without the benefit of considering them here on the floor of the House. And there is much in this that many Members on this side of the aisle would wish to debate.

That wasn't true 1 week ago. This bill passed the House without controversy at that time, and was sent to the Senate. Now, this important bill comes back before the House after Senate amendments to the Conventional Forces in Europe Treaty implementation. Those amendments included funding for the destruction of nuclear weapons in the possession of the Soviet Union. Further, those amendments also provided for funding of humanitarian assistance to the Soviet Union or its Republics.

After passage of those amendments in the Senate last night, the leadership of the House Foreign Affairs Committee along with the leadership of the House Armed Services Committee have spent most of the day and night in consultation with their Senate counterparts trying to work out amendments to the Senate amendments that could be accepted by both Chambers. And the leadership of those committees deserve commendation for their hard work.

Mr. Speaker, this is an important task: First, authorizing some necessary transfers of arms to NATO members countries; second, dismantling some of the nearly 30,000 nuclear warheads in the Soviet arsenal and third, providing the humanitarian assistance mentioned earlier.

It is worth noting, Mr. Speaker, that while the Senate originally asked for $500 million for the Nuclear Weapon Destruction Program, this House-amended form lowers that level to $400 million. The Senate planned a $200 million authorization for transportation of aid to the Soviets, and that has been dropped to $100 million.

Mr. Speaker, I am a firm believer that all the money in all the wallets of all the taxpayers in America would never be enough to bail out a failed, centrally planned economy in the Soviet Union. Granted, this bill does not authorize direct aid—it only authorizes the President to exercise discretion in this area, up to a certain funding level. However, I would submit that most Americans will perceive this as aid to the Soviet Union at a time when many of them are looking for jobs here at home. We must not be perceived as simply giving handouts to the Soviet Union, or its republics. After all, this is a rich country: rich in gold reserves, rich in strategic metals, and incredibly rich in oil reserves.

So, I was pleased that the House included in its amendments to the Senate amendments the notion of compensation for this aid. The amendment will now read that the U.S. Government should be reimbursed by the recipient central or republic government to the extent that the President determines to be appropriate.

Mr. Speaker, I wish to express my appreciation to Representative BENNETT of Florida and make special mention for his insisting on this provision—a provision which I was proud to support.

However, we must accept the fact that we are playing at the margins. The massive, wrecked economy of the Soviet Union and its republics doesn't need aid half as much as they need free markets and investment incentives.

Much hard and important work has been done today on this bill, Mr. Speaker. However, we must ask why we have to rush this through now with a self-executing rule—when we have refused to rush through an economic aid package for America before going home. It doesn't make sense to me, and I think we should follow normal procedure in matters such as this.

For that reason, Mr. Speaker, I urge opposition to the rule even as I recognize the yeoman's duty performed by Mr. FASCELL of Florida and Mr. ASPIN of Wisconsin, the chairmen of the Foreign Affairs and Armed Services Committees, respectively.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WHEAT. Mr. Speaker, this is a fair rule on a good bill.

Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

MOTION OFFERED BY MR. FASCELL

Mr. FASCELL. Mr. Speaker, pursuant to House Resolution 316, I move to take from the Speaker's table the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe, with Senate amendments thereto, and concur in the Senate amendments with amendments.

The SPEAKER pro tempore. The Clerk will designate the motion and the House amendments.

The text of the motion and the text of the House amendments are as follows:

Mr. FASCELL moves to take from the Speaker's table the bill (H.R. 3807) to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe, with Senate amendments thereto, and concur in the Senate amendments with amendments, as follows:

Amendment to Senate amendment numbered 1:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

TITLE II—SOVIET WEAPONS DESTRUCTION

Part A—Short Title

SEC. 201. SHORT TITLE.

This title may be cited as the "Soviet Nuclear Threat Reduction Act of 1991".

Part B—Findings and Program Authority

SEC. 211. NATIONAL DEFENSE AND SOVIET WEAPONS DESTRUCTION.

(a) Findings.—The Congress finds—

(1) that Soviet President Gorbachev has requested Western help in dismantling nuclear weapons, and President Bush has proposed United States cooperation on the storage, transportation, dismantling, and destruction of Soviet nuclear weapons;

(2) that the profound changes underway in the Soviet Union pose three types of danger to nuclear safety and stability, as follows: (A) ultimate disposition of nuclear weapons among the Soviet Union, its republics, and any successor entities that is not conducive to weapons safety or to international stability; (B) seizure, theft, sale, or use of nuclear weapons or components; and (C) transfers of weapons, weapons components, or weapons know-how outside of the territory of the Soviet Union, its republics, and any successor entities, that contributs to worldwide proliferation; and

(3) that it is in the national security interests of the United States (A) to facilitate on a priority basis the transportation, storage, safeguarding, and destruction of nuclear and other weapons in the Soviet Union, its republics, and any successor entities, and (B) to assist in the prevention of weapons proliferation.

(b) Exclusions.—United States assistance in destroying nuclear and other weapons under this title may not be provided to the Soviet Union, any of its republics, or any successor entity unless the President certifies to the Congress that the proposed recipient is committed to—

(1) making a substantial investment of its resources for dismantling or destroying such weapons;

(2) forgoing any military modernization program that exceeds legitimate defense requirements and forgoing the replacement of destroyed weapons of mass destruction;

(3) forgoing any use of fissionable and other components of destroyed nuclear weapons in new nuclear weapons;

(4) facilitating United States verification of weapons destruction carried out under section 212;

(5) complying with all relevant arms control agreements; and

(6) observing internationally recognized human rights, including the protection of minorities.

SEC. 212. AUTHORITY FOR PROGRAM TO FACILITATE SOVIET WEAPONS DESTRUCTION.

(a) In General.—Notwithstanding any other provision of law, the President, consistent with the findings states in section 211, may establish a program as authorized in subsection (b) to assist Soviet weapons destruction. Funds for carrying out this program shall be provided as specified in part C.

(b) Type of Program.—The program under this section shall be limited to cooperation among the United States, the Soviet Union, its republics, and any successor entities to (1) destroy nuclear weapons, chemical weapons, and other weapons, (2) transport, store, disable, and safeguard weapons in connection with their destruction, and (3) establish verifiable safeguards against the proliferation of such weapons. Such cooperation may involve assistance in planning and in resolving technical problems associated with weapons destruction and proliferation. Such cooperation may also involve the funding of critical short-term requirements related to weapons destruction and should, to the extent feasible, draw upon United States technology and United States technicians.

Part C—Administrative and Funding Authorities

SEC. 221. ADMINISTRATION OF NUCLEAR THREAT REDUCTION PROGRAMS.

(a) Funding.—

(1) Transfer authority.—The President may, to the extent provided in an appropriations Act or joint resolution, transfer to the appropriate defense accounts from amounts appropriated to the Department of Defense for fiscal year 1992 for operation and maintenance or from balances in working capital accounts established under section 2208 of title 10, United States code, not to exceed $400,000,000 for use in reducing the Soviet military threat under part B.

(2) Limitation.—Amounts for transfer under paragraph (1) may not be derived from amounts appropriated for any activity of the Department of Defense that the Secretary of Defense determines essential for the readiness of the Armed forces, including amounts for—

(A) training activities; and

(B) depot maintenance activities.

(b) Department of Defense.—The Department of Defense shall serve as the executive agent for any program established under part B.

(c) Reimbursement of Other Agencies.—The Secretary of Defense may reimburse other United States Government departments and agencies under this section for costs of participation, as directed by the President, only in a program established under part B.

(d) Charges Against Funds.—The value of any material from existing stocks and inventories of the Department of Defense, or any other United States Government department or agency, that is used providing assistance under part B to reduce the Soviet military threat may not be charged against funds available pursuant to subsection (a) to the extent that the material contributed is directed by the President to be contributed without subsequent replacement.

(e) Determination by Director of OMB.—No amount may be obligated for the program under part B unless expenditures for that program have been determined by the Director of the Office of Management and Budget to be counted against the defense category of the discretionary spending limits for fiscal year 1992 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

SEC. 222. REPAYMENT ARRANGEMENTS.

(a) Reimbursement Arrangements.—Assistance provided under part B to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(b) Natural Resources, Etc.—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this section that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

SEC. 223. DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS.

It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the President to transfer funds pursuant to this title.

Part D—Reporting Requirements

SEC. 231. PRIOR NOTICE OF OBLIGATIONS TO CONGRESS.

Not less than 15 days before obligating any funds for a program under part B, the President shall transmit to the Congress a report on the proposed obligation. Each such report shall specify—

(1) the account, budget activity, and particular program or programs for which the funds proposed to be obligated are to be derived and the amount of the proposed obligation; and

(2) the activities and forms of assistance under part B for which the President plans to obligate such funds.

SEC. 232. QUARTERLY REPORTS ON PROGRAM.

Not later than 30 days after the end of each quarter of fiscal years 1992 and 1993, the President shall transmit to the Congress a report on the activities to reduce the Soviet military threat carried out under part B. Each such report shall set forth, for the preceding quarter and cumulatively, the following:

(1) Amounts spent for such activities and the purposes for which they were spent.

(2) The sources of the funds obligated for such activities, stated specifically by program.

(3) A description of the participation of the Department of Defense, and the participation of any other United States Government department or agency, in such activities.

(4) A description of the activities carried out under part B and the forms of assistance provided under part B.

(5) Such other information as the President considers appropriate to fully inform the Congress concerning the operation of the program under part B.

Amendment to Senate amendment numbered 2:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

TITLE III—EMERGENCY AIRLIFT AND OTHER SUPPORT

SEC. 301. AUTHORITY TO TRANSFER CERTAIN FUNDS TO PROVIDE EMERGENCY AIRLIFT AND OTHER SUPPORT.

(a) Findings.—The Congress finds—

(1) that political and economic conditions within the Soviet Union and its republics are unstable and are likely to remain so for the foreseeable future;

(2) that these conditions could lead to the return of antidemocratic forces in the Soviet Union;

(3) that one of the most effective means of preventing such a situation is likely to be the immediate provision of humanitarian assistance; and

(4) that should this need arise, the United States should have funds readily available to provide for the transport of such assistance to the Soviet Union, its republics, and any successor entities.

(b) Authority To Transfer Certain Funds.—

(1) In general.—Notwithstanding any other provision of law, the Secretary of Defense, at the direction of the President, may during fiscal year 1992, to the extent provided in an appropriations Act or joint resolution, transfer to the appropriate defense accounts sufficient funds, not to exceed $100,000,000 from funds described in paragraph (3) in order to transport, by military or commercial means, food, medical supplies, and other types of humanitarian assistance to the Soviet Union, its republics, or any successor entities—with the consent of the relevant republic government or independent successor entity—in order to address emergency conditions which may arise in such republic or successor entity, as determined by the president. As used in this subsection, the term "humanitarian assistance" does not include construction equipment, including tractors, scrapers, loaders, graders, bulldozers, dumptrucks, generators, and compressors.

(2) Reports by the Secretary of State.—The Secretary of State shall promptly report to the President regarding any emergency conditions which may require such humanitarian assistance. The Secretary's report shall include an estimate of the extent of need for such assistance, discuss whether the consent of the relevant republic government or independent successor entity has been given for the delivery of such assistance, describe steps other nations and organizations are prepared to take in response to an emergency, and discuss the foreign policy implications, if any, of providing such assistance.

(3) Source of funds.—Any funds which are transferred pursuant to this subsection shall be drawn from amounts appropriated to the Department of Defense for fiscal year 1992 or from balances in working capital accounts established under section 2208 of title 10, United States Code.

(4) Emergency requirements.—The Congress designates all funds transferred pursuant to this section as "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985. Notwithstanding any other provision of law, funds shall be available for transfer pursuant to this section only if, not later than the date of enactment of the appropriations Act or joint resolution that makes funds available for transfer pursuant to this section, the President, in a single designation, designates the entire amount of funds made available for such transfer by that appropriations Act or joint resolution to be "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) Repayment Arrangements.—

(1) Reimbursement arrangements.—Assistance provided under subsection (b) to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(2) Natural resources, etc.—The President shall encourage the satisfaction of such reimbursement arrangements through the provisions of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this subsection that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

(d) Dire Emergency Supplemental Appropriations.—It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the Secretary of Defense to transfer funds pursuant to this title.

SEC. 302. REPORTING REQUIREMENTS.

(a) Prior Notice.—Before any funds are transferred for the purposes authorized in section 301(b), the President shall notify the Committees on Armed Services and the Committees on Appropriations of the Senate and the House of Representatives of the account, budget activity, and particular program or programs from which the transfer is planned to be made and the amount of the transfer.

(b) Reports to the Congress.—Within ten days after directing the Secretary of Defense to transfer funds pursuant to section 301(b), the President shall provide a report to the Committees on Armed Services of the Senate and House of Representatives, the Committees on Appropriations of the Senate and House of Representatives, and the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives. This report shall at a minimum, set forth—

(1) the amount of funds transferred under this title, including the source of such funds;

(2) the conditions which prompted the use of this authority;

(3) the form and number of lift assets planned to be used to deliver assistance pursuant to this title;

(4) the types and purpose of the cargo planned to be delivered pursuant to this title; and

(5) the locations, organizations, and political institutions to which assistance is planned to be delivered pursuant to this title.

Amendment to Senate amendment numbered 3:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

TITLE IV—ARMS CONTROL AND DISARMAMENT ACT

SEC. 401. ARMS CONTROL AND DISARMAMENT AGENCY.

(a) Authorization of Appropriations.—Section 49(a) of the Arms Control and Disarmament Act (22 U.S.C. 2589(a)) is amended—

(1) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2), respectively;

(2) in paragraph (1) as so redesignated, by striking out "$36,000,000 for the fiscal year 1990 and $37,316,000 for the fiscal year 1991" and inserting in lieu thereof "$44,527,000 for fiscal year 1992 and $45,862,810 for fiscal year 1993"; and

(3) in paragraph (2) as so redesignated, by striking out "fiscal years 1990 and 1991" and inserting in lieu thereof "each fiscal year for which an authorization of appropriations is provided in paragraph (1)".

(b) Administrative Authorities Regarding Investigations.—Section 41 of that Act (22 U.S.C. 2581) is amended—

(1) by redesignating paragraphs (h) and (i) as paragraphs (i) and (j), respectively; and

(2) by inserting after paragraph (g) the following new paragraph (h):

"(h) administer oaths and take sworn statements in the course of an investigation made pursuant to the Director's responsibilities under this Act;".

(c) ACDA Revitalization.—Not later than December 15, 1992, the Inspector General of the Arms Control and Disarmament Agency (who serves also as the Inspector General of the Department of State) shall submit to the President, the Speaker of the House of Representatives, and the chairman of the Committee on Foreign Relations of the Senate a report with regard to the Agency's fulfillment of the primary functions described in section 2 of the Arms Control and Disarmament Act (22 U.S.C. 2551). Such report shall address the current ability and performance of the Agency in carrying out these functions and shall provide detailed recommendations for any changes in executive branch organization and direction needed to fulfill these primary functions. Within 60 days after submission of this report, the President shall submit the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate comments on any recommendations contained in the report dealing with executive branch organization and direction.

SEC. 402. ON-SITE INSPECTION AGENCY.

(A) Responsibilities of the On-Site Inspection Agency.—

(1) Additional responsibilities.—Section 61 of the Arms Control and Disarmament Act (22 U.S.C. 2595) is amended—

(A) by redesignating paragraphs (5) and (6) as paragraphs (6) and (7), respectively; and

(B) by inserting after paragraph (4) the following new paragraph:

"(5) the On-Site Inspection Agency has additional responsibilities to those specified in paragraph (4), including the monitoring of nuclear tests pursuant to the Threshold Test Ban Treaty and the Peaceful Nuclear Explosions Treaty and the monitoring of the inspection provisions of such additional arms control agreements as the President may direct;".

(2) Conforming amendments to definitions.—Section 64 of that Act (22 U.S.C. 2595c) is amended—

(A) by striking out "and" at the end of paragraph (1);

(B) by striking out the period at the end of paragraph (2) and inserting in lieu thereof a semicolon; and

(C) by adding after paragraph (2) the following:

"(3) the term 'Peaceful Nuclear Explosions Treaty' means that Treaty Between the United States of America and the Union of Soviet Socialist Republic on Underground Nuclear Explosions for Peaceful Purposes (signed at Washington and Moscow, May 28, 1976); and

"(4) the term 'Threshold Test Ban Treaty' means the Treaty Between the United States of American and the Union of Soviet Socialist Republics on the Limitation of Underground Nuclear Weapons Tests (signed at Moscow, July 3, 1974).".

(b) Improving Congressional Oversight of On-Site Inspection Activities.—Title V of that Act is amended—

(1) by redesignating section 64 as section 65; and

(2) by inserting after section 63 the following:

"SEC. 64. IMPROVING CONGRESSIONAL OVERSIGHT OF ON-SITE INSPECTION ACTIVITIES.

"(A) Report From the President.—Concurrent with the submission to the Congress of the request for authorization of appropriations for OSIA for fiscal year 1993, the President shall submit a report on OSIA to the Committee on Foreign Affairs of the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on Armed Services of the House of Representatives and Senate. The report shall include a review of—

"(1) the history of OSIA, including how, when, and under what auspices it was established, including the applicable texts of the relevant executive orders;

"(2) the missions and tasks assigned to OSIA to date;

"(3) any additional missions and tasks likely to be assigned to OSIA during fiscal year 1993;

"(4) the budgetary history of OSIA; and

"(5) the extent to which OSIA plays a role in arms control policy formulation and operational implementation.

"(b) Review of Certain Reprogramming Notifications.—Any notification submitted to the Congress with respect to a proposed transfer, reprogramming, or reallocation of funds from or within the budget of OSIA shall also be submitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, and shall be subject to review by those committees.".

The SPEAKER pro tempore. The gentleman from Florida [Mr. Fascell] will be recognized for 30 minutes, and the gentleman from Michigan [Mr. Broomfield] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Florida [Mr. Fascell].

Mr. FASCELL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3807, authorizing the President to transfer certain limited equipment pursuant to the CFE Treaty. In addition to provisions that implement the CFE Treaty, H.R. 3807 includes the authority for the United States to facilitate the dismantlement and destruction of Soviet nuclear, chemical, and other weapons of mass destruction.

H.R. 3807 also includes authority to transport by emergency airlift food, medical supplies, and other types of humanitarian assistance. This provision specifically prohibits the transfer to the Soviet Union, its republics or successor entities any construction-related equipment.

Finally, H.R. 3807 provides for the authorization of appropriations for the Arms Control and Disarmament Agency for fiscal years 1990 and 1991 and in that regard delineates the responsibility of the On-Site Inspection Agency.

One year ago, on November 19, 1990, 22 nations met at a summit of the Conference on Security and Cooperation in Europe in Paris and signed the Treaty on Conventional Armed Forces in Europe [CFE Treaty]. The CFE Treaty is an agreement that mandates reductions and limits on military equipment such as tanks, armored vehicles, artillery, combat aircraft, and helicopters in Europe from the Atlantic Ocean to the Ural Mountains. This treaty is another major arms control achievement of the post-cold-war era. It culminates a long, arduous process of negotiations between NATO and the Warsaw Pact on force reductions in Europe, which began in 1973 but didn't become a realistic opportunity until the Berlin Wall came down.

The CFE Treaty requires that each state which is a party to the treaty submit extensive data on its military forces, adhere to detailed provisions for the destruction or conversion of excess equipment, and open military installations to intrusive inspection. The CFE Treaty was formally submitted to the Senate on July 1, 1991, and the Senate considered and ratified the treaty on November 25, 1991.

The legislation that we are considering today is a key component of the CFE Treaty and is considered to be part of the implementation of that treaty. Specifically, the transfer program authorized by this legislation would enable the United States, Germany, and other allies to adjust their reduction liabilities by transferring treaty-limited equipment to other allies, allowing the alliance to achieve an effective overall defense capability at lower force levels.

I would like to also point out that this is a NATO program and not solely a U.S. program, with the U.S. portion representing only 30 percent of the overall program. Therefore, 70 percent of the costs associated with the program will not be incurred by the United States, and 70 percent of the actual equipment transfers will come from other NATO member countries.

Briefly, title I of the legislation:

Clarifies that the transfers are consistent with the obligations incurred by the United States and other allies in connection with the CFE Treaty;

Limits the articles eligible for transfer only to battle tanks, armored combat vehicles, or artillery included within the CFE Treaty's definition of conventional armaments and equipment limited by the treaty;

Clarifies that the United States will not incur any additional costs for such transfers;

Includes language concerning the military balance in the eastern Mediterranean; and

Stipulates congressional reporting requirements prior to any transfer.

This legislation does not include authority requested by the executive branch concerning follow-on support for the initial transfers. This language was deleted to reflect concerns raised by some of our colleagues and with the concurrence of the executive branch.

I would like to commend my colleagues on both sides of the aisle of the Foregn Affairs Committee and also on the Armed Services Committee for working with us to fashion this legislation, which now enjoys broad bipartisan support. I would also note that this legislation in its current form is fully supported by the executive branch.

I believe this treaty enhances stability and security in Europe and that this implementing legislation further complements the treaty objectives, and I urge my colleagues to support this measure.

Other important components of this bill include two provisions dealing with Soviet weapons destruction and emergency humanitarian assistance to the Soviet Union, it's republics and successor entities. Both of these provisions have strong, bipartisan support in the other body. Funding for them is already contained in the Dire Emergency Supplemental Appropriations Act for 1992. Both provisions are narrowly defined and pertain strictly to the dismantling of Soviet nulcear weapons and the provision of emergency humanitarian assistance. No other assistance, technical or otherwise, is contained in this bill.

Soviet President Gorbachev has requested Western help in dismantling Soviet nuclear weapons, and President Bush has proposed that the United States provide such assistance directed at the storage, transportation, dismantling, and destruction of nuclear weapons. It is clearly in the security interests of the United States and its allies to help the Soviets dispose of their nuclear weapons to prevent their possible seizure, theft, or transfer, not to mention use in the looming atmosphere of instability and chaos in the Soviet Union.

Title II of this legislation provides that the President may transfer up to $400 million in fiscal year 1992 from Department of Defense accounts for these purposes. Prior to the expenditures of any of these funds, the President will first certify to the Congress that potential recipients in the Soviet Union, by the republics or what is left of the central authorities, are committed to a series of constructive actions. These include making a substantial investment of their own for the destruction of such weapons, forgoing military modernization, as well as the use of fissionable or other components of the destroyed nuclear weapons, complying with all relevant arms control agreements and facilitating U.S. verification of the weapons' destruction.

Such a program of nuclear weapons destruction will increase U.S. security by:

Avoiding spending billions of dollars on arms production that perpetuates arms race;

Enhancing our country's nonproliferation and antiterrorism efforts;

Enhancing the prospects for a peaceful transition from authortarian to democratic rule in the Soviet Union;

Creating more business opportunities for U.S. disarmament contractors; and making arms disarmament, not just arms control, a reality in the post-cold war environment.

It is important that this program has both a "matched" and a "multilateral" aspect.

Matched—because we expect the Soviets to not only pay their share but to also make the political decisions to get weapons destruction programs moving and funded.

Multilateral—because we expect European countries have a special stake in seeing Soviet weapons destroyed and, therefore, they should also contribute funds and expertise to this mutual security effort.

U.S. leadership is important on efforts such as this and we, in Congress, can be proud of our efforts to initiate the process. Our constituents can be assured that this is not a Soviet aid giveaway program but rather a United States security and arms control enhancement program. Furthermore, the fund will be used to fund U.S. experts, technicians, planners, and contractors to enable them to play a crucial role in initiating these weapons destruction programs.

In short, this program is in our own self-interest. It will enhance United States security by assuring the destruction of Soviet weaponry and by cutting off opportunities that might allow these weapons to proliferate into the wrong hands to be used directly or indirectly against the United States.

Economic chaos in the Soviet Union is mounting and threatens the peaceful transformation of that country. Emergency humanitarian assistance in the form of necessary food stuffs and medical supplies can be helpful in averting potential disaster. Title III provides for up to $100 million to be transferred, at the direction of the President, from Department of Defense funds for the transport, by either military or commercial means of food, medical supplies, and other types of emergency humanitarian assistance to the Soviet Union, it's republics or any successor entities.

The Secretary of State will report to the President in prompt fashion regarding any emergency conditions which may require such assistance. Notification of the Senate and House Committee on Armed Services, Appropriations, Foreign Policy, and Foreign Affairs is required within 10 days of the transfer of these emergency humanitarian funds.

Mr. Speaker, the Soviet Union is at a crossroads in its history, and it needs our help and that of the rest of the developed world. This is not a problem we can simply throw some money or ideas at and think we have done our duty. We must recognize the limits but also the opportunities involved in our efforts to help the Soviets. This legislation carefully targets two areas of immediate concern to the stability and well-being of the Soviet Union, Europe, the United States, and the world: The destruction of Soviet nuclear weapons and the provision of emergency humanitarian assistance. These are straightforward, necessary, and narrow defined steps, and I urge my colleagues to support them.

Title IV of H.R. 3807 also authorizes funding for the Arms Control and Disarmament Agency [ACDA] for fiscal years 1992 and 1993 and addresses the congressional oversight of the activities of the On-Site Inspection Agency [OSIA].

1992
UMI

The post-cold-war, the post-Gulf-war, and the post-Soviet-coup setting poses many new challenges and opportunities for both of these agencies in the field of arms control and disarmament. The activities and importance of these agencies will increase significantly in the coming years as we actively complete and implement some half dozen bilateral and multilateral arms control and disarmament agreements.

The authorization level for ACDA is set at $44.527 million for fiscal year 1992. This modest level is easily explained by ACDA's increased responsibilities related to several arms control negotiations and implementation of three arms control agreements, the INF Treaty and the two nuclear testing treaties—PNET and TTBT. It is our intention that this funding level will enable ACDA to provide for additional external research in support of the Agency's activities.

The other item related to ACDA in this legislation is a provision calling for a report by the inspector general of ACDA to examine ACDA's fulfillment of its primary functions and to review what recommendations he might make regarding ACDA's needs during this period of increasing responsibilities and activities.

The Arms Control and Disarmament Agency is the U.S. Government agency with primary responsibility for the development and implementation of U.S. arms control policies. ACDA is implementing three arms control agreements—the INF Treaty and the two nuclear testing treaties—and is working on as many as nine other arms control accords—START I and II, CFE I and II, two chemical weapons agreements, short-range nuclear forces, biological weapons, and nuclear nonproliferation. That is a very full agenda and that is why the Committee on Foreign Affairs supported modest increases in personnel and research for ACDA.

The On-Site Inspection Agency [OSIA] was established in February 1988 to implement the INF Treaty. OSIA Manages, directs, and implements all the on-site inspections for that treaty, which now total approximately 600 inspections Even though all the INF missiles have now been destroyed, the monitoring, verification, and inspecting under the INF Treaty will continue for the next 10 years. Now, OSIA will also be implementing, monitoring, and overseeing the two nuclear testing agreements, and it will also have several more treaties, such as CW, CFE, and START to work on.

The On-Site Inspection Agency implements arms control and disarmament agreements and it carries out those activities on foreign territory. The Committee on Foreign Affairs has oversight and legislative responsibility for matters involving arms control and for U.S. activities taking place on foreign territory. Therefore, the Committee on Foreign Affairs needs to receive from the administration adequate information on all OSIA activities in order to exercise its proper oversight and legislative responsibilities.

The provision of the House amendment which amends title V of the Arms Control and Disarmament Act regarding congressional oversight of On-Site Inspection Agency activities contains the following:

A requirement for the President to submit a report to the appropriate committees of the Congress concurrent with an authorization request which includes:

A description of how and when OSIA was established, including the applicable texts of the relevant executive orders;

A summary of the mission and tasks assigned to OSIA to date;

Any additional missions and tasks projected with respect to fiscal year 1993;

The budgetary history of the Agency to date, including budget requests, actual authorization and appropriation levels enacted and reprogrammings submitted to Congress; and

A discussion of the extent to which OSIA plays a role in arms control policy formulation and operational implementation.

A requirement that any notification submitted to the Congress with respect to a proposed transfer, reprogramming, or reallocation of funds from or within the budget of OSIA shall be submitted to the Committee on Foreign Affairs of the House and the Committee on Foreign Relations of the Senate shall be subject to review by those committees.

The intent of the provision regarding the reprogramming notification requirement is that the Committee on Armed Services and the Committees on Foreign Affairs and Foreign Relations have equal rights and responsibilities with respect to approval of any request to reallocate funds from or within OSIA. The committee expects that these rights and responsibilities will be conducted consistent with the current Armed Services procedures applicable to reprogrammings.

OSIA is playing a central role in implementing the INF Treaty and two nuclear testing treaties (PNET, TTBT), and it may be implementing six to nine more treaties. OSIA is part of our overall Government arms control community, which must now respond positively to the arms control opportunities before us and assure that these opportunities are turned into agreements in which our Government and people can have confidence and trust that the other side is fulfilling their end of the bargain.

Therefore, OSIA has a rightful claim and, indeed, a clear responsibility to make its arms control policy input into the total Government process. OSIA is not just a nuts and bolts operation, it is a key agency in the total picture of our Government's arms control and disarmament policy.

OSIA's organizational structure currently reflects the importance of the agency's policy component. The Arms Control and Disarmament Agency and the Department of State provide assistant directors to OSIA. Again, it is the Committee on Foreign Affairs which authorizes funds for both the Department of State and ACDA and therefore must oversee the structure and functioning of OSIA's directorate and the overall agency.

President Bush's September 27, 1991, arms control initiative sets in motion unilateral U.S. arms control measures. Congress should not only look to OSIA for its policy evaluation of such unilateral moves but also to OSIA for ways in which it can play some role in assuring that such unilateral moves are reciprocated by the Soviets if that is the understanding. New developments in arms control, such as the President's September 27 initiative, illustrate even more poignantly how important it is to have proper and adequate communication between the Foreign Affairs Committee and the OSIA.

By reflecting for just a minute on the adverse impact to the arms control process that was caused by Soviet violation and compliance questions during the last decade, it is quite easy to realize what an important role OSIA must play in the United States arms control policy process.

The Committee on Foreign Affairs' jurisdiction over U.S. Government activities on foreign soil gives it a special, specific, and significant responsibility regarding the establishment of guidelines for monitoring training inspectors, escorting and collection activities, and the general management of arms control inspections on foreign territory.

The legislation before us is designed to improve the arms control work of both ACDA and OSIA at the same time that it also seeks to improve congressional oversight and legislative activities relating to arms control and disarmament policies.

This legislation establishes the necessary administrative tools and financial support for the effective operation of our major arms control agencies—ACDA and OSIA—in the post-cold-war era.

With this explanation, I am confident these arms control agencies will continue to receive broad bipartisan support.

Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin [Mr. ASPIN], the chairman of the Committee on Armed Services, to explain whatever he wants to explain, and I take this opportunity to thank him and his staff for his valuable cooperation in making it possible to move this bill.

Mr. ASPIN. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, let me just say that I want to say how much we appreciate working with the gentleman from Florida and his staff, and we would like to commend them for their hard work in putting together this proposal and putting together this legislation.

I would like to also thank the gentleman from Florida [Mr. BENNETT], whose suggestion we incorporated in one of the amendments, and the gentleman from Ohio [Mr. McEWEN], whose suggestion we also incorporated in one of the amendments.

I would like to thank the gentleman from Florida—the two gentlemen from Florida—and the gentleman from Ohio.

Mr. Speaker, we have today a historic opportunity to reduce the threat Americans face from the Soviet Union. In the span of less than 2 years, we have seen the fall of the Berlin Wall, the collapse of the Warsaw Pact, the utter failure of Soviet communism, and now the disintegration of the Soviet Union itself.

Unlike the earlier developments, the collapse of the union presents Americans with real and tangible dangers as well as challenges and opportunities for a more peaceful world. I wish to address myself to those dangers and opportunities because they are the reason for the legislation before this House today.

We face the disintegration of a nuclear superpower. The former Soviet Union holds within its borders nearly 30,000 nuclear weapons and the bomb-making expertise to spawn new nuclear arsenals around the world. These facts represent real dangers to the United States and its allies.

The legislation before you would take steps to reduce these new threats posed to Americans by events in the Soviet Union.

First, it would help the Soviets make a start on dismantling this enormous and unnecessary nuclear arsenal by authorizing $400 million for a cooperative effort with the United States. For decades we have aimed our defense budgets at buying forces that would scare the Soviets out of using these weapons. Here is a chance to take them off the table for good. We cannot pass up this opportunity to help them reduce this arsenal.

Second, there is the prospect of social chaos this winter in the former Soviet Union due to severe shortages of medicine and food in critical areas. This prospect of social chaos presents us with two dangers.

Danger one: the nuclear danger. There is the possibility that the fabric of Soviet society will become so unraveled that even military discipline fails and nuclear weapons fall into the wrong hands. The prospect of nuclear weapons or fissile materials passing into unfriendly, perhaps undeterrable hands is a danger indeed. And the danger is not limited to materials. At some point, the deterioration of Soviet society will prompt a migration of nuclear expertise, and some of it will surely go to those who do not wish their neighbors or us well.

Danger two: the political danger. If this first winter of freedom in the Soviet Union is a disaster, we have to fear another coup attempt. The hardliners haven't left. They are very likely waiting for another chance. If they get one, they may succeed in ousting the democratic reformers. If democratic reformers are replaced by dictators, our hopes for even further reductions in U.S. defense spending could be dashed.

Therefore, we must defend ourselves against these two new dangers. The legislation before you responds to this urgent need. It is defense by different means, but it is defense, nevertheless. It would allow for urgent and direct action to defend our interests by avoiding social chaos in the Soviet Union this winter. It would authorize $100 million to allow the Department of Defense to airlift food, medicine, and other materials to areas of critical need in the Soviet Union as determined by President Bush. This would bypass the corrupt and collapsing Soviet transport system where so much is now lost or stolen.

Only one institution in the world has this capability. That institution is the U.S. military. The Soviet military could not accomplish it. The centrally directed Soviet transportation system is the problem, so it surely cannot be the solution. The only instrument we have capable of helping to avert social chaos this winter is the U.S. military. That is why this legislation enables President Bush—entirely at his discretion—to use Pentagon assets to transport food and medicine.

Once again, this is defense by other means but clearly defense.

There is a final element to this legislation. It would require that the President—to the extent he deems appropriate—seek reimbursement for any assistance from the recipient Soviet or other government in the former Soviet Union. It is an entirely appropriate addition.

Mr. BROOMFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I strongly support H.R. 3807 which authorized the President to transfer certain equipment to NATO allies pursuant to the implementation of the CFE Treaty.

The underlying bill was passed unanimously by the House last week. Yesterday the legislation was amended by the other body adding language regarding United States policy toward the Soviet Union. Today we consider specific amendments to that language.

It is important that the Congress complete consideration of this legislation. Delaying action until early next year will cost the U.S. taxpayer approximately $500,000 a month. In addition, any delay in sending this legislation to the President may prevent the U.S. from meeting its commitments required under the CFE Treaty.

There are additional reasons we should move this legislation forward. In my view, it is imperative that we seize the moment to take advantage of the opportunity to reduce the Soviet military threat at its source—within the Soviet Union itself.

I support the provisions in this bill regarding nuclear weapons destruction in the Soviet Union. The President should be provided with the authority to utilize, if he deems it necessary, appropriate funds to destroy and dismantle nuclear and chemical weapons in the Soviet Union.

I urge support for the bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. FASCELL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion.

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida [Mr. FASCELL].

The motion was agreed to.

A motion to reconsider was laid on the table.

□ 0400

COMMENTS ON H.R. 3807, SOVIET NUCLEAR THREAT REDUCTION ACT OF 1991

(Mr. BENNETT asked and was given permission to address the House for 1 minute.)

Mr. BENNETT. Mr. Speaker, the bill we have just been considering was controversial when first suggested by the gentleman from Wisconsin [Mr. ASPIN]. A lot of people did not understand what he had in mind. As revised, with the amendments that worked out in the Committee on Armed Services and the Committee on Foreign Affairs, it provides that the countries that are going to be assisted, the Soviet empire, the independent countries, they are required to do some participation themselves in this. The President is authorized to do the best he can to work out arrangements with regard to things like oil, magnesium, and other assets that Russia has in large quantity. Russia and the Soviet empire are not poor in any respect. They have a lot of materials that we would like to buy. Along with the gentleman from Ohio [Mr. McEWEN], myself and others, we worked out some amendments which make it possible for us to have barter and other ways to keep the taxpayers of the United States from having to carry all of this burden.

Mr. McEWEN. Mr. Speaker, will the gentleman yield?

Mr. BENNETT. I yield to the gentleman from Ohio.

Mr. McEWEN. Mr. Speaker, I thank the gentleman from Florida [Mr. BENNETT] for yielding and wish to commend him for his leadership.

What happens on occasions like this, it seems like the generosity of the American people is so overwhelming we sometimes get our heart in front of our head. The truth of the matter is that much has to be done to rescue the Soviet Union from 70 years of socialism.

Mr. Speaker, you will, however, observe that the Japanese do not feel so obligated, the Germans do not feel so obligated, and the British do not feel so obligated, even though all of them would benefit from the actions taking place.

What the gentleman from Florida [Mr. BENNETT] has said is that this is going to cost the taxpayers some money, and it is going to cost the taxpayers of America some money. In the course of doing it, in the benefit of the global welfare of our planet, we should be able to have access to the abundant reserves that are there in the Soviet Union.

Mr. Speaker, the gentleman from Florida [Mr. BENNETT] has mentioned that perhaps the second largest oil reserves in the world are in the Soviet Union. The largest strategic metal reserves are in the Soviet Union. So as they have these capacities, we should be able to establish long-term contracts whereby the expenditures of the taxpayers of the people of America can be rewarded.

Mr. Speaker, if the gentleman would continue to yield, let me just share with you two paragraphs from Jane's Weekly of November 16, 1991, this past week, in which a discussion with the head of the Soviet Air Force was held, where he was asked whether the next generation of combat aircraft programs had fallen upon a cash hurdle due to their dilemmas.

General Laptev said, "Naturally, there are financial constraints, but so far, no, none has been stopped.

"Some of these programs are so advanced that it would be most damaging to stop them now," he added.

"In September Laptev said work for the Soviet Air Force was underway on improvements to existing MiG–29 Fulcrums and Su–27 Flankers, as well as development of new fighters comparable to NATO's next generation aircraft."

The gentleman from Florida [Mr. BENNETT] mentioned the discussion so well that we had, that we cannot pick up for the Soviet Union this burden if they are going to continue their modernization. Sixteen hundred tanks in the last 12 months, 4400 armored personnel carriers in the last 12 months, 575 jet fighters in the last 12 months, as well as they floated 11 new submarines and 40 new strategic bombers.

So in these negotiations what we are saying is as we help clean up the mess, the President of the United States should protect the American taxpayer by making sure we get paid in some kind in return from their natural resources.

Mr. Speaker, I thank the gentleman from Florida [Mr. BENNETT] for his leadership. He has done not only freedom a service, but America a service by demanding that this logical, common sense consideration be included in this bill.

Mr. BENNETT. Mr. Speaker, reclaiming my time, I thank the gentleman from Ohio [Mr. MCEWEN] for his leadership. It is very outstanding.

FUNDING OF NATIONAL INTERMODAL SURFACE TRANSPORTATION SYSTEM

Mr. Speaker, we are in a tight position with regard to allowing time on the transportation bill, so I would like to make some remarks about this.

The transportation bill, the idea of interstate highways, was born in the mind of Eisenhower when he was President, with the assistance of a Florida man, who brought it to his attention about this being an important thing to occur. So really the Eisenhower administration is known today as the father of the interstate system.

When it was started, it did not seem to be a bad thing to have States that were better off make donations in large amounts of money to the trust fund to provide for interstate highways in States where they could not raise that money. So for decades that has been the system.

But the formula under which that money was distributed was an archaic formula. It was based on such things as rural mail carrier routes.

So a few months ago, perhaps more than that, I read in the editorials of Florida about how Florida was getting such a bad drubbing under the existing law with regard to highways. So I wrote to these people that made those comments and I said, "What is the problem?" They explained to me about this antique system to provide for who got how much money under the highway program.

So I asked the heads of transportation in all 50 States to give me suggestions. They worked out a suggestion of a modern formula, things based on six-lane and eight-lane highways, based upon diesel utilization, the length of the roads, and things that make sense and make an entirely different formula, a formula which gives the donor States like California, Texas, Florida, and other growing States, a better chance to be financed in this type of activity.

Mr. Speaker, I took that to the Committee on Public Works and Transportation. They looked at it and they did the best they could with it. As a matter of fact, they did a pretty good job with it. They passed in the House of Representatives a bill which greatly improved that distribution of funds. They greatly improved it.

But now what do we have tonight? I regret to say I myself am going to vote against this bill because of the fact it is so unfair. It is even more unfair than the bill that passed in the Senate. The bill that passed in the Senate, for instance, gave Florida 83 cents on the dollar. This bill gives Florida 82 cents on the dollar. It is not much of an improvement.

Theoretically, and you will be told this by the committee when it gets before you, "Oh, BENNETT is wrong. You get 90 percent. Everybody gets 90 percent."

But that overlooks the fact that the 90 percent does not apply to all the money, it only applies to a portion of the money.

When you get all those other portions worked out, you find out that Florida just give 82 percent on the dollar.

Now, some States get 500 percent of what they pay in. Many States get a much larger amount of money than they pay in.

So it is very unfair in 1991 to have a system of taking care of our interstate highways which is based upon an archaic formula. It is very sad in the closing days of this 102d Congress, this session, that we are having to have a bill like this.

Mr. Speaker, I do not blame the House committee. It worked real hard. The gentleman from New Jersey [Mr. ROE] worked very, very hard, and so did the gentleman from Arkansas [Mr. HAMMERSCHMIDT].

□ 0410

The gentleman from Arkansas [Mr. HAMMERSCHMIDT] if Congress has a gentleman, it is the gentleman from Arkansas, JOHN PAUL HAMMERSCHMIDT. And also the gentleman from Kentucky, BILL NATCHER, on our side. He is a gentleman. I admire them tremendously.

I would say the Members that worked on both sides of the aisle tried to get out a good bill. They did get out a good bill. The House passed a good bill, but it went to conference.

I want to say something that I have observed about government here much more clearly than I ever observed before and that is, our constitution gives a terrible blow on some types of legislation. Here we have a Member of the U.S. Senate, representing only a small fraction of the population that I represent in the House of Representatives; and others in the Senate who are representing very few people, and they are able to vote down the vast majority of American citizens. So it is almost not democracy.

The majority of Members of Congress are from areas that are contributing to this situation very unfairly. The majority of Members of Congress are. But that is not true in the Senate.

So the Senate stood there adamantly and was able to achieve something unfair which I regret was achieved.

One other point about this. The Speaker in the House and the Presiding Officer in the Senate can help a little bit in a case like this. The way in which they should help is they should have put Members on the conference, even though they were not on the committee, who had something to do with the idea that we should be fairer with regard to the formulas.

I had asked both sides whether they would lend me any time on this bill, and they are pretty cramped for the time. So I am using this opportunity, but I am not mad about anything. Because the House committee worked hard to bring out what it did, and they tried to be fair about it to the very best of their ability.

I am not in any way running them down. I am saying it is a sad thing in 1991 that we are now passing a 6-year highway bill which has a formula that is tied to such things as rural mail carriers instead of 8-lane highways and the modern problems that we have with regard to highways. The modern formula was worked out, and it did do a good, fair thing to this situation and it did pass the House. But regrettably it died in the conference as a lot of good things do.

NONTRADITIONAL EMPLOYMENT FOR WOMEN ACT

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 367) to amend the Job Training Partnership Act to encourage a broader range of training and job placement for women, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from California?

Mr. GOODLING. Mr. Speaker, reserving the right to object, although I shall not object, I yield to the gentleman from California [Mr. MILLER] for the purpose of explaining what it is we are doing.

Mr. MILLER of California. Mr. Speaker, as the sponsor of H.R. 907, the Nontraditional Employment of Women Act, I urge my colleagues to support this legislation. H.R. 907 is identical to the NEW provisions in the Job Training Partnership [JTPA] Amendments of 1989, which was passed overwhelmingly in the House last year, and to S. 367.

This legislation is supported by the administration, the National Governors Association, the AFL–CIO, the Homebuilders Institute, and a number of women's organizations, including Wider Opportunities for Women, the National Tradeswomen Network, and the National Displaced Homemakers Network.

I want to thank my colleague from Maryland, Mrs. CONNIE MORELLA, who was the major cosponsor of this legislation, and the other numerous cosponsors from both sides of the aisle who strongly supported NEW.

The purpose of NEW is to increase nontraditional training and employment opportunities for women served by JTPA. Nontraditional occupations are those jobs in which 25 percent or less of the work force is female. Examples of nontraditional jobs are trades workers, electronic technicians, mechanics, and maintenance engineers.

Women in nontraditional jobs earn higher wages which enable them to become economically self-sufficient and support their families. In no way will NEW discriminate against men. They will continue to be eligible for training programs in all occupational areas.

NEW is needed because despite current JTPA language encouraging the elimination of occupational stereotyping, occupational segregation still exists in JTPA programs, and the gap in wages between women and men continues.

A 1991 GAO investigation of the Job Training Partnership Act found that JTPA, the only major source of employment training for the economically disadvantaged, dislocated workers, and others who face significant employment barriers, discriminates against blacks and women in the services it provides.

The GAO found that in one-third of the service delivery areas [SDA's], white participants were more likely to receive occupational training than black recipients; and in two-thirds of the SDA's, men were more likely to receive on-the-job training while women were more likely to receive classroom training for mostly lower wage jobs.

The GAO also found that the Department of Labor [DOL] and State JTPA agencies do not conduct sufficient monitoring activities to identify and address disparities; and when they are able to identify disparities, they do not take corrective actions. These disparities were attributed to the systemic problems in the way projects operate at the local level.

According to a 1989 GAO study, women graduates of JTPA programs earned an average of $4.65 an hour, 51 cents less than male graduates. The GAO found that less than 9 percent of women in JTPA supported classroom training were being trained in nontraditional occupations. These occupations pay an average of 30 percent higher wages than occupations which are traditionally female. Sixty-nine percent of the women who were placed in jobs after participation in JTPA were clustered in the two lowest paying occupational areas—clerical and sales, 43 percent, and service, 26 percent, of JTPA's nine occupational areas.

NEW requires services delivery areas and States to include goals in their annual job training plans for training and placing women in nontraditional employment. It creates a time-limited program out of existing funds, at a cost of $1.5 million annually, to foster the development and institutionalization of programs to train women for nontraditional employment.

NEW complements the Department of Labor's skilled trade initiative to help women gain access to the skilled trades by providing an incentive for JTPA funded training to prepare women for apprenticeships.

Over the last 6 months, three private industry councils have participated in a demonstration to implement the kind of goal setting which the NEW Act would require. These projects are in Hartford, CT, Milwaukee, WI, and Missoula, MT.

In all three service delivery areas, wide community support has already been generated to achieve the goals. It has proven neither costly nor a major administrative burden in any of these three communities to put in place the systems to make nontraditional training accessible to women.

This demonstration effort had been funded by the Ford Foundation, the Rockefeller Family Fund, the Aetna Foundation, and the Women's Bureau of the Department of Labor. The lessons learned in this project will make it easier to implement the NEW Act when it becomes law.

While NEW alone will not solve the inequities in JTPA training programs, it is a vital and important step to help ensure that women are trained in all occupational areas. I urge you to support this legislation.

Mr. GOODLING. Mr. Speaker, continuing my reservation of objection, I yield to the gentlewoman from Maryland [Mrs. MORELLA].

Mrs. MORELLA. Mr. Speaker, I thank the gentleman for yielding to me.

As the cosponsor of H.R. 907, the Nontraditional Employment for Women Act, I am pleased to join my colleague, Congressman GEORGE MILLER in urging passage of this critical bill.

I see this bill as an important elemental step toward achieving the kind of trained and prepared work force that will be needed over the next decades. It is a waste of our resources and human potential to continue the training of low income women in the narrow range of occupations that the Job Training Partnership Act programs have most frequently targeted for women. The concentration of women in training for clerical, sales, and low wage service jobs has had a negative effect on women's wages as well as a negative impact for employers making a good faith effort to find trained women for a broader spectrum of jobs. The NEW Act will address these issues in the Job Training Partnership Act.

The NEW Act is an appropriate strategy for this Congress to bring to the employment and training community at this time. We must be looking for strategies that will insure that economically disadvantaged women—especially those who are struggling to raise their children alone—are receiving services that promise a route out of poverty. Training for nontraditional employment—with its assurance of wages that are at least 30 percent higher in most occupations—is one of the most successful strategies toward this goal. All too often, we have been investing JTPA training dollars in training for jobs that keep women and their children in poverty.

I am pleased to support a bill that has the chance to improve the JTPA and its services to women without substantial new resources being required or burdensome overregulation. The NEW Act requires goal-setting and the development of data systems to measure progress. This is, I think, a good business strategy consistent with the overall direction of the Job Training Partnership Act.

I urge this House to support NEW and to join in moving toward a better trained, more flexible, and diverse work force.

THE NONTRADITIONAL EMPLOYMENT FOR WOMEN ACT: H.R. 906, S. 367

Status: Introduced in both the House and Senate on February 6, 1991. The Senate Labor and Human Resources Committee passed the bill unanimously on February 20, with no amendments. No action has been taken yet by the House Education and Labor Committee.

Summary: The bill is an amendment to the Job Training Partnership Act to increase nontraditional training and employment for women served by the JTPA. The bill:

Requires States and service delivery areas to set goals for training and placing women in traditionally male fields and to report on their results in meeting these goals;

Authorizes the State Job Training Coordinating Council to review the plans and outcomes of the service delivery areas and the governor, to make recommendations for future activities related to improving nontraditional training, and to disseminate successful approaches developed in the States;

Directs the governor and SJTCC to coordinate efforts for training and placing women in nontraditional employment under the JTPA and vocational education system;

Establishes a four year demonstration grants program to be awarded by the Secretary of Labor to no more than six States per year to expand/extend nontraditional training and employment programs throughout the State, utilizing $1.5 million annually from USDOL's national JTPA program monies; and

Directs the Secretary of Labor to report to Congress on the efforts made at the local, State, and national levels to train, place, and retain women in nontraditional occupations and to generate recommendations for legislative and administrative changes necessary to increase nontraditional opportunities for women under JTPA.

Rationale: As of 1988, only 9% of women workers were employed in nontraditional occupations—those in which 25% or less of the work force is female. These occupations pay an average of 30% higher wages than occupations which are traditionally female. Since 1983, however, the number of women in nontraditional jobs has remained relatively unchanged at 4% of the total workforce. In the Job Training Partnership Act, while more than 50% of those served are female, a study of 1986 enrollments showed that less than 9% of women in JTPA-supported classroom training were being trained in nontraditional occupations. In contrast, female participants were most often trained in clerical and caretaking occupations in which placements occurred less often and at lower wages. Given the low income and welfare status of many female JTPA participants training in nontraditional and higher skill occupations should be a priority.

While program models for training women in a wide variety of nontraditional occupations have been successfully implemented since the mid-1960s, these models have not been institutionalized throughout the JTPA system. A few programs, like those listed below, have demonstrated that nontraditional training can be successfully implemented;

T.R.E.E. (Training, Recruiting, Educating and Employing, Inc.) is a JTPA-funded nontraditional training program for women in Middlesex County, New Jersey. TREE provides eight weeks of hands on, pre-apprenticeship training in one of four fields: electrical, plumbing, drywall taping/finishing, and painting. TREE also provides women with support services, linkage to vocational-technical schools for literacy and basic skill training, and job placement assistance upon completion of the program.

STEP-UP of Women is a comprehensive nontraditional skills training program for women located in Vermont and New Hampshire. STEP-UP provides 13 weeks of training to 75 women each year, primarily in construction trades, such as carpentry, plumbing and welding. 80% of women completing the program are placed in jobs which provide further training through on-the-job training or apprenticeships. The program is funded by JTPA and Vocational Education funds.

Women Accessing Technology is a program of the Waukesha County Technical College in Wisconsin. The program assists women and high school girls to enter and complete technical training in fields such as Electronics and Telecommunications. WAT provides hands-on experience, as well as role model and employer contacts, career exploration and job shadowing.

Other examples of nontraditional employment skills training programs for women include: Bergen County Technical schools in Hackensack, NJ; ANEW in Renton, Washington; Nontraditional Employment for Women in New York City; Midwest Women's Center and Chicago Women in the Trades in Chicago; MiCasa in Denver; Women's Technical Institute in Boston; Prep, Inc. in Ohio; Women in the Skilled Trades (WIST) in Oakland, CA; and Women in Apprenticeship/Prep Inc. in San Francisco.

Major Supporting Organizations: The National Governors' Association, Wider Opportunities for Women, The National Tradeswomen's Network, the AFL/CIO, the Homebuilders Institute, the National Displaced Homemakers Network, the National Women's Law Center, Women Construction Owners and Executives, and the New York and Ohio State Employment Bureaus.

Mr. GOODLING. Mr. Speaker, continuing my reservation of objection, I would merely say that the new act is the same as the old act, which the gentleman from California [Mr. MILLER] explained, that was passed in our committee last year and in the House. Unfortunately, it did not make it to the Senate.

I should point out that the Department of Labor does not oppose the act. They do have two concerns. One concern being that it is earmarking some more money, we have already earmarked $8 million of their $35 million, that we earmark another million and a half. And their second concern, of course, is one that we may hear about sometime. They do have some concern about the increased reporting requirements and the administrative costs for the State and local government.

So in case we get that message when we get back home after this kicks in, do not act as if we do not know anything about it. We will just have to come back and fix it.

Mr. MILLER of California. Mr. Speaker, if the gentleman will continue to yield, I would like to recognize the work of our colleague, the gentleman from Kentucky [Mr. PERKINS] for all of the work and effort that he put into bringing this legislation to this point.

Mr. GOODLING. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 367

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Nontraditional Employment for Women Act".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) over 7,000,000 families in the United States live in poverty, and over half of those families are single parent households headed by women;

(2) women stand to improve their economic security and independence through the training and other services offered under the Job Training Partnership Act;

(3) women participating under the Job Training Partnership Act tend to be enrolled in programs for traditionally female occupations;

(4) many of the Job Training Partnership Act programs that have low female enrollment levels are in fields of work that are nontraditional for women;

(5) employment in traditionally male occupations leads to higher wages, improved job security, and better long-range opportunities than employment in traditionally female-dominated fields;

(6) the long-term economic security of women is served by increasing nontraditional employment opportunities for women; and

(7) older women reentering the work force may have special needs in obtaining training and placement in occupations providing economic security.

(b) STATEMENT OF PURPOSE.—The purposes of this Act are—

(1) to encourage efforts by the Federal, State, and local levels of government aimed at providing a wider range of opportunities for women under the Job Training Partnership Act;

(2) to provide incentives to establish programs that will train, place, and retain women in nontraditional fields; and

(3) to facilitate coordination between the Job Training Partnership Act and the Carl

D. Perkins Vocational and Applied Technology Education Act to maximize the effectiveness of resources available for training and placing women in nontraditional employment.

SEC. 3. DEFINITION.

Section 4 of the Job Training Partnership Act (hereinafter referred to as the "Act") is amended by adding at the end thereof the following new paragraph:

"(30) The term 'nontraditional employment' as applied to women refers to occupations or fields of work where women comprise less than 25 percent of the individuals employed in such occupation or field of work.".

SEC. 4. SERVICE DELIVERY AREA JOB TRAINING PLAN.

Section 104(b) of the Act is amended—

(1) by redesignating paragraphs (5), (6), (7), (8), (9), (10), and (11) as paragraphs (6), (7), (8), (9), (10), (11), and (12), respectively;

(2) by inserting after paragraph (4) the following new paragraph:

"(5) goals for—

"(A) the training of women in nontraditional employment; and

"(B) the training-related placement of women in nontraditional employment and apprenticeships;

and a description of efforts to be undertaken to accomplish such goals, including efforts to increase awareness of such training and placement opportunities;"; and

(3) in paragraph (12), as redesignated in paragraph (1) above, by—

(A) striking "and" at the end of subparagraph (B);

(B) striking the period at the end of subparagraph (C) and inserting in lieu thereof a semicolon; and

(C) adding after subparagraph (C) the following new subparagraphs:

"(D) the extent to which the service delivery area has met its goals for the training and training-related placement of women in nontraditional employment and apprenticeships; and

"(E) a statistical breakdown of women trained and placed in nontraditional occupations, including—

"(i) the type of training received, by occupation;

"(ii) whether the participant was placed in a job or apprenticeship, and, if so, the occupation and the wage at placement;

"(iii) the participant's age;

"(iv) the participant's race; and

"(v) information on retention of the participant in nontraditional employment.".

SEC. 5. GOVERNOR'S COORDINATION AND SPECIAL SERVICES PLAN.

(a) IN GENERAL.—Section 121(b) of the Act is amended by—

(1) redesignating paragraphs (3), (4), and (5) as paragraphs (4), (5), and (6), respectively; and

(2) by inserting after paragraph (2) the following new paragraph:

"(3) The plan shall include goals for—

"(A) the training of women in nontraditional employment through funds available under the Job Training Partnership Act, the Carl D. Perkins Vocational and Applied Technology Education Act, and other sources of Federal and State support;

"(B) the training-related placement of women in nontraditional employment and apprenticeships;

"(C) a description of efforts to be undertaken to accomplish such goals, including efforts to increase awareness of such training and placement opportunities; and

"(D) a description of efforts to coordinate activities provided pursuant to the Job Training Partnership Act and the Carl D. Perkins Vocational and Applied Technology Education Act to train and place women in nontraditional employment.".

(b) SPECIAL PROGRAMS.—Section 121(c) of the Act is amended by—

(1) redesignating paragraphs (9) and (10) as paragraphs (10) and (11), respectively; and

(2) inserting after paragraph (8) the following new paragraph:

"(9) providing programs and related services to encourage the recruitment of women for training, placement, and retention in nontraditional employment;".

SEC. 6. STATE JOB TRAINING COORDINATING COUNCIL.

Section 122(b) of the Act is amended by—

(1) redesignating paragraphs (5), (6), (7), and (8) as paragraphs (9), (10), (11), and (12), respectively; and

(2) inserting after paragraph (4) the following new paragraphs:

"(5) review the reports made pursuant to subparagraphs (D) and (E) of section 104(b)(12) and make recommendations for technical assistance and corrective action, based on the results of such reports;

"(6) prepare a summary of the reports made pursuant to subparagraphs (D) and (E) of section 104(b)(12) detailing promising service delivery approaches developed in each service delivery area for the training and placement of women in nontraditional occupations, and disseminate annually such summary to service delivery areas, service providers throughout the State, and the Secretary;

"(7) review the activities of the Governor to train, place, and retain women in nontraditional employment, including activities under section 123, prepare a summary of activities and an analysis of results, and disseminate annually such summary to service delivery areas, service providers throughout the State, and the Secretary;

"(8) consult with the sex equity coordinator established under section 111(b) of the Carl D. Perkins Vocational and Applied Technology Education Act, obtain from the sex equity coordinator a summary of activities and an analysis of results in training women in nontraditional employment under the Carl D. Perkins Vocational and Applied Technology Education Act, and disseminate annually such summary to service delivery areas, service providers throughout the State, and the Secretary;".

SEC. 7. STATE EDUCATION COORDINATION AND GRANTS.

(a) STATE EDUCATION COORDINATION AND GRANTS.—Section 123(a) of the Act is amended by—

(1) striking "and" at the end of paragraph (2);

(2) striking the period at the end of paragraph (3) and inserting in lieu thereof a semicolon and "and"; and

(3) inserting the following new paragraph at the end thereof:

"(4) to provide statewide coordinated approaches, including model programs, to train, place, and retain women in nontraditional employment.".

(b) USE OF FUNDS.—Section 123(c) is amended—

(1) in paragraph (2)(B) by striking "(1) and (3)" and inserting in lieu thereof "(1), (3), and (4)"; and

(2) in paragraph (3) by striking "(1) and (3)" and inserting in lieu thereof "(1), (3), and (4)".

SEC. 8. USE OF FUNDS.

Section 204 of the Act is amended by—

(1) redesignating paragraphs (27) and (28) as paragraphs (28) and (29), respectively; and

(2) inserting after paragraph (26) the following new paragraph:

"(27) outreach, to develop awareness of, and encourage participation in, education, training services, and work experience programs to assist women in obtaining nontraditional employment, and to facilitate the retention of women in nontraditional employment, including services at the site of training or employment,".

SEC. 9. DEMONSTRATION PROGRAMS.

Part D of title IV of the Act is amended by adding at the end thereof the following new section:

"DEMONSTRATION PROGRAMS

"Sec. 457. (a)(1) From funds available under this part for each of the fiscal years 1992, 1993, 1994, and 1995, the Secretary shall use $1,500,000 in each such fiscal year to make grants to States to develop demonstration and exemplary programs to train and place women in nontraditional employment.

"(2) The Secretary may award no more than 6 grants in each fiscal year.

"(b) In awarding grants pursuant to subsection (a), the Secretary shall consider—

"(1) the level of coordination between the Job Training Partnership Act and other resources available for training women in nontraditional employment;

"(2) the extent of private sector involvement in the development and implementation of training programs under the Job Training Partnership Act;

"(3) the extent to which the initiatives proposed by a State supplement or build upon existing efforts in a State to train and place women in nontraditional employment;

"(4) whether the proposed grant amount is sufficient to accomplish measurable goals;

"(5) the extent to which a State is prepared to disseminate information on its demonstration training programs; and

"(6) the extent to which a State is prepared to produce materials that allow for replication of such State's demonstration training programs.

"(c)(1) Each State receiving financial assistance pursuant to this section may use such funds to—

"(A) award grants to service providers in the State to train and otherwise prepare women for nontraditional employment;

"(B) award grants to service delivery areas that plan and demonstrate the ability to train, place, and retain women in nontraditional employment; and

"(C) award grants to service delivery areas on the basis of exceptional performance in training, placing, and retaining women in nontraditional employment.

"(2) Each State receiving financial assistance pursuant to subsection (c)(1)(A) may only award grants to—

"(A) community based organizations,

"(B) educational institutions, or

"(C) other service providers,

that have demonstrated success in occupational skills training.

"(3) Each State receiving financial assistance under this section shall ensure, to the extent possible, that grants are awarded for training, placing, and retaining women in growth occupations with increased wage potential.

"(4) Each State receiving financial assistance pursuant to subsection (c)(1)(B) or (c)(1)(C) may only award grants to service delivery areas that have demonstrated ability or exceptional performance in training, placing, and retaining women in nontraditional employment that is not attributable or related to the activities of any service provider awarded funds under subsection (c)(1)(A).

"(d) In any fiscal year in which a State receives a grant pursuant to this section such State may retain an amount not to exceed 10 percent of such grant to—

"(1) pay administrative costs,

"(2) facilitate the coordination of statewide approaches to training and placing women in nontraditional employment, or

"(3) provide technical assistance to service providers.

"(e) The Secretary shall provide for evaluation of the demonstration programs carried out pursuant to this section, including evaluation of the demonstration programs' effectiveness in—

"(1) preparing women for nontraditional employment, and

"(2) developing and replicating approaches to train and place women in nontraditional employment.".

SEC. 10. REPORT AND RECOMMENDATIONS.

(a) REPORT.—The Secretary of Labor shall report to the Congress within 5 years of the date of enactment of this Act on—

(1) the extent to which States and service delivery areas have succeeded in training, placing, and retaining women in nontraditional employment, together with a description of the efforts made and the results of such efforts; and

(2) the effectiveness of the demonstration programs established by section 457 of the Job Training Partnership Act in developing and replicating approaches to train and place women in nontraditional employment, including a summary of activities performed by grant recipients under the demonstration programs authorized by section 457 of the Job Training Partnership Act.

(b) RECOMMENDATIONS.—The report described in subsection (a) shall include recommendations on the need to continue, expand, or modify the demonstration programs established by section 457 of the Job Training Partnership Act, as well as recommendations for legislative and administrative changes necessary to increase nontraditional employment opportunities for women under the Job Training Partnership Act.

SEC. 11. DISCRIMINATION.

(a) For purposes of this legislation, nothing in this Act shall be construed to mean that Congress is taking a position on the issue of comparable worth.

(b) Nothing in this Act shall be construed to require, sanction or authorize discrimination in violation of title VII of the Civil Rights Act of 1964 or any other Federal law prohibiting discrimination on the basis of race, color, religion, sex, national origin, handicap, or age. No individual shall be excluded from participation in, denied the benefits of, subjected to discrimination under, or denied employment in any program under this Act because of race, color, religion, sex, national origin, age, handicap, political affiliation or belief. Failure to meet the goals in the Act shall not itself constitute a violation of title VII of the Civil Rights Act of 1964 or any other Federal law prohibiting discrimination on the basis of race, color, religion, sex, national origin, handicap, or age.

SEC. 12. EFFECTIVE DATE.

This Act and the amendments made by this Act shall take effect upon the date of enactment of this Act, except that the requirements imposed by sections 4, 5, and 6 of this Act shall apply to the plan or report filed or reviewed for program years beginning on or after July 1, 1992.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

□ 0420

ABANDONED INFANTS ASSISTANCE ACT AMENDMENTS OF 1991

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 1532) to revise and extend the programs under the Abandoned Infants Assistance Act of 1988, and for other purposes, with a Senate amendment to the House amendments thereto, and agree to the Senate amendment to the House amendments.

The Clerk read the title of the Senate bill.

The Clerk read the Senate amendment to the House amendments, as follows:

On page 13, after line 14, of the House amendment to the text of the bill, insert:

SEC. (9) Amend Section 105 of the Older Workers Benefit Protection Act (PL 101–433) by striking the semicolon at the end of paragraph (b)(1) and inserting thereafter the following: "; or that is a result of pattern collective bargaining in an industry where the agreement setting the pattern was ratified after September 20, 1990, but prior to the date of enactment, and the final agreement in the industry adhering to the pattern was ratified after the date of enactment, but not later than November 20, 1990;' ".

Mr. MILLER of California (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment to the House amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from California?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 1532 the Senate bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California.

There was no objection.

CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. ROE. Mr. Speaker, the final details are now being completed, and the conference report with proper signatures will be here momentarily. I ask unanimous consent that we proceed with the debate on the conference report on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The SPEAKER pro tempore. The gentleman from New Jersey [Mr. ROE] will be recognized for 30 minutes, and the gentleman from Arkansas [Mr. HAMMERSCHMIDT] will be recognized for 30 minutes.

The Chair recognizes the gentleman from New Jersey [Mr. ROE].

Mr. ROE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank my colleagues for their indulgence in allowing us to proceed because it will save time in the long run.

Mr. Speaker, I wish to thank all of the conferees who literally worked around the clock for weeks, especially my colleagues on the Public Works and Transportation Committee. I do want to pay the highest regard and special tribute to their leadership, particularly the gentleman from Arkansas, Mr. JOHN PAUL HAMMERSCHMIDT, our ranking member; the gentleman from California, Mr. NORM MINETA, the subcommittee chairman; the gentleman from Pennsylvania, Mr. BUD SHUSTER, the ranking member.

I also want to take this time publicly to thank Senator DANIEL PATRICK MOYNIHAN of New York and the other Senate conferees for their tremendous cooperation and support. If ever the Members of the House owed a great deal of praise and regard for a staff that has worked on this bill in the last 3 weeks, day and night, Saturdays and Sundays, 18 hours a day, I would like to highly compliment the staff of the Public Works Committees of both the House and the Senate who have made it possible for us to arrive at this point.

Mr. Speaker, I am proud to present to the House, on behalf of the Committee on Public Works and Transportation and on behalf of the 92 conferees, the Intermodal Surface Transportation Efficiency Act of 1991, a bipartisan bill that will stand as the centerpiece of our domestic and economic agenda for years and decades.

Tonight on this floor we are marking the start of a new transportation era for America. We are bringing to this

House a surface transportation policy bill, an economic agenda, an environmental program and an energy conservation measure, that will touch the life of every American. We are starting to rebuild America.

I wish to thank all of the conferees who have literally worked around the clock for weeks, especially my colleagues on the Public Works and Transportation Committee. I want to pay special tribute to the other members of the committee leadership with whom I have worked so closely during the last few months: JOHN PAUL HAMMERSCHMIDT of Arkansas, NORMAN MINETA of California and BUD SHUSTER of Pennsylvania.

I also want to thank Senator DANIEL PATRICK MOYNIHAN of New York and the other Senate conferees for their tremendous cooperation and support.

All of us in the House owe a tremendous thanks to the staff of the Public Works and Transportation Committee. They have worked on this bill in a totally bipartisan manner for more than 2 years and virtualy continuously for 7 months to get this job done. This has been a humongous job and the staff has risen to the occasion.

Working together, we have produced a bill that will meet the vast and varied surface transportation needs of the entire Nation.

First and foremost, every State will receive back 90 cents on the dollar from the highway trust fund. We labored for 3 weeks over this issue because it is one of simple fairness and equity to all the States. We have worked to balance the interests of all the States: The donor States, the rural States, the urban States, the growth States.

With this bill we are rebuilding America. We will have an increased investment of 46 percent in our Nation's highways and bridges, and a virtual doubling of the Nation's transit commitment.

Never before has there been the enormous investment that this bill authorizes, directs and promotes. It will have a huge impact on the economic dynamics of the entire Nation. Our people need transportation, they need jobs, they need clean air. This bill will bring about a better transportation system through intermodalism, it will result in better coordination with environmental needs and it will improve the quality of life.

The overriding question is what kind of America will we have? How do our people get to their jobs, to their schools, to commercial areas, to airports and to ports? How do we invest in our infrastructure to develop a national intermodal transportation system for the future as we enter the 21st century? We must build on the successful efforts of the past but we must also move in bold and audacious new directions in transportation policy.

This bill is more than a highway bill, it is more even than a surface transportation bill. There is nothing more important today than the economic condition of the Nation. We are bringing before the House an economic program that will create 2 million real jobs for Americans. These are real jobs that are creating the new wealth of the Nation for the 21st century through investment in the transportation infrastructure.

This bill is an investment in the economic and environmental future of America. Everyone here should be aware that there is no more important legislation in this Congress for the quality of life of all Americans than this transportation policy bill.

This legislation will have a dynamic economic effect on America. We will be creating jobs—real jobs. We will be investing in our Nation and we will be preparing for competition in the global economy.

It is time our Nation made this major and significant commitment to upgrading our transportation infrastructure. Our foreign rivals, Germany, France, and Italy have all been engaged in major infrastructure investment programs that have led to significant productivity growth. Japan has embarked on a 10-year, $3.2 trillion infrastructure investment campaign, Taiwan on a 6-year, $300 billion campaign.

We are using the optimum resources of the highway trust fund to put trust back in the trust fund by spending down the balance. Durings the 6 years of the bill, the balance in the highway account will be reduced from $11.4 to $2.3 billion. Most importantly, we are using the American taxpayers' transportation funds for transportation purposes and not for shielding the public deficit. We are rebuilding America.

This bill meets the transportation needs of every part of our Nation: Urban, suburban, and rural. We have worked throughout the year on a bipartisan basis to emphasize flexibility, equity and balance. We ask the support of the Members of this House for this new transportation policy for the Nation, a policy that will provide the direction to lead our Nation into the 21st century.

A list of conferees follows:

PUBLIC WORKS AND TRANSPORTATION COMMITTEE CONFEREES

Mr. Roe, Mr. Anderson, Mr. Mineta, Mr. Oberstar, Mr. Nowak, Mr. Rahall, Mr. Applegate, Mr. de Lugo, Mr. Savage, Mr. Borski, Mr. Kolter, Mr. Hammerschmidt, Mr. Shuster, Mr. Clinger, Mr. Petri, Mr. Packard, Mr. Boehlert, and Mrs. Bentley.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield myself 4 minutes.

Mr. Speaker, I rise in strong support of the conference report to accompany H.R. 2950, the Intermodal Surface Transportation Efficiency Act of 1991.

I want to thank all of the 92 conferees from both bodies for their dedication, hard work, and determination to make certain that we reached agreement on a bill that would be acceptable to both Houses and could be sent to the President for his signature.

I especially want to commend my good friend, BOB ROE, chairman of the Public Works and Transportation Committee and chairman of the conference; Surface Transportation Subcommittee Chairman NORM MINETA; and the subcommittee's ranking member, BUD SHUSTER, for their tremendous leadership, perseverance, and cooperative effort in helping bring the conference to a highly successful conclusion. I also add my deepest appreciation to our very professional and dedicated staff.

Mr. Speaker, I am pleased that the conference agreement retains the strengths of the bill passed by the House on October 23. As we provided in the House bill, the conference agreement authorizes $151 billion over 6 years to move the Nation's vitally important Surface Transportation Program forward.

Mr. Speaker, in addition to that this is a jobs bill.

According to the Department of Transportation funding the program at these levels could create up to 4 million jobs. And it's going to happen at an opportune time in our Nation's economic slow down.

The conference agreement also provides for the creation of a 155,000-mile National Highway System, which will include the Interstate System and principal arterial routes, and it funds this new program at the more adequate levels proposed by the House.

This conference agreement also recognizes that many highway corridors were left off the interstate map when it was first drawn. Therefore, the National Highway System will include major transportation corridors that provide the highest level of service and carry the greatest amount of traffic.

As we invest in the Nation's surface transportation infrastructure through this agreement, we will also be spending down the balance in the highway trust fund to about $2.5 billion in fiscal year 1997.

The conference agreement goes to considerable lengths to provide greater equity in the apportionment of funds. It raises from 85 to 90 percent the return that States receive relative to what they contribute to the highway trust fund.

In addition, the agreement provides minimum allocation States with bonus minimum allocation funds, and it provides funds where necessary to ensure that such States receive at least a 90 percent return on their trust fund contributions. Hold harmless funds are also provided to assure that a State's fiscal year 1992 funding level does not fall below its fiscal year 1991 level.

Clearly, the conferees made every effort to provide equity in the distribution of trust fund dollars. And it is important that the Members of this body realize that while some States still may want more than they will be receiving under the agreement, the funding in the bill provides States with a 46-percent increase over the next 6 years relative to the funding they have received over the past 5 years.

This conference committee fully realized the pressing transportation infrastructure needs that exist all over the Nation. I believe that we have provided a strong response in H.R. 2950, and I urge my colleagues to support it.

Mr. Speaker, I would like to take this opportunity to clarify the provision in the bill authorizing high priority cooridors through several States. The table printed in the bill describing the corridor segments lists the States associated with the project. There has been some confusion as to whether this listing somehow prejudices the alignment of the corridor.

Let me give you an example. One of the corridors in the bill is the North-South corridor from Kansas City, MO, to Shreveport, LA. A segment of this corridor from Alma, AR, to the Louisiana border is designated for special funding. The chart lists Texas and Arkansas for this segment.

This does not mean, however, that the alignment must go through Texas to reach the Louisiana border. The corridor ultimately selected could be entirely in Arkansas. There is no requirement that the route go through Texas. The decision on the best alignment for the route is left to the States of Arkansas, Texas, and Louisiana, working cooperatively with the Department of Transportation.

A similar situation exists with respect to the avenue of the Saints. Even though the chart lists three States for this corridor project, this in no way precludes the selection of an alignment which traverses States not listed in the chart.

The listing of States in the charts accompanying the high priority corridors and other projects are not binding and do not prevent States from choosing the best alignments for the projects.

In any event, the corridor program is an important one. I am especially aware of what the upgrading of these corridors can mean to areas of the country undergoing tremendous growth and expansion.

Northwest Arkansas, for example, has experienced such rapid growth that the existing highway system is simply inadequate to meet the demand.

That is why the high priority corridor designation of the North-South Highway 71 corridor from Shreveport to Kansas City and the Highway 412 corridor from Tulsa to Nashville, through Arkansas, is so very important. As such, there 2 routes will be eligible for funding over and above Arkansas' normal apportionments and, thus, construction on them can be expedited.

The conference agreement also authorizes funding for other important Arkansas projects as well. These include a four-lane highway for Harrison to the Missouri line and the extension of Phoenix Avenue in Fort Smith.

An important study is authorized to examine alternate locations for traffic flow on and around Highway 71 in the Bella Vista area.

Funding is also provided for the Devalls Bluff Bridge replacement project over the White River and for the Mississippi Great River Bridge. Needed interchange work at Jonesboro will be able to go forward, as well as construction on the North Belt Freeway in Little Rock.

The conference agreement names the University of Arkansas at Fayetteville as the site of a new National Rural Transportation Study Center, where research and training will be conducted in the development and operation of rural intermodal transportation systems.

Funds will be made available to purchase a needed handicapped-accessible, electrically powered bus for the Eureka Springs Transit System.

The agreement also authorizes the Department of Transportation to test luminous all-weather safety markers, and it permits the State of Arkansas to train county, city and town traffic officials in the use of uniform traffic control devices.

Mr. Speaker, the conference report also includes provisions to modify certain stormwater permit application deadlines established pursuant to the Clean Water Act. This section focuses on municipally owned or operated stormwater discharges associated with industrial activity. It codifies various deadlines established by EPA in its most recent rulemaking for permit applications for industrial operations owned or operated by certain municipalities.

It also modifies certain regulatory requirements set out by EPA. For example, municipalities with populations of less than 100,000 would not be required to apply for permits for stormwater discharges associated with industrial activities except for power plants, uncontrolled sanitary landfills, and airports. The provision also establishes a new statutory deadline for part II group applications for stormwater discharges associated with industrial activities owned or operated by a municipality.

The conference report, however, does not address any permit requirements or deadlines for stormwater discharges associated with industrial activities not owned or operated by municipalities. In my view, this is unfortunate. At the very least, it requires some clarification.

First of all, our decision to focus on municipal discharges does not reflect a lack of concern about the regulatory impacts imposed upon privately owned industries. In fact, a large number of these non-municipal dischargers are small businesses that have limited resources and are relying heavily on group applications or general permits to achieve compliance. It is important that we not lose sight of the regulatory burdens industries will face under the stormwater permitting regime.

It is also important to note, Mr. Speaker, that nothing in the conference report affects most of the dates for submitting stormwater permit applications established in EPA's recent rulemaking published in the Federal Register on November 5, 1991. The rulemaking extended the application deadlines for industries owned or operated by municipalities and those privately owned industries discharging into municipal storm systems. The conference report, while silent on the deadlines for these privately owned industries, is not intended to override the dates established in EPA's rulemaking action.

Nor, Mr. Speaker, is anything in the legislation intended to prejudice or in any manner affect existing litigation, including *Natural Resources Defense Council* v. *U.S. EPA*, case No. 90–70671 and 91–70200 (9th Cir., 1990).

The conference report includes provisions from both the House- and Senate-passed bills relating to wetlands mitigation banks. The legislation authorizes the use of Federal transportation funds for wetlands conservation, restoration, and creation efforts—including the establishment and use of mitigation banks.

The legislation adds some important new authorities to strengthen wetlands protection efforts. For example, State and Federal transportation officials will now have greater opportunities to protect, conserve, and restore our Nation's existing wetlands base while meeting transportation needs.

The conference report will help to encourage further development and use of wetlands restoration and creation efforts. The science of wetlands creation is not without controversy. This legislation, however, will help to provide funds and authorities to explore more opportunities but without waiving any applicable Federal Laws or regulations.

The conference report does not include provisions from the Senate-passed bill relating to the protection of private property rights. From my perspective, this is regrettable; the provisions could have helped to ensure greater deference by Federal regulatory agencies to rights guaranteed by the fifth amendment—particularly in the arena of wetlands regulation under section 404 of the Clean Water Act.

It is important to note that many conferees agreed to delete the provisions primarily because of procedural obstacles or concerns in the final days of the first session. The conference on H.R. 2950 simply was not the best forum to address, at least in a comprehensive manner, this emerging issue of critical importance.

Reauthorization of the Clean Water Act, which I would hope includes revisions to the section 404 wetlands regulatory program, may present a more appropriate context. I look forward to this opportunity next session, and I think a majority of Members in this body does as well.

I am also pleased to note that this conference report includes the Washington airports legislation in exactly the same form as it passed the House last week. This legislation revises the governing structure of the Metropolitan Washington airports authority to resolve constitutional concerns raised by the Supreme Court.

As revised, the airports board of review will become an advisory board that will monitor certain activity at the two airports and screen those actions that are worthy of further congressional consideration. Passage of this legislation now is important, since it will ensure that the capital improvement programs at National and Dulles Airports can move forward without interruption.

Mr. Speaker, this legislation, in its entirety, deserves the support of my colleagues, and I urge its approval.

☐ 0430

Mr. ROE. Mr. Speaker, I yield 5 minutes to the gentleman from California [Mr. MINETA], the Chairman of the Subcommittee on Surface Transportation of the Committee on Public Works and Transportation.

I might say to all our colleagues here, that he has done an extraordinarily good job on this bill over the last 2 years. I want to commend the gentleman for the great work he has done for our country.

Mr. MINETA. Mr. Speaker, as everyone well knows, the hour is early and we want to get on with the conference report.

I have got to say that there is nothing that I have been connected with than the Civil Liberties Act of 1988 that I can say I have had more pride in putting together and working with a very fine group, and that is the Intermodal Surface Transportation Infrastructure Act of 1991, working with the likes of the chairman, the gentleman from New Jersey [Mr. ROE], a dedicated, hard-driving person who looks into the details of the bill, with the very fine gentleman from Arkansas [Mr. HAMMERSCHMIDT], the ranking Republican on the full Committee on Public Works, and with the gentleman from Pennsylvania [Mr. SHUSTER], probably the most knowledgeable person in the House of Representatives when it comes to surface transportation law.

Two-and-one-half-years ago when the members of the Public Works and Transportation Committee elected me to chair the Subcommittee on Surface Transportation, I knew that we had two challenges. One was to arrest the decay of infrastructure in the United States, and the other was to get a bill together that would take us into the 21st century after the completion of the interstate era, so we have done that. For 2½ years we have held hearings across the country. We have listened to people about what they want in their transportation system and what they think they need in the transportation system.

Mr. Speaker, once again, I would like to commend you for your leadership on this issue.

Many of my committee colleagues have heard me say that the House and Senate surface transportation bills were, at one time, like two ships passing in the night.

They were indeed very different.

I do believe, however, that the House and Senate conferees have been able to construct a single 6-year vision for America that will in fact build an innovative and effective transportation network second to none in the world.

As chair of the Surface Transportation Subcommittee, I have spent much of the last 2½ years traveling throughout America, holding hearings, and listening to what the American people want and what their transportation needs are.

My conclusion:

The highways, bridges, and transit systems of the United States have fallen apart because the Federal Government has fallen down on the job and has tried to get States and localities to pick up the tab to fix the mess.

And the message to this Congress could not be more clear:

The cold war is over.

America and freedom won that war.

It is now time to build American roads and transit systems—not American bombers.

In the future, the security of this Nation will depend less on how fast an ICBM travels to the former Soviet Union and more on how fast commerce travels through our transportation network.

Our transportation network is an integral part of our economy and, therefore, our national security.

It is now absolutely essential that America do more than reverse the collapse of our annual transportation investment from 2.3 percent of our gross national product in the 1960's and 1970's to four-tenths of 1 percent from the 1980's to this very day.

That is why we must begin, today, here in this Congress, to build a new transportation age in America.

This conference report embodies a program to rebuild America not the way some faceless bureaucrats in Washington, DC, dictate it, but the way the American people are demanding that it be rebuilt—through us, the Congress.

That is the way it should be.

And that is the way it is in our 6-year, $151 billion plan for America.

This legislation is a genuine new transportation policy for America, and a tremendous investment in our future.

The flexibility designed into this law is unprecedented, and of particular importance to States like my home of California which will grow enormously in the balance of this century, and into the next.

Mr. Speaker, I am also pleased that we were able to include titles addressing our serious highway safety and motor carrier needs.

Studies call for transportation investments of up to $3 trillion during the next 20 years. We can differ about the final cost, but to me there are no more universal truths than these:

First, the transportation needs are there.

Second, how we spend the money we have is at least as important as how much money we spend.

Mr. Speaker, this conference report takes the best of the House and Senate bills and will get the job done.

The final legislation retains the integrity of the proposed National Highway System while enhancing the role of the local officials and metropolitian planning organizations.

Mr. Speaker, I must say at this point that I regret that the conference was unable to accept the state allocation formulas detailed in the House bill.

I believe that these formulas represented a fair return on the highway trust fund contributions of donor States.

However, the conference report does provide States with unprecedented funding levels and flexibility.

During the last 5 years, our Nation spent $86 billion on our National Highway Program.

During the next 6 years, our legislation provides more than $119 billion to make our roads and bridges ready for the 21st century.

As importantly, our legislation authorizes transit funding levels which doubles the wholly inadequate funding levels we have known in the past.

This is a tremendous victory in our efforts to meet the requirements of the Clean Air Act, relieve congestion, and encourage new energy alternatives.

And perhaps most important, Mr. Speaker, this legislation comes at a time when it is desperately needed—both in terms of our infrastructure, and for our Nation's economic health.

At a time when the White House continues to deny the effects of the economic recession, we have before us legislation that will create 2 million jobs over the next 6 years.

And while the people of 1600 Pennsylvania Avenue haven't seen or felt the effects of the recession, Mr. Speaker, you have only to ask the people of Bethlehem, PA, if there is a recession.

Or the people of Chicago.

Or the people of Lafayette, LA.

Or the people of San Jose, CA.

They will tell you that our economy is hurting.

They will tell you that America needs this legislation, and we need it now.

Mr. Speaker, this legislation will improve how Americans get from here to there, as well as the air we breathe, our quality of life, and the future of our economy.

Mr. Speaker, America deserves nothing less.

I urge my colleagues to support the conference report on H.R. 2950.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield 5 minutes to the gentleman from Pennsylvania [Mr. SHUSTER], the distinguished ranking member of the subcommittee.

Mr. SHUSTER. Mr. Speaker, just as the American people looked back to the creation of the Interstate System a half century ago and see it as the very foundation upon which our transportation system was built in this century, the American people in the 21st century will look back to what we do here today as the foundation upon which an integrated transportation system will be built for the next century.

In fact, today we here create a national highway system for America, building on the Interstate System, adding about 110,000 additional miles and integrating a transportation system not only with highways, but with transit as well.

□ 0440

Here today we have the opportunity to make a major investment in the future of America and, yes, most of the money comes out of the highway trust fund, which means we are not adding to the deficit in the general fund.

One of the few programs here in Washington that we can say is financed on a pay-as-you-go basis.

Mr. Speaker, I certainly should emphasize that this has been a bipartisan effort from the very beginning. Chairman ROE, Chairman MINETA, Congressman HAMMERSCHMIDT, we have all worked together. We have been full partners on both sides of the aisle to craft this legislation.

Mr. Speaker, this afternoon it was announced that the President of the United States does support this bill and he will sign this bill.

Beyond the transportation implications for our country, it is of enormous importance to note that a minimum of 2 million jobs will be created directly by this legislation and perhaps another 2 million on top of that. But if you just take the 2 million jobs and look at a very small State, say a State that gets only 1 percent of the fund from this bill, 1 percent of 2 million jobs is 20,000 jobs, in a small State. Certainly, if there were ever any time when we need this kind of a jobs program that is going to rebuild America and help get this economy moving, now is that time.

Mr. Speaker, I can tell you that the conferees fought very hard to preserve the projects in this bill, and we succeeded in doing that. We preserved the projects which are so important to the Members across America. While those projects represent only 3.3 percent of the dollars in the bill, I know for our colleagues across America those projects are significant, and indeed it is right and proper that the elected Representatives of the people should be able to have some say in what gets built back in their congressional districts.

The faceless, nameless bureaucrats will be making most of the decisions, but it is right that Members be able to say what is most important in their district. Your conferees have preserved that right.

Mr. Speaker, I do not agree with everything in this bill. If I were writing it myself, I would have done some things differently.

It is said that one of the colleagues of John Adams criticized him because they said he fret the extremities without ever focusing on the heart of the matter. I am sure virtually every one of us can fret about some of the provisions in this bill, but more important than fretting about the extremities, I hope we focus on the heart of the legislation, which is: building a fundamental transportation system for America and creating jobs.

Mr. Speaker, I would be derelict if I did not emphasize to the House tonight that our staff on both sides of the aisle performed absolutely magnificently. Led by Jack Doyle and Jack Schenendorf the entire staff worked night and day and weekends.

While we like to think we as conferees work hard, I can tell you they worked much, much harder than we did. So we bring to you today legislation that, indeed, is historic in nature, and we urge you to vigorously support this historic bill.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. ROYBAL].

Mr. ROYBAL. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, I rise in support of the conference agreement on the Surface Transportation Assistance Act. I would like to commend Chairman ROE, the ranking minority member, Congressman HAMMERSCHMIDT and all the conferees on their efforts in crafting an excellent final conference report. This report provides flexibility for State and local officials to transfer highway funds to mass transit in areas such as Los Angeles, where unfettered highway construction is clearly not the answer to congestion and gridlock.

I especially want to extend my support to the provisions which authorize the construction of the third segment of the Los Angeles Metro Rail Red Line project, and in particular, the east side extension. The eastern extension will bring metro rail into east Los Angeles for the first time and plan for improved rail transit services to the eastern communities of Los Angeles County as well. In addition, these provisions authorize extensions into the San Fernando Valley and provide for service into west Los Angeles without having to excavate through a methane gas risk zone. An overall amount of $1.2 billion will be divided among the three segments of the MOS–3 portion of the Los Angeles Metro Rail system. With an immediate amount of $695 million available and an additional $535 million in advance construction funds, this long-awaited project will bring metro rail to several communities by 2001.

This extension to east Los Angeles will truly provide a much-needed means of transportation to neighborhoods that have been vastly underserved in the past. With several studies already completed, the estimated ridership for the combined segments serving east and west Los Angeles is well over 360,000 passengers. In east Los Angeles, there is a dire need to upgrade transportation services. As part of a major travel corridor which crosses the city of Los Angeles and unincorporated portions of Los Angeles County, the "east side corridor" encompasses such important areas as the central business district on the west, I–10—the San Bernardino Freeway—on the north, Garfield Boulevard on the east and I–5—the Santa Ana Freeway—on the south. Since 1987, the population on the east side has increased by almost 9 percent, three times the regional growth rate. This creates an even higher demand for transit. At the present time, there are more than 56,000 daily east side bus trtansit boardings, far exceeding the Federal minimum of 15,000 riders required to demonstrate a need for rail transit. Individuals traveling to and from the east side must use heavily congested streets and freeways to reach their jobs and on their return home, further adding to the delay and gridlock of this massively overburdened transportation system. Additionally, the east side is already slated for improvements under the Southern California Association of Governments' Regional Mobility Plan.

Improved transit service will reduce travel times and thereby increase availability of regional connections and socio-economic opportunities for east Los Angeles residents. These benefits will include job, education, medical, shopping, and cultural opportunities. As a representative of a district that is very dependent on public mass transit systems, I feel that this legislation strongly addresses the specific transportation needs of all segments of the diverse communities that make up the Los Angeles area. In additon to the transportation benefits derived by our citizens, this legislation will play a vital role in relieving the problems of air quality and congestion that plague our area.

I am proud to have developed, along with my colleagues in surrounding districts, a unified effort to keep all portions of this interrelated project intact both in construction and funding, thus ensuring that east Los Angeles and other communities will share in the advantages that this system will bring. The invaluable input, concern, and assistance from community organizations and from the Los Angeles County Transportation Commission has helped to develop an excellent foundation for continued neighborhood participation in this profound public endeavor. I wholeheartedly extend my support and will continue to work for completion of this transportation initiative that is of such critical importance to both my constituents and all the residents of Los Angeles. I would also urge my colleagues to vote in favor of this conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. BORSKI].

Mr. BORSKI. Mr. Speaker, I rise in strong support of the conference report.

Mr. Speaker, I want to join my fellow conferees in strong support of the conference report on H.R. 2950, the Intermodal Surface Transportation Efficiency Act of 1991.

I want to commend Chairman BOB ROE and NORM MINETA, and the ranking Republicans JOHN HAMMERSCHMIDT and BUD SHUSTER, for their strong leadership in crafting this visionary legislation which will guide America's transportation future into the 21st Century.

What makes this legislation revolutionary is its dramatic shift toward public transit. Never before has Congress made such a strong commitment to transit.

The legislation authorizes $31.5 billion over a 6-year period for public transit, virtually doubling current levels of transit funding and reversing what has been a 10-year decline in transit spending.

But the commitment to public transit extends beyond dollars and cents to a fundamental change in the way we view transit and its relationship to the entire transportation system.

Earlier this year, when Transportation Secretary Skinner testified before the Public Works and Transportation Committee, I asked him why the Urban Mass Transit Administration [UMTA] was not identified as a Federal agency of national scope, as is the case for the Federal Aviation Administration, the Federal Highway Administration, and other agencies which regulate modes of transportation.

My point was simple. Strong public transit is critically important to an integrated national transportation system. Transit is not simply an urban or city transportation system which receives Federal dollars but a system of travel warranting as much Federal attention as highways, aviation, rail, and water navigation.

H.R. 2950 recognizes that fact.

It renames UMTA the Federal Transit Administration.

H.R. 2950 also adopts a bold, new flexible funding program, enabling State and local officials to transfer almost two-thirds of Federal highway funds to transit to meet clean air requirements, reduce congestion, and to provide transportation services for working people and senior citizens.

This legislation places highways and transit on a level playing field by equalizing their Federal matching shares. This will remove incentives for States to build highways over transit, which has always received a smaller Federal match.

Finally, H.R. 2950 contains important provisions strengthening the role of Metropolitan Planning Organizations [MPO's] in project selection.

This will be of great benefit to public transit. MPO's understand the needs of our congested metropolitan areas and they will now have greater say in determining how best to use Federal transportation dollars in urbanized areas.

Clearly, H.R. 2950 represents a new commitment to public transit and one I am proud to support this legislation as a member of the Public Works and Transportation Committee.

No longer is public transit the big loser to highways in surface transportation funding. No longer is transit the ugly stepchild of Federal transportation policy. Instead, transit has finally become an equal member of the transportation family. That will benefit us all.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia [Mr. PAYNE].

Mr. PAYNE of Virginia. Mr. Speaker, I too rise in strong support of the bill.

Mr. Speaker, I rise in support of the conference report and thank CHAIRMAN ROE, subcommittee chairman, NORM MINETA, and ranking minority members JOHN PAUL HAMMERSCHMIDT and BUD SHUSTER for their excellent work in this conference.

This legislation creates a comprehensive national transportation system that will move our Nation, our industries, and our people competitively into the 21st century.

It will help restore America's preeminence in the world economy.

In the long term, this important massive investment in our infrastructure will improve our productivity and make us tough competitors around the world in the next century.

In the short term, passage of this legislation will do more to stimulate the economy than any legislation we have considered in this session of Congress.

It will create nearly 2 million jobs—2 million badly needed jobs in today's tough economic times.

Mr. Speaker, this bill is a thoughtful and far-reaching blueprint for the Nation's transportation system.

And it is fair.

As a member of the committee from Virginia, a donor State, I can assure you that this bill will distribute funds more equitably than any previous transportation authorization.

My State, like other donor States, will receive a much greater portion of the money they have contributed to the highway trust fund.

The increased funding level and the fact that Virginia receives about 7 more cents back from each dollar it contributes to the trust fund means that Virginia, which has averaged $290 million per year, will receive about $425 million annually over the next 6 years.

This is good news for all Virginians and, indeed, for all Americans, since other States are being treated similarly.

This legislation will put Americans back to work immediately, and it will make America more competitive well into the future.

Mr. Speaker, this is a good bill for our State.

It is a good bill for all Americans.

I urge my colleagues to support this important piece of legislation.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. NOWAK].

Mr. NOWAK. Mr. Speaker, I rise in strong support of the conference report on H.R. 2950, the Intermodal Surface Transportation Assistance Act of 1991.

This legislation provides a new, creative master plan that is balanced, to meet the transportation needs of the urban, suburban, and rural areas of our Nation.

This creative plan was the vision of the bipartisan leadership of our Committee on Public Works and Transportation—Chairman ROE, Subcommittee Chairman MINETA, the ranking minority members, Mr. HAMMERSCHMIDT and Mr. SHUSTER.

They are to be commended, not only for their dedication to this vision, but also for the limitless energy they displayed in forging this conference report during the last 15 days.

It was a herculean effort.

The result, however, is an epic piece of legislation that will enable our Nation to better meet its infrastructure needs.

This legislation certainly is a package aimed at better moving people and products across our Nation.

Certainly it is also a sorely needed job creating mechanism.

Most importantly, this legislation will enable our Nation to be more competitive in the new global marketplace.

This legislation will enable us to better meet the economic challenges that remain in this decade and that will confront us in the 21st century.

After long negotiations, the conferees achieved fairness for all States and flexibility for all States.

I urge my colleagues to support the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Speaker, I rise in strong support of the conference report.

Mr. Speaker, I rise in support of this conference report and want to thank the distinguished chairman of the Subcommittee on Surface Transportation, Mr. MINETA, and the chairman of the Public Works and Transportation Committee, Mr. ROE, for supporting my efforts to secure several provisions affecting indians in this bill.

The legislation authorizes that over $1.1 billion be made available for the Indian Reservation Roads [IRR] Program during the next 6 years. This is a tremendous and long overdue increase in funding.

Indian tribes will be allowed direct access to moneys for bridge replacement and rehabilitation for the first time under this bill. Previously, tribes had to convince a State to designate a bridge on Indian land a priority over a State bridge in order to receive funding. This process resulted in a backlog of dangerous Indian bridges needing repair.

The bill mandates that States fully consult with appropriate tribal governments when developing State transportation plans, and allows

States to give Indian preference in hiring for construction of roads near reservations. Since it is not unlikely for a reservation to be suffering from 70, 80 percent, or even 90 percent unemployment, I hope several states will take advantage of this willing work force through this provision.

Up to 2 percent of the funds available under the IRR Program will be made available through contracts for tribes to develop and plan their road system. This provision along with one which includes tribes in training programs will give tribal governments the ability to become more involved and more educated in the process of choosing tribal priorities for future road construction.

This legislation will also allow the Bureau of Indian Affairs [BIA] to use up to 15 percent of IRR funds for the purposes of road sealing, a very important process which greatly extends the life of a road. I want to point out, however, that these funds are only made available to BIA provided that BIA continues to retain responsibility, including annual funding request for road maintenance programs on Indian Reservation Roads. The BIA knows better then most the horrendous condition of existing Indian roads and the enormous need for new road construction. Funds made available from the highway trust fund is for construction purposes and not to be used for maintaining existing roads nor should that money be used by the administration as an excuse not to fund road maintenance in future budget requests as has been rumored.

The Secretary of Transportation is directed to conduct a study on inequities which exist between Indian Reservation Roads and other highway systems and report to Congress on recommendations to address those inequities. As part of the Federal trust responsibility toward Indian tribes, the Department of Transportation is in a perfect position to address past mistakes in the Indian Roads Program and I look forward to the submission of this report.

Mr. Speaker, these are just some of the provisions in this legislation which will affect Indian tribes and their lands. I believe that enactment of this legislation will afford tribes new opportunities to work with States in partnership agreements to build a safe and adequate transportation system so that Indian children can ride on safe roads over safe bridges to school. I look forward to the day when horror stories about elderly Indians stranded and starving are fed by helicopter drops because of impassable roads and of Indian hospitals and schools built with no road access to them are a thing of the past. This legislation is a step in that direction and I am glad to have been allowed to be a part of it.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Oregon [Mr. AuCoin].

Mr. AuCOIN. Mr. Speaker, I rise in strong support of the conference report on H.R. 2950, the surface transportation authorization bill.

I very much appreciate the hard work of Chairman Bob Roe of the Public Works Committee, Chairman Norm Mineta of the Surface Transportation Subcommittee, our colleagues on the conference committee, and the staff who have worked so hard on this historic measure.

I am very pleased that the conference agreement includes a provision of the House bill that authorizes $515 million in section 3 transit funds for Portland's Westside light rail project.

The highly successful MAX light rail system serves the eastern part of the Portland region.

It carries half a million riders per month; costs 30 percent less per passenger to operate than buses; and has influenced more than $1 billion in development along its route.

The Westside project will extend MAX from downtown into the western suburbs, providing similar benefits to Washington County, with the final terminus in Hillsboro.

Westside is Oregon's highest transportation priority because we want to solve the problems of congestion and air pollution in Portland.

We want to boost our economy by creating 17,000 job-years of employment. We want to protect the environment, save energy, and provide a sound basis for our future growth. MAX and other local success stories are the key to achieving national goals for a healthy economy, clean air, energy conservation, and an efficient transportation network.

I applaud the conference committee for its foresight in accepting the House bill's Westside language. While many other provisions of the conference agreement are worthy of mention, I would like to specifically thank the conferees for authorizing a National Scenic Byway Program. The Oregon State Department of Transportation has worked long and hard to develop this program.

We have an outstanding scenic byway candidate in the tristate Pacific Coast route, U.S. 101. It can be a model for the success of this program and a valuable support for our coastal areas. H.R. 2950 goes far toward meeting the challenges of the post-interstate era. With $151 billion in highway and transit funding, comprehensive planning requirements, and many innovative programs, this conference agreement provides the basis for an integrated transportation network that strengthens the economy, cleans up the air, saves energy, reduces gridlock, and provides mobility for all citizens.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. Poshard].

Mr. POSHARD. Mr. Speaker, I rise in strong support of the conference report.

Mr. Speaker, as a member of the Public Works and Transportation Committee, I rise in strong support of H.R. 2950 and encourage my colleagues to offer their support.

This is a highly valuable investment in the future of our Nation. Over the 6-year period covered by this bill, we will invest $151 billion in highways, bridges, and mass transit systems across this country.

In southern Illinois that means a study of the feasibility of a tollway linking my area and St. Louis. This project has tremendous local support and is a crucial element of continuing efforts to improve the economy of our area.

It means millions of dollars to improve Route 13, the primary East-West artery which connects communities in southern Illinois and holds tremendous commercial promise.

It means reconstruction of Feather Trail Road, something essential to the completion of the $800 million Olmsted Locks and Dam project.

It improves conditions on Route 1 in two rural counties in my district, provides funding for a bridge in the community of Du Quoin, and near the community of Sauget it connects a major highway with a developing business park and airport.

Mr. Speaker, just from a review of the economic implications for my district, one can easily determine this is a bill that is good for America. We are investing in the concrete and steel that allow the people of this country to work for a living. And at a time of economic hardship, this bill pumps money into the construction sector and creates millions of new jobs, while providing the economic base for sustained economic development in the future.

I thank all of the members of the Public Works and Transportation Committee who helped produce this final product, especially Chairman Roe and Chairman Mineta, with whom I have had the distinct pleasure of serving as a new member of the committee.

This is the kind of work people send us here to accomplish. This is certainly one of the high points of this or any other legislative session, and I look forward to the continued progress for America made possible by this excellent legislation.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. Geren].

Mr. GEREN of Texas. Mr. Speaker, I rise in strong support of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from the Virgin Islands [Mr. de Lugo].

Mr. de LUGO. Mr. Speaker, I rise in support of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. Lipinski].

Mr. LIPINSKI. Mr. Speaker, I rise in strong support of the bill.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. Flake].

Mr. FLAKE. Mr. Speaker, I rise in support of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Connecticut [Ms. DeLauro].

Ms. DeLAURO. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, we are here in the early morning hours working to complete the task of reauthorizing the Surface Transportation Act. I want to commend the dedication and effort shown by the members of the conference committee in bringing this legislation to the floor for a vote in a timely manner. I also want to commend Chairman Roe, Mr. Mineta, Mr.

Hammerschmidt, and Mr. Shuster for their leadership and commitment to taking the steps necessary to craft this vital piece of legislation.

Beyond sound transportation policy—and I believe this legislation gives us that—this bill is an essential part of our effort to pull our Nation out of recession and bring about a real economic recovery. It brings with it real hope for recovery because it brings with it the real jobs needed by so many of our citizens and businesses struggling to survive this recession.

Let me speak for a moment to what this bill could mean for the State of Connecticut—really to what it means for each State and for our country. These are perilous times for Connecticut and its citizens. In the last year alone, over 80,000 Connecticuters have lost their jobs. Five hundred and twenty-six Connecticut businesses have been forced into bankruptcy.

This bill—as it helps build a sound transportation system to carry us confidently into the new century—will infuse over $2.2 billion into the State of Connecticut. These badly needed transportation funds could bring as many as 100,000 new jobs to the State. Jobs that mean food on the table for families in need. Jobs that will give people the opportunity to work for a paycheck instead of having to wait in a line for an unemployment check or for no check at all.

Mr. Speaker, the Surface Transportation Reauthorization Act is a bill that the State of Connecticut needs, that New England needs, and that the Nation needs. The bill not only demonstrates this Congress' commitment to improving our Nation's transportation infrastructure, but also its commitment to taking the necessary steps to moving our Nation along the path to a real and lasting economic recovery.

Mr. Speaker, long regarded as the world's policeman, the United States has made the world safe for democracy, yet it has failed to makes it's streets safe for children and families.

Statistics, usually stale and lifeless, speak volumes about the indignities Americans suffer at the hands of criminals here every day. In 1990 alone nearly 35 million Americans—almost 14 percent of the total population—were the victims of crime in this country.

Today, however, we can take an important first step in reclaiming our streets and protecting our people. We have the opportunity to pass the Omnibus Control Act, one of the toughest anticrime measures in U.S. history.

This bill will send a powerful message to those who commit crimes, and an equally strong message to the people of America. Through 50 new crimes punishable by the death penalty, it lets criminals know that they will pay for their crimes.

By providing more cops on the beat and a waiting period on the purchase of handguns, it tells Americans and law enforcement officers that we will back them up, not just with angry rhetoric, but with real, powerful, anticrime measures.

Sadly, it does not ban assault weapons—something many of us fought hard for.

But today we can give people some hope. We can help them restore safety to their streets, security to their homes, and dignity to their lives.

Vote for the Omnibus Crime Control Act.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. Kolter].

Mr. KOLTER. Mr. Speaker, I rise in strong support of the bill and ask for its passage.

Mr. ROE. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Missouri [Ms. Horn].

Ms. HORN. Mr. Speaker, I rise in strong support of this conference report, the Intermodal Surface Transportation Infrastructure Act of 1991.

The United States invests a smaller percentage of its gross national product on highways and bridges than any other major industrial nation, and this neglect has severely hampered our competitiveness by impeding the movement of people and goods. The conference report addresses this neglect by radically redirecting transportation spending for the coming century.

The situation which our cities face today is extremely bleak. Gridlock is an everyday occurrence in most cities, contributing to decreased productivity and increased air pollution and commuter stress; those able to flee to the surburbs do so, weakening the urban tax base and further slowing infrastructure investments which would reduce gridlock and perhaps stem the urban flight. H.R. 2950 seeks to address this problem by allocating $32 billion for transit projects nationwide, and by allowing the transfer of up to 25 percent of a State's national highway system funds to urban areas. This flexibility, combined with the creation of the National Highway System, is a vital step on the long road toward rebuilding America's infrastructure.

H.R. 2950 will also strengthen the authority of local metropolitan planning organizations [MPO's], giving local planners greater say in how State transportation dollars are spent. Currently, MPO's exist largely in an advisory capacity, their views on mass transit and urban planning often carrying little weight. Last year's Clean air Act imposes stringent pollution-control measures upon our urban areas, but if we expect our cities to enact expensive antipollution measures, we must also give our urban regions the funds they need to effect programs which will accomplish the goals of the Clean Air Act. St. Louis County is a moderate nonattainment region, and any new road construction in the region must conform to the tenants of the Clean Air Act. Empowering the MPO's will allow funds to be spent where and how they are most urgently needed.

According to the House Committee on Public Works, every dollar spent on infrastructure results in a $10 return to the local community through increased jobs, productivity, and efficiency. This $151 billion bill is going to create over 2 million jobs during the 6 years of the program. H.R. 2950 is not an extravagant spending bill; it is an investment in America, in our future, in ourselves. Mr. Speaker, the bill before us today is vital to restoring our large urban areas, and subsequently the rest of the Nation, to health. I urge the most immediate passage of the conference report.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. Savage].

Mr. SAVAGE. Mr. Speaker, I rise in strong support of this bill and commend the House leaders and the members of the conference for doing a tremendous job for our Nation.

Mr. ROE. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia [Mr. Ray].

Mr. RAY. Mr. Speaker, I rise in opposition to the bill.

Mr. Speaker, I know that it is very late, and that my colleagues would like to pass a transportation bill before we recess, but in the name of fairness, I ask my colleagues to take a look at what this bill does to the donor States. Georgia gets back only 79 cents for every dollar. California gets back 81 cents, Florida, Michigan, Texas, all of the donor States lose millions and millions of dollars under this bill. Our National Highway System is complete, Mr. Speaker. Donor States have contributed more than their fair share to build a national highway system, instead of rewarding the donor States for their generosity by establishing equity in the funding formulas, this bill perpetuates the antiquated funding system of the past 40 years, and continues to rob the fast growing donor States.

The funding process of this bill can be likened to plugging the holes in a leaky dam. Whenever a State complains, the complaints are stopped with a few more dollars. But this is not a long-term solution. The donor States are still being taken for a ride, Mr. Speaker. This is not an equitable transportation bill. This is highway robbery. I urge my colleagues to send this bill back to conference, adopt the funding formulas the House overwhelmingly passed, and stop taking advantage of the donor States.

Mr. ROE. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. Anderson].

Mr. ANDERSON. Mr. Speaker, I rise in strong support of the conference report.

When crafting this conference report I assure my colleagues that the 92 conferees; representing 7 House committees and 5 Senate committees, kept all your interests firmly in mind. I did not check to see how many States these 92 conferees represented, but I would bet it was close to all 50.

As my colleagues before me have alluded, H.R. 2950 represents a turning point in American transportation history. Dwight D. Eisenhower's vision in 1954 of a national contiguous framework of roads has been recognized. Now, almost 40 years later, with the exception of a few remaining segments, not the least of which being portions of the Century Freeway in Los Angeles, the United States' Interstate System has been completed. H.R. 2950 builds upon President Eisenhower's vision and moves this country's transportation system forward to meet the needs of the 20th century.

Up to this point, the United States' Interstate System was billed as the largest public works project in U.S. history.

However, at $151 billion, you have before you the largest public works project in U.S. history. What's more, you have before you a $151 billion Christmas present for millions of unemployed Americans. This bill represents a 46-percent increase in the total amount of highway and transit dollars, and creation of 2 million jobs. Let me repeat that to some of my friends from the donor States, California being the leading donor State. This bill represents a 46-percent increase over previous transportation funding levels, and creation of an estimated 2 million jobs.

If there is one donor State that would have a reason to gripe about not getting its fair share of highway dollars, it would be California. Since the inception of the Interstate Program California has donated 7 billion in highway dollars to other States. I say to my colleagues from Los Angeles, Mayor Tom Bradley strongly supports the bill. To my colleagues from California * * * when I spoke to Governor Wilson this afternoon not only did he tell me that he supported the bill, he had already placed calls to his former colleagues in the Senate asking them to support the bill.

And finally, to my friends from donor States, I tell you that the largest donor State in the Nation, California, supports this compromise.

One final point I wish to make. In 1986, when I was Chairman of the Surface Transportation Subcommittee, I wrote, H.R. 2, the last Highway bill, along with then-Public Works Committee Chairman James Howard. Many of you may recall that President Reagan vetoed that bill in March of 1987, however, it was subsequently overridden. Times are different now, and so is this bill. Earlier today, President Bush spoke in favor of this particular compromise we are debating tonight, and urged the Congress to do the same.

In closing, let me just say that those of you that choose not to support this legislation, that is your prerogative. However, I ask you to think of your constituents that make their living in the transportation industry. These people are bleeding and need a Band-Aid. This compromise is not only the Band-Aid, it is the bandage, and it is the cure. I urge you to support it.

□ 0450

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield 4 minutes to the gentleman from New York [Mr. BOEHLERT].

Mr. BOEHLERT. Mr. Speaker, this is the single, most important legislation we will pass in this session of Congress.

And not just for the obvious reasons. Its magnitude and reach are impressive. A 6 year, $151 billion program charting the course of the Nation's transportation policy for the balance of this century. It's impressive also for what it promises in the short term—a needed shot in the arm to an unhealthy economy. Translate that to mean tens of thousands of jobs in the construction and manufacturing sectors. And jobs is my favorite four letter word.

While some of our colleagues are engaged in meaningful and necessary tax cut debates which might lead to a couple hundred dollars tax benefit in the Spring of 1993, or to a couple of dollars of Federal tax reductions per week sooner, we are gaining approval for a plan which will reap immediate and substantial dividends for our entire economy.

We are told that within a few weeks of enactment, hundreds of millions of dollars in new contract authority will be on the streets. In the transit section alone, and that is the smaller of the two major sections, more than a billion dollars in contract authority will be awarded within 120 days.

That's the kind of action a stagnant economy demands. We are providing it.

And we are doing it the right way. The broad program focuses on flexibility. No longer is the mindset one which maintains we must pave America from coast to coast.

Quality roads and safe bridges are a must, particularly in that wide expanse between our major urban areas. After all, the goods and services produced there have to get to the people.

More than 60 percent of our roads and 40 percent of our bridges are structurally deficient. We're going to fix them.

But a transportation policy is more than quality roads and safe bridges. Economical, efficient, public transit systems benefit the people, particularly the young, the elderly, and the low income among us. Such systems are better for the environment and make us less dependent on foreign oil, two big pluses. The Intermodal Surface Transportation Infrastructure Act of 1991 is so much more than the highway bills of yesteryear, it is indeed a multidimensional intermodal measure—$32 billion of this package is dedicated to transit, the highest level of funding for this purpose ever to emerge from our Committee in its history.

The importance of this legislation is difficult to overstate. Its passage will be good for America.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield to the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, while the Senate language called for the establishment of a U.S. designed maglev technology, the conferees agreed on a national Maglev Design Program that recognizes that domestic companies may be able to develop a domestic maglev industry based on existing technology.

We recognize that there is a need to develop this technology expeditiously—hopefully before the expiration of this legislation. We further recognize that Federal involvement is necessary to encourage the development of this industry and have therefore committed significant Federal funding to maglev development.

The conferees agree in the statement of managers that no prototype should be developed if none of the phase II conceptual designs will yield a working prototype at a reasonable cost.

The conferees also agree that a minimum travel distance of 19 miles should be required and that no prototype should be developed that cannot operate safely and efficiently in all domestic climatic situations. The conferees also agree that maglev development should be intermodal in nature, connecting airports, ports, and other modes of transportation. .

Mr. Speaker, our Nation will be well served by the development of a domestic maglev program.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin [Mr. PETRI].

Mr. PETRI. Mr. Speaker, I want to express my support for the conference report to accompany H.R. 2950. With the completion of the Interstate System now in sight, attention has focused on this reauthorization of our surface transportation program. In this legislation, we have attempted to grant more flexibility to the States through increased transferability among programs and to allow cities and States to address their clean air needs. A National Highway System is established which will consist of the Interstate and other major roads which bring together our Nation's commercial and population centers.

In addition, we will begin to spend-down the large balance currently sitting idle in the highway trust fund. These are gas tax dollars paid into the fund for the specific purpose of funding a national transportation network, and it is time that these funds were put to the intended use. As a representative of the donor State of Wisconsin, which has a historic return of 74 cents on the dollar, I would have preferred the more equitable formulas of the House bill. Nevertheless, my own State will see a substantial improvement to a 98 percent return over the next 6 years.

Funding is also provided for improvements to two highways in Wisconsin which have been identified as priorities by the Wisconsin Department of Transportation. Improvements will be made on segments of Highway 41, the road which connects Milwaukee and Green Bay. Congestion is growing rapidly in the Oshkosh area and these funds will provide needed relief and improvements on segments located from the Winnebago County line north to the Green Bay area. Funding is also provided to expand a segment of Highway 29 to a four-lane expressway. This is the most heavily traveled east-west route across central or northern Wisconsin.

H.R. 2950 also establishes a National Recreational Trails Trust Fund so that taxes from nonhighway recreational fuels taxes will be returned to States for the purposes of providing and maintaining recreational trails. Funding is assured for both motorized and nonmotorized trails and all who enjoy trails—whether on foot, bike, or horseback—will benefit from this program.

In conclusion, Mr. Speaker, let me commend the leadership of the Public Works Committee and our hardworking staff for the many hours they have put into this legislation over the course of the last several months.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. RITTER].

Mr. RITTER. Mr. Speaker, I rise in support of the conference report on this critically important transportation legislation.

I would like to thank the committee chairman, Mr. ROE, and the ranking member, Mr. HAMMERSCHMIDT. I also want to thank subcommittee chairman, Mr. MINETA, and ranking member, Mr. SCHUSTER. The gentleman from Pennsylvania [Mr. SHUSTER] has been extremely helpful to so many of us, as has been the chairman, Mr. MINETA.

There are three aspects of this monumental legislation that I would like to highlight.

The first deals with funding for two projects, Route 33 and 222, in my district.

The second boosts magnetic levitation and high-speed rail.

And the third accents an important study that may help stimulate the use of recycled materials in highway projects.

Mr. Speaker, let me say that I am extremely pleased that this year's highway bill includes $18.3 milllion in funding for the Lehigh Valley's Route 33 and 222 projects, the full amount proposed by the Public Works and Transportation Committee.

The funding for the two projects was approved as part of the 5-year Intermodal Surface Transportation Act. It provides $16.8 million for the extension of Route 33 from Route 22 in Bethlehem to Interstate 78. It also provides $1.5 million for the relocation of Route 222 from the area east of Route 309 to west of Route 100. The funds for Route 33 will be used for engineering work and land acquisition; the Route 222 funds will be used for engineering and environmental studies.

The Route 33 project consists of constructing a 3.5-mile extension that will connect Route 22 in Bethlehem to Interstate 78. This connection will complete the final leg of a four-lane limited access highway north to the Poconos and south to Philadelphia, linking interstates 78 and 80, two major east-west interstates in Pennsylvania.

Basically, this north/south interconnection makes the east-west Route 22, I–78 and I–80 far more valuable to all of eastern Pennsylvania.

The economic benefits will be significant and far reaching. An economic impact study funded by non-Federal sources has shown that this project could lead to more than 20,000 new jobs by the year 2010, based on projected increases in the demand for industrial land such as that located along the Route 33 corridor.

This area of Pennsylvania has a vibrant and growing economy, however, without improved infrastructure, it will not sustain the present rate of growth. By linking the growing corridors of Route 22 and Interstate 78, and Route 33 extension will prevent Lehigh and Northampton Counties from being strangled by their own growth. I might add that if the project is not built, the study estimates a loss of more than 20,000 jobs, and an economic loss of nearly $300 million per year, including more than $10 million in local tax revenues that would not be realized.

The Pennsylvania Department of Transportation [PennDOT] and the Federal Highway Administration consider the completion of Route 33 as priority. The project is in the first 4 years of PennDOT's 12-year plan and the FHWA has agreed to budget money for the completion of Route 33 in its interstate cost estimate.

This road also affects many New Jersey citizens who work in the Lehigh Valley, as well as my constitutents who work in New Jersey.

Another project in need of funding is Route 222, which follows the alignment of the Old Kings Highway—a road constructed in the 1750's and was designed for horse drawn vehicles. By 1880, most of the existing intersections along U.S. 222 had been established. Up until the 1950's, the area was predominantly rural, so the roadway was sufficient to carry the limited automobile traffic.

In the last 40 years, the population of the townships along Route 222 has more than quadrupled. The population of Lower Macungie has increased 184 percent in the last 20 years, while the population of Upper Macungie has doubled in this time.

In addition to the residential growth, Upper Macungie Township has evolved into a regional industrial center containing 5 of the 10 major industrial employers within Lehigh County.

Route 222 is choking from massive traffic congestion. This is a project that the Lehigh Valley desperately needs.

Looking across the U.S.A., congestion has become a way of life on the highways and at the airports.

We need to make intercity travel much more efficient and convenient for our citizens. We need to look boldly at new transportation modes that can help to relieve the burden on planes and automobiles. We need trains.

The magnetic-levitation and high-speed rail provisions in this bill could go a long way towards relieving intercity travel congestion, whether on the road or at the airport.

Regarding new modes of rail travel, this bill represents an important legislative achievement, made possible by the teamwork of the House committees (Public Works and Transportation; Science, Space, and Technology; and Energy and Commerce) and the Senate committees (Environment and Public Works; and Commerce).

I want to commend all of my fellow conferees for their constructive efforts to fashion a balanced legislative blueprint for the future of high-speed ground transportation. With respect to magnetic-levitation vehicles, or maglev, this bill sets an important precedent by making maglev research and prototype development eligible for direct assistance from the highway trust fund, amounting to about three-quarters of a billion dollars over 5 years.

This is a critical step toward design and actual operation of a U.S.-built maglev system. It is a field that is important to our industrial future, not only because efficient transportation helps make industry efficient, but also because maglev employs vast areas of technology and American industry including many critical areas of advanced technology. Superconductivity and advanced materials. Technologies with broad future applications well beyond transportation would be involved. After dropping the ball 15 years ago, when the United States terminated Federal support of U.S.-invented maglev technology, this bill will put us on track to regain technological leadership in this field.

While maglev is clearly the transportation wave of the future, many areas of the country could benefit from high-speed steel-wheel systems comparable to the French T.G.V., the German I.C.E., and the Japanese bullet train as a less costly near-term improvement in transportation infrastructure. The legislation addresses high-speed rail policy as well, primarily by including high-speed rail projects for the first time in the existing $1-billion loan guarantee program established under section 511 of the Railroad Revitalization and Regulatory Act—4–R Act—of 1976. This assures that as we develop a transportation system for the next century, neither maglev nor high-speed rail will be overlooked or neglected.

We know that highways are not the sole answer to our transportation needs. Construction of major interstate highways has virtually halted, and the Nation has not opened a new major airport since 1974. Congestion of both our roads and our airways is reaching record levels, and is exacting a huge toll in lost economic productivity.

Maglev and high-speed rail represent reliable, all-weather, environmentally benign alternatives to motor vehicle and air transportation. On the under-600-mile corridors where maglev and high-speed rail are most appropriate, huge amounts of existing airport capacity can be freed up by shifting short-haul traffic to mag-lev and rail corridors. A vivid example of this phenomenon is the recently reported shift in passenger traffic on the 290-mile Paris-to-Lyon rail route served by the T.G.V. high-speed train in France. In just 2 years of operation, the train captured 80 percent of the traffic in that corridor. Think what shifting even half of that amount of our short-haul air traffic could mean for airport capacity. It would be equivalent to receiving several new airports for free.

Finally, we cannot overlook the safety record of mag-lev and high-speed rail. In motor vehicles, the United States has already suffered more fatalities than in both World Wars, Korea, and Vietnam combined. But the Japanese bullet train, for example, has operated for 28 years without a single fatality. The French T.G.V. has a similarly impressive record. How can we not support a mode of transportation so vastly superior in safety for our citizens?

To physical safety, we also must add environmental safety. Maglev and high-speed rail are environmentally benign, in that they avoid the heavy emissions of internal-combustion engines, they use our own domestically fueled electrical generating capacity, and are vastly more energy-efficient than other modes of transportation.

We need a balanced national transportation strategy that recognizes legitimate roles for planes, trains, and automobiles. This legislaltion is a key step toward implementing such a strategy.

I wish to take a moment to focus on a small, but important provision on the utilization in highway projects of asphalt containing recycled rubber from scrap tires. Scrap tires are a major headache for cities and towns across the country. As ranking member of the Sub-

VOL 137
PT 24
NO 26
1991 — JA 3 1992
UMI

committee on Transportation and Hazardous Materials, the subcommittee charged with reauthorizing the Resource Conservation and Recovery Act, or RCRA, I am well aware of the environmental problems caused by the 242 million scrap tires that are generated in this country every year. The rubberized asphalt provisions of the legislation before us today are an important part of our strategy to make good use of scrap tires. Thus complementing our efforts in RCRA reauthorization.

One of our major tasks in RCRA reauthorization is to refocus RCRA on recovering and conserving resources, by reducing barriers to recycling and creating incentives to use more materials that would otherwise be discarded. Our interest goes well beyond the use of scrap tires and includes developing markets and environmentally sound techniques to recycle and reuse all types of waste materials.

This legislation contains an important study that may help to stimulate the use of recycled materials in highway projects. The Senate version of the rubberized asphalt provision directed the Secretary of Transportation, in cooperation with the Administrator of EPA, to conduct a program of research on asphalt rubber pavement, its health and environmental risks, its performance and its recyclability. The House version directed the Secretary alone to conduct a more general study on possible uses of recycled materials in highway projects, including the use of asphalt containing reclaimed whole tire rubber.

The conferees have combined these two initiatives into a single, two-part study to be conducted jointly by the Secretary and the Administrator. The first part focuses specifically on asphalt pavement containing recycled rubber, its potential threats to human health and the environment, its performance and its recyclability. The expertise of the two agencies should be put to its best use by having the Secretary conduct that portion of the study relating to the technical performance of the pavement and the Administrator conduct the portion of the study relating to the potential health and environmental threats.

In the conference, the second part of the study was of particular interest and importance to me, particularly in view of my role as ranking member of the subcommittee reauthorizing RCRA. This second part is a broader examination of the economic savings, performance, potential threats to human health and the environment and potential environmental benefits of various uses and techniques for utilizing recycled materials, other than asphalt pavement containing recycled rubber, in highway projects, highway devices and appurtenances.

Some possible uses and techniques are listed in the statute, but this list is in no way intended to be exclusive. In addition to adding rubber to asphalt, the study should look at other additives such as glass and plastic. It should look at techniques for recycling asphalt removed from existing highways when the road is resurfaced. It should look at the use of recycled steel, paper and plastic in highway signs and other devices. It should look at the recycling of materials derived from industrial wastes such as coal ash, incinerator ash, cement kiln dust, construction debris and steel slag in roadbeds. I has to call them wastes because some of these materials, although by-products and residues from one process, are uniquely suited for highway construction projects.

Recovering values from materials otherwise destined for disposal is only one way to use recycle materials. Another important technique of using recycled materials in highway projects is to recover energy values from materials that might otherwise be thrown away. For example, in addition to recovering rubber from tires to actually be placed in or under asphalt, tires may also be recycled by using them as an energy source in an asphalt or cement plant.

An October 1991 EPA report, entitled "Markets for Scrap Tires", identifies several materials for the utilization of waste tires as a fuel. It specifically mentions the suitability of using waste tires to supply heat in the production of cement. While the definition of recycling within the context of the RCRA regulatory scheme remains ambiguous and subject to continuing discussion and controversy, the term as used in the study should not be read narrowly. Rather, in keeping with the broad scope of the second part of the study, the term should be read broadly to include energy recovery without prejudging its meaning in other statues.

Another example is fuel substitutes derived from spent solvents and waste oils that may or may not be hazardous. The study should examine the technical performance of materials made using these various recycling techniques and look at potential environmental impacts such as determining whether cement made with hazardous waste-derived or tire-derived fuel substitutes poses any greater risk than cement made with coal or other traditional fuels. The potential is great, and it is only limited by our technical imagination, as long as we insure that the materials are handled in an environmentally acceptable manner.

In conclusion, the second part of the study should be a broad examination of known and potential techniques of utilizing recycled materials in all aspects of highway construction projects.

I strongly support the approval of the conference report.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I, too, want to congratulate the conferees for doing an outstanding job and for providing a package that will help improve our Nation's economy.

Mr. Speaker, I rise today in support of the conference report on H.R. 2950 the Intermodal Transportation Infrastructure Act and I commend the distinguished chairman of the Public Works and Transportation Committee, the gentleman from New Jersey [Mr. ROE] and the ranking minority member, the gentleman from Arkansas [Mr. HAMMERSCHMIDT], and the gentleman from California [Mr. MINETA] and the gentleman from Pennsylvania [Mr. SHUSTER] for their tireless work on this measure.

Mr. Speaker, with our transportation system falling apart, this Congress is obligated to do something about it. Our cities are bursting and their infrastructure is not keeping apace of growing needs. Our suburbs are booming and mass transit system hasn't adjusted to reach far enough or carry enough passengers to accommodate our commuters.

Our country's Interstate Highway System is decaying at the same time that our industries are trucking greater loads. Our bridges are collapsing, literally collapsing around us.

In this era of budget deficits and pressing need for fiscal restraint, I believe this bill—with its demonstration projects—represents a practical, moderate plan to revamp our desperate intermodal system.

This transportation bill is a responsive answer to our growing population, energy, and environmental problems. H.R. 2950 would provide funding for many high occupancy vehicles—carpooling—and mass transit programs. These types of programs would not only cut volume on our crowded, gridlocked highways and streets, but they would also cut down on the pollutants emitted by cars and reduce our Nation's overall energy consumption.

Mr. Speaker, H.R. 2950 is a well-planned program to rehabilitate and expand our Nation's intermodal system. I cannot stress enough the inextricable link between a vibrant economy and efficient transportation infrastructure. This Nation simply cannot thrive economically with our existing system. In fact, transportation spending has been proven to be one of the most effective boosts to our domestic economy.

Therefore, this legislation is badly needed in these difficult times. We in the Congress would be abrogating our responsibilities if we did not pass this positive, pro-jobs measure.

Accordingly, I urge all my colleagues to support this conference report.

Mr. ROE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in order to get this matter back in sync now that the paperwork is all properly filed, I send to the desk the conference report to accompany H.R. 2950, the Intermodal Surface Transportation Infrastructure Act of 1991.

The Clerk read the title of the bill.

CONFERENCE REPORT ON H.R. 2950, INTERMODAL SURFACE TRANSPORTATION INFRASTRUCTURE ACT OF 1991

Mr. ROE submitted the following conference report and statement on the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes:

CONFERENCE REPORT (H. REPT. 102-404)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2950) to develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Intermodal Surface Transportation Efficiency Act of 1991".

SEC. 2. DECLARATION OF POLICY: INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT.

It is the policy of the United States to develop a National Intermodal Transportation System that is economically efficient and environmentally sound, provides the foundation for the Nation to compete in the global economy, and will move people and goods in an energy efficient manner.

The National Intermodal Transportation System shall consist of all forms of transportation in a unified, interconnected manner, including the transportation systems of the future, to reduce energy consumption and air pollution while promoting economic development and supporting the Nation's preeminent position in international commerce.

The National Intermodal Transportation System shall include a National Highway System which consists of the National System of Interstate and Defense Highways and those principal arterial roads which are essential for interstate and regional commerce and travel, national defense, intermodal transfer facilities, and international commerce and border crossings.

The National Intermodal Transportation System shall include significant improvements in public transportation necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly persons, persons with disabilities, and economically disadvantaged persons in urban and rural areas of the country.

The National Intermodal Transportation System shall provide improved access to ports and airports, the Nation's link to world commerce.

The National Intermodal Transportation System shall give special emphasis to the contributions of the transportation sectors to increased productivity growth. Social benefits must be considered with particular attention to the external benefits of reduced air pollution, reduced traffic congestion and other aspects of the quality of life in the United States.

The National Intermodal Transportation System must be operated and maintained with insistent attention to the concepts of innovation, competition, energy efficiency, productivity, growth, and accountability. Practices that resulted in the lengthy and overly costly construction of the Interstate and Defense Highway System must be confronted and ceased.

The National Intermodal Transportation System shall be adapted to "intelligent vehicles", "magnetic levitation systems", and other new technologies wherever feasible and economical, with benefit cost estimates given special emphasis concerning safety considerations and techniques for cost allocation.

The National Intermodal Transportation System, where appropriate, will be financed, as regards Federal apportionments and reimbursements, by the Highway Trust Fund. Financial assistance will be provided to State and local governments and their instrumentalities to help implement national goals relating to mobility for elderly persons, persons with disabilities, and economically disadvantaged persons.

The National Intermodal Transportation System must be the centerpiece of a national investment commitment to create the new wealth of the Nation for the 21st century.

The Secretary shall distribute copies of this Declaration of Policy to each employee of the Department of Transportation and shall ensure that such Declaration of Policy is posted in all offices of the Department of Transportation.

SEC. 3. SECRETARY DEFINED.

As used in this Act, the term "Secretary" means the Secretary of Transportation.

TITLE I—SURFACE TRANSPORTATION

Part A—Title 23 Programs

SEC. 1001. COMPLETION OF INTERSTATE SYSTEM.

(a) DECLARATION.—Congress declares that the authorizations of appropriations and apportionments for construction of the Dwight D. Eisenhower National System of Interstate and Defense Highways made by this section (including the amendments made by this section) are the final authorizations of appropriations and apportionments for completion of construction of such System.

(b) APPROVAL OF INTERSTATE COST ESTIMATE FOR FISCAL YEAR 1993.—The Secretary shall apportion for all States (other than Massachusetts) for fiscal year 1993 the sums authorized to be appropriated for such year by section 108(b) of the Federal-Aid Highway Act of 1956 for expenditure on the Dwight D. Eisenhower National System of Interstate and Defense Highways, using the apportionment factors contained in revised table 5 of the Committee Print Numbered 102–24 of the Committee on Public Works and Transportation of the House of Representatives.

(c) EXTENSION OF APPORTIONMENT.—Section 104(b)(5)(A) of title 23, United States Code, is amended by striking "1960 through 1990" each place it appears and inserting "1960 through 1996".

(d) EXTENSION OF ADMINISTRATIVE ADJUSTMENT OF ICE.—Section 104(b)(5)(A) of such title is amended by striking the next to the last sentence and inserting the following new sentence: "As soon as practicable after the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991 for fiscal year 1992, and on October 1 of each of fiscal years 1993, 1994, and 1995, the Secretary shall make the apportionment required by this subparagraph for all States (other than Massachusetts) using the Federal share of the last estimate submitted to Congress, adjusted to reflect (i) all previous credits, apportionments of interstate construction funds, and lapses of previous apportionments of interstate construction funds, (ii) previous withdrawals of interstate segments, (iii) previous allocations of interstate discretionary funds, and (iv) transfers of interstate construction funds.".

(e) ALLOCATION OF FUNDS TO MASSACHUSETTS.—Section 104(b)(5)(A) of title 23, United States Code, is amended by inserting before the last sentence the following new sentence: "Notwithstanding any other provision of this subparagraph or any cost estimate approved or adjusted pursuant to this subparagraph, subject to the deductions under this section, the amounts to be apportioned to the State of Massachusetts pursuant to this subparagraph for fiscal years 1993, 1994, 1995, and 1996 shall be as follows: $450,000,000 for fiscal year 1993, $800,000,000 for fiscal year 1994, $800,000,000 for fiscal year 1995, and $500,000,000 for fiscal year 1996.".

(f) AUTHORIZATION OF APPROPRIATIONS.—The first sentence of subsection (b) of section 108 of the Federal-Aid Highway Act of 1956 is amended by striking "and the additional sum of $1,400,000,000 for the fiscal year ending September 30, 1993." and inserting the following: "the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1993, the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1994, the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1995, and the additional sum of $1,800,000,000 for the fiscal year ending September 30, 1996.".

(g) DECLARATION OF POLICY.—The second paragraph of section 101(b) of such title is amended—

(1) by striking "thirty-seven years'" and inserting "forty years'"; and

(2) by striking "1993" and inserting "1996".

(h) TERMINATION OF MINIMUM APPORTIONMENT.—Section 102(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (23 U.S.C. 104 note) is amended by inserting after "1987," the following: "and ending before October 1, 1991,".

SEC. 1002. OBLIGATION CEILING.

(a) GENERAL LIMITATION.—Notwithstanding any other provision of law (other than subsection (f) of this section), the total of all obligations for Federal-aid highways and highway safety construction programs shall not exceed—

(1) $16,800,000,000 for fiscal year 1992;
(2) $18,303,000,000 for fiscal year 1993;
(3) $18,362,000,000 for fiscal year 1994;
(4) $18,332,000,000 for fiscal year 1995;
(5) $18,357,000,000 for fiscal year 1996; and
(6) $18,338,000,000 for fiscal year 1997.

(b) EXCEPTIONS.—The limitations under subsection (a) shall not apply to obligations—

(1) under section 125 of title 23, United States Code;
(2) under section 157 of such title;
(3) under section 147 of the Surface Transportation Assistance Act of 1978;
(4) under section 9 of the Federal-Aid Highway Act of 1981;
(5) under sections 131(b) and 131(j) of the Surface Transportation Assistance Act of 1982;
(6) under section 404 of the Surface Transportation Assistance Act of 1982; and
(7) under sections 1103 through 1108 of this Act.

Such limitations shall also not apply to obligations of funds made available by subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987.

(c) DISTRIBUTION OF OBLIGATION AUTHORITY.—

(1) GENERAL RULE.—For each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, the Secretary shall distribute the limitation imposed by subsection (a) by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bears to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(2) SPECIAL RULE FOR MASSACHUSETTS.—For purposes of this section, funds apportioned to the State of Massachusetts pursuant to the next to the last sentence of section 104(b)(5)(A) of title 23, United States Code, shall be treated as if such funds were allocated to such State under such title. If, before October 1 of each of fiscal years 1992, 1993, 1994, and 1995, the State of Massachusetts indicates it will not obligate a portion of the amount which would be distributed to such State under the preceding sentence, the Secretary shall distribute such portion to the other States under paragraph (1).

(d) LIMITATION ON OBLIGATION AUTHORITY.—During the period October 1 through December 31 of each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, no State shall obligate more than 35 percent of the amount distributed to such State under subsection (c) for such fiscal year, and the total of all State obligations during such period shall not exceed 25 percent of the total amount distributed to all States under such subsection for such fiscal year.

(e) REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.—Notwithstanding subsections (c) and (d), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned or allocated to a State, except in those instances in which a State indicates its intention

to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1 of each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, revise a distribution of the funds made available under subsection (c) for such fiscal year if a State will not obligate the amount distributed during such fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during such fiscal year giving priority to those States having large unobligated balances of funds apportioned under sections 104 and 144 of title 23, United States Code; and

(3) not distribute amounts authorized for administrative expenses, Federal lands highways programs, and the national high speed ground transportation programs and amounts made available under section 149(d) of the Surface Transportation and Uniform Relocation Assistance Act of 1987.

(f) ADDITIONAL OBLIGATION AUTHORITY.—

(1) IN GENERAL.—Subject to paragraph (2), a State which after August 1 and on or before September 30 of fiscal year 1993, 1994, 1995, 1996, or 1997 obligates the amount distributed to such State in such fiscal year under subsections (c) and (e) may obligate for Federal-aid highways and highway safety construction on or before September 30 of such fiscal year an additional amount not to exceed 5 percent of the aggregate amount of funds apportioned or allocated to such State—

(A) under sections 104 and 144 of title 23, United States Code, and

(B) for highway assistance projects under section 103(e)(4) of such title,

which are not obligated on the date such State completes obligation of the amount so distributed.

(2) LIMITATION ON ADDITIONAL OBLIGATION AUTHORITY.—During the period August 2 through September 30 of each of fiscal years 1993, 1994, 1995, 1996, and 1997, the aggregate amount which may be obligated by all States pursuant to paragraph (1) shall not exceed 2.5 percent of the aggregate amount of funds apportioned or allocated to all States—

(A) under sections 104 and 144 of title 23, United States Code, and

(B) for highway assistance projects under section 103(e)(4) of such title,

which would not be obligated in such fiscal year if the total amount of obligational authority provided by subsection (a) for such fiscal year were utilized.

(3) LIMITATION ON APPLICABILITY.—Paragraph (1) shall not apply to any State which on or after August 1 of fiscal year 1993, 1994, 1995, 1996, or 1997, as the case may be, has the amount distributed to such State under subsection (c) for such fiscal year reduced under subsection (e)(2).

(g) OBLIGATION CEILING FOR HIGHWAY SAFETY PROGRAMS.—Notwithstanding any other provision of law, the total of all obligations for highway safety programs carried out by the Federal Highway Administration under section 402 of title 23, United States Code, shall not exceed $10,000,000 for fiscal year 1992 and $20,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(h) CONFORMING AMENDMENT.—Section 157(b) of title 23, United States Code, is amended by striking the period at the end of the last sentence and inserting "and section 1002(c) of the Intermodal Surface Transportation Efficiency Act of 1991.".

SEC. 1003. AUTHORIZATION OF APPROPRIATIONS.

(a) FROM THE HIGHWAY TRUST FUND.—For the purpose of carrying out the provisions of title 23, United States Code, the following sums are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) INTERSTATE MAINTENANCE PROGRAM.—For the Interstate maintenance program $2,431,000,000 for fiscal year 1992, $2,913,000,000 for fiscal year 1993, $2,914,000,000 for fiscal year 1994, $2,914,000,000 for fiscal year 1995, $2,914,000,000 for fiscal year 1996, and $2,914,000,000 for fiscal year 1997.

(2) NATIONAL HIGHWAY SYSTEM.—For the National Highway System $3,003,000,000 for fiscal year 1992, $3,599,000,000 for fiscal year 1993, $3,599,000,000 for fiscal year 1994, $3,599,000,000 for fiscal year 1995, $3,600,000,000 for fiscal year 1996, and $3,600,000,000 for fiscal year 1997.

(3) SURFACE TRANSPORTATION PROGRAM.—For the surface transportation program $3,418,000,000 for fiscal year 1992, $4,096,000,000 for fiscal year 1993, $4,096,000,000 for fiscal year 1994, $4,096,000,000 for fiscal year 1995, $4,097,000,000 for fiscal year 1996, and $4,097,000,000 for fiscal year 1997.

(4) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—For the congestion mitigation and air quality improvement program $858,000,000 for fiscal year 1992, $1,028,000,000 for fiscal year 1993, $1,028,000,000 for fiscal year 1994, $1,028,000,000 for fiscal year 1995, $1,029,000,000 for fiscal year 1996, and $1,029,000,000 for fiscal year 1997.

(5) BRIDGE PROGRAM.—For the bridge program $2,288,000,000 for fiscal year 1992, $2,762,000,000 for fiscal year 1993, $2,762,000,000 for fiscal year 1994, $2,762,000,000 for fiscal year 1995, $2,763,000,000 for fiscal year 1996, and $2,763,000,000 for fiscal year 1997.

(6) FEDERAL LANDS HIGHWAY PROGRAM.—

(A) INDIAN RESERVATION ROADS.—For Indian reservation roads $159,000,000 for fiscal year 1992 and $191,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(B) PUBLIC LANDS HIGHWAYS.—For public lands highways $143,000,000 for fiscal year 1992, $171,000,000 for each of fiscal years 1993, 1994, and 1995, and $172,000,000 for each of fiscal years 1996 and 1997.

(C) PARKWAYS AND PARK HIGHWAYS.—For parkways and park highways $69,000,000 for fiscal year 1992, $83,000,000 for each of fiscal years 1993, 1994, and 1995, and $84,000,000 for each of fiscal years 1996 and 1997.

(7) FHWA HIGHWAY SAFETY PROGRAMS.—For carrying out section 402 by the Federal Highway Administration $17,000,000 for fiscal year 1992 and $20,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(8) FHWA HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.—For carrying out section 403 by the Federal Highway Administration $10,000,000 for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997.

(b) DISADVANTAGED BUSINESS ENTERPRISES.—

(1) GENERAL RULE.—Except to the extent that the Secretary determines otherwise, not less than 10 percent of the amounts authorized to be appropriated under titles I (other than part B), III, V, and VI of this Act shall be expended with small business concerns owned and controlled by socially and economically disadvantaged individuals.

(2) DEFINITIONS.—For purposes of this subsection, the following definitions apply:

(A) SMALL BUSINESS CONCERN.—The term "small business concern" has the meaning such term has under section 3 of the Small Business Act (15 U.S.C. 632); except that such term shall not include any concern or group of concerns controlled by the same socially and economically disadvantaged individual or individuals which has average annual gross receipts over the preceding 3 fiscal years in excess of $15,370,000, as adjusted by the Secretary for inflation.

(B) SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.—The term "socially and economically disadvantaged individuals" has the meaning such term has under section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and relevant subcontracting regulations promulgated pursuant thereto; except that women shall be presumed to be socially and economically disadvantaged individuals for purposes of this subsection.

(3) ANNUAL LISTING OF DISADVANTAGED BUSINESS ENTERPRISES.—Each State shall annually survey and compile a list of the small business concerns referred to in paragraph (1) and the location of such concerns in the State and notify the Secretary, in writing, of the percentage of such concerns which are controlled by women, by socially and economically disadvantaged individuals (other than women), and by individuals who are women and are also otherwise socially and economically disadvantaged individuals.

(4) UNIFORM CERTIFICATION.—The Secretary shall establish minimum uniform criteria for State governments to use in certifying whether a concern qualifies for purposes of this subsection. Such minimum uniform criteria shall include but not be limited to on-site visits, personal interviews, licenses, analysis of stock ownership, listing of equipment, analysis of bonding capacity, listing of work completed, resume of principal owners, financial capacity, and type of work preferred.

(5) STUDY.—

(A) IN GENERAL.—The Comptroller General shall conduct a study of the disadvantaged business enterprise program of the Federal Highway Administration (hereinafter in this paragraph referred to as the "program").

(B) CONTENTS.—The study under this paragraph shall include the following:

(i) GRADUATION.—A determination of—

(I) the percentage of disadvantaged business enterprises which have enrolled in the program and graduated after a period of 3 years;

(II) the number of disadvantaged business enterprises which have enrolled in the program and not graduated after a period of 3 years;

(III) whether or not the graduation date of any of the disadvantaged business enterprises described in subclause (II) should have been accelerated;

(IV) since the program has no graduation time requirements, how many years would appear reasonable for disadvantaged business enterprises to participate in the program;

(V) the length of time the average small nondisadvantaged business enterprise takes to be successful in the highway construction field as compared to the average disadvantaged business enterprise; and

(VI) to what degree are disadvantaged business enterprises awarded contracts once they are no longer participating in the disadvantaged business program.

(ii) OUT-OF-STATE CONTRACTING.—A determination of which State transportation programs meet the requirement of the program for 10 percent participation by disadvantaged business enterprises by contracting with contractors located in another State and a determination to what degree prime contractors use out-of-State disadvantaged business enterprises even when disadvantaged business enterprises exist within the State to meet the 10 percent participation goal and reasons why this occurs.

(iii) PROGRAM ADJUSTMENTS.—A determination of whether or not adjustments in the program could be made with respect to Federal and State participation in training programs and with respect to meeting capital needs and bonding requirements.

(iv) SUCCESS RATE.—Recommendations concerning whether or not adjustments described in clause (iii) would continue to encourage minority participation in the program and improve the success rate of the disadvantaged business enterprises.

(v) PERFORMANCE AND FINANCIAL CAPABILITIES.—Recommendations for additions and revisions to criteria used to determine the performance and financial capabilities of disadvantaged business enterprises enrolled in the program.

(vi) ENFORCEMENT MECHANISMS.—A determination of whether the current enforcement mechanisms are sufficient to ensure compliance with the disadvantaged business enterprise participation requirements.

(vii) ADDITIONAL COSTS.—A determination of additional costs incurred by the Federal Highway Administration in meeting the requirement of the program for 10 percent participation by disadvantaged business enterprises as well as a determination of benefits of the program.

(viii) EFFECT ON INDUSTRY.—A determination of how the program is being implemented by the construction industry and the effects of the program on all segments of the industry.

(ix) CERTIFICATION.—An analysis of the certification process for Federal-aid highway and transit programs, including a determination as to whether the process should be uniform and permit State-to-State reciprocity and how certification criteria and procedures are being implemented by the States.

(x) GOALS.—A determination of how the Federal goal is being implemented by the States, including the waiver process, and the impact of the goal on those individuals presumed to be socially and economically disadvantaged.

(C) REPORT.—Not later than 12 months after the date of the enactment of this Act, the Comptroller General shall transmit to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report on the results of the study conducted under this paragraph.

(c) REDUCTION IN AUTHORIZATIONS FOR BUDGET COMPLIANCE.—If the total amount authorized by this Act out of the Highway Trust Fund (other than the Mass Transit Account) exceeds $17,042,000,000 for fiscal year 1992, or exceeds $98,642,000,000 for fiscal years 1992 through 1996, then each amount so authorized shall be reduced proportionately so that the total equals $17,042,000,000 for fiscal year 1992, or equals $98,642,000,000 for fiscal years 1992 through 1996, as the case may be.

SEC. 1004. BUDGET COMPLIANCE.

(a) IN GENERAL.—If obligations provided for programs pursuant to this Act for fiscal year 1992 will cause—

(1) the total outlays in any of the fiscal years 1992 through 1995 which result from this Act, to exceed

(2) the total outlays for such programs in any such fiscal year which result from appropriation Acts for fiscal year 1992 and are attributable to obligations for fiscal year 1992,

then the Secretary of Transportation shall reduce proportionately the obligations provided for each program pursuant to this Act for fiscal year 1992 to the extent required to avoid such excess outlays.

(b) COORDINATION WITH OTHER PROVISIONS.—The provisions of this section shall apply, notwithstanding any provision of this Act to the contrary.

SEC. 1005. DEFINITIONS.

(a) HIGHWAY SAFETY IMPROVEMENT PROJECT.—The undesignated paragraph of section 101(a) of title 23, United States Code, relating to highway safety improvement project is amended by inserting after "marking," the following: "installs priority control systems for emergency vehicles at signalized intersections,".

(b) URBANIZED AREA.—Such section is amended by striking the undesignated paragraph relating to urbanized area and inserting the following new undesignated paragraph:

"The term 'urbanized area' means an area with a population of 50,000 or more designated by the Bureau of the Census, within boundaries to be fixed by responsible State and local officials in cooperation with each other, subject to approval by the Secretary. Boundaries shall, at a minimum, encompass the entire urbanized area within a State as designated by the Bureau of the Census.".

(c) NATIONAL HIGHWAY SYSTEM.—Such section is further amended by striking the undesignated paragraph relating to the Federal-aid primary system and inserting the following new undesignated paragraph:

"The term 'National Highway System' means the Federal-aid highway system described in subsection (b) of section 103 of this title.".

(d) CONFORMING AMENDMENTS.—Such section is amended—

(1) by striking the undesignated paragraph relating to the Federal-aid secondary system;

(2) by striking the undesignated paragraph relating to the Federal-aid urban system;

(3) in the undesignated paragraph relating to Indian reservation roads by striking ", including roads on the Federal-aid systems,"; and

(4) in the undesignated paragraph relating to park road by inserting ", including a bridge built primarily for pedestrian use, but with capacity for use by emergency vehicles," before "that is located within".

(e) INTERSTATE SYSTEM.—The undesignated paragraph of such section relating to the Interstate System is amended by inserting "Dwight D. Eisenhower" before "National".

(f) OPERATIONAL IMPROVEMENT.—Such section is further amended by inserting after the undesignated paragraph relating to Interstate System the following new undesignated paragraph:

"The term 'operational improvement' means a capital improvement for installation of traffic surveillance and control equipment, computerized signal systems, motorist information systems, integrated traffic control systems, incident management programs, and transportation demand management facilities, strategies, and programs and such other capital improvements to public roads as the Secretary may designate, by regulation; except that such term does not include resurfacing, restoring, or rehabilitating improvements, construction of additional lanes, interchanges, and grade separations, and construction of a new facility on a new location.".

(g) STARTUP COSTS FOR TRAFFIC MANAGEMENT AND CONTROL; CARPOOL PROJECT; PUBLIC AUTHORITY; PUBLIC LANDS HIGHWAY; RECONSTRUCTION.—Such section is further amended by inserting after the undesignated paragraph relating to Interstate System the following new undesignated paragraphs:

"The term 'startup costs for traffic management and control' means initial costs (including labor costs, administration costs, cost of utilities, and rent) for integrated traffic control systems, incident management programs, and traffic control centers.

"The term 'carpool project' means any project to encourage the use of carpools and vanpools, including but not limited to provision of carpooling opportunities to the elderly and handicapped, systems for locating potential riders and informing them of carpool opportunities, acquiring vehicles for carpool use, designating existing highway lanes as preferential carpool highway lanes, providing related traffic control devices, and designating existing facilities for use for preferential parking for carpools.

"The term 'public authority' means a Federal, State, county, town, or township, Indian tribe, municipal or other local government or instrumentality with authority to finance, build, operate, or maintain toll or toll-free facilities.

"The term 'public lands highway' means a forest road under the jurisdiction of and maintained by a public authority and open to public travel or any highway through unappropriated or unreserved public lands, nontaxable Indian lands, or other Federal reservations under the jurisdiction of and maintained by a public authority and open to public travel.".

SEC. 1006. NATIONAL HIGHWAY SYSTEM.

(a) ESTABLISHMENT.—Section 103 of title 23, United States Code, is amended by striking subsections (a) and (b) and inserting the following new subsections:

"(a) IN GENERAL.—For purposes of this title, the Federal-aid systems are the Interstate System and the National Highway System.

"(b) NATIONAL HIGHWAY SYSTEM.—

"(1) PURPOSE.—The purpose of the National Highway System is to provide an interconnected system of principal arterial routes which will serve major population centers, international border crossings, ports, airports, public transportation facilities, and other intermodal transportation facilities and other major travel destinations; meet national defense requirements; and serve interstate and interregional travel.

"(2) COMPONENTS.—The National Highway System shall consist of the following:

"(A) Highways designated as part of the Interstate System under subsection (e) and section 139 of this title.

"(B) Other urban and rural principal arterials and highways (including toll facilities) which provide motor vehicle access between such an arterial and a major port, airport, public transportation facility, or other intermodal transportation facility. The States, in cooperation with local and regional officials, shall propose to the Secretary arterials and highways for designation to the National Highway System under this paragraph. In urbanized areas, the local officials shall act through the metropolitan planning organizations designated for such areas under section 134 of this title. The routes on the National Highway System, as shown on the map submitted by the Secretary to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate in 1991, illustrating the National Highway System, shall serve as the basis for the States in proposing arterials and highways for designation to such system. The Secretary may modify or revise such proposals and submit such modified or revised proposals to Congress for approval in accordance with paragraph (3).

"(C) A strategic highway network which is a network of highways which are important to the United States strategic defense policy and which provide defense access, continuity, and emergency capabilities for the movement of personnel, materiels, and equipment in both peace time and war time. Such highways may include highways on and off the Interstate System and shall be designated by the Secretary in consultation with appropriate Federal agencies and the States and be subject to approval by Congress in accordance with paragraph (3).

"(D) Major strategic highway network connectors which are highways that provide motor vehicle access between major military installations and highways which are part of the strategic highway network. Such highways shall be designated by the Secretary in consultation with appropriate Federal agencies and the States and subject to approval by Congress in accordance with paragraph (3).

"(3) APPROVAL OF DESIGNATIONS.—

"(A) PROPOSED DESIGNATIONS.—Not later than 2 years after the date of the enactment of this section, the Secretary shall submit for approval to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a proposed National Highway System with a list and description of highways proposed to be designated to the National Highway System under this subsection and a map *showing such proposed designations. In preparing the proposed system, the Secretary shall consult appropriate local officials and shall use the functional reclassification of roads and streets carried out under subsection (c) of section 1006 of the Intermodal Surface Transportation Efficiency Act of 1991.*

"(B) APPROVAL OF CONGRESS REQUIRED.—After September 30, 1995, no funds made available for carrying out this title may be apportioned for the National Highway System or the Interstate maintenance program under this title unless a law has been approved designating the National Highway System.

"(C) MAXIMUM MILEAGE.—For purposes of proposing highways for designation to the National Highway System, the mileage of highways on the National Highway System shall not exceed 155,000 miles; except that the Secretary may increase or decrease such maximum mileage by not to exceed 15 percent.

"(D) EQUITABLE ALLOCATIONS OF HIGHWAY MILEAGE.—In proposing highways for designation to the National Highway System, the Secretary shall provide for equitable allocation of highway mileage among the States.

"(4) INTERIM SYSTEM.—For fiscal years 1992, 1993, 1994, and 1995, highways classified as principal arterials by the States shall be treated as being on the National Highway System for purposes of this title.".

(b) CONFORMING AMENDMENTS TO SECTION 103.—

(1) REPEAL OF FEDERAL-AID SECONDARY AND URBAN SYSTEMS.—Subsections (c) and (d) of such section are repealed.

(2) APPROVAL.—Subsection (f) of such section is amended—

(A) by striking "the Federal-aid primary system, the Federal-aid secondary system, the Federal-aid urban system, and"; and

(B) by striking the last sentence.

(c) FUNCTIONAL RECLASSIFICATION OF HIGHWAYS.—

(1) STATE ACTION.—Each State shall functionally reclassify the roads and streets in such State in accordance with such guidelines and time schedule as the Secretary may establish in order to carry out the objectives of this section, including the amendments made by this section.

(2) APPROVAL AND SUBMISSION TO CONGRESS.—Not later than September 30, 1993, the Secretary shall approve the functional reclassification of roads and streets made by the States pursuant to this subsection and shall submit a report to Congress containing such reclassification.

(3) STATE DEFINED.—In this subsection, the term "State" has the meaning such term has under section 101 of title 23, United States Code, and shall include the Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Marianas.

(d) PROJECT ELIGIBILITY.—Section 103 of title 23, United States Code, is amended by adding at the end the following new subsection:

"(i) ELIGIBLE PROJECTS FOR NHS.—Subject to project approval by the Secretary, funds apportioned to a State under section 104(b)(1) for the National Highway System may be obligated for any of the following:

"(1) Construction, reconstruction, resurfacing, restoration, and rehabilitation of segments of such system.

"(2) Operational improvements for segments of such system.

"(3) Construction of, and operational improvements for, a Federal-aid highway not on the National Highway System and construction of a transit project eligible for assistance under the Federal Transit Act—

"(A) if such highway or transit project is in the same corridor as, and in proximity to, a fully access controlled highway designated to the National Highway System;

"(B) if the construction or improvements will improve the level of service on the fully access controlled highway and improve regional travel; and

"(C) if the construction or improvements are more cost effective than an improvement to the fully access controlled highway that has benefits comparable to the benefits which will be achieved by the construction of, or improvements to, the highway not on the National Highway System.

"(4) Highway safety improvements for segments of the National Highway System.

"(5) Transportation planning in accordance with sections 134 and 135.

"(6) Highway research and planning in accordance with section 307.

"(7) Highway-related technology transfer activities.

"(8) Startup costs for traffic management and control if such costs are limited to the time period necessary to achieve operable status but not to exceed 2 years following the date of project approval, if such funds are not used to replace existing funds.

"(9) Fringe and corridor parking facilities.

"(10) Carpool and vanpool projects.

"(11) Bicycle transportation and pedestrian walkways in accordance with section 217.

"(12) Development and establishment of management systems under section 303.

"(13) In accordance with all applicable Federal law and regulations, participation in wetlands mitigation efforts related to projects funded under this title, which may include participation in wetlands mitigation banks; contributions to statewide and regional efforts to conserve, restore, enhance and create wetlands; and development of statewide and regional wetlands conservation and mitigation plans, including any such banks, efforts, and plans authorized pursuant to the Water Resources Development Act of 1990 (including crediting provisions). Contributions to such mitigation efforts may take place concurrent with or in advance of project construction. Contributions toward these efforts may occur in advance of project construction only if such efforts are consistent with all applicable requirements of Federal law and regulations and State transportation planning processes.".

(e) APPORTIONMENTS.—Section 104(b)(1) of such title is amended to read as follows:

"(1) NATIONAL HIGHWAY SYSTEM.—For the National Highway System 1 percent to the Virgin Islands, Guam, American Samoa, and the Commonwealth of Northern Mariana Islands and the remaining 99 percent apportioned in the same ratio as funds are apportioned under paragraph (3).".

(f) TRANSFERABILITY.—Section 104 of such title is amended by striking subsection (c) and inserting the following new subsection:

"(c) TRANSFERABILITY OF NHS APPORTIONMENTS.—A State may transfer not to exceed 50 percent of the State's apportionment under subsection (b)(1) to the apportionment of the State under subsection (b)(3). A State may transfer not to exceed 100 percent of the State's apportionment under subsection (b)(1) to the apportionment of the State under subsection (b)(3) if the State requests to make such transfer and the Secretary approves such transfer as being in the public interest after providing notice and sufficient opportunity for public comment. Section 133(d) shall not apply to funds transferred under this subsection.".

(g) CONFORMING AMENDMENTS TO OTHER SECTIONS.—

(1) DEFINITIONS.—Section 101(a) of title 23, United States Code, is amended by striking the paragraph relating to Federal-aid highways and inserting the following new paragraph:

"The term 'Federal-aid highways' means highways eligible for assistance under this chapter other than highways classified as local roads or rural minor collectors.".

(2) PREVAILING RATE OF WAGE.—Section 113(a) of such title is amended by striking "systems, the primary and secondary, as well as their extension in urban areas, and the Interstate System," and inserting "highways".

(h) NATIONAL DEFENSE HIGHWAYS LOCATED OUTSIDE THE UNITED STATES.—

(1) RECONSTRUCTION PROJECTS.—If the Secretary determines, after consultation with the Secretary of Defense, that a highway, or portion of a highway, located outside the United States is important to the national defense, the Secretary may carry out a project for the reconstruction of such highway or portion of highway.

(2) FUNDING.—The Secretary may make available, from funds appropriated to construct the National System of Interstate and Defense Highways, not to exceed $20,000,000 per fiscal year for each of fiscal years 1993, 1994, 1995, and 1996 to carry out this subsection. Such sums shall remain available until expended.

SEC. 1007. SURFACE TRANSPORTATION PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—

(1) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by inserting after section 132 the following new section:

"§133. Surface transportation program

"(a) ESTABLISHMENT.—The Secretary shall establish a surface transportation program in accordance with this section.

"(b) ELIGIBLE PROJECTS.—A State may obligate funds apportioned to it under section 104(b)(3) for the surface transportation program only for the following:

"(1) Construction, reconstruction, rehabilitation, resurfacing, restoration, and operational improvements for highways (including Interstate highways) and bridges (including bridges on public roads of all functional classifications), including any such construction or reconstruction necessary to accommodate other transportation modes, and including the seismic retrofit and painting of and application of calcium magnesium acetate on bridges and approaches thereto and other elevated structures, mitigation of damage to wildlife, habitat, and ecosystems caused by a transportation project funded under this title.

"(2) Capital costs for transit projects eligible for assistance under the Federal Transit Act and publicly owned intracity or intercity bus terminals and facilities.

"(3) Carpool projects, fringe and corridor parking facilities and programs, and bicycle transportation and pedestrian walkways in accordance with section 217.

"(4) Highway and transit safety improvements and programs, hazard eliminations, projects to mitigate hazards caused by wildlife, and railway-highway grade crossings.

"(5) Highway and transit research and development and technology transfer programs.

"(6) Capital and operating costs for traffic monitoring, management, and control facilities and programs.

"(7) Surface transportation planning programs.

"(8) Transportation enhancement activities.

"(9) Transportation control measures listed in section 108(f)(1)(A) (other than clauses (xii) and (xvi)) of the Clean Air Act.

"(10) Development and establishment of management systems under section 303.

"(11) In accordance with all applicable Federal law and regulations, participation in wetlands mitigation efforts related to projects funded under this title, which may include participation in wetlands mitigation banks; contributions to statewide and regional efforts to conserve, restore, enhance and create wetlands; and development of statewide and regional wetlands conservation and mitigation plans, including any such banks, efforts, and plans authorized pursuant to the Water Resources Development Act of 1990 (including crediting provisions). Contributions to such mitigation efforts may take place concurrent with or in advance of project construction. Contributions toward these efforts may occur in advance of project construction only if such efforts are consistent with all applicable requirements of Federal law and regulations and State transportation planning processes.

"(c) LOCATION OF PROJECTS.—Except as provided in subsection (b)(1), surface transportation program projects (other than those described in subsections (b)(3) and (4)) may not be undertaken on roads functionally classified as local or rural minor collectors, unless such roads are on a Federal-aid highway system on January 1, 1991, and except as approved by the Secretary.

"(d) ALLOCATIONS OF APPORTIONED FUNDS.—

"(1) FOR SAFETY PROGRAMS.—10 percent of the funds apportioned to a State under section 104(b)(3) for the surface transportation program for a fiscal year shall only be available for carrying out sections 130 and 152 of this title. Of the funds set aside under the preceding sentence, the State shall reserve in such fiscal year an amount of such funds for carrying out each such section which is not less than the amount of funds apportioned to the State in fiscal year 1991 under such section.

"(2) FOR TRANSPORTATION ENHANCEMENT ACTIVITIES.—10 percent of the funds apportioned to a State under section 104(b)(3) for a fiscal year shall only be available for transportation enhancement activities.

"(3) DIVISION BETWEEN URBANIZED AREAS OF OVER 200,000 POPULATION AND OTHER AREAS.—

"(A) GENERAL RULE.—Except as provided in subparagraphs (C) and (D), 62.5 percent of the remaining 80 percent of the funds apportioned to a State under section 104(b)(3) for a fiscal year shall be obligated under this section—

"(i) in urbanized areas of the State with an urbanized area population of over 200,000, and

"(ii) in other areas of the State,

in proportion to their relative share of the State's population. The remaining 37.5 percent may be obligated in any area of the State. Funds attributed to an urbanized area under clause (i) may be obligated in the metropolitan area established under section 134 which encompasses the urbanized area.

"(B) SPECIAL RULE FOR AREAS OF LESS THAN 5,000 POPULATION.—Of the amounts required to be obligated under subparagraph (A)(ii), the State shall obligate in areas of the State (other than urban areas with a population greater than 5,000) an amount which is not less than 110 percent of the amount of funds apportioned to the State for the Federal-aid secondary system for fiscal year 1991.

"(C) SPECIAL RULE FOR CERTAIN STATES.—In the case of a State in which—

"(i) greater than 80 percent of the population of the State is located in 1 or more metropolitan statistical areas, and

"(ii) greater than 80 percent of the land area of such State is owned by the United States,

the 62.5 percentage specified in the first sentence of subparagraph (A) shall be 35 percent and the percentage specified in the second sentence of subparagraph (A) shall be 65 percent.

"(D) NONCONTIGUOUS STATES EXEMPTION.—Subparagraph (A) shall not apply to any State which is noncontiguous with the continental United States.

"(E) DISTRIBUTION BETWEEN URBANIZED AREAS OF OVER 200,000 POPULATION.—The amount of funds which a State is required to obligate under subparagraph (A)(i) shall be obligated in urbanized areas described in subparagraph (A)(i) based on the relative population of such areas; except that the State may obligate such funds based on other factors if the State and the relevant metropolitan planning organizations jointly apply to the Secretary for the permission to do so and the Secretary grants the request.

"(4) APPLICABILITY OF PLANNING REQUIREMENTS.—Programming and expenditure of funds for projects under this section shall be consistent with the requirements of sections 134 and 135 of this title.

"(e) ADMINISTRATION.—

"(1) NONCOMPLIANCE.—If the Secretary determines that a State or local government has failed to comply substantially with any provision of this section, the Secretary shall notify the State that, if the State fails to take corrective action within 60 days from the date of receipt of the notification, the Secretary will withhold future apportionments under section 104(b)(3) until the Secretary is satisfied that appropriate corrective action has been taken.

"(2) CERTIFICATION.—The Governor of each State shall certify before the beginning of each quarter of a fiscal year that the State will meet all the requirements of this section and shall notify the Secretary of the amount of obligations expected to be incurred for surface transportation program projects during such quarter. A State may request adjustment to the obligation amounts later in each of such quarters. Acceptance of the notification and certification shall be deemed a contractual obligation of the United States for the payment of the surface transportation program funds expected to be obligated by the State in such quarter for projects not subject to review by the Secretary under this chapter.

"(3) PAYMENTS.—The Secretary shall make payments to a State of costs incurred by the State for the surface transportation program in accordance with procedures to be established by the Secretary. Payments shall not exceed the Federal share of costs incurred as of the date the State requests payments.

"(4) POPULATION DETERMINATIONS.—The Secretary shall use estimates prepared by the Secretary of Commerce when determining population figures for purposes of this section.

"(f) ALLOCATION OF OBLIGATION AUTHORITY.—A State which is required to obligate in an urbanized area with an urbanized area population of over 200,000 under subsection (d) funds apportioned to it under section 104(b)(3) shall allocate during the 6-fiscal year period 1992 through 1997 an amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction for use in such area determined by multiplying—

"(1) the aggregate amount of funds which the State is required to obligate in such area under subsection (d) during such period; by

"(2) the ratio of the aggregate amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction during such period to the total sums apportioned to the State for Federal-aid highways and highway safety construction (excluding sums not subject to an obligation limitation) during such period.".

(2) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by inserting after the item relating to section 132 the following:

"133. Surface transportation program.".

(b) APPORTIONMENT OF SURFACE TRANSPORTATION PROGRAM FUNDS.—

(1) IN GENERAL.—Section 104(b)(3) of title 23, United States Code, is amended to read as follows:

"(3) SURFACE TRANSPORTATION PROGRAM.—

"(A) GENERAL RULE.—For the surface transportation program in a manner so that a State's current percentage share of apportionments is equal to the State's 1987–1991 percentage share of apportionments. For purposes of this paragraph—

"(i) a State's current percentage share of apportionments is the State's percentage share of all funds apportioned for a fiscal year under paragraph (1) for the National Highway System, under section 144 for the bridge program, under paragraph (5)(B) for Interstate maintenance, and under this paragraph; and

"(ii) a State's 1987–1991 percentage share of apportionments is the State's percentage share of all apportionments and allocations under this title for fiscal years 1987, 1988, 1989, 1990, and 1991 (except apportionments and allocations for Interstate construction under sections 104(b)(5)(A) and 118, Interstate highway substitute under section 103(e)(4), Federal lands highways under section 202, and emergency relief under section 125, all allocations under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987, and the portion of allocations under section 157 (relating to minimum allocation) that would be attributable to apportionments made under Interstate construction and Interstate highway substitute programs under sections 104(b)(5)(A) and 103(e)(4), respectively, for such fiscal years if the minimum allocation percentage for such fiscal years had been 90 percent instead of 85 percent).

"(B) CALCULATION RULES.—In calculating a State's percentage share under this paragraph for the purpose of making apportionments for fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, each State shall be treated as having received ½ of 1 percent of all funds apportioned for the Interstate construction program under section 104(b)(5)(A) in fiscal years 1987, 1988, 1989, 1990, and 1991. Notwithstanding any other provision of this paragraph, in any fiscal year no State shall receive a percentage of total apportionments and allocations that is less than 70 percent of its percentage of total apportionments and allocations for fiscal years 1987, 1988, 1989, 1990, and 1991, except for those States that receive an apportionment for Interstate construction under paragraph (5)(A) of more than $50,000,000 for fiscal year 1992.".

(2) CONFORMING AMENDMENTS.—Section 104 of such title is further amended—

(A) in subsections (a) and (b) by striking "upon the Federal-aid systems" and inserting "on the surface transportation program, the congestion mitigation and air quality improvement program, the National Highway System, and the Interstate System";

(B) in subsection (b) by striking "paragraphs (4) and (5)" and inserting "paragraph (5)(A)"; and

(C) in subsection (b) by striking "and sections 118(c) and 307(d)" and inserting "and section 307".

(c) TRANSPORTATION ENHANCEMENT ACTIVITIES DEFINED.—Section 101(a) of title 23, United States Code, is amended by adding at the end the following new paragraph:

"The term 'transportation enhancement activities' means, with respect to any project or the area to be served by the project, provision of facilities for pedestrians and bicycles, acquisition of scenic easements and scenic or historic sites, scenic or historic highway programs, landscaping and other scenic beautification, historic preservation, rehabilitation and operation of historic transportation buildings, structures or facilities (including historic railroad facilities and canals), preservation of abandoned railway corridors (including the conversion and use thereof for pedestrian or bicycle trails), control and removal of outdoor advertising, archaeological planning and research, and mitigation of water pollution due to highway runoff.".

SEC. 1008. CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—Section 149 of title 23, United States Code, is amended to read as follows:

"§149. Congestion mitigation and air quality improvement program

"(a) ESTABLISHMENT.—The Secretary shall establish a congestion mitigation and air quality improvement program in accordance with this section.

"(b) ELIGIBLE PROJECTS.—Except as provided in subsection (c), a State may obligate funds apportioned to it under section 104(b)(2) for the congestion mitigation and air quality improvement program only for a transportation project or program—

"(1)(A) if the Secretary, after consultation with the Administrator of the Environmental Protection Agency, determines, on the basis of information published by the Environmental Protection Agency pursuant to section 108(f)(1)(A) of the Clean Air Act (other than clauses (xii) and (xvi) of such section), that the project or program is likely to contribute to the attainment of a national ambient air quality standard; or

"(B) in any case in which such information is not available, if the Secretary, after such consultation, determines that the project or program is part of a program, method, or strategy described in such section;

"(2) if the project or program is included in a State implementation plan that has been approved pursuant to the Clean Air Act and the project will have air quality benefits; or

"(3) the Secretary, after consultation with the Administrator of the Environmental Protection Agency, determines that the project or program is likely to contribute to the attainment of a national ambient air quality standard, whether through reductions in vehicle miles traveled, fuel consumption, or through other factors.

No funds may be provided under this section for a project which will result in the construction of new capacity available to single occupant vehicles unless the project consists of a high occupancy vehicle facility available to single occupant vehicles only at other than peak travel times.

"(c) STATES WITHOUT A NONATTAINMENT AREA.—If a State does not have a nonattainment area for ozone or carbon monoxide under the Clean Air Act located within its borders, the State may use funds apportioned to it under section 104(b)(2) for any project eligible for assistance under the surface transportation program.

"(d) APPLICABILITY OF PLANNING REQUIREMENTS.—Programming and expenditure of funds for projects under this section shall be consistent with the requirements of sections 134 and 135 of this title.".

(b) APPORTIONMENT.—Section 104(b)(2) of such title is amended to read as follows:

"(2) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—For the congestion mitigation and air quality improvement program, in the ratio which the weighted nonattainment area population of each State bears to the total weighted nonattainment area population of all States. The weighted nonattainment area population shall be calculated by multiplying the population of each area within any State that is a nonattainment area (as defined in the Clean Air Act) for ozone by a factor of—

"(A) 1.0 if the area is classified as a marginal ozone nonattainment area under subpart 2 of part D of title I of the Clean Air Act;

"(B) 1.1 if the area is classified as a moderate ozone nonattainment area under such subpart;

"(C) 1.2 if the area is classified as a serious ozone nonattainment area under such subpart;

"(D) 1.3 if the area is classified as a severe ozone nonattainment area under such subpart; or

"(E) 1.4 if the area is classified as an extreme ozone nonattainment area under such subpart. If the area is also classified under subpart 3 of part D of title I of such Act as a nonattainment area for carbon monoxide, for purposes of calculating the weighted nonattainment area population, the weighted nonattainment area population of the area, as determined under the preceding provisions of this paragraph, shall be further multiplied by a factor of 1.2. Notwithstanding any provision of this paragraph, in the case of States with a total 1990 census population of 15,000,000 or greater, the amount apportioned under this paragraph in a fiscal year to all of such States in the aggregate, shall be distributed among such States based on their relative populations; except that none of such States shall be distributed more than 42 percent of the aggregate amount so apportioned to all of such States. Notwithstanding any other provision of this paragraph, each State shall receive a minimum apportionment of ½ of 1 percent of the funds apportioned made under this paragraph. The Secretary shall use estimates prepared by the Secretary of Commerce when determining population figures.".

(c) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by striking

"149. Truck lanes."

and inserting

"149. Congestion mitigation and air quality improvement program.".

SEC. 1009. INTERSTATE MAINTENANCE PROGRAM.

(a) LIMITATION ON NEW CAPACITY.—Section 119 of title 23, United States Code, is amended by adding at the end the following new subsection:

"(g) LIMITATION ON NEW CAPACITY.—Notwithstanding any other provision of this title, the portion of the cost of any project undertaken pursuant to this section that is attributable to the expansion of the capacity of any Interstate highway or bridge, where such new capacity consists of one or more new travel lanes that are not high-occupancy vehicle lanes or auxiliary lanes, shall not be eligible for funding under this section.".

(b) ADEQUATE MAINTENANCE OF THE INTERSTATE SYSTEM.—Section 119(f) of such title is amended by inserting after "Interstate System routes and" the following: "the State is adequately maintaining the Interstate System and".

(c) GUIDANCE TO THE STATES.—The Secretary shall develop and make available to the States criteria for determining—

(1) what share of any project funded under section 119 of title 23, United States Code, is attributable to the expansion of the capacity of an Interstate highway or bridge; and

(2) what constitutes adequate maintenance of the Interstate System for the purposes of section 119(f)(1) of title 23, United States Code.

(d) NONCHARGEABLE SEGMENTS.—Section 104(b)(5)(B) of title 23, United States Code, is amended by inserting "and routes on the Interstate System designated under section 139(a) of this title before March 9, 1984," after "under sections 103 and 139(c) of this title" each place it appears.

(e) CONFORMING AMENDMENTS.—

(1) NEW HEADING.—The heading for section 119 of such title is amended to read as follows:

"§119. Interstate maintenance program".

(2) ANALYSIS.—The analysis for chapter 1 of such title is amended by striking

"119. Interstate System resurfacing."

and inserting

"119. Interstate maintenance program.".

(3) ELIGIBLE ACTIVITIES.—Section 119(c) of such title is amended to read as follows:

"(c) ELIGIBLE ACTIVITIES.—Activities authorized in subsection (a) may include the reconstruction of bridges, interchanges, and over crossings along existing Interstate routes, including the acquisition of right-of-way where necessary, but shall not include the construction of new travel lanes other than high occupancy vehicle lanes or auxiliary lanes.".

(4) PREVENTIVE MAINTENANCE.—Section 119(e) of such title is amended to read as follows:

"(e) PREVENTIVE MAINTENANCE.—Preventive maintenance activities shall be eligible under this section when a State can demonstrate, through its pavement management system, that such activities are a cost-effective means of extending Interstate pavement life.".

(5) MISCELLANEOUS.—Section 119 of such title is amended—

(A) in subsection (a) by striking ", rehabilitating, and reconstructing" and inserting "and rehabilitating";

(B) in subsection (a) by striking the last sentence;

(C) in the heading for subsection (f) by striking "PRIMARY SYSTEM" and inserting "SURFACE TRANSPORTATION PROGRAM";

(D) in subsection (f)(1) by striking "rehabilitating, or reconstructing" and inserting "or rehabilitating"; and

(E) in subsection (f) by striking "section 104(b)(1)" each place it appears and inserting "sections 104(b)(1) and 104(b)(3)".

SEC. 1010. OPERATION LIFESAVER; HIGH SPEED RAIL CORRIDORS.

Section 104(d) of title 23, United States Code, is amended to read as follows:

"(d) OPERATION LIFESAVER AND HIGH SPEED RAIL CORRIDORS.—

"(1) OPERATION LIFESAVER.—The Secretary shall expend from administrative funds deducted under subsection (a) $300,000 for each fiscal year for carrying out a public information and education program to help prevent and reduce motor vehicle accidents, injuries, and fatalities and to improve driver performance at railway-highway crossings.

"(2) RAILWAY-HIGHWAY CROSSING HAZARD ELIMINATION IN HIGH SPEED RAIL CORRIDORS.—

"(A) Before making an apportionment of funds under subsection (b)(3) for a fiscal year, the Secretary shall set aside $5,000,000 of the funds authorized to be appropriated for the surface transportation program for such fiscal year for elimination of hazards of railway-highway crossings in not to exceed 5 railway corridors selected by the Secretary in accordance with the criteria set forth in this paragraph.

"(B) A corridor selected by the Secretary under subparagraph (A) must include rail lines where railroad speeds of 90 miles per hour are occurring or can reasonably be expected to occur in the future.

"(C) In making the determination required by subparagraph (A), the Secretary shall consider projected rail ridership volumes in such corridors, the percentage of the corridor over which a train will be capable of operating at its maximum cruise speed taking into account such factors as topography and other traffic on the line, projected benefits to nonriders such as congestion relief on other modes of transportation serving the corridors (including congestion in heavily traveled air passenger corridors), the amount of State and local financial support that can reasonably be anticipated for the improvement of the line and related facilities, and the cooperation of the owner of the right-of-way that can reasonably be expected in the operation of high speed rail passenger service in such corridors.".

SEC. 1011. SUBSTITUTE PROGRAM.

(a) HIGHWAY PROJECTS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—Section 103(e)(4)(G) of title 23, United States Code, is amended—

(A) by striking "and" the next to the last place it appears;

(B) by inserting before the period at the end the following: ", $240,000,000 per fiscal year for each of fiscal years 1992, 1993, 1994, and 1995"; and

(C) by adding at the end the following: "Such sums may be obligated for transit substitute projects under this paragraph.".

(2) DISTRIBUTION.—Section 103(e)(4)(H) of such title is amended—

(A) by adding at the end of clause (i) the following new sentence: "For each of fiscal years 1992, 1993, 1994, and 1995, all funds made available by subparagraph (G) shall be apportioned in accordance with cost estimates adjusted by the Secretary.";

(B) in clause (iii), by striking "1988, 1989, 1990, AND 1991 APPORTIONMENTS" and inserting "1988–1995 APPORTIONMENTS"; and

(C) by striking "and 1991." and inserting "1991, 1992, 1993, 1994, and 1995.".

(b) TRANSIT PROJECTS.—Section 103(e)(4)(J) of such title is amended—

(1) in clause (i) by inserting after "1983," the following: "and ending before October 1, 1991";

(2) by adding at the end of clause (i) the following new sentence: "100 percent of funds appropriated for each of fiscal years 1992 and 1993 shall be apportioned in accordance with cost estimates adjusted by the Secretary.";

(3) in clause (iii) by striking "1988, 1989, 1990, AND 1991 APPORTIONMENTS" and inserting "1988–1993 APPORTIONMENTS"; and

(4) by striking "and 1991." and inserting "1991, 1992, and 1993.".

(c) PERIOD OF AVAILABILITY.—Section 103(e)(4)(E)(i) of such title is amended by adding at the end the following new sentence: "In the case of funds authorized to be appropriated for substitute transit projects under this paragraph for fiscal year 1993 and for substitute highway projects under this paragraph for fiscal year 1995, such funds shall remain available until expended.".

SEC. 1012. TOLL ROADS, BRIDGES, AND TUNNELS.

(a) NEW PROGRAM.—Section 129(a) of title 23, United States Code, is amended to read as follows:

"(a) BASIC PROGRAM.—

"(1) AUTHORIZATION FOR FEDERAL PARTICIPATION.—Notwithstanding section 301 of this title and subject to the provisions of this section, the Secretary shall permit Federal participation in—

"(A) initial construction of a toll highway, bridge, or tunnel (other than a highway, bridge, or tunnel on the Interstate System) or approach thereto;

"(B) reconstructing, resurfacing, restoring, and rehabilitating a toll highway, bridge, or tunnel (including a toll highway, bridge, or tunnel subject to an agreement entered into under this section or section 119(e) as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991) or approach thereto;

"(C) reconstruction or replacement of a toll-free bridge or tunnel and conversion of the bridge or tunnel to a toll facility;

"(D) reconstruction of a toll-free Federal-aid highway (other than a highway on the Interstate System) and conversion of the highway to a toll facility; and

"(E) preliminary studies to determine the feasibility of a toll facility for which Federal participation is authorized under subparagraph (A), (B), (C), or (D);

on the same basis and in the same manner as in the construction of free highways under this chapter.

"(2) OWNERSHIP.—Each highway, bridge, tunnel, or approach thereto constructed under this subsection must—

"(A) be publicly owned, or

"(B) be privately owned if the public authority having jurisdiction over the highway, bridge, tunnel, or approach has entered into a contract with a private person or persons to design, finance, construct, and operate the facility and the public authority will be responsible for complying with all applicable requirements of this title with respect to the facility.

"(3) LIMITATIONS ON USE OF REVENUES.—Before the Secretary may permit Federal participation under this subsection in construction of a highway, bridge, or tunnel located in a State, the public authority (including the State transportation department) having jurisdiction over the highway, bridge, or tunnel must enter into an agreement with the Secretary which provides that all toll revenues received from operation of the toll facility will be used first for debt service, for reasonable return on investment of any private person financing the project, and for the costs necessary for the proper operation and maintenance of the toll facility, including reconstruction, resurfacing, restoration, and rehabilitation. If the State certifies annually that the tolled facility is being adequately maintained, the State may use any toll revenues in excess of amounts required under the preceding sentence for any purpose for which Federal funds may be obligated by a State under this title.

"(4) SPECIAL RULE FOR FUNDING.—In the case of a toll highway, bridge, or tunnel under the jurisdiction of a public authority of a State (other than the State transportation department), upon request of the State transportation department and subject to such terms and conditions as such department and public authority may agree, the Secretary shall reimburse such public authority for the Federal share of the costs of construction of the project carried out on the toll facility under this subsection in the same manner and to the same extent as such department would be reimbursed if such project was being carried out by such department. The reimbursement of funds under this paragraph shall be from sums apportioned to the State under this chapter and available for obligations on projects on the Federal-aid system in such State on which the project is being carried out.

"(5) LIMITATION ON FEDERAL SHARE.—Except as otherwise provided in this paragraph, the Federal share payable for construction of a highway, bridge, tunnel, or approach thereto or conversion of a highway, bridge, or tunnel to a toll facility under this subsection shall be such percentage as the State determines but not to exceed 50 percent. The Federal share payable for construction of a new bridge, tunnel, or approach thereto or for reconstruction or replacement of a bridge, tunnel, or approach thereto shall be such percentage as the Secretary determines but not to exceed 80 percent. In the case of a toll facility subject to an agreement under section 119 or 129, the Federal share payable on any project for resurfacing, restoring, rehabilitating, or reconstructing such facility shall be 80 percent until the scheduled expiration of such agreement (as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991).

"(6) MODIFICATIONS.—If a public authority (including a State transportation department) having jurisdiction over a toll highway, bridge, or tunnel subject to an agreement under this section or section 119(e), as in effect on the day before the effective date of title I of the Intermodal Surface Transportation Efficiency Act of 1991, requests modification of such agreement, the Secretary shall modify such agreement to allow the continuation of tolls in accordance with paragraph (3) without repayment of Federal funds.

"(7) LOANS.—A State may loan all or part of the Federal share of a toll project under this section to a public or private agency constructing a toll facility. Such loan may be made only after all Federal environmental requirements have been complied with and permits obtained. The amount loaned shall be subordinated to other debt financing for the facility except for loans made by the State or any other public agency to the agency constructing the facility. Funds loaned pursuant to this section may be obligated for projects eligible under this section. The repayment of any such loan shall commence not more than 5 years after the facility has opened to traffic. Any such loan shall bear interest at the average rate the State's pooled investment fund earned in the 52 weeks preceding the start of repayment. The term of any such loan shall not exceed 30 years from the time the loan was obligated. Amounts repaid to a State from any loan made under this section may be obligated for any purpose for which the loaned funds were available. The Secretary shall establish procedures and guidelines for making such loans.

"(8) INITIAL CONSTRUCTION DEFINED.—For purposes of this subsection, the term 'initial construction' means the construction of a highway, bridge, or tunnel at any time before it is open to traffic and does not include any improvement to a highway, bridge, or tunnel after it is open to traffic.".

(b) CONGESTION PRICING PILOT PROGRAM.—(1) The Secretary shall solicit the participation of State and local governments and public authorities for one or more congestion pricing pilot projects. The Secretary may enter into cooperative agreements with as many as 5 such State or local governments or public authorities to establish, maintain, and monitor congestion pricing projects.

(2) Notwithstanding section 129 of title 23, United States Code, the Federal share payable for such programs shall be 80 percent. The Secretary shall fund all of the development and other start up costs of such projects, including salaries and expenses, for a period of at least 1 year, and thereafter until such time that sufficient revenues are being generated by the program to fund its operating costs without Federal participation, except that the Secretary may not fund any project for more than 3 years.

(3) Revenues generated by any pilot project under this subsection must be applied to projects eligible under such title.

(4) Notwithstanding sections 129 and 301 of title 23, United States Code, the Secretary shall allow the use of tolls on the Interstate System as part of a pilot program under this section, but not on more than 3 of such programs.

(5) The Secretary shall monitor the effect of such projects for a period of at least 10 years, and shall report to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives every 2 years on the effects such programs are having on driver behavior, traffic, volume, transit ridership, air quality, and availability of funds for transportation programs.

(6) Of the sums made available to the Secretary pursuant to section 104(a) of title 23, United States Code, not to exceed $25,000,000 shall be made available each fiscal year to carry out the requirements of this subsection. Not more than $15,000,000 of such amounts shall be made available to carry out each pilot project under this section.

(c) ELIMINATION OF PUBLIC OPERATION REQUIREMENT FOR TOLL FERRIES.—Section 129 of such title is amended—

(1) by striking subsections (b), (c), (d), (e), (h), (i), and (k);

(2) by redesignating subsections (f), (g), and (j) as subsections (b), (c), and (d), respectively;

(3) in subsection (c) as so redesignated by inserting "and ferry terminal facilities" after "boats";

(4) in subsection (c) as so redesignated by striking paragraph (3) and inserting the following:

"(3) Such ferry boat or ferry terminal facility shall be publicly owned."; and

(5) in subsection (c)(4) as so redesignated—

(A) by inserting "or other public entity" after "State"; and

(B) by inserting before the period at the end the following: ", debt service, negotiated management fees, and, in the case of a privately operated toll ferry, for a reasonable rate of return".

(d) CONTINUATION OF EXISTING AGREEMENTS.—Unless modified under section 129(a)(6) of such title, as amended by subsection (a) of this section, agreements entered into under section 119(e) or 129 of such title before the effective date of this title and in effect on the day before such effective date shall continue in effect on and after such effective date in accordance with the provisions of such agreement and such section 119(e) or 129.

(e) SPECIAL RULE FOR CERTAIN EXISTING TOLL FACILITY AGREEMENTS.—Notwithstanding sections 119 and 129 of title 23, United States Code, at the request of the non-Federal parties to a toll facility agreement reached before October 1, 1991, regarding the New York State Thruway or the Fort McHenry Tunnel under section 105 of the Federal-Aid Highway Act of 1978 or section 129 of title 23, United States Code (as in effect on the day before the date of the enactment of this Act), the Secretary shall allow for the continuance of tolls without repayment of Federal funds. Revenues collected from such tolls, after the date of such request, in excess of revenues needed for debt service and the actual costs of operation and maintenance shall be available for (1) any transportation project eligible for assistance under title 23, United States Code, or (2) costs associated with transportation facilities under the jurisdiction of such non-Federal party, including debt service and costs related to the construction, reconstruction, restoration, repair, operation and maintenance of such facilities.

(f) VOIDING OF CERTAIN AGREEMENTS FOR I–78 DELAWARE RIVER BRIDGE.—Upon the joint request of the State of Pennsylvania, the State of New Jersey, and the Delaware River Joint Toll Bridge Commission, and upon such parties entering into a new agreement with the Secretary regarding the bridge on Interstate Route 78 which crosses the Delaware River in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, the Secretary shall void any agreement entered into with such parties with respect to the bridge before the effective date of this subsection under section 129(a), 129(d), or 129(e) of title 23, United States Code. The new agreement referred to in the preceding sentence shall permit the continuation of tolls without repayment of Federal funds and shall provide that all toll revenues received from operation of the bridge will be used—

(1) first for repayment of the non-Federal cost of construction of the bridge (including debt service);

(2) second for the costs necessary for the proper operation and maintenance of the bridge, including resurfacing, restoration, and rehabilitation; and

(3) to the extent that toll revenues exceed the amount necessary for paragraphs (1) and (2), such excess may be used with respect to any other bridge under the jurisdiction of the Delaware River Joint Toll Bridge Commission.

(g) BRIDGE CONNECTING PENNSYLVANIA TURNPIKE SYSTEM AND NEW JERSEY TURNPIKE.—Section 3 of the Act of October 26, 1951 (65 Stat. 653), is amended by striking ": Provided," and all that follows before the period.

SEC. 1013. MINIMUM ALLOCATION.

(a) GENERAL RULE.—Section 157(a) of title 23, United States Code, is amended—

(1) in paragraph (3) by striking "THEREAFTER" and inserting "FISCAL YEARS 1989–1991";

(2) in paragraph (3) by striking "and each fiscal year thereafter," and inserting ", 1990, and 1991"; and

(3) by adding at the end the following new paragraph:

"(4) THEREAFTER.—In fiscal year 1992 and each fiscal year thereafter on October 1, or as soon as possible thereafter, the Secretary shall allocate among the States amounts sufficient to ensure that a State's percentage of the total apportionments in each such fiscal year and allocations for the prior fiscal year for Interstate construction, Interstate maintenance, Interstate highway substitute, National Highway System, surface transportation program, bridge program, scenic byways, and grants for safety belts and motorcycle helmets shall not be less than 90 percent of the percentage of estimated tax payments attributable to highway users in the State paid into the Highway Trust Fund, other than the Mass Transit Account, in the latest fiscal year for which data are available.".

(b) CONFORMING AMENDMENTS.—Section 157(b) of such title is amended—

(1) by striking "primary, secondary," and inserting "National Highway, surface transportation program,";

(2) by striking "urban," and inserting "congestion mitigation and air quality improvement program,";

(3) by striking "replacement and rehabilitation"; and

(4) by inserting after the first sentence the following: "½ of the amounts allocated pursuant to subsection (a) after September 30, 1991, shall be subject to section 133(d)(3) of this title.".

(c) DONOR STATE BONUS AMOUNTS.—

(1) FUNDING.—There are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for the payment of donor State bonus amounts the following amounts for the following fiscal years:

(A) For fiscal year 1992 $429,000,000.

(B) For fiscal year 1993 $514,000,000.

(C) For fiscal year 1994 $514,000,000.

(D) For fiscal year 1995 $514,000,000.

(E) For fiscal year 1996 $514,000,000.

(F) For fiscal year 1997 $515,000,000.

(2) APPORTIONMENT.—

(A) FORMULA.—The bonus apportionments which are provided under this subsection for a fiscal year shall be apportioned in such a way as to bring each successive State, or States, with the lowest dollar return on dollar projected to be contributed into the Highway Trust Fund for such fiscal year, up to the highest common return on contributed dollar that can be funded with the annual authorizations provided under this subsection.

(B) APPLICABILITY OF CHAPTER 1 OF TITLE 23.—Funds apportioned under this subsection shall be available for obligation in the same manner and for the same purposes as if such funds were apportioned for the surface transportation program under chapter 1 of title 23, United States Code, except that such funds shall remain available until expended. 1/2 of the amounts apportioned under this subsection shall be subject to section 133(d)(3) of title 23, United States Code, as added by this Act.

SEC. 1014. REIMBURSEMENT FOR SEGMENTS OF THE INTERSTATE SYSTEM CONSTRUCTED WITHOUT FEDERAL ASSISTANCE.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by adding at the end the following new section:

"§160. Reimbursement for segments of the Interstate System constructed without Federal assistance

"(a) GENERAL AUTHORITY.—The Secretary shall allocate to the States in each of fiscal years 1996 and 1997 amounts determined under subsection (b) for reimbursement of their original contributions to construction of segments of the Interstate System which were constructed without Federal financial assistance.

"(b) DETERMINATION OF REIMBURSEMENT AMOUNT.—The amount to be reimbursed to a State in each of fiscal years 1996 and 1997 under this section shall be determined by multiplying the amount made available for carrying out this section for such fiscal year by the reimbursement percentage set forth in the table contained in subsection (c).

"(c) REIMBURSEMENT TABLE.—For purposes of carrying out this section, the reimbursement percentage, the original cost for constructing the Interstate System, and the total reimbursable amount for each State is set forth in the following table:

States	Original cost in millions	Reimbursement percentage	Reimbursable amount in millions
Alabama	89	0.50	$147
Alaska	....	.50	147
Arizona	20	.50	147
Arkansas	6	.50	147
California	298	5.42	1,591
Colorado	23	.50	147
Connecticut	314	5.71	1,676
Delaware	39	0.71	209
Florida	31	.56	164
Georgia	46	.84	246
Hawaii	....	.50	147
Idaho	5	.50	147
Illinois	475	8.62	2,533
Indiana	167	3.03	892
Iowa	5	.50	147
Kansas	101	1.84	540
Kentucky	32	.57	169
Louisiana	22	.50	147
Maine	38	.69	204
Maryland	154	2.79	820
Massachusetts	283	5.14	1,511
Michigan	228	4.14	1,218
Minnesota	16	.50	147
Mississippi	6	.50	147
Missouri	74	1.35	396
Montana	5	.50	147
Nebraska	1	.50	147
Nevada	2	.50	147
New Hampshire	8	.50	147
New Jersey	353	6.41	1,882
New Mexico	8	.50	147
New York	929	16.88	4,960
North Carolina	36	.65	191
North Dakota	3	.50	147
Ohio	257	4.68	1,374
Oklahoma	91	1.66	486
Oregon	78	1.42	417
Pennsylvania	354	6.43	1,888
Rhode Island	12	.50	147
South Carolina	4	.50	147
South Dakota	5	.50	147
Tennessee	7	.50	147
Texas	200	3.64	1,069
Utah	6	.50	147
Vermont	1	.50	147
Virginia	111	2.01	591
Washington	73	1.32	389
West Virginia	5	.50	147
Wisconsin	8	.50	147
Wyoming	9	.50	147
D.C.	9	.50	147
Totals	4,967	100.00	29,384

"(d) TRANSFER OF REIMBURSABLE AMOUNTS TO STP APPORTIONMENT.—Subject to subsection (e) of this section, the Secretary shall transfer amounts allocated to a State pursuant to this section to the apportionment of such State under section 104(b)(3) for the surface transportation program.

"(e) LIMITATION ON APPLICABILITY OF CERTAIN REQUIREMENTS OF STP PROGRAM.—The following provisions of section 133 of this title shall not apply to ½ of the amounts transferred under subsection (d) to the apportionment of the State for the surface transportation program:

"(1) Subsection (d)(1).

"(2) Subsection (d)(2).

"(3) Subsection (d)(3).

"(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account), $2,000,000,000 per fiscal year for each of fiscal years 1996 and 1997 to carry out this section.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by adding at the end the following new item:

"160. Reimbursement for segments of the Interstate System constructed without Federal assistance."

(c) KANSAS PROJECTS.—

(1) UNITED STATES ROUTE 50.—The State of Kansas shall obligate in fiscal year 1996 $24,440,000 to construct the Hutchinson Bypass between United States Route 50 and Kansas Route 96 in the vicinity of Hutchinson, Kansas. Such funds shall be obligated from amounts allocated to the State of Kansas for fiscal year 1996 under section 160 of title 23, United States Code.

(2) UNITED STATES ROUTE 91.—The State of Kansas shall obligate in fiscal years 1996 and 1997 such sums as may be necessary to widen United States Route 91 from Belleville, Kansas, to the Nebraska border. Such funds shall be obligated from amounts allocated to the State of Kansas for fiscal years 1996 and 1997 under such section.

(3) NONAPPLICABILITY OF CERTAIN PROVISIONS.—Sections 160(d) and 133(d)(3) of title 23, United States Code, shall not apply to funds allocated to the State of Kansas for fiscal years 1996 and 1997.

SEC. 1015. APPORTIONMENT ADJUSTMENTS.

(a) HOLD HARMLESS.—

(1) GENERAL RULE.—The amount of funds which, but for this subsection, would be apportioned to a State for each of the fiscal years 1992 through 1997 under section 104(b)(3) of title 23, United States Code, for the surface transportation program shall be increased or decreased by an amount which, when added to or subtracted from the aggregate amount of funds apportioned to the State for such fiscal year and funds allocated to the State for the prior fiscal year under section 104(b) of such title, section 103(e)(4) for Interstate highway substitute, section 144 of such title, section 157 of such title, under section 202 of such title for the Federal lands highways program, section 160 of such title for the reimbursement program, and section 1013(c) of this Act for the donor State bonus program, will result in the percentage of amounts so apportioned and allocated to all States being equal to the percentage listed for such State in paragraph (2).

(2) STATE PERCENTAGES.—For purposes of paragraph (1) the percentage of amounts apportioned and allocated which are referred to in paragraph (1) for each State and the District of Columbia shall be determined in accordance with the following table:

States:	Adjustment Percentage
Alabama	1.74
Alaska	1.28
Arizona	1.49
Arkansas	1.20
California	9.45
Colorado	1.35
Connecticut	1.78
Delaware	0.41
District of Columbia	0.53
Florida	4.14
Georgia	2.97
Hawaii	0.57
Idaho	0.69
Illinois	3.72
Indiana	2.20
Iowa	1.25
Kansas	1.14
Kentucky	1.52
Louisiana	1.55
Maine	0.50
Maryland	1.69
Massachusetts	4.36
Michigan	2.81
Minnesota	1.58
Mississippi	1.15
Missouri	2.23
Montana	0.97
Nebraska	0.83
Nevada	0.64
New Hampshire	0.48
New Jersey	2.87
New Mexico	1.08
New York	5.37
North Carolina	2.65
North Dakota	0.62
Ohio	3.73
Oklahoma	1.42
Oregon	1.26
Pennsylvania	4.38
Rhode Island	0.54
South Carolina	1.41
South Dakota	0.71
Tennessee	2.08
Texas	6.36
Utah	0.77
Vermont	0.44
Virginia	2.27
Washington	2.06
West Virginia	0.94
Wisconsin	1.70
Wyoming	0.67

(b) 90 PERCENT OF PAYMENT ADJUSTMENTS.—

(1) GENERAL RULE.—For each of fiscal years 1992 through 1997, the Secretary shall allocate among the States amounts sufficient to ensure that a State's total apportionments for such fiscal year and allocations for the prior fiscal year under section 104(b) of such title, section 103(e)(4) for Interstate highway substitute, section 144 of such title, section 157 of such title, section 202 of such title for the Federal lands highways program, section 1013(c) of this Act for the donor State bonus program, section 160 of such title for the reimbursement program, and subsection (a) of this section for hold harmless is not less than 90 percent of the estimated tax payments attributable to highway users in the State paid into the Highway Trust Fund (other than Mass Transit Account) in the latest fiscal year in which data is available.

(2) TRANSFER OF ALLOCATED AMOUNTS TO STP APPORTIONMENT.—Subject to subsection (d) of this section, the Secretary shall transfer amounts allocated to a State pursuant to paragraph (1) to the apportionment of such State under section 104(b)(3) for the surface transportation program.

(c) ADDITIONAL ALLOCATION.—Subject to subsection (d) of this section, the Secretary shall allocate to the State of Wisconsin $40,000,000 for fiscal year 1992 and $47,800,000 for each of fiscal years 1993 through 1997 and transfer such amounts to the apportionment of such State under section 104(b)(3) of title 23, United States Code, for the surface transportation program.

(d) LIMITATION ON APPLICABILITY OF CERTAIN REQUIREMENTS OF STP PROGRAM.—The following provisions of section 133 of title 23, United States Code, shall not apply to ½ of the amounts added under subsection (a) to the apportionment of the State for the surface transportation program and of amounts transferred under subsections (b) and (c) to such apportionment:

(1) Subsection (d)(1).

(2) Subsection (d)(2).

(3) Subsection (d)(3).

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account), to carry out this section such sums as may be necessary for each of fiscal years 1992 through 1997.

SEC. 1016. PROGRAM EFFICIENCIES.

(a) HOV PASSENGER REQUIREMENTS; ENGINEERING COST REIMBURSEMENT.—Section 102 of title 23, United States Code, is amended to read as follows:

"§102. Program efficiencies

"(a) HOV PASSENGER REQUIREMENTS.—A State highway department shall establish the occupancy requirements of vehicles operating in high occupancy vehicle lanes; except that no fewer than 2 occupants per vehicle may be required and, subject to section 163 of the Surface Transportation Assistance Act of 1982, motorcycles and bicycles shall not be considered single occupant vehicles.

"(b) ENGINEERING COST REIMBURSEMENT.—If on-site construction of, or acquisition of right-of-way for, a highway project is not commenced within 10 years after the date on which Federal funds are first made available, out of the Highway Trust Fund (other than Mass Transit Account), for preliminary engineering of such project, the State shall pay an amount equal to the amount of Federal funds made available for such engineering. The Secretary shall deposit in such Fund all amounts paid to the Secretary under this section.".

(b) PROJECT APPROVAL.—Section 106 of such title is amended—

(1) in subsection (a) by inserting "this section and" before "section 117"; and

(2) by striking subsection (b) and inserting the following new subsection:

"(b) SPECIAL RULES.—

"(1) 3R PROJECTS ON NHS.—Notwithstanding any other provision of this title, a State highway department may approve, on a project by project basis, plans, specifications, and estimates for projects to resurface, restore, and rehabilitate highways on the National Highway System if the State certifies that all work will meet or exceed the standards approved by the Secretary under section 109(c).

"(2) NON-NHS PROJECTS AND LOW-COST NHS PROJECTS.—Any State may request that the Secretary no longer review and approve plans, specifications, and estimates for any project (including any highway project on the National Highway System with an estimated construction cost of less than $1,000,000 but excluding any other highway project on the National Highway System). After receiving any such notification, the Secretary shall undertake project review only as requested by the State.

"(3) SAFETY CONSIDERATIONS.—Safety considerations for projects subject to this subsection may be met by phase construction consistent with an operative safety management system established in accordance with section 303.".

(c) STANDARDS.—Section 109(c) of such title is amended to read as follows:

"(c) DESIGN AND CONSTRUCTION STANDARDS FOR NHS.—Design and construction standards to be adopted for new construction on the National Highway System, for reconstruction on the National Highway System, and for resurfacing, restoring, and rehabilitating multilane limited access highways on the National Highway System shall be those approved by the Secretary in cooperation with the State highway departments. All eligible work for such projects shall meet or exceed such standards.".

(d) COMPLIANCE WITH STATE LAWS FOR NON-NHS PROJECTS.—Section 109 of such title is amended by adding at the end the following new subsection:

"(p) COMPLIANCE WITH STATE LAWS FOR NON-NHS PROJECTS.—Projects (other than highway projects on the National Highway System) shall be designed, constructed, operated, and maintained in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.".

(e) HISTORIC AND SCENIC VALUES.—Section 109 of such title is amended by adding at the end the following new subsection:

"(q) HISTORIC AND SCENIC VALUES.—If a proposed project under sections 103(e)(4), 133, or 144 involves a historic facility or is located in an area of historic or scenic value, the Secretary may approve such project notwithstanding the requirements of subsections (a) and (b) of this section and section 133(c) if such project is designed to standards that allow for the preservation of such historic or scenic value and such project is designed with mitigation measures to allow preservation of such value and ensure safe use of the facility.".

(f) CONFORMING AMENDMENTS.—

(1) STANDARDS.—Section 109 of such title is amended—

(A) in subsection (a) by striking "projects on any Federal-aid system" and inserting "highway projects under this chapter"; and

(B) in subsection (l)(1) by striking "Federal-aid system" and inserting "Federal-aid highway".

(2) CERTIFICATION ACCEPTANCE.—Section 117 of such title is amended—

(A) in subsection (a) by striking "on Federal-aid systems, except" and inserting "under this chapter, except projects on";

(B) in subsection (a) by inserting "or other transportation" before "construction,";

(C) by striking subsection (b) and inserting the following:

"(b) The Secretary may accept projects based on inspections of a type and frequency necessary to ensure the projects are completed in accordance with appropriate standards."; and

(D) in subsection (e) by inserting ", section 106(b), section 133, and section 149" after "in this section".

(3) CHAPTER ANALYSIS.—The analysis of chapter 1 of such title, is amended by striking

"102. Authorizations."
and inserting

"102. Program efficiencies.".

(g) LIMITATION ON CERTAIN EXPENDITURES.—No Federal funds may be expended for any highway project on any portion of the scenic highway known as "Ministerial Road" between route 138 and route 1 in the State of Rhode Island unless the Governor of such State and the town council of the town of South Kingstown, Rhode Island, first agree to the design.

SEC. 1017. ACQUISITION OF RIGHTS-OF-WAY.

(a) RIGHT-OF-WAY REVOLVING FUND.—Sections 108(a) and 108(c)(3) of title 23, United States Code, are each amended by striking "ten" and inserting "20".

(b) EARLY ACQUISITION OF RIGHTS-OF-WAY.—Section 108 of such title is further amended by adding at the end the following new subsection:

"(d) EARLY ACQUISITION OF RIGHTS-OF-WAY.—

"(1) GENERAL RULE.—Subject to paragraph (2), funds apportioned to a State under this title may be used to participate in the payment of—

"(A) costs incurred by the State for acquisition of rights-of-way, acquired in advance of any Federal approval or authorization, if the rights-of-way are subsequently incorporated into a project eligible for surface transportation program funds; and

"(B) costs incurred by the State for the acquisition of land necessary to preserve environmental and scenic values.

"(2) TERMS AND CONDITIONS.—The Federal share payable of the costs described in paragraph (1) shall be eligible for reimbursement out of funds apportioned to a State under this title when the rights-of-way acquired are incorporated into a project eligible for surface transportation program funds, if the State demonstrates to the Secretary and the Secretary finds that—

"(A) any land acquired, and relocation assistance provided, complied with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;

"(B) the requirements of title VI of the Civil Rights Act of 1964 have been complied with;

"(C) the State has a mandatory comprehensive and coordinated land use, environment, and transportation planning process under State law and the acquisition is certified by the Governor as consistent with the State plans before the acquisition;

"(D) the acquisition is determined in advance by the Governor to be consistent with the State transportation planning process pursuant to section 135 of this title;

"(E) the alternative for which the right-of-way is acquired is selected by the State pursuant to regulations to be issued by the Secretary which provide for the consideration of the environmental impacts of various alternatives;

"(F) before the time that the cost incurred by a State is approved for Federal participation, environmental compliance pursuant to the National Environmental Policy Act has been completed for the project for which the right-of-way was acquired by the State, and the acquisition has been approved by the Secretary under this Act, and in compliance with section 4(f) of the Department of Transportation Act, section 7 of the Endangered Species Act, and all other applicable environmental laws shall be identified by the Secretary in regulations; and

"(G) before the time that the cost incurred by a State is approved for Federal participation, both the Secretary and the Administrator of the Environmental Protection Agency have concurred that the property acquired in advance of Federal approval or authorization did not influence the environmental assessment of the project, the decision relative to the need to construct the project, or the selection of the project design or location.".

(c) PRESERVATION OF TRANSPORTATION CORRIDORS REPORT.—The Secretary, in consultation with the States, shall report to Congress within 2 years after the date of the enactment of this Act, a national list of the rights-of-way identified by the metropolitan planning organizations and the States (under sections 134 and 135 of title 23, United States Code), including the total mileage involved, an estimate of the total costs, and a strategy for preventing further loss of rights-of-way including the desirability of creating a transportation right-of-way land bank to preserve vital corridors.

SEC. 1018. PRECONSTRUCTION ACTIVITIES.

(a) LIMITATION ON ESTIMATES FOR CONSTRUCTION ENGINEERING.—Section 106(c) of title 23, United States Code, is amended to read as follows:

"(c) LIMITATION ON ESTIMATES FOR CONSTRUCTION ENGINEERING.—Items included in all such estimates for construction engineering for a State for a fiscal year shall not exceed, in the aggregate, 15 percent of the total estimated costs of all projects financed within the boundaries of the State with Federal-aid highway funds in such fiscal year, after excluding from such total estimate costs, the estimated costs of rights-of-way, preliminary engineering, and construction engineering.".

(b) CONFORMING AMENDMENTS.—Section 121(d) of such title is amended—

(1) by striking "120" and inserting "106(c), 120,"; and

(2) by striking the last sentence.

SEC. 1019. CONVICT PRODUCED MATERIALS.

Section 114(b)(2) of title 23, United States Code, is amended by inserting "after July 1, 1991," after "Materials produced".

SEC. 1020. PERIOD OF AVAILABILITY.

(a) DATE AND PERIOD OF AVAILABILITY; DISCRETIONARY PROJECTS.—Section 118 of title 23, United States Code, is amended by striking subsections (a) and (b) and inserting the following new subsections:

"(a) DATE AVAILABLE FOR OBLIGATION.—Except as otherwise specifically provided, authorizations from the Highway Trust Fund (other than the Mass Transit Account) to carry out this title shall be available for obligation on the date of their apportionment or allocation or on October 1 of the fiscal year for which they are authorized, whichever occurs first.

"(b) PERIOD OF AVAILABILITY; DISCRETIONARY PROJECTS.—

"(1) INTERSTATE CONSTRUCTION FUNDS.—Funds apportioned or allocated for Interstate construction in a State shall remain available for obligation in that State until the last day of the fiscal year in which they are apportioned or allocated. Sums not obligated by the last day of the fiscal year in which they are apportioned or allocated shall be allocated to other States, except Massachusetts, at the discretion of the Secretary. All sums apportioned or allocated on or after October 1, 1994, shall remain available in the State until expended. All sums apportioned or allocated to Massachusetts on or before October 1, 1989, shall remain available until expended.

"(2) OTHER FUNDS.—Except as otherwise specifically provided, funds apportioned or allocated pursuant to this title (other than for Interstate construction) in a State shall remain available for obligation in that State for a period of 3 years after the last day of the fiscal year for which the funds are authorized. Any amounts so apportioned or allocated that remain unobligated at the end of that period shall lapse.".

(b) SET ASIDE FOR DISCRETIONARY PROJECTS.—Section 118(c) of such title is amended—

(1) by striking "1983" and inserting "1992";

(2) by striking "$300,000,000" and inserting "$100,000,000"; and

(3) by striking paragraph (2) and inserting the following new paragraph:

"(2) SET ASIDE FOR 4R PROJECTS.—

"(A) IN GENERAL.—Before any apportionment is made under section 104(b)(1) of this title, the Secretary shall set aside $54,000,000 for fiscal year 1992, $64,000,000 for each fiscal years 1993, 1994, 1995, and 1996, and $65,000,000 for fiscal year 1997 for obligation by the Secretary for projects for resurfacing, restoring, rehabilitating, and reconstructing any route or portion thereof on the Interstate System (other than any highway designated as a part of the Interstate System under section 139 and any toll road on the Interstate System not subject to an agreement under section 119(e) of this title, as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991). Of the amounts set aside under the preceding sentence, the Secretary shall obligate $16,000,000 for fiscal year 1992 and $17,000,000 for each of fiscal years 1993 and 1994 for improvements on the Kennedy Expressway in Chicago, Illinois. The remainder of such funds shall be made available by the Secretary to any State applying for such funds, if the Secretary determines that—

"(i) the State has obligated or demonstrates that it will obligate in the fiscal year all of its apportionments under section 104(b)(1) other than an amount which, by itself, is insufficient to pay the Federal share of the cost of a project for resurfacing, restoring, rehabilitating, and reconstructing the Interstate System which has been submitted by the State to the Secretary for approval; and

"(ii) the applicant is willing and able to (I) obligate the funds within 1 year of the date the funds are made available, (II) apply them to a ready-to-commence project, and (III) in the case of construction work, begin work within 90 days of obligation.

"(B) PRIORITY CONSIDERATION FOR CERTAIN PROJECTS.—In selecting projects to fund under subparagraph (A), the Secretary shall give priority consideration to any project the cost of which exceeds $10,000,000 on any high volume route in an urban area or a high truck-volume route in a rural area.

"(C) PERIOD OF AVAILABILITY OF DISCRETIONARY FUNDS.—Sums made available pursuant to this paragraph shall remain available until expended.".

(c) CONFORMING AMENDMENT.—Section 118(d) of such title is amended by striking "(b)(2)" and inserting "(b)(1)".

(d) ALASKA AND PUERTO RICO.—Section 118(f) of such title is amended by striking "on a Federal-aid system".

SEC. 1021. FEDERAL SHARE.

(a) IN GENERAL.—Section 120 of title 23, United States Code, is amended by striking subsections (a), (b), (c), and (d) and inserting the following new subsections:

"(a) INTERSTATE SYSTEM PROJECTS.—Except as otherwise provided in this chapter, the Federal share payable on account of any project on the Interstate System (including a project to add high occupancy vehicle lanes and a project to add auxiliary lanes but excluding a project to add any other lanes) shall be 90 percent of the total cost thereof, plus a percentage of the remaining 10 percent of such cost in any State containing unappropriated and unreserved public lands and nontaxable Indian lands, individual and tribal, exceeding 5 percent of the total area of all lands therein, equal to the percentage that the area of such lands in such State is of its total area; except that such Federal share payable on any project in any State shall not exceed 95 percent of the total cost of such project.

"(b) OTHER PROJECTS.—Except as otherwise provided in this title, the Federal share payable on account of any project or activity carried out under this title (other than a project subject to subsection (a)) shall be—

"(1) 80 percent of the cost thereof, except that in the case of any State containing nontaxable Indian lands, individual and tribal, and public domain lands (both reserved and unreserved) exclusive of national forests and national parks and monuments, exceeding 5 percent of the total area of all lands therein, the Federal share, for purposes of this chapter, shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State, is of its total area; or

"(2) 80 percent of the cost thereof, except that in the case of any State containing nontaxable Indian lands, individual and tribal, public domain lands (both reserved and unreserved), national forests, and national parks and monuments, the Federal share, for purposes of this chapter, shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State is of its total area;

except that the Federal share payable on any project in a State shall not exceed 95 percent of the total cost of any such project. In any case where a State elects to have the Federal share provided in paragraph (2) of this subsection, the State must enter into an agreement with the Secretary covering a period of not less than 1 year, requiring such State to use solely for purposes eligible for assistance under this title (other than paying its share of projects approved under this title) during the period covered by such agreement the difference between the State's share as provided in paragraph (2) and what its share would be if it elected to pay the share provided in paragraph (1) for all projects subject to such agreement.

"(c) INCREASED FEDERAL SHARE FOR CERTAIN SAFETY PROJECTS.—The Federal share payable on account of any project for traffic control signalization, pavement marking, commuter carpooling and vanpooling, or installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier endtreatments, breakaway utility poles, or priority control systems for emergency vehicles at signalized intersections may amount to 100 percent of the cost of construction of such projects; except that not more than 10 percent of all sums apportioned for all the Federal-aid systems for any fiscal year in accordance with section 104 of this title shall be used under this subsection.".

(b) CONFORMING AMENDMENTS.—Section 120 of such title is further amended—

(1) by striking subsections (j), (k), (l), and (m),

(2) by redesignating subsections (e), (f), (g), (h), (i), and (n) as subsections (d), (e), (f), (g), (h), and (i) respectively, and

(3) in subsection (d) as so redesignated by striking "and (c)" and inserting "and (b)".

(c) LIMITATION ON STATUTORY CONSTRUCTION.—The amendments made by this section shall not be construed to affect (1) the Federal share established by the Supplemental Appropriations Act, 1983 (97 Stat. 329) for construction of any highway on the Interstate System, and (2) the Federal share established by section 120(k) of such title, as in effect on the day before the date of the enactment of this Act, with respect to United States Highway 71 in Arkansas from the I–40 intersection to the Missouri-Arkansas State line.

(d) HIGHER FEDERAL SHARE.—If any highway project authorized to be carried out under section 1103 through 1108 of this Act is a project which would be eligible for assistance under section 204 of title 23, United States Code, or is a project on a federally owned bridge, the Federal share payable on account of such project shall be 100 percent for purposes of this Act.

SEC. 1022. EMERGENCY RELIEF.

(a) EXTENSION OF TIME PERIOD.—Section 120(d) of title 23, United States Code, as redesignated by section 1021(b) of this Act, is amended by striking "90 days" and inserting "180 days".

(b) DOLLAR LIMITATION FOR TERRITORIES.—Section 125(b)(2) of such title is amended by striking "$5,000,000" and inserting "$20,000,000".

(c) APPLICABILITY.—The amendments made by subsections (a) and (b) shall only apply to natural disasters and catastrophic failures occurring after the date of the enactment of this Act.

SEC. 1023. GROSS VEHICLE WEIGHT RESTRICTION.

(a) CONFORMING AMENDMENTS.—Section 127(a) of title 23, United States Code, is amended—

(1) by striking "funds authorized to be appropriated for any fiscal year under provisions of the Federal-Aid Highway Act of 1956 shall be apportioned" and inserting "funds shall be apportioned in any fiscal year under section 104(b)(1) of this title"; and

(2) in the fourth sentence by inserting after "thereof" the following: ", other than vehicles or combinations subject to subsection (d) of this section,".

(b) OPERATION OF LONGER COMBINATION VEHICLES.—Section 127 of such title is amended by adding at the end the following new subsection:

"(d) LONGER COMBINATION VEHICLES.—

"(1) PROHIBITION.—

"(A) GENERAL CONTINUATION RULE.—A longer combination vehicle may continue to operate only if the longer combination vehicle configuration type was authorized by State officials pursuant to State statute or regulation conforming to this section and in actual lawful operation on a regular or periodic basis (including seasonal operations) on or before June 1, 1991, or pursuant to section 335 of the Department of Transportation and Related Agencies Appropriations Act, 1991 (104 Stat. 2186).

"(B) APPLICABILITY OF STATE LAWS AND REGULATIONS.—All such operations shall continue to be subject to, at the minimum, all State statutes, regulations, limitations and conditions, including, but not limited to, routing-specific and configuration-specific designations and all other restrictions, in force on June 1, 1991; except that subject to such regulations as may be issued by the Secretary pursuant to paragraph (5) of this subsection, the State may make minor adjustments of a temporary and emergency nature to route designations and vehicle operating restrictions in effect on June 1, 1991, for specific safety purposes and road construction.

"(C) WYOMING.—In addition to those vehicles allowed under subparagraph (A), the State of Wyoming may allow the operation of additional vehicle configurations not in actual operation on June 1, 1991, but authorized by State law not later than November 3, 1992, if such vehicle configurations comply with the single axle, tandem axle, and bridge formula limits set forth in subsection (a) and do not exceed 117,000 pounds gross vehicle weight.

"(D) OHIO.—In addition to vehicles which the State of Ohio may continue to allow to be operated under subparagraph (A), such State may allow longer combination vehicles with 3 cargo carrying units of 28½ feet each (not including the truck tractor) not in actual operation on June 1, 1991, to be operated within its boundaries on the 1-mile segment of Ohio State Route 7 which begins at and is south of exit 16 of the Ohio Turnpike.

"(E) ALASKA.—In addition to vehicles which the State of Alaska may continue to allow to be operated under subparagraph (A), such State may allow the operation of longer combination vehicles which were not in actual operation on June 1, 1991, but which were in actual operation prior to July 5, 1991.

"(2) ADDITIONAL STATE RESTRICTIONS.—

"(A) IN GENERAL.—Nothing in this subsection shall prevent any State from further restricting in any manner or prohibiting the operation of longer combination vehicles otherwise authorized under this subsection; except that such restrictions or prohibitions shall be consistent with the requirements of sections 411, 412, and 416 of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2311, 2312, and 2316).

"(B) MINOR ADJUSTMENTS.—Any State further restricting or prohibiting the operations of longer combination vehicles or making minor adjustments of a temporary and emergency nature as may be allowed pursuant to regulations issued by the Secretary pursuant to paragraph (5) of this subsection, shall, within 30 days, advise the Secretary of such action, and the Secretary shall publish a notice of such action in the Federal Register.

"(3) PUBLICATION OF LIST.—

"(A) SUBMISSION TO SECRETARY.—Within 60 days of the date of the enactment of this subsection, each State (i) shall submit to the Secretary for publication in the Federal Register a complete list of (I) all operations of longer combination vehicles being conducted as of June 1, 1991, pursuant to State statutes and regulations; (II) all limitations and conditions, including, but not limited to, routing-specific and configuration-specific designations and all other restrictions, governing the operation of longer combination vehicles otherwise prohibited under this subsection; and (III) such statutes, regulations, limitations, and conditions; and (ii) shall submit to the Secretary copies of such statutes, regulations, limitations, and conditions.

"(B) INTERIM LIST.—Not later than 90 days after the date of the enactment of this subsection, the Secretary shall publish an interim list in the Federal Register, consisting of all information submitted pursuant to subparagraph (A). The Secretary shall review for accuracy all information submitted by the States pursuant to subparagraph (A) and shall solicit and consider public comment on the accuracy of all such information.

"(C) LIMITATION.—No statute or regulation shall be included on the list submitted by a State or published by the Secretary merely on the grounds that it authorized, or could have authorized, by permit or otherwise, the operation of longer combination vehicles, not in actual operation on a regular or periodic basis on or before June 1, 1991.

"(D) FINAL LIST.—Except as modified pursuant to paragraph (1)(C) of this subsection, the list shall be published as final in the Federal Register not later than 180 days after the date of the enactment of this subsection. In publishing the final list, the Secretary shall make any revisions necessary to correct inaccuracies identified under subparagraph (B). After publication of the final list, longer combination vehicles may not operate on the Interstate System except as provided in the list.

"(E) REVIEW AND CORRECTION PROCEDURE.—The Secretary, on his or her own motion or upon a request by any person (including a State), shall review the list issued by the Secretary pursuant to subparagraph (D). If the Secretary determines there is cause to believe that a mistake was made in the accuracy of the final list, the Secretary shall commence a proceeding to determine whether the list published pursuant to subparagraph (D) should be corrected. If the Secretary determines that there is a mistake in the accuracy of the list the Secretary shall correct the publication under subparagraph (D) to reflect the determination of the Secretary.

"(4) LONGER COMBINATION VEHICLE DEFINED.—For purposes of this section, the term 'longer combination vehicle' means any combination of a truck tractor and 2 or more trailers or semitrailers which operates on the Interstate System at a gross vehicle weight greater than 80,000 pounds.

"(5) REGULATIONS REGARDING MINOR ADJUSTMENTS.—Not later than 180 days after the date of the enactment of this subsection, the Secretary shall issue regulations establishing criteria for the States to follow in making minor adjustments under paragraph (1)(B).".

(c) STATE CERTIFICATION.—Section 141(b) of such title is amended by adding at the end the following new sentence: "Each State shall also certify that it is enforcing and complying with the provisions of section 127(d) of this title and section 411(j) of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2311(j)).".

(d) INTERSTATE ROUTE 68.—Section 127 of such title is amended by adding at the end the following new subsection:

"(e) OPERATION OF CERTAIN SPECIALIZED HAULING VEHICLES ON INTERSTATE ROUTE 68.—The single axle, tandem axle, and bridge formula limits set forth in subsection (a) shall not apply to the operation on Interstate Route 68 in Garrett and Allegany Counties, Maryland, of any specialized vehicle equipped with a steering axle and a tridem axle and used for hauling coal, logs, and pulpwood if such vehicle is of a type of vehicle as was operating in such counties on United States Route 40 or 48 for such purpose on August 1, 1991.".

(e) FIREFIGHTING VEHICLES.—

(1) TEMPORARY EXEMPTION.—The second sentence of section 127 of title 23, United States Code, relating to axle weight limitations and the bridge formula for vehicles using the National System of Interstate and Defense Highways, shall not apply, in the 2-year period beginning on the date of the enactment of this Act, to any existing vehicle which is used for the purpose of protecting persons and property from fires and other disasters that threaten public safety and which is in actual operation before such date of enactment and to any new vehicle to be used for such purpose while such vehicle is being delivered to a firefighting agency. The Secretary may extend such 2-year period for an additional year.

(2) STUDY.—The Secretary shall conduct a study—

(A) of State laws regulating the use on the National System of Interstate and Defense Highways of vehicles which are used for the purpose of protecting persons and property from fires and other disasters that threaten public safety and which are being delivered to or operated by a firefighting agency; and

(B) of the issuance of permits by States which exempt such vehicles from the requirements of the second sentence of section 127 of title 23, United States Code.

(3) PURPOSES.—The purposes of the study under this subsection are to determine whether or not such State laws and such section 127 need to be modified with regard to such vehicles and whether or not a permanent exemption should be made for such vehicles from the requirements of such laws and section 127 or whether or not the bridge formula set forth in such section should be modified as it applies to such vehicles.

(4) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Secretary shall submit to the Congress a report on the results of the study conducted under paragraph (2), together with recommendations.

(f) MONTANA-CANADA TRADE.—The Secretary shall not withhold funds from the State of Montana on the basis of actions taken by the State of Montana pursuant to a draft memorandum of understanding with the Province of Alberta, Canada, regarding truck transportation between Canada and Shelby, Montana; except that such actions do not include actions not permitted by the State of Montana on or before June 1, 1991.

(g) TRANSPORTERS OF WATER WELL DRILLING RIGS.—

(1) STUDY.—The Secretary shall conduct a study of State and Federal regulations pertaining to transporters of water well drilling rigs on public highways for the purpose of identifying requirements which place a burden on such transporters without enhancing safety or preservation of public highways.

(2) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under paragraph (1), together with any legislative and administrative recommendations of the Secretary.

SEC. 1024. METROPOLITAN PLANNING.

(a) IN GENERAL.—Section 134 of title 23, United States Code, is amended to read as follows:

"§134. Metropolitan planning

"(a) GENERAL REQUIREMENTS.—It is in the national interest to encourage and promote the development of transportation systems embracing various modes of transportation in a manner which will efficiently maximize mobility of people and goods within and through urbanized areas and minimize transportation-related fuel consumption and air pollution. To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the State, the metropolitan areas, and the Nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

"(b) DESIGNATION OF METROPOLITAN PLANNING ORGANIZATIONS.—

"(1) IN GENERAL.—To carry out the transportation planning process required by this section, a metropolitan planning organization shall be designated for each urbanized area of more than 50,000 population by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

"(2) MEMBERSHIP OF CERTAIN MPO'S.—In a metropolitan area designated as a transportation management area, the metropolitan planning organization designated for such area shall include local elected officials, officials of agencies which administer or operate major modes of transportation in the metropolitan area (including all transportation agencies included in the metropolitan planning organization on June 1, 1991) and appropriate State officials. This paragraph shall only apply to a metropolitan planning organization which is redesignated after the date of the enactment of this section.

"(3) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to interfere with the authority, under any State law in effect on the date of the enactment of this section, of a public agency with multimodal transportation responsibilities to—

"(A) develop plans and programs for adoption by a metropolitan planning organization; and

"(B) develop long-range capital plans, coordinate transit services and projects, and carry out other activities pursuant to State law.

"(4) CONTINUING DESIGNATION.—Designations of metropolitan planning organizations, whether made under this section or other provisions of law, shall remain in effect until redesignated under paragraph (5) or revoked by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population or as otherwise provided under State or local procedures.

"(5) REDESIGNATION.—

"(A) PROCEDURES.—A metropolitan planning organization may be redesignated by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) as appropriate to carry out this section.

"(B) CERTAIN REQUESTS TO REDESIGNATE.—A metropolitan planning organization shall be redesignated upon request of a unit or units of general purpose local government representing at least 25 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) in any urbanized area (i) whose population is more than 5,000,000 but less than 10,000,000, or (ii) which is an extreme nonattainment area for ozone or carbon monoxide as defined under the Clean Air Act. Such redesignation shall be accomplished using procedures established by subparagraph (A).

"(6) TREATMENT OF LARGE URBAN AREAS.—More than 1 metropolitan planning organization may be designated within an urbanized area as defined by the Bureau of the Census only if the Governor determines that the size and complexity of the urbanized area make designation of more than 1 metropolitan planning organization for such area appropriate.

"(c) METROPOLITAN AREA BOUNDARIES.—For the purposes of this section, the boundaries of a

metropolitan area shall be determined by agreement between the metropolitan planning organization and the Governor. Each metropolitan area shall cover at least the existing urbanized area and the contiguous area expected to become urbanized within the 20-year forecast period and may encompass the entire metropolitan statistical area or consolidated metropolitan statistical area, as defined by the Bureau of the Census. For areas designated as nonattainment areas for ozone or carbon monoxide under the Clean Air Act, the boundaries of the metropolitan area shall at least include the boundaries of the nonattainment area, except as otherwise provided by agreement between the metropolitan planning organization and the Governor.

"(d) COORDINATION IN MULTISTATE AREAS.—

"(1) IN GENERAL.—The Secretary shall establish such requirements as the Secretary considers appropriate to encourage Governors and metropolitan planning organizations with responsibility for a portion of a multi-State metropolitan area to provide coordinated transportation planning for the entire metropolitan area.

"(2) COMPACTS.—The consent of Congress is hereby given to any 2 or more States to enter into agreements or compacts, not in conflict with any law of the United States, for cooperative efforts and mutual assistance in support of activities authorized under this section as such activities pertain to interstate areas and localities within such States and to establish such agencies, joint or otherwise, as such States may deem desirable for making such agreements and compacts effective.

"(e) COORDINATION OF MPO'S.—If more than 1 metropolitan planning organization has authority within a metropolitan area or an area which is designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, each metropolitan planning organization shall consult with the other metropolitan planning organizations designated for such area and the State in the coordination of plans and programs required by this section.

"(f) FACTORS TO BE CONSIDERED.—In developing transportation plans and programs pursuant to this section, each metropolitan planning organization shall, at a minimum, consider the following:

"(1) Preservation of existing transportation facilities and, where practical, ways to meet transportation needs by using existing transportation facilities more efficiently.

"(2) The consistency of transportation planning with applicable Federal, State, and local energy conservation programs, goals, and objectives.

"(3) The need to relieve congestion and prevent congestion from occurring where it does not yet occur.

"(4) The likely effect of transportation policy decisions on land use and development and the consistency of transportation plans and programs with the provisions of all applicable short- and long-term land use and development plans.

"(5) The programming of expenditure on transportation enhancement activities as required in section 133.

"(6) The effects of all transportation projects to be undertaken within the metropolitan area, without regard to whether such projects are publicly funded.

"(7) International border crossings and access to ports, airports, intermodal transportation facilities, major freight distribution routes, national parks, recreation areas, monuments and historic sites, and military installations.

"(8) The need for connectivity of roads within the metropolitan area with roads outside the metropolitan area.

"(9) The transportation needs identified through use of the management systems required by section 303 of this title.

"(10) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors and identification of those corridors for which action is most needed to prevent destruction or loss.

"(11) Methods to enhance the efficient movement of freight.

"(12) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavement.

"(13) The overall social, economic, energy, and environmental effects of transportation decisions.

"(14) Methods to expand and enhance transit services and to increase the use of such services.

"(15) Capital investments that would result in increased security in transit systems.

"(g) DEVELOPMENT OF LONG RANGE PLAN.—

"(1) IN GENERAL.—Each metropolitan planning organization shall prepare, and update periodically, according to a schedule that the Secretary determines to be appropriate, a long range plan for its metropolitan area in accordance with the requirements of this subsection.

"(2) LONG RANGE PLAN.—A long range plan under this section shall be in a form that the Secretary determines to be appropriate and shall, at a minimum:

"(A) Identify transportation facilities (including but not necessarily limited to major roadways, transit, and multimodal and intermodal facilities) that should function as an integrated metropolitan transportation system, giving emphasis to those facilities that serve important national and regional transportation functions. In formulating the long range plan, the metropolitan planning organization shall consider factors described in subsection (f) as such factors relate to a 20-year forecast period.

"(B) Include a financial plan that demonstrates how the long-range plan can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including such techniques as value capture, tolls and congestion pricing.

"(C) Assess capital investment and other measures necessary to—

"(i) ensure the preservation of the existing metropolitan transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit facilities; and

"(ii) make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods.

"(D) Indicate as appropriate proposed transportation enhancement activities.

"(3) COORDINATION WITH CLEAN AIR ACT AGENCIES.—In metropolitan areas which are in nonattainment for ozone or carbon monoxide under the Clean Air Act, the metropolitan planning organization shall coordinate the development of a long range plan with the process for development of the transportation control measures of the State implementation plan required by the Clean Air Act.

"(4) PARTICIPATION BY INTERESTED PARTIES.—Before approving a long range plan, each metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the long range plan, in a manner that the Secretary deems appropriate.

"(5) PUBLICATION OF LONG RANGE PLAN.—Each long range plan prepared by a metropolitan planning organization shall be—

"(i) published or otherwise made readily available for public review; and

"(ii) submitted for information purposes to the Governor at such times and in such manner as the Secretary shall establish.

"(h) TRANSPORTATION IMPROVEMENT PROGRAM.—

"(1) DEVELOPMENT.—The metropolitan planning organization designated for a metropolitan area, in cooperation with the State and affected transit operators, shall develop a transportation improvement program for the area for which such organization is designated. In developing the program, the metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program. The program shall be updated at least once every 2 years and shall be approved by the metropolitan planning organization and the Governor.

"(2) PRIORITY OF PROJECTS.—The transportation improvement program shall include the following:

"(A) A priority list of projects and project segments to be carried out within each 3-year period after the initial adoption of the transportation improvement program.

"(B) A financial plan that demonstrates how the transportation improvement program can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including value capture, tolls, and congestion pricing.

"(3) SELECTION OF PROJECTS.—Except as otherwise provided in subsection (i)(4), project selection in metropolitan areas for projects involving Federal participation shall be carried out by the State in cooperation with the metropolitan planning organization and shall be in conformance with the transportation improvement program for the area.

"(4) MAJOR CAPITAL INVESTMENTS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall initiate a rulemaking proceeding to conform review requirements for transit projects under the National Environmental Policy Act of 1969 to comparable requirements under such Act applicable to highway projects. Nothing in this section shall be construed to affect the applicability of such Act to transit or highway projects.

"(5) INCLUDED PROJECTS.—A transportation improvement program for a metropolitan area developed under this subsection shall include projects within the area which are proposed for funding under this title and the Federal Transit Act which are consistent with the long range plan developed under subsection (g) for the area. The program shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.

"(6) NOTICE AND COMMENT.—Before approving a transportation improvement program, a metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with reasonable notice of and an opportunity to comment on the proposed program.

"(i) TRANSPORTATION MANAGEMENT AREAS.—

"(1) DESIGNATION.—The Secretary shall designate as transportation management areas all urbanized areas over 200,000 population. The Secretary shall designate any additional area as a transportation management area upon the request of the Governor and the metropolitan planning organization designated for such area or the affected local officials. Such additional areas shall include upon such a request the Lake Tahoe Basin as defined by Public Law 96-551.

"(2) TRANSPORTATION PLANS AND PROGRAMS.—Within a transportation management area, transportation plans and programs shall be based on a continuing and comprehensive transportation planning process carried out by the metropolitan planning organization in cooperation with the State and transit operators.

"(3) CONGESTION MANAGEMENT SYSTEM.—Within a transportation management area, the transportation planning process under this section shall include a congestion management system that provides for effective management of new and existing transportation facilities eligible for funding under this title and the Federal Transit Act through the use of travel demand reduction and operational management strategies. The Secretary shall establish an appropriate phase-in schedule for compliance with the requirements of this section.

"(4) SELECTION OF PROJECTS.—All projects carried out within the boundaries of a transportation management area with Federal participation pursuant to this title (excluding projects undertaken on the National Highway System and pursuant to the bridge and Interstate maintenance programs) or pursuant to the Federal Transit Act shall be selected by the metropolitan planning organization designated for such area in consultation with the State and in conformance with the transportation improvement program for such area and priorities established therein. Projects undertaken within the boundaries of a transportation management area on the National Highway System or pursuant to the Bridge and Interstate Maintenance programs shall be selected by the State in cooperation with the metropolitan planning organization designated for such area and shall be in conformance with the transportation improvement program for such area.

"(5) CERTIFICATION.—The Secretary shall assure that each metropolitan planning organization in each transportation management area is carrying out its responsibilities under applicable provisions of Federal law, and shall so certify at least once every 3 years. The Secretary may make such certification only if (1) a metropolitan planning organization is complying with the requirements of this section and other applicable requirements of Federal law, and (2) there is a transportation improvement program for the area that has been approved by the metropolitan planning organization and the Governor. If after September 30, 1993, a metropolitan planning organization is not certified by the Secretary, the Secretary may withhold, in whole or in part, the apportionment under section 104(b)(3) attributed to the relevant metropolitan area pursuant to section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act. If a metropolitan planning organization remains uncertified for more than 2 consecutive years after September 30, 1994, 20 percent of the apportionment attributed to that metropolitan area under section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act shall be withheld. The withheld apportionments shall be restored to the metropolitan area at such time as the metropolitan planning organization is certified by the Secretary. The Secretary shall not withhold certification under this section based upon the policies and criteria established by a metropolitan planning organization or transit grant recipient for determining the feasibility of private enterprise participation in accordance with section 8(o) of the Federal Transit Act.

"(j) ABBREVIATED PLANS AND PROGRAMS FOR CERTAIN AREAS.—For metropolitan areas not designated as transportation management areas under this section, the Secretary may provide for the development of abbreviated metropolitan transportation plans and programs that the Secretary determines to be appropriate to achieve the purposes of this section, taking into account the complexity of transportation problems, including transportation related air quality problems, in such areas. In no event shall the Secretary provide abbreviated plans or programs for metropolitan areas which are in nonattainment for ozone or carbon monoxide under the Clean Air Act.

"(k) TRANSFER OF FUNDS.—Funds made available for a highway project under the Federal Transit Act shall be transferred to and administered by the Secretary in accordance with the requirements of this title. Funds made available for a transit project under the Federal-Aid Highway Act of 1991 shall be transferred to and administered by the Secretary in accordance with the requirements of the Federal Transit Act.

"(l) ADDITIONAL REQUIREMENTS FOR CERTAIN NONATTAINMENT AREAS.—Notwithstanding any other provisions of this title or the Federal Transit Act, for transportation management areas classified as nonattainment for ozone or carbon monoxide pursuant to the Clean Air Act, Federal funds may not be programmed in such area for any highway project that will result in a significant increase in carrying capacity for single occupant vehicles unless the project is part of an approved congestion management system.

"(m) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to confer on a metropolitan planning organization the authority to impose legal requirements on any transportation facility, provider, or project not eligible under this title or the Federal Transit Act.

"(n) REPROGRAMMING OF SET ASIDE FUNDS.—Any funds set aside pursuant to section 104(f) of this title that are not used for the purpose of carrying out this section may be made available by the metropolitan planning organization to the State for the purpose of funding activities under section 135.".

(b) AMENDMENTS TO SECTION 104.—Section 104(f) of title 23, United States Code, is amended—

(1) in paragraph (1) by striking "one-half per centum" and inserting "1 percent";

(2) in paragraph (1) by striking "the Federal-aid systems" and inserting "programs authorized under this title";

(3) in paragraph (1) by striking "except that" and all that follows before the period and inserting "except that the amount from which such set aside is made shall not include funds authorized to be appropriated for the Interstate construction and Interstate substitute programs";

(4) in paragraph (3) by striking "section 120" and inserting "section 120(j)";

(5) in paragraph (4) by striking "and metropolitan area transportation needs" and inserting "attainment of air quality standards, metropolitan area transportation needs, and other factors necessary to provide for an appropriate distribution of funds to carry out the requirements of section 134 and other applicable requirements of Federal law"; and

(6) by adding at the end the following new paragraph:

"(5) DETERMINATION OF POPULATION FIGURES.—For the purposes of determining population figures under this subsection, the Secretary shall use the most recent estimate published by the Secretary of Commerce.".

(c) CONFORMING AMENDMENTS.—

(1) The analysis of chapter 1 of title 23, United States Code, is amended by striking

"Sec. 134. Transportation planning in certain urban areas."

and inserting

"Sec. 134. Metropolitan planning.".

(2) Section 104(f)(3) of title 23, United States Code, is amended by striking "designated by the State as being".

SEC. 1025. STATEWIDE PLANNING.

(a) IN GENERAL.—Section 135 of title 23, United States Code, is amended to read as follows:

"§135. Statewide planning

"(a) GENERAL REQUIREMENTS.—It is in the national interest to encourage and promote the development of transportation systems embracing various modes of transportation in a manner that will serve all areas of the State efficiently and effectively. Subject to section 134 of this title, the State shall develop transportation plans and programs for all areas of the State. Such plans and programs shall provide for development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal State transportation system. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

"(b) COORDINATION WITH METROPOLITAN PLANNING; STATE IMPLEMENTATION PLAN.—In carrying out planning under this section, a State shall coordinate such planning with the transportation planning activities carried out under section 134 of this title for metropolitan areas of the State and shall carry out its responsibilities for the development of the transportation portion of the State implementation plan to the extent required by the Clean Air Act.

"(c) STATE PLANNING PROCESS.—Each State shall undertake a continuous transportation planning process which shall, at a minimum, consider the following:

"(1) The results of the management systems required pursuant to subsection (b).

"(2) Any Federal, State, or local energy use goals, objectives, programs, or requirements.

"(3) Strategies for incorporating bicycle transportation facilities and pedestrian walkways in projects where appropriate throughout the State.

"(4) International border crossings and access to ports, airports, intermodal transportation facilities, major freight distribution routes, national parks, recreation and scenic areas, monuments and historic sites, and military installations.

"(5) The transportation needs of nonmetropolitan areas through a process that includes consultation with local elected officials with jurisdiction over transportation.

"(6) Any metropolitan area plan developed pursuant to section 134.

"(7) Connectivity between metropolitan areas within the State and with metropolitan areas in other States.

"(8) Recreational travel and tourism.

"(9) Any State plan developed pursuant to the Federal Water Pollution Control Act.

"(10) Transportation system management and investment strategies designed to make the most efficient use of existing transportation facilities.

"(11) The overall social, economic, energy, and environmental effects of transportation decisions.

"(12) Methods to reduce traffic congestion and to prevent traffic congestion from developing in

areas where it does not yet occur, including methods which reduce motor vehicle travel, particularly single-occupant motor vehicle travel.

"(13) Methods to expand and enhance transit services and to increase the use of such services.

"(14) The effect of transportation decisions on land use and land development, including the need for consistency between transportation decisionmaking and the provisions of all applicable short-range and long-range land use and development plans.

"(15) The transportation needs identified through use of the management systems required by section 303 of this title.

"(16) Where appropriate, the use of innovative mechanisms for financing projects, including value capture pricing, tolls, and congestion pricing.

"(17) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors, and identify those corridors for which action is most needed to prevent destruction or loss.

"(18) Long-range needs of the State transportation system.

"(19) Methods to enhance the efficient movement of commercial motor vehicles.

"(20) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavement.

"(d) ADDITIONAL REQUIREMENTS.—Each State in carrying out planning under this section shall, at a minimum, consider the following:

"(1) The coordination of transportation plans and programs developed for metropolitan areas of the State under section 134 with the State transportation plans and programs developed under this section and the reconciliation of such plans and programs as necessary to ensure connectivity within transportation systems.

"(2) Investment strategies to improve adjoining State and local roads that support rural economic growth and tourism development, Federal agency renewable resources management, and multipurpose land management practices, including recreation development.

"(3) The concerns of Indian tribal governments having jurisdiction over lands within the boundaries of the State.

"(e) LONG-RANGE PLAN.—The State shall develop a long-range transportation plan for all areas of the State. With respect to metropolitan areas of the State, the plan shall be developed in cooperation with metropolitan planning organizations designated for metropolitan areas in the State under section 134. With respect to areas of the State under the jurisdiction of an Indian tribal government, the plan shall be developed in cooperation with such government and the Secretary of the Interior. In developing the plan, the State shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed plan. In addition, the State shall develop a long-range plan for bicycle transportation and pedestrian walkways for appropriate areas of the State which shall be incorporated into the long-range transportation plan.

"(f) TRANSPORTATION IMPROVEMENT PROGRAM.—

"(1) DEVELOPMENT.—The State shall develop a transportation improvement program for all areas of the State. With respect to metropolitan areas of the State, the program shall be developed in cooperation with metropolitan planning organizations designated for metropolitan areas in the State under section 134. In developing the program, the Governor shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program.

"(2) INCLUDED PROJECTS.—A transportation improvement program for a State developed under this subsection shall include projects within the boundaries of the State which are proposed for funding under this title and the Federal Transit Act, which are consistent with the long-range plan developed under this section for the State, which are consistent with the metropolitan transportation improvement program, and which in areas designated as nonattainment for ozone or carbon monoxide under the Clean Air Act conform with the applicable State implementation plan developed pursuant to the Clean Air Act. The program shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for such project within the time period contemplated for completion of the project. The program shall also reflect the priorities for programming and expenditures of funds, including transportation enhancements, required by this title.

"(3) PROJECT SELECTION FOR AREAS LESS THAN 50,000 POPULATION.—Projects undertaken in areas of less than 50,000 population (excluding projects undertaken on the National Highway System and pursuant to the bridge and Interstate maintenance programs) shall be selected by the State in cooperation with the affected local officials. Projects undertaken in such areas on the National Highway System or pursuant to the bridge and Interstate maintenance programs shall be selected by the State in consultation with the affected local officials.

"(4) BIENNIAL REVIEW AND APPROVAL.—A transportation improvement program developed under this subsection shall be reviewed and approved no less frequently than biennially by the Secretary.

"(g) FUNDING.—Funds set aside pursuant to section 307(c)(1) of title 23, United States Code, shall be available to carry out the requirements of this section.

"(h) TREATMENT OF CERTAIN STATE LAWS AS CONGESTION MANAGEMENT SYSTEMS.—For purposes of this section, section 134, and section 8 of the Federal Transit Act, State laws, rules or regulations pertaining to congestion management systems or programs may constitute the congestion management system under this Act if the Secretary finds that the State laws, rules or regulations are consistent with, and fulfill the intent of, the purposes of this section, section 134 or section 8 of such Act, as appropriate.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by striking the item relating to section 135 and inserting the following:

"135. Statewide planning.".

SEC. 1026. NONDISCRIMINATION.

(a) FUNDING OF HIGHWAY CONSTRUCTION TRAINING.—Subsection (b) of section 140 of title 23, United States Code, is amended by adding at the end the following new sentence: "Notwithstanding any other provision of law, not to exceed ¼ of 1 percent of funds apportioned to a State for the surface transportation program under section 104(b) and the bridge program under section 144 may be available to carry out this subsection upon request of the State highway department to the Secretary.".

(b) ELIGIBILITY FOR TRAINING PROGRAMS.—Subsections (b) and (c) of section 140 of such title are each amended by inserting "Indian tribal government," after "institution,".

(c) INDIAN EMPLOYMENT PREFERENCE.—Section 140(d) of such title is amended by inserting after the first sentence the following new sentence: "States may implement a preference for employment of Indians on projects carried out under this title near Indian reservations.".

SEC. 1027. PUBLIC TRANSPORTATION.

(a) IMPROVED ACCESS BETWEEN INTERCITY AND RURAL BUS SERVICE.—Section 142(a)(2) of title 23, United States Code, is amended—

(1) by striking ", beginning with the fiscal year ending June 30, 1975,";

(2) by striking "Federal-aid urban system," the first place it appears and inserting "the surface transportation program"; and

(3) by striking "104(b)(6)" the first place it appears and all that follows through the period at the end and inserting "104(b)(3) for carrying out any capital transit project eligible for assistance under the Federal Transit Act, capital improvement to provide access and coordination between intercity and rural bus service, and construction of facilities to provide connections between highway transportation and other modes of transportation.".

(b) ACCOMMODATION OF OTHER MODES.—Section 142(c) of such title is amended to read as follows:

"(c) ACCOMMODATION OF OTHER MODES OF TRANSPORTATION.—The Secretary may approve as a project on any Federal-aid system for payment from sums apportioned under section 104(b) (other than section 104(b)(5)(A)) modifications to existing highway facilities on such system necessary to accommodate other modes of transportation if such modifications will not adversely affect automotive safety.".

(c) METROPOLITAN PLANNING.—Section 142(d) of such title is amended to read as follows:

"(d) METROPOLITAN PLANNING.—Any project carried out under this section in an urbanized area shall be subject to the metropolitan planning requirements of section 134.".

(d) AVAILABILITY OF RIGHTS-OF-WAY.—Section 142(g) of such title is amended to read as follows:

"(g) AVAILABILITY OF RIGHTS-OF-WAY.—In any case where sufficient land or air space exits within the publicly acquired rights-of-way of any highway, constructed in whole or in part with Federal-aid highway funds, to accommodate needed passenger, commuter, or high speed rail, magnetic levitation systems, and highway and nonhighway public mass transit facilities, the Secretary shall authorize a State to make such lands, air space, and rights-of-way available with or without charge to a publicly or privately owned authority or company or any other person for such purposes if such accommodation will not adversely affect automotive safety.".

(e) CONFORMING AMENDMENTS TO SECTION 142.—Section 142 of such title is amended—

(1) in subsection (e)(2) by striking "Federal-aid urban system" and inserting "surface transportation program";

(2) by striking subsections (f) and (k);

(3) by redesignating subsections (g), (h), (i), and (j) as subsections (f), (g), (h), and (i), respectively;

(4) in subsection (g), as so redesignated, by striking "or subsection (c) of this section"; and

(5) in each of subsections (h) and (i), as so redesignated, by striking "and subsection (c)".

(f) CONFORMING AMENDMENT TO SECTION 156.—Section 156 of such title is amended by striking "States shall" and inserting "Subject to section 142(f), States shall".

SEC. 1028. BRIDGE PROGRAM.

(a) INVENTORY OF INDIAN RESERVATION AND PARK BRIDGES.—Section 144(c) of title 23, United States Code, is amended by adding at the end the following new paragraph:

"(3) INVENTORY OF INDIAN RESERVATION AND PARK BRIDGES.—As part of the activities carried out under paragraph (1), the Secretary, in consultation with the Secretary of the Interior, shall (A) inventory all those highway bridges on

Indian reservation roads and park roads which are bridges over waterways, other topographical barriers, other highways, and railroads, (B) classify them according to serviceability, safety, and essentiality for public use, (C) based on the classification, assign each a priority for replacement or rehabilitation, and (D) determine the cost of replacing each such bridge with a comparable facility or of rehabilitating such bridge.".

(b) BRIDGE STRUCTURE PAINTING AND ACETATE APPLICATION.—Section 144(d) of such title is amended—

(1) by inserting after the first sentence the following new sentence: "Whenever any State makes application to the Secretary for assistance in painting and seismic retrofit, or applying calcium magnesium acetate to, the structure of a highway bridge, the Secretary may approve Federal participation in the painting or seismic retrofit of, or application of such acetate to, such structure."; and

(2) by inserting after "projects" the first place it appears in the last sentence the following: "(other than projects for bridge structure painting or seismic retrofit or application of such acetate)".

(c) FEDERAL SHARE.—Section 144(f) of such title is amended by striking "highway bridge replaced or rehabilitated" and inserting "project".

(d) DISCRETIONARY BRIDGE PROGRAM.—Section 144(g)(1) of such title is amended to read as follows:

"(1) DISCRETIONARY BRIDGE PROGRAM.—Of the amounts authorized for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 by section 103 of the Intermodal Surface Transportation Efficiency Act of 1991, all but $57,000,000 in the case of fiscal year 1992, $68,000,000 in the case of fiscal years 1993 and 1994, and $69,000,000 in the case of fiscal years 1995, 1996, and 1997 shall be apportioned as provided in subsection (e) of this section. $49,000,000 in the case of fiscal year 1992, $59,500,000 in the case of fiscal years 1993 and 1994, and $60,500,000 in the case of fiscal years 1995, 1996, and 1997 of the amount authorized for each of such fiscal years shall be available for obligation on the date of each such apportionment in the same manner and to the same extent as the sums apportioned on such date, except that the obligation of $49,000,000 in the case of fiscal year 1992, $59,500,000 in the case of fiscal years 1993 and 1994, and $60,500,000 in the case of fiscal years 1995, 1996, and 1997 shall be at the discretion of the Secretary, and $8,500,000 per fiscal year ($8,000,000 in the case of fiscal year 1992) of the amount authorized for each of such fiscal years shall be available in accordance with section 1039 of the Intermodal Surface Transportation Efficiency Act of 1991, relating to highway timber bridges.".

(e) OFF-SYSTEM BRIDGES.—

(1) ALLOCATION OF FUNDS.—Section 144(g)(3) of such title is amended—

(A) by striking "and 1991" and inserting "1991, 1992, 1993, 1994, 1995, 1996, and 1997"; and

(B) by striking "or rehabilitate" and inserting ", rehabilitate, paint or seismic retrofit, or apply calcium magnesium acetate to".

(2) APPLICABILITY OF STATE STANDARDS FOR PROJECTS.—Section 144 of such title is amended by redesignating subsection (p) as subsection (q) and by inserting after subsection (o) the following new subsection:

"(p) APPLICABILITY OF STATE STANDARDS FOR PROJECTS.—A project on a Federal-aid highway not under this section shall be designed, constructed, operated, and maintained in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.".

(f) SET-ASIDE FOR INDIAN RESERVATION BRIDGES.—Section 144(g) of this title is amended by adding at the end the following new paragraph:

"(4) INDIAN RESERVATION BRIDGES.—Not less than 1 percent of the amount apportioned to each State which has an Indian reservation within its boundaries for each fiscal year shall be expended for projects to replace, rehabilitate, paint, or apply calcium magnesium acetate to highway bridges located on Indian reservation roads. Upon determining a State bridge apportionment and before transferring funds to the States, the Secretary shall transfer the Indian reservation bridge allocation under this paragraph to the Secretary of the Interior for expenditure pursuant to this paragraph. The Secretary, after consultation with State and Indian tribal government officials and with the concurrence of the Secretary of the Interior, may, with respect to such State, reduce the requirement for expenditure for bridges under this paragraph when the Secretary determines that there are inadequate needs to justify such expenditure. The non-Federal share payable on account of such a project may be provided from funds made available for Indian reservation roads under chapter 2 of this title.".

(g) TRANSFERABILITY OF BRIDGE APPORTIONMENTS.—Section 104(g) of such title is amended by inserting before the last sentence the following new sentence: "A State may transfer not to exceed 40 percent of the State's apportionment under section 144 in any fiscal year to the apportionment of such State under subsection (b)(1) or subsection (b)(3) of this section. Any transfer to subsection (b)(3) shall not be subject to section 133(d)."

SEC. 1029. NATIONAL MAXIMUM SPEED LIMIT COMPLIANCE PROGRAM.

(a) PERMANENT EXTENSION OF 65 MPH SPEED LIMIT DEMONSTRATION PROGRAM.—Section 154(a) of title 23, United States Code, is amended by striking "Clause (3)" and inserting "Clause (4)" and by striking "or (3)" and inserting the following: "(3) a maximum speed limit in excess of 65 miles per hour on any highway within its jurisdiction located outside an urbanized area of 50,000 population or more (A) which is constructed to interstate standards in accordance with section 109(b) of this title and connected to a highway on the Interstate System, (B) which is a divided 4-lane fully controlled access highway designed or constructed to connect to a highway on the Interstate System posted at 65 miles per hour and constructed to design and construction standards as determined by the Secretary which provide a facility adequate for a speed limit of 65 miles per hour, or (C) which is constructed to the geometric and construction standards adequate for current and probable future traffic demands and for the needs of the locality and is designated by the Secretary as part of the Interstate System in accordance with section 139(c) of this title, or (4)".

(b) COLLECTION OF DATA.—Section 154(e) of such title is amended—

(1) by striking "fifty-five miles per hour on public highways with speed limits posted at fifty-five miles per hour" and inserting "the speed limit on maximum speed limit highways"; and

(2) by adding at the end the following: "Such data shall include, but not be limited to, data on citations, travel speeds, and the posted speed limit and the design characteristics of roads from which such travel speed data are gathered. The Secretary shall issue regulations which ensure (1) that the monitoring programs conducted by the States to collect data for purposes of this subsection are uniform, (2) that devices and equipment under such programs are placed at locations on maximum speed limit highways on a scientifically random basis which takes into account the relative risk, as determined by the Secretary, of motor vehicle accidents occurring considering the classes of such highways and the speeds at which vehicles are traveling on such classes of highways, and (3) that the data submitted under this subsection will be in such form as the Secretary determines is necessary to carry out this section.".

(c) ENFORCEMENT.—

(1) PROPOSED RULE.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall publish in the Federal Register a proposed rule to establish speed limit enforcement requirements which, at a minimum, shall—

(A) provide for the transfer of apportionments under section 104(b) of title 23, United States Code (other than paragraph (5)), if a State fails to enforce speed limits in accordance with this section and such rule; and

(B) include a formula for determining compliance with the requirements of this section and such rule which—

(i) assigns a greater weight for violations of such speed limits in proportion to the amount by which the speed of the motor vehicle exceeds the speed limit; and

(ii) differentiates between the type of road on which the violations occur.

(2) FACTORS TO CONSIDER.—In developing the compliance formula in accordance with paragraph (1), the Secretary shall consider factors relating to the enforcement efforts made by the States and data concerning fatalities and serious injuries occurring on roads to which subsection (a) applies and any other factors relating to speed limit enforcement and speed-related highway safety trends which the Secretary determines appropriate.

(3) FINAL RULE.—Not later than 60 days after the date of publication of the proposed rule under paragraph (1), the Secretary shall publish in the Federal Register a final rule which meets the requirements of paragraph (1) and which shall take effect no later than 12 months after the date of its publication in the Federal Register.

(d) ADMINISTRATION.—The Secretary shall carry out sections 154 and 141(a) of title 23, United States Code, through the National Highway Traffic Safety Administration and the Federal Highway Administration.

(e) ANNUAL REPORT.—Section 154 of title 23, United States Code, is amended by adding at the end the following new subsection:

"(i) ANNUAL REPORT.—The Secretary shall transmit to Congress an annual report on travel speeds of motor vehicles on roads subject to subsection (a), State enforcement efforts with respect to speeding violations on such roads, and speed-related highway safety statistics.".

(f) ENFORCEMENT MORATORIUM.—No State shall be subject under section 141 or 154 of title 23, United States Code, to withholding of apportionments for failure to comply in fiscal years 1990 and 1991 with section 154 of such title, as in effect on the day before the date of the enactment of this Act, or section 141(a) of such title.

(g) REPEAL OF OBSOLETE ENFORCEMENT PROVISIONS.—On the 730th day following the date of the enactment of this Act, subsections (f), (g), and (h) of section 154 of title 23, United States Code, are repealed.

SEC. 1030. ROAD SEALING ON INDIAN RESERVATION ROADS.

Section 204(c) of title 23, United States Code, is amended by adding at the end the following new sentences: "Notwithstanding any other provision of this title, Indian reservation roads under the jurisdiction of the Bureau of Indian Affairs of the Department of the Interior shall be eligible to expend not more than 15 percent funds apportioned for Indian reservation roads from the Highway Trust Fund for the purpose of road sealing projects. The Bureau of Indian

Affairs shall continue to retain responsibility, including annual funding request responsibility, for road maintenance programs on Indian reservations.".

SEC. 1031. USE OF SAFETY BELTS AND MOTORCYCLE HELMETS.

(a) PROGRAM.—

(1) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by inserting after section 152 the following new section:

"§153. Use of safety belts and motorcycle helmets

"(a) AUTHORITY TO MAKE GRANTS.—The Secretary may make grants to a State in a fiscal year in accordance with this section if the State has in effect in such fiscal year—

"(1) a law which makes unlawful throughout the State the operation of a motorcycle if any individual on the motorcycle is not wearing a motorcycle helmet; and

"(2) a law which makes unlawful throughout the State the operation of a passenger vehicle whenever an individual in a front seat of the vehicle (other than a child who is secured in a child restraint system) does not have a safety belt properly fastened about the individual's body.

"(b) USE OF GRANTS.—A grant made to a State under this section shall be used to adopt and implement a traffic safety program to carry out the following purposes:

"(1) EDUCATION.—To educate the public about motorcycle and passenger vehicle safety and motorcycle helmet, safety belt, and child restraint system use and to involve public health education agencies and other related agencies in these efforts.

"(2) TRAINING.—To train law enforcement officers in the enforcement of State laws described in subsection (a).

"(3) MONITORING.—To monitor the rate of compliance with State laws described in subsection (a).

"(4) ENFORCEMENT.—To enforce State laws described in subsection (a).

"(c) MAINTENANCE OF EFFORT.—A grant may not be made to a State under this section in any fiscal year unless the State enters into such agreements with the Secretary as the Secretary may require to ensure that the State will maintain its aggregate expenditures from all other sources for any traffic safety program described in subsection (b) at or above the average level of such expenditures in the State's 2 fiscal years preceding the date of the enactment of this section.

"(d) FEDERAL SHARE.—A State may not receive a grant under this section in more than 3 fiscal years. The Federal share payable for a grant under this section shall not exceed—

"(1) in the first fiscal year the State receives a grant, 75 percent of the cost of implementing in such fiscal year a traffic safety program described in subsection (b);

"(2) in the second fiscal year the State receives a grant, 50 percent of the cost of implementing in such fiscal year such traffic safety program; and

"(3) in the third fiscal year the State receives a grant, 25 percent of the cost of implementing in such fiscal year such traffic safety program.

"(e) MAXIMUM AGGREGATE AMOUNT OF GRANTS.—The aggregate amount of grants made to a State under this section shall not exceed 90 percent of the amount apportioned to such State for fiscal year 1990 under section 402.

"(f) ELIGIBILITY FOR GRANTS.—

"(1) GENERAL RULE.—A State is eligible in a fiscal year for a grant under this section only if the State enters into such agreements with the Secretary as the Secretary may require to ensure that the State implements in such fiscal year a traffic safety program described in subsection (b).

"(2) SECOND-YEAR GRANTS.—A State is eligible for a grant under this section in a fiscal year succeeding the first fiscal year in which a State receives a grant under this section only if the State in the preceding fiscal year—

"(A) had in effect at all times a State law described in subsection (a)(1) and achieved a rate of compliance with such law of not less than 75 percent; and

"(B) had in effect at all times a State law described in subsection (a)(2) and achieved a rate of compliance with such law of not less than 50 percent.

"(3) THIRD-YEAR GRANTS.—A State is eligible for a grant under this section in a fiscal year succeeding the second fiscal year in which a State receives a grant under this section only if the State in the preceding fiscal year—

"(A) had in effect at all times a State law described in subsection (a)(1) and achieved a rate of compliance with such law of not less than 85 percent; and

"(B) had in effect at all times a State law described in subsection (a)(2) and achieved a rate of compliance with such law of not less than 70 percent.

"(g) MEASUREMENTS OF RATES OF COMPLIANCE.—For the purposes of subsections (f)(2) and (f)(3), a State shall measure compliance with State laws described in subsection (a) using methods which conform to guidelines issued by the Secretary ensuring that such measurements are accurate and representative.

"(h) PENALTY.—

"(1) FISCAL YEAR 1994.—If, at any time in fiscal year 1994, a State does not have in effect a law described in subsection (a)(1) and a law described in subsection (a)(2), the Secretary shall transfer 1½ percent of the funds apportioned to the State for fiscal year 1995 under each of subsections (b)(1), (b)(2), and (b)(3) of section 104 of this title to the apportionment of the State under section 402 of this title.

"(2) THEREAFTER.—If, at any time in a fiscal year beginning after September 30, 1994, a State does not have in effect a law described in subsection (a)(1) and a law described in subsection (a)(2), the Secretary shall transfer 3 percent of the funds apportioned to the State for the succeeding fiscal year under each of subsections (b)(1), (b)(2), and (b)(3) of section 104 of this title to the apportionment of the State under section 402 of this title.

"(3) FEDERAL SHARE.—The Federal share of the cost of any project carried out under section 402 with funds transferred to the apportionment of section 402 shall be 100 percent.

"(4) TRANSFER OF OBLIGATION AUTHORITY.—If the Secretary transfers under this subsection any funds to the apportionment of a State under section 402 for a fiscal year, the Secretary shall allocate an amount of obligation authority distributed for such fiscal year to the State for Federal-aid highways and highway safety construction programs for carrying out only projects under section 402 which is determined by multiplying—

"(A) the amount of funds transferred to the apportionment of section 402 of the State under section 402 for such fiscal year; by

"(B) the ratio of the amount of obligation authority distributed for such fiscal year to the State for Federal-aid highways and highway safety construction programs to the total of the sums apportioned to the State for Federal-aid highways and highway safety construction (excluding sums not subject to any obligation limitation) for such fiscal year.

"(5) LIMITATION ON APPLICABILITY OF HIGHWAY SAFETY OBLIGATIONS.—Notwithstanding any other provision of law, no limitation on the total of obligations for highway safety programs carried out by the Federal Highway Administration under section 402 shall apply to funds transferred under this subsection to the apportionment of section 402.

"(i) DEFINITIONS.—For the purposes of this section, the following definitions apply:

"(1) MOTORCYCLE.—The term 'motorcycle' means a motor vehicle which is designed to travel on not more than 3 wheels in contact with the surface.

"(2) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning such term has under section 154 of this title.

"(3) PASSENGER VEHICLE.—The term 'passenger vehicle' means a motor vehicle which is designed for transporting 10 individuals or less, including the driver, except that such term does not include a vehicle which is constructed on a truck chassis, a motorcycle, a trailer, or any motor vehicle which is not required on the date of the enactment of this section under a Federal motor vehicle safety standard to be equipped with a belt system.

"(4) SAFETY BELT.—The term 'safety belt' means—

"(A) with respect to open-body passenger vehicles, including convertibles, an occupant restraint system consisting of a lap belt or a lap belt and a detachable shoulder belt; and

"(B) with respect to other passenger vehicles, an occupant restraint system consisting of integrated lap shoulder belts.

"(j) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) to carry out this section $17,000,000 for fiscal year 1992. From sums made available to carry out section 402 of this title, the Secretary shall make available $17,000,000 for fiscal year 1992 and $24,000,000 for each of fiscal years 1993 and 1994 to carry out this section.

"(k) APPLICABILITY OF CHAPTER 1 PROVISIONS.—All provisions of this chapter that are applicable to National Highway System funds, other than provisions relating to the apportionment formula and provisions limiting the expenditures of such funds to Federal-aid systems, shall apply to funds authorized to be appropriated to carry out this section, except as determined by the Secretary to be inconsistent with this section and except that sums authorized by this section shall remain available until expended.".

(2) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by inserting after the item relating to section 152 the following new item:

"153. Use of safety belts and motorcycle helmets.".

(b) STUDY.—

(1) IN GENERAL.—The Secretary shall conduct a study or studies to determine the benefits of safety belt use and motorcycle helmet use for individuals involved in motor vehicle crashes and motorcycle crashes, collecting and analyzing data from regional trauma systems regarding differences in the following: the severity of injuries; acute, rehabilitative and long-term medical costs, including the sources of reimbursement and the extent to which these sources cover actual costs; government, employer, and other costs; and mortality and morbidity outcomes. The study shall cover a representative period after January 1, 1990.

(2) REPORT.—The Secretary shall make public a proposed report on the results of the study or studies conducted under this subsection, provide a period of 90 days for public comment on such report, consider such comments, and transmit to Congress a report on the results of such study or studies, together with a summary of such comments, not later than 40 months after the funds for such study are made available by the Secretary.

(3) FUNDING.—Of the amounts authorized to be appropriated for fiscal year 1992 or 1993 (or both) to carry out section 153 of title 23, United States Code, the Secretary shall make available $5,000,000 in the aggregate in such fiscal years to carry out this subsection. Such funds shall remain available until expended.

SEC. 1032. FEDERAL LANDS HIGHWAYS PROGRAM.

(a) ALLOCATIONS.—Section 202 of title 23, United States Code, is amended—

(1) by striking subsection (a);

(2) by redesignating subsections (b), (c), (d), and (e) as subsections (a), (b), (c), and (d), respectively;

(3) by inserting after "allocate" in subsection (b), as so redesignated, "34 percent of"; and

(4) by striking the period at the end of subsection (b), as so redesignated, and inserting the following: "which are proposed by a State which contains at least 3 percent of the total public lands in the Nation. The Secretary shall allocate 66 percent of the remainder of the authorization for public lands highways for each fiscal year as is provided in section 134 of the Federal-Aid Highway Act of 1987, and with respect to these allocations the Secretary shall give equal consideration to projects that provide access to and within the National Forest System, as identified by the Secretary of Agriculture through renewable resources and land use planning and the impact of such planning on existing transportation facilities.".

(b) PROJECTS.—Section 204 of such title is amended—

(1) in subsection (a) by striking "forest highways," and by adding at the end of such subsection the following new sentences: "The Secretary, in cooperation with the Secretary of Interior and the Secretary of Agriculture, shall develop appropriate transportation planning procedures and safety, bridge, and pavement management systems for roads funded under the Federal Lands Highway Program. Notwithstanding any other provision of this title, no public lands highway project may be undertaken in any State pursuant to this section unless the State concurs in the selection and planning of the project.";

(2) in subsection (b)—

(A) by striking "construction and improvements thereof" and inserting "planning, research, engineering and construction thereof";

(B) by striking "forest highways and"; and

(C) by adding at the end the following new sentence: "Funds available for each class of Federal lands highways shall be available for any kind of transportation project eligible for assistance under this title that is within or adjacent to or provides access to the areas served by the particular class of Federal lands highways.";

(3) in subsection (c) by striking "on a Federal aid system" and inserting "eligible for funds apportioned under section 104 or section 144 of this title"; and

(4) by striking subsection (h) and inserting the following new subsections:

"(h) ELIGIBLE PROJECTS.—Funds available for each class of Federal lands highways may be available for the following:

"(1) Transportation planning for tourism and recreational travel including the National Forest Scenic Byways Program, Bureau of Land Management Back Country Byways Program, National Trail System Program, and other similar Federal programs that benefit recreational development.

"(2) Adjacent vehicular parking areas.

"(3) Interpretive signage.

"(4) Acquisition of necessary scenic easements and scenic or historic sites.

"(5) Provision for pedestrians and bicycles.

"(6) Construction and reconstruction of roadside rest areas including sanitary and water facilities.

"(7) Other appropriate public road facilities such as visitor centers as determined by the Secretary.

"(i) TRANSFERS TO SECRETARY OF INTERIOR.—The Secretary shall transfer to the Secretary of Interior from the appropriation for public land highways amounts as may be needed to cover necessary administrative costs of the Bureau of Land Management in connection with public lands highways.

"(j) INDIAN RESERVATION ROADS PLANNING.—Up to 2 percent of funds made available for Indian reservation roads for each fiscal year shall be allocated to those Indian tribal governments applying for transportation planning pursuant to the provisions of the Indian Self-Determination and Education Assistance Act. The Indian tribal government, in cooperation with the Secretary of the Interior, and, as may be appropriate, with a State, local government, or metropolitan planning organization, shall develop a transportation improvement program, that includes all Indian reservation road projects proposed for funding. Projects shall be selected by the Indian tribal government from the transportation improvement program and shall be subject to the approval of the Secretary of the Interior and the Secretary.".

(c) FOREST DEVELOPMENT ROADS AND TRAILS.—Section 205(c) of such title is amended by striking "$15,000" each place it appears and inserting "$50,000".

(d) INDIAN RESERVATION ROADS.—Notwithstanding any other provision of law, funds allocated for Indian reservation roads may be used for the purpose of funding road projects on roads of tribally controlled postsecondary vocational institutions.

(e) REPORT.—The Secretary shall undertake a study to determine if the method for allocating funds authorized for Federal lands highways is adequate to meet the relative transportation needs of the Federal lands served. The report shall be submitted within 2 years of the date of the enactment of this Act.

(f) CONFORMING AMENDMENTS.—Section 203 of title 23, United States Code, is amended by striking "forest highways" each place it appears.

SEC. 1033. BICYCLE TRANSPORTATION AND PEDESTRIAN WALKWAYS.

Section 217 of title 23, United States Code, is amended to read as follows:

"§217. Bicycle transportation and pedestrian walkways

"(a) USE OF STP AND CONGESTION MITIGATION PROGRAM FUNDS.—Subject to project approval by the Secretary, a State may obligate funds apportioned to it under sections 104(b)(2) and 104(b)(3) of this title for construction of pedestrian walkways and bicycle transportation facilities and for carrying out nonconstruction projects related to safe bicycle use.

"(b) USE OF NATIONAL HIGHWAY SYSTEM FUNDS.—Subject to project approval by the Secretary, a State may obligate funds apportioned to it under section 104(b)(1) of this title for construction of bicycle transportation facilities on land adjacent to any highway on the National Highway System (other than the Interstate System).

"(c) USE OF FEDERAL LANDS HIGHWAY FUNDS.—Funds authorized for forest highways, forest development roads and trails, public lands development roads and trails, park roads, parkways, Indian reservation roads, and public lands highways shall be available, at the discretion of the department charged with the administration of such funds, for the construction of pedestrian walkways and bicycle transportation facilities in conjunction with such trails, roads, highways, and parkways.

"(d) STATE BICYCLE AND PEDESTRIAN COORDINATORS.—Each State receiving an apportionment under sections 104(b)(2) and 104(b)(3) of this title shall use such amount of the apportionment as may be necessary to fund in the State department of transportation a position of bicycle and pedestrian coordinator for promoting and facilitating the increased use of nonmotorized modes of transportation, including developing facilities for the use of pedestrians and bicyclists and public education, promotional, and safety programs for using such facilities.

"(e) BRIDGES.—In any case where a highway bridge deck being replaced or rehabilitated with Federal financial participation is located on a highway, other than a highway access to which is fully controlled, on which bicycles are permitted to operate at each end of such bridge, and the Secretary determines that the safe accommodation of bicycles can be provided at reasonable cost as part of such replacement or rehabilitation, then such bridge shall be so replaced or rehabilitated as to provide such safe accommodations.

"(f) FEDERAL SHARE.—For all purposes of this title, construction of a pedestrian walkway and a bicycle transportation facility shall be deemed to be a highway project and the Federal share payable on account of such construction shall be 80 percent.

"(g) PLANNING.—Pedestrian walkways and bicycle transportation facilities to be constructed under this section shall be located and designed pursuant to an overall plan to be developed by each metropolitan planning organization and State and incorporated into their comprehensive annual long-range plans in accordance with sections 134 and 135 of this title, respectively. Such plans shall provide due consideration for safety and contiguous routes.

"(h) USE OF MOTORIZED VEHICLES.—No motorized vehicles shall be permitted on trails and pedestrian walkways under this section, except for—

"(1) maintenance purposes;

"(2) when snow conditions and State or local regulations permit, snowmobiles;

"(3) when State and local regulations permit, motorized wheelchairs; and

"(4) such other circumstances as the Secretary deems appropriate.

"(i) TRANSPORTATION PURPOSE.—No bicycle project may be carried out under this section unless the Secretary has determined that such bicycle project will be principally for transportation, rather than recreation, purposes.

"(j) BICYCLE TRANSPORTATION FACILITY DEFINED.—For purposes of this section, a 'bicycle transportation facility' means new or improved lanes, paths, or shoulders for use by bicyclists, traffic control devices, shelters, and parking facilities for bicycles.".

SEC. 1034. MANAGEMENT SYSTEMS.

(a) IN GENERAL.—Chapter 3 of title 23, United States Code, is amended by inserting after section 302 the following new section:

"§303. Management systems

"(a) REGULATIONS.—Not later than 1 year after the date of the enactment of this section, the Secretary shall issue regulations for State development, establishment, and implementation of a system for managing each of the following:

"(1) Highway pavement of Federal-aid highways.

"(2) Bridges on and off Federal-aid highways.

"(3) Highway safety.

"(4) Traffic congestion.

"(5) Public transportation facilities and equipment.

"(6) Intermodal transportation facilities and systems.

In metropolitan areas, such systems shall be developed and implemented in cooperation with metropolitan planning organizations. Such regulations may include a compliance schedule for development, establishment, and implementation

of each such system and minimum standards for each such system.

"(b) TRAFFIC MONITORING.—Not later than 1 year after the date of the enactment of this section, the Secretary shall issue guidelines and requirements for the State development, establishment, and implementation of a traffic monitoring system for highways and public transportation facilities and equipment.

"(c) STATE REQUIREMENTS.—The Secretary may withhold up to 10 percent of the funds apportioned under this title and under the Federal Transit Act for any fiscal year beginning after September 30, 1995, to any State and any recipient of assistance under such Act in the State unless, in the preceding fiscal year, the State was implementing each of the management systems described in subsection (a) and, before January 1 of the preceding fiscal year, the State certified, in writing, to the Secretary, that the State was implementing each of such management systems in the preceding fiscal year.

"(d) PROCEDURAL REQUIREMENTS.—In developing and implementing a management system under this section, each State shall cooperate with metropolitan planning organizations for urbanized areas of the State and affected agencies receiving assistance under the Federal Transit Act and shall consider the results of the management systems in making project selection decisions under this title and under such Act.

"(e) INTERMODAL REQUIREMENTS.—The management system required under this section for intermodal transportation facilities and systems shall provide for improvement and integration of all of a State's transportation systems and shall include methods of achieving the optimum yield from such systems, methods for increasing productivity in the State, methods for increasing use of advanced technologies, and methods to encourage the use of innovative marketing techniques, such as just-in-time deliveries.

"(f) ANNUAL REPORT.—Not later than January 1 of each calendar year beginning after December 31, 1992, the Secretary shall transmit to Congress a report on the progress being made by the Secretary and the States in carrying out this section.

"(g) FUNDING.—Subject to project approval by the Secretary, a State may obligate funds apportioned after September 30, 1991, under subsections (b)(1), (b)(2), and (b)(3) of section 104 of this title for developing and establishing management systems required by this section and funds apportioned under section 144 of this title for developing and establishing the bridge management system required by this section.

"(h) REVIEW OF REGULATIONS.—Not later than 10 days after the date of issuance of any regulation under this section, the Secretary shall transmit a copy of such regulation to Congress for review.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 3 of such title is amended by inserting after the item relating to section 302 the following new item:

"303. Management systems.".

SEC. 1035. LIMITATION ON DISCOVERY OF CERTAIN REPORTS AND SURVEYS.

(a) IN GENERAL.—Section 409 of title 23, United States Code, is amended—

(1) by striking the section heading and inserting the following:

"§409. Discovery and admission as evidence of certain reports and surveys"; and

(2) by striking "admitted into evidence in Federal or State court" and inserting "subject to discovery or admitted into evidence in a Federal or State court proceeding".

(b) CONFORMING AMENDMENT.—The analysis for chapter 4 of such title is amended by striking the item relating to section 409 and inserting the following:

"409. Discovery and admission as evidence of certain reports and surveys.".

SEC. 1036. NATIONAL HIGH-SPEED GROUND TRANSPORTATION PROGRAMS.

(a) DECLARATION OF POLICY.—Section 302 of title 49, United States Code, is amended by adding at the end the following new subsection:

"(d)(1) It is the policy of the United States to promote the construction and commercialization of high-speed ground transportation systems by—

"(A) conducting economic and technological research;

"(B) demonstrating advancements in high-speed ground transportation technologies;

"(C) establishing a comprehensive policy for the development of such systems and the effective integration of the various high-speed ground transportation technologies; and

"(D) minimizing the long-term risks of investors.

"(2) It is the policy of the United States to establish in the shortest time practicable a United States designed and constructed magnetic levitation transportation technology capable of operating along Federal-aid highway rights-of-way, as part of a national transportation system of the United States.".

(b) NATIONAL MAGNETIC LEVITATION PROTOTYPE DEVELOPMENT PROGRAM.—

(1) MANAGEMENT OF PROGRAM.—There is hereby established a national magnetic levitation prototype development program to be managed by a program director appointed jointly by the Secretary and the Assistant Secretary of the Army for Civil Works (hereinafter in this subsection referred to as the "Assistant Secretary"). To carry out such program, the Secretary and the Assistant Secretary shall establish a national maglev joint project office (hereinafter in this subsection referred to as the "Maglev Project Office"), which shall be headed by the program director, and shall enter into such arrangements as may be necessary for funding, staffing, office space, and other requirements that will allow the Maglev Project Office to carry out its functions. In carrying out such program, the program director shall consult with appropriate Federal officials, including the Secretary of Energy and the Administrator of the Environmental Protection Agency.

(2) PHASE ONE CONTRACTS.—

(A) REQUEST FOR PROPOSALS.—Not later than 12 months after the date of the enactment of this Act, the Maglev Project Office shall release a request for proposals for development of conceptual designs for a maglev system and for research to facilitate the development of such conceptual designs.

(B) AWARD OF CONTRACTS.—Not later than 15 months after the date of the enactment of this Act, the Secretary and the Assistant Secretary shall, based on the recommendations of the program director, award 1-year contracts for research and development to no fewer than 5 eligible applicants. If fewer than 5 complete applications have been received, contracts shall be awarded to as many eligible applicants as is practical.

(C) FACTORS AND CONDITIONS TO BE CONSIDERED.—The Secretary and the Assistant Secretary may approve contracts under subparagraph (B) only after consideration of factors relating to the construction and operation of a magnetic levitation system, including the cost-effectiveness, ease of maintenance, safety, limited environmental impact, ability to achieve sustained high speeds, ability to operate along the Interstate highway rights-of-way, the potential for the guideway design to be a national standard, the applicant's resources, capabilities, and history of successfully designing and developing systems of similar complexity, and the desirability of geographic diversity among contractors and only if the applicant agrees to submit a report to the Maglev Project Office detailing the results of the research and development and agrees to provide for matching of the phase one contract at a 90 percent Federal, 10 percent non-Federal, cost share.

(3) PHASE TWO CONTRACTS.—Within 3 months of receiving the final reports of contract activities under paragraph (2), and based only on such reports and the recommendations of the program director, the Secretary and the Assistant Secretary shall select not more than 3 eligible applicants from among the contract recipients submitting reports under paragraph (2) to receive 18-month contracts for research and development leading to a detailed design for a prototype maglev system. The Secretary and the Assistant Secretary may only award contracts under this paragraph if—

(A) they determine that the applicant has demonstrated technical merit for the conceptual design and the potential for further development of such design into an operational prototype as described in paragraph (4),

(B) the applicant agrees to submit the detailed design within such 18-month period to the Maglev Project Office and the selection committee described in paragraph (4), and

(C) the applicant agrees to provide for matching of the phase two contract at an 80 percent Federal, 20 percent non-Federal, cost share.

(4) PROTOTYPE.—

(A) SELECTION OF DESIGN.—Within 6 months of receiving the detailed designs developed under paragraph (3), the Secretary and the Assistant Secretary shall, based on the recommendations of the selection committee described in this subparagraph, select 1 design for development into a full-scale prototype, unless the Secretary and the Assistant Secretary determine jointly that no design shall be selected, based on an assessment of technical feasibility and projected cost of construction and operation of the prototype. A selection committee of 8 members, consisting of—

(i) 1 member to be appointed by the Secretary,

(ii) 1 member to be appointed by the Assistant Secretary,

(iii) 3 members to be appointed by the Senate majority and minority leaders, and

(iv) 3 members to be appointed by the Speaker of the House and the minority leader of the House,

shall be appointed not later than 1 year following the award of contracts under paragraph (3). The selection committee, within 3 months of receiving the detailed designs developed under paragraph (3), shall make a recommendation to the Secretary and the Assistant Secretary as to the best prototype design or the unsuitability of any design. The program director shall provide technical reviews of the phase two contract reports to the selection committee and otherwise provide any technical assistance that the committee requires to assist it in making a recommendation. In the event that the Secretary and the Assistant Secretary determine jointly not to select a design for development under this subsection, they shall report to Congress on the basis for such determination, together with recommendations for future action, including further research, development, or design, termination of the program, or such other action as may be appropriate.

(B) AWARD OF CONSTRUCTION GRANT OR CONTRACT.—Unless the Secretary and the Assistant Secretary determine not to proceed pursuant to subparagraph (A), they shall, not later than 3 months after selection of a design for development into a full-scale prototype, and based on the recommendations of the program director, award 1 construction grant or contract to the applicant whose detailed design was selected under subparagraph (A) for the purpose of con-

structing a prototype maglev system in accordance with the selected design. Not more than 75 percent of the cost of the project shall be borne by the United States.

(C) FACTORS TO BE CONSIDERED IN SELECTION.—Selection of the detailed design under this paragraph shall be based on consideration of the following factors, among others:

(i) The project shall be capable of utilizing Interstate highway rights-of-way along or above a significant portion of its route, and may also use railroad rights-of-way along or above any portion of the railroad route.

(ii) The total length of guideway shall be at least 19 miles and allow significant full-speed operations between stops.

(iii) The project shall be constructed and ready for operational testing within 3 years after the award of the contract or grant.

(iv) The project shall provide for the conversion of the prototype to commercial operation after testing and technical evaluation is completed.

(v) The project shall be located in an area that provides a potential ridership base for future commercial operation.

(vi) The project shall utilize a technology capable of being applied in commercial service in most parts of the contiguous United States.

(vii) The project shall have at least 1 switch.

(viii) The project shall be intermodal in nature connecting a major metropolitan area with an airport, part, passenger rail station, or other transportation mode.

(D) ADDITIONAL FACTORS FOR CONSIDERATION.—In awarding a grant or contract under this paragraph, the Secretary shall encourage the development of domestic manufacturing capabilities. In selecting among eligible applicants, the Secretary shall consider existing railroads and equipment manufacturers with excess production capacity, including railroads that have experience in advanced technologies (including self-propelled cars).

(5) LICENSING.—

(A) PROPRIETARY RIGHTS.—No trade secrets or commercial or financial information that is privileged or confidential, under the meaning of section 552(b)(4) of title 5, United States Code, which is obtained from a United States business, research, or education entity as a result of activities under this subsection shall be disclosed.

(B) COMMERCIAL INFORMATION.—The research, development, and use of any technology developed pursuant to an agreement reached pursuant to this subsection, including the terms under which any technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701-3714). In addition, the Secretary and the Assistant Secretary may require any grant or contract recipient to assure that research and development be performed substantially in the United States and that the products embodying the inventions made under any agreement pursuant to this subsection or produced through the use of such inventions be manufactured substantially in the United States.

(6) REPORTS.—The Secretary and the Assistant Secretary shall provide periodic reports to Congress on progress made under this subsection.

(7) ELIGIBLE APPLICANT DEFINED.—For purposes of this subsection, the term "eligible applicant" means a United States private business, United States public or private education and research organization, Federal laboratory, or a consortium of such businesses, organizations, and laboratories.

(c) TECHNOLOGY DEMONSTRATION PROGRAM; RESEARCH AND DEVELOPMENT PROGRAM.—

(1) IN GENERAL.—Subchapter I of chapter 3 of title 49, United States Code, is amended by adding at the end the following new section:

"§309. High-speed ground transportation

"(a) The Secretary of Transportation, in consultation with the Secretaries of Commerce, Energy, and Defense, the Administrator of the Environmental Protection Agency, the Assistant Secretary of the Army for Public Works, and the heads of other interested agencies, shall lead and coordinate Federal efforts in the research and development of high-speed ground transportation technologies in order to foster the implementation of magnetic levitation and high-speed steel wheel on rail transportation systems as alternatives to existing transportation systems.

"(b)(1) The Secretary may award contracts and grants for demonstrations to determine the contributions that high-speed ground transportation could make to more efficient, safe, and economical intercity transportation systems. Such demonstrations shall be designed to measure and evaluate such factors as the public response to new equipment, higher speeds, variations in fares, improved comfort and convenience, and more frequent service. In connection with grants and contracts for demonstrations under this section, the Secretary shall provide for financial participation by private industry to the maximum extent practicable.

"(2)(A) In connection with the authority provided under paragraph (1), there is established a national high-speed ground transportation technology demonstration program, which shall be separate from the national magnetic levitation prototype development program established under section 1036(b) of the Intermodal Surface Transportation Efficiency Act of 1991 and shall be managed by the Secretary of Transportation.

"(B)(i) Any eligible applicant may submit to the Secretary a proposal for demonstration of any advancement in a high-speed ground transportation technology or technologies to be incorporated as a component, subsystem, or system in any revenue service high-speed ground transportation project or system under construction or in operation at the time the application is made.

"(ii) Grants or contracts shall be awarded only to eligible applicants showing demonstrable benefit to the research and development, design, construction, or ultimate operation of any maglev technology or high-speed steel wheel on rail technology. Criteria to be considered in evaluating the suitability of a proposal under this paragraph shall include—

"(I) feasibility of guideway or track design and construction;

"(II) safety and reliability;

"(III) impact on the environment in comparison to other high-speed ground transportation technologies;

"(IV) minimization of land use;

"(V) effect on human factors related to high-speed ground transportation;

"(VI) energy and power consumption and cost;

"(VII) integration of high-speed ground transportation systems with other modes of transportation;

"(VIII) actual and projected ridership; and

"(IX) design of signaling, communications, and control systems.

"(C) For the purposes of this paragraph, the term 'eligible applicant' means any United States private business, State government, local government, organization of State or local government, or any combination thereof. The term does not include any business owned in whole or in part by the Federal Government.

"(D) The amount and distribution of grants or contracts made under this paragraph shall be determined by the Secretary. No grant or contract may be awarded under this paragraph to demonstrate a technology to be incorporated into a project or system located in a State that prohibits under State law the expenditure of non-Federal public funds or revenues on the construction or operation of such project or system.

"(E) Recipients of grants or contracts made pursuant to this paragraph shall agree to submit a report to the Secretary detailing the results and benefits of the technology demonstration proposed, as required by the Secretary.

"(c)(1) In carrying out the responsibilities of the Secretary under this section, the Secretary is authorized to enter into 1 or more cooperative research and development agreements (as defined by section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a)), and 1 or more funding agreements (as defined by section 201(b) of title 35, United States Code), with United States companies for the purpose of—

"(A) conducting research to overcome technical and other barriers to the development and construction of practicable high-speed ground transportation systems and to help advance the basic generic technologies needed for these systems; and

"(B) transferring the research and basic generic technologies described in subparagraph (A) to industry in order to help create a viable commercial high-speed ground transportation industry within the United States.

"(2) In a cooperative agreement or funding agreement under paragraph (1), the Secretary may agree to provide not more than 80 percent of the cost of any project under the agreement. Not less than 5 percent of the non-Federal entity's share of the cost of any such project shall be paid in cash.

"(3) The research, development, or utilization of any technology pursuant to a cooperative agreement under paragraph (1), including the terms under which such technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

"(4) The research, development, or utilization of any technology pursuant to a funding agreement under paragraph (1), including the determination of all licensing and ownership rights, shall be subject to the provisions of chapter 18 of title 35, United States Code.

"(5) At the conclusion of fiscal year 1993 and again at the conclusion of fiscal year 1996, the Secretary shall submit reports to Congress regarding research and technology transfer activities conducted pursuant to the authorization contained in paragraph (1).

"(d)(1) Not later than June 1, 1995, the Secretary shall complete and submit to Congress a study of the commercial feasibility of constructing 1 or more high-speed ground transportation systems in the United States. Such study shall consist of—

"(A) an economic and financial analysis;

"(B) a technical assessment; and

"(C) recommendations for model legislation for State and local governments to facilitate construction of high-speed ground transportation systems.

"(2) The economic and financial analysis referred to in paragraph (1)(A) shall include—

"(A) an examination of the potential market for a nationwide high-speed ground transportation network, including a national magnetic levitation ground transportation system;

"(B) an examination of the potential markets for short-haul high-speed ground transportation systems and for intercity and long-haul high-speed ground transportation systems, including an assessment of—

"(i) the current transportation practices and trends in each market; and

"(ii) the extent to which high-speed ground transportation systems would relieve the current or anticipated congestion on other modes of transportation;

"(C) projections of the costs of designing, constructing, and operating high-speed ground transportation systems, the extent to which such systems can recover their costs (including capital costs), and the alternative methods available for private and public financing;

"(D) the availability of rights-of-way to serve each market, including the extent to which average and maximum speeds would be limited by the curvature of existing rights-of-way and the prospect of increasing speeds through the acquisition of additional rights-of-way without significant relocation of residential, commercial, or industrial facilities;

"(E) a comparison of the projected costs of the various competing high-speed ground transportation technologies;

"(F) recommendations for funding mechanisms, tax incentives, liability provisions, and changes in statutes and regulations necessary to facilitate the development of individual high-speed ground transportation systems and the completion of a nationwide high-speed ground transportation network;

"(G) an examination of the effect of the construction and operation of high-speed ground transportation systems on regional employment and economic growth;

"(H) recommendations for the roles appropriate for local, regional, and State governments to facilitate construction of high-speed ground transportation systems, including the roles of regional economic development authorities;

"(I) an assessment of the potential for a high-speed ground transportation technology export market;

"(J) recommendations regarding the coordination and centralization of Federal efforts relating to high-speed ground transportation;

"(K) an examination of the role of the National Railroad Passenger Corporation in the development and operation of high-speed ground transportation systems; and

"(L) any other economic or financial analyses the Secretary considers important for carrying out this section.

"(3) The technical assessment referred to in paragraph (1)(B) shall include—

"(A) an examination of the various technologies developed for use in the transportation of passengers by high-speed ground transportation, including a comparison of the safety (including dangers associated with grade crossings), energy efficiency, operational efficiencies, and environmental impacts of each system;

"(B) an examination of the potential role of a United States designed maglev system, developed as a prototype under section 1036(b) of the Intermodal Surface Transportation Efficiency Act of 1991, in relation to the implementation of other high-speed ground transportation technologies and the national transportation system;

"(C) an examination of the work being done to establish safety standards for high-speed ground transportation as a result of the enactment of section 7 of the Rail Safety Improvement Act of 1988;

"(D) an examination of the need to establish appropriate technological, quality, and environmental standards for high-speed ground transportation systems;

"(E) an examination of the significant unresolved technical issues surrounding the design, engineering, construction, and operation of high-speed ground transportation systems, including the potential for the use of existing rights-of-way;

"(F) an examination of the effects on air quality, energy consumption, noise, land use, health, and safety as a result of the decreases in traffic volume on other modes of transportation that are expected to result from the full-scale development of high-speed ground transportation systems; and

"(G) any other technical assessments the Secretary considers important for carrying out this section.

"(e)(1) Within 12 months after the submission of the study required by subsection (d), the Secretary shall establish the national high-speed ground transportation policy (hereinafter in this section referred to as the 'Policy').

"(2) The Policy shall include—

"(A) provisions to promote the design, construction, and operation of high-speed ground transportation systems in the United States;

"(B) a determination whether the various competing high-speed ground transportation technologies can be effectively integrated into a national network and, if not, whether 1 or more such technologies should receive preferential encouragement from the Federal Government to enable the development of such a national network;

"(C) a strategy for prioritizing the markets and corridors in which the construction of high-speed ground transportation systems should be encouraged; and

"(D) provisions designed to promote American competitiveness in the market for high-speed ground transportation technologies.

"(3) The Secretary shall solicit comments from the public in the development of the Policy and may consult with other Federal agencies as appropriate in drafting the Policy.".

(2) CONFORMING AMENDMENT.—The analysis for chapter 3 of such title is amended by inserting after the item relating to section 308 the following:

"309. High-speed ground transportation.".

(d) FUNDING.—

(1) OUT OF HIGHWAY TRUST FUND.—There shall be available from the Highway Trust Fund (other than the Mass Transit Account) the following sums:

(A) NATIONAL MAGNETIC LEVITATION PROTOTYPE DEVELOPMENT PROGRAM.—For the national magnetic levitation prototype development program under this section $5,000,000 for fiscal year 1992, $45,000,000 for fiscal year 1993, $100,000,000 for fiscal year 1994, $100,000,000 for fiscal year 1995, $125,000,000 for fiscal year 1996, and $125,000,000 for fiscal year 1997.

(B) NATIONAL HIGH-SPEED GROUND TRANSPORTATION TECHNOLOGY DEMONSTRATION PROGRAM.—For the national high-speed ground transportation technology demonstration program under section 309 of title 49, United States Code, $5,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(2) OUT OF GENERAL FUND.—In addition to amounts made available by paragraph (1), there is authorized to be appropriated for fiscal years 1992, 1993, 1994, 1995, 1996, and 1997—

(A) $225,000,000 for the national magnetic levitation prototype development program under this section;

(B) $25,000,000 for the national high-speed ground transportation technology demonstration program under section 309 of title 49, United States Code; and

(C) $25,000,000 for national high-speed ground transportation research and development under section 309 of title 49, United States Code.

(3) PERIOD OF AVAILABILITY.—Funds made available by and under this section shall remain available until expended.

(4) CONTRACT AUTHORITY.—Notwithstanding any other provision of law, approval by the Secretary of a grant or contract with funds made available by paragraph (1) shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project.

(e) GUARANTEE OF OBLIGATIONS.—Section 511 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 831) is amended—

(1) in subsection (a)—

(A) by inserting "(1)" after "shall be or have been used";

(B) by striking "or" after "car management systems)," and inserting in lieu thereof "(2)"; and

(C) by inserting ", or (3) to acquire, rehabilitate, improve, develop, or establish high-speed rail facilities or equipment" after "new railroad facilities";

(2) in subsection (g)—

(A) by inserting "or high-speed rail services" after "rail services" both places it appears in paragraph (3);

(B) by inserting "or passengers" after "provide shippers" in paragraph (3);

(C) by striking "or improved" and inserting in lieu thereof "improved, developed, or established" in paragraph (4);

(D) by striking "improved, rehabilitated, or acquired" and inserting in lieu thereof "acquired, rehabilitated, improved, developed, or established" in paragraph (5);

(E) by striking "and" at the end of paragraph (5);

(F) by inserting "or high-speed rail carrier" after "affected railroad" in paragraph (6);

(G) by striking the period at the end of paragraph (6) and inserting in lieu thereof "; and"; and

(H) by adding at the end the following new paragraph:

"(7) in the case of high-speed rail facilities and equipment, at least 85 percent of such facilities and equipment are mined, produced, or manufactured in the United States, unless the Secretary finds in writing that—

"(A) such requirement would be inconsistent with the public interest;

"(B) such facilities and equipment could not be mined, produced, or manufactured in the United States in sufficient and reasonably available quantities of a satisfactory quality;

"(C) such a requirement would increase the cost of the facilities and equipment by more than 25 percent; or

"(D) such a requirement would result in a violation of obligations of the United States under international trade agreements.";

(3) in subsection (i)(1)—

(A) by amending subparagraph (B) to read as follows:

"(B)(i) will not use any funds or assets from railroad operations for nonrail purposes; and

"(ii) will not use any funds or assets from high-speed rail operations for purposes other than high-speed rail purposes,"; and

(B) by inserting "or high-speed rail services" after "provide rail services"; and

(4) by adding at the end the following new subsection:

"(n) DEFINITIONS.—As used in this section, the term 'high-speed rail' means all forms of nonhighway ground transportation that run on rails providing transportation service which is—

"(1) reasonably expected to reach sustained speeds of more than 125 miles per hour; and

"(2) made available to members of the general public as passengers.

Such term does not include rapid transit operations within an urban area that are not connected to the general rail system of transportation.".

(f) GENERAL ACCOUNTING OFFICE STUDY.—The Comptroller General, within 2 years after the date of the enactment of this Act, and annually thereafter, shall analyze the effectiveness of the application of section 511 of the Railroad Revitalization and Regulatory Reform Act of 1976 to high-speed rail facilities and equipment, and report the results of such analysis to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

SEC. 1037. RAILROAD RELOCATION DEMONSTRATION PROGRAM.

Section 163(p) of the Federal-Aid Highway Act of 1973 (23 U.S.C. 130 note) is amended by striking "and 1991," and inserting "1991, 1992, 1993, and 1994,".

SEC. 1038. USE OF RECYCLED PAVING MATERIAL.

(a) ASPHALT PAVEMENT CONTAINING RECYCLED RUBBER DEMONSTRATION PROGRAM.—Notwithstanding any other provision of title 23, United States Code, or regulation or policy of the Department of Transportation, the Secretary (or a State acting as the Department's agent) may not disapprove a highway project under chapter 1 of title 23, United States Code, on the ground that the project includes the use of asphalt pavement containing recycled rubber. Under this subsection, a patented application process for recycled rubber shall be eligible for approval under the same conditions that an unpatented process is eligible for approval.

(b) STUDIES.—

(1) IN GENERAL.—The Secretary and the Administrator of the Environmental Protection Agency shall coordinate and conduct, in cooperation with the States, a study to determine—

(A) the threat to human health and the environment associated with the production and use of asphalt pavement containing recycled rubber;

(B) the degree to which asphalt pavement containing recycled rubber can be recycled; and

(C) the performance of the asphalt pavement containing recycled rubber under various climate and use conditions.

(2) DIVISION OF RESPONSIBILITIES.—The Administrator shall conduct the part of the study relating to paragraph (1)(A) and the Secretary shall conduct the part of the study relating to paragraph (1)(C). The Administrator and the Secretary shall jointly conduct the study relating to paragraph (1)(B).

(3) ADDITIONAL STUDY.—The Secretary and the Administrator, in cooperation with the States, shall jointly conduct a study to determine the economic savings, technical performance qualities, threats to human health and the environment, and environmental benefits of using recycled materials in highway devices and appurtenances and highway projects, including asphalt containing over 80 percent reclaimed asphalt, asphalt containing recycled glass, and asphalt containing recycled plastic.

(4) ADDITIONAL ELEMENTS.—In conducting the study under paragraph (3), the Secretary and the Administrator shall examine utilization of various technologies by States and shall examine the current practices of all States relating to the reuse and disposal of materials used in federally assisted highway projects.

(5) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Secretary and the Administrator shall transmit to Congress a report on the results of the studies conducted under this subsection, including a detailed analysis of the economic savings and technical performance qualities of using such recycled materials in federally assisted highway projects and the environmental benefits of using such recycled materials in such highway projects in terms of reducing air emissions, conserving natural resources, and reducing disposal of the materials in landfills.

(c) DOT GUIDANCE.—

(1) INFORMATION GATHERING AND DISTRIBUTION.—The Secretary shall gather information and recommendations concerning the use of asphalt containing recycled rubber in highway projects from those States that have extensively evaluated and experimented with the use of such asphalt and implemented such projects and shall make available such information and recommendations on the use of such asphalt to those States which indicate an interest in the use of such asphalt.

(2) ENCOURAGEMENT OF USE.—The Secretary should encourage the use of recycled materials determined to be appropriate by the studies pursuant to subsection (b) in federally assisted highway projects. Procuring agencies shall comply with all applicable guidelines or regulations issued by the Administrator of the Environmental Protection Agency.

(d) USE OF ASPHALT PAVEMENT CONTAINING RECYCLED RUBBER.—

(1) STATE CERTIFICATION.—Beginning on January 1, 1995, and annually thereafter, each State shall certify to the Secretary that such State has satisfied the minimum utilization requirement for asphalt pavement containing recycled rubber established by this section. The minimum utilization requirement for asphalt pavement containing recycled rubber as a percentage of the total tons of asphalt laid in such State and financed in whole or part by any assistance pursuant to title 23, United States Code, shall be—

(A) 5 percent for the year 1994;

(B) 10 percent for the year 1995;

(C) 15 percent for the year 1996; and

(D) 20 percent for the year 1997 and each year thereafter.

(2) OTHER MATERIALS.—Any recycled material or materials determined to be appropriate by the studies under subsection (b) may be substituted for recycled rubber under the minimum utilization requirement of paragraph (1) up to 5 percent.

(3) INCREASE.—The Secretary may increase the minimum utilization requirement of paragraph (1) for asphalt pavement containing recycled rubber to be used in federally assisted highway projects to the extent it is technologically and economically feasible to do so and if an increase is appropriate to assure markets for the reuse and recycling of scrap tires. The minimum utilization requirement for asphalt pavement containing recycled rubber may not be met by any use or technique found to be unsuitable for use in highway projects by the studies under subsection (b).

(4) PENALTY.—The Secretary shall withhold from any State that fails to make a certification under paragraph (1) for any fiscal year, a percentage of the apportionments under section 104 (other than subsection (b)(5)(A)) of title 23, United States Code, that would otherwise be apportioned to such State for such fiscal year under such section equal to the percentage utilization requirement established by paragraph (1) for such fiscal year.

(5) SECRETARIAL WAIVER.—The Secretary may set aside the provisions of this subsection for any 3-year period on a determination, made in concurrence with the Administrator of the Environmental Protection Agency with respect to subparagraphs (A) and (B) of this paragraph, that there is reliable evidence indicating—

(A) that manufacture, application, or use of asphalt pavement containing recycled rubber substantially increases the threat to human health or the environment as compared to the threats associated with conventional pavement;

(B) that asphalt pavement containing recycled rubber cannot be recycled to substantially the same degree as conventional pavement; or

(C) that asphalt pavement containing recycled rubber does not perform adequately as a material for the construction or surfacing of highways and roads.

The Secretary shall consider the results of the study under subsection (b)(1) in determining whether a 3-year set-aside is appropriate.

(6) RENEWAL OF WAIVER.—Any determination made to set aside the requirements of this section may be renewed for an additional 3-year period by the Secretary, with the concurrence of the Administrator with respect to the determinations made under paragraphs (5)(A) and (5)(B). Any determination made with respect to paragraph (5)(C) may be made for specific States or regions considering climate, geography, and other factors that may be unique to the State or region and that would prevent the adequate performance of asphalt pavement containing recycled rubber.

(7) INDIVIDUAL STATE REDUCTION.—The Secretary shall establish a minimum utilization requirement for asphalt pavement containing recycled rubber less than the minimum utilization requirement otherwise required by paragraph (1) in a particular State, upon the request of such State and if the Secretary, with the concurrence of the Administrator of the Environmental Protection Agency, determines that there is not a sufficient quantity of scrap tires available in the State prior to disposal to meet the minimum utilization requirement established under paragraph (1) as the result of recycling and processing uses (in that State or another State), including retreading or energy recovery.

(e) DEFINITIONS.—For purpose of this section—

(1) the term "asphalt pavement containing recycled rubber" means any hot mix or spray applied binder in asphalt paving mixture that contains rubber from whole scrap tires which is used for asphalt pavement base, surface course or interlayer, or other road and highway related uses and—

(A) is a mixture of not less than 20 pounds of recycled rubber per ton of hot mix or 300 pounds of recycled rubber per ton of spray applied binder; or

(B) is any mixture of asphalt pavement and recycled rubber that is certified by a State and is approved by the Secretary, provided that the total amount of recycled rubber from whole scrap tires utilized in any year in such State shall be not less than the amount that would be utilized if all asphalt pavement containing recycled rubber laid in such State met the specifications of subparagraph (A) and subsection (d)(1); and

(2) the term "recycled rubber" is any crumb rubber derived from processing whole scrap tires or shredded tire material taken from automobiles, trucks, or other equipment owned and operated in the United States.

SEC. 1039. HIGHWAY TIMBER BRIDGE RESEARCH AND DEMONSTRATION PROGRAM.

(a) RESEARCH GRANTS.—The Secretary may make grants to other Federal agencies, universities, private businesses, nonprofit organizations, and any research or engineering entity to carry out research on 1 or more of the following:

(1) Development of new, economical highway timber bridge systems.

(2) Development of engineering design criteria for structural wood products for use in highway bridges in order to improve methods for characterizing lumber design properties.

(3) Preservative systems for use in highway timber bridges which demonstrate new alternatives and current treatment processes and procedures and which are environmentally sound with respect to application, use, and disposal of treated wood.

(4) Alternative transportation system timber structures which demonstrate the development of applications for railing, sign, and lighting supports, sound barriers, culverts, and retaining walls in highway applications.

(5) Rehabilitation measures which demonstrate effective, safe, and reliable methods for rehabilitating existing highway timber structures.

(b) TECHNOLOGY AND INFORMATION TRANSFER.—The Secretary shall take such action as may be necessary to ensure that the information and technology resulting from research conducted under subsection (a) is made available to State and local transportation departments and other interested persons.

(c) CONSTRUCTION GRANTS.—

(1) AUTHORITY.—The Secretary shall make grants to States for construction of highway timber bridges on rural Federal-aid highway.

(2) APPLICATIONS.—A State interested in receiving a grant under this subsection must submit an application therefor to the Secretary. Such application shall be in such form and contain such information as the Secretary may require by regulation.

(3) APPROVAL CRITERIA.—The Secretary shall select and approve applications for grants under this subsection based on the following criteria:

(A) Bridge designs which have both initial and long-term structural and environmental integrity.

(B) Bridge designs which utilize timber species native to the State or region.

(C) Innovative bridge designs which have the possibility of increasing knowledge, cost effectiveness, and future use of such designs.

(D) Environmental practices for preservative treated timber, and construction techniques which comply with all environmental regulations, will be utilized.

(d) FEDERAL SHARE.—The Federal share of the costs of research and construction projects carried out under this section shall be 80 percent.

(e) FUNDING.—From the funds reserved from apportionment under section 144(g)(1) of title 23, United States Code, for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997—

(1) $1,000,000 shall be available to the Secretary for carrying out subsections (a) and (b); and

(2) $7,500,000 ($7,000,000 in the case of fiscal year 1992) shall be available to the Secretary for carrying out subsection (c).

Such sums shall remain available until expended.

(f) STATE DEFINED.—For purposes of this section, the term "State" has the meaning such term has under section 101 of title 23, United States Code.

SEC. 1040. HIGHWAY USE TAX EVASION PROJECTS.

(a) IN GENERAL.—The Secretary shall use funds made available by subsection (e) to carry out highway use tax evasion projects in accordance with this section. Such funds may be allocated to the Internal Revenue Service and the States at the discretion of the Secretary. The Secretary shall not impose any condition on the use of funds allocated to the Internal Revenue Service under this section.

(b) LIMITATION ON USE OF FUNDS.—Funds made available to carry out this section shall be used only to expand efforts to enhance motor fuel tax enforcement, fund additional Internal Revenue Service staff but only to carry out functions described in this subsection, supplement motor fuel tax examinations and criminal investigations, develop automated data processing tools to monitor motor fuel production and sales, evaluate and implement registration and reporting requirements for motor fuel taxpayers, reimburse State expenses that supplement existing fuel tax compliance efforts, and analyze and implement programs to reduce tax evasion associated with other highway use taxes.

(c) MAINTENANCE OF EFFORT.—The Secretary may not make a grant to a State under this section in a fiscal year unless the State certifies that aggregate expenditure of funds of the State, exclusive of Federal funds, for motor fuel tax enforcement activities will be maintained at a level which does not fall below the average level of such expenditure for its last 2 fiscal years.

(d) REPORTS.—

(1) IN GENERAL.—On September 30 and March 31 of each year, the Secretary shall transmit to the Committee on Environment and Public Works and the Committee on Finance of the Senate and the Committee on Public Works and Transportation and the Committee on Ways and Means of the House of Representatives a report on motor fuel tax enforcement activities under this section and the expenditure of funds made available to carry out this section, including expenses for the hiring of additional staff by any Federal agency.

(2) USE OF REVENUES FOR ENFORCEMENT OF HIGHWAY TRUST FUND TAXES.—The Secretary of the Treasury shall, at least 60 days before the beginning of each fiscal year (after fiscal year 1992) for which funds are to be allocated to the Internal Revenue Service under this section, submit a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate detailing the increased enforcement activities to be financed with such funds with respect to taxes referred to in section 9503(b)(1) of the Internal Revenue Code of 1986.

(e) USE OF DYE AND MARKERS.—

(1) STUDY.—The Secretary, in consultation with the Internal Revenue Service, shall conduct a study to determine the feasibility and the desirability of using dye and markers to aid in motor fuel tax enforcement activities and other purposes.

(2) REPORT.—Not later than 1 year after the effective date of this section, the Secretary shall transmit to Congress a report on the results of the study conducted under this subsection.

(f) FUNDING.—

(1) HIGHWAY TRUST FUND.—There shall be available to the Secretary for carrying out this section, out of the Highway Trust Fund (other than the Mass Transit Account), $5,000,000 for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997. Such sums shall be available for obligation in the same manner and to the same extent as if such sums were apportioned under chapter 1 of title 23, United States Code; except that the Federal share for projects carried out under this section shall be 100 percent and the sums shall remain available until expended.

(2) GENERAL FUND.—There are authorized to be appropriated to carry out this section $2,500,000 per fiscal year for each of fiscal years 1992 through 1997. Such sums shall remain available until expended.

(g) STATE DEFINED.—For purposes of this section, the term "State" means the 50 States and the District of Columbia.

SEC. 1041. REGULATORY INTERPRETATIONS.

(a) INCLUSION OF COATING OF STEEL IN BUY AMERICA PROGRAM.—Section 635.410 of title 23 of the Code of Federal Regulations and any similar regulation, ruling, or decision shall be applied as if to include coating.

(b) FUNDING OF FUSEES AND FLARES.—Section 393.95 of title 49 of the Code of Federal Regulations shall be applied so that fusees and flares are given equal priority with regard to use as reflecting signs.

SEC. 1042. INDIAN RERVATION ROADS STUDY.

(a) STUDY.—The Secretary shall conduct a study on the funding needs for Indian reservation roads taking into account funding and other quality inequities between Indian reservation roads and other highway systems.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the results of the study conducted under this section, together with any legislative and administrative recommendations of the Secretary for correcting inequities identified under such study.

SEC. 1043. REPORT TO CONGRESS ON QUALITY IMPROVEMENT.

(a) REPORT TO CONGRESS ON QUALITY IMPROVEMENT.—The Comptroller General shall submit within 24 months following the date of the enactment of this title a report to Congress addressing means for improving the quality of highways constructed with Federal assistance. This report shall address Federal design standards, engineering and design services, and construction of Federal-aid highway projects.

(b) SCOPE OF THE REPORT TO CONGRESS.—In preparing such report, the Comptroller shall address, at a minimum, the following:

(1) Alternative modifications to current Federal and State minimum design standards, including but not limited to, the anticipated impacts these alternatives would have on the serviceability, maintenance, expected life, and costs (including engineering and design, construction maintenance, operation and replacement costs).

(2) Inclusion of guarantee and warranty clauses in contracts with designers, contractors, and State highway departments to address, at a minimum, potential costs and benefits of such clauses; any liability or insurance constraints or concerns; implications for small, minority, or disadvantaged businesses; currently existing options for States to require these clauses or other means with similar effect without additional Federal legislation, and the effect these or similar clauses may have on the availability of insurance and bonds for design professionals and contractors and the implication to the public of any change in such availability.

(3) Means of enhancing the maintenance of the Federal-aid Highway System to ensure the public investment in such system is protected.

SEC. 1044. CREDIT FOR NON-FEDERAL SHARE.

(a) ELIGIBILITY.—A State may use as a credit toward the non-Federal matching share requirement for all programs under this Act and title 23, United States Code, toll revenues that are generated and used by public, quasi-public and private agencies to build, improve, or maintain highways, bridges, or tunnels that serve the public purpose of interstate commerce. Such public, quasi-public or private agencies shall have built, improved, or maintained such facilities without Federal funds.

(b) MAINTENANCE OF EFFORT.—The credit for any non-Federal share shall not reduce nor replace State monies required to match Federal funds for any program pursuant to this Act or title 23, United States Code. In receiving a credit for non-Federal capital expenditures under this section, a State shall enter into such agreements as the Secretary may require to ensure that such State will maintain its non-Federal transportation capital expenditures at or above the average level of such expenditures for the preceding three fiscal years.

(c) TREATMENT.—Use of such credit for a non-Federal share shall not expose such agencies from which the credit is received to additional liability, additional regulation or additional administrative oversight. When credit is applied from chartered multi-State agencies, such credit shall be applied equally to all charter States. The public, quasi-public, and private agencies from which the credit for which the non-Federal share is calculated shall not be subject to any additional Federal design standards, laws or regulations as a result of providing non-Federal match other than those to which such agency is already subject.

SEC. 1045. SUBSTITUTE PROJECT.

(a) APPROVAL OF PROJECT.—Notwithstanding any other provision of law, upon the request of the Governor of the State of Wisconsin, submitted after consultation with appropriate local government officials, the Secretary may approve substitute highway, bus transit, and light rail transit projects, in lieu of construction of the I-94 East-West Transitway project in Milwaukee and Waukesha Counties, as identified in the 1991 Interstate Cost Estimate.

(b) ELIGIBILITY FOR FEDERAL ASSISTANCE.—Upon approval of any substitute highway or transit project or projects under subsection (a), the costs of construction of the eligible transitway project for which such project or projects are substituted shall not be eligible for funds authorized under section 108(b) of the Federal-Aid Highway Act of 1956 and a sum equal to the Federal share of such costs, as included in the latest interstate cost estimate submitted to Congress, shall be available to the Secretary to incur obligations under section 103(e)(4) of title 23, United States Code, for the Federal share of the costs of such substitute project or projects.

(c) LIMITATION ON ELIGIBILITY.—If, by October 1, 1993, or two years after the date of the enactment of this Act, whichever is later, the Governor of the State of Wisconsin has not submitted a request for a substitute project or projects in lieu of the I-94 East-West Transitway, the Secretary shall not approve such substitution. If, by October 1, 1995, or four years after the date of the enactment of this Act, whichever is later, such substitute project or projects are not under construction, or under contract for construction, no funds shall be appropriated under the authority of section 103(e)(4) of title 23, United States Code, for such project or projects. For the purposes of this subsection, the term "construction" has the same meaning as given to it in section 101, title 23, United States Code, and shall include activities such as preliminary engineering and right-of-way acquisition.

(d) ADMINISTRATIVE PROVISIONS.—

(1) STATUS OF SUBSTITUTE PROJECT OR PROJECTS.—Any substitute project approved under subsection (a) shall be deemed to be a substitute project for the purposes of section 103(e)(4) of title 23, United States Code (other than subparagraphs (C) and (O)).

(2) REDUCTION OF UNOBLIGATED INTERSTATE APPORTIONMENT.—Unobligated apportionments for the Interstate System in the State of Wisconsin shall, on the date of approval of any substitute project or projects under subsection (a), be applied toward the Federal share of the costs of such substitute project or projects.

(3) ADMINISTRATION THROUGH FHWA.—The Secretary shall administer this section through the Federal Highway Administration.

(4) FISCAL YEARS 1993 AND 1994 APPORTIONMENTS.—For the purpose of apportioning funds for fiscal years 1993 and 1994 under section 104(b)(5)(A), the Secretary shall consider Wisconsin as having no remaining eligible costs. For the purpose of apportioning funds under section 104(b)(5)(A) of title 23, United States Code, for fiscal year 1995 and subsequent fiscal years, Wisconsin's actual remaining eligible costs shall be used.

(e) TRANSFER OF APPORTIONMENTS.—Wisconsin may transfer Interstate construction apportionments to its National Highway System in amounts equal to or less than the costs for additional work on sections of the Interstate System that have been built with Interstate construction funds and that are open to traffic as shown in the 1991 Interstate Cost Estimate.

SEC. 1046. CONTROL OF OUTDOOR ADVERTISING.

(a) FUNDING.—Section 131(m) of title 23, United States Code, is amended by adding at the end the following new sentence: "Subject to approval by the Secretary in accordance with the program of projects approval process of section 105, a State may use any funds apportioned to it under section 104 of this title for removal of any sign, display, or device lawfully erected which does not conform to this section.".

(b) REMOVAL OF ILLEGAL SIGNS.—Section 131 of such title is amended by adding at the end the following new subsection:

"(r) REMOVAL OF ILLEGAL SIGNS.—

"(1) BY OWNERS.—Any sign, display, or device along the Interstate System or the Federal-aid primary system which was not lawfully erected, shall be removed by the owner of such sign, display, or device not later than the 90th day following the effective date of this subsection.

"(2) BY STATES.—If any owner does not remove a sign, display, or device in accordance with paragraph (1), the State within the borders of which the sign, display, or device is located shall remove the sign, display, or device. The owner of the removed sign, display, or device shall be liable to the State for the costs of such removal. Effective control under this section includes compliance with the first sentence of this paragraph.".

(c) SCENIC BYWAY PROHIBITION.—Such section is further amended by adding at the end the following new subsections:

"(s) SCENIC BYWAY PROHIBITION.—If a State has a scenic byway program, the State may not allow the erection along any highway on the Interstate System or Federal-aid primary system which before, on, or after the effective date of this subsection, is designated as a scenic byway under such program of any sign, display, or device which is not in conformance with subsection (c) of this section. Control of any sign, display, or device on such a highway shall be in accordance with this section.

"(t) PRIMARY SYSTEM DEFINED.—For purposes of this section, the terms 'primary system' and 'Federal-aid primary system' mean the Federal-aid primary system in existence on June 1, 1991, and any highway which is not on such system but which is on the National Highway System.".

(d) STATE COMPLIANCE LAWS.—The amendments made by this section shall not affect the status or validity of any existing compliance law or regulation adopted by a State pursuant to section 131 of title 23, United States Code.

SEC. 1047. SCENIC BYWAYS PROGRAM.

(a) SCENIC BYWAYS ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall establish in the Department of Transportation an advisory committee to assist the Secretary with respect to establishment of a national scenic byways program under title 23, United States Code.

(2) MEMBERSHIP.—The advisory committee established under this section shall be composed of 17 members as follows:

(A) The Administrator of the Federal Highway Administration or the designee of the Administrator who shall serve as chairman of the advisory committee.

(B) The Chief of the Forest Service of the Department of Agriculture or the designee of the Chief.

(C) The Director of the National Park Service of the Department of the Interior or the designee of the Director.

(D) The Director of the Bureau of Land Management of the Department of the Interior or the designee of the Director.

(E) The Under Secretary for Travel and Tourism of the Department of Commerce or the designee of the Under Secretary.

(F) The Assistant Secretary for Indian Affairs of the Department of the Interior or the designee of the Assistant Secretary.

(G) 1 individual appointed by the Secretary who is specially qualified to represent the interests of conservationists on the advisory committee.

(H) 1 individual appointed by the Secretary of Transportation who is specially qualified to represent the interests of recreational users of scenic byways on the advisory committee.

(I) 1 individual appointed by the Secretary who is specially qualified to represent the interests of the tourism industry on the advisory committee.

(J) 1 individual appointed by the Secretary who is specially qualified to represent the interests of historic preservationists on the advisory committee.

(K) 1 individual appointed by the Secretary who is specially qualified to represent the interests of highway users on the advisory committee.

(L) 1 individual appointed by the Secretary to represent State highway and transportation officials.

(M) 1 individual appointed by the Secretary to represent local highway and transportation officials.

(N) 1 individual appointed by the Secretary who is specially qualified to serve on the advisory committee as a planner.

(O) 1 individual appointed by the Secretary who is specially qualified to represent the motoring public.

(P) 1 individual appointed by the Secretary who is specially qualified to represent groups interested in scenic preservation.

(Q) 1 individual appointed by the Secretary who represents the outdoor advertising industry.

Individuals appointed as members of the advisory committee under subparagraphs (G) through (P) may be State and local government officials. Members shall serve without compensation other than for reasonable expenses incident to functions of the advisory committee.

(3) FUNCTIONS.—The advisory committee established under this subsection shall develop and make to the Secretary recommendations regarding minimum criteria for use by State and Federal agencies in designating highways as scenic byways and as all-American roads for purposes of a national scenic byways program to be established under title 23, United States Code. Such recommendations shall include recommendations on the following:

(A) Consideration of the scenic beauty and historic significance of highways proposed for designation as scenic byways and all-American roads and the areas surrounding such highways.

(B) Operation and management standards for highways designated as scenic byways and all-American roads, including strategies for maintaining or improving the qualities for which a highway is designated as a scenic byway or all-American road, for protecting and enhancing the landscape and view corridors surrounding such a highway, and for minimizing traffic congestion on such a highway.

(C)(i) Standards for scenic byway-related signs, including those which identify highways as scenic byways and all-American roads.

(ii) The advisability of uniform signs identifying highways as components of the scenic byway system.

(D) Standards for maintaining highway safety on the scenic byway system.

(E) Design review procedures for location of highway facilities, landscaping, and travelers' facilities on the scenic byway system.

(F) Procedures for reviewing and terminating the designation of a highway designated as a scenic byway.

(G) Such other matters as the advisory committee may deem appropriate.

(H) Such other matters for which the Secretary may request recommendations.

(4) REPORT.—Not later than 18 months after the date of the enactment of this Act, the advisory committee established under this section shall submit to the Secretary and Congress a report containing the recommendations described in paragraph (3).

(b) TECHNICAL AND FINANCIAL ASSISTANCE.—The Secretary shall provide technical assistance to the States (as such term is defined under section 101 of title 23, United States Code) and shall make grants to the States for the planning, design, and development of State scenic byway programs.

(c) FEDERAL SHARE.—The Federal share payable for the costs of planning, design, and development of State scenic byway programs under this section shall be 80 percent.

(d) FUNDING.—There shall be available to the Secretary for carrying out this section (other than subsection (f)), out of the Highway Trust Fund (other than the Mass Transit Account), $1,000,000 for fiscal year 1992, $3,000,000 for fiscal year 1993, $4,000,000 for fiscal year 1994, and $14,000,000 for each of the fiscal years 1995, 1996, and 1997. Such sums shall remain available until expended.

(e) CONTRACT AUTHORITY.—Notwithstanding any other provision of law, approval by the Secretary of a grant under this section shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of activities for which the grant is being made.

(f) INTERIM SCENIC BYWAYS PROGRAM.—

(1) GRANT PROGRAM.—During fiscal years 1992, 1993, and 1994, the Secretary may make grants to any State which has a scenic highway program for carrying out eligible projects on highways which the State has designated as scenic byways.

(2) PRIORITY PROJECTS.—In making grants under paragraph (1), the Secretary shall give priority to—

(A) those eligible projects which are included in a corridor management plan for maintaining scenic, historic, recreational, cultural, and archeological characteristics of the corridor while providing for accommodation of increased tourism and development of related amenities;

(B) those eligible projects for which a strong local commitment is demonstrated for implementing the management plans and protecting the characteristics for which the highway is likely to be designated as a scenic byway;

(C) those eligible projects which are included in programs which can serve as models for other States to follow when establishing and designing scenic byways on an intrastate or interstate basis; and

(D) those eligible projects in multi-State corridors where the States submit joint applications.

(3) ELIGIBLE PROJECTS.—The following are projects which are eligible for Federal assistance under this subsection:

(A) Planning, design, and development of State scenic byway programs.

(B) Making safety improvements to a highway designated as a scenic byway under this subsection to the extent such improvements are necessary to accommodate increased traffic, and changes in the types of vehicles using the highway, due to such designation.

(C) Construction along the highway of facilities for the use of pedestrians and bicyclists, rest areas, turnouts, highway shoulder improvements, passing lanes, overlooks, and interpretive facilities.

(D) Improvements to the highway which will enhance access to an area for the purpose of recreation, including water-related recreation.

(E) Protecting historical and cultural resources in areas adjacent to the highway.

(F) Developing and providing tourist information to the public, including interpretive information about the scenic byway.

(4) FEDERAL SHARE.—The Federal share payable for the costs of carrying out projects and developing programs under this subsection with funds made available pursuant to this subsection shall be 80 percent.

(5) FUNDING.—There shall be available to the Secretary for carrying out this subsection, out of the Highway Trust Fund (other than the Mass Transit Account), $10,000,000 for fiscal year 1992, $10,000,000 for fiscal year 1993, and $10,000,000 for fiscal year 1994. Such sums shall remain available until expended.

(g) LIMITATION.—The Secretary shall not make a grant under this section for any project which would not protect the scenic, historic, recreational, cultural, natural, and archeological integrity of the highway and adjacent area. The Secretary may not use more than 10 percent of the funds authorized for each fiscal year under subsection (f)(5) for removal of any outdoor advertising sign, display, or device.

(h) TREATMENT OF SCENIC HIGHWAYS IN OREGON.—For purposes of this section, a highway designated as a scenic highway in the State of Oregon shall be treated as a scenic byway.

SEC. 1048. BUY AMERICA.

(a) INCLUSION OF IRON.—Section 165(a) of the Surface Transportation Assistance Act of 1982 (23 U.S.C. 101 note) is amended by inserting ", iron," after "steel".

(b) WAIVERS; INTENTIONAL VIOLATIONS.—Section 165 of such Act is amended by adding at the end the following new subsections:

"(e) REPORT ON WAIVERS.—By January 1, 1995, the Secretary shall submit to Congress a report on the purchases from foreign entities waived under subsection (b) in fiscal years 1992 and 1993, indicating the dollar value of items for which waivers were granted under subsection (b).

"(f) INTENTIONAL VIOLATIONS.—If it has been determined by a court or Federal agency that any person intentionally—

"(1) affixed a label bearing a 'Made in America' inscription, or any inscription with the same meaning, to any product used in projects to which this section applies, sold in or shipped to the United States that was not made in the United States; or

"(2) represented that any product used in projects to which this section applies, sold in or shipped to the United States that was not produced in the United States, was produced in the United States;

that person shall be ineligible to receive any contract or subcontract made with funds authorized under the Intermodal Surface Transportation Efficiency Act of 1991 pursuant to the debarment, suspension, and ineligibility procedures in subpart 9.4 of chapter 1 of title 48, Code of Federal Regulations.

"(g) LIMITATION ON APPLICABILITY OF WAIVERS TO PRODUCTS PRODUCED IN CERTAIN FOREIGN COUNTRIES.—If the Secretary, in consultation with the United States Trade Representative, determines that—

"(1) a foreign country is a party to an agreement with the United States and pursuant to that agreement the head of an agency of the United States has waived the requirements of this section, and

"(2) the foreign country has violated the terms of the agreement by discriminating against products covered by this section that are produced in the United States and are covered by the agreement,

the provisions of subsection (b) shall not apply to products produced in that foreign country.".

SEC. 1049. DESIGN STANDARDS.

(a) SURVEY.—The Secretary shall conduct a survey to identify current State standards relating to geometric design, traffic control devices, roadside safety, safety appurtenance design, uniform traffic control devices, and sign legibility and directional clarity for all Federal-aid highways. The purpose of the survey is to determine the necessity of upgrading such standards in order to enhance highway safety. In conducting the survey, the Secretary shall take into consideration posted speed limits as they relate to the design of the highway.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of the survey conducted under this section, and on the crashworthiness of traffic lights, traffic signs, guardrails, impact attenuators, concrete barrier treatments, and breakaway utility poles for bridges and roadways currently used by States, together with any recommendations of the Secretary relating to the purpose of the survey.

SEC. 1050. TRANSPORTATION IN PARKLANDS.

(a) IN GENERAL.—Not later than 12 months after the date of the enactment of this Act, the Secretary, in consultation with the Secretary of the Interior, shall conduct and transmit to Congress a study of alternative transportation modes for use in the National Park System. In conducting such study, the Secretary shall consider (1) the economic and technical feasibility, environmental effects, projected costs and benefits as compared to the costs and benefits of existing transportation systems, and general suitability of transportation modes that would provide efficient and environmentally sound ingress to and egress from National Park lands; and (2) methods to obtain private capital for the construction of such transportation modes and related infrastructure.

(b) FUNDING.—From sums authorized to be appropriated for park roads and parkways for fiscal year 1992, $300,000 shall be available to carry out this section.

SEC. 1051. WORK ZONE SAFETY.

The Secretary shall develop and implement a work zone safety program which will improve work zone safety at highway construction sites by enhancing the quality and effectiveness of traffic control devices, safety appurtenances, traffic control plans, and bidding practices for traffic control devices and services.

SEC. 1052. NEW HAMPSHIRE FEDERAL-AID PAYBACK.

(a) EFFECT OF REPAYMENT.—The amount of all Federal-aid highway funds paid on account of those completed sections of the Nashua-Hudson Circumferential in the State of New Hampshire referred to in subsection (c) of this section shall, prior to the collection of any tolls thereon, be repaid to the Treasurer of the United States before October 1, 1992. The amount so repaid shall be deposited to the credit of the appropriation for "Federal-Aid Highway (Trust Fund)". Such repayment shall be credited to the unprogrammed balance of funds apportioned to the State of New Hampshire in accordance with section 104(b)(1) of title 23, United States Code. The amount so credited shall be in addition to all other funds then apportioned to such State and shall remain available until expended.

(b) USE OF REPAID FUNDS.—Upon repayment of Federal-aid highway funds and the cancellation and withdrawal from the Federal-Aid highway program of the projects on the section in subsection (c) as provided in subsection (a) of this section, such section of this route shall become and be free of any and all restrictions contained in title 23, United States Code, as amended or supplemented, or in any regulation thereunder, with respect to the imposition and collection of tolls or other charges thereon or for the use thereof.

(c) PROJECT DESCRIPTION.—The provisions of this section shall apply to the section of the completed Nashua-Hudson Circumferential between the Daniel Webster Highway in the city of Nashua and New Hampshire Route 3A in the town of Hudson.

SEC. 1053. METRIC SYSTEM SIGNING.

Section 144 of the Federal-Aid Highway Act of 1978 (92 Stat. 2713; 23 U.S.C. 109 note) is repealed.

SEC. 1054. TEMPORARY MATCHING FUND WAIVER.

(a) WAIVER OF MATCHING SHARE.—Notwithstanding any other provision of law, the Federal share of any qualifying project approved by the Secretary under title 23, United States Code, and of any qualifying project for which the United States becomes obligated to pay under title 23, United States Code, during the period beginning on October 1, 1991, and ending September 30, 1993, shall be the percentage of the construction cost as the State requests, up to and including 100 percent.

(b) REPAYMENT.—The total amount of increases in the Federal share made pursuant to subsection (a) for any State shall be repaid to the United States by the State on or before March 30, 1994. Payments shall be deposited in the Highway Trust Fund and repaid amounts shall be credited to the appropriate apportionment accounts of the State.

(c) DEDUCTION FROM APPORTIONMENTS.—If a State has not made the repayment as required by subsection (b), the Secretary shall deduct from funds apportioned to the State under title 23, United States Code, in each of the fiscal years 1995 and 1996, a pro rata share of each category of apportioned funds. The amount which shall be deducted in each fiscal year shall be equal to 50 percent of the amount needed for repayment. Any amount deducted under this subsection shall be reapportioned for fiscal years 1995 and 1996 in accordance with title 23, United States Code, to those States which have not received a higher Federal share under this section and to those States which have made the repayment required by subsection (b).

(d) QUALIFYING PROJECT DEFINED.—For purposes of this section, the term "qualifying project" means a project approved by the Secretary after the effective date of this title, or a project for which the United States becomes obligated to pay after such effective date, and for which the Governor of the State submitting the project has certified, in accordance with regulations established by the Secretary, that sufficient funds are not available to pay the cost of the non-Federal share of the project.

SEC. 1055. RELOCATION ASSISTANCE REGULATIONS RELATING TO THE RURAL ELECTRIFICATION ADMINISTRATION.

Section 213(c) of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4633(c)) is amended by inserting "and the Rural Electrification Administration" after "Tennessee Valley Authority".

SEC. 1056. USE OF HIGH OCCUPANCY VEHICLE LANES BY MOTORBIKES.

Section 163 of the Surface Transportation Assistance Act of 1982 (23 U.S.C. 146 note) is amended—

(1) by inserting before "and acceptance" the following: ", after notice in the Federal Register and an opportunity for public comment,"; and

(2) by adding at the end the following: "Any certification made before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991 shall not be recognized by the Secretary until the Secretary publishes notice of such certification in the Federal Register and provides an opportunity for public comment on such certification.".

SEC. 1057. EROSION CONTROL GUIDELINES.

(a) DEVELOPMENT.—The Secretary shall develop erosion control guidelines for States to follow in carrying out construction projects funded in whole or in part under this title.

(b) MORE STRINGENT STATE REQUIREMENTS.—Guidelines developed under subsection (a) shall not preempt any requirement made by or under State law if such requirement is more stringent than the guidelines.

(c) CONSISTENCY WITH OTHER PROGRAMS.—Guidelines developed under subsection (a) shall be consistent with nonpoint source management programs under section 319 of the Federal Water Pollution Control Act and coastal nonpoint pollution control guidance under section 6217(g) of the Omnibus Budget Reconciliation Act of 1990.

SEC. 1058. ROADSIDE BARRIER TECHNOLOGY.

(a) REQUIREMENT FOR INNOVATIVE BARRIERS.—Not less than 2½ percent of the mileage of new or replacement permanent median barriers included in awarded contracts along Federal-aid highways within the boundaries of a State in each calendar year shall be innovative safety barriers.

(b) CERTIFICATION.—Each State shall annually certify to the Secretary its compliance with the requirements of this section.

(c) DEFINITION OF INNOVATIVE SAFETY BARRIER.—For purposes of this section, the term "innovative safety barrier" means a median barrier, other than a guardrail, classified by the Federal Highway Administration as "experimental" or that was classified as "operational" after January 1, 1985.

SEC. 1059. USE OF TOURIST ORIENTED DIRECTIONAL SIGNS.

(a) IN GENERAL.—The Secretary shall encourage the States to provide for equitable participation in the use of tourist oriented directional signs or "logo" signs along the Interstate System and the Federal-aid primary system (as defined under section 131(t) of title 23, United States Code).

(b) STUDY.—Not later than 1 year after the effective date of this title, the Secretary shall conduct a study and report to Congress on the participation in the use of signs referred to in subsection (a) and the practices of the States with respect to the use of such signs.

SEC. 1060. PRIVATE SECTOR INVOLVEMENT PROGRAM.

(a) ESTABLISHMENT.—The Secretary shall establish a private sector involvement program to encourage States to contract with private firms for engineering and design services in carrying out Federal-aid highway projects when it would be cost effective.

(b) GRANTS TO STATES.—

(1) IN GENERAL.—In conducting the program under this section, the Secretary may make grants in each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 to not less than 3 States which the Secretary determines have implemented in the fiscal year preceding the fiscal year of the grant the most effective programs for increasing the percentage of funds expended for contracting with private firms (including small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals) for engineering and design services in carrying out Federal-aid highway projects.

(2) USE OF GRANTS.—A grant received by a State under this subsection may be used by the State only for awarding contracts for engineering and design services to carry out projects and activities for which Federal funds may be obligated under title 23, United States Code.

(3) FUNDING.—There are authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 1992 through 1997. Such sums shall remain available until expended.

(c) REPORT BY FHWA.—Not later than 120 days after the date of the enactment of this Act, the Administrator of the Federal Highway Administration shall submit to the Secretary a report on the amount of funds expended by each State in fiscal years 1980 through 1990 on contracts with private sector engineering and design firms in carrying out Federal-aid highway projects. The Secretary shall use information in the report to evaluate State engineering and design programs for the purpose of awarding grants under subsection (b).

(d) REPORT TO CONGRESS.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on implementation of the program established under this section.

(e) ENGINEERING AND DESIGN SERVICES DEFINED.—The term "engineering and design services" means any category of service described in section 112(b) of title 23, United States Code.

(f) REGULATIONS.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall issue regulations to carry out this section.

SEC. 1061. UNIFORM TRAFFIC CONTROL DEVICES.

(a) HIGHWAY PROJECT.—The Secretary shall carry out a highway project in the State of Arkansas to demonstrate the benefits of providing training to county and town traffic officials in the need for and application of uniform traffic control devices and to demonstrate the safety benefits of providing for adequate and safe warning and regulatory signs.

(b) AUTHORIZATION OF APPROPRIATIONS FROM HIGHWAY TRUST FUNDS.—There is authorized to be appropriated out of the Highway Trust Fund, other than the Mass Transit Account, for fiscal year 1992 to carry out this section—

(1) $200,000 for providing training; and

(2) $1,000,000 for providing warning and regulatory signs to counties, towns and cities.

Amounts provided under paragraph (2) shall be divided equally between counties with a total county population of 20,000 or less and counties with a total county population of more than 20,000. Such amounts shall be distributed fairly and equitably among counties, cities, and towns within those counties.

(c) APPLICABILITY OF TITLE 23.—Funds authorized by this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of the project under this section shall be 80 percent and such funds shall remain available until expended. Funds made available under this section shall not be subject to any obligation limitation.

(d) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit a report to Congress on the effectiveness of the project carried out under this section.

SEC. 1062. MOLLY ANN'S BROOK, NEW JERSEY.

The Secretary shall carry out a project to make modifications to bridges necessary for the Secretary of the Army to carry out a project for flood control, Molly Ann's Brook, New Jersey, authorized by section 401 of the Water Resources Development Act of 1986 (100 Stat. 4119). Any Federal expenditures under this part for such project shall be treated as part of the non-Federal share of the cost of such flood control project.

SEC. 1063. PRESIDENTIAL HIGHWAY, FULTON COUNTY, GEORGIA.

(a) GENERAL RULE.—Notwithstanding any other provision of law, the Secretary shall approve the construction of the Department of Transportation project MEACU–9152(2) in Fulton County, Georgia, as described in the legal settlement agreed to for the project by the Georgia Department of Transportation, the city of Atlanta, and CAUTION, Inc. Execution of the settlement agreement by those parties and approval of the settlement agreement by the DeKalb County, Georgia Superior Court shall be deemed to constitute full compliance with all Federal laws applicable to carrying out the project.

(b) LIMITATIONS ON FEDERAL FUNDING.—With the exception of Federal funds expended for construction of the project described in subsection (a) and with the exception of Federal funds appropriated or authorized for the acquisition, creation, or development of parks or battlefield sites, no further Federal funds, including funds from the Highway Trust Fund and funds appropriated for the Federal-aid highway systems, shall be authorized, appropriated, or expended for expanding the capacity of the project described in subsection (a) or for new

construction of a Federal-aid highway in any portion of rights-of-way previously acquired for Department of Transportation project MEACU–9152(2) which is not used for construction of such project as described in subsection (a) and in any portion of the rights-of-way previously acquired for Georgia project I–485–1(46) in Fulton County, Georgia; Georgia project U–061–1(14) in Fulton and DeKalb Counties, Georgia; and Georgia project F–056–1(12) in Fulton County, Georgia.

(c) LIMITATION ON EFFECT.—In the event that the settlement agreement referred to in subsection (a) is not executed by the parties or approved by the DeKalb County, Georgia Superior Court in Case No. 88–6429–3, this section shall have no force or effect.

SEC. 1064. CONSTRUCTION OF FERRY BOATS AND FERRY TERMINAL FACILITIES.

(a) IN GENERAL.—The Secretary shall carry out a program for construction of ferry boats and ferry terminal facilities in accordance with section 129(c) of title 23, United States Code.

(b) FEDERAL SHARE.—The Federal share payable for construction of ferry boats and ferry terminal facilities under this section shall be 80 percent of the cost thereof.

(c) FUNDING.—There shall be available, out of the Highway Trust Fund (other than the Mass Transit Account), to the Secretary for obligation at the discretion of the Secretary $14,000,000 for fiscal year 1992, $17,000,000 per fiscal year for each of fiscal years 1993, 1994, 1995, and 1996, and $18,000,000 for fiscal year 1997 in carrying out this section. Such sums shall remain available until expended.

(d) APPLICABILITY OF TITLE 23.—All provisions of chapter 1 of title 23, United States Code, that are applicable to the National Highway System, other than provisions relating to apportionment formula and Federal share, shall apply to funds made available to carry out this section, except as determined by the Secretary to be inconsistent with this section.

(e) TREATMENT OF CERTAIN ROADS.—For purposes of this section, North Carolina State Routes 12, 45, 306, 615, and 168 and United States Route 421 in the State of North Carolina shall be treated as principal arterials.

SEC. 1065. ORANGE COUNTY TOLL PILOT PROJECTS.

(a) EXEMPTION OF CERTAIN LANDS.—For the purposes of any approval by the Secretary of proposed highway improvements authorized by section 129(d)(3) of title 23, United States Code, in Orange County, California, pursuant to section 303 of title 49, United States Code, and section 138 of title 23, United States Code, those sections (collectively known as "section 4(f)") shall not be applicable to public park, recreation area, wildlife and waterfowl refuge (collectively referred to hereinafter in this section as "parkland")—

(1) that are acquired by a public entity after a governmental agency's approval of a State or Federal environmental document established the location of a highway adjacent to the parklands; or

(2) where the planning or acquisition documents for the parklands specifically referred to or reserved the specific location of the highway.

(b) APPLICABILITY.—Without limiting its prospective application, this section shall apply to any approval of the proposed highway improvements by the Secretary prior to the effective date of this section only if—

(1) the approximately 360 acres comprising the proposed Upper Peters Canyon Regional Park in Orange County, California, is conveyed to a public agency for use as public park and recreation land or a wildlife or waterfowl refuge, or both, within 90 days of such effective date;

(2) the approximately 100 acres of lands described as the Dedication Area in that certain Option Agreement dated April 16, 1991, by and between the city of Laguna Beach and the owner thereof is conveyed to a public agency for use as public park and recreation land for a wildlife or waterfowl refuge, or both, within 90 days of such effective date.

(c) PURPOSE.—This section is adopted in recognition of unique circumstances in Orange County, California, including a comprehensive land use planning process; the joint planning of thousands of acres of parklands with the locations of the proposed highway improvement; the provision of rights-of-way for high occupancy vehicle lanes and fixed rail transit in the 3 transportation corridors; the use of toll financing, which will discourage excessive automobile travel; and the inclusion of a county-wide growth management element and substantial local transit funding commitment in the county's voter-approved supplemental sales tax for transportation.

(d) LIMITATIONS ON STATUTORY CONSTRUCTION.—In no event shall this section be construed to apply to any other highway projects other than the proposed San Joaquin Hills, Foothill, and Eastern Transportation Corridor highways in Orange County, California. Nothing in this section is intended to waive any provision of law (including the National Environmental Policy Act, the Endangered Species Act, and the National Historic Preservation Act) other than the specific exemptions to section 303 of title 49 and section 138 of title 23, United States Code. Nothing in this section shall be construed to give effect to or approve regulations issued pursuant to section 4(f) and published in the Federal Register on April 1, 1991 (56 Federal Register 62).

SEC. 1066. RECODIFICATION.

The Secretary shall, by October 1, 1993, prepare a proposed recodification of title 23, United States Code, and related laws and submit the proposed recodification to Congress for consideration.

SEC. 1067. PRIOR DEMONSTRATION PROJECTS.

(a) TAMPA, FLORIDA.—The unobligated balance of funds provided under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 for carrying out subsection (a)(81) of such section shall be available to the Secretary for carrying out a highway project to widen, modernize, and make safety improvements to interstate route I–4 in Hillsborough County, Florida, from its intersection with I–275 in Tampa, Florida, to the Hillsborough-Polk County line.

(b) SANTA FE, NEW MEXICO.—The unobligated balance of funds provided under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 for carrying out subsection (a)(107) of such section shall be available to the Secretary for carrying out a highway project to construct a bypass for Santa Fe, New Mexico.

(c) LARKSPUR TO KORBEL, CALIFORNIA.—The unobligated balance of funds provided under section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 for carrying out subsection (a)(41)(B) of such section shall be available to the Secretary for carrying out a highway project to construct a transportation corridor along a right-of-way which is parallel to Route 101 in California and connects Larkspur, California, and Korbel, California.

(d) PASSAIC AND BERGEN COUNTIES, NEW JERSEY.—The highway project authorized by section 149(a)(1) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (101 Stat. 181), shall include improvements to New Jersey State Route 21, the Crooks Avenue interchange between United States Route 46 and New Jersey State Route 20, and the United States Route 46 bridge over the Passaic River between Clifton and Elmwood Park, New Jersey. Notwithstanding any other provision of law, the Governor of the State of New Jersey shall carry out with respect to the construction of such highway project all of the responsibilities of the Secretary under title 23, United States Code, and all other provisions of law. To provide for expedited completion of the project, the Governor is authorized to waive any and all Federal requirements relating to the scheduling of activities associated with such highway project, including final design and right-of-way acquisition activities.

SEC. 1068. STORMWATER PERMIT REQUIREMENTS.

(a) GENERAL RULE.—Notwithstanding the requirements of sections 402(p)(2) (B), (C), and (D) of the Federal Water Pollution Control Act, permit application deadlines for stormwater discharges associated with industrial activities from facilities that are owned or operated by a municipality shall be established by the Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the "Administrator") pursuant to the requirements of this section.

(b) PERMIT APPLICATIONS.—

(1) INDIVIDUAL APPLICATIONS.—The Administrator shall require individual permit applications for discharges described in subsection (a) on or before October 1, 1992; except that any municipality that has participated in a timely part I group application for an industrial activity discharging stormwater that is denied such participation in a group application or for which a group application is denied shall not be required to submit an individual application until the 180th day following the date on which the denial is made.

(2) GROUP APPLICATIONS.—With respect to group applications for permits for discharges described in subsection (a), the Administrator shall require—

(A) part I applications on or before September 30, 1991, except that any municipality with a population of less than 250,000 shall not be required to submit a part I application before May 18, 1992; and

(B) part II applications on or before October 1, 1992, except that any municipality with a population of less than 250,000 shall not be required to submit a part II application before May 17, 1993.

(c) MUNICIPALITIES WITH LESS THAN 100,000 POPULATION.—The Administrator shall not require any municipality with a population of less than 100,000 to apply for or obtain a permit for any stormwater discharge associated with an industrial activity other than an airport, powerplant, or uncontrolled sanitary landfill owned or operated by such municipality before October 1, 1992, unless such permit is required by section 402(p)(2) (A) or (E) of the Federal Water Pollution Control Act.

(d) UNCONTROLLED SANITARY LANDFILL DEFINED.—For the purposes of this section, the term "uncontrolled sanitary landfill" means a landfill or open dump, whether in operation or closed, that does not meet the requirements for run-on and run-off controls established pursuant to subtitle D of the Solid Waste Disposal Act.

(e) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to affect any application or permit requirement, including any deadline, to apply for or obtain a permit for stormwater discharges subject to section 402(p)(2)(A) or (E) of the Federal Water Pollution Control Act.

(f) REGULATIONS.—The Administrator shall issue final regulations with respect to general permits for stormwater discharges associated with industrial activity on or before February 1, 1992.

SEC. 1069. MISCELLANEOUS HIGHWAY PROJECT AUTHORIZATIONS.

(a) BALTIMORE-WASHINGTON PARKWAY.—There is authorized to be appropriated $74,000,000 for renovation and reconstruction of the Baltimore-Washington Parkway in Prince Georges County, Maryland. The Federal share of the cost of such project shall be 100 percent.

(b) EXIT 26 BRIDGE.—There is authorized to be appropriated $22,400,000 for construction of the Exit 26 Bridge in Schenectady County, New York. The Federal share of the cost of such project shall be 80 percent.

(c) CUMBERLAND GAP TUNNEL.—There are authorized to be appropriated such sums as may be necessary to complete construction of the Cumberland Gap Tunnel, Kentucky, including associated approaches and other necessary road work. The Federal share of the cost of such project shall be 100 percent.

(d) RIVERSIDE EXPRESSWAY.—There is authorized to be appropriated $53,400,000 for construction of the Riverside Expressway, including bridges crossing the Monongahela River and Buffalo Creek, in the vicinity of Fairmont, West Virginia. The Federal share of the cost of such project shall be 80 percent.

(e) BUSWAY.—There is authorized to be appropriated $39,500,000 for design and construction of an exclusive busway linking Pittsburgh and Pittsburgh Airport. The Federal share of such project shall be 80 percent.

(f) EXTON BYPASS.—There is authorized to be appropriated $11,004,000 for construction of the Exton Bypass, in Exton, Pennsylvania. The Federal share of such project shall be 80 percent.

(g) PENNSYLVANIA ROUTE 33 EXTENSION.—There is authorized to be appropriated $5,400,000 for extension of Route 33 in Northampton County, Pennsylvania. The Federal share of such project shall be 80 percent.

(h) U.S. ROUTE 202.—There is authorized to be appropriated $4,500,000 for construction of U.S. Route 202. The Federal share of such project shall be 80 percent.

(i) WOODROW WILSON BRIDGE.—There is authorized to be appropriated $15,000,000 for rehabilitation of the Woodrow Wilson Bridge. The Federal share of such project shall be 100 percent.

(j) WARREN OUTERBELT IMPROVEMENT, WARREN, OHIO.—There is authorized to be appropriated $1,000,000 for design and construction of Warren Outerbelt improvements, Warren, Ohio. The Federal share of such project shall be 80 percent.

(k) OHIO STATE ROUTE 46 IMPROVEMENTS.—There is authorized to be appropriated $2,000,000 for design and construction of Ohio State Route 46 improvements. The Federal share of such project shall be 80 percent.

(l) OHIO STATE ROUTE 5 IMPROVEMENTS.—There is authorized to be appropriated $1,000,000 for design and construction of Ohio State Route 5 improvements. The Federal share of such project shall be 80 percent.

(m) U.S. ROUTE 62 IMPROVEMENTS, OHIO.—There is authorized to be appropriated $1,000,000 for design and construction of U.S. Route 62 improvements, Ohio. The Federal share of such project shall be 80 percent.

(n) OHIO STATE ROUTE 534 IMPROVEMENTS.—There is authorized to be appropriated $1,000,000 for design and construction of Ohio State Route 534 improvements. The Federal share of such project shall be 80 percent.

(o) OHIO STATE ROUTE 45 IMPROVEMENTS.—There is authorized to be appropriated $1,000,000 for design and construction of Ohio State Route 45 improvements. The Federal share of such project shall be 80 percent.

(p) ROUTE 120, LOCK HAVEN, PENNSYLVANIA.—There is authorized to be appropriated $4,000,000 for the widening of Route 120 and the removal of unstable rockfill area, Lock Haven, Pennsylvania. The Federal share of such project shall be 80 percent.

(q) TRUSS BRIDGE, TIOGA RIVER, LAWRENCEVILLE, PENNSYLVANIA.—There is authorized to be appropriated $3,200,000 to replace the existing Truss Bridge across the Tioga River, in Lawrenceville, Pennsylvania. The Federal share of such project shall be 80 percent.

(r) U.S. ROUTE 6, BRADFORD COUNTY, PENNSYLVANIA.—There is authorized to be appropriated $3,000,000 for the widening of U.S. Route 6 (Wysox Narrows Road), in Bradford County, Pennsylvania. The Federal share of such project shall be 80 percent.

(s) SEBRING/MANSFIELD BYPASS, PENNSYLVANIA.—There is authorized to be appropriated $4,800,000 for design and construction of the Sebring/Mansfield Bypass on U.S. 15, Pennsylvania. The Federal share of such project shall be 80 percent.

(t) I–5 IMPROVEMENTS.—The States of Oregon and Washington should give priority consideration to improvements on the I–5 Corridor. The Secretary shall give priority consideration to funding I–5 improvements in Oregon and Washington from section 118(c)(2) of title 23, United States Code, as amended by this Act. The Secretary shall give the highest priority to those Oregon projects identified in the State's transportation improvement plan.

(u) ROUTE 219.—The Secretary shall designate Route 219 from the Maryland line to Buffalo, New York, as part of the National Highway System.

(v) COALFIELDS EXPRESSWAY.—There is authorized to be appropriated such sums as may be necessary for design and construction of the project known as "Coalfields Expressway" from Beckley, West Virginia, to the West Virginia-Virginia State line, generally following the corridor defined by, but not necessarily limited to, Routes 54, 97, 10, 16, and 93. The Federal share of such project shall be 80 percent.

(w) UNITED STATES ROUTE 119.—There is authorized to be appropriated $70,000,000 for upgrading United States Route 119 to 4 lanes beginning west of Huddy, Kentucky. The Federal share of such project shall be 80 percent.

(x) CHAMBERSBURG, PENNSYLVANIA.—Not later than 30 days after the date of the enactment of this Act, in Chambersburg, Pennsylvania, at both the intersection of Lincoln Way and Sixth Street and the intersection of Lincoln Way and Coldbrook Avenue, the Pennsylvania Department of Transportation shall include an exclusive pedestrian phase in the existing lighting sequence between the hours of 8:00 and 8:30 a.m. and between the hours of 2:45 and 3:45 p.m. on weekdays.

(y) CONSTRUCTION OF AND IMPROVEMENTS TO THE APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM.—There is authorized to be appropriated such sums as may be necessary for projects involving construction of, and improvements to, corridors of the Appalachian Development Highway System.

(z) UNITED STATES ROUTE 52 IN WEST VIRGINIA.—(1) There is authorized to be appropriated such sums as may be necessary for projects for the construction, renovation, and reconstruction of United States Route 52 in West Virginia.

(2) The Federal share payable on account of any such project shall be 80 percent of the cost thereof.

(aa) ROUTE 219, NEW YORK.—(1) For the purpose of projects to improve and upgrade Route 219 in New York, from Springeville to the Pennsylvania border Route 219 shall be considered as eligible for funding under the Appalachian Development Highway System.

(2) For purposes of paragraph (1) there is authorized to be appropriated such sums as may be necessary. The Federal share payable on account of such project shall be 80 percent of the cost thereof.

(bb) ROUTES 5 AND 92 CONGESTION MANAGEMENT PROJECT.—There is authorized to be appropriated $20,000,000 to carry out a project to relieve congestion in the vicinity of the intersection of routes 5 and 92 in the Towns of Manlius, New York, and Dewitt, New York.

(cc) ROCHESTER ADVANCED TRAFFIC MANAGEMENT SYSTEM.—There is authorized to be appropriated $15,000,000 to implement an integrated advanced traffic management/advanced driver information system in the city of Rochester, New York.

(dd) RENSSELAER ACCESS PROJECT.—There is authorized to be appropriated $35,000,000 to construct a new interchange (Exit 8) on Interstate Route 90, which includes an access-controlled roadway, in Rensselaer County, New York.

(ee) GOWANUS EXPRESSWAY CORRIDOR IMPROVEMENTS.—There is authorized to be appropriated $200,000,000 to carry out improvements to the Gowanus Expressway Corridor in Brooklyn, New York.

(ff) I–287 CROSS WESTCHESTER EXPRESSWAY HIGH OCCUPANCY VEHICLE LANE PROJECT.—There is authorized to be appropriated $200,000,000 to construct High Occupancy Vehicle Lanes on the Cross Westchester Expressway in Westchester County, New York.

(gg) OAK POINT LINK FREIGHT ACCESS PROJECT.—There is authorized to be appropriated $150,000,000 to complete the construction of the Oak Point Link in the Harlem River in New York City, New York.

(hh) OPERATIONAL IMPROVEMENTS, FRANKLIN DELANO ROOSEVELT DRIVE.—There is authorized to be appropriated $50,000,000 to carry out operational and safety improvements to the Franklin Delano Roosevelt Drive in New York City, New York.

SEC. 1070. MODIFICATIONS OF NIAGARA FALLS BRIDGE COMMISSION CHARTER.

(a) PAYMENT OF COSTS.—

(1) IN GENERAL.—Section 4 of the joint resolution entitled "Joint resolution creating the Niagara Falls Bridge Commission and authorizing said Commission and its successors to construct, maintain, and operate a bridge across the Niagara River at or near the city of Niagara Falls, New York", approved June 16, 1938, as amended (hereinafter in this section referred to as the "Joint Resolution"), is amended to read as follows:

"SEC. 4. The Commission is authorized to issue its obligations to provide funds for the acquisition or construction of bridges (provided the same is authorized by Act or Joint Resolution of Congress of the United States), and the repair, renovation and expansion of the same, working capital and other expenditures and deposits convenient to carrying out the Commission's purposes. The terms of the obligations shall be determined by resolution of the Commission (subject to such agreements with bondholders as may then exist), including provisions regarding rates of interest (either fixed or variable), contracts for credit support, risk management, liquidity or other financial arrangements, security or provision for payment of the obligations and such contracts (including the general obligation of the Commission and the pledge of all or any particular revenues or proceeds of obligations of the Commission). The obligations shall be sold at public or private sale at such prices above or below par as the Commission shall determine. As used herein 'bridges' includes approaches thereto, land, easements and functionally related appurtenances.".

(2) EXISTING CONTRACTUAL RIGHTS.—The amendments made by paragraph (1) shall be subject to the contractual rights of the holders of any of the bonds of the Niagara Falls Bridge

Commission which are outstanding as of the date of the enactment of this section.

(b) REPAYMENTS.—Section 5 of the Joint Resolution is amended—

(1) in the first sentence—

(A) by striking "a fund" and "a sinking fund" each place such terms appear and inserting "funds",

(B) by striking "herein provided" and inserting "provided by resolution",

(C) by striking "bonds" and inserting "obligations,", and

(D) by striking "bridge" and inserting "bridges" each place such term appears, and

(2) by striking the second and third sentences and inserting: "After payment or provision for payment of the foregoing uses, the remainder of the tolls shall be applied, as and when the Commission determines, for purposes convenient to the accomplishment of its purposes.".

(c) TREATMENT OF COMMISSION.—The last sentence of section 6 of the Joint Resolution is amended to read as follows: "The Commission shall be deemed for purposes of all Federal law to be a public agency or public authority of the State of New York, notwithstanding any other provision of law.".

(d) ADMINISTRATIVE PROVISIONS.—Section 8 of the Joint Resolution is amended in the second sentence thereof by striking out "shall not be entitled to any compensation for their services but" and inserting "shall be entitled to reimbursement for actual expenses incurred in the performance of official duties and to a per diem allowance per member of $150 when rendering services as such member (but not exceeding $10,000 for any member in any fiscal year).".

SEC. 1071. PEACE BRIDGE TRUCK INSPECTION FACILITIES.

Notwithstanding any other provision of law, the Administrator of General Services shall lease truck inspection facilities for the Peace Bridge. Such facilities must be immediately adjacent to the intersection of Porter Avenue and the New York State Thruway in Buffalo, New York. Before leasing such facilities, the Administrator must be assured that the facilities will be offered at a fair market price and that the facilities chosen will be connected to the bridge by a secure access road. Provided that these conditions are met, the Administrator shall enter into the lease on or before April 30, 1992.

SEC. 1072. VEHICLE PROXIMITY ALERT SYSTEM.

The Secretary shall coordinate the field testing of the vehicle proximity alert system and comparable systems to determine their feasibility for use by priority vehicles as an effective railroad-highway grade crossing safety device. In the event the vehicle proximity alert or a comparable system proves to be technologically and economically feasible, the Secretary shall develop and implement appropriate programs under section 130 of title 23, United States Code, to provide for installation of such devices where appropriate.

SEC. 1073. ROADSIDE BARRIERS AND SAFETY APPURTENANCES.

(a) INITIATION OF RULEMAKING PROCEEDING.—Not later than 30 days after the date of the enactment of this Act, the Secretary shall initiate a rulemaking proceeding to revise the guidelines and establish standards for installation of roadside barriers and other safety appurtenances, including longitudinal barriers, end terminals, and crash cushions. Such rulemaking shall reflect state-of-the-art designs, testing, and evaluation criteria contained in the National Cooperative Highway Research Program Report 230, relating to approval standards which provide an enhanced level of crashworthy performance to accommodate vans, mini-vans, pickup trucks, and 4-wheel drive vehicles.

(b) FINAL RULE.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall complete the rulemaking proceeding initiated under subsection (a), and issue a final rule regarding the implementation of revised guidelines and standards for acceptable roadside barriers and other safety appurtenances, including longitudinal barriers, end terminals, and crash cushions. Such revised guidelines and standards shall accommodate vans, mini-vans, pickup trucks, and 4-wheel drive vehicles and shall be applicable to the refurbishment and replacement of existing roadside barriers and safety appurtenances as well as to the installation of new roadside barriers and safety appurtenances.

SEC. 1074. DESIGNATION OF UNITED STATES ROUTE 69.

Notwithstanding any other provision of law, upon the request of the Oklahoma State highway agency, the Secretary shall designate the portion of United States Route 69 from the Oklahoma-Texas State line to Checotah in the State of Oklahoma as a part of the Interstate System pursuant to section 139 of title 23, United States Code.

SEC. 1075. SPECIAL PROVISIONS REGARDING CERTAIN HYDROELECTRIC PROJECTS.

(a) Brasfield Dam Project in Virginia.—(1) Notwithstanding section 13 of the Federal Power Act providing for the termination of a license issued by the Federal Energy Regulatory Commission (hereinafter in this subsection referred to as the "Commission") to the Appomattox River Water Authority (hereinafter in this subsection referred to as the "Authority") for the Brasfield Dam Hydroelectric Project (FERC Project No. 9840-001) on the Appomattox River in Chesterfield and Dinwiddie Counties, Virginia, and notwithstanding the prior surrender of such license by the Authority, the Commission shall reissue such license to the Authority, together with any amendments necessary and appropriate to carry out this subsection, and extend the period referred to in section 13 of that Act for a period ending 3 years after the enactment of this Act, subject to the requirements of this section and the provisions of Federal Power Act.

(2) During the 3-year period referred to in paragraph (1), the Commission shall issue an order, at the request of the Authority, permitting the Authority to transfer the license for such project to another person designated by the Authority for the purpose of protecting the Authority from challenge in connection with its agreement of trust with the Crestar Bank or under any provision of law of the State of Virginia. Any such transfer shall occur at a time specified in the order which shall not be after the expiration of the 3-year period referred to in paragraph (1).

(3) Any license transfer under this subsection shall require that the licensee shall be subject to, and comply with, the license and the provisions of the Federal Power Act, including the provisions of section 10 thereof (related to fish and wildlife) with respect to such project to the same extent and in the same manner as the Authority would be subject to such license and such Act in the absence of such transfer. Nothing in the transfer of such license shall affect the authority or power of the Commission under the license or under the Federal Power Act. Nothing in the Federal Power Act shall be construed as precluding a transfer of such license for the purposes specified in this section.

.(4) Any license transfer under this subsection shall be subject to revocation, at the request of the Authority, to permit the Authority to surrender the license. No surrender of such license by the Authority (or by any other person) shall be effective until after—

(A) reasonable prior notice (as determined by the Commission),

(B) completion of project construction, including the installation of any facilities for the protection, mitigation, and enhancement of fish and wildlife required under the license (including facilities required by the State fish and wildlife agency); and

(C) delivery to the Commission of a statement certified by the Board of the Authority that the terms of any actual or proposed Commission order with respect to the Brasfield Dam Hydroelectric Project would cause the Authority to act in violation of its Charter or be inconsistent with its bond indentures.

The Commission shall accept the surrender of such license and establish conditions applicable to such license surrender which require the removal of hydroelectric power generation facilities, require that the licensee provide assurances satisfactory to the Commission that, following surrender of the license, the Brasfield Dam will be subject to State laws regarding fish and wildlife and dam safety and require that such surrender will not impose any duty, liability or obligation on the part of any department, agency, or instrumentality of the United States. Nothing in this section shall affect the application of the River and Harbor Act of 1894 (33 U.S.C. Sec. 1).

(b) Projects Nos. 3033, 3034, and 3246.—(1) Notwithstanding the time limitations of section 13 of the Federal Power Act (16 U.S.C. 806), the Federal Energy Regulatory Commission, upon the request of the licensees for Federal Energy Regulatory Commission Projects Nos. 3033, 3034, and 3246 (and after reasonable notice), is authorized, in accordance with the good faith, due diligence, and public interest requirements of such section and the Commission's procedures under such section, to extend—

(A) until August 10, 1994, the time required for the licensee to acquire the required real property and commence the construction of Project No. 3033, and until August 10, 1999, the time required for completion of construction of the project;

(B) until August 10, 1996, the time required for the licensee to acquire the required real property and commence the construction of Project No. 3034, and until August 10, 2001, the time required for completion of construction of the project; and

(C) until October 15, 1995, the time required for the licensee to acquire the required real property and commence the construction of Project No. 3246, and until October 15, 1999, the time required for completion of construction of the project.

(2) The authorization for issuing extensions under this subsection shall terminate 3 years after the date of enactment of this section.

(3) To facilitate requests under this subsection, the Commission may consolidate the requests.

(c) Union City, Michigan.—Notwithstanding section 23(b) or section 4(e) of the Federal Power Act, it shall not be unlawful for the municipality of Union City, Michigan, to operate, maintain, repair, reconstruct, replace, or modify—

(1) any dam which, as of the date of the enactment of this Act, is owned and operated by Union City, Michigan, and located across a segment of the St. Joseph River, in Branch County, Michigan, approximately 5 miles downstream from such municipality, or

(2) any water conduit, reservoir, power house, and other works incidental to such dam.

No license shall be required under part 1 of the Federal Power Act for the dam, water conduit, reservoir, power house, or other project works referred to in the preceding sentence and, subject to compliance with State laws, permission is hereby granted for such facilities to the same extent as in the case of facilities for which permission is granted under the last sentence of section 23(b) of that Act.

SEC. 1076. SHORELINE PROTECTION.

The project for shoreline protection, Atlantic Coast of New York City from Rockaway Inlet to

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

Norton Point, authorized by section 501(a) of the Water Resources Development Act of 1986 (Public Law 99-662; 100 Stat. 4135), is modified to authorize the Secretary to construct the project at a total first cost of $69,200,000, based on the New York District Engineer's draft General Design Memorandum dated April 1991, with an estimated first Federal cost of $39,800,000 and an estimated non-Federal cost of $29,400,000, and an average annual cost of $580,000 for periodic nourishment over the life of the project, with an estimated annual Federal cost of $377,000 and an estimated annual non-Federal cost of $203,000. The Secretary shall proceed with the storm damage reduction measures as the first construction feature. The project is further modified to authorize the Secretary to relocate existing comfort and lifeguard stations at full Federal expense, provided such relocations are desired by the non-Federal sponsor. Operation and maintenance of the facilities after relocation will be a non-Federal responsibility. The cost of these relocations shall not be treated as a project cost for purposes of either economic evaluation or project cost-sharing of the project.

SEC. 1077. REVISION OF MANUAL.

Not later than 90 days after the date of the enactment of this Act, the Secretary shall revise the Manual of Uniform Traffic Control Devices and such other regulations and agreements of the Federal Highway Administration as may be necessary to authorize States and local governments, at their discretion, to install stop or yield signs at any rail-highway grade crossing without automatic traffic control devices with 2 or more trains operating across the rail-highway grade crossing per day.

SEC. 1078. DECLARATION OF NONNAVIGABILITY OF PORTION OF HUDSON RIVER, NEW YORK.

(a) DECLARATION OF NONNAVIGABILITY.—Subject to subsections (c), (d), and (e), the area described in subsection (b) is declared to be nonnavigable waters of the United States.

(b) AREA SUBJECT TO DECLARATION.—The area described in this subsection is the portion of the Hudson River, New York, described as follows (according to coordinates and bearings in the system used on the Borough Survey, Borough President's Office, New York, New York):

Beginning at a point in the United States Bulkhead Line approved by the Secretary of War, July 31, 1941, having a coordinate of north 1918.003 west 9806.753.

Running thence easterly, on the arc of a circle curving to the left, whose radial line bears north 3°-44'-20" east, having a radius of 390.00 feet and a central angle of 22°-05'-50", 150.41 feet to a point of tangency.

Thence north 71°-38'-30" east, 42.70 feet.

Thence south 11°-05'-40" east, 33.46 feet.

Thence south 78°-54'-20" west, 0.50 feet.

Thence south 11°-05'-40" east, 2.50 feet.

Thence north 78°-54'-20" east, 0.50 feet.

Thence south 11°05'40" east, 42.40 feet to a point of curvature.

Thence southerly, on the arc of a circle curving to the right, having a radius of 220.00 feet and a central angle of 16°37'40", 63.85 feet to a point of compound curvature.

Thence still southerly, on the arc of a circle curving to the right, having a radius of 150.00 feet and a central angle of 38°39'00", 101.19 feet to another point of compound curvature.

Thence westerly, on the arc of a circle curving to the right, having a radius of 172.05 feet and a central angle of 32°32'03", 97.69 feet to a point of curve intersection.

Thence south 13°16'57" east, 50.86 feet to a point of curve intersection.

Thence westerly, on the arc of a circle curving to the left, whose radial bears north 13°16'57" west, having a radius of 6.00 feet and a central angle of 180°32'31", 18.91 feet to a point of curve intersection.

Thence southerly, on the arc of a circle curving to the left, whose radial line bears north 75°37'11" east, having a radius of 313.40 feet and a central angle of 4°55'26", 26.93 feet to a point of curve intersection.

Thence south 70°41'45" west, 36.60 feet.

Thence north 13°45'00" west, 42.87 feet.

Thence south 76°15'00" west, 15.00 feet.

Thence south 13°45'00" east, 44.33 feet.

Thence south 70°41'45" west, 128.09 feet to a point in the United States Pierhead Line approved by the Secretary of War, 1936.

Thence north 63°08'48" west, along the United States Pierhead Line approved by the Secretary of War, 1936, 114.45 feet to an angle point therein.

Thence north 61°08'00" west, still along the United States Pierhead Line approved by the Secretary of War, 1936, 202.53 feet.

The following three courses being along the lines of George Soilan Park as shown on map prepared by The City of New York, adopted by the Board of Estimate, November 13, 1981, Acc. N° 30071 and lines of property leased to Battery Park City Authority and B. P. C. Development Corp.

Thence north 77°35'20" east, 231.35 feet.

Thence north 12°24'40" west, 33.92 feet.

Thence north 54°49'00" east, 171.52 feet to a point in the United States Bulkhead Line approved by the Secretary of War, July 31, 1941.

Thence north 12°24'40" west, along the United States Bulkhead Line approved by the Secretary of War, July 31, 1941, 62.26 feet to the point or place of beginning.

(c) DETERMINATION OF PUBLIC INTEREST.—The declaration made in subsection (a) shall not take effect if the Secretary of the Army (acting through the Chief of Engineers), using reasonable discretion, finds that the proposed project is not in the public interest—

(1) before the date which is 120 days after the date of the submission to the Secretary of appropriate plans for the proposed project; and

(2) after consultation with local and regional public officials (including local and regional public planning organizations).

(d) LIMITATION ON APPLICABILITY OF DECLARATION.—

(1) AFFECTED AREA.—The declaration made in subsection (a) shall apply only to those portions of the area described in subsection (b) which are or will be occupied by permanent structures (including docking facilities) comprising the proposed project.

(2) APPLICATION OF OTHER LAWS.—Notwithstanding subsection (a), all activities conducted in the area described in subsection (b) are subject to all Federal laws which apply to such activities, including—

(A) sections 9 and 10 of the Act of March 3, 1899 (33 U.S.C. 401, 403), commonly known as the River and Harbors Appropriation Act of 1899;

(B) section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1254); and

(C) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(e) EXPIRATION DATE.—The declaration made in subsection (a) shall expire—

(1) on the date which is 6 years after the date of the enactment of this Act if work on the proposed project to be performed in the area described in subsection (b) is not commenced before such date; or

(2) on the date which is 20 years after the date of the enactment of this Act for any portion of the area described in subsection (b) which on such date is not bulkheaded, filled, or occupied by a permanent structure (including docking facilities).

(f) PROPOSED PROJECT DEFINED.—For the purposes of this section, the term "proposed project" means any project for the rehabilitation and development of—

(1) the structure located in the area described in subsection (b), commonly referred to as Pier A; and

(2) the area surrounding such structure.

SEC. 1079. CLEVELAND HARBOR, OHIO.

(a) DEAUTHORIZATION OF PORTION OF PROJECT FOR HARBOR MODIFICATION.—That portion described in subsection (b) of the project for harbor modification, Cleveland Harbor, Ohio, authorized by section 202(a) of the Water Resources Development Act of 1986 (100 Stat. 4095), is not authorized after the date of the enactment of this Act.

(b) AREA SUBJECT TO DEAUTHORIZATION.—The portion of the project for harbor modification, Cleveland Harbor, Ohio, described in this subsection is that portion situated in the City of Cleveland, Cuyahoga County, and State of Ohio, T7N, R13W and being more fully described as follows:

Beginning at an iron pin monument at the intersection of the centerline of East 9th Street (99 feet wide) with the centerline of relocated Erieside Avenue N.E. (70 ft. wide).

Thence South 50°06'52" West on the centerline of relocated Erieside Avenue N.E. a distance of 112.89 feet to a point.

Thence southwesterly continuing on the centerline of relocated Erieside Avenue N.E. along the arc of a curve to the left, with a radius of 300.00 feet and whose chord bears South 42°36'52" West 140.07 feet, an arc distance of 141.37 feet to a point.

Thence North 60°53'08" West a distance of 35.00 feet to a point on the northwesterly right-of-way line of relocated Erieside Avenue N.E.

Thence South 29°06'52" West on the northwesterly right-of-way line of relocated Erieside Avenue N.E. a distance of 44.36 feet to a point.

Thence North 33°53'08" West a distance of 158.35 feet to a point.

Thence South 56°06'52" West a distance of 76.00 feet to a point.

Thence North 78°53'08" West a distance of 18.39 feet to a point.

Thence North 33°53'08" West a distance of 33.50 feet to a point, said point being the true place of beginning of the parcel herein described.

Thence South 56°06'52" West a distance of 84.85 feet to a point.

Thence North 33°53'08" West a distance of 137.28 feet to a point.

Thence North 11°06'52" East a distance of 225.00 feet to a point.

Thence South 78°53'08" East a distance of 160.00 feet to a point.

Thence South 11°06'52" West a distance of 46.16 feet to a point.

Thence South 56°06'52" West a distance of 28.28 feet to a point.

Thence South 11°06'52" West a distance of 89.70 feet to a point.

Thence South 33°53'08" East a distance of 28.28 feet to a point.

Thence South 11°06'52" West a distance of 83.29 feet to a point.

Thence South 56°06'52" West a distance of 4.14 feet to a true place of beginning containing 42,646 square feet more or less.

(c) REIMBURSEMENT NOT REQUIRED.—The Ohio Department of Natural Resources shall not be required to reimburse the Federal Government any portion of the credit received by the non-Federal project sponsor as provided for in Public Law 100–202 (101 Stat. 1329–108).

(d) AREA TO BE DECLARED NONNAVIGABLE; PUBLIC INTEREST.—Unless the Secretary of the Army finds, after consultation with local and regional public officials (including local and regional public planning organizations), that the proposed projects to be undertaken within the boundaries in the portions of Cleveland Harbor, Ohio, described below, are not in the public interest then, subject to subsections (e) and (f) of this section, those portions of such Harbor, bounded and described as follows, are declared to be nonnavigable waters of the United States:

Situated in the City of Cleveland, Cuyahoga County and State of Ohio, T7N, R13W and being more fully described as follows:

Beginning at an iron pin monument at the intersection of the centerline of East 9th Street (99 feet wide) with the centerline of relocated Erieside Avenue, N.E., (70 feet wide) at Cleveland Regional Geodetic Survey Grid System, (CRGS) coordinates N92,679.734, E86,085.955;

Thence South 56°06'52" West on the centerline of relocated Erieside Avenue, N.E., a distance of 89.50 feet to a drill hole set;

Thence North 33°53'08" West a distance of 35.00 feet to a drill hole set on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., said point being the true place of beginning of the parcel herein described;

Thence South 56°06'52" West on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., a distance of 23.39 feet to a ⅝ inch re-bar set;

Thence southwesterly on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., along the arc of a curve to the left with a radius of 335.00 feet, and whose chord bears South 42°36'52" West 156.41 feet, an arc distance of 157.87 feet to a ⅝ inch re-bar set;

Thence South 29°06'52" West on the northwesterly right-of-way line of relocated Erieside Avenue, N.E., a distance of 119.39 feet to a ⅝ inch re-bar set;

Thence southwesterly on the northwesterly right-of-way of relocated Erieside Avenue, N.E., along the arc of a curve to the right with a radius of 665.00 feet, and whose chord bears South 32°22'08" West 75.50 feet, an arc distance of 75.54 feet to a ⅝ inch re-bar set;

Thence North 33°53'08" West a distance of 279.31 feet to a drill hole set;

Thence South 56°06'52" West a distance of 37.89 feet to a drill hole set;

Thence North 33°53'08" West a distance of 127.28 feet to a point;

Thence North 11°06'52" East a distance of 225.00 feet to a point;

Thence South 78°53'08" East a distance of 150.00 feet to a drill hole set;

Thence North 11°06'52" East a distance of 32.99 feet to a drill hole set;

Thence North 33°53'08" East a distance of 46.96 feet to a drill hole set;

Thence North 56°06'52" East a distance of 140.36 feet to a drill hole set on the southwesterly right-of-way line of East 9th Street;

Thence South 33°53'08" East on the southwesterly right-of-way line of East 9th Street a distance of 368.79 feet to a drill hole set;

Thence southwesterly along the arc of a curve to the right with a radius of 40.00 feet, and whose chord bears South 11°06'52" West 56.57 feet, an arc distance of 62.83 feet to the true place of beginning containing 174,764 square feet (4.012 acres) more or less.

(e) LIMITS ON APPLICABILITY; REGULATORY REQUIREMENTS.—The declaration under subsection (d) shall apply only to those parts of the areas described in subsection (d) which are or will be bulkheaded and filled or otherwise occupied by permanent structures, including marina facilities. All such work is subject to all applicable Federal statutes and regulations, including sections 9 and 10 of the Act of March 3, 1899 (30 Stat. 1151; 33 U.S.C. 401 and 403), commonly known as the River and Harbors Appropriation Act of 1899, section 404 of the Federal Water Pollution Control Act, and the National Environmental Policy Act of 1969.

(f) EXPIRATION DATE.—If, 20 years from the date of the enactment of this Act, any area or part thereof described in subsection (d) is not bulkheaded or filled or occupied by permanent structures, including marina facilities, in accordance with the requirements set out in subsection (e) of this section, or if work in connection with any activity permitted in subsection (e) is not commenced within 5 years after issuance of such permit, then the declaration of nonnavigability for such area or part thereof shall expire.

SEC. 1080. DEAUTHORIZATION OF A PORTION OF THE CANAVERAL HARBOR, FLORIDA, PROJECT.

The following portion of the project for navigation, Canaveral Harbor, Florida, authorized by the River and Harbor Act of 1945, as modified by the River and Harbor Act of 1962 (Pub. L. 87-874), shall not be authorized after the date of the enactment of this Act:

Begin at the northwesterly corner of the west turning basin, Federal navigation project, Canaveral Harbor, Brevard County, Florida, having a northing of 1,483,798.695 and an easting of 619,159.191 (Florida east zone, State plane transverse mercator standard conical projections) and being depicted on the Department of the Army, Jacksonville District, Corps of Engineers 'Construction Dredging 31 Foot Project', D.O. File No. 11–34, 465 sheet 35, dated October 1984; thence S. 0°18'51" E., along said westerly boundary, a distance of 1320.00 feet; thence N. 89°41'09" E., a distance of 1095.00 feet; thence N. 62°35'15" W., a distance of 551.30 feet; thence N. 56°56'18" E., a distance of 552.87 feet; thence S. 89°41'09" W., a distance of 1072.00 feet to the point of beginning (containing 21.43 acres, more or less).

SEC. 1081. INFRASTRUCTURE INVESTMENT COMMISSION.

(a) ESTABLISHMENT OF COMMISSION.—There is established a commission to be known as the "Commission to Promote Investment in America's Infrastructure" (hereinafter in this section referred to as the "Commission").

(b) FUNCTION OF COMMISSION.—It shall be the function of the Commission to conduct a study on the feasibility and desirability of creating a type of infrastructure security to permit the investment of pension funds in funds used to design, plan, and construct infrastructure facilities in the United States. Such study may also include an examination of other methods of encouraging public and private investment in infrastructure facilities.

(c) MEMBERSHIP.—

(1) NUMBER AND APPOINTMENT.—The Commission shall be composed of 7 members appointed as follows:

(A) 2 members appointed by the majority leader of the Senate.

(B) 2 members appointed by the Speaker of the House of Representatives.

(C) 1 member appointed by the President.

(D) 1 member appointed by the minority leader of the Senate.

(E) 1 member appointed by the minority leader of the House of Representatives.

(2) QUALIFICATIONS.—Members of the Commission shall have appropriate backgrounds in finance, construction lending, actuarial disciplines, pensions, and infrastructure policy disciplines.

(3) CHAIRPERSON.—The Chairperson of the Commission shall be elected by the members.

(d) PAY AND TRAVEL EXPENSES.—Members shall serve without pay but shall be allowed travel expenses, including per diem in lieu of subsistence, while away from their homes or regular places of business in the performance of services for the Commission in the same manner as persons employed intermittently in the Government service are allowed under section 5703 of title 5, United States Code.

(e) STAFF.—Subject to such rules as may be prescribed by the Commission, the Chairperson may—

(1) appoint and fix the pay of an executive director, a general counsel, and such additional staff as the Chairperson considers necessary, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, except that the rate of pay for such staff members may not exceed the rate payable for level V of the Executive Schedule under section 5316 of title 5, United States Code; and

(2) procure temporary and intermittent services to the same extent as is authorized by section 3109(b) of title 5, United States Code, at rates for individuals which do not exceed the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of such title.

(f) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Commission shall transmit to the President and Congress a report containing its findings and recommendations.

(g) TERMINATION.—The Commission shall terminate on the 180th day following the date of the submission of its report under subsection (f).

SEC. 1082. DEAUTHORIZATION OF ACADEMY CREEK FEATURE OF THE BRUNSWICK HARBOR, GEORGIA, PROJECT.

The Academy Creek feature of the Brunswick Harbor, Georgia, project, authorized for construction by the River and Harbor Act of 1907 in accordance with House Document 407, 59th Congress, shall not be authorized after the date of the enactment of this Act.

SEC. 1083. NAMINGS.

(a) WILLIAM H. HARSHA BRIDGE.—The United States Route 68 bridge across the Ohio River between Aberdeen, Ohio, and Maysville, Kentucky, shall be known and designated as the "William H. Harsha Bridge".

(b) J. CLIFFORD NAUGLE BYPASS.—The highway bypass being constructed around the Borough of Ligonier in Westmoreland County, Pennsylvania, shall be known and designated as the "J. Clifford Naugle Bypass".

(c) LINDY CLAIBORNE BOGGS LOCK AND DAM.—

(1) DESIGNATION.—The lock and dam numbered 1 on the Red River Waterway in Louisiana shall be known and designated as the "Lindy Claiborne Boggs Lock and Dam".

(2) REFERENCE.—Any reference in any law, regulation, document, record, map, or other paper of the United States to the lock and dam referred to in paragraph (1) shall be deemed to be a reference to the "Lindy Boggs Lock and Dam".

(d) JOSEPH RALPH SASSER BOAT RAMP.—

(1) DESIGNATION.—The boat ramp constructed on the left bank of the Mississippi River at River Mile 752.5 at Shelby Forest in Shelby County, Tennessee, shall be known and designated as the "Joseph Ralph Sasser Boat Ramp".

(2) LEGAL REFERENCE.—A reference to any law, map, regulation, document, record, or other paper of the United States to such boat ramp shall be deemed to be a reference to the "Joseph Ralph Sasser Boat Ramp".

SEC. 1084. SIGNING OF UNITED STATES HIGHWAY 71.

The Arkansas State Highway and Transportation Department shall erect the signs along United States Highway 71 from the I–40 intersection to the Missouri-Arkansas State line which are required to be erected by the Arkansas State law designated as Act 6 of 1989.

SEC. 1085. CONTINUATION OF AUTHORIZATION FOR RHODE ISLAND NAVIGATION PROJECT.

(a) CONTINUATION OF AUTHORIZATION.—Notwithstanding section 1001(a) of the Water Re-

sources Development Act of 1986, the project for navigation, Providence, Rhode Island, authorized by section 1166(c) of the Water Resources Development Act of 1986, shall remain authorized to be carried out by the Secretary.

(b) TERMINATION DATE.—The project described in subsection (a) shall not be authorized for construction after the last day of the 5-year period that begins on the date of the enactment of this Act unless, during this period, funds have been obligated for construction, including planning and design, of the project.

SEC. 1086. PENSACOLA, FLORIDA.

(a) STUDY.—The Secretary shall conduct a study of the feasibility of constructing, in accordance with standards applicable to Interstate System highways, a 4-lane highway connecting Interstate Route 65 and Interstate Route 10 in the vicinity of Pensacola, Florida.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with recommendations for the location of a corridor in which to construct the highway described in subsection (a).

SEC. 1087. INCLUSION OF CALHOUN COUNTY, MISSISSIPPI, IN APPALACHIA.

Section 403 of the Appalachian Regional Development Act of 1965 (40 U.S.C. App. 403) is amended in the fifth undesignated paragraph of such section by inserting "Calhoun," after "Benton,".

SEC. 1088. HANDICAPPED PARKING SYSTEM.

(a) STUDY.—The Secretary shall conduct a study of the progress being made by the States in adopting and implementing the uniform system for handicapped parking established in regulations issued by the Secretary pursuant to Public Law 100–641 (102 Stat. 3335).

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit a report to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives on the results of the study conducted under this section.

SEC. 1089. FEASIBILITY OF INTERNATIONAL BORDER HIGHWAY INFRASTRUCTURE DISCRETIONARY PROGRAM.

(a) STUDY.—The Secretary shall conduct a study of the advisability and feasibility of establishing an international border highway infrastructure discretionary program. The purpose of such a program would be to enable States and Federal agencies to construct, replace, and rehabilitate highway infrastructure facilities at international borders when such States, agencies, and the Secretary find that an international bridge or a reasonable segment of a major highway providing access to such a bridge (1) is important; (2) is unsafe because of structural deficiencies, physical deterioration, or functional obsolescence; (3) poses a safety hazard to highway users; (4) by its construction, replacement, or rehabilitation, would minimize disruptions, delays, and costs to users; or (5) by its construction, replacement, or rehabilitation, would provide more efficient routes for international trade and commerce.

(b) REPORT.—Not later than September 30, 1993, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with any recommendations to the Secretary.

SEC. 1090. METHODS TO REDUCE TRAFFIC CONGESTION DURING CONSTRUCTION.

(a) SENSE OF CONGRESS.—It is the sense of Congress that many highway projects are carried out in a way which unnecessarily disrupts traffic flow during construction and that methods need to be adopted to eliminate or reduce these disruptions.

(b) STUDY.—The Secretary shall conduct a study on methods of enhancing traffic flow and minimizing traffic congestion during construction of Federal-aid highway projects and on costs associated with implementing such methods.

(c) CONSIDERATIONS.—In conducting the study under this section, the Secretary shall consider—

(1) the feasibility of carrying out construction of Federal-aid highway projects during off-peak periods and limiting closure of highway lanes on Federal-aid highways to portions of highways for which actual construction is in progress and for which safety concerns require closure; and

(2) the need for establishment and operation by each State of a toll-free telephone number to receive complaints and provide information regarding the status of construction on Federal-aid highways in the State.

(d) REPORT.—Not later than September 30, 1992, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with such recommendations as the Secretary considers appropriate.

SEC. 1091. STUDY OF VALUE ENGINEERING.

(a) STUDY.—The Secretary shall study the effectiveness and benefits of value engineering review programs applied to Federal-aid highway projects. Such study shall include an analysis of and the results of specialized techniques utilized in all facets of highway construction for the purpose of reduction of costs and improvement of the overall quality of Federal-aid highway projects.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall report to Congress on the results of the study under subsection (a), including recommendations on how value engineering could be utilized and improved in Federal-aid highway projects.

SEC. 1092. PILOT PROGRAM FOR UNIFORM AUDIT PROCEDURES.

(a) ESTABLISHMENT.—The Secretary shall establish a pilot program under which any contract or subcontract awarded in accordance with section 112(b)(2)(A) of title 23, United States Code, shall be performed and audited in compliance with cost principles contained in the Federal acquisition regulations of part 31 of title 48 of the Code of Federal regulations. The pilot program under this section shall include participation of not more than 10 States.

(b) INDIRECT COST RATES.—In lieu of performing their own audits, the States participating in the pilot program shall accept indirect cost rates established in accordance with the Federal acquisition regulations for 1-year applicable accounting periods by a cognizant government agency or audited by an independent certified public accountant, if such rates are not currently under dispute. Once a firm's indirect cost rates are accepted, all the recipients of such funds shall apply such rates for the purposes of contract estimation, negotiation, administration, reporting, and contract payment and shall not be limited by administrative or defacto ceilings in accordance with section 15.901(c) of such title 48. A recipient of such funds requesting or using the cost and rate data described in this subsection shall notify any affected firm before such request or use. Such data shall be confidential and shall not be accessible or provided, in whole or in part, to any other firm or to any government agency which is not part of the group of agencies sharing cost data under this subsection, except by written permission of the audited firm. If prohibited by law, such cost and rate data shall not be disclosed under any circumstances.

(c) REPORT.—Each State participating in the pilot program shall report to the Secretary not later than 3 years after the date of enactment of this Act on the results of the program.

SEC. 1093. RENTAL RATES.

Within 1 year after the date of the enactment of this Act, the Comptroller General shall complete a study on equipment rental rates for use in reimbursing contractors for extra work on Federal-aid projects. Such study shall include an analysis of the reasonableness of currently accepted equipment rental costs, adequacy of adjustments for regional or climactic differences, adequacy of consideration of mobilization costs, loss of time and productivity attendant to short-term usage of equipment, and approvals of rental rate costs by the Federal Highway Administration.

SEC. 1094. STUDY ON STATE COMPLIANCE WITH REQUIREMENTS FOR REVOCATION AND SUSPENSION OF DRIVERS' LICENSES.

(a) STUDY.—The Secretary shall conduct a study of State efforts to comply with the provisions of section 333 of the Department of Transportation and Related Agencies Appropriation Acts, 1991, 1992, relating to revocation and suspension of drivers' licenses.

(b) REPORT.—Not later than December 31, 1992, the Secretary shall transmit to Congress a report on the results of the study conducted under this section.

SEC. 1095. BROOKLYN COURTHOUSE.

The Administrator of the General Services Administration is authorized to enter into a lease with the United States Postal Service for space to house the Federal Courts and related Federal agencies in Brooklyn, New York. The Administrator is further authorized—

(1) to advance the amount provided in the fiscal year 1992 Treasury, Postal Service, and General Government Appropriation Act to the Postal Service to expedite the start of construction; and

(2) to transfer the present Emanuel Celler Federal Building and Courthouse in Brooklyn to the Postal Service.

SEC. 1096. BORDER STATION INTERNATIONAL FALLS, MINNESOTA.

The Administrator of the General Services Administration is authorized to provide for the construction of a 9,000 occupiable square foot border station at International Falls, Minnesota, at a total estimated cost of $2,480,000, in accordance with an amended prospectus submitted by the General Services Administration to the Senate Committee on Environment and Public Works on June 19, 1991.

SEC. 1097. MILLER HIGHWAY.

The Secretary shall deem the independent proposals to construct a new highway facility in the Route 9A corridor between the Battery and 59th Street, and to relocate the existing Miller Highway facility, between 59th Street and 72nd Street, on the west side of Manhattan, New York, New York, to be separate and distinct projects for the purposes of compliance with any applicable Federal laws.

SEC. 1098. ALLOCATION FORMULA STUDY.

(a) The General Accounting Office in conjunction with the Bureau of Transportation Statistics created pursuant to title VI of this Act, shall conduct a thorough study and recommend to the Congress within 2 years after the date of the enactment of this Act a fair and equitable apportionment formula for the allocation of Federal-aid highway funds that best directs highway funds to the places of greatest need for highway maintenance and enhancement based on the extent of these highway systems, their present use, and increases in their use.

(b) The results of this study shall be presented to the Senate Committee on Environment and Public Works and the House Committee on Public Works and Transportation on or before January 1, 1994, and shall be considered by these committees as they reauthorize the surface transportation program in 1996.

SEC. 1099. ESTABLISHMENT OF INTERSTATE STUDY COMMISSION.

For the National Capital Region, comprised of the Washington, D.C., Metropolitan Statistical Area, a commission is established to recommend new mechanisms, authority, and/or agreements to fund, develop, and manage the transportation system of the National Capital Region, and primarily focusing on interstate highway and bridge systems. The commission shall develop its recommendations consistent with the transportation planning requirements for metropolitan areas as contained elsewhere in this bill. The study commission shall report to the Congress, the Department of Transportation, the Governors of Maryland and Virginia, the Mayor of the District of Columbia, and the National Capital Region Transportation Planning Board, the designated Metropolitan Planning Organization (MPO) for the Washington metropolitan area, no later than 12 months from the date of passage of this legislation. Representatives on the commission shall include a Member of Congress from each of Maryland, Virginia, and the District of Columbia; the Governors of Maryland and Virginia and the Mayor of the District of Columbia; 1 local elected official from each State and the District of Columbia appointed by the National Capital Region Transportation Planning Board; 3 private sector representatives appointed by the Governors and the Mayor; and the commission chairman to be appointed by the Secretary of Transportation. There is authorized to be appropriated for the purposes of carrying out this section such sums as may be necessary for the commission to carry out its functions.

SEC. 1100. EFFECTIVE DATE; APPLICABILITY; CERTAIN UNOBLIGATED BALANCES.

(a) GENERAL RULE.—This title, including the amendments made by this title, shall take effect on the date of the enactment of this Act.

(b) APPLICABILITY.—The amendments made by this title shall apply to funds authorized to be appropriated or made available after September 30, 1991, and, except as otherwise provided in subsection (c), shall not apply to funds appropriated or made available on or before September 30, 1991.

(c) UNOBLIGATED BALANCES.—

(1) IN GENERAL.—Unobligated balances of funds apportioned to a State under sections 104(b)(1), 104(b)(2), 104(b)(5)(B), and 104(b)(6) of title 23, United States Code, before October 1, 1991, shall be available for obligation in that State under the law, regulations, policies and procedures relating to the obligation and expenditure of those funds in effect on September 30, 1991.

(2) TRANSFERABILITY.—

(A) PRIMARY SYSTEM.—A State may transfer unobligated balances of funds apportioned to the State for the Federal-aid primary system before October 1, 1991, to the apportionment to such State under section 104(b)(1) or 104(b)(3) of title 23, United States Code, or both.

(B) SECONDARY AND URBAN SYSTEM.—A State may transfer unobligated balances of funds apportioned to the State for the Federal-aid secondary system or the Federal-aid urban system before October 1, 1991, to the apportionment to such State under section 104(b)(3) of such title.

(C) APPLICABILITY OF CERTAIN LAWS, REGULATIONS, POLICIES, AND PROCEDURES.—Funds transferred under this paragraph shall be subject to the laws, regulations, policies, and procedures relating to the apportionment to which they are transferred.

SEC. 1101-1102. STUDY ON IMPACT OF CLIMATIC CONDITIONS.

(a) STUDY.—The Secretary shall conduct a study of the effects of climatic conditions on the costs of highway construction and maintenance. The study shall take into account such climatic conditions as freezing, thawing, and precipitation and the impact of climatic conditions on increased highway design costs and decreased highway service life in the various regions of the United States.

(b) REPORT.—Not later than September 30, 1993, the Secretary shall transmit to Congress a report on the results of the study conducted under this section, together with such recommendations as the Secretary considers appropriate. The report shall include a description of the implications of the differing costs on the allocation of highway funds to the States.

SEC. 1103. HIGH COST BRIDGE PROJECTS.

(a) PURPOSE.—The purpose of this section is to provide funds to accelerate construction of high cost bridge projects.

(b) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out the high cost of bridge projects described in this subsection. Subject to subsection (c), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	*High cost bridges*	*Amount in millions*
1.	*Delaware, Oklahoma*	*Construction of a replacement bridge on U.S. Rt. 59 over Grand Lake in Delaware, Oklahoma*	*9.7*
2.	*Eugene, Oregon*	*Construction of the Ferry Street Bridge*	*23.7*
3.	*Beaver County, Pennsylvania*	*Construction of Aliquippa Ambridge Bridge of Beaver County, Pennsylvania*	*25.0*
4.	*Arkansas*	*For an expanded study of environmental impact and geo technical information for Arkansas-Mississippi Great River Bridge*	*0.8*
5.	*Gloucester Point, Virginia*	*Provide for additional crossing capacity of the York River*	*11.8*
6.	*San Francisco, California*	*For preliminary work associated with the seismic upgrading of the Golden Gate Bridge in San Francisco, California*	*5.9*
7.	*Cape May & Atlantic Counties, New Jersey*	*Replace critically important bridge between Ocean City and Longport, New Jersey*	*18.4*
8.	*Ohio*	*Conduct environmental and feasibility studies for the construction of a bridge or tunnel across the Maumee River in the vicinity of an existing left span bridge*	*1.0*
9.	*Maine*	*Donald B. Carter Memorial Bridge*	*32.1*
10.	*Shakopee, Minnesota*	*Bloomington Ferry Bridge replacement, Shakopee, Minnesota*	*22.0*
11.	*Charleston, South Carolina*	*Highway 17 Bridge replacement projects: Cooper River, Charleston, South Carolina*	*14.2*
12.	*Ft. Lauderdale, Florida*	*17th Street Causeway Tunnel/Bridge replacement, Ft. Lauderdale, Florida*	*13.6*
13.	*Maryland*	*Woodrow Wilson Bridge rehabilitation*	*29.6*
14.	*New York*	*Macomb Dam Bridge, Manhattan Bridge Rehabilitation Project, Queensboro Bridge—Rehabilitation of Main Span, Williamsburg Bridge Rehabilitation Project, Brooklyn Bridge Rehabilitation*	*74.0*
15.	*Miami, Florida*	*Complete construction of Dodge Island Bridge*	*3.4*

(c) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (b) for each project authorized by subsection (b) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(d) FEDERAL SHARE.—The Federal share payable on account of any project under this section shall be 80 percent of the cost thereof.

(e) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this section to the State in which such project or projects are located upon request of such State.

(f) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this section—

(1) has obligated all funds allocated under this section for construction of such project; and

(2) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this section.

(g) APPLICABILITY OF TITLE 23.—Funds authorized by this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be determined in accordance with this section and such funds shall remain available until expended. Funds authorized by this section shall not be subject to any obligation limitation.

SEC. 1104. CONGESTION RELIEF PROJECTS.

(a) PURPOSE.—The purpose of this section is to improve methods of congestion relief.

(b) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out the congestion relief projects described in this subsection. Subject to subsection (c), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal

years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Congestion relief	Amount in millions
1.	Long Beach, California	Construction of HOV Lanes on I–710	7.4
2.	Philadelphia, Pennsylvania	Project to Construct Bridge-Pratt Terminal as part of an I–95 reconstruction mitigation project	34.5
3.	Davidson-Williamson County, Tennessee	Study and construction of the Davidson-Williamson Bike Path	1.0
4.	East St. Louis, Illinois to St. Louis, Missouri	To conduct a study to determine the feasibility of a bridge between East St. Louis, Illinois and St. Louis, Missouri	1.4
5.	St. Louis, Missouri	Relocation of Lindbergh Boulevard and Interstate 70 at St. Louis Lambert Airport	14.8
6.	District of Columbia	Primary Intermodal System, Washington, D.C.	6.8
7.	Buffalo, New York	Construction of Peace Bridge truck inspection facility	19.5
8.	Nashua, New Hampshire	Nashua River Bridge, Nashua, New Hampshire—Construction of second bridge	1.2
9.	Las Vegas, Nevada	Reconstruct and upgrade I–15/U.S. 95 (Spaghetti Bowl)	45.0
10.	San Diego, California	Construct 1 block of Cut and Cover Tunnel on Rt. 15 in downtown San Diego, California	5.0
11.	Los Angeles, California	To extend I–110 North from its current terminus at I–10 into downtown Los Angeles via Central City West Area in Los Angeles, California	10.1
12.	North Dakota	Design and construct 7.5 mile bypass around Lincoln State Park	1.1
13.	Babylon, New York	Construct turning lanes, sign upgrades, traffic signal interconnections and road repair and resurfacing	2.1
14.	Dixon, California	To improve 3 grade crossings in Dixon, California	1.8
15.	Fairfield, California	To construct 2 park & ride facilities, an information center and transfer hub for I–80 express and local bus service	7.7
16.	St. Louis, Missouri	Feasibility study for interchange improvements for I–255 at Rt. 231, St. Louis, Missouri	0.1
17.	Murfreesbro, Tennessee	Conduct a feasibility study of constructing a bicycle system as an alternative form of commuter transportation, air pollution reduction, and enhance recreation	0.4
18.	Long Island, New York	To make improvements on the Van Wyck Expressway to improve traffic flow, Long Island, New York	3.6
19.	Fox River Valley, Illinois	Study, plan and construct up to 8 bridges across the Fox River	8.3
20.	Prince George's County, Maryland	To rehabilitate the Baltimore-Washington Parkway in Prince George's County, Maryland	16.3
21.	Toledo, Ohio	Conduct study of possible safety and traffic delay improvement benefits in 6 corridors	0.24
22.	Boston, Massachusetts	To plan and construct a bicycle and pedestrian path connecting Arlington, Cambridge and Boston, Massachusetts	1.2
23.	Tucson, Arizona	To make interchange improvements at Oracle and Orange Grove Roads in Tucson, Arizona	3.9
24.	Victorville, California	Construct interchange 1 mile north of Palmdale Road on I–15	2.7
25.	Palm Beach, Florida	Acquire right-of-way and construct and widen to 4 lanes 19 mile segment of U.S. 27	5.5
26.	Pennsylvania	Improve River Street, Towanda Borough and North Towanda Township to form highway bypass	8.8
27.	Maine	Topsham-Brunswick Bypass	10.5
28.	Rankin County, Mississippi	East-Metro Center Access Road	4.6
29.	Kansas	West Leavenworth Trafficway Project, Leavenworth, Kansas	8.6
30.	Broward County, Florida	Hallandale Bridge Project, Broward County, Florida	8.5
31.	Idaho	Any of the Federal-aid projects eligible for funding under title 23, United States Code, located in Bannock or Caribou County, shall be eligible for funding	10.1
32.	Michigan	I–75/M57 Interchange improvement in the vicinity of Vienna Township, Michigan	8.9
33.	Prince William County, Virginia	I–95 HOV lane extension	13.5
34.	St. Thomas, Virgin Islands	Construction of Raphune Hill Bypass, St. Thomas, Virgin Islands	18.4
35.	Merrillville, Indiana	Construction of four lane road and overpass	1.8
36.	Milwaukee and Waukesha Counties, Wisconsin	I–794 Bicycle Transportation Project in Milwaukee and Waukesha Counties, Wisconsin	1.5
37.	Richmond, California	I–80 Richmond Parkway Interchange	1.8
38.	New York, New York	Construction of Williamsburg to Holland Tunnel Bypass	3.6
39.	Louisville, Kentucky	Waterfront Development Roadway Improvements	4.7
40.	Sunnyvale, California	HOV lane improvements on Lawrence Expressway	10.1
41.	Ohio	Construction of a bicycle/pedestrian facility from Greene County, Ohio, to Dayton, Ohio	3.0
42.	Jefferson County and Berkeley County, West Virginia	Improvements of State Highway 9 from Martinsburg, West Virginia to Virginia State line	110.0
43.	West Virginia	Construction of the Coal Fields Expressway from Beckley, West Virginia to Virginia State line	50.0
44.	Maine	Improvements to the Carlton Bridge in Bath-Woolwich	10.0

(c) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (b) for each project authorized by subsection (b) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(d) FEDERAL SHARE.—The Federal share payable on account of any project under this section shall be 80 percent of the cost thereof.

(e) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this section to the State in which such project or projects are located upon request of such State.

(f) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this section—

(1) has obligated all funds allocated under this section for construction of such project; and

(2) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this section.

(g) APPLICABILITY OF TITLE 23.—Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by this section shall not be subject to any obligation limitation.

SEC. 1106. HIGH PRIORITY CORRIDORS ON NATIONAL HIGHWAY SYSTEM.

(a) FINDINGS.—The Congress finds that—

(1) the construction of the Interstate Highway System connected the major population centers of the Nation and greatly enhanced economic growth in the United States;

(2) many regions of the Nation are not now adequately served by the Interstate System or comparable highways and require further highway development in order to serve the travel and economic development needs of the region; and

(3) the development of transportation corridors is the most efficient and effective way of integrating regions and improving efficiency and safety of commerce and travel and further promoting economic development.

(b) PURPOSE.—It is the purpose of this section to identify highway corridors of national significance; to include those corridors on the National Highway System; to allow the Secretary, in cooperation with the States, to prepare long-range plans and feasibility studies for these corridors; to allow the States to give priority to funding the construction of these corridors; and to provide increased funding for segments of these corridors that have been identified for construction.

(c) IDENTIFICATION OF HIGH PRIORITY CORRIDORS ON NATIONAL HIGHWAY SYSTEM.—The following are high priority corridors on the National Highway System:

(1) North-South Corridor from Kansas City, Missouri, to Shreveport, Louisiana.

(2) Avenue of the Saints Corridor from St. Louis, Missouri, to St. Paul, Minnesota.

(3) East-West Transamerica Corridor.

(4) Hoosier Heartland Industrial Corridor from Lafayette, Indiana, to Toledo, Ohio.

(5) I–73/74 North-South Corridor from Charleston, South Carolina, through Winston-Salem, North Carolina, to Portsmouth, Ohio, to Cincinnati, Ohio, and Detroit, Michigan.

(6) United States Route 80 Corridor from Meridian, Mississippi, to Savannah, Georgia.

(7) East-West Corridor from Memphis, Tennessee, through Huntsville, Alabama, to Atlanta, Georgia, and Chattanooga, Tennessee.

(8) Highway 412 East-West Corridor from Tulsa, Oklahoma, through Arkansas along United States Route 62/63/65 to Nashville, Tennessee.

(9) United States Route 220 and the Appalachian Thruway Corridor from Business 220 in Bedford, Pennsylvania, to the vicinity of Corning, New York.

(10) Appalachian Regional Corridor X.

(11) Appalachian Regional Corridor V.

(12) United States Route 25E Corridor from Corbin, Kentucky, to Morristown, Tennessee, via Cumberland Gap, to include that portion of Route 58 in Virginia which lies within the Cumberland Gap Historical Park.

(13) Raleigh-Norfolk Corridor, Raleigh, North Carolina, to Norfolk, Virginia.

(14) Heartland Expressway from Denver, Colorado, through Scottsbluff, Nebraska, to Rapid City, South Dakota.

(15) Urban Highway Corridor along M–59 in Michigan.

(16) Economic Lifeline Corridor along I–15 and I–40 in California, Arizona, and Nevada.

(17) Route 29 Corridor from Greensboro, North Carolina, to the District of Columbia.

(18) Corridor from Indianapolis, Indiana, to Memphis, Tennessee, via Evansville, Indiana.

(19) United States Route 395 Corridor from the United States-Canadian border to Reno, Nevada.

(20) United States Route 59 Corridor from Laredo, Texas, through Houston, Texas, to the vicinity of Texarkana, Texas.

(21) United States Route 219 Corridor from Buffalo, New York, to the intersection of United States Route 17 in the vicinity of Salamanca, New York.

(d) INCLUSION ON NHS.—The Secretary shall include all corridors identified in subsection (c) on the proposed National Highway System submitted to Congress under section 103(b)(3) of title 23, United States Code.

(e) PROVISIONS APPLICABLE TO CORRIDORS.—

(1) LONG-RANGE PLAN.—The Secretary, in cooperation with the affected State or States, may prepare a long-range plan for the upgrading of each corridor to the appropriate standard for highways on the National Highway System. Each such plan may include a plan for developing the corridor and a plan for financing the development.

(2) FEASIBILITY STUDIES.—The Secretary, in cooperation with the affected State or States, may prepare feasibility and design studies, as necessary, for those corridors for which such studies have not been prepared. A feasibility study may be conducted under this subsection with respect to the corridor described in subsection (c)(2), relating to Avenue of the Saints, to determine the feasibility of an adjunct to the Avenue of the Saints serving the southern St. Louis metropolitan area and connecting with I–55 in the vicinity of Route A in Jefferson County, Missouri.

(3) CERTIFICATION ACCEPTANCE.—The Secretary may discharge any of his responsibilities under title 23, United States Code, relative to projects on a corridor identified under subsection (c), upon the request of a State, by accepting a certification by the State in accordance with section 117 of such title.

(4) ACCELERATION OF PROJECTS.—To the maximum extent feasible, the Secretary may use procedures for acceleration of projects in carrying out projects on corridors identified in subsection (c).

(f) HIGH PRIORITY SEGMENTS.—Highway segments of the corridors referred to in subsection (c) which are described in this subsection are high priority segments eligible for assistance under this section. Subject to subsection (g)(2), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out a project on each such segment the amount listed for each such segment:

	City/State	High priority corridors	Amount in millions
1.	Pennsylvania	For upgrading U.S. 220 High Priority and the Appalachian Thruway Corridor between State College and I–80	50.7
2.	Alabama, Georgia, Mississippi, Tennessee	Upgrading of the East-West Corridor along Rt. 72	25.4
3.	Missouri	Improvement of North-South Corridor along Highway 71, Southwestern, MO	3.6
4.	Arkansas	For construction of highway 412 from Siloam Springs to Springdale, Arkansas as part of Highway 412 East-West Corridor	34.0
5.	Arkansas	For construction of Highway 412 from Harrison to Springdale, Arkansas as part of the Highway 412 East-West Corridor	56.0
6.	Pennsylvania	To improve U.S. 220 to a 4-lane limited access highway from Bald Eagle northward to the intersection of U.S. 220 and U.S. 322	148.0

	City/State	High priority corridors	Amount in millions
7.	S. Dakota/Nebraska	Conduct a feasibility study of expressway from Rapid City, S. Dakota to Scotts Bluff, Nebraska	0.64
8.	Alabama	Construction of Appalachian Highway Corridor X from Corridor V near Fulton, Mississippi to U.S. 31 at Birmingham, Alabama as part of Appalachian Highway X Corridor Project	59.2
9.	Alabama	For construction of a portion of Appalachian Development Corridor V from Mississippi State Line near Red Bay, Alabama to the Tennessee State Line north of Bridgeport, Alabama	25.4
10.	West Virginia	Construction of Shawnee Project from 3-Corner Junction to I–77 as part of I–73/74 Corridor project	4.5
11.	West Virginia	Widening U.S. Rt. 52 from Huntington to Williamson, W. Virginia as part of the I–73/74 Corridor project	100.0
12.	West Virginia	Replacement of U.S. Rt. 52 from Williamson, W. Virginia to I–77 as part of the I–73/74 Corridor project	14.0
13.	North Carolina/Virginia	For Upgrading I–64 and Route 17 Virginia and constructing a new highway from Rocky Mount to Elizabeth City, North Carolina as part of the Raleigh-Norfolk High Priority Corridor Improvements	17.8
14.	Arkansas	Construction of Highway 71 between Fayetteville and Alma, Arkansas as part of the North-South High Priority Corridor	100.0
15.	Arkansas/Texas	For construction of Highway 71 from Alma, Arkansas to Louisiana border	70.0
16.	Michigan	To widen a 60 mile portion of highway M–59 from MacComb County to I–96 in Howell County, Michigan	29.6
17.	South Dakota, Colorado, Nebraska	To improve the Heartland Expressway from Rapid City, South Dakota to Scotts Bluff, Nebraska	29.6
18.	Indiana	To construct a 4-Lane highway from Lafayette to Ft. Wayne, Indiana, following existing Indiana 25 and U.S. 24	9.5
19.	Ohio/Indiana	Conduct feasibility and economic study to widen Rt. 24 from Ft. Wayne, Indiana to Toledo, Ohio as part of the Lafayette to Toledo Corridor	0.32
20.	California, Nevada, Arizona	For improvements on I–15 and I–40 in California, Nevada and Arizona ($10,500,000 of which shall be expended on the Nevada portion of the corridor, including the I–15/U.S. 95 interchange)	59.2
21.	Louisiana	To improve the North-South Corridor from Louisiana border to Shreveport, Louisiana	29.6
22.	Missouri, Iowa, Minnesota	For improvements for Avenue of the Saints from St. Paul, Minnesota to St. Louis, Missouri	118.0
24.	Various States	I–66 Transamerica Highway Feasibility study	1.0
25.	Kentucky, Tennessee, Virginia	To improve Cumberland Gap Tunnel and for various associated improvements as part of U.S. 25E Corridor, except that the allocation percentages under section 1105(g)(2) of this section shall not apply to this project after fiscal year 1992	72.4
26.	Indiana, Kentucky, Tennessee	To improve the Bloomington, Indiana, to Newberry, Indiana, segment of the Indianapolis, Indiana, to Memphis, Tennessee, high priority corridor	23.7
27.	Washington	For improvements on the Washington State portion of the U.S. 395 corridor from the U.S.-Canadian border to Reno, Nevada	54.5
28.	Virginia	Construction of a bypass of Danville, Virginia, on Route 29 Corridor	17.0
29.	Arkansas	Highway 412 from Harrison to Mt. Home	20.0
30.	New York	Improvements on Route 219 between Springville to Ellicottville in New York State	9.5

(g) PROVISIONS RELATING TO HIGH PRIORITY SEGMENTS.—

(1) DETAILED PLANS.—Each State in which a priority segment identified under subsection (f) is located may prepare a detailed plan for completion of construction of such segment and for financing such construction.

(2) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (f) for each high priority segment authorized by subsection (f) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(3) FEDERAL SHARE.—The Federal share payable on account of any project under subsection (f) shall be 80 percent of the cost thereof.

(4) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary may delegate responsibility for construction of a project or projects under subsection (f) to the State in which such project or projects are located upon request of such State.

(5) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this subsection—

(A) has obligated all funds allocated under this subsection for construction of such project; and

(B) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this subsection.

(6) APPLICABILITY OF TITLE 23.—Funds authorized by subsection (f) and subsection (h) shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under subsection (f) shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by subsection (f) shall not be subject to any obligation limitation.

(7) STATE PRIORITY FOR HIGH PRIORITY SEGMENTS.—Section 105 of title 23, United States Code, as amended by this Act, is further amended by adding at the end the following new subsection:

"(k) PRIORITY FOR HIGH PRIORITY SEGMENTS OF CORRIDORS OF NATIONAL SIGNIFICANCE.—In selecting projects for inclusion in a program of

projects under this section, the State may give priority to high priority segments of corridors identified under section 1105(f) of the Intermodal Surface Transportation Efficiency Act of 1991. In approving programs of projects under this section, the Secretary may give priority of approval to, and expedite construction of, projects to complete construction of such segments.".

(8) SPECIAL RULE.—Amounts allocated by subsection (f) to the State of California for improvements on I–15 and I–40 shall not be subject to any State or local law relating to apportionment of funds available for the construction or improvement of highways.

(h) AUTHORIZATION FOR FEASIBILITY STUDIES.—There is authorized to be appropriated to the Secretary out of the Highway Trust Fund (other than the Mass Transit Account) $8,000,000 per fiscal year for each of the fiscal years 1992 through 1997 to carry out feasibility and design studies under subsection (e)(2).

(i) REVOLVING LOAN FUND.—

(1) ESTABLISHMENT.—The Secretary may establish a Priority Corridor Revolving Loan Fund.

(2) ADVANCES.—The Secretary shall make available as repayable advances amounts from the Revolving Loan Fund to States for planning and construction of corridors listed in subsection (c). In making such amounts available, the Secretary shall give priority to segments identified in subsection (f).

(3) REPAYMENT OF ADVANCES.—The amount of an advance to a State in a fiscal year under paragraph (2) may not exceed the amount of a State's estimated apportionments for the National Highway System for the 2 succeeding fiscal years. Advances shall be repaid (A) by reducing the State's National Highway System apportionment in each of the succeeding 3 fiscal years by ⅓ of the amount of the advance, or (B) by direct repayment. Repayments shall be credited to the Priority Corridor Revolving Loan Fund.

(4) AUTHORIZATION.—There is authorized to be appropriated to the Secretary, out of the Highway Trust Fund (other than the Mass Transit Account), $40,000,000 per fiscal year for each of fiscal years 1993 through 1997 to carry out this subsection.

SEC. 1106. RURAL AND URBAN ACCESS PROJECTS.

(a) RURAL ACCESS PROJECTS.—

(1) PURPOSE.—The purpose of this subsection is to provide funds for projects that ensure better rural access and that promote economic development in rural areas.

(2) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out rural access projects described in this paragraph. Subject to paragraph (3), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Rural access	Amount in millions
1.	Cadiz, Ohio	Improvements of Short Creek Highway from Cadiz, Ohio to Rayland, Ohio	2.5
2.	Boger City, North Carolina	Construction of 4-lane divided highway along Highway 321 to Boger City, NC to NC 127 South	14.2
3.	Utica, New York	Improvement of the Utica North/South Arterial	9.9
4.	Oneida County, New York	Upgrade a highway to 4 lanes in Oneida County, New York	8.0
5.	Southern, Oklahoma	Widening of U.S. 70	0.24
6.	Southern, Oklahoma	Construction of a bridge and approaches at Pennington Creek, OK	1.0
7.	Johnsonburg, Pennsylvania	Relocation of a 2-lane highway from Center Street to PA Rt. 255 along U.S. 219, Johnsonburg Bypass	14.0
8.	Pennsylvania	Construction of truck driving lanes and safety improvements on U.S. 219 between I–80 and the NY State Line	26.0
9.	East St. Louis, Illinois	Feasibility study for 4-lane Access Road to Jefferson Memorial Park	0.24
10.	Illinois	To conduct an Environmental Impact Study & Design Study on a 58-mile stretch of U.S. 67 corridor from Alton, IL to Jacksonville, IL	2.5
11.	Venice, Illinois	For rehabilitation of McKinley Bridge near Venice, IL	5.9
12.	Decatur, Alabama	Project for replacement of Keller Memorial Bridge, Decatur, AL	12.7
13.	Lenoir City, Tennessee	Feasibility Study on Fort Loudon Dam Bridge on U.S. Highway 231 in Lenoir City, TN	0.5
14.	Blount City, Tennessee	Improvement of U.S. Highway #411 in Monroe and Blount Counties, TN	15.7
15.	Missouri	For improvements of Highway 60 in New Madrid, Stoddard, Carter and Butler Counties, MO	21.7
16.	Southern, Missouri	Improvement of Rt. 65 through Greene, Christian and Taney Counties, MO	14.1
17.	Lake Charles, Louisiana	Construction of roads and bridge to provide access to Rose Bluff Industrial Area, Lake Charles, LA	4.1
18.	Louisiana	For improvement and extension of Ambassador Caffery Parkway in Louisiana	14.9
19.	Ohio	Construction of U.S. Rt. 68 Bypass in Clark, Champaign and Logan Counties	15.8
20.	Aliquippa, Pennsylvania	For various 3-R Projects in Aliquippa, PA	12.8
21.	Riverton, Kansas	Construction of a new highway from Riverton, KS to Interstate 44 in Missouri	13.1
22.	North Minnesota	Construction and reconstruction of Forest Highway 11 connecting Aurora-Hoyt Lakes and Silver Bay, MN	9.5
23.	Richfield, Minnesota	77th Street Reconstruction Project, Richfield, MN	11.6
24.	Mississippi	Impovements on Highway 84 in Franklin and Lincoln Counties, MS	9.5
25.	Mississippi	Upgrading of U.S. Highway 98 from County line of Pike and Waltham Counties, MS to Lamar County, MS	0.4
26.	Mississippi	Upgrading Highway 61 from Natchez, MS to Louisiana State line	0.35
27.	Mississippi	Upgrading Highway 84 from Brookhaven, MS to U.S. 49 in Collins, MS	2.1
28.	Chattahouchee, Florida	Construction of Mosquito Creek Bridge	2.4
29.	Florida	To upgrade State Rt. 71 from State Rt. 10 to State Rt. 8	2.9
30.	Florida	To upgrade Florida State Rt. 267 from State Rt. 8 to State Rt. 10	4.7
31.	Illinois	Tollway feasibility study (East St. Louis to Carbondale, IL)	0.32
32.	Mt. Vernon, Illinois	Extension of 34th Street from IL Rt. 15 to County Road 10	0.96
33.	Illinois	Reconstruction of Feather Trail Road from Ullin Road Interchange to Rt. 37, Pulaski County, IL	1.1
34.	Illinois	Resurfacing IL Rt. 1 from Cave-In-Rock to north of Omaha	1.8
35.	Williamson County, Illinois	Upgrading IL Rt. 13 in Williamson County, IL	7.8

46.	North Carolina	I–85 Interchange improvement at State Route 1103 Granville County, NC	1.7
47.	Manchester, New Hampshire	Manchester Airport Road improvements	4.0
48.	New Hampshire	Wetlands mitigation package for New Hampshire Rt. 101/51	10.0
49.	Arkansas	To improve U.S. 65 from Harrison, Arkansas to Missouri Line	38.0
50.	Arkansas	To improve Phoenix Avenue in the vicinity of the Ft. Smith Airport, Ft. Smith, Arkansas	7.9
51.	Arkansas	To study bypass alternatives for U.S. 71 in the vicinity of Bella Vista, Arkansas	3.0
52.	Bedford Springs, Pennsylvania	To construct an access road along Old U.S. 220 to the Springs Project and to construct other facilities to facilitate movement of traffic within the site and construction of a parking facility to be associated therewith	19.7
53.	DeValls Bluff, Arkansas	Construction of a replacement bridge across the White River	2.5
54.	Jonesboro, Arkansas	Complete construction of 3 interchanges on the Highway 63 Bypass at Jonesboro	5.7
55.	Brevard County, Florida	Design and engineer improvements for State Rd. 3 between State Rd. 520 and State Rd. 528	0.16
56.	Louisiana	For construction of a new road from an area in the vicinity of I–55 to Alexandria, Louisiana	1.7
57.	Beaumont, Texas	Widen Highway FM–364 from a 2-Lane to a 4-Lane road	10.4
58.	Farmington Hills, Michigan	To widen 12-mile road corridor in the vicinity of Farmington Hills, Michigan	2.5
59.	Laredo, Texas	Expand capacity of 2-lane highway, construct interchanges and connector highway	7.4
60.	Montewma, Colorado	Upgrade farm to market road serving Ute Indian Reservation	2.9
61.	Lubbock, Texas	Initiate feasibility and route studies and preliminary engineering and design for highway to connect Lubbock with Interstate 20	2.9
62.	Rosenberg, Texas	To purchase right-of-way for Highway 36 Bypass West of Rosenberg, Texas	0.9
63.	Angleton, Texas	For various activities associated with relocation of Highway 288 in vicinity of Angleton, Texas	0.9
64.	Mentor, Ohio	For construction of an interchange on State Rt. 615 at I–90 in Mentor, Ohio	4.7
65.	W. Central, Illinois	For widening of U.S. 34 between Burlington, Iowa and Monmouth, Illinois	1.9
66.	Illinois	To make improvements including construction of a bridge on U.S. 67 in NW Illinois	2.4
67.	Monongahela Valley, Pennsylvania	For construction of southernmost extension of the Monongahela Expressway	14.0
68.	Dauphin County, Pennsylvania	Design, acquire right-of-way and reconstruct 5.1 miles of 4-Lane divided highway from Dauphin Borough to Speeceville, Pennsylvania	12.0
69.	Rutherford County, Tennessee	Replace existing bridge over the west fork of the Stone's River including a 5 foot elevated walkway	0.8
70.	Wayne County, New York	To improve Rt. 104 from Furnace Road to Pound Road in the Wayne County Area of New York	6.4
71.	Chautauqua County, New York	Construct 2 additional expressway lanes from Chautauqua Lake Bridge to Pennsylvania Border	17.0
72.	North Carolina	To reimburse the State of North Carolina for construction and repair of the Bonner Bridge, North Carolina	3.0
73.	North Carolina	Construct interstate link between I–95 and I–40 in vicinity of Wilson and Goldsboro, North Carolina	8.9
74.	Bossier City, Louisiana	To study grade separations along 10 miles of KC Railroad along U.S. 71	0.16
75.	Pennsylvania	Widen 14 mile segment of U.S. 15 from 2 to 4 lanes	13.8
76.	Overland Park, Kansas	I–435 Interchange Project	4.1
77.	Fairmont, West Virginia	Riverside Expressway improvements	5.3
78.	Washington	State Rt. 14 Improvement Projects, Columbia River Gorge, Washington	8.6
79.	Pennsylvania	Pennsylvania Industrial Park access, Washington County, Pennsylvania	6.3
80.	Pennsylvania	Chadville Improvement Project, Southern Fayette County, Pennsylvania	2.4
81.	Pennsylvania	U.S. Rt. 219 Meyersdale Bypass	48.0
82.	Pennsylvania	U.S. Rt. 22 Improvements: Monroeville to Ebansburg	30.3
83.	Pennsylvania	Laurel Valley Expressway, Blairsville, Pennsylvania	5.0
84.	Brownsville, Texas	Brownsville Railroad Relocation Project	6.7
85.	South Carolina	Southern Connector Highway, Greenville County, South Carolina	3.6
86.	Ohio	Rt. 18 Bypass Study, Medina, Ohio	0.4
87.	Ohio	U.S. Rt. 250 Bypass Study, Norwalk, Ohio	0.4
88.	Mankato, Minnesota	Mankato South Rt. Improvements, Mankato, Minnesota	10.0

	City/State	Rural access	Amount in millions
89.	Kentucky	U.S. 119 Upgrading, Pike County, Kentucky	7.6

118.	West Virginia	Chelyan Bridge Replacement	8.5

(3) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by paragraph (2) for each project authorized by paragraph (2) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(4) FEDERAL SHARE.—The Federal share payable on account of any project under this subsection shall be 80 percent of the cost thereof.

(5) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this subsection to the State in which such project or projects are located upon request of such State.

(6) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this subsection—

(A) has obligated all funds allocated under this subsection for construction of such project; and

(B) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this subsection.

(7) APPLICABILITY OF TITLE 23.—Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this subsection shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by this subsection shall not be subject to any obligation limitation.

(b) URBAN ACCESS AND URBAN MOBILITY PROJECTS.—

(1) PURPOSE.—The purpose of this subsection is to provide funds for projects that enhance urban access and urban mobility.

(2) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out urban access and urban mobility projects described in this paragraph. Subject to paragraph (3), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Urban access & mobility	Amount in millions
1.	Santa Ana, California	Bristol Street Project	4.1
2.	Illinois/Missouri	Metro East/St. Louis, Missouri Bridge Feasibility Study	1.0
3.	Beaver/Butler Counties, Pennsylvania	Construction of Crow's Run Expressway from I–79 to PA Rt. 60, Beaver/Butler Counties, PA	3.5
4.	Atlanta, Georgia	Improvement of Martin Luther King Drive	0.8
5.	Chicago, Illinois	Handicapped Accessibility Projects on various Chicago Streets	2.4

	City/State	Urban access & mobility	Amount in millions
6.	Chicago, Illinois	Feasibility study for a road between existing Lake Shore Drive and Indiana Road	0.16
7.	San Jose, California	Improvement of Interchange at Highway 85/Highway 17	35.0
8.	Gilroy, California	For safety improvements on Highway 152 in vicinity of Gilroy, CA	5.9
9.	New York, New York	Improvements on Miller Highway in New York City, NY	15.6
10.	District of Columbia	Construction of missing segments of Eastern and Southern Avenues (Boundary Street Safety Initiative)	6.8
11.	Buffalo, New York	Scajaquada Expressway Classification study	0.24
12.	Buffalo, New York	NY State Thruway relocation study, Buffalo (Niagara), NY	0.24
13.	Joliet, Illinois	For rehabilitation of Houbolt Road from Jefferson Street to Joliet Jr. College and construction and interchange at Houbolt Road and I–80	1.0
14.	Chicago, Illinois	WPA street improvements bounded on the north by 103rd, the east by Stoney Island, the west by Ashland, and the south by the city limits	3.7
15.	Burnham, Illinois	To improve Dolton Avenue between Torrence Avenue and Indiana State Line, Burnham, IL	1.9
16.	Calumet Park, Illinois	Ashland Avenue Bridge replacement	2.1
17.	Harvey, Illinois	Illinois 1 Interchange improvement from U.S. 6 to I–80	2.5
18.	Markham, Illinois	Sibley Boulevard traffic flow improvement from Dixie Highway	3.5
19.	Chicago, Illinois	Illinois 1 intersection improvement, Harvey, IL (intersection at 155th Street)	1.4
20.	Youngstown, Ohio	Center Street Bridge replacement, Youngstown, OH, including Poland Avenue—Shirley Road connector and ramps at I-680	12.2
21.	Lake Porter and LaPort Counties, Indiana and Illinois	Study linkage roads to connect Lake Shore Drive and surrounding facilities	1.0
22.	Indiana	Acquisition of West Lake Corridor Right-of-Way between Munster, IN and Hammond , IN	1.0
23.	Portage, Indiana	Widen Willow Creek Road to 4 lanes	1.5
24.	Hobart, Lake Station and New Chicago, Indiana	Various improvements to Ridge Road to relieve congestion	4.3
25.	Passaic County, New Jersey	To complete construction of Rt. 21 in Passaic County, New Jersey	98.8
26.	Northeastern, New Jersey	To raise 14 bridges over Molly Ann's Brook Northeastern, New Jersey	9.5
27.	Chambersburg, Pennsylvania	To improve the Wayne Avenue—I–81 Interchange and to widen Wayne Avenue to 5 lanes from Kriner Road to Coldbrook Avenue in the vicinity of Chambersburg, Pennsylvania	1.84
28.	Newark, New Jersey	To construct ramps to provide access to I–78	7.2
29.	Newark, New Jersey	To construct a parking facility as part of a multi-modal transportation facility in the vicinity of United Hospitals Medical Center, Newark, New Jersey	4.9
30.	Lawrence, Massachusetts	Study, design, and construct new road service; road and ramps and widen I–495	4.7
31.	Baltimore, Maryland	To improve various roads as part of project "Project Vision" in Baltimore, Maryland	5.0
32.	Bellevue, Washington	Conduct Phase 1 design study for I–405 interchange at Northeast 8th Street	5.0
33.	Springfield, Illinois	To extend 11th Street from Stevenson Drive to Toronto Road in the vicinity of Springfield, Illinois	8.3
34.	Middlesex, New Jersey	Route 1 widening in Middlesex County, New Jersey from Raritan River to Rahway River	7.4
35.	Perth Amboy & Woodbridge Township, New Jersey	Study whether additional river crossings may be necessary based on condition of 3 existing crossings	2.5
36.	Compton, California	For a grade separation project at W. Alameda Street and the Mealy St. Corridor	6.6
37.	Parsippany, Troy Hills, New Jersey	Construct interchange and ramp improvements for east and west bound traffic on I–280	3.1
38.	Queens, New York	To rehabilitate 39th Street Bridge over rail tracks at the Sunnside Rail Yard in Queens, New York	10.4
39.	Omaha, Nebraska	For improvements to US Highway 6 (W. Dodge Road) from 86th Street to 118th including the intersection with I–680 in Omaha, Nebraska	5.2
40.	Suffolk County/Long Island, New York	Construct various roadway improvements on 7.1 miles of New York Rt. 112, including, resurfacing, widening, adding turning and parking lanes and improving traffic signals	3.4
41.	San Diego, California	To conduct environmental study on feasibility of constructing 4-lane highway from State Rt. 805 to International border near Otay Mesa	1.0
42.	Sarasota, Florida	To construct a bridge interchange at US 301 and University Parkway in the vicinity of Sarasota, Florida	2.4
43.	Hartford, Connecticut	To rehabilitate Connecticut Rt. 99 South of Hartford, Connecticut	5.0
44.	Hartford, Connecticut	For improved access to the Connecticut River as in I–91 Mitigation Project, Hartford, Connecticut	2.3
45.	Chattanooga, Tennessee	Construct an urban diamond interchange to improve capacity and a connector road	3.1
46.	Commerce, California	To relocate a portion of Atlantic Blvd. in the vicinity of Telegraph Rd. as part of a grade separation project	4.7
47.	Scranton, Pennsylvania	Realign 3,000 feet of N. Scranton Expressway to connect with Mulberry Street	7.2
48.	Long Island, New York	Southern State Parkway Improvement	4.6
49.	New York	Exit 26 Ridge Project Schenectady, New York	5.7
50.	Capital Beltway, Springfield, Virginia	Upgrade interchanges on I-495, including Virginia Mixing Bowl Improvements	7.5
51.	Utah	Expansion of State Rd. 5600 West	3.3
52.	Chicago, Illinois	Right-of-way preservation projects (Eisenhower & Stevenson Connector)	4.8
53.	Chicago, Illinois	Museum of Science & Industry: Various intermodal facilities, Chicago, Illinois	35.0
54.	Chicago, Illinois	Chicago Skyway Bridge, Chicago, Illinois	14.2
55.	Chicago, Illinois	Cermak Road Bridge reconstruction, Chicago, Illinois	9.2
56.	Chicago, Illinois	Roosevelt Rd. and Bridge Improvements, Chicago, Illinois	11.8
56A.	Chicago, Illinois	State Street Mall Improvements, Chicago, Illinois	14.2
57.	Chicago, Illinois	Cicero Avenue Improvements, vicinity of Chicago, Illinois	1.1
58.	Chicago, Illinois	183rd Street Reconstruction, Chicago, Illinois	1.5
59.	Chicago, Illinois	111th Street Reconstruction, Chicago, Illinois	2.5
60.	Chicago, Illinois	111th Street Upgrade: Cicero Avenue to Pulaski Road, Chicago, Illinois	2.5
61.	Chicago, Illinois	111th Street Widening; Central Avenue to Cicero Avenue, Chicago, Illinois	4.7
62.	Muncie, Indiana	State Rd. 67 Widening	10.0
63.	Columbus, Indiana	Columbus Entranceway project, Columbus, Indiana	3.3
64.	New Jersey	Rt. 17/4 Interchange Project, Paramus, New Jersey	5.7
65.	New Jersey	Hackensack Avenue/Kinderkamack Road Bridges over Rt. 4, Hackensack, New Jersey	5.7
66.	Los Angeles	Grade separation projects (3), Los Angeles County, California	7.1
67.	New York	Preservation of Rail Corridor (North Shore Rail Line), Staten Island	10.7
68.	Maryland	Improvement of U.S. Route 1 in Baltimore County, Maryland	11.8
69.	Camden, New Jersey	Renovation of South Jersey Port Corporation's Beckett Street Terminal	8.3
70.	Washington, D.C.	Design and construction of noise barriers along Southeast/Southwest Freeway and Anacostia Freeway in D.C.	4.7
71.	Anaheim, California	Construction of public HOV facilities to provide public access to I–5 in the vicinity of the Anaheim Regional Transportation Intermodal Complex	14.8
72.	Atlanta, Georgia	Construction of I–20 interchange at Lithonia Industrial Boulevard	11.2
73.	Buffalo, New York	The Southtowns Connector Buffalo, New York	8.5
74.	Tucson, Arizona	Veterans Memorial Interchange/Palo Verde Overpass Bridge Replacement	2.4
75.	Providence, Rhode Island	Memorial Boulevard Pedestrian/Traffic Improvements	5.0
76.	Renton, Washington	Houser Way Relocation Expansion	3.0

(3) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by paragraph (2) for each project authorized by paragraph (2) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(4) FEDERAL SHARE.—The Federal share payable on account of any project under this subsection shall be 80 percent of the cost thereof.

(5) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this subsection to the State in which such project or projects are located upon request of such State.

(6) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this subsection—

(A) has obligated all funds allocated under this subsection for construction of such project; and

(B) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this subsection.

(7) APPLICABILITY OF TITLE 23.—Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this subsection shall be determined in accordance with this subsection and such funds shall remain available until expended. Funds authorized by this subsection shall not be subject to any obligation limitation.

SEC. 1107. INNOVATIVE PROJECTS.

(a) IN GENERAL.—The purpose of this section is to provide assistance for highway projects demonstrating innovative techniques of highway construction and finance. Each State in which 1 of the projects authorized by subsection (b) is located shall select and use, in carrying out such project, innovative techniques in highway construction or finance. Such techniques may include state-of-the-art technology for pavement, safety, or other aspects of highway construction; innovative financing techniques; or accelerated procedures for construction.

(b) AUTHORIZATION OF PROJECTS.—The Secretary is authorized to carry out the innovative projects described in this subsection. Subject to subsection (c), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Innovative projects	Amount in millions
1.	Cadiz, Ohio	Construction of 4-lane Limited Access Highway from Cadiz, OH to Interstate 70 Interchange at St. Clairsville, OH along U.S. Rt. 250	20.0
2.	Maryland	Construction of Durham Road Bridge #75 in Harford County, MD	0.5
3.	Maryland	Construction of a replacement bridge at Furnace Road Bridge #74, Harford County, MD	0.6
4.	Maryland	Construction of a replacement bridge at South Hampton Road Bridge #47, Harford County, MD	1.0
5.	Maryland	Construction of a replacement bridge at Wheel Road Bridge #9, Harford County, MD	1.0
6.	Maryland	Construction of a replacement bridge at Watervale Bridge #63, Harford, MD	1.1
7.	Baltimore County, Maryland	Replacement of Papermill Road Bridge #123 in Cockeysville Area of Baltimore, MD	5.3
8.	Southern, Oklahoma	Testing of effectiveness of recyclable materials on a resurfacing project on U.S. 70 in Southern, OK	2.1
9.	Tulsa, Oklahoma	Upgrade U.S. 75 to Expressway standards, Tulsa, OK	14.0
10.	Atlanta, Georgia	For various transportation improvements in connection with the 1996 Olympics, including the city of Atlanta advanced traffic management system (IVHS)	58.1
11.	Chicago, Illinois	Computerized infrastructure management systems, Chicago, IL	4.3
12.	Oceanside, California	Construction of A, B, and C segments of State Route 76	14.4
13.	Carlsbad, California	Improvements to the interchange at Palomar Airport Road and Interstate 5	3.4
14.	Danville, Virginia	To replace bridges on Main and Worsham Streets in Danville, VA	10.0
15.	Mokena, Illinois	For construction of Wolf Road to an area between LaPort Road and U.S. Rt. 30 in Mokena, IL	1.4
16.	Frankfort, Illinois	Village of Frankfort Roadway improvement projects	1.3
17.	Plainfield, Illinois	Replacement of E J & E Viaduct over IL Rt. 59 and Dupage River Tributary	1.0
18.	Romeoville, Illinois	Replacement of 135th Street Bridge, Romeoville, IL	5.9
19.	Water Street, Pennsylvania	Construction of a 2 lane bypass around the Borough of Water Street on U.S. 22 of Pennsylvania	8.0
20.	Holidaysburg, Pennsylvania	To relocate U.S. 22 around the Borough of Holidaysburg, Pennsylvania	52.0
21.	Lewistown, Pennsylvania	For safety improvements on the Narrows to eliminate potential problems brought on by rock slides	1.6
22.	Pennsylvania	To relocate U.S. Rt. 22 North of Lewistown, Pennsylvania	58.3
23.	Reedsville, Pennsylvania	For construction of a 4 lane highway between Reedsville and Seven Mountains, Pennsylvania	35.1
24.	Pennsylvania	To relocate section of railroad tracks between Hagerstown, Maryland and Shippensburg, Pennsylvania to eliminate 23 at-grade crossings and to make connection to an existing railroad line	14.4
25.	Roaring Spring, Pennsylvania	To upgrade to 3 lanes by adding a center turning lane to a section of Pennsylvania 36 from New U.S. 220 to the intersection at Roaring Spring, Pennsylvania	8.8
26.	Altoona, Pennsylvania	To widen and extend Chestnut Avenue from Altoona to Juniata, Pennsylvania	7.12
27.	Bedford County, Pennsylvania	To widen Rt. 30 from the Narrows in Bedford to Mt. Dallas, Pennsylvania	48.0
28.	Brevard County, Florida	Design, acquire right-of-way and construct a widened bridge on State Road 3 over the Barge Canal	6.9
29.	Blacksburg, Montgomery County, Virginia	Construction of 6 mile 4 lane highway to demonstrate intelligent/vehicle highway systems	5.9
30.	Mobile, Alabama	For reconstruction of the West Tunnel Plaza Interchange on I-10 from Virginia Street to Mobile River Tunnel, Mobile, Alabama	15.0
31.	Pennsylvania	To widen U.S. Rt. 202 from King of Prussia to Montgomeryville, Pennsylvania	8.9
32.	Galina, Illinois	To conduct environmental, preliminary engineering and design studies to widen a 47 mile stretch of U.S. 20 to 4 lanes	2.0
33.	Areneck County, Michigan	To improve a 12-mile stretch of U.S. 23 between Rt. 13 and Rt. 65, Michigan	4.7
34.	Brooks, Jim Wells, and Live Oak Counties, Texas	To improve, upgrade and widen U.S. 281 to the Mexican Border	27.6
35.	Alabama	To construct a 4-lane access controlled highway to bypass Montgomery, Alabama and connect I-65 and I-85	11.8
36.	North Dakota	To design computerized system to inventory and manage off system bridge repairs or replacement statewide; begin repair activities	8.9
37.	Los Angeles, California	For preliminary work on a project to enhance the capacity of I-5 in Los Angeles and Orange County from the downtown area to the State Rt. 91 interchange in Buena Park	6.7
38.	Mendon, Illinois	To construct 14.8 miles of Highway 336 from Illinois Rt. 61 near Mendon, Illinois to West Point Road	5.0
39.	Bryden, Washington	Construct 3 miles of new and improved highways connecting Clarkston, Washington with Lewiston, Idaho	3.9
40.	Missouri	To widen I-55 between Rt. M and Rt. 67 in Jefferson County, Missouri	5.1
41.	Jefferson County, Missouri	To upgrade 7.9 miles of Missouri Highway 21 in Jefferson County, Missouri	5.1
42.	St. Louis, Missouri	To construct a 4-Lane outer beltway connecting I-55 and I-44 in St. Louis and Jefferson County, Missouri	7.6
43.	Hillsborough, Florida	Widen and enhance safety and drainage features of I-4 from Tampa to the Hillsborough County Line	24.5

	City/State	Innovative projects	Amount in millions
44.	Wichita, Kansas	To construct a 6 lane access controlled highway and interchange at Oliver Street	6.6
45.	Brigham City, Utah	To construct an interchange on I-15 at Forest St. in Brigham City, Utah	3.6
46.	Utah	For the upgrading of U.S. 89 in Davis and Weber Counties, Utah	3.0
47.	Grand Rapids, Michigan	For construction of a bypass around Grand Rapids, Michigan connecting I-96 and I-196	6.9
48.	Suffolk County/Long Island, New York	Avoid erecting costly areas through selective black topping through high noise road segments	2.0
49.	Suffolk County, New York	Evaluate suitability of composting and recycling for use on Federal-aid highway medians and perimeters	0.4
50.	Springfield, South Dakota	Plan, engineer and construct a bridge across the Missouri River to connect South Dakota Rt. 37 to Nebraska Highway 12	4.7
51.	Vermillion, South Dakota	Engineer and construct bridge across the Missouri River in the vicinity of Vermillion, South Dakota	3.6
52.	Pennsylvania	Design, engineer and construct 2 exits off Interstate 81 at Wilkes-Barre and Mountaintop, Pennsylvania	16.7
53.	Genesse, Michigan	Widen and improve pavement in Mundy Township, from Baldwin Rd. to Cook Rd.	0.16
54.	Flint, Michigan	Engineer, design and construct improved and widened 5-lane road	0.5
55.	Flint, Michigan	Engineer, design and construct 1.02 miles of 5-lane roadway	0.9
56.	Flint, Michigan	Right-of-way acquisition, relocation and construction of Bristol Road	3.1
57.	Salem, Oregon	To construct the Salem Bypass around Salem, Oregon	6.0
58.	Montgomeryville, Pennsylvania	To improve U.S. 202 from Montgomeryville to Doylestown, Pennsylvania	10.8
59.	Amherst/Erie County, New York	Widen 2 miles of Rt. 263 from 2 lanes to 4 lanes and rehabilitate a 4 mile stretch of Rt. 78	7.6
60.	Idaho	To improve the Bryden Canyon Rd. in Lewiston, Idaho	5.3
61.	Mojave, California	Widen and reconstruct bridge to CALTRANS height standards	1.8
62.	Freemont, Iowa	For construction of Iowa highway #2 from Sidney, Iowa to I-29 in Freemont County, Iowa	8.7
63.	Council Bluffs, Iowa	For a variety of improvements to the Valley View Corridor in Council Bluffs, Iowa	1.0
64.	Indiana	Construct extension of Interstate 69 to link Evansville and Indianapolis, Indiana	3.8
65.	Aberdeen, Ohio	U.S. 62 Ohio River Bridge	15.5
66.	Jacksonville, Illinois	U.S. 67 Jacksonville Bypass	15.8
67.	Snohomish, Washington	Snohomish County, Washington HOV Lanes	6.5
68.	Portland/S. Portland, Maine	Portland-S. Portland Bridge	134.5
69.	Iowa	Highway 63 Improvements, Waterloo to New Hampton, Iowa	15.1
70.	Brook Park, Ohio	Aerospace Technology Park Access Rd., Brook Park, Ohio	14.2
71.	California	Rt. 156 Hollister Bypass, San Benito, California	0.9
72.	Monterey, California	Rt. 101, Prunedale, California	4.2
73.	New Jersey	Rt. 21 Viaduct, Newark, New Jersey, City of Newark's Project	14.8
74.	New Jersey	Rt. 21 widening, Newark, New Jersey, City of Newark's Project	13.9
75.	North Carolina	U.S. 64 widening in Chatham and Wake Counties, North Carolina	5.3
76.	Tennessee	I-81/Industrial Park South Interchange, Sullivan County, Tennessee	5.8
77.	Tennessee	Foothills Parkway: Pittman Center to Cosby, Tennessee	11.2
78.	Ohio	Kelly Avenue extension, Akron, Ohio	9.5
79.	Exton, Pennsylvania	Exton Bypass, Exton, Pennsylvania	26.8
80.	Alabama	Black Warrier River Bridge, Tuscaloosa County, Alabama	6.4
81.	Brooklyn Park, Minnesota	Highway 610 crosstown project, Brooklyn Park, Minnesota	36.0
82.	California	I-880/Alvarado-Niles Road Interchange, Union City, California	9.5
83.	Merrysville, Washington	Interstate 5 Interchange improvement: 88th Street, Merrysville, Washington	1.9
84.	Myrtle Beach, South Carolina	Carolina Bays Parkway, Myrtle Beach, South Carolina	5.9
85.	Mississippi	U.S. 90 improvements including 6 lane bridge and approaches, Pascagoula, Mississippi	4.3
86.	Bakersfield, California	Rt. 58 Improvements, Bakersfield, California	4.7
87.	Santa Fe Springs, California	Norwalk Blvd. grade separation, Santa Fe Springs	4.7
88.	Hoquiam, Washington	Gray's Harbor Industrial Corridor Bridge, Hoquiam, Washington	4.7
89.	Traverse City, Michigan	Traverse City Bypass, Traverse City, Michigan	4.5
90.	Nevada	Lamoille Highway widening, Elko County, Nevada	2.4
91.	Reno, Nevada	U.S. 395 Extension, in vicinity of Reno, Nevada	14.8
92.	Carson City, Nevada	Carson City Bypass, Carson City, Nevada	7.6
93.	Columbus, Ohio	I-270 North outerbelt widening, Franklin County, Ohio	10.2
94.	St. Thomas, Virgin Islands	Feasibility study of constructing a second road to the west end of the island	1.7
95.	Illinois	DeQuoin Highway Bridge	2.6
96.	Illinois	Tamarack Street Extension	0.6
97.	Indiana	East Chicago Marina Access Road	8.5
98.	District of Columbia	Hybrid Fuel Cell	3.6
99.	Ohio	Rehabilitation of Bridge on U.S. 224 near State Route 616	1.0

114.	Corpus Christi to Angleton, Texas	Construct new multi-lane freeway	41.7
115.	Fort Worth, Texas	Construction of an overpass and frontage road at the Fort Worth Hillwood/I-35 interchange	12.7
116.	West Sacramento, California	Construction of Industrial Boulevard Bridge over Sacramento River Barge Canal in West Sacramento, California	8.3
117.	Baltimore County, Maryland	I-695 Improvements in Baltimore County, Maryland	23.9
118.	Hampton Roads, Virginia	I-64 Crossing of Hampton Roads	5.9
119.	Calumet City, Illinois	Reconstruction of 156th Street and 156th Place from Burkham Avenue to State line	1.3
120.	Frankfort Township, Illinois	Improvements of streets in Frankfort Township	1.0
121.	Matteson, Illinois	I-57 Bridge Improvements	3.6
122.	Illinois	Road Improvement, U.S. 150/Ill. 1 from Belguim to South of Westville	3.8
123.	Illinois	Road Improvement, U.S. 45 from Savoy to Tolono	5.6
124.	Alabama	Patton Island Bridge Project	4.7
125.	Borough of Paulsboro, New Jersey	Construction of a new bridge to improve safety	2.7
126.	Minnesota	Completion of Cross-Range Expressway (Trunk Highway 169)	13.0
127.	Hinckley, Minnesota	Safety and capacity improvements to Trunk Highway 48 and relocation of County Road 134	2.0
128.	Minnesota	Trunk Highway 53, Twig to Trunk Highway 37	9.5
129.	Minnesota	Trunk Highway 169, Grand Rapids to High City	9.0
130.	Minnesota	Trunk Highway 61, Schroeder to Grand Marais	18.0
131.	Wisconsin	Improvements to Highway 41, Oshkosh to Green Bay	41.7
132.	Wisconsin	Improvements to Highway 29, Chippewa Falls to State Trunk Hwy. 73	28.3
133.	Minnesota	Trunk Highway 37 and Hughes Rd	0.5
134.	Pennsylvania	Route 120 widening in vicinity of Lock Haven	4.0
135.	Pennsylvania	Replace U.S. 15 bridge across Tioga River	3.2
136.	Pennsylvania	Wysox Narrows Rd. (U.S. 6)	3.0
137.	Chicago, Illinois	Improvements on Kennedy Expressway, except that the allocation percentages under this section shall not apply to this project and, in lieu thereof, 1/3 of the funds for such projects shall be available for obligation in each of fiscal years 1992, 1993, and 1994	175.0
138.	South Carolina	Southern Connector Highway improvements in Greenville County; Highway 17 Bridge Replacement Projects over Cooper River, Charleston; Carolina Bays Parkway improvements, Myrtle Beach (funds to be equitably divided among these facilities)	11.0
139.	South Carolina	Rail Corridor Revitalization in Columbia, South Carolina	4.0
140.	Rhode Island	For design and construction of a stormdrain retrofit on I-95 and other highway runoff programs to protect Narragansett Bay	13.0
141.	South Kingstown, Rhode Island	For historic renovation and development of an intermodal center at the Kingston Railroad Station	2.0
142.	Lincoln and Cumberland, Rhode Island	For historic rehabilitation of the Albion Bridge and Albion Trench Bridge	2.0
143.	Newport, Rhode Island	To develop the marine mode of the intermodal Gateway Transportation Center	6.0
144.	Bristol, Rhode Island	For road improvements in Bristol, Rhode Island	2.0
145.	Pennsylvania	An applied technology demonstration in advanced technology demonstrations in advanced driver information systems, with a special emphasis on display instrumentation and information communications technology, to be carried out in cooperation with the Center for Advanced Design and Communication Arts Technology at the University of the Arts	2.0
146.	Vermont	Construction of a highway from U.S. 7, North of Bennington, Vermont southwest to NY 7 in Hoosick, NY	20.0
147.	Woonsocket, Rhode Island	For construction of Route 99 Extension	1.96
148.	Woonsocket, Rhode Island	For repaving streets in Woonsocket	1.40
149.	Woonsocket, Rhode Island	For improvements to 3 bridges crossing the Blackstone River	0.35

	City/State	Innovative projects	Amount in millions
150.	Cranston, Rhode Island	For reconstruction and repaving of Park Avenue, Sockanossett Crossroads, Olney Arnold Road, South Comstock Parkway, Wildflower Drive, Aqueduct Road and Mapleton Street	5.7
151.	Rhode Island	For operating expenses of the Rhode Island Public Transit Authority	18.0
152.	New Hampshire	To study corridor protection for New Hampshire Route 16	2.0
153.	North Conway, New Hampshire	To provide congestion relief on U.S. 302 and New Hampshire Route 16	6.3
154.	Kansas	To widen U.S. 81 7-15 miles Belleville to Concordia	7.0
155.	Kansas	To construct Hutchinson Bypass between U.S. 50 and K-96 Hutchinson, Kansas	24.4
156.	Wyoming	For reconstruction of county roads not on the State Highway System by the Wyoming State Department of Transportation	20.0
157.	Virginia	For the rehabilitation, renovation, reconstruction, resurfacing, safety improvements and modernization on the existing 1,069 mile Interstate system in Virginia to be distributed by the Commonwealth Transportation Board, to the maximum extent possible, on an equitable regional basis	63.5
158.	Minnesota	Hennepin County, Minnesota Bloomington Ferry Bridge/C.S.A.H. 18 Replacement Project Bloomington, MN	18.0
159.	Minnesota	Nicollet County, Minnesota C.S.A.H. 41 for roadway stabilization and rockfall control North Mankato, MN	3.0
160.	Minnesota	St. Cloud, Minnesota T.H. 15 bridge across Mississippi River and Interchange with T.H. 10	3.24
161.	Minnesota	Minnesota Safety Initiative Program ($2 million to demonstrate the safety benefits of retroreflective pavement markings and signs, especially for nighttime and older drivers; $1 million to demonstrate the safety and environmental benefits of elastomer modified asphalt in cold weather climates)	3.0
162.	New York, New York	Hell Gate Viaduct: upgrade, repair & paint	55.0
163.	New York, New York	Ferry Landing, Battery Park: Reconstruction of ferry landing within Battery Park	2.0
164.	New York, New York	Foley Square Plaza: Transportation improvements & construction activities for Foley Square Plaza development	5.25
165.	New York, NY	Franklin Delano Roosevelt Drive: To reconstruct & improve several sections of Franklin Delano Roosevelt Drive	10.0
166.	Corning, NY	Corning Bypass Improvements	11.0
167.	Nelson County, North Dakota	Grading & surfacing: from U.S. Highway 2 at Michigan southerly to ND Highway 15 at McVille; and of FAS 3220 from ND 1 to ND 32	8.5
168.	Stutsman County, North Dakota	Surfacing from I-94 north & east through Spiritwood, then north to ND Highway 9	4.0
169.	Steele/Griggs County, North Dakota	Grading & surfacing of FAS 4612 & FAS 2012 from ND 32 to ND 45	2.9
170.	Grand Forks County, North Dakota	Surfacing of FAS 1822 from FAS 1833 to I-29, & FAS 1812 from FAS 1833 to I-29, & FAS 1833 from FAS 1824 to ND 15	2.6
171.	Richland County, North Dakota	Grading & surfacing from Wahpeton to the Froedtert Malting Plant	0.6
172.	Ward/McHenry County, North Dakota	Grading & surfacing FAS 5158 & FAS 2546 from U.S. 83 to ND 41.	4.5
173.	Bottineau County, North Dakota	Grading & surfacing from Bottineau to ND Highway 43	2.4
174.	McKenzie County, North Dakota	Grading & surfacing of FAS 2750 from U.S. 85 west 12 miles	2.3
175.	Wells County, North Dakota	Grading & surfacing of FAS 5215 from FAS 5208 north to the county line, & from U.S. 52, one mile west of Manfred, north to FAS 5208	2.5
176.	Traill County, North Dakota	Grading & surfacing of FAS 4916 from ND 200 east to the Red River	2.8
177.	Eddy County, North Dakota	Grading & surfacing of: FAS 1404 from U.S. 281 east 10.5 miles & from ND 20 west 5.5 miles; & of FAS 1427 from ND 20 south about 8 miles	2.5
178.	Renville/Ward County, North Dakota	Grading & surfacing, starting at FAS 3809 on the Ward County line south 4 miles & then east 2 miles	0.9
179.	Morton County, North Dakota	Grading & surfacing of FAS 3020 from ND 49 southeasterly to FAS 3033	3.1
180.	Walsh County, North Dakota	Surfacing of FAS 5017 from Lankin south to the Nelson County line & FAS 5022 from Fordville east to ND 18	2.5
181.	Dickey County, North Dakota	Grading & surfacing of FAS 1112 from U.S. 281 east to FAS 1127, FAS 1111 from ND 11 south to FAS 1124, & FAS 1137 from ND 11 north to Guelph	4.0
182.	Burke County, North Dakota	Grading & surfacing of FAS 0717 from Lignite south to ND 50	4.4
183.	Morton County, North Dakota	For a bypass from ND 1806 around the westside of Fort Lincoln State Park	3.2
184.	Rolette County, North Dakota	Grading & surfacing from U.S. 281 around the access loop road in the Int'l. Peace Gardens	1.9
185.	Oliver County, North Dakota	Grading & surfacing of FAS 3331 from ND 200A at Hensler southerly to ND 25, & FAS 3304 from FAS 3331 east to FAS 3339	2.9
186.	Williams County, North Dakota	Grading & surfacing at County Rd. 5 from U.S. 2 southerly to ND 1804	2.5

	City/State	Innovative projects	Amount in millions
187.	Plummer, Idaho	Reconstruct a total of 2.9 miles of SH–5 (FAP–14) beginning at M.P. 0.5 in the City of Plummer in Benewah County to M.P. 1.1, and two additional segments located on Peedee Hill from approximately M.P. 3.6 to M.P. 4.9 and M.P. 5.7 to M.P. 6.7	3.6
188.	Lemhi County, Idaho	Reconstruct a 8.3 mile section of U.S. 93 (FAP–35) in Lemhi County at the Idaho/Montana border. 23 U.S.C. 120(a) shall be applicable to the Federal share payable of the cost of such project	25.6
189.	St. Maries, Idaho	Rehabilitate existing pavement structure for a total of 14.2 miles of Idaho Forest Highway 50, the St. Joe River Road between St. Maries and the Benewah/Shoshone County Line	3.4
190.	Lewiston, Idaho	Construct a new road for a total of 2.4 miles along FAU Route 7344, M.P. 0.0–2.4, in Bryden Canyon, Lewiston	3.9
191.	Bear Lake County, Idaho	Reconstruct a 13.0 mile segment of U.S.–89 (FAP–53) between the communities of Montpelier and Geneva	18.5
192.	Alabama	Improvements to Anniston Eastern Bypass, in the vicinity of U.S. 431 and Alabama State Hwy. 21 north of Anniston to the Golden Springs interchange on I–20	11.0
193.	Corning, New York	Additional funding for Corning Bypass (Route 1), except any excess funds from the $13.4 million in total funding for this project shall be available for construction of two additional expressway lanes from Chautauqua Lake Bridge to Pennsylvania border on Route 17	2.4
194.	Billings, Montana	Construction of the Shilo I–90 Interchange	11.0
195.	Missoula, Montana	Construction of the Missoula Airport I–90 Interchange	7.0
196.	Orlando, Florida	Land & right-of-way acquisition & guideway construction for magnetic levitation projection	97.5
197.	Toledo, Ohio	Design & initial construction of a new I–280 Maumee River crossing to replace the Craig Memorial Bridge .	37.0
198.	New London-Groton/Bridgeport/New Haven, Connecticut	Rehabilitate or replace: The Gold Star Bridge over the Thames River I–95 between New London & Groton; the Bridge over the Yellow Mill Channel (Bridgeport); & the Tomlinson Bridge on Rte. 1 over the Quinnipiac River (New Haven)	62.0
199.	Raleigh/Rocky Mount/Elizabeth City, North Carolina	Design & Construction of interstate standard highway from Rocky Mount, NC to Elizabeth City, NC, & for the upgrading of I–64 from Raleigh, NC to Rocky Mount, NC, & Rte. 17 from Elizabeth City to Norfolk. A substantial portion of the funding should be used for magnetic levitation projection to Elizabeth segment	30.0
200.	Binghamton, New York	A study of the feasibility of rehabilitation of the South Washington Street Bridge in Binghamton, NY, to identify plans & specifications for repair if feasible. .	0.5
201.	District of Columbia	Advanced composite bridge deck demonstration at Catholic University	0.2
202.	Georgia	For any highway improvement projects eligible for funding under title 23, United States Code	27.0
203.	Hawaii	For any highway improvement projects eligible for funding under title 23, United States Code	6.0
204.	Oklahoma	For any highway improvement projects eligible for funding under title 23, United States Code	59.0

(c) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (b) for each project authorized by subsection (b) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(d) FEDERAL SHARE.—The Federal share payable on account of any project under this section shall be 80 percent of the cost thereof.

(e) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this section to the State in which such project or projects are located upon request of such State.

(f) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this section—

(1) has obligated all funds allocated under this section for construction of such project; and

(2) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this section.

(g) REPORTS.—Not later than 1 year after completion of a project under this section, the State in which such project is located shall submit to the Secretary a report on the innovative techniques used in carrying out such project and on the results obtained through the use of such techniques.

(h) APPLICABILITY OF TITLE 23.—Funds authorized by this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be determined in accordance with this section and such funds shall remain available until expended. Funds authorized by this section shall not be subject to any obligation limitation.

SEC. 1108. PRIORITY INTERMODAL PROJECTS.

(a) PURPOSE.—The purpose of this section is to provide for the construction of innovative intermodal transportation projects.

(b) AUTHORIZATION OF PRIORITY PROJECTS.—The Secretary is authorized to carry out the priority intermodal transportation projects described in this subsection. Subject to subsection (c), there is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal years 1992 through 1997 to carry out each such project the amount listed for each such project:

	City/State	Intermodal projects	Amount in millions
1.	Long Beach, California	Interchange at Terminal Island Freeway and Ocean Boulevard	11.8
2.	Wilmington/Los Angeles, California	Widening of Anaheim Street Viaduct	11.8
3.	Wilmington/Los Angeles, California	Grade Separation Project of Pacific Coast Highway near Alameda Suite	11.8
4.	Compton City/Los Angeles County, California	Widening of Alameda Street and grade separation between Rt. 91 and Del Amo Boulevard	11.8
5.	Pennsylvania	Upgrading U.S. Highway 30 from Ohio Border to Pittsburgh International Airport	3.2
6.	Philadelphia, Pennsylvania	Reconstruction of the Old Delaware Avenue Service Road	2.4
7.	Ardmore, Oklahoma	Study of upgraded State Route 53 off U.S. 35 leading to improved Ardmore Airport	2.5
8.	Detroit, Michigan	To relocate Van Dyke Street and construct a road depression under the runway at McNichols Road at the Detroit City Airport ($1,000,000 of the Federal funds shall be for the relocation of Van Dyke Street)	4.3
9.	E. Haven/Wallingford, Connecticut	Improvement of highway and transit projects in East Haven/Wallingford, Connecticut ($8.8 million for East Haven Route 80, $2.4 million for Wallingford I–91, and $0.7 million for Wallingford Oakdale)	10.1
10.	St. Louis, Missouri	Rehabilitation of Eads Bridge, St. Louis, Missouri	8.9
11.	Atlanta, Georgia	Study of 5-Points Intermodal Terminal-Atlanta, Georgia	2.4
12.	Buffalo, New York	Construction of Buffalo River/Gateway Tunnel Project	20.2
13.	Northern California	Purchase right-of-way and develop a transportation corridor in existing rail right-of-way from Larkspur to Korbel, and Novato to Lombard	15.1
14.	Portland, Oregon	To widen 2.7 miles of U.S. 26 from the Zoo interchange to the Sylvan Interchange to accommodate highway lanes and light rail alignment	14.2
15.	Los Angeles, California	For construction of a multi-modal transit parkway that includes both highway and transit improvements on Santa Monica Blvd. from the San Diego Freeway to Hollywood Freeway, Los Angeles, California	8.9
16.	Jacksonville, Florida	Construct new I–295 Interchange and arterial access road to link Jacksonville's seaport, airport terminals and the interstate	7.1
17.	Las Vegas, Nevada	Conduct environmental studies and preliminary engineering for the western and northern portions of the project linking McCarran International Airport with I–15	3.8
18.	Ontario, California	To complete construction of access roads to Ontario International Airport, Ontario, California	4.7
19.	Allegheny County, Pennsylvania	For an expansion of the existing Martin Luther King, Jr. Busway in the vicinity of Allegheny County, Pennsylvania to serve the Greater Pittsburgh International Airport and adjoining communities	21.7
20.	Pierce County, Washington	Conduct feasibility study and analyze expanding Tacoma Narrows Bridge and other transportation alternatives between State Rd. 16 and I–5	0.7
21.	San Jose, California	Upgrade Rt. 87 from 4 to 6 lanes including 2 HOV Lanes, a new freeway interchange and local circulation system for San Jose International Airport	14.8
22.	American Samoa	Rehabilitate 8 miles of Tau Road from Falessao to Fatuita American Samoa	1.1
23.	Manu'a Island, American Samoa	Rehabilitate and otherwise improve 8 miles of roadway from Ofu to Olosfaga and Slie	1.2
24.	Spokane, Washington	Conduct feasibility study of future transportation needs of Southeastern Washington	0.8
25.	Detroit, Michigan	To provide for construction of an access road to Detroit Metropolitan Airport including access on the southern end of the airport in order to provide a link to I–275	33.8
26.	Pittsburgh, Pennsylvania	For design and construction of an exclusive busway linking Pittsburgh and the Pittsburgh Airport	9.8
27.	St. Louis, Missouri	To construct a multi-modal transportation facility in St. Louis, Missouri	5.9
28.	Orange & Rockland, New York	To construct park and ride facilities and establish innovative traffic management system measures to promote efficient transportation usage	4.7
29.	Philadelphia, Pennsylvania	To improve mobility for a variety of traffic flow projects in the vicinity of the Pennsylvania Convention Center, Philadelphia, Pennsylvania	9.5
30.	Oxnard, California	To extend Rice Rd., widen Hueneme Rd. and construct Rt. 1/Rice Rd. interchange in order to improve access to Port Hueneme, Oxnard, California	8.9
31.	Los Angeles, California	To improve ground access from Sepulveda Blvd. to Los Angeles, California	8.9
32.	Mt. Vernon, New York	To construct an intermodal facility at the Mt. Vernon Rail Station, Mt. Vernon, New York	7.1
33.	Orange County, New York	I–87/I–84 Stuart Airport Interchange Project	15.7
34.	Mississippi	I–20 Interchange at Pirate	3.4
35.	Jackson, Mississippi	Jackson Airport Connectors	3.1
36.	Palmdale, California	Avenue P8 Improvements	3.6
37.	Lafayette, Indiana	Lafayette Railroad Relocation Project	24.3
38.	Provo, Utah	South Access Rd. to Provo Municipal Airport	1.0

	City/State	Intermodal projects	Amount in millions
39.	Pennsylvania	Eastside Connector Project/Port of Erie Access, Erie County, Pennsylvania	7.5
40.	Minneapolis, Minnesota	Intermodal Urban connection project, Minneapolis, Minnesota	19.9
41.	Kansas City, Missouri	Bruce Watkins Roadway Improvements	1.4
42.	Missouri	Smith Riverfront Expressway, Jackson/Kansas City, Missouri	12.7
43.	Portland, Oregon	Columbia Slough Intermodal Expansion Bridge, Portland, Oregon	2.1
44.	Ft. Worth, Texas	Ft. Worth Intermodal Center	13.4
45.	Gary, Indiana	Extension of U.S. Highway 12/20 to Lake Michigan	2.2
46.	Carson/Los Angeles Counties, California	Grade Separation Project at Sepulveda Boulevard and Alameda Street	9.5
47.	Williamson, Travis, Caldwell, and Guadalupe, Texas	Feasibility studies (including the effect of closing Bergstrom AFB on traffic corridor), Route studies, preliminary engineering, and right-of-way acquisition for Alternate Route to relieve I–H35 traffic congestion	5.2
48.	Augusta, Georgia	Railroad relocation demonstration project, overpass at 15th Street and Greene Street	5.9
49.	Louisiana	Saint Bernard Intermodal Facility Engineering, Design, and Construction	10.2
50.	Illinois	Interstate 255 Interchange	3.4
51.	Long Beach, California	Long Beach Airport Access	8.5

(c) ALLOCATION PERCENTAGES.—8 percent of the amount allocated by subsection (b) for each project authorized by subsection (b) shall be available for obligation in fiscal year 1992. 18.4 percent of such amount shall be available for obligation in each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(d) FEDERAL SHARE.—The Federal share payable on account of any project under this section shall be 80 percent of the cost thereof.

(e) DELEGATION TO STATES.—Subject to the provisions of title 23, United States Code, the Secretary shall delegate responsibility for construction of a project or projects under this section to the State in which such project or projects are located upon request of such State.

(f) ADVANCE CONSTRUCTION.—When a State which has been delegated responsibility for construction of a project under this section—

(1) has obligated all funds allocated under this section for construction of such project; and

(2) proceeds to construct such project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such project, except insofar as such procedures and requirements limit the State to the construction of projects with the aid of Federal funds previously allocated to it;

the Secretary, upon the approval of the application of a State, shall pay to the State the Federal share of the cost of construction of the project when additional funds are allocated for such project under this section.

(g) APPLICABILITY OF TITLE 23.—Funds authorized by this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be determined in accordance with this section and such funds shall remain available until expended. Funds authorized by this section shall not be subject to any obligation limitation.

(h) HIGHWAY AND MASS TRANSIT PROJECTS.—Each project authorized by this section or by any other section of this Act is a highway or an urban mass transportation project.

SEC. 1109. INFRASTRUCTURE AWARENESS PROGRAM.

(a) IN GENERAL.—For the purpose of creating an awareness by the public and State and local governments of the state of the Nation's infrastructure and to encourage and stimulate efforts by the public and such governments to undertake studies and projects to improve the infrastructure, the Secretary is authorized to fund the production of a documentary in cooperation with a not-for-profit national public television station.

(b) FUNDING.—There is authorized to be appropriated to the Secretary to carry out this section $2,000,000 for fiscal years beginning after September 30, 1991, out of the Highway Trust Fund (other than the Mass Transit Account), which shall remain available until expended. All of the provisions of chapter 1 of title 23, United States Code, shall apply to the funds provided under this section. This section shall not be subject to any obligation limitation.

PART B—NATIONAL RECREATIONAL TRAILS FUND ACT

SEC. 1301. SHORT TITLE.

This part may be cited as the "Symms National Recreational Trails Act of 1991".

SEC. 1302. NATIONAL RECREATIONAL TRAILS FUNDING PROGRAM.

(a) IN GENERAL.—The Secretary, in consultation with the Secretary of the Interior, using amounts available in the Fund, shall administer a program allocating moneys to the States for the purposes of providing and maintaining recreational trails.

(b) STATEMENT OF INTENT.—Moneys made available under this part are to be used on trails and trail-related projects which have been planned and developed under the otherwise existing laws, policies and administrative procedures within each State, and which are identified in, or which further a specific goal of, a trail plan included or referenced in a Statewide Comprehensive Outdoor Recreation Plan required by the Land and Water Conservation Fund Act.

(c) STATE ELIGIBILITY.—

(1) TRANSITIONAL PROVISION.—Until the date that is 3 years after the date of enactment of this Act, a State shall be eligible to receive moneys under this Act only if such State's application proposes to use the moneys as provided in subsection (e).

(2) PERMANENT PROVISION.—On and after the date that is three years after the date of the enactment of this Act, a State shall be eligible to receive moneys under this part only if—

(A) a recreational trail advisory board on which both motorized and nonmotorized recreational trail users are represented exists within the State;

(B) in the case of a State that imposes a tax on nonhighway recreational fuel, the State by law reserves a reasonable estimation of the revenues from that tax for use in providing and maintaining recreational trails;

(C) the Governor of the State has designated the State official or officials who will be responsible for administering moneys received under this Act; and

(D) the State's application proposes to use moneys received under this part as provided in subsection (e).

(d) ALLOCATION OF MONEYS IN THE FUND.—

(1) ADMINISTRATIVE COSTS.—No more than 3 percent of the expenditures made annually from the Fund may be used to pay the cost to the Secretary for—

(A) approving applications of States for moneys under this part;

(B) paying expenses of the National Recreational Trails Advisory Committee;

(C) conducting national surveys of nonhighway recreational fuel consumption by State, for use in making determinations and estimations pursuant to this part; and

(D) if any such funds remain unexpended, research on methods to accommodate multiple trail uses and increase the compatibility of those uses, information dissemination, technical assistance, and preparation of a national trail plan as required by the National Trails System Act (16 U.S.C. 1241 et al).

(2) ALLOCATION TO STATES.—

(A) AMOUNT.—Amounts in the Fund remaining after payment of the administrative costs described in paragraph (1), shall be allocated and paid to the States annually in the following proportions:

(i) EQUAL AMOUNTS.—50 percent of such amounts shall be allocated equally among eligible States.

(ii) AMOUNTS PROPORTIONATE TO NONHIGHWAY RECREATIONAL FUEL USE.—50 percent of such amounts shall be allocated among eligible States in proportion to the amount of nonhighway recreational fuel use during the preceding year in each such State, respectively.

(B) USE OF DATA.—In determining amounts of nonhighway recreational fuel use for the purpose of subparagraph (A)(ii), the Secretary may consider data on off-highway vehicle registrations in each State.

(3) LIMITATION ON OBLIGATIONS.—The provisions of paragraphs (1) and (2) notwithstanding, the total of all obligations for recreational trails under this section shall not exceed—

(A) $30,000,000 for fiscal year 1992;
(B) $30,000,000 for fiscal year 1993;
(C) $30,000,000 for fiscal year 1994;
(D) $30,000,000 for fiscal year 1995;
(E) $30,000,000 for fiscal year 1996; and
(F) $30,000,000 for fiscal year 1997.

(e) USE OF ALLOCATED MONEYS.—

(1) PERMISSIBLE USES.—A State may use moneys received under this part for—

(A) in an amount not exceeding 7 percent of the amount of moneys received by the State, administrative costs of the State;

(B) in an amount not exceeding 5 percent of the amount of moneys received by the State, operation of environmental protection and safety education programs relating to the use of recreational trails;

(C) development of urban trail linkages near homes and workplaces;

(D) maintenance of existing recreational trails, including the grooming and maintenance of trails across snow;

(E) restoration of areas damaged by usage of recreational trails and back country terrain;

(F) development of trail-side and trail-head facilities that meet goals identified by the National Recreational Trails Advisory Committee;

(G) provision of features which facilitate the access and use of trails by persons with disabilities;

(H) acquisition of easements for trails, or for trail corridors identified in a State trail plan;

(I) acquisition of fee simple title to property from a willing seller, when the objective of the acquisition cannot be accomplished by acquisition of an easement or by other means;

(J) construction of new trails on State, county, municipal, or private lands, where a recreational need for such construction is shown; and

(K) only as otherwise permissible, and where necessary and required by a State Comprehensive Outdoor Recreation plan, construction of new trails crossing Federal lands, where such construction is approved by the administering agency of the State, and the Federal agency or agencies charged with management of all impacted lands, such approval to be contingent upon compliance by the Federal agency with all applicable laws, including the National Environmental Policy Act (42 U.S.C. 4321 et seq.), the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended (16 U.S.C. 1600 et seq.), and the Federal Land Policy and Management Act (43 U.S.C. 1701 et seq.).

(2) USE NOT PERMITTED.—A State may not use moneys received under this part for—

(A) condemnation of any kind of interest in property;

(B)(i) construction of any recreational trail on National Forest System lands for motorized uses unless such lands:

(I) have been allocated for uses other than wilderness by an approved Forest land and resource management plan or have been released to uses other than wilderness by an Act of Congress, and

(II) such construction is otherwise consistent with the management direction in such approved land and resource management plan; or

(ii) construction of any recreational trail on Bureau of Land Management lands for motorized uses unless such lands:

(I) have been allocated for uses other than wilderness by an approved Bureau of Land Management resource management plan or have been released to uses other than wilderness by an Act of Congress, and

(II) such construction is otherwise consistent with the management direction in such approved management plans; or

(C) upgrading, expanding, or otherwise facilitating motorized use or access to trails predominantly used by non-motorized trail users and on which, as of May 1, 1991, motorized use is either prohibited or has not occurred.

(3) GRANTS.—

(A) IN GENERAL.—A State may provide moneys received under this part to make grants to private individuals, organizations, city and county governments, and other government entities as approved by the State after considering guidance from the recreational trail advisory board satisfying the requirements of subsection (c)(2)(A), for uses consistent with this section.

(B) COMPLIANCE.—A State that issues such grants under subparagraph (A) shall establish measures to verify that recipients comply with the specified conditions for the use of grant moneys.

(4) ASSURED ACCESS TO FUNDS.—Except as provided under paragraphs (6) and (8)(B), not less than 30 percent of the moneys received annually by a State under this part shall be reserved for uses relating to motorized recreation, and not less than 30 percent of those moneys shall be reserved for uses relating to non-motorized recreation.

(5) DIVERSIFIED TRAIL USE.—

(A) REQUIREMENT.—To the extent practicable and consistent with other requirements of this section, a State shall expend moneys received under this part in a manner that gives preference to project proposals which—

(i) provide for the greatest number of compatible recreational purposes including, but not limited to, those described under the definition of "recreational trail" in subsection (g)(5); or

(ii) provide for innovative recreational trail corridor sharing to accommodate motorized and non-motorized recreational trail use.

This paragraph shall remain effective until such time as a State has allocated not less than 40 percent of moneys received under this part in the aforementioned manner.

(B) COMPLIANCE.—The State shall receive guidance for determining compliance with subparagraph (A) from the recreational trail advisory board satisfying the requirements of subsection (c)(2)(A).

(6) SMALL STATE EXCLUSION.—Any State with a total land area of less than 3,500,000 acres, and in which nonhighway recreational fuel use accounts for less than 1 per centum of all such fuel use in the United States, shall be exempted from the requirements of paragraph (4) of this subsection upon application to the Secretary by the State demonstrating that it meets the conditions of this paragraph.

(7) CONTINUING RECREATIONAL USE.—At the option of each State, moneys made available pursuant to this part may be treated as Land and Water Conservation Fund moneys for the purposes of section 6(f)(3) of the Land and Water Conservation Fund Act.

(8) RETURN OF MONEYS NOT EXPENDED.—

(A) Except as provided in subparagraph (B), moneys paid to a State that are not expended or dedicated to a specific project within 4 years after receipt for the purposes stated in this subsection shall be returned to the Fund and shall thereafter be reallocated under the formula stated in subsection (d).

(B) If approved by the State recreational trail advisory board satisfying the requirements of subsection (c)(2)(A), may be exempted from the requirements of paragraph (4) and expended or committed to projects for purposes otherwise stated in this subsection for a period not to extend beyond 4 years after receipt, after which any remaining moneys not expended or dedicated shall be returned to the Fund and shall thereafter be reallocated under the formula stated in subsection (d).

(f) COORDINATION OF ACTIVITIES.—

(1) COOPERATION BY FEDERAL AGENCIES.—Each agency of the United States Government that manages land on which a State proposes to construct or maintain a recreation trail pursuant to this part is encouraged to cooperate with the State and the Secretary in planning and carrying out the activities described in subsection (e). Nothing in this part diminishes or in any way alters the land management responsibilities, plans and policies established by such agencies pursuant to other applicable laws.

(2) COOPERATION BY PRIVATE PERSONS.—

(A) WRITTEN ASSURANCES.—As a condition to making available moneys for work on recreational trails that would affect privately owned land, a State shall obtain written assurances that the owner of the property will cooperate with the State and participate as necessary in the activities to be conducted.

(B) PUBLIC ACCESS.—Any use of a State's allocated moneys on private lands must be accompanied by an easement or other legally binding agreement that ensures public access to the recreational trail improvements funded by those moneys.

(g) DEFINITIONS.—For the purposes of this section—

(1) ELIGIBLE STATE.—The term "eligible State" means a State that meets the requirements stated in subsection (c).

(2) FUND.—The term "Fund" means the National Recreational Trails Trust Fund established by section 9511 of the Internal Revenue Code of 1986.

(3) NONHIGHWAY RECREATIONAL FUEL.—The term "nonhighway recreational fuel" has the meaning stated in section 9503(c)(6) of the Internal Revenue Code of 1986.

(4) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

(5) RECREATIONAL TRAIL.—The term "recreational trail" means a thoroughfare or track across land or snow, used for recreational purposes such as bicycling, cross-country skiing, day hiking, equestrian activities, jogging or similar fitness activities, trail biking, overnight and long-distance backpacking, snowmobiling, aquatic or water activity and vehicular travel by motorcycle, four-wheel drive or all-terrain off-road vehicles, without regard to whether it is a "National Recreation Trail" designated under section 4 of the National Trails System Act (16 U.S.C. 1243).

(6) MOTORIZED RECREATION.—The term "motorized recreation" may not include motorized conveyances used by persons with disabilities, such as self-propelled wheelchairs, at the discretion of each State.

SEC. 1303. NATIONAL RECREATIONAL TRAILS ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—There is established the National Recreational Trails Advisory Committee.

(b) MEMBERS.—There shall be 11 members of the advisory committee, consisting of—

(1) 8 members appointed by the Secretary from nominations submitted by recreational trail user organizations, one each representing the following recreational trail uses:

(A) hiking,
(B) cross-country skiing,
(C) off-highway motorcycling,
(D) snowmobiling,
(E) horseback riding,
(F) all-terrain vehicle riding,
(G) bicycling, and
(H) four-wheel driving;

(2) an appropriate official of government with a background in science or natural resources management, including any official of State or local government, designated by the Secretary;

(3) 1 member appointed by the Secretary from nominations submitted by water trail user organizations; and

(4) 1 member appointed by the Secretary from nominations submitted by hunting and fishing enthusiast organizations.

(c) CHAIRMAN.—The Chair of the advisory committee shall be the government official referenced in subsection (b)(2), who shall serve as a non-voting member.

(d) SUPPORT FOR COMMITTEE ACTION.—Any action, recommendation, or policy of the advisory committee must be supported by at least five of the members appointed under subsection (b)(1).

(e) TERMS.—Members of the advisory committee appointed by the Secretary shall be appointed for terms of three years, except that the members filling five of the eleven positions shall be initially appointed for terms of two years, with subsequent appointments to those positions extending for terms of three years.

(f) DUTIES.—The advisory committee shall meet at least twice annually to—

(1) review utilization of allocated moneys by States;

(2) establish and review criteria for trail-side and trail-head facilities that qualify for funding under this part; and

(3) make recommendations to the Secretary for changes in Federal policy to advance the purposes of this part.

(g) Annual Report.—The advisory committee shall present to the Secretary an annual report on its activities.

(h) Reimbursement for Expenses.—Nongovernmental members of the advisory committee shall serve without pay, but, to the extent funds are available pursuant to section 1302(d)(1)(B), shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of their duties.

(i) Report To Congress.—Not later than 4 years after the date of the enactment of this Act, the Secretary shall prepare and submit to the Committee on Environment and Public Works of the Senate, and the Committee on Public Works and Transportation of the House of Representatives, a study which summarizes the annual reports of the National Recreational Trails Advisory Committee, describes the allocation and utilization of moneys under this part, and contains recommendations for changes in Federal policy to advance the purposes of this part.

TITLE II—HIGHWAY SAFETY

PART A—HIGHWAY SAFETY GRANT PROGRAMS

SEC. 2001. SHORT TITLE.

This part may be cited as the "Highway Safety Act of 1991".

SEC. 2002. HIGHWAY SAFETY PROGRAMS.

(a) Uniform Guidelines.—Section 402(a) of title 23, United States Code, is amended by inserting after the third sentence the following: "In addition, such uniform guidelines shall include programs (1) to reduce injuries and deaths resulting from motor vehicles being driven in excess of posted speed limits, (2) to encourage the proper use of occupant protection devices (including the use of safety belts and child restraint systems) by occupants of motor vehicles and to increase public awareness of the benefit of motor vehicles equipped with airbags, (3) to reduce deaths and injuries resulting from persons driving motor vehicles while impaired by alcohol or a controlled substance, (4) to reduce deaths and injuries resulting from accidents involving motor vehicles and motorcycles, (5) to reduce injuries and deaths resulting from accidents involving school buses, and (6) to improve law enforcement services in motor vehicle accident prevention, traffic supervision, and post-accident procedures. If the Secretary does not designate as priority programs those programs described in the preceding sentence, the Secretary shall submit to Congress a report describing the reasons for not prioritizing such programs. The Secretary shall establish a highway safety program for the collection and reporting of data on traffic-related deaths and injuries by the States. Under such program, the States shall collect and report such data as the Secretary may require. The purposes of the program are to ensure national uniform data on such deaths and injuries and to allow the Secretary to make determinations for use in developing programs to reduce such deaths and injuries and making recommendations to Congress concerning legislation necessary to implement such programs. The program shall include information obtained by the Secretary under section 4007 of the Intermodal Surface Transportation Efficiency Act of 1991 and provide for annual reports to the Secretary on the efforts being made by the States in reducing deaths and injuries occurring at highway construction sites and the effectiveness and results of such efforts. The Secretary shall establish minimum reporting criteria for the program. Such criteria shall include, but not be limited to, criteria on deaths and injuries resulting from police pursuits, school bus accidents, and speeding, on traffic-related deaths and injuries at highway construction sites and on the configuration of commercial motor vehicles involved in motor vehicle accidents.".

(b) Administrative Requirements and Use of Technology for Traffic Enforcement.—Section 402(b) of such title is amended by adding at the end the following new paragraphs:

"(3) Administrative Requirements.—The Secretary may not approve a State highway safety program under this section which does not—

"(A) provide that the Governor of the State shall be responsible for the administration of the program through a State highway safety agency which shall have adequate powers and be suitably equipped and organized to carry out, to the satisfaction of the Secretary, such program;

"(B) authorize political subdivisions of the State to carry out local highway safety programs within their jurisdictions as a part of the State highway safety program if such local highway safety programs are approved by the Governor and are in accordance with the minimum standards established by the Secretary under this section;

"(C) except as provided in paragraph (5), provide that at least 40 percent of all Federal funds apportioned under this section to the State for any fiscal year will be expended by the political subdivisions of the State, including Indian tribal governments, in carrying out local highway safety programs authorized in accordance with subparagraph (B); and

"(D) provide adequate and reasonable access for the safe and convenient movement of individuals with disabilities, including those in wheelchairs, across curbs constructed or replaced on or after July 1, 1976, at all pedestrian crosswalks throughout the State.

"(4) Waiver.—The Secretary may waive the requirement of paragraph (3)(C), in whole or in part, for a fiscal year for any State whenever the Secretary determines that there is an insufficient number of local highway safety programs to justify the expenditure in the State of such percentage of Federal funds during the fiscal year.

"(5) Use of Technology for Traffic Enforcement.—The Secretary may encourage States to use technologically advanced traffic enforcement devices (including the use of automatic speed detection devices such as photo-radar) by law enforcement officers.".

(c) Conforming Amendment.—Section 402(d) of such title is amended by striking "Federal-aid primary" and inserting "National Highway System".

SEC. 2003. HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.

(a) General Authority; Drugs, and Driver Behavior.—Section 403 of title 23, United States Code, is amended by striking subsections (a) and (b) and inserting the following new subsections:

"(a) Authority of the Secretary.—

"(1) In general.—The Secretary is authorized to use funds appropriated to carry out this section to engage in research on all phases of highway safety and traffic conditions.

"(2) Additional authority.—In addition, the Secretary may use the funds appropriated to carry out this section, either independently or in cooperation with other Federal departments or agencies, for—

"(A) training or education of highway safety personnel,

"(B) research fellowships in highway safety,

"(C) development of improved accident investigation procedures,

"(D) emergency service plans,

"(E) demonstration projects, and

"(F) related research and development activities which the Secretary deems will promote the purposes of this section.

"(3) Safety defined.—As used in this section, the term 'safety' includes highway safety and highway safety-related research and development, including research and development relating to highway and driver characteristics, crash investigations, communications, emergency medical care, and transportation of the injured.

"(b) Drugs and Driver Behavior.—In addition to the research authorized by subsection (a), the Secretary, in consultation with other Government and private agencies as may be necessary, is authorized to carry out safety research on the following:

"(1) The relationship between the consumption and use of drugs and their effect upon highway safety and drivers of motor vehicles.

"(2) Driver behavior research, including the characteristics of driver performance, the relationships of mental and physical abilities or disabilities to the driving task, and the relationship of frequency of driver crash involvement to highway safety.".

(b) Collaborative Research and Development.—Section 403 of such title is amended by striking subsection (f) and inserting the following new subsection:

"(f) Collaborative Research and Development.—

"(1) In general.—For the purpose of encouraging innovative solutions to highway safety problems, stimulating voluntary improvements in highway safety, and stimulating the marketing of new highway safety-related technology by private industry, the Secretary is authorized to undertake, on a cost-shared basis, collaborative research and development with non-Federal entities, including State and local governments, colleges, and universities and corporations, partnerships, sole proprietorships, and trade associations that are incorporated or established under the laws of any State or the United States. This collaborative research may include crash data collection and analysis; driver and pedestrian behavior; and demonstrations of technology.

"(2) Cooperative agreements.—In carrying out this subsection, the Secretary may enter into cooperative research and development agreements, as defined in section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a); except that in entering into such agreements, the Secretary may agree to provide not more than 50 percent of the cost of any research or development project selected by the Secretary under this subsection.

"(3) Project selection.—In selecting projects to be conducted under this subsection, the Secretary shall establish a procedure to consider the views of experts and the public concerning the project areas.

"(4) Applicability of Stevenson-Wydler Technology Innovation Act.—The research, development, or utilization of any technology pursuant to an agreement under the provisions of this subsection, including the terms under which technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980.".

(c) Conforming Amendment.—Section 403(c) of such title is amended by striking "subsection (b)" and inserting "subsections (a) and (b)".

SEC. 2004. ALCOHOL-IMPAIRED DRIVING COUNTERMEASURES.

(a) In General.—Section 410 of title 23, United States Code, is amended to read as follows:

"§410. Alcohol-impaired driving countermeasures

"(a) General Authority.—Subject to the provisions of this section, the Secretary shall make grants to those States which adopt and implement effective programs to reduce traffic safety problems resulting from persons driving while under the influence of alcohol or a controlled substance. Such grants may only be used by recipient States to implement and enforce such programs.

"(b) Maintenance of Effort.—No grant may be made to a State under this section in any fiscal year unless such State enters into such agreements with the Secretary as the Secretary may require to ensure that such State will maintain its aggregate expenditures from all other sources for alcohol traffic safety programs at or above the average level of such expenditures in its 2 fiscal years preceding the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991.

"(c) Basic Grant Eligibility.—A State is eligible for a basic grant under this section in a fiscal year only if such State provides for 4 or more of the following:

"(1) Establishes an expedited driver's license suspension or revocation system for persons who operate motor vehicles while under the influence of alcohol which requires that—

"(A) when a law enforcement officer has probable cause under State law to believe a person has committed an alcohol-related traffic offense and such person is determined, on the basis of a chemical test, to have been under the influence of alcohol while operating the motor vehicle or refuses to submit to such a test as proposed by the officer, the officer shall serve such person with a written notice of suspension or revocation of the driver's license of such person and take possession of such driver's license;

"(B) the notice of suspension or revocation referred to in subparagraph (A) shall provide information on the administrative procedures under which the State may suspend or revoke in accordance with the objectives of this section a driver's license of a person for operating a motor vehicle while under the influence of alcohol and shall specify any rights of the operator under such procedures;

"(C) the State shall provide, in the administrative procedures referred to in subparagraph (B), for due process of law, including the right to an administrative review of a driver's license suspension or revocation within the time period specified in subparagraph (F);

"(D) after serving notice and taking possession of a driver's license in accordance with subparagraph (A), the law enforcement officer immediately shall report to the State entity responsible for administering drivers' licenses all information relevant to the action taken in accordance with this clause;

"(E) in the case of a person who, in any 5-year period beginning after the date of enactment of this section, is determined on the basis of a chemical test to have been operating a motor vehicle under the influence of alcohol or is determined to have refused to submit to such a test as proposed by the law enforcement officer, the State entity responsible for administering drivers' licenses, upon receipt of the report of the law enforcement officer—

"(i) shall suspend the driver's license of such person for a period of not less than 90 days if such person is a first offender in such 5-year period; and

"(ii) shall suspend the driver's license of such person for a period of not less than 1 year, or revoke such license, if such person is a repeat offender in such 5-year period; and

"(F) the suspension and revocation referred to under subparagraph (D) shall take effect not later than 30 days after the day on which the person first received notice of the suspension or revocation in accordance with subparagraph (B).

"(2)(A) For each of the first three fiscal years in which a grant is received, any person with a blood alcohol concentration of 0.10 percent or greater when driving a motor vehicle shall be deemed to be driving while intoxicated; and

"(B) for each of the last two fiscal years in which a grant is received any person with a blood alcohol concentration of 0.08 percent or greater when driving a motor vehicle shall be deemed to be driving while intoxicated.

"(3) A statewide program for stopping motor vehicles on a nondiscriminatory, lawful basis for the purpose of determining whether or not the operators of such motor vehicles are driving while under the influence of alcohol.

"(4) A self-sustaining drunk driving prevention program under which a significant portion of the fines or surcharges collected from individuals apprehended and fined for operating a motor vehicle while under the influence of alcohol are returned, or an equivalent amount of non-Federal funds are provided, to those communities which have comprehensive programs for the prevention of such operations of motor vehicles.

"(5) An effective system for preventing operators of motor vehicles under age 21 from obtaining alcoholic beverages. Such system may include the issuance of drivers' licenses to individuals under age 21 that are easily distinguishable in appearance from drivers' licenses issued to individuals age 21 years of age or older.

"(d) Amount of Basic Grants.—The amount of a basic grant to be made in a fiscal year under this section to a State eligible to receive such grant shall be 65 percent of the amount of funds apportioned to such State in such fiscal year under this section.

"(e) Supplemental Grants.—

"(1) Blood alcohol concentration for persons under age 21.—A State shall be eligible to receive a supplemental grant in a fiscal year of 5 percent of the amount apportioned to the State in the fiscal year under this section if the State is eligible for a basic grant in the fiscal year and provides that any person under age 21 with a blood alcohol concentration of 0.02 percent or greater when driving a motor vehicle shall be deemed to be driving while intoxicated.

"(2) Open container laws.—A State shall be eligible to receive a supplemental grant in a fiscal year of 5 percent of the amount apportioned to the State in the fiscal year under this section if the State is eligible for a basic grant in the fiscal year and makes unlawful the possession of any open alcoholic beverage container, or the consumption of any alcoholic beverage, in the passenger area of any motor vehicle located on a public highway or the right-of-way of a public highway, except—

"(A) as allowed in the passenger area, by persons (other than the driver), of any motor vehicle designed to transport more than 10 passengers (including the driver) while being used to provide charter transportation of passengers; or

"(B) as otherwise specifically allowed by such State, with the approval of the Secretary, but in no event may the driver of such motor vehicle be allowed to possess or consume an alcoholic beverage in the passenger area.

"(3) Suspension of registration and return of license plates.—A State shall be eligible to receive a supplemental grant in a fiscal year of 5 percent of the amount apportioned to the State in the fiscal year under this section if the State is eligible for a basic grant in the fiscal year and provides for the suspension of the registration of, and the return to such State of the license plates for an individual who—

"(A) has been convicted on more than 1 occasion of an alcohol-related traffic offense within any 5-year period beginning after the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991; or

"(B) has been convicted of driving while his or her driver's license is suspended or revoked by reason of a conviction for such an offense.

A State may provide limited exceptions to such suspension of registration or return of license plates on an individual basis to avoid undue hardship to any individual (including any family member of the convicted individual and any co-owner of the motor vehicle) who is completely dependent on the motor vehicle for the necessities of life. Such exceptions may not result in unrestricted reinstatement of the registration of the motor vehicle, unrestricted return of the license plates of the motor vehicle, or unrestricted return of the motor vehicle.

"(4) Mandatory blood alcohol concentration testing programs.—A State shall be eligible to receive a supplemental grant in a fiscal year of 5 percent of the amount apportioned to the State in the fiscal year under this section if the State is eligible for a basic grant in the fiscal year and provides for mandatory blood alcohol concentration testing whenever a law enforcement officer has probable cause under State law to believe that a driver of a motor vehicle involved in an accident resulting in the loss of human life or, as determined by the Secretary, serious bodily injury, has committed an alcohol-related traffic offense.

"(5) Drugged driving prevention.—A State shall be eligible to receive a supplemental grant in a fiscal year of 5 percent of the amount apportioned to the State in the fiscal year under this section if the State is eligible for a basic grant in the fiscal year and—

"(A) provides for laws concerning drugged driving under which—

"(i) a person shall not drive or be in actual physical control of a motor vehicle while under the influence of alcohol, a controlled substance, a combination of controlled substances, or any combination of alcohol and controlled substances;

"(ii) any person who operates a motor vehicle upon the highways of the State shall be deemed to have given consent to a test or tests of his or her blood, breath, or urine for the purpose of determining the blood alcohol concentration or the presence of controlled substances in his or her body; and

"(iii) the driver's license of a person shall be suspended promptly, for a period of not less than 90 days in the case of a first offender and not less than 1 year in the case of any repeat offender, when a law enforcement officer has probable cause under State law to believe such person has committed a traffic offense relating to controlled substances use, and such person (I) is determined, on the basis of 1 or more chemical tests, to have been under the influence of controlled substances while operating a motor vehicle, or (II) refuses to submit to such a test as proposed by the officer;

"(B) has in effect a law which provides that—

"(i) any person convicted of a first violation of driving under the influence of controlled substances or alcohol, or both, shall receive—

"(I) a mandatory license suspension for a period of not less than 90 days; and

"(II) either an assignment of 100 hours of community service or a minimum sentence of imprisonment for 48 consecutive hours;

"(ii) any person convicted of a second violation of driving under the influence of controlled substances or alcohol, or both, within 5 years after a conviction for the same offense shall receive a mandatory minimum sentence of imprisonment for 10 days and license revocation for not less than 1 year;

"(iii) any person convicted of a third or subsequent violation of driving under the influence of controlled substances or alcohol, or both, within 5 years after a prior conviction for the same offense shall—

"(I) receive a mandatory minimum sentence of imprisonment for 120 days; and

"(II) have his or her license revoked for not less than 3 years; and

"(iv) any person convicted of driving with a suspended or revoked license or in violation of a restriction imposed as a result of a conviction for driving under the influence of controlled substances or alcohol, or both, shall receive a mandatory sentence of imprisonment for at least 30 days, and shall upon release from imprisonment receive an additional period of license suspension or revocation of not less than the period of suspension or revocation remaining in effect at the time of commission of the offense of driving with a suspended or revoked license;

"(C) provides for an effective system, as determined by the Secretary, for—

"(i) the detection of driving under the influence of controlled substances;

"(ii) the administration of a chemical test or tests to any driver who a law enforcement officer has probable cause under State law to believe has committed a traffic offense relating to controlled substances use; and

"(iii) in instances where such probable cause exists, the prosecution of (I) those persons who are determined, on the basis of 1 or more chemical tests, to have been operating a motor vehicle while under the influence of controlled substances and (II) those persons who refuse to submit to such a test as proposed by a law enforcement officer; and

"(D) has in effect 2 of the following programs:

"(i) An effective educational program, as determined by the Secretary, for the prevention of driving under the influence of controlled substances.

"(ii) An effective program, as determined by the Secretary, for training law enforcement officers to detect driving under the influence of controlled substances.

"(iii) An effective program, as determined by the Secretary, for the rehabilitation and treatment of those convicted of driving under the influence of controlled substances.

"(6) BLOOD ALCOHOL CONCENTRATION LEVEL PERCENTAGE.—A State shall be eligible to receive a supplemental grant in a fiscal of 5 percent of the amount apportioned to the State in the fiscal year under this section if the State is eligible for a basic grant in the fiscal year and requires that any person with a blood alcohol concentration of .08 percent or greater when driving a motor vehicle shall be deemed to be driving while intoxicated in each of the first three fiscal years in which a basic grant is received.

"(7) VIDEO EQUIPMENT FOR DETECTION OF DRUNK AND DRUGGED DRIVERS.—A State shall be eligible to receive a supplemental grant in a fiscal year of 5 percent of the amount apportioned to the State in the fiscal year under this section if the State is eligible for a basic grant in the fiscal year and provides a program to acquire video equipment to be used in detecting persons who operate motor vehicles while under the influence of alcohol or a controlled substance and in effectively prosecuting those persons, and to train personnel in the use of that equipment.

"(f) ADMINISTRATIVE EXPENSES.—Funds authorized to be appropriated to carry out this section shall be subject to a deduction not to exceed 5 percent for the necessary costs of administering the provisions of this section, and the remainder shall be apportioned among the several States.

"(g) APPORTIONMENT OF FUNDS.—

"(1) FORMULA.—After the deduction under subsection (f), the remainder of the funds authorized to be appropriated to carry out this section shall be apportioned 75 percent in the ratio which the population of each State bears to the total population of all the States, as shown by the latest available Federal census, and 25 percent in the ratio which the public road mileage in each State bears to the total public road mileage in all States.

"(2) DETERMINATION OF PUBLIC ROAD MILEAGE.—For the purposes of this subsection, the term 'public road' means any road under the jurisdiction of and maintained by a public authority and open to public travel. Public road mileage as used in this subsection shall be determined as of the end of the calendar year preceding the year in which the funds are apportioned and shall be certified to by the Governor of the State and subject to approval by the Secretary.

"(3) MINIMUM PERCENTAGE.—The annual apportionment under this paragraph to each State shall not be less than ½ of 1 percent of the total apportionment; except that the apportionments to the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands shall not be less than one-quarter of 1 percent of the total apportionment.

"(4) REAPPORTIONMENT OF NONELIGIBLE STATE FUNDS.—If a State is not eligible for a basic grant or for a supplemental grant under this section in a fiscal year, the amount of funds apportioned to the State in the fiscal year to make such grant shall be reapportioned to the other States eligible to receive such a grant in the fiscal year in accordance with the formula specified in this subsection. The reapportionment shall be made on the first day of the succeeding fiscal year.

"(h) APPLICABILITY OF CHAPTER 1.—

"(1) IN GENERAL.—Except as otherwise provided in this subsection, all provisions of chapter 1 of this title that are applicable to National Highway System funds, other than provisions relating to the apportionment formula and provisions limiting the expenditure of such funds to the Federal-aid systems, shall apply to the funds authorized to be appropriated to carry out this section.

"(2) INCONSISTENT PROVISIONS.—If the Secretary determines that a provision of chapter 1 of this title is inconsistent with this section, such provision shall not apply to funds authorized to be appropriated to carry out this section.

"(3) CREDIT FOR STATE AND LOCAL EXPENDITURES.—The aggregate of all expenditures made during any fiscal year by a State and its political subdivisions (exclusive of Federal funds) for carrying out the State highway safety program (other than planning and administration) shall be available for the purpose of crediting such State during such fiscal year for the non-Federal share of the cost of any project under this section (other than one for planning or administration) without regard to whether such expenditures were actually made in connection with such project.

"(4) INCREASED FEDERAL SHARE FOR CERTAIN INDIAN TRIBE PROGRAMS.—In the case of a local highway safety program carried out by an Indian tribe, if the Secretary is satisfied that an Indian tribe does not have sufficient funds available to meet the non-Federal share of the cost of such program, the Secretary may increase the Federal share of the cost thereof payable under this title to the extent necessary.

"(5) TREATMENT OF TERM 'STATE HIGHWAY DEPARTMENT'.—In applying provisions of chapter 1 in carrying out this section, the term 'State highway department' as used in such provisions shall mean the Governor of a State and, in the case of an Indian tribe program, the Secretary of the Interior.

"(i) DEFINITIONS.—For the purposes of this section, the following definitions apply:

"(1) ALCOHOLIC BEVERAGE.—The term 'alcoholic beverage' has the meaning such term has under section 158(c) of this title.

"(2) CONTROLLED SUBSTANCES.—The term 'controlled substances' has the meaning such term has under section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)).

"(3) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning such term has under section 154(b) of this title.

"(4) OPEN ALCOHOLIC BEVERAGE CONTAINER.—The term 'open alcoholic beverage container' means any bottle, can, or other receptacle—

"(A) which contains any amount of an alcoholic beverage; and

"(B)(i) which is open or has a broken seal, or

"(ii) the contents of which are partially removed.

"(j) FUNDING FOR FISCAL YEARS 1993–1997.—From sums made available to carry out section 402 of this title, the Secretary shall make available $25,000,000 for each of fiscal years 1993 through 1997 to carry out this section.".

(b) STATES ELIGIBLE FOR GRANTS UNDER SECTION 410 BEFORE DATE OF ENACTMENT.—A State which, before the date of the enactment of this Act, was eligible to receive a grant under section 410 of title 23, United States Code, as in effect on the day before such date of enactment, may elect to receive in a fiscal year grants under such section 410, as so in effect, in lieu of receiving in such fiscal year grants under such section 410, as amended by this Act.

(c) CONFORMING AMENDMENT.—The analysis for chapter 4 of such title is amended by striking the item relating to section 410 and inserting the following:

"410. Alcohol-impaired driving countermeasures.".

SEC. 2005. AUTHORIZATION OF APPROPRIATIONS.

For purposes of carrying out the provisions of title 23, United States Code, the following sums are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) NHTSA HIGHWAY SAFETY PROGRAMS.—For carrying out section 402 of title 23, United States Code, by the National Highway Traffic Safety Administration $126,000,000 for fiscal year 1992 and $171,000,000 for each of fiscal years 1993, 1994, 1995, 1996, and 1997.

(2) NHTSA HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.—For carrying out section 403 by the National Highway Traffic Safety Administration $44,000,000 for each of the fiscal years 1992 through 1997.

(3) ALCOHOL TRAFFIC SAFETY INCENTIVE GRANT PROGRAM.—For carrying out section 410 of such title $25,000,000 for fiscal year 1992.

SEC. 2006. DRUG RECOGNITION EXPERT TRAINING PROGRAM.

(a) ESTABLISHMENT.—The Secretary, acting through the National Highway Traffic Safety Administration, shall establish a regional program for implementation of drug recognition programs and for training law enforcement officers (including enforcement officials under the motor carrier safety assistance program) to recognize and identify individuals who are operating a motor vehicle while under the influence of alcohol or one or more controlled substances or other drugs.

(b) ADVISORY COMMITTEE.—The Secretary shall establish a citizens advisory committee that shall report to Congress annually on the progress of the implementation of subsection (a). Members of the committee shall include 1 member of each of the following: Mothers Against Drunk Driving; a narcotics control organization; American Medical Association; American Bar Association; and such other organizations as the Secretary deems appropriate. The committee shall be subject to the provisions of the Advisory Committee Act and shall terminate 2 years after the date of the enactment of this Act.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) to carry out this section $4,000,000 for each of fiscal years 1992 through 1997.

(d) DEFINITION.—For purposes of this section, the term "controlled substance" means any controlled substance, as defined under section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)), whose use the Secretary has determined poses a risk to transportation safety.

SEC. 2007. NATIONAL DRIVER REGISTER ACT AUTHORIZATIONS.

Section 211(b) of the National Driver Register Act of 1982 (23 U.S.C. 401 note) is amended—

(1) by striking "and" the second place it appears; and

(2) by inserting before the period at the end the following: ", and not to exceed $4,000,000 for fiscal year 1992. From sums made available to carry out section 402 of title 23, United States Code, the Secretary shall make available $4,000,000 for each of fiscal years 1993 and 1994 to carry out this section.".

SEC. 2008. EFFECTIVE DATE; APPLICABILITY.

Except as otherwise provided, this title, including the amendments made by this title, shall take effect on the date of the enactment of this Act, shall apply to funds authorized to be appropriated or made available after September 30, 1991, and shall not apply to funds appropriated or made available on or before such date of enactment.

SEC. 2009. OBLIGATION CEILINGS.

(a) IN GENERAL.—Sums authorized for fiscal year 1992 by sections 2005(1), 2005(3), and 2006(c) of this Act and section 211(b) of the National Driver Register Act of 1982 shall be subject to the obligation limitation established by section 102 of this Act for fiscal year 1992.

(b) OBLIGATION LIMITATION.—If an obligation limitation is placed on sums authorized to be appropriated to carry out section 402 of title 23, United States Code, for fiscal year 1993 or subsequent fiscal years, any amounts made available out of such funds to carry out sections 2004 and 2006 of this Act and section 211(b) of the National Driver Register Act of 1982 shall be reduced proportionally.

PART B—NHTSA AUTHORIZATIONS AND GENERAL PROVISIONS

SEC. 2500. SHORT TITLE.

This part may be cited as the "National Highway Traffic Safety Administration Authorization Act of 1991".

SEC. 2501. AUTHORIZATION OF APPROPRIATIONS.

(a) TRAFFIC AND MOTOR VEHICLE SAFETY PROGRAM.—For the National Highway Traffic Safety Administration to carry out the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq.), there are authorized to be appropriated $68,722,000 for fiscal year 1992, $71,333,436 for fiscal year 1993, $74,044,106 for fiscal year 1994, and $76,857,782 for fiscal year 1995.

(b) MOTOR VEHICLE INFORMATION AND COST SAVINGS PROGRAMS.—For the National Highway Traffic Safety Administration to carry out the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.), there are authorized to be appropriated $6,485,000 for fiscal year 1992, $6,731,430 for fiscal year 1993, $6,987,224 for fiscal year 1994, and $7,252,739 for fiscal year 1995.

SEC. 2502. GENERAL PROVISIONS.

(a) DEFINITIONS.—As used in this part—

(1) the term "bus" means a motor vehicle with motive power, except a trailer, designed for carrying more than 10 persons;

(2) the term "multipurpose passenger vehicle" means a motor vehicle with motive power (except a trailer), designed to carry 10 persons or fewer, which is constructed either on a truck chassis or with special features for occasional off-road operation;

(3) the term "passenger car" means a motor vehicle with motive power (except a multipurpose passenger vehicle, motorcycle, or trailer), designed for carrying 10 persons or fewer;

(4) the term "truck" means a motor vehicle with motive power, except a trailer, designed primarily for the transportation of property or special purpose equipment; and

(5) the term "Secretary" means the Secretary of Transportation.

(b) PROCEDURE.—

(1) IN GENERAL.—Except as provided in paragraph (2), any action taken under section 2503 shall be taken in accordance with the applicable provisions of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq.).

(2) SPECIFIC PROCEDURE.—

(A) INITIATION.—To initiate an action under section 2503, the Secretary shall, not later than May 31, 1992, publish in the Federal Register an advance notice of proposed rulemaking or a notice of proposed rulemaking, except that if the Secretary is unable to publish such a notice by such date, the Secretary shall by such date publish in the Federal Register a notice that the Secretary will begin such action by a certain date which may not be later than January 31, 1993 and include in such notice the reasons for the delay. A notice of delayed action shall not be considered agency action subject to judicial review. If the Secretary publishes an advance notice of proposed rulemaking, the Secretary is not required to follow such notice with a notice of proposed rulemaking if the Secretary determines on the basis of such advanced notice and the comments received thereon that the contemplated action should not be taken under the provisions of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq.), including the provisions of section 103 of such Act (15 U.S.C. 1392), and if the Secretary publishes the reasons for such determination consistent with chapter 5 of title 5, United States Code.

(B) COMPLETION.—

(i) PERIOD.—Action under paragraphs (1) through (4) of section 2503 which was begun under subparagraph (A) shall be completed within 26 months of the date of publication of an advance notice of proposed rulemaking or 18 months of the date of publication of a notice of proposed rulemaking. The Secretary may extend for any reason the period for completion of a rulemaking initiated by the issuance of a notice of proposed rulemaking for not more than 6 months if the Secretary publishes the reasons for such extension. The extension of such period shall not be considered agency action subject to judicial review.

(ii) ACTION.—A rulemaking under paragraphs (1) through (4) of section 2503 shall be considered completed when the Secretary promulgates a final rule or when the Secretary decides not to promulgate a rule (which decision may include deferral of the action or reinitiation of the action). The Secretary may not decide against promulgation of a final rule because of lack of time to complete rulemaking. Any such rulemaking actions shall be published in the Federal Register, together with the reasons for such decisions, consistent with chapter 5 of title 5, United States Code, and the National Traffic and Motor Vehicle Safety Act of 1996.

(iii) SPECIAL RULE.—

(I) PERIOD.—Action under paragraph (5) of section 2503 which was begun under subparagraph (A) shall be completed within 24 months of the date of publication of an advance notice of proposed rulemaking or a notice of proposed rulemaking. If the Secretary determines that there is a need for delay and if the public comment period is closed, the Secretary may extend the date for completion for not more than 6 months and shall publish in the Federal Register a notice stating the reasons for the extension and setting a date certain for completion of the action. The extension of the completion date shall not be considered agency action subject to judicial review.

(II) ACTION.—A rulemaking under paragraph (5) of section 2503 shall be considered completed when the Secretary promulgates a final rule with standards on improved head injury protection.

(C) STANDARD.—The Secretary may, as part of any action taken under section 2503, amend any motor vehicle safety standard or establish a new standard under the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq.).

SEC. 2503. MATTERS BEFORE THE SECRETARY.

The Secretary shall address the following matters in accordance with section 2502:

(1) Protection against unreasonable risk of rollovers of passenger cars, multipurpose passenger vehicles, and trucks with a gross vehicle weight rating of 8,500 pounds or less and an unloaded vehicle weight of 5,500 pounds or less.

(2) Extension of passenger car side impact protection to multipurpose passenger vehicles and trucks with a gross vehicle weight rating of 8,500 pounds or less and an unloaded vehicle weight of 5,500 pounds or less.

(3) Safety of child booster seats used in passenger cars and other appropriate motor vehicles.

(4) Improved design for safety belts.

(5) Improved head impact protection from interior components of passenger cars (i.e. roof rails, pillars, and front headers).

SEC. 2504. RECALL OF CERTAIN MOTOR VEHICLES.

(a) NOTIFICATION OF DEFECT OR FAILURE TO COMPLY.—Section 153 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1413) is amended by adding at the end the following new subsections:

"(d) If the Secretary determines that a notification sent by a manufacturer pursuant to subsection (c) of this section has not resulted in an adequate number of vehicles or items of equipment being returned for remedy, the Secretary may direct the manufacturer to send a second notification in such manner as the Secretary may by regulation prescribe.

"(e)(1) Any lessor who receives a notification required by section 151 or 152 pertaining to any leased motor vehicle shall send a copy of such notice to the lessee in such manner as the Secretary may by regulation prescribe.

"(2) For purposes of this subsection, the term 'leased motor vehicle' means any motor vehicle which is leased to a person for a term of at least four months by a lessor who has leased five or more vehicles in the twelve months preceding the date of the notification.".

(b) LIMITATION ON SALE OR LEASE OF CERTAIN VEHICLES.—Section 154 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1414) is amended by adding at the end the following:

"(d) If notification is required under section 151 or by an order under section 152(b) and has been furnished by the manufacturer to a dealer of motor vehicles with respect to any new motor vehicle or new item of replacement equipment in the dealer's possession at the time of notification which fails to comply with an applicable Federal motor vehicle safety standard or contains a defect which relates to motor vehicle safety, such dealer may sell or lease such motor vehicle or item of replacement equipment only if—

"(1) the defect or failure to comply has been remedied in accordance with this section before delivery under such sale or lease; or

"(2) in the case of notification required by an order under section 152(b), enforcement of the order has been restrained in an action to which section 155(a) applies or such order has been set aside in such an action.

Nothing in this subsection shall be construed to prohibit any dealer from offering for sale or lease such vehicle or item of equipment.".

SEC. 2505. STANDARDS OF COMPLIANCE TEST PROGRAM.

Section 103 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392) is amended by adding at the end the following:

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

"(j) The Secretary shall establish and periodically review and update on a continuing basis a 5-year plan for testing Federal Motor Vehicle Safety Standards that are capable, in the Secretary's judgment, of being tested. In developing the plan and establishing testing priorities, the Secretary shall take into consideration such factors as the Secretary deems appropriate, consistent with the purposes of this Act and the Secretary's other responsibilities under this Act. The Secretary may at any time adjust such priorities to address matters the Secretary deems of greater priority. The initial plan may be the 5-year plan for compliance testing in effect on the date of enactment of this subsection.".

SEC. 2506. REAR SEATBELTS.

The Secretary shall expend such portion of the funds authorized to be appropriated under the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.), for fiscal year 1993, as the Secretary deems necessary for the purpose of disseminating information to consumers regarding the manner in which passenger cars may be retrofitted with lap and shoulder rear seatbelts.

SEC. 2507. BRAKE PERFORMANCE STANDARDS FOR PASSENGER CARS.

Not later than December 31, 1993, the Secretary, in accordance with the National Traffic and Motor Vehicle Safety Act of 1966, shall publish an advance notice of proposed rulemaking to consider the need for any additional brake performance standards for passenger cars, including antilock brake standards. The Secretary shall complete such rulemaking (in accordance with section 2502(b)(2)(B)(ii)) not later than 36 months from the date of initiation of such advance notice of proposed rulemaking. In order to facilitate and encourage innovation and early application of economical and effective antilock brake systems for all such vehicles, the Secretary shall, as part of the rulemaking, consider any such brake system adopted by a manufacturer.

SEC. 2508. AUTOMATIC CRASH PROTECTION AND SAFETY BELT USE.

(a) AMENDMENT OF STANDARD.—

(1) SPECIFICATIONS.—Notwithstanding any other provision of law or rule, the Secretary shall by September 1, 1993, promulgate, in accordance with the National Traffic and Motor Vehicle Safety Act of 1966 (to the extent such Act is not in conflict with the provisions of this section), an amendment to Federal Motor Vehicle Safety Standard 208 issued under such Act to provide that the automatic occupant crash protection system for the front outboard designated seating positions of each—

(A) new truck, bus, and multipurpose passenger vehicle (other than walk-in van-type trucks and vehicles designed to be exclusively sold to the United States Postal Service) with a gross vehicle weight rating of 8,500 pounds or less and an unloaded vehicle weight of 5,500 pounds or less, and

(B) new passenger car,

manufactured on or after the dates specified in the applicable schedule established by subsection (b), shall be an inflatable restraint complying with the occupant protection requirements under section 4.1.2.1 of such Standard. This section supplements and revises, but does not replace, Federal Motor Vehicle Safety Standard 208, including the amendment to such Standard 208 of March 26, 1991 (56 F.R. 12472), extending the requirements for automatic crash protection, together with incentives for more innovative automatic crash protection, to trucks, buses, and multipurpose passenger vehicles.

(2) REQUIREMENT.—The amendment to such Standard 208 shall also require, to be effective as soon as possible after the promulgation of such amendment, that the owner manuals for passenger cars and trucks, buses, and multipurpose passenger vehicles equipped with an inflatable restraint include a statement in an easily understandable format—

(A) that the vehicle is equipped with an inflatable restraint referred to as an "airbag" and a lap and shoulder belt in either or both the front outboard seating positions;

(B) that the airbag is a supplemental restraint;

(C) that it does not substitute for lap and shoulder belts which must also be correctly used by an occupant in such seating position to provide restraint or protection not only from frontal crashes but from other types of crashes or accidents; and

(D) that all occupants, including the driver, should always wear their lap and shoulder belts, where available, or other safety belts, whether or not there is an inflatable restraint.

(3) FINDING.—The Congress finds that it is in the public interest for all States to adopt and enforce mandatory seat belt use laws and for the Federal Government to adopt and enforce mandatory seat belt use rules.

(b) SCHEDULE.—The amendment promulgated under subsection (a) shall establish the following schedule:

(1) NEW PASSENGER CARS.—The amendment shall take effect for 95 percent of each manufacturer's annual production of passenger cars manufactured on and after September 1, 1996, and before September 1, 1997, and for 100 percent of each manufacturer's production of passenger cars manufactured on and after September 1, 1997. Subject to the provisions of subsection (c), the percentage prescribed for passenger cars manufactured on and after September 1, 1997, shall be met entirely by inflatable restraints (accompanied by lap and shoulder belts) for both front outboard seating positions.

(2) NEW TRUCKS, BUSES, AND MULTIPURPOSE PASSENGER VEHICLES.—The amendment shall take effect for 80 percent of each manufacturer's annual production of trucks, buses, and multipurpose passenger vehicles described in subsection (a)(1)(A) and manufactured on and after September 1, 1997, and before September 1, 1998, and for 100 percent of each manufacturer's production of such trucks, buses, and multipurpose passenger vehicles manufactured on and after September 1, 1998. Subject to the provisions of subsection (c), the percentage prescribed for such trucks, buses, and multipurpose passenger vehicles manufactured on and after September 1, 1998, shall be met entirely by inflatable restraints (accompanied by lap and shoulder belts) for both front outboard seating positions. The incentives or credits available under Standard 208 (as amended by this section) prior to September 1, 1998, shall not be available to the manufacturers to comply with the 100 percent requirement of this paragraph on and after such date.

(c) TEMPORARY EXEMPTION FROM REQUIREMENTS.—Upon application by a manufacturer, in such manner and containing such information as the Secretary shall prescribe in the amendment under this section to such Standard 208, the Secretary may at any time, under such terms and conditions and to such extent as the Secretary deems appropriate, temporarily exempt or renew the exemption of a motor vehicle from the requirements of subsection (a) or (b), or both, if the Secretary finds that there has been a disruption in the supply of any inflatable restraint component, or a disruption in the use and installation by the manufacturer of such component due to unavoidable events not under the control of the manufacturer, that will prevent a manufacturer from meeting its anticipated production volume of vehicles with such restraints. Each application for such exemption must be filed by the manufacturer affected, and must specify the models, lines, and types of vehicles actually affected, although the Secretary may consolidate applications of a similar nature of 1 or more manufacturers. Any exemption or renewal shall be conditioned upon the manufacturer's commitment to recall the exempted vehicles for installation of omitted inflatable restraints within a reasonable time proposed by the manufacturer and approved by the Secretary after such components become available in sufficient quantities to satisfy both anticipated production and recall volume requirements. Notice of each application shall be published in the Federal Register and notice of each decision to grant or deny a temporary exemption, and the reasons for granting or denying it, shall be published in the Federal Register. The Secretary shall require labeling for each exempted motor vehicle which can only be removed after recall and installation of the required inflatable restraint. If a vehicle is delivered without an inflatable restraint, the Secretary shall require that written notification of the exemption be delivered to the dealer and first purchasers for purposes other than resale of such exempted motor vehicle in such a manner, and containing such information, as the Secretary deems appropriate.

(d) CONSTRUCTION.—Nothing in this section shall be construed by the Secretary or any other person, including any court, as altering or affecting any other provision of law administered by the Secretary and applicable to such passenger cars or trucks, buses, or multipurpose passenger vehicles or as establishing any precedent regarding the development and promulgation of any Federal Motor Vehicle Safety Standard. Nothing in this section or in the amendments made under this section to Federal Motor Vehicle Safety Standard 208 shall be construed by any person or court as indicating an intention by Congress to affect, change, or modify in any way the liability, if any, of a motor vehicle manufacturer under applicable law relative to vehicles with or without inflatable restraints.

(e) REPORT.—The Secretary shall biannually report, beginning October 1, 1992 and continuing to October 1, 2000, on the actual effectiveness of an occupant restraint system defined as the percentage reduction in fatalities or injuries of restrained occupants as compared to unrestrained occupants for the combination of inflated restraints and lap and shoulder belts, for inflated restraints alone, and for lap and shoulder belts alone. The Secretary, in consultation with the Secretary of Labor and the Secretary of Defense, shall also provide data and analysis on lap and shoulder belt use, nationally and in each State, by Federal, State, and local law enforcement officers, by military personnel, by Federal and State employees other than law enforcement officers, and by the public.

(f) AIRBAGS FOR CARS ACQUIRED FOR FEDERAL USE.—The Secretary, in cooperation with the Administrator of General Services and the heads of other appropriate Federal agencies and consistent with applicable provisions of Federal procurement law and available appropriations, shall establish a program requiring that all passenger cars acquired after September 30, 1994, for use by the Federal Government be equipped, to the maximum extent practicable, with driver-side inflatable restraints and that all passenger cars acquired after September 30, 1996, for use by the Federal Government be equipped, to the maximum extent practicable, with inflatable restraints for both the driver and front seat outboard seating positions.

SEC. 2509. HEAD INJURY IMPACT STUDY.

The Secretary, in the case of any head injury protection matters not subject to section 2503(5) for which the Secretary is on the date of enactment of this Act examining the need for rulemaking and is conducting research, shall provide a report to Congress by the end of fiscal year 1993 identifying those matters and their

status. The report shall include a statement of any actions planned toward initiating such rulemaking no later than fiscal year 1994 or 1995 through use of either an advance notice of proposed rulemaking or a notice of proposed rulemaking and completing such rulemaking as soon as possible thereafter.

TITLE III—FEDERAL TRANSIT ACT AMENDMENTS OF 1991

SEC. 3001. SHORT TITLE.

This title may be cited as the "Federal Transit Act Amendments of 1991".

SEC. 3002. AMENDMENTS TO URBAN MASS TRANSPORTATION ACT OF 1964.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Urban Mass Transportation Act of 1964 (49 U.S.C. App. 1601–1621).

SEC. 3003. AMENDMENT TO SHORT TITLE OF URBAN MASS TRANSPORTATION ACT OF 1964.

(a) IN GENERAL.—The Act is amended by striking "That this Act may be cited as the 'Urban Mass Transportation Act of 1964'." and inserting the following:

"SECTION 1. SHORT TITLE.

"This Act may be cited as the 'Federal Transit Act'.".

(b) OTHER REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the Urban Mass Transportation Act of 1964 shall be deemed to be a reference to the "Federal Transit Act".

SEC. 3004. FEDERAL TRANSIT ADMINISTRATION.

(a) REDESIGNATION OF UMTA.—The Urban Mass Transportation Administration of the Department of Transportation shall be known and designated as the "Federal Transit Administration".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the Urban Mass Transportation Administration shall be deemed to be a reference to the "Federal Transit Administration".

(c) AMENDMENTS TO TITLE 49.—

(1) AMENDMENT TO TEXT.—Section 107(a) of title 49, United States Code, is amended by striking "Urban Mass Transportation Administration" and inserting "Federal Transit Administration".

(2) AMENDMENT TO SECTION HEADING.—The heading for section 107 of such title is amended to read as follows:

"§107. Federal Transit Administration".

(3) AMENDMENT TO CHAPTER ANALYSIS.—The analysis for chapter 1 of such title is amended by striking the item relating to section 107 and inserting the following:

"107. Federal Transit Administration.".

(d) AMENDMENTS TO TITLE 5.—Title 5, United States Code, is amended—

(1) in section 5314 by striking "Urban Mass Transportation Administrator" and inserting "Federal Transit Administrator"; and

(2) in section 5316 by striking "Deputy Administrator, Urban Mass Transportation Administration" and inserting "Deputy Administrator, Federal Transit Administration".

SEC. 3005. FINDINGS AND PURPOSES.

(a) FINDINGS.—Section 2(a) is amended—

(1) in paragraph (2) by striking "; and" and inserting a semicolon;

(2) in paragraph (3) by striking the period and inserting "; and"; and

(3) by adding at the end the following new paragraph:

"(4) that significant transit improvements are necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly persons, persons with disabilities, and economically disadvantaged persons in urban and rural areas of the country.".

(b) PURPOSES.—Section 2(b) is amended—

(1) in paragraph (2) by striking "; and" and inserting a semicolon;

(2) in paragraph (3) by striking the period and inserting "; and"; and

(3) by adding at the end the following new paragraph:

"(4) to provide financial assistance to State and local governments and their instrumentalities to help implement national goals relating to mobility for elderly persons, persons with disabilities, and economically disadvantaged persons.".

SEC. 3006. MAJOR CAPITAL INVESTMENT PROGRAM.

(a) ELDERLY PERSONS AND PERSONS WITH DISABILITIES.—Section 3(a)(1) is amended by striking subparagraph (E) and inserting the following new subparagraph:

"(E) transit projects which are planned, designed, and carried out to meet the special needs of elderly persons and persons with disabilities; and".

(b) CORRIDOR DEVELOPMENT.—Section 3(a)(1) is further amended by adding at the end the following new subparagraph:

"(F) the development of corridors to support fixed guideway systems, including protection of rights-of-way through acquisition, construction of dedicated bus and high occupancy vehicle lanes, construction of park and ride lots, and any other nonvehicular capital improvements that the Secretary may determine would result in increased transit usage in the corridor.".

(c) GRANDFATHERED LETTERS OF INTENT.—This Act shall not be construed to affect the validity of any existing letter of intent, full funding grant agreement, or letter of commitment issued under section 3(a)(4) of the Federal Transit Act before the date of the enactment of the Federal Transit Act Amendments of 1991.

(d) ALLOCATIONS.—Section 3(k) is amended—

(1) by striking paragraph (1) and inserting the following:

"(1) IN GENERAL.—Subject to paragraph (3), of the amounts available for grants and loans under this section for fiscal years 1992, 1993, 1994, 1995, 1996, and 1997—

"(A) 40 percent shall be available for fixed guideway modernization;

"(B) 40 percent shall be available for construction of new fixed guideway systems and extensions to fixed guideway systems; and

"(C) 20 percent shall be available for the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities."; and

(2) by adding at the end the following new paragraph:

"(3) AREAS OTHER THAN URBANIZED AREAS.—At least 5.5 percent of the amounts available for grants and loans under subsection (k)(1)(C) for fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 shall be available for areas other than urbanized areas.".

(e) BOND INTEREST ON ADVANCE CONSTRUCTION.—Section 3(l)(2)(B) is amended by striking "the excess of—" and all that follows through the period and inserting "the most favorable interest terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a form satisfactory to the Secretary, that the applicant has shown due diligence in seeking the most favorable financial terms.".

(f) FEDERAL SHARE.—Section 4(a) is amended—

(1) by striking "75 per centum" and inserting "80 percent"; and

(2) by inserting before the period at the end of the second sentence the following: ", unless the recipient of the grant requests a lower Federal grant percentage".

(g) LOCAL SHARE FOR CERTAIN PLANNED EXTENSIONS OF FIXED GUIDEWAY SYSTEMS.—Section 4(a) is amended by adding at the end the following new sentence: "The remainder of the net project cost of a planned extension to a fixed guideway system may include the cost of rolling stock previously purchased if the applicant demonstrates to the satisfaction of the Secretary that—

"(1) such purchase was made solely with non-Federal funds; and

"(2) such purchase was made for use on the extension.".

(h) FISCAL CAPACITY CONSIDERATIONS.—Section 4 is amended—

(1) by striking subsections (b), (c), (d), (e), (f), and (g) and redesignating subsections (h) and (i) as subsections (b) and (c), respectively; and

(2) by adding at the end the following new subsection:

"(d) FISCAL CAPACITY CONSIDERATIONS.—If the Secretary gives priority consideration to the funding of projects which include more than the non-Federal share required by subsection (a), the Secretary shall give equal consideration to differences in the fiscal capacity of State and local governments.".

SEC. 3007. CAPITAL GRANTS; TECHNICAL AMENDMENT TO PROVIDE FOR EARLY SYSTEMS WORK CONTRACTS AND FULL FUNDING GRANT AGREEMENTS.

Section 3(a)(4) is amended—

(1) by inserting "(A)" after "(4)";

(2) in the fifth sentence by inserting "not less than" after "complete";

(3) by adding after the sixth sentence the following:

"(B) The Secretary is authorized to enter into a full funding grant agreement with an applicant, which agreement shall—

"(i) establish the terms and conditions of Federal financial participation in a project under this section;

"(ii) establish the maximum amounts of Federal financial assistance for such project;

"(iii) cover the period of time to completion of the project, including any period that may extend beyond the period of any authorization; and

"(iv) facilitate timely and efficient management of such project in accordance with Federal law.

"(C) An agreement under subparagraph (B) shall obligate an amount of available budget authority specified in law and may include a commitment, contingent upon the future availability of budget authority, to obligate an additional amount or additional amounts from future available budget authority specified in law. The agreement shall specify that the contingent commitment does not constitute an obligation of the United States. The future availability of budget authority referred to in the first sentence of this subparagraph shall be amounts to be specified in law in advance for commitments entered into under subparagraph (B). Any interest and other financing costs of efficiently carrying out the project or a portion thereof within a reasonable period of time shall be considered as a cost of carrying out the project under a full funding grant agreement; except that eligible costs shall not be greater than the costs of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a form satisfactory to the Secretary, that the applicant has shown due diligence in seeking the most favorable financing terms. The total of amounts stipulated in a full funding grant agreement for a fixed guideway project shall be sufficient to complete not less than an operable segment.

"(D) The Secretary is authorized to enter into an early systems work agreement with an applicant if a record of decision pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) has been issued on the project and the Secretary determines that there is reason to believe—

"(i) a full funding grant agreement will be entered into for the project; and

"(ii) the terms of the early systems work agreement will promote ultimate completion of the project more rapidly and at less cost.

The early systems work agreement shall obligate an amount of available budget authority specified in law and shall provide for reimbursement of preliminary costs of project implementation, including land acquisition, timely procurement of system elements for which specifications are determined, and other activities that the Secretary determines to be appropriate to facilitate efficient, long-term project management. An early systems work agreement shall cover such period of time as the Secretary deems appropriate, which period may extend beyond the period of current authorization. The interest and other financing costs of carrying out the early systems work agreement efficiently and within a reasonable period of time shall be considered as a cost of carrying out the agreement; except that eligible costs shall not be greater than the costs of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a form satisfactory to the Secretary, that the applicant has shown due diligence in seeking the most favorable financing terms. If an applicant fails to implement the project for reasons within the applicant's control, the applicant shall repay all Federal payments made under the early systems work agreement plus such reasonable interest and penalty charges as the Secretary may establish in the agreement.";

(4) by inserting "(E)" before "The total estimated" and aligning subparagraph (E) with subparagraph (D);

(5) in the sentence that begins "The total estimated"—

(A) by inserting ", and contingent commitments to incur obligations," after "Federal obligations";

(B) by inserting ", early systems work agreements, and full funding grant agreements," after "all outstanding letters of intent,"; and

(C) by inserting "or 50 percent of the uncommitted cash balance remaining in the Mass Transit Account of the Highway Trust Fund, including amounts received from taxes and interest earned in excess of amounts that have been previously obligated, whichever is greater" after "section 3 of this Act"; and

(6) in the sentence that begins "The total amount covered", by inserting "and contingent commitments included in early systems work agreements and full funding grant agreements" after "by new letters issued,".

SEC. 3008. FIXED GUIDEWAY MODERNIZATION.

Section 3 is amended by striking subsection (h) and inserting the following new subsection:

"(h) FIXED GUIDEWAY MODERNIZATION APPORTIONMENTS.—The Secretary shall apportion the sums made available for fixed guideway modernization under this section for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 as follows:

"(1) The first $455,000,000 made available shall be apportioned for expenditure in the following urbanized areas according to the following percentages:

"(A) Baltimore, 1.84 percent.

"(B) Boston, 8.56 percent.

"(C) Chicago/Northwestern Indiana, 17.18 percent.

"(D) Cleveland, 2.09 percent.

"(E) New York, 35.57 percent.

"(F) Northeastern New Jersey, 9.04 percent.

"(G) Philadelphia/Southern New Jersey, 12.41 percent.

"(H) San Francisco, 7.21 percent.

"(I) Southwestern Connecticut, 6.10 percent.

"(2) The next $42,700,000 made available shall be apportioned for expenditure in the following urbanized areas according to the following percentages:

"(A) New York, 33.2341 percent.

"(B) Northeastern New Jersey, 22.1842 percent.

"(C) Philadelphia and Southern New Jersey, 5.7594 percent.

"(D) San Francisco, 2.7730 percent.

"(E) Pittsburgh, 31.9964 percent.

"(F) New Orleans, 4.0529 percent.

"(3) The next $70,000,000 made available shall be apportioned for expenditure—

"(A) 50 percent in the urbanized areas listed in paragraphs (1) and (2) according to the apportionment formula contained in section 9(b)(2); and

"(B) 50 percent in other urbanized areas eligible for assistance under section 9(b)(2) of this Act which contain a fixed guideway system placed in revenue service not less than 7 years prior to the fiscal year in which funds are made available and in other urbanized areas which before the first day of the fiscal year demonstrate to the satisfaction of the Secretary that the urbanized area has modernization needs which cannot be adequately met with amounts received under section 9(b)(2) according to the apportionment formula contained in such section.

"(4) Any remaining amounts made available in a fiscal year shall be apportioned for expenditure in each urbanized area eligible for assistance under paragraphs (1), (2), and (3) in accordance with the apportionment formula contained in section 9(b)(2).

"(5) In any fiscal year in which the full amounts authorized under paragraphs (1) and (2) are not made available, the Secretary shall reduce on a pro rata basis the apportionments of all urbanized areas eligible under either paragraph to adjust for the shortfall.

"(6) Notwithstanding any other provision of law, rail modernization funds allocated to the New Jersey Transit Corporation under this paragraph may be spent in any urbanized area in which the New Jersey Transit Corporation operates rail service regardless of the urbanized area which generates the funding.".

SEC. 3009. BUS TESTING.

Section 3 is amended by adding at the end the following new subsection:

"(m) BUS TESTING.—Of the amounts made available for replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus related facilities by subsection (k)(1)(C), the Secretary shall make available $1,500,000 in fiscal year 1992, $2,000,000 in fiscal year 1993, the lesser of $2,000,000 or an amount the Secretary determines to be necessary per fiscal year in each of fiscal years 1994, 1995, and 1996, and the lesser of $3,000,000 or an amount the Secretary determines to be necessary in fiscal year 1997. Such amounts shall be available to the Secretary to pay 80 percent of the cost of testing a vehicle at the facility established under section 317 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (49 U.S.C. App. 1608). The Secretary shall make such payments by contract with the operator of the facility. The remaining 20 percent of the cost of testing a vehicle shall be paid to the operator of the facility by the entity having the vehicle tested.".

SEC. 3010. CRITERIA FOR NEW STARTS.

Section 3(i) is amended to read as follows:

"(i) NEW START CRITERIA.—

"(1) DETERMINATIONS.—A grant or loan for construction of a new fixed guideway system or extension of any fixed guideway system may not be made under this section unless the Secretary determines that the proposed project—

"(A) is based on the results of an alternatives analysis and preliminary engineering;

"(B) is justified based on a comprehensive review of its mobility improvements, environmental benefits, cost effectiveness, and operating efficiencies; and

"(C) is supported by an acceptable degree of local financial commitment, including evidence of stable and dependable funding sources to construct, maintain, and operate the system or extension.

"(2) CONSIDERATIONS.—In making determinations under this subsection, the Secretary—

"(A) shall consider the direct and indirect costs of relevant alternatives;

"(B) shall account for costs related to such factors as congestion relief, improved mobility, air pollution, noise pollution, congestion, energy consumption, and all associated ancillary and mitigation costs necessary to implement each alternative analyzed; and

"(C) shall identify and consider transit supportive existing land use policies and future patterns, and consider other factors including the degree to which the project increases the mobility of the transit dependent population or promotes economic development, and other factors that the Secretary deems appropriate to carry out the purposes of this Act.

"(3) GUIDELINES.—

"(A) IN GENERAL.—The Secretary shall issue guidelines that set forth the means by which the Secretary shall evaluate results of alternatives analysis, project justification, and degree of local financial commitment for the purposes of paragraph (1).

"(B) PROJECT JUSTIFICATION.—Project justification criteria shall be adjusted to reflect differences in local land costs, construction costs, and operating costs.

"(C) FINANCIAL COMMITMENT.—The degree of local financial commitment shall be considered acceptable only if—

"(i) the proposed project plan provides for the availability of contingency funds that the Secretary determines to be reasonable to cover unanticipated cost overruns;

"(ii) each proposed local source of capital and operating funding is stable, reliable, and available within the proposed project timetable; and

"(iii) local resources are available to operate the overall proposed transit system (including essential feeder bus and other services necessary to achieve the projected ridership levels) without requiring a reduction in existing transit services in order to operate the proposed project.

"(D) STABILITY ASSESSMENT.—In assessing the stability, reliability, and availability of proposed sources of local funding, the Secretary shall consider—

"(i) existing grant commitments;

"(ii) the degree to which funding sources are dedicated to the purposes proposed; and

"(iii) any debt obligations which exist or are proposed by the recipient for the proposed project or other transit purposes.

"(4) PROJECT ADVANCEMENT.—No project shall be advanced from alternatives analysis to preliminary engineering unless the Secretary finds that the proposed project meets the requirements of this section and there is a reasonable chance that the project will continue to meet these requirements at the conclusion of preliminary engineering.

"(5) EXCEPTIONS.—

"(A) IN GENERAL.—A new fixed guideway system or extension shall not be subject to the requirements of this subsection and the simultaneous evaluation of such projects in more than one corridor in a metropolitan area shall not be limited if (i) the project is located within an extreme or severe nonattainment area and is a transportation control measure, as defined by the Clean Air Act, that is required to carry out an approved State Implementation Plan, or (ii) assistance provided under this section accounts for less than $25,000,000 or less than ⅓ of the total cost of the project or an appropriate program of projects as determined by the Secretary.

"(B) EXPEDITED PROCEDURES.—In the case of a project that is (i) located within a nonattainment area that is not an extreme or severe nonattainment area, (ii) a transportation control measure, as defined in the Clean Air Act, and (iii) required to carry out an approved State Implementation Plan, the simultaneous evaluation of projects in more than one corridor in a metropolitan area shall not be limited and the Secretary shall make determinations under this subsection with expedited procedures that will promote timely implementation of the State Implementation Plan.

"(C) EXCLUSION FOR CERTAIN PROJECTS.—That portion of a project (including any commuter rail service project on an existing right-of-way) financed entirely with highway funds made available under the Federal-Aid Highway Act of 1991 shall not be subject to the requirements of this subsection.

"(6) PROJECT IMPLEMENTATION.—A project funded pursuant to this subsection shall be implemented by means of a full funding grant agreement.".

SEC. 3011. ASSURED TIMETABLE FOR PROJECT REVIEW.

(a) IN GENERAL.—Section 3(a) is amended by striking paragraph (6) and inserting the following new paragraphs:

"(6) ASSURED TIMETABLE FOR PROJECTS IN ALTERNATIVES ANALYSIS, PRELIMINARY ENGINEERING, OR FINAL DESIGN STAGES.—

"(A) ALTERNATIVES ANALYSIS STAGE.—For any new fixed guideway project that the Secretary permits to advance into the alternatives analysis stage of project review, the Secretary shall cooperate with the applicant in alternatives analysis and in preparation of a draft environmental impact statement, and shall approve the draft environmental impact statement for circulation not later than 45 days after the date on which such draft is submitted to the Secretary by the applicant.

"(B) PRELIMINARY ENGINEERING STAGE.—Following circulation of the draft environmental impact statement and not later than 30 days after selection by the applicant of a locally preferred alternative, the Secretary shall permit the project to advance to the preliminary engineering phase if the Secretary finds the project is consistent with the criteria set forth in subsection (i).

"(C) FINAL DESIGN STAGE.—The Secretary shall issue a record of decision and permit a project to advance to the final design stage of construction not later than 120 days after the date of completion of the final environmental impact statement for such project.

"(D) FULL FUNDING GRANT AGREEMENT.—The Secretary shall negotiate and enter into a full funding grant agreement for a project not later than 120 days after the date on which such project has entered the final design stage of construction. Such full funding grant agreement shall provide for a Federal share of the cost of construction that is not less than the Federal share estimated in the Secretary's most recent report required under section 3(j) or an update thereof unless otherwise requested by an applicant.

"(7) PERMITTED DELAYS IN PROJECT REVIEW.—

"(A) IN GENERAL.—Advancement of a project under the timetables specified under paragraph (6) shall be delayed only—

"(i) for such period of time as the applicant, solely at the applicant's discretion, may request; or

"(ii) during such period of time as the Secretary finds, after reasonable notice and opportunity for comment, that the applicant has failed, for reasons solely attributable to the applicant, to comply substantially with requirements of this Act with respect to the project.

"(B) EXPLANATION OF DELAY.—Not more than 10 days after imposing any delay under subparagraph (A)(ii), the Secretary shall provide the applicant with a written statement that (i) explains the reasons for such delay, and (ii) describes all steps which the applicant must take to end the period of delay.

"(C) REPORTS.—The Secretary shall report, not less frequently than once every 6 months, to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate in any case in which the Secretary—

"(i) fails to meet a deadline established by paragraph (6); or

"(ii) delays the application of a deadline under subparagraph (A)(ii).

Such report shall explain the reasons for the delay and include a plan for achieving timely completion of the Secretary's review of the project.

"(8) TREATMENT OF PROGRAMS OF INTERRELATED PROJECTS.—

"(A) FULL FUNDING GRANT AGREEMENT.—In accordance with the timetables established by paragraph (6) or as otherwise provided by law, the Secretary shall enter into 1 or more full funding grant agreements for each program of interrelated projects described in subparagraph (C). Such full funding grant agreements shall include commitments to advance each of the applicant's program elements (in the program of interrelated projects) through the appropriate stages of project review in accordance with the timetables established by paragraph (6) or as otherwise provided for a project by law, and to provide Federal funding for each such program element. Such full funding grant agreements may also be amended, if appropriate, to include design and construction of particular program elements. Inclusion of a nonfederally funded program element in a program of interrelated projects shall not be construed as imposing Federal requirements which would not otherwise apply to such program element.

"(B) CONSIDERATIONS.—When reviewing any project in a program of interrelated projects, the Secretary shall consider the local financial commitment, transportation effectiveness, and other assessment factors of all program elements to the extent that such consideration expedites project implementation.

"(C) PROGRAMS OF INTERRELATED PROJECTS.—For the purposes of this paragraph, programs of interrelated projects shall include the following:

"(i) The New Jersey Urban Core Project as defined by the Federal Transit Act Amendments of 1991.

"(ii) The San Francisco Bay Area Rail Extension Program, which consists of not less than the following elements: an extension of the San Francisco Bay Area Rapid Transit District to the San Francisco International Airport (Phase 1a to Colma and Phase 1b to San Francisco Airport), the Santa Clara County Transit District Tasman Corridor Project, and any other program element designated by any modification to Metropolitan Transportation Commission Resolution No. 1876, as well as program elements financed entirely with non-Federal funds, including the BART Warm Springs Extension, Dublin Extension, and West Pittsburg Extension.

"(iii) The Los Angeles Metro Rail Minimum Operable Segment-3 Program, which consists of 7 stations and approximately 11.6 miles of heavy rail subway on the following lines:

"(I) 1 line running west and northwest from the Hollywood/Vine station to the North Hollywood station, with 2 intermediate stations;

"(II) 1 line running west from the Wilshire/Western station to the Pico/San Vicente station, with 1 intermediate station; and

"(III) the East Side Extension, consisting of an initial line of approximately 3 miles in length, with at least 2 stations, beginning at Union Station and running generally east.

"(iv) The Baltimore-Washington Transportation Improvements Program, which consists of the following elements: 3 extensions of the Baltimore Light Rail to Hunt Valley, Penn Station and Baltimore-Washington Airport; MARC extensions to Frederick and Waldorf, Maryland; and an extension of the Washington Subway system to Largo, Maryland.

"(v) The Tri-County Metropolitan Transportation District of Oregon Westside Light Rail Program, which consists of the following elements: the locally preferred alternative for the Westside Light Rail Project, including system related costs, set forth in Public Law 101–516 and as defined in House Report 101–584; and the Hillsboro extension to the Westside Light Rail Project as set forth in Public Law 101–516.

"(vi) The Queens Local/Express Connector Program which consists of the following elements: the locally preferred alternative for the connection of the 63rd Street tunnel extension to the Queens Boulevard lines; the bell-mouth portion of the connector which would allow for future access by both commuter rail trains and other subway lines to the 63rd Street tunnel extension; planning elements for connecting both upper and lower level to commuter and subway lines in Long Island City; and planning elements for providing a connector for commuter rail service to the East side of Manhattan and subway lines to the proposed Second Avenue subway.

"(vii) The Dallas Area Rapid Transit Authority light rail elements of the New System Plan, which consists of the following elements: the locally preferred alternative for the South Oak Cliff corridor; the South Oak Cliff corridor extension-Camp Wisdom; the West Oak Cliff corridor-Westmoreland; the North Central corridor-Park Lane; the North Central corridor-Richardson, Plano and Garland extensions; the Pleasant Grove corridor-Buckner; and the Carrollton corridor-Farmers Branch and Las Colinas terminal.

"(viii) Such other programs as may be designated in law or by the Secretary.".

(b) TRANSITIONAL PROVISION.—In the case of a project (including programs of interrelated projects) that, as of the date of enactment of this Act, has reached a particular stage of project review under section 3(a)(6) of the Federal Transit Act, the timetables applicable to subsequent stages of project review contained in such section shall take effect on the date of enactment of this Act.

SEC. 3012. METROPOLITAN PLANNING.

The Act is amended by striking section 8 and inserting the following new section:

"SEC. 8. METROPOLITAN PLANNING.

"(a) GENERAL REQUIREMENTS.—It is in the national interest to encourage and promote the development of transportation systems embracing various modes of transportation in a manner which will efficiently maximize mobility of people and goods within and through urbanized areas and minimize transportation-related fuel consumption and air pollution. To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the State, the metropolitan areas, and the Nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

"(b) DESIGNATION OF METROPOLITAN PLANNING ORGANIZATIONS.—

"(1) IN GENERAL.—To carry out the transportation planning process required by this section, a metropolitan planning organization shall be designated for each urbanized area of more than 50,000 population by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

"(2) MEMBERSHIP OF CERTAIN MPO'S.—In a metropolitan area designated as a transportation management area, the metropolitan planning organization designated for such area shall include local elected officials, officials of agencies which administer or operate major modes of transportation in the metropolitan area (including all transportation agencies included in the metropolitan planning organization on June 1, 1991) and appropriate State officials. This paragraph shall only apply to a metropolitan planning organization which is redesignated after the date of the enactment of this section.

"(3) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to interfere with the authority, under any State law in effect on the date of the enactment of this section, of a public agency with multimodal transportation responsibilities to—

"(A) develop plans and programs for adoption by a metropolitan planning organization; and

"(B) develop long-range capital plans, coordinate transit services and projects, and carry out other activities pursuant to State law.

"(4) CONTINUING DESIGNATION.—Designations of metropolitan planning organizations, whether made under this section or other provisions of law, shall remain in effect until redesignated under paragraph (5) or revoked by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population or as otherwise provided under State or local procedures.

"(5) REDESIGNATION.—

"(A) PROCEDURES.—A metropolitan planning organization may be redesignated by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) as appropriate to carry out this section.

"(B) CERTAIN REQUESTS TO REDESIGNATE.—A metropolitan planning organization shall be redesignated upon request of a unit or units of general purpose local government representing at least 25 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) in any urbanized area (i) whose population is more than 5,000,000 but less than 10,000,000, or (ii) which is an extreme nonattainment area for ozone or carbon monoxide as defined under the Clean Air Act. Such redesignation shall be accomplished using procedures established by subparagraph (A).

"(6) TREATMENT OF LARGE URBAN AREAS.—More than 1 metropolitan planning organization may be designated within an urbanized area as defined by the Bureau of the Census only if the Governor determines that the size and complexity of the urbanized area make designation of more than 1 metropolitan planning organization for such area appropriate.

"(c) METROPOLITAN AREA BOUNDARIES.—For the purposes of this section, the boundaries of a metropolitan area shall be determined by agreement between the metropolitan planning organization and the Governor. Each metropolitan area shall cover at least the existing urbanized area and the contiguous area expected to become urbanized within the 20-year forecast period and may encompass the entire Metropolitan Statistical Area or Consolidated Metropolitan Statistical Area, as defined by the Bureau of the Census. For areas designated as nonattainment areas for ozone or carbon monoxide under the Clean Air Act, the boundaries of the metropolitan area shall at least include the boundaries of the nonattainment area, except as otherwise provided by agreement between the metropolitan planning organization and the Governor.

"(d) COORDINATION IN MULTI-STATE AREAS.—

"(1) IN GENERAL.—The Secretary shall establish such requirements as the Secretary considers appropriate to encourage Governors and metropolitan planning organizations with responsibility for a portion of a multi-State metropolitan area to provide coordinated transportation planning for the entire metropolitan area.

"(2) COMPACTS.—The consent of Congress is hereby given to any 2 or more States to enter into agreements or compacts, not in conflict with any law of the United States, for cooperative efforts and mutual assistance in support of activities authorized under this section as such activities pertain to interstate areas and localities within such States and to establish such agencies, joint or otherwise, as such States may deem desirable for making such agreements and compacts effective.

"(e) COORDINATION OF MPO'S.—If more than 1 metropolitan planning organization has authority within a metropolitan area or an area which is designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, each metropolitan planning organization shall consult with the other metropolitan planning organizations designated for such area and the State in the coordination of plans and programs required by this section.

"(f) FACTORS TO BE CONSIDERED.—In developing transportation plans and programs pursuant to this section, each metropolitan planning organization shall, at a minimum, consider the following:

"(1) Preservation of existing transportation facilities and, where practical, ways to meet transportation needs by using existing transportation facilities more efficiently.

"(2) The consistency of transportation planning with applicable Federal, State, and local energy conservation programs, goals, and objectives.

"(3) The need to relieve congestion and prevent congestion from occurring where it does not yet occur.

"(4) The likely effect of transportation policy decisions on land use and development and the consistency of transportation plans and programs with the provisions of all applicable short- and long-term land use and development plans.

"(5) The programming of expenditure on transportation enhancement activities as required in section 133.

"(6) The effects of all transportation projects to be undertaken within the metropolitan area, without regard to whether such projects are publicly funded.

"(7) International border crossings and access to ports, airports, intermodal transportation facilities, major freight distribution routes, national parks, recreation areas, monuments and historic sites, and military installations.

"(8) The need for connectivity of roads within the metropolitan area with roads outside the metropolitan area.

"(9) The transportation needs identified through use of the management systems required by section 303 of this title.

"(10) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors and identification of those corridors for which action is most needed to prevent destruction or loss.

"(11) Methods to enhance the efficient movement of freight.

"(12) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavement.

"(13) The overall social, economic, energy, and environmental effects of transportation decisions.

"(14) Methods to expand and enhance transit services and to increase the use of such services.

"(15) Capital investments that would result in increased security in transit systems.

"(g) DEVELOPMENT OF LONG RANGE PLAN.—

"(1) IN GENERAL.—Each metropolitan planning organization shall prepare, and update periodically, according to a schedule that the Secretary determines to be appropriate, a long range plan for its metropolitan area in accordance with the requirements of this subsection.

"(2) LONG RANGE PLAN.—A long range plan under this section shall be in a form that the Secretary determines to be appropriate and shall, at a minimum:

"(A) Identify transportation facilities (including but not necessarily limited to major roadways, transit, and multimodal and intermodal facilities) that should function as an integrated metropolitan transportation system, giving emphasis to those facilities that serve important national and regional transportation functions. In formulating the long range plan, the metropolitan planning organization shall consider factors described in subsection (f) as such factors relate to a 20-year forecast period.

"(B) Include a financial plan that demonstrates how the long-range plan can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including such techniques as value capture, tolls and congestion pricing.

"(C) Assess capital investment and other measures necessary to—

"(i) ensure the preservation of the existing metropolitan transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit facilities; and

"(ii) make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods.

"(D) Indicate as appropriate proposed transportation enhancement activities.

"(3) COORDINATION WITH CLEAN AIR ACT AGENCIES.—In metropolitan areas which are in nonattainment for ozone or carbon monoxide under the Clean Air Act, the metropolitan planning organization shall coordinate the development of a long range plan with the process for development of the transportation control measures of the State Implementation Plan required by the Clean Air Act.

"(4) PARTICIPATION BY INTERESTED PARTIES.—Before approving a long range plan, each metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the long range plan, in a manner that the Secretary deems appropriate.

"(5) PUBLICATION OF LONG RANGE PLAN.—Each long range plan prepared by a metropolitan planning organization shall be—

"(i) published or otherwise made readily available for public review; and

"(ii) submitted for information purposes to the Governor at such times and in such manner as the Secretary shall establish.

"(h) TRANSPORTATION IMPROVEMENT PROGRAM.—

"(1) DEVELOPMENT.—The metropolitan planning organization designated for a metropolitan area, in cooperation with the State and affected transit operators, shall develop a transportation improvement program for the area for which such organization is designated. In developing the program, the metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program. The program shall be updated at least once every 2 years and shall be approved by the metropolitan planning organization and the Governor.

"(2) PRIORITY OF PROJECTS.—The transportation improvement program shall include the following:

"(A) A priority list of projects and project segments to be carried out within each 3-year period after the initial adoption of the transportation improvement program.

"(B) A financial plan that demonstrates how the transportation improvement program can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including value capture, tolls, and congestion pricing.

"(3) SELECTION OF PROJECTS.—Except as otherwise provided in subsection (i)(4), project selection in metropolitan areas for projects involving Federal participation shall be carried out by the State in cooperation with the metropolitan planning organization and shall be in conformance with the transportation improvement program for the area.

"(4) MAJOR CAPITAL INVESTMENTS.—Not later than 6 months after the date of enactment of this section, the Secretary shall initiate a rulemaking proceeding to conform review requirements for transit projects under the National Environmental Policy Act of 1969 to comparable requirements under such Act applicable to highway projects. Nothing in this section shall be construed to affect the applicability of such Act to transit or highway projects.

"(5) INCLUDED PROJECTS.—A transportation improvement program for a metropolitan area developed under this subsection shall include projects within the area which are proposed for funding under this title and the Federal Transit Act and which are consistent with the long range plan developed under subsection (g) for the area. The program shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.

"(6) NOTICE AND COMMENT.—Before approving a transportation improvement program, a metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with reasonable notice of and an opportunity to comment on the proposed program.

"(i) TRANSPORTATION MANAGEMENT AREAS.—

"(1) DESIGNATION.—The Secretary shall designate as transportation management areas all urbanized areas over 200,000 population. The Secretary shall designate any additional area as a transportation management area upon the request of the Governor and the metropolitan planning organization designated for such area or the affected local officials. Such additional areas shall include upon such a request the Lake Tahoe Basin as defined by Public Law 96–551.

"(2) TRANSPORTATION PLANS AND PROGRAMS.—Within a transportation management area, transportation plans and programs shall be based on a continuing and comprehensive transportation planning process carried out by the metropolitan planning organization in cooperation with the State and transit operators.

"(3) CONGESTION MANAGEMENT SYSTEM.—Within a transportation management area, the transportation planning process under this section shall include a congestion management system that provides for effective management of new and existing transportation facilities eligible for funding under this title and the Federal Transit Act through the use of travel demand reduction and operational management strategies. The Secretary shall establish an appropriate phase-in schedule for compliance with the requirements of this section.

"(4) SELECTION OF PROJECTS.—All projects carried out within the boundaries of a transportation management area with Federal participation pursuant to this title (excluding projects undertaken on the National Highway System and pursuant to the Bridge and Interstate Maintenance programs) or pursuant to the Federal Transit Act shall be selected by the metropolitan planning organization designated for such area in consultation with the State and in conformance with the transportation improvement program for such area and priorities established therein. Projects undertaken within the boundaries of a transportation management area on the National Highway System or pursuant to the Bridge and Interstate Maintenance programs shall be selected by the State in cooperation with the metropolitan planning organization designated for such area and shall be in conformance with the transportation improvement program for such area.

"(5) CERTIFICATION.—The Secretary shall assure that each metropolitan planning organization in each transportation management area is carrying out its responsibilities under applicable provisions of Federal law, and shall so certify at least once every 3 years. The Secretary may make such certification only if (1) a metropolitan planning organization is complying with the requirements of section 134 and other applicable requirements of Federal law, and (2) there is a transportation improvement program for the area that has been approved by the metropolitan planning organization and the Governor. If after September 30, 1993, a metropolitan planning organization is not certified by the Secretary, the Secretary may withhold, in whole or in part, the apportionment under section 104(b)(3) attributed to the relevant metropolitan area pursuant to section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act. If a metropolitan planning organization remains uncertified for more than 2 consecutive years after September 30, 1994, 20 percent of the apportionment attributed to that metropolitan area under section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act shall be withheld. The withheld apportionments shall be restored to the metropolitan area at such time as the metropolitan planning organization is certified by the Secretary. The Secretary shall not withhold certification under this section based upon the policies and criteria established by a metropolitan planning organization or transit grant recipient for determining the feasibility of private enterprise participation in accordance with section 8(o) of the Federal Transit Act.

"(j) ABBREVIATED PLANS AND PROGRAMS FOR CERTAIN AREAS.—For metropolitan areas not designated as transportation management areas under this section, the Secretary may provide for the development of abbreviated metropolitan transportation plans and programs that the Secretary determines to be appropriate to achieve the purposes of this section, taking into account the complexity of transportation problems, including transportation related air quality problems, in such areas. In no event shall the Secretary provide abbreviated plans or programs for metropolitan areas which are in nonattainment for ozone or carbon monoxide under the Clean Air Act.

"(k) TRANSFER OF FUNDS.—Funds made available for a transit project under title 23, United States Code, shall be transferred to and administered by the Secretary in accordance with the requirements of this Act. Funds made available for a highway project under this Act shall be transferred to and administered by the Secretary in accordance with the requirements of title 23, United States Code.

"(l) ADDITIONAL REQUIREMENTS FOR CERTAIN NONATTAINMENT AREAS.—Notwithstanding any other provisions of this Act or title 23, United States Code, for transportation management areas classified as nonattainment for ozone or carbon monoxide pursuant to the Clean Air Act, Federal funds may not be programmed in such area for any transit project that will result in a significant increase in carrying capacity for single occupant vehicles unless the project is part of an approved congestion management system.

"(m) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed—

"(1) to confer on a metropolitan planning organization the authority to impose legal requirements on any transportation facility, provider, or project not eligible under this title or the Federal Transit Act; or

"(2) to intervene in the management of a transportation agency.

"(n) GRANTS.—

"(1) ELIGIBILITY.—The Secretary is authorized to contract for and make grants to States and local public bodies and agencies thereof, or enter into agreements with other Federal departments and agencies, for the planning, engineering, design, and evaluation of public transportation projects, and for other technical studies. Activities assisted under this section may include—

"(A) studies relating to management, operations, capital requirements, and economic feasibility;

"(B) evaluation of previously funded projects; and

"(C) other similar or related activities preliminary to and in preparation for the construction, acquisition, or improved operation of facilities and equipment.

"(2) CRITERIA.—A grant, contract, or working agreement under this section shall be made in accordance with criteria established by the Secretary.

"(o) PRIVATE ENTERPRISE.—The plans and programs required by this section shall encourage to the maximum extent feasible the participation of private enterprise. Where facilities and equipment are to be acquired which are already being used in service in the urban areas, the program must provide that they shall be so improved (through modernization, extension, addition, or otherwise) that they will better serve the transportation needs of the area.

"(p) USE FOR COMPREHENSIVE PLANNING.—

"(1) IN GENERAL.—The Secretary shall ensure, to the extent practicable, that amounts made available under section 21(c)(1) for the purposes of this section are used to support balanced and comprehensive transportation planning that takes into account the relationships among land use and all transportation modes, without regard to the programmatic source of the planning funds.

"(2) FORMULA ALLOCATION TO ALL METROPOLITAN AREAS.—The Secretary shall apportion 80 percent of the amount made available under section 21(c)(1) to States in the ratio that the population in urbanized areas, in each State, bears to the total population in urbanized areas, in all the States as shown by the latest available decennial census, except that no State shall receive less than ½ of 1 percent of the amount apportioned under this paragraph. Such funds shall be allocated to metropolitan planning organizations designated under section 8 by a formula, developed by the State in cooperation with metropolitan planning organizations and approved by the Secretary, that considers population in urbanized areas and provides an appropriate distribution for urbanized areas to carry out the cooperative processes described in section 8 of this Act. The State shall make such funds available promptly to eligible metropolitan planning organizations according to procedures approved by the Secretary.

"(3) SUPPLEMENTAL ALLOCATION.—The Secretary shall apportion 20 percent of the amounts made available under section 21(c)(1) to States to supplement allocations under subparagraph (B) for metropolitan planning organizations. Such funds shall be allocated according to a formula that reflects the additional costs of carrying out planning, programming, and project selection responsibilities under this section in such areas.

"(4) HOLD HARMLESS.—The Secretary shall ensure, to the maximum extent practicable, that no metropolitan planning organization is allocated less than the amount it received by administrative formula under section 8 in fiscal year 1991. To comply with the previous sentence, the Secretary is authorized to make a pro rata reduction in other amounts made available to carry out section 21(c).

"(5) FEDERAL SHARE PAYABLE.—The Federal share payable for activities under this paragraph shall be 80 percent except where the Secretary determines that it is in the Federal interest not to require a State or local match.".

SEC. 3013. BLOCK GRANT PROGRAM.

(a) ALLOCATIONS.—Section 9(a) is amended—

(1) in paragraph (1), by striking "Of the amount" and all that follows through the period and inserting the following: "Of the amounts made available or appropriated under section 21(g), 9.32 percent shall be available for expenditure under this section in each fiscal year only in urbanized areas with a population of less than 200,000."; and

(2) in paragraph (2), by striking "Of the amount" and all that follows through the period and inserting the following: "Of the amounts made available or appropriated under section 21(g), 90.68 percent shall be available for expenditure under this section in each fiscal year only in urbanized areas with a population of 200,000 or more.".

(b) ENERGY AND OPERATING EFFICIENCIES.—Section 9(b) is amended by adding at the end the following new paragraph:

"(4) ENERGY AND OPERATING EFFICIENCIES.—If a recipient under this section demonstrates to the satisfaction of the Secretary that energy or operating efficiencies would be achieved by actions that reduce revenue vehicle miles but provide the same frequency of revenue service to the same number of riders, the recipient's apportionment under paragraph (2)(A) shall not be reduced as a result of such actions.".

(c) EXTENSION OF SAFETY AUTHORITY TO BLOCK GRANT PROGRAM.—Section 9(e)(1) is amended by striking "and 19" and inserting "19, and 22".

(d) ANNUAL SUBMISSIONS.—Section 9(e)(2) is amended by inserting after the first sentence the following new sentences: "Such certifications and any additional certifications required by law to be submitted to the Secretary may be consolidated into a single document to be submitted annually as part of the grant application under this section. The Secretary shall annually publish in conjunction with the publication required under subsection (q) a list of all certifications required under this Act.".

(e) STREAMLINED PROCEDURES.—Section 9(e) is amended by adding at the end the following new paragraph:

"(6) STREAMLINED ADMINISTRATIVE PROCEDURES.—The Secretary shall establish streamlined administrative procedures to govern compliance with the certification requirement under paragraph (3)(B) with respect to track and signal equipment used in ongoing operations.".

(f) TRANSIT SECURITY SYSTEMS.—Section 9(e)(3) is amended—

(1) in subparagraph (G) by striking "; and" and inserting a semicolon;

(2) in subparagraph (H) by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following:

"(I)(i) will expend for each fiscal year not less than 1 percent of the funds received by the recipient for each fiscal year under this section for transit security projects; or

"(ii) that such expenditures for such security systems are not necessary.

For the purposes of subparagraph (I), transit security projects may include increasing lighting within or adjacent to transit systems, including bus stops, subway stations, parking lots, and garages; increasing camera surveillance of areas within and adjacent to such systems; providing emergency telephone lines to contact law enforcement or security personnel in areas within or adjacent to such systems; and any other project intended to increase the security and safety of existing or planned transit systems.".

(g) PROGRAM OF PROJECTS.—Section 9(f) is amended—

(1) by striking "and" at the end of paragraph (3);

(2) by striking the period at the end of paragraph (4) and inserting "; and"; and

(3) by inserting after paragraph (4) the following:

"(5) assure that the proposed program of projects provides for the coordination of transit services assisted under this section with transportation services assisted from other Federal sources.".

(h) DISCRETIONARY TRANSFER OF APPORTIONMENT.—Section 9 is amended—

(1) in subsection (j)(1), by inserting after the first sentence the following: "In a transportation management area designated pursuant to section 8, funds which cannot be used for payment of operating expenses under this section also shall be available for highway projects if—

"(A) such use is approved by the metropolitan planning organization in accordance with section 8 after appropriate notice and opportunity for comment and appeal is provided to affected transit providers; and

"(B) in the determination of the Secretary, such funds are not needed for investments required by the Americans with Disabilities Act of 1990."; and

(2) by adding at the end of subsection (j) the following new paragraph:

"(3) Funds under this section may be available for highway projects under title 23, United States Code, only if funds used for the State or local share of such highway projects are eligible to fund either highway or transit projects.".

(i) INFLATION ADJUSTMENT FOR OPERATING ASSISTANCE.—Section 9(k)(2)(B) is amended—

(1) by striking "1988," and inserting "1991,";

(2) by striking "of less than 200,000 population" the first place it appears; and

(3) by inserting after "calendar year" the following: "; except that such increase may not exceed the percentage increase of the funds made available under section 21(g) in the current fiscal year and the funds made available under section 21(g) in the previous fiscal year".

(j) FERRY ROUTES.—Section 9 is amended by adding at the end the following new subsections:

"(r) FERRY SERVICES.—A vessel used in ferryboat operations funded under this section that is part of a State-operated ferry system may occasionally be operated outside of the urbanized area in which service is provided to accommodate periodic maintenance if existing ferry service is not thereby significantly reduced.

"(s) GRANDFATHER OF CERTAIN URBANIZED AREAS.—Any area designated as an urbanized area under the 1980 census which is not so designated under the 1990 census—

"(1) for fiscal year 1992, shall be treated as an urbanized area for purposes of section 12(c)(11) of the Federal Transit Act; and

"(2) for fiscal year 1993, shall be eligible to receive 50 percent of the funds which the area would have received if the area were treated as an urbanized area for purposes of such section 12(c)(11) and an amount equal to 50 percent of the funds which the State in which the area is located would have received if the area were treated as an area other than an urbanized area.".

(k) ADJUSTMENTS OF APPORTIONMENTS.—Section 9 is amended by adding at the end the following new subsection:

"(t) ADJUSTMENTS OF APPORTIONMENTS.—Provided that sufficient funds are available, in each fiscal year beginning after September 30, 1991, the Secretary shall adjust apportionments under this section between the Mass Transit Account of the Highway Trust Fund and the general fund of the Treasury to assure that each recipient receives from the general fund of the Treasury not less than the amount of operating assistance made available each fiscal year under this section that such recipient is eligible to receive.".

SEC. 3014. CONTINUED ASSISTANCE FOR COMMUTER RAIL IN SOUTHERN FLORIDA UNDER SECTION 9 PROGRAM.

Section 329 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (49 U.S.C. 1607a) is amended—

(1) in the first sentence by striking "in which major onsite" and all that follows before the period; and

(2) in the second sentence by striking "provided as" and all that follows before the period.

SEC. 3015. REPEAL OF EXPIRED PROVISION.

Section 9A, relating to Mass Transit Account distribution for fiscal year 1983, is repealed.

SEC. 3016. TRANSIT DEFINITION.

Section 12(c)(7) is amended—

(1) by striking "term" and inserting "terms"; and

(2) by striking "means" and inserting "and 'transit' mean".

SEC. 3017. RULEMAKING.

Section 12(i) is amended by adding at the end the following:

"(3) LIMITATION.—The Secretary shall propose or implement rules governing activities under this Act only in accordance with this section except for routine matters and matters with no significant impact.".

SEC. 3018. TRANSFER OF FACILITIES AND EQUIPMENT.

Section 12 is amended by adding at the end the following new subsection:

"(k) TRANSFER OF CAPITAL ASSET.—

"(1) AUTHORIZATION.—If a recipient of assistance under this Act determines that facilities and equipment and other assets (including land) acquired, in whole or part, with such assistance are no longer needed for the purposes for which they were acquired, the Secretary may authorize the transfer of such assets to any public body to be used for any public purpose with no further obligation to the Federal Government.

"(2) DETERMINATIONS.—The Secretary may authorize a transfer under paragraph (1) for any public purpose other than transit only if the Secretary first determines—

"(A) that the asset being transferred will remain in public use for not less than 5 years after the date of the transfer;

"(B) that there are no purposes eligible for assistance under this Act for which the asset should be used;

"(C) the overall benefit of allowing the transfer outweighs the Federal Government interest in liquidation and return of the Federal financial interest in the asset, after consideration of fair market value and other factors; and

"(D) that, in any case in which the asset is a facility or land, there is no interest in acquiring the asset for Federal use.

The determination under subparagraph (D) shall be made through an appropriate screening or survey process.

"(3) DOCUMENTATION.—Determinations required by paragraph (2) shall be made, in writing, and shall include the rationale for such determinations.

"(4) RELATION TO OTHER PROVISIONS.—The provisions of this section shall be in addition to and not in lieu of any other provision of law governing use and disposition of facilities and equipment under an assistance agreement.".

SEC. 3019. SPECIAL PROCUREMENT.

Section 12 is further amended by adding at the end the following:

"(l) SPECIAL PROCUREMENT INITIATIVES.—

"(1) TURNKEY SYSTEM PROCUREMENTS.—

"(A) IN GENERAL.—In order to advance new technologies and lower the cost of constructing new transit systems, the Secretary shall allow the solicitation for a turnkey system project to be funded under this Act to be conditionally awarded before Federal requirements have been met on the project so long as the award is made without prejudice to the implementation of those Federal requirements. Federal financial assistance under this Act may be made available for such a project when the recipient has complied with relevant Federal requirements.

"(B) INITIAL DEMONSTRATION PHASE.—In order to develop regulations applying generally to turnkey system projects, the Secretary is authorized to approve not less than 2 projects for an initial demonstration phase. The results of such demonstration projects (and any other projects currently using this procurement method) shall be taken into consideration in the development of the regulations implementing this subsection.

"(C) TURNKEY SYSTEM PROJECT DEFINED.—As used in this subsection, the term 'turnkey system project' means a project under which a recipient contracts with a consortium of firms, individual firms, or a vendor to build a transit system that meets specific performance criteria and which is operated by the vendor for a period of time.

"(2) MULTIYEAR ROLLING STOCK PROCUREMENTS.—

"(A) IN GENERAL.—A recipient procuring rolling stock with Federal financial assistance under this Act may enter into a multiyear agreement for the purchase of such rolling stock and replacement parts pursuant to which the recipient may exercise an option to purchase additional rolling stock or replacement parts for a period not to exceed 5 years from the date of the original contract.

"(B) CONSORTIA.—The Secretary shall permit 2 or more recipients to form a consortium (or otherwise act on a cooperative basis) for purposes of procuring rolling stock in accordance with this paragraph and other Federal procurement requirements.

"(3) EFFICIENT PROCUREMENT.—A recipient may award to other than the lowest bidder in connection with a procurement under this Act when such award furthers objectives which are consistent with purposes of this Act, such as improved long-term operating efficiency and lower long-term costs. Not later than 90 days after the date of the enactment of this Act, the Secretary shall (A) make such modifications to current procedures as are appropriate to make the policy set forth in this paragraph readily practicable for all transit agencies, including smaller and medium sized agencies, and (B) issue guidance clarifying and implementing such policy.".

SEC. 3020. FEDERAL SHARE FOR ADA AND CLEAN AIR ACT COMPLIANCE.

Section 12 is further amended by inserting at the end the following new subsection:

"(m) FEDERAL SHARE FOR CERTAIN PROJECTS.—A Federal grant for a project to be assisted under this Act that involves the acquisition of vehicle-related equipment required by the Clean Air Act or the Americans with Disabilities Act of 1990 shall be 90 percent of the net project cost of such equipment attributable to compliance with such Acts. The Secretary shall have discretion to determine, through practicable administrative procedures, the costs attributable to equipment specified in the preceding sentence.".

SEC. 3021. TRANSIT SERVICES FOR ELDERLY AND DISABLED INDIVIDUALS.

Section 16 is amended—

(1) by striking "elderly and handicapped persons" each place it appears and inserting "elderly persons and persons with disabilities";

(2) in subsection (b)(2) by inserting "to the Governor of each State for allocation" before "to private";

(3) in subsection (b)(2) by inserting "or to public bodies approved by the State to coordinate services for elderly persons and persons with disabilities or to public bodies which certify to the Governor that no nonprofit corporations or associations are readily available in an area to provide the service under this subsection" after "inappropriate";

(4) by striking "and" at the end of subsection (b)(1), by striking the period at the end of subsection (b)(2) and inserting "; and", and by inserting after subsection (b)(2) the following:

"(3) eligible capital expenses under this section may include, at the option of the recipient, the acquisition of transportation services under a contract, lease, or other arrangement.";

(5) by redesignating subsections (c) through (e) as subsections (d) through (f), respectively;

(6) by inserting after subsection (b) the following:

"(c) APPORTIONMENT AND USE OF FUNDS.—

"(1) STATE PROGRAM OF PROJECTS.—Funds made available for purposes of subsection (b) may be used for transportation projects to assist in the provision of transportation services for elderly persons and persons with disabilities which are included in a State program of projects. Such programs shall be submitted annually to the Secretary for approval and shall contain an assurance that the program provides for maximum feasible coordination of transportation services assisted under this section with transportation services assisted by other Federal sources.

"(2) APPORTIONMENT.—Sums made available for expenditure for purposes of subsection (b) shall be apportioned to the States on the basis of a formula administered by the Secretary which shall take into consideration the number of elderly persons and persons with disabilities in each State.

"(3) TRANSFER OF AMOUNTS.—Any amounts of a State's apportionment under this subsection that remain available for obligation at the beginning of the 90-day period before the expiration of the period of availability of such amounts shall be available to the Governor for transfer to supplement funds apportioned to the State under section 18(a) or section 9(d).

"(4) LEASING OF VEHICLES.—The Secretary shall, not later than 60 days following the enactment of the Federal Transit Act, issue regulations to allow vehicles purchased under this section to be leased to local public bodies and agencies for the purpose of improving transportation services designed to meet the special needs of elderly persons and persons with disabilities."; and

(7) by striking subsection (f), as redesignated by this section, and inserting the following:

"(f) MEAL DELIVERY SERVICE TO HOMEBOUND PERSONS.—Transit service providers receiving assistance under this section or section 18(a) may coordinate and assist in providing meal delivery service for homebound persons on a regular basis if the meal delivery services do not conflict with the provision of transit services or result in a reduction of service to transit passengers.".

SEC. 3022. TRANSFER OF FACILITIES AND EQUIPMENT.

Section 18 is amended by striking subsection (g) and inserting the following:

"(g) TRANSFER OF FACILITIES AND EQUIPMENT.—A State may transfer facilities and equipment acquired with assistance under this section or section 16(b) to any recipient eligible to receive assistance under this Act with the consent of the recipient currently in possession of such facilities or equipment, if the facility or equipment will continue to be used in accordance with the requirements of this section or section 16(b), as the case may be.".

SEC. 3023. INTERCITY BUS TRANSPORTATION.

Section 18 is further amended by adding at the end the following new subsection:

"(i) INTERCITY BUS TRANSPORTATION.—

"(1) FUNDING OF PROGRAM.—Subject to paragraph (2), a State shall expend not less than 5 percent of the amounts made available to such State under this section in fiscal year 1992, 10 percent of such amounts in fiscal year 1993, and 15 percent of such amounts in fiscal year 1994 and each fiscal year beginning thereafter to carry out a program for the development and support of intercity bus transportation. Eligible activities under such a program include planning and marketing for intercity bus transportation, capital grants for intercity bus shelters, joint-use stops and depots, operating grants through purchase-of-service agreements, user-side subsidies and demonstration projects, and coordination of rural connections between small transit operations and intercity bus carriers.

"(2) CERTIFICATION.—A State shall not be required to comply with paragraph (1) in any fiscal year in which the Governor certifies to the Secretary that the intercity bus service needs of the State are being adequately met.

"(3) SPECIAL RULE.—For fiscal year 1992, a State may meet the requirement of paragraph (1) by expending to carry out the program described in paragraph (1) at least 50 percent of the increase in the amount allocated to the State under this section between fiscal year 1991 and fiscal year 1992.".

SEC. 3024. USE OF POPULATION ESTIMATES.

Section 18(a) is amended in the second sentence by inserting after "the latest available Federal census" the following: ", the population estimate prepared by the Secretary of Commerce following the 4th year after the date of publication of such Federal census, or the population estimate prepared by the Secretary of Commerce following the 8th year after such date of publication, whichever is the most recent.".

SEC. 3025. AUTHORIZATIONS.

Section 21 is amended to read as follows:

"SEC. 21. AUTHORIZATIONS.

"(a) FORMULA GRANT PROGRAMS.—

"(1) FROM THE TRUST FUND.—There shall be available from the Mass Transit Account of the Highway Trust Fund only to carry out sections 9B, 11(b), 12(a), 16(b), 18, 23, and 26 of this Act, $1,150,000,000 for fiscal year 1993, $1,190,000,000 for fiscal year 1994, $1,150,000,000 for fiscal year 1995, $1,110,000,000 for fiscal year 1996, and $1,920,000,000 for fiscal year 1997, to remain available until expended.

"(2) FROM GENERAL FUNDS.—In addition to the amounts specified in paragraph (1), there are authorized to be appropriated to carry out sections 9, 11(b), 12(a), 16(b), 18, 23, and 26 of this Act, and substitute transit projects under section 103(e)(4) of title 23, United States Code, $2,055,000,000 for fiscal year 1993, $1,885,000,000 for fiscal year 1994, $1,925,000,000 for fiscal year 1995, $1,965,000,000 for fiscal year 1996, and $2,430,000,000 for fiscal year 1997, to remain available until expended.

"(3) FISCAL YEAR 1992.—There shall be available from the Mass Transit Account of the Highway Trust Fund for fiscal year 1992, $409,710,000 to carry out section 9B of this Act, to remain available until expended.

"(b) SECTION 3 DISCRETIONARY AND FORMULA GRANTS.—

"(1) FROM THE TRUST FUND.—There shall be available from the Mass Transit Account of the Highway Trust Fund only to carry out section 3 of this Act, $1,725,000,000 for fiscal year 1993, $1,785,000,000 for fiscal year 1994, $1,725,000,000 for fiscal year 1995, $1,665,000,000 for fiscal year 1996, and $2,880,000,000 for fiscal year 1997, to remain available until expended.

"(2) FROM GENERAL FUNDS.—In addition to the amounts specified in paragraph (1), there are authorized to be appropriated to carry out section 3 of this Act, $305,000,000 for fiscal year 1993, $265,000,000 for fiscal year 1994, $325,000,000 for fiscal year 1995, $385,000,000 for fiscal year 1996, and $20,000,000 for fiscal year 1997, to remain available until expended.

"(3) FISCAL YEAR 1992.—There shall be available from the Mass Transit Account of the Highway Trust Fund for fiscal year 1992—

"(A) $1,345,000,000 to carry out section 3 of this Act;

"(B) $43,780,000 to carry out section 8 of this Act;

"(C) $55,000,000 to carry out section 16 of this Act;

"(D) $19,460,000 to carry out section 26(a) of this Act;

"(E) $20,050,000 to carry out section 26(b) of this Act, of which $12,000,000 shall be available only for part C of title VI of the Intermodal Surface Transportation Efficiency Act of 1991; and

"(F) $7,000,000 to carry out section 11(b) of this Act.

Such sums shall remain available until expended.

"(4) CONTRACTUAL OBLIGATIONS.—Approval by the Secretary of a grant or contract with funds made available under subsection (a)(1), (a)(3), (b)(1), or (b)(3) shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project. Approval by the Secretary of a grant or contract with funds made available under subsection (a)(2) or (b)(2) shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project only to the extent that amounts are provided in advance in appropriations Acts.

"(c) SET-ASIDE FOR PLANNING, PROGRAMMING, AND RESEARCH.—Before apportionment in each fiscal year of the funds made available or appropriated under subsection 8(p), an amount equivalent to 3.0 percent of funds made available or appropriated under subsections (a) and (b) shall be made available until expended as follows:

"(1) 45 percent of such funds shall be made available for metropolitan planning activities under section 8(f);

"(2) 5 percent of such funds shall be made available to carry out section 18(h);

"(3) 20 percent of such funds shall be made available to carry out the State program under section 26(a); and

"(4) 30 percent of such funds shall be made available to carry out the national program under section 26(b).

"(d) OTHER SET-ASIDES.—Before apportionment in each fiscal year of the funds made available or appropriated under subsection (a), of the funds made available or appropriated under subsections (a) and (b)—

"(1) not to exceed an amount equivalent to .96 percent shall be available for administrative expenses to carry out section 12(a) of this Act and shall be available until expended;

"(2) not to exceed an amount equivalent to 1.34 percent shall be available for transportation services to elderly persons and persons with disabilities pursuant to the formula under section 16(b) of this Act and shall be available until expended; and

"(3) $7,000,000 shall be available for the purposes of section 11(b) relating to university transportation centers for each of fiscal years 1993 through 1996.

"(e) COMPLETION OF INTERSTATE TRANSFER TRANSIT PROJECTS.—Of the amounts remaining available each year under subsections (a) and (b), after allocation pursuant to subsections (c) and (d), for substitute transit projects under section 103(e)(4) of title 23, United States Code, there shall be available $160,000,000 for fiscal year 1992 and $164,843,000 for fiscal year 1993.

"(f) SET-ASIDE FOR RURAL TRANSPORTATION.—An amount equivalent to 5.5 percent of the amounts remaining available each year under subsection (a), after allocation pursuant to subsections (c), (d), and (e), shall be available pursuant to the formula under section 18. Such sums shall remain available until expended.

"(g) SECTION 9 FUNDING.—The funds remaining available each year under subsection (a), after allocation pursuant to subsections (c), (d), (e) and (f), shall be available under section 9.".

SEC. 3026. REPORT ON SAFETY CONDITIONS IN MASS TRANSIT.

Section 22 is amended—

(1) by inserting "(a) IN GENERAL.—" after "SEC. 22."; and

(2) by adding at the end a new subsection as follows:

"(b) REPORT.—Not later than 180 days after the date of the enactment of this subsection, the Secretary shall transmit to Congress a report containing—

"(1) actions taken to identify and investigate conditions in any facility, equipment, or manner of operation as part of the findings and determinations required of the Secretary in providing grants and loans under this Act;

"(2) actions taken by the Secretary to correct or eliminate any conditions found to create a serious hazard of death or injury as a condition for making funds available through grants and loans under this Act;

"(3) a summary of all passenger-related deaths and injuries resulting from unsafe conditions in any facility, equipment, or manner of operation of such facilities and equipment financed in whole or in part under this Act;

"(4) a summary of all employee-related deaths and injuries resulting from unsafe conditions in any facility, equipment, or manner of operation of such facilities and equipment financed in whole or in part under this Act;

"(5) a summary of all actions taken by the Secretary to correct or eliminate the unsafe conditions to which such deaths and injuries were attributed;

"(6) a summary of those actions taken by the Secretary to alert transit operators of the nature of the unsafe conditions which were found to create a serious hazard of death or injury; and

"(7) recommendations to the Congress by the Secretary of any legislative or administrative actions necessary to ensure that all recipients of funds under this Act will institute the best means available to correct or eliminate hazards of death or injury, including—

"(A) a timetable for instituting actions,

"(B) an estimate of the capital and operating cost to take such actions, and

"(C) minimum standards for establishing and implementing safety plans by recipients of funds under this Act.".

SEC. 3027. PROJECT MANAGEMENT OVERSIGHT.

Section 23(a) is amended—

(1) by striking paragraphs (1) through (5);

(2) by striking "½ of 1 percent of—" and inserting the following:

"½ of 1 percent of the funds made available for any fiscal year to carry out sections 3, 9, or 18 of this Act, or interstate transfer transit projects under section 103(e)(4) of title 23, United States Code, as in effect on September 30, 1991, or a project under the National Capital Transportation Act of 1969 to contract with any person to oversee the construction of any major project under any such section. In addition to such amounts, the Secretary may as necessary use not more than ¼ of 1 percent of the funds made available in any fiscal year to carry out a major project under section 3 to contract with any person to oversee the construction of such major project.".

SEC. 3028. NEEDS SURVEY.

The Act is amended by inserting after section 26 the following new section:

"SEC. 27. NEEDS SURVEY AND TRANSFERABILITY STUDY.

"(a) NEEDS SURVEY.—In January 1993 and in January of every second year thereafter, the Comptroller General shall transmit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report containing an evaluation of the extent to which current transit needs are adequately addressed and an estimate of the future transit needs of the Nation, including transit needs in rural areas (particularly access to health care facilities). Such report shall include the following:

"(1) An assessment of needs related to rail modernization, guideway modernization, replacement, rehabilitation, and purchase of buses and related equipment, construction of bus related facilities, and construction of new fixed guideway systems and extensions to fixed guideway systems.

"(2) A 5-year projection of the maintenance and modernization needs that will result from aging of existing equipment and facilities, including the need to overhaul or replace existing bus fleets and rolling stock used on fixed guideway systems.

"(3) A 5-year projection of the need to invest in the expansion of existing transit systems to meet changing economic, commuter, and residential patterns.

"(4) An estimate of the level of expenditure needed to satisfy the needs identified above.

"(5) An examination of existing Federal, State, and local resources as well as private resources that are or can reasonably be expected to be made available to support public transit.

"(6) The gap between the level of expenditure estimated under paragraph (4) and the level of resources available to meet such needs identified under paragraph (5).

"(b) TRANSFERABILITY STUDY.—

"(1) IN GENERAL.—In January 1993 and in January of every second year thereafter, the Comptroller General shall transmit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report on implementation of the transferability provisions of section 9(j)(3) of this Act.

"(2) CONTENTS.—The report shall identify, by State, the amount of transit funds transferred for nontransit purposes under such sections during the previous fiscal year and shall include an assessment of the impact of such transfers on the transit needs of individuals and communities within the State. Specifically, the report shall assess the impact of such transfers (A) on the State's ability to meet the transit needs of elderly individuals and individuals with disabilities, (B) on efforts to meet the objectives of the Americans With Disabilities Act of 1990 and the Clean Air Act, and (C) on the State's efforts to extend public transit services to unserved rural areas. The report shall also include an examination of the relative levels of Federal transit assistance and services in urban and rural areas in fiscal year 1991 and the extent to which such assistance and service has increased or decreased in subsequent fiscal years as a result of transit resources made available under this Act and the Intermodal Surface Transportation Efficiency Act of 1991.".

SEC. 3029. STATE RESPONSIBILITY FOR FIXED GUIDEWAY SYSTEM SAFETY.

The Act is amended by inserting after section 27 the following new section:

"SEC. 28. STATE RESPONSIBILITY FOR FIXED GUIDEWAY SYSTEM SAFETY.

"(a) WITHHOLDING OF FUNDS FOR NONCOMPLIANCE.—The Secretary may withhold up to 5 percent of the amount required to be apportioned for use in any State or urbanized area in such State under section 9 for any fiscal year beginning after September 30, 1994, if the State in the previous fiscal year has not met the requirements of subsection (b) and the Secretary determines that the State is not making adequate efforts to comply with such subsection.

"(b) STATE REQUIREMENTS.—A State meets the requirements of this section if—

"(1) the State establishes and is implementing a safety program plan for each fixed guideway transit system in the State which establishes, at a minimum, safety requirements, lines of authority, levels of responsibility and accountability, and methods of documentation for such system;

"(2) the State designates an agency of the State with responsibility to—

"(A) require, review and approve, and monitor implementation of such plans; and

"(B) investigate hazardous conditions and accidents on such systems and require corrective actions to correct or eliminate such conditions; and

"(3) in any case in which more than 1 State would be subject to this section in connection with a single transit agency, the affected States may designate an entity other than the transit agency to ensure uniform safety standards and enforcement and to meet the requirements of this subsection.

"(c) PERIOD OF AVAILABILITY; EFFECT OF COMPLIANCE AND NONCOMPLIANCE.—

"(1) PERIOD OF AVAILABILITY OF WITHHELD FUNDS.—Any funds withheld under subsection (a) from apportionment for use in any State in a fiscal year, shall remain available for apportionment for use in such State until the end of the second fiscal year following the fiscal year for which such funds are authorized to be appropriated.

"(2) APPORTIONMENT OF WITHHELD FUNDS AFTER COMPLIANCE.—If, before the last day of the period for which funds withheld under subsection (a) from apportionment are to remain available for apportionment for use in a State under paragraph (1), the State meets the requirements of subsection (b), the Secretary shall, on the first day on which the State meets the requirements of subsection (b), apportion to the State the funds withheld under subsection (a) that remain available for apportionment for use in the State.

"(3) PERIOD OF AVAILABILITY OF SUBSEQUENTLY APPORTIONED FUNDS.—Any funds apportioned pursuant to paragraph (2) shall remain available for expenditure until the end of the third fiscal year succeeding the fiscal year in which such funds are apportioned pursuant to paragraph (2). Sums not obligated at the end of such period shall be apportioned for use in other States under section 9 of this Act.

"(4) EFFECT OF NONCOMPLIANCE.—If, at the end of the period for which funds withheld under subsection (a) from apportionment are available for apportionment for use in a State under paragraph (1), the State does not meet the requirements of subsection (b), such funds shall be apportioned for use in other States under section 9 of this Act.

"(d) LIMITATION ON APPLICABILITY.—This section only applies to States that have rail fixed guideway mass transportation systems which are not subject to regulation by the Federal Railroad Administration.

"(e) REGULATIONS.—Not later than 1 year after the date of the enactment of this section, the Secretary shall issue regulations which set forth the requirements for complying with subsection (b).".

SEC. 3030. PLANNING AND RESEARCH.

The Act is amended by inserting after section 25 the following:

"SEC. 26. PLANNING AND RESEARCH PROGRAM.

"(a) STATE PROGRAM.—The funds made available under section 21(c)(3) shall be available for State programs as follows:

"(1) TRANSIT COOPERATIVE RESEARCH PROGRAM.—50 percent of that amount shall be available for the transit cooperative research program to be administered as follows:

"(A) INDEPENDENT GOVERNING BOARD.—The Secretary shall establish an independent governing board for such program to recommend mass transportation research, development, and technology transfer activities as the Secretary deems appropriate.

"(B) NATIONAL ACADEMY OF SCIENCES.—The Secretary may make grants to, and enter into cooperative agreements with, the National Academy of Sciences to carry out such activities as the Secretary determines are appropriate.

"(2) STATE PLANNING AND RESEARCH.—The remaining 50 percent of that amount shall be apportioned to the States for grants and contracts consistent with the purposes of sections 6, 8, 10, 11, and 20 of this Act.

"(A) APPORTIONMENT FORMULA.—Amounts shall be apportioned to the States in the ratio which the population in urbanized areas in each State bears to the total population in urbanized areas, in all the States as shown by the latest available decennial census, except that no State shall receive less than ½ of 1 percent of the amount apportioned under this section.

"(B) ALLOCATION WITHIN A STATE.—A State may authorize a portion of its funds made available under this subsection to be used to supplement funds available under subsection (a)(1), as the State deems appropriate.

"(b) NATIONAL PROGRAM.—

"(1) IN GENERAL.—The funds made available under section 21(c)(4), shall be available to the Secretary for grants or contracts for the purposes of section 6, 8, 10, 11, or 20 of this Act, as the Secretary deems appropriate.

"(2) COMPLIANCE WITH ADA.—Of the amounts available under paragraph (1), the Secretary shall make available not less than $2,000,000 to provide transit-related technical assistance, demonstration programs, research, public education, and other activities that the Secretary deems appropriate to help transit providers achieve compliance with the Americans with Disabilities Act of 1990. To the extent practicable, the Secretary shall carry out this subsection through contract with a national nonprofit organization serving persons with disabilities with demonstrated capacity to carry out these activities.

"(3) SPECIAL INITIATIVES.—Of the amounts available under paragraph (1), an amount not to exceed 25 percent shall be available to the Secretary for special demonstration initiatives subject to such terms, conditions, requirements, and provisions as the Secretary deems consistent with the requirements of this Act, except that the provisions of section 3(e)(4) shall apply to operational grants funded for purposes of section 6. For nonrenewable grants that do not exceed $100,000, the Secretary shall provide expedited procedures governing compliance with requirements of this Act.

"(4) TECHNOLOGY DEVELOPMENT.—

"(A) PROGRAM.—The Secretary is authorized to undertake a program of transit technology development in coordination with affected entities.

"(B) INDUSTRY TECHNICAL PANEL.—The Secretary shall establish an Industry Technical Panel consisting of representatives of transportation suppliers and operators and others involved in technology development. A majority of the Panel members shall represent the supply industry. The Panel shall assist the Secretary in the identification of priority technology development areas and in establishing guidelines for project development, project cost sharing, and project execution.

"(C) GUIDELINES.—The Secretary shall develop guidelines for cost sharing in technology development projects funded under this section. Such guidelines shall be flexible in nature and reflect the extent of technical risk, market risk, and anticipated supplier benefits and pay back periods.

"(5) ADVANCED FARE COLLECTION TECHNOLOGY PILOT PROJECT.—From amounts authorized under section 21(c)(4), the Secretary shall make available $1,000,000 in fiscal year 1992 for the purpose of conducting a pilot project to evaluate, develop, and test advanced fare technology systems. Such project shall be carried out by the Washington Metropolitan Transit Authority.

"(6) INERTIAL NAVIGATION TECHNOLOGY TRANSFER.—

"(A) PROJECT.—There is authorized to be appropriated from amounts made available under section 21(c), $1,000,000 for fiscal year 1992 to support an inertial navigation system demonstration project for the purpose of determining the safety, economic, and environmental benefits of deploying inertial navigation tracking and control systems in urban and rural environments.

"(B) PUBLIC-PRIVATE SECTOR PARTICIPANTS.—The project described in subparagraph (A) shall be conducted by the Transit Safety Research Alliance, a nonprofit public-private sector consortium based in Pittsburgh, Pennsylvania.

"(7) SUPPLEMENTARY FUNDS.—The Secretary may use funds appropriated under this subsection to supplement funds available under subsection (a)(1), as the Secretary deems appropriate.

"(8) FEDERAL SHARE.—Where there would be a clear and direct financial benefit to an entity under a grant or contract funded under this subsection or subsection (a)(1), the Secretary shall establish a Federal share consistent with that benefit.

"(c) SUSPENDED LIGHT RAIL SYSTEM TECHNOLOGY PILOT PROJECT.—

VOL
137
PT
24
NO
26
1991
—
JA
3
1992
UMI

"(1) FULL FUNDING GRANT AGREEMENT.—Not later than 60 days after the fulfillment of the requirements under paragraph (5), the Secretary shall negotiate and enter into a full funding grant agreement under section 3 with a public entity selected under paragraph (4) for construction of a suspended light rail system technology pilot project.

"(2) PROJECT PURPOSE.—The purpose of the project under this subsection shall be to assess the state of new technology for a suspended light rail system and to determine the feasibility and costs and benefits of using such a system for transporting passengers.

"(3) PROJECT DESCRIPTION.—The project under this subsection shall—

"(A) utilize new rail technology with individual vehicles on a prefabricated, elevated steel guideway;

"(B) be stability seeking with a center of gravity for the detachable passenger vehicles located below the point of wheel-rail contact; and

"(C) utilize vehicles which are driven by overhead bogies with high efficiency, low maintenance electric motors for each wheel, operating in a slightly sloped plane from vertical for both the wheels and the running rails, to further increase stability, acceleration, and braking performance.

"(4) COMPETITION.—

"(A) IN GENERAL.—Notwithstanding any other provision of law, the Secretary shall conduct a national competition to select a public entity with which to enter into a full funding grant agreement under paragraph (1) for construction of the project under this subsection.

"(B) PUBLICATION OF NOTICE.—Not later than 30 days after the date of the enactment of this Act, the Secretary shall publish in the Federal Register notice of the competition to be conducted under this paragraph, together with procedures for public entities to participate in the competition.

"(C) SELECTION OF FINALISTS.—Not later than 120 days after the date of the enactment of this Act, the Secretary shall select 3 public entities to be finalists in the competition under this paragraph.

"(D) AWARD OF GRANTS.—The Secretary shall award grants to each of the finalists selected under subparagraph (C). Such grants shall be used by the finalists to participate in the final phase of the competition under this paragraph in accordance with procedures to be established by the Secretary. The amount of such grants shall not exceed 80 percent of the costs of such participation. No finalists may receive more than ⅓ of the amount made available under paragraph (9)(C).

"(E) SELECTION OF WINNER.—Not later than 210 days after the date of the enactment of this Act, the Secretary shall select from among the finalists selected under subparagraph (C) the public entity with which to enter into a full funding grant agreement under paragraph (1).

"(F) CONSIDERATIONS.—In conducting the competition and selecting public entities under this paragraph, the Secretary shall consider the following:

"(i) The public entity's demonstrated understanding and knowledge of the project under this section.

"(ii) The public entity's technical, managerial, and financial capacity to undertake construction, management, and operation of the project.

"(iii) Maximization of potential contributions to the cost of the project by State, local, and private sector entities, including the donation of in-kind services and materials.

"(5) EXPEDITED PROCEDURES.—Not later than 270 days after the date of selection of a public entity under paragraph (4), the Secretary shall approve and publish in the Federal Register a notice announcing either (A) a finding of no significant impact, or (B) a draft environmental impact statement for the project under this subsection. The alternative analysis for the project shall include a determination as to whether or not to actually construct such project. If a draft environmental impact statement is published, the Secretary shall, not later than 180 days after the date of such publication, approve and publish in the Federal Register a notice of completion of a final environmental impact statement. The project shall not be subject to the major capital investment policy of the Federal Transit Administration.

"(6) NOTICE TO PROCEED WITH CONSTRUCTION.—Not later than 30 days following the execution of the full funding grant agreement under paragraph (1), the Secretary shall issue a notice to proceed with construction.

"(7) OPTION NOT TO CONSTRUCT.—Not later than the 30th day following the completion of preliminary engineering and design for the project, the public entity selected under paragraph (1) will make a determination on whether or not to proceed to actual construction of the project. If such public entity makes a determination not to proceed to such actual construction—

"(A) the Secretary shall not enter into the grant agreement under paragraph (1);

"(B) any remaining sums received shall be returned to the Secretary and credited to the Mass Transit Account of the Highway Trust Fund; and

"(C) the Secretary shall use the amount so credited and all other amounts to be provided under this section to award to entities selected under paragraph (4)(E) grants under section 3 for construction of the project described in paragraph (1).

Any grants under subparagraph (C) shall be awarded after completion of a competitive process for selection of a grant recipient. Such process shall be completed not later than the 60th day following the date of the determination under this subsection.

"(8) OPERATING COST DEFICITS.—The full funding grant agreement under paragraph (1) shall provide that—

"(A) the system vendor for the project under this section shall fund 100 percent of any deficit incurred in operating the project in the first two years of revenue operations of the project; and

"(B) the system vendor for the project under this section shall fund 50 percent of any deficit incurred in operating the project in the third year of revenue operations of the project.

"(9) FUNDING.—

"(A) PRECONSTRUCTION.—If the systems planning, alternatives analysis, preliminary engineering, and design and environmental impact statement are required by law for the project under this subsection, the Secretary shall pay by grant the Federal share of such costs (as determined under section 3) from amounts provided under such section as follows: not less than $4,000,000 for fiscal year 1993. Such funds shall remain available until expended.

"(B) CONSTRUCTION.—The grant agreement under paragraph (1) shall provide that the Federal share of the construction costs of the project under this section shall be paid by the Secretary from amounts provided under section 3 as follows: not less than $30,000,000 for fiscal year 1994. Such funds shall remain available until expended.

"(C) GRANTS.—Grants under paragraph (4) shall be paid by the Secretary from amounts provided under section 3 as follows: not less than $1,000,000 for fiscal year 1992. Any amounts not expended for such grants shall be available for the Federal share of costs described in subparagraphs (A) and (B).

"(D) OPERATION.—Notwithstanding any other provision of law, the grant agreement under paragraph (1) shall provide with respect to the third year of revenue operations of the project under this subsection that the Federal share of operating costs of the project shall be paid by the Secretary from amounts provided under this section in a sum equal to 50 percent of any deficit incurred in operating the project in such year of revenue operations or $300,000, whichever is less.

"(10) FEDERAL SHARE.—The Federal share of the cost of construction of the project under this subsection shall be 80 percent of the net cost of the project.

"(11) REPORT.—Not later than January 30, 1993, and annually thereafter, the Secretary shall transmit to Congress a report on the progress and results of the project under this subsection.".

SEC. 3031. NEW JERSEY URBAN CORE PROJECT.

(a) CONTRACTUAL COMMITMENTS.—

(1) FULL FUNDING GRANT AGREEMENT.—Not later than 90 days after the date of the enactment of this Act, the Secretary shall negotiate and enter into a full funding grant agreement under section 3 of the Federal Transit Act for those elements of the New Jersey Urban Core Project which can be fully funded in fiscal years 1992 through 1997. Such grant agreement shall not preclude the allocation of Federal funds for those elements of the project not covered under such grant agreement.

(2) PAYMENT.—The grant agreement under paragraph (1) shall provide that the Federal share of the cost of the New Jersey Urban Core Project shall be paid by the Secretary from amounts provided under section 3 of the Federal Transit Act as follows:

(A) Not less than $95,900,000 for fiscal year 1992.

(B) Not less than $71,700,000 for fiscal year 1993.

(C) Not less than $64,800,000 for fiscal year 1994.

(D) Not less than $146,000,000 for fiscal year 1995.

(E) Not less than a total of $256,000,000 for fiscal years 1996 and 1997.

Nothing in this section shall be construed as precluding other Federal funds from being committed to the project.

(b) NON-FEDERAL SHARE.—Notwithstanding any other provision of law, for the purpose of calculating non-Federal contributions to the net cost of the New Jersey Urban Core Project, the Secretary shall include all non-Federal contributions made on or after January 1, 1987, for construction of any element of the project. Non-Federal funds committed to one element of the project may be used to meet the non-Federal share requirement for any other element of the project.

(c) EXEMPTION FROM CERTAIN REQUIREMENTS.—The requirements contained in section 3(i) of the Federal Transit Act (relating to criteria for new starts) shall not apply with respect to the New Jersey Urban Core Project; except that an alternative analysis and draft environmental impact statement shall be completed with respect to the Hudson River Waterfront element of the project and the Secretary shall approve the recommended locally preferred alternative for such element. No element of the project shall be subject to the major capital investment policy of the Federal Transit Administration.

(d) ELEMENTS OF URBAN CORE PROJECT.—For the purposes of this section, the New Jersey Urban Core Project consists of the following elements: Secaucus Transfer, Kearny Connection, Waterfront Connection, Northeast Corridor Signal System, Hudson River Waterfront Transportation System, Newark-Newark International Airport-Elizabeth Transit Link, a rail connection between Penn Station Newark and Broad Street Station, Newark, New York Penn Station Concourse, and the equipment needed to operate revenue service associated with improvements made by the project. The project includes elements advanced with 100 percent non-Federal funds.

SEC. 3032. MULTIYEAR FUNDING FOR SAN FRANCISCO BAY AREA RAIL EXTENSION PROGRAM.

(a) DRAFT ENVIRONMENTAL IMPACT STATEMENT.—

(1) COMPLETION DEADLINE.—Not later than 60 days after the date of the enactment of this Act and in accordance with the National Environmental Policy Act of 1969, the Secretary shall complete a draft environmental impact statement for an extension of the San Francisco Bay Area Rapid Transit District (hereinafter in this section referred to as "BART") to the San Francisco International Airport.

(2) NOTICE OF AVAILABILITY AND REPORTING.—The Secretary shall publish a notice of availability of the draft environmental impact statement for public review. If the Secretary has not published such notice on or before the 60th day following the date of the enactment of this Act, the Secretary shall report to Congress on the status of the completion of such draft environmental impact statement. The Secretary shall continue to report to such committees every 30 days on the status of the completion of the draft environmental impact statement, including any proposed revisions to the statement or to the work plan, until a notice of availability of such document is published in the Federal Register.

(b) PRELIMINARY ENGINEERING GRANT.—

(1) TO BART.—Not later than 30 days after the date of submittal of a locally preferred alternatives report and notwithstanding any other provision of law, the Secretary shall make a grant to BART to conduct preliminary engineering and to complete an environmental impact statement on the locally preferred alternative for the extension of BART to the San Francisco International Airport. The amount of such grant shall be 75 percent of preliminary engineering costs, unless the matching percentage is increased by a modification to Metropolitan Transportation Commission Resolution No. 1876 in a manner that would allow such Federal share to be increased to 80 percent.

(2) TO SANTA CLARA COUNTY.—Not later than 30 days after the date of the enactment of this Act and notwithstanding any other provision of the law, the Secretary shall make a grant to the Santa Clara County Transit District (hereinafter in this section referred to as "SCCTD") to conduct preliminary engineering and to complete an environmental impact statement in accordance with the National Environmental Policy Act of 1969 on the locally preferred alternative for the Tasman Corridor Project. The amount of such grant shall be $12,750,000; except that the Federal share for all project costs may not exceed 50 percent, unless the matching percentage is increased by a modification to Metropolitan Transportation Commission Resolution No. 1876 in a manner that would allow such Federal share to be increased to 80 percent. Local funds expended on the Tasman Corridor Project after the locally preferred alternative was approved by the Metropolitan Transportation Commission on July 31, 1991, shall be considered eligible project costs under the Federal Transit Act.

(c) CONTRACTUAL COMMITMENTS.—

(1) APPROVAL OF CONSTRUCTION.—Notwithstanding any other provision of law, the Secretary shall approve the construction of the locally preferred alternative for the BART San Francisco International Airport Extension (Phase 1a to Colma and Phase 1b to San Francisco Airport) and the Tasman Corridor Project according to the following schedule; provided that the Secretary does not grant approval under subparagraphs (A), (B), and (C) before the 30th day after completion of the environmental impact statement:

(A) Not later than 90 days after the date of the enactment of this Act, the Secretary shall approve such construction for BART Phase 1a to Colma.

(B) Not later than 90 days after the date of the completion of preliminary engineering, the Secretary shall approve such construction for BART Phase 1b to San Francisco International Airport.

(C) Not later than 90 days after the date of the completion by SCCTD of preliminary engineering, the Secretary shall approve such construction for the Tasman Corridor Project.

(2) EXECUTION OF CONTRACT.—Upon approving construction under paragraph (1), the Secretary shall execute a multiyear grant agreement with BART to permit the expenditure of funds for the construction of the BART San Francisco International Airport Extension (Phase 1a and Phase 1b) and with SCCTD for the construction of the Tasman Corridor Project.

(d) FEDERAL SHARE.—

(1) BART EXTENSION.—The grant agreement under subsection (c)(2) shall provide that the Federal share of the project cost for the locally preferred alternative for the BART San Francisco International Airport Extension (Phase 1a and Phase 1b) shall be 75 percent, unless the matching percentage is increased by a modification to Metropolitan Transportation Commission Resolution No. 1876 in a manner that would allow such Federal share to be increased to 80 percent.

(2) TASMAN CORRIDOR PROJECT.—The grant agreement under subsection (c)(2) shall provide that the Federal share of the project cost for the locally preferred alternative for the Tasman Corridor Project, including costs for preliminary engineering, shall be 50 percent, unless that matching percentage is increased by a modification to Metropolitan Transportation Commission Resolution No. 1876 in a manner that would allow such Federal share to be increased to 80 percent.

(e) PAYMENT.—The grant agreement under subsection (c)(2) shall provide that the Federal share of the cost of the projects shall be paid by the Secretary from amounts provided under section 3 of the Federal Transit Act for construction of new fixed guideway systems and extensions to fixed guideway systems, as follows:

(1) Not less than $28,500,000 for fiscal year 1990.

(2) Not less than $40,000,000 for fiscal year 1991.

(3) Not less than $100,000,000 for each of fiscal years 1992 through 1995.

(4) Not less than $100,000,000 for fiscal years 1996 and 1997.

Apportionment of payments between BART and SCCTD shall be consistent with the Metropolitan Transportation Commission Resolution No. 1876.

(f) ADVANCE CONSTRUCTION.—The grant agreements under subsection (c)(2) shall provide that the Secretary shall reimburse BART and SCCTD from any amounts provided under section 3 of the Federal Transit Act for fiscal years 1992 through 1997 for the Federal share of the net project costs incurred by BART and SCCTD under subsections (c)(1) and (c)(2), including the amount of any interest earned and payable on bonds as provided in section 3(l)(2) of the Federal Transit Act, as follows:

(1) Not later than September 30, 1994, the Secretary shall reimburse BART and SCCTD a total of $368,500,000 (plus such interest), less amounts provided under subsection (e) for fiscal years 1992 through 1994.

(2) Not later than September 30, 1997, the Secretary shall reimburse BART and SCCTD a total of $568,500,000 (plus such interest), less amounts provided under subsection (e) for fiscal years 1992 through 1997.

(g) FULL FUNDING GRANT AGREEMENTS.—

(1) SCHEDULE.—Notwithstanding any other provision of law, the Secretary shall negotiate and execute full funding grant agreements that are consistent with Metropolitan Transportation Commission Resolution No. 1876 with BART for Phase 1a to Colma and Phase 1b to the San Francisco International Airport, and with SCCTD for the Tasman Corridor Project according to the following schedule:

(A) Not later than 90 days after the date of completion by SCCTD of preliminary engineering, the Secretary shall execute such agreement for the Tasman Corridor Project.

(B) Upon completion by BART of 85 percent of final design, the Secretary shall execute such agreement for Phase 1a to Colma.

(C) Upon completion by BART of 85 percent of final design, the Secretary shall execute such agreement for Phase 1b to the San Francisco International Airport.

(2) ADDITIONAL AMOUNTS.—In addition to the $568,500,000 provided under this section, the Secretary shall, subject to annual appropriations, issue full funding grant agreements to complete the projects utilizing the full amount of the unobligated balance in the Mass Transit Account of the Highway Trust Fund.

(h) ALTERNATIVES ANALYSIS.—The Secretary shall permit the Santa Clara County Transit District, in cooperation with the Metropolitan Transportation Commission, to conduct an Alternatives Analysis to examine transit alternatives including a possible BART extension from southern Alameda County through downtown San Jose to Santa Clara, California.

SEC. 3033. QUEENS LOCAL/EXPRESS CONNECTION.

(a) FULL FUNDING GRANT AGREEMENT.—Not later than 90 days after the date of the enactment of this Act, the Secretary shall negotiate and enter into a full funding grant agreement under section 3 of the Federal Transit Act for those elements of the Queens Local/Express Connection which can be fully funded in fiscal years 1992 through 1997. Such grant agreement shall not preclude the allocation of Federal funds for those elements of the project not covered under such grant agreement.

(b) PAYMENT.—The grant agreement under subsection (a) shall provide that the Federal share of the cost of the Queens Local/Express Connection shall be paid by the Secretary from amounts provided under section 3(k)(1)(B) of the Federal Transit Act as follows:

(1) Not less than $11,000,000 for fiscal year 1992.

(2) Not less than $18,700,000 for fiscal year 1993.

(3) Not less than $77,800,000 for fiscal year 1994.

(4) Not less than $76,800,000 for fiscal year 1995.

(5) Not less than $121,800,000 for fiscal year 1996.

Nothing in this section shall be construed as precluding other Federal funds from being committed to the project.

SEC. 3034. MULTIYEAR CONTRACT FOR METRO RAIL PROJECT.

(a) SUPPLEMENTAL EIS.—Not later than April 1, 1992, and in accordance with the National Environmental Policy Act of 1969, the Secretary shall complete preparation of a final supplemental environmental impact statement for Minimum Operable Segment-3 (other than the East Side Extension) and publish a notice of the completion of such statement in the Federal Register. Such statement shall reflect any alignment changes in the Los Angeles Metro Rail Project and any determination of an amended locally

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

preferred alternative for the project. In preparing such statement, the Secretary shall rely, to the maximum extent feasible, upon existing environmental studies and analyses conducted with respect to the project, including the Draft Supplemental Environmental Impact Statement (dated November 1987) and the Final Supplemental Environmental Impact Statement (dated July 1989).

(b) AMENDMENT TO CONTRACT TO INCLUDE CONSTRUCTION OF MOS–3.—

(1) NEGOTIATION.—Not later than April 1, 1992, the Secretary shall begin negotiations with the Commission on an amendment to the full funding contract under section 3 of the Federal Transit Act (dated April 1990) for construction of Minimum Operable Segment–2 of the Los Angeles Metro Rail Project in order to include construction of Minimum Operable Segment–3 (including the commitment described in paragraph (4) to provide Federal funding for the East Side Extension) in such contract.

(2) EXECUTION.—Not later than October 15, 1992, the Secretary shall—

(A) complete negotiations and execute the amended contract under paragraph (1); and

(B) issue a record of decision approving the construction of Minimum Operable Segment–3 (other than the East Side Extension).

(3) PAYMENT OF FEDERAL SHARE.—

(A) FEDERAL SHARE.—The amended contract under paragraph (1) shall provide that the Federal share of the cost of construction of Minimum Operable Segment–3 for fiscal years 1993 through 1997 shall be $695,000,000.

(B) PAYMENT.—The amended contract under paragraph (1) shall provide that the Federal share of the cost of construction of Minimum Operable Segment–3 shall be paid by the Secretary from amounts available under section 3 of the Federal Transit Act in accordance with a schedule for annual payments set forth in such contract.

(4) EAST SIDE EXTENSION.—The amended contract under paragraph (1) shall include a commitment to provide Federal funding for the East Side Extension, subject to completion of alternatives analysis and satisfaction of Federal environmental requirements.

(5) ADVANCE CONSTRUCTION.—

(A) IN GENERAL.—The amended contract under paragraph (1) shall provide that the Commission may construct any portion of Minimum Operable Segment–3 in accordance with section 3(l) of the Federal Transit Act.

(B) AMOUNT.—The Commission may use advance construction authority in an amount not to exceed the sum of $535,000,000 plus the difference (if any) between the Federal share specified in paragraph (3) for fiscal years 1993 through 1997 and the amount of Federal funds actually provided in those fiscal years.

(C) CONVERSION TO GRANTS.—In the event the Commission uses advance construction authority under this paragraph, the Secretary shall convert that authority into a grant and shall reimburse the Commission, from funds available under section 3 of the Federal Transit Act, for the Federal share of the amounts expended. Such conversion and reimbursement shall be made by the Secretary in fiscal years 1998, 1999, and 2000 and shall be equal to the Federal share of the amounts expended by the Commission pursuant to this paragraph (plus any eligible bond interest under section 3(l)(2) of the Federal Transit Act).

(c) FURTHER AMENDMENT TO CONTRACT.—Not later than October 15, 1996, the Secretary shall negotiate and enter into a further amendment to the contract described in subsection (b)(1) in order to provide Federal funding for Minimum Operable Segment–3 for fiscal years 1998 through 2000. The amended contract shall include provisions for the use and reimbursement of advance construction in the manner set forth in subsection (b)(5).

(d) CONTINUING PRELIMINARY ENGINEERING.—Before the date on which an amended contract is executed under subsection (b), the Secretary shall, upon receipt of an application from the Commission, make a grant to the Commission from amounts available under section 3 of the Federal Transit Act for continuing preliminary engineering and environmental analysis work for Minimum Operable Segment–3.

(e) ADDITION OF EAST SIDE EXTENSION.—

(1) ALTERNATIVES ANALYSIS AND ENVIRONMENTAL REVIEW.—The Secretary shall cooperate with the Commission in alternatives analysis and environmental review, including preparation of a draft environmental impact statement, for the East Side Extension. Upon receipt of an application from the Commission, the Secretary shall make a grant to the Commission, from amounts available under section 3 of the Federal Transit Act, for preliminary engineering, design, and related expenses for the East Side Extension, in an amount equal to 50 percent of the cost of such activities. Such funds shall be provided from the amounts made available by the Secretary under subsection (b)(3).

(2) SUPPLEMENTAL EIS.—Not later than December 1, 1993, and in accordance with the National Environmental Policy Act of 1969, the Secretary shall complete preparation of a final supplemental environmental impact statement for the East Side Extension and shall publish a notice of completion of such statement in the Federal Register.

(3) AMENDMENT TO CONTRACT TO INCLUDE EAST SIDE EXTENSION.—

(A) NEGOTIATION.—Immediately upon the completion of alternatives analysis and preliminary engineering for the East Side Extension, the Secretary shall begin negotiations with the Commission on a further amendment to the contract referred to in subsection (b)(1) in order to include construction of the East Side Extension.

(B) EXECUTION.—Not later than June 1, 1994, the Secretary shall—

(i) complete negotiations and execute the amended contract under subparagraph (A); and

(ii) issue a record of decision approving the construction of the East Side Extension.

(C) CONTENTS.—The amended contract under subparagraph (A) shall be consistent with the commitment made under subsection (b)(4) and shall include appropriate changes to the existing scope of work to include the East Side.

(f) APPLICABILITY OF FEDERAL REQUIREMENTS.—The amended contracts under this section shall provide that any activity under Minimum Operable Segment–3 that is financed entirely with non-Federal funds shall not be subject to any Federal statute, regulation, or program guidance, unless the Federal statute or regulation in question, by its terms, otherwise applies to and covers such activity.

(g) CRITERIA FOR NEW STARTS.—Minimum Operable Segment–3 shall be deemed to be a project described in and covered by section 303(b) of the Surface Transportation and Uniform Relocation Assistance Act of 1987.

(h) NOTIFICATION OF NONCOMPLIANCE.—If the Secretary is unable to comply with a deadline established by this section, the Secretary shall report to Congress on the reasons for the noncompliance and shall provide such Committees a firm schedule for taking the action required.

(i) DEFINITIONS.—For the purposes of this section, the following definitions apply:

(1) COMMISSION.—The term "Commission" means the Los Angeles County Transportation Commission (or any successor thereto).

(2) EAST SIDE EXTENSION.—The term "East Side Extension" means that portion of Minimum Operable Segment–3 described in paragraph (3)(C).

(3) MINIMUM OPERABLE SEGMENT–3.—The term "Minimum Operable Segment–3" means that portion of the Los Angeles Metro Rail Project which consists of 7 stations and approximately 11.6 miles of heavy rail subway on the following lines:

(A) One line running west and northwest from the Hollywood/Vine station to the North Hollywood station, with 2 intermediate stations.

(B) One line running west from the Wilshire/Western station to the Pico/San Vicente station, with one intermediate station.

(C) One line consisting of an initial line of approximately 3 miles in length, with at least 2 stations, beginning at Union Station and running generally east.

SEC. 3035. MISCELLANEOUS MULTIYEAR CONTRACTS.

(a) HAWTHORNE, NEW JERSEY-WARWICK, NEW YORK, SERVICE.—No later than 120 days after the date of the enactment of this Act, the Secretary shall negotiate and sign a multiyear grant agreement with the New Jersey Transit Corporation which includes not less than $35,710,000 in fiscal year 1992 and not less than $11,156,000 in fiscal year 1993 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of a project to provide commuter rail service from Hawthorne, New Jersey, to Warwick, New York (including a connection with the New Jersey Transit Main Line in Hawthorne, New Jersey, and improvements to the New Jersey Transit Main Line station in Paterson, New Jersey). Such agreement shall provide that amounts provided under the agreement may be used for purchasing equipment and for rehabilitating and constructing stations, parking facilities, and other facilities necessary for the restoration of such commuter rail service.

(b) WESTSIDE LIGHT RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Tri-County Metropolitan Transportation District of Oregon which includes $515,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act at the Federal share contained in House Report 101–584 to carry out the construction of the locally preferred alternative for the Westside Light Rail Project, including system related costs, set forth in Public Law 101–516 and as defined in House Report 101–584. Such agreement shall also provide for the completion of alternatives analysis, the final Environmental Impact Analysis, and preliminary engineering for the Hillsboro extension to the Westside Project as set forth in Public Law 101–516.

(c) NORTH BAY FERRY SERVICE.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the City of Vallejo, California, which includes $8,000,000 in fiscal year 1992 and $9,000,000 in fiscal year 1993 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out capital improvements under the North Bay Ferry Service Demonstration Program.

(d) STATEN ISLAND-MIDTOWN MANHATTAN FERRY SERVICE.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the New York City Department of Transportation in New York, New York, which includes $1,000,000 in fiscal year 1992 and $11,000,000 in fiscal year 1993 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out capital improvements under the Staten Island-Midtown Ferry Service Demonstration Program.

(e) CENTRAL AREA CIRCULATOR PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the City of Chicago, Illinois, which includes $260,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the locally preferred alternative for the Central Area Circulator Project. Such grant agreement shall provide that the Federal share of the cost of such project shall be paid by the Secretary from amounts provided under such section 3(k)(1)(B) as follows:

(1) Not less than $21,000,000 for fiscal year 1992.

(2) Not less than $55,000,000 for fiscal year 1993.

(3) Not less than $70,000,000 for fiscal year 1994.

(4) Not less than $62,000,000 for fiscal year 1995.

(5) Not less than a total of $52,000,000 for fiscal years 1996 and 1997.

(f) SALT LAKE CITY LIGHT RAIL PROJECT.—No later than August 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Utah Transit Authority, which includes $131,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the initial segment of the locally preferred alternative for the Salt Lake City Light Rail Project, including feeder bus and other system related costs.

(g) LOS ANGELES-SAN DIEGO (LOSSAN) RAIL CORRIDOR IMPROVEMENT PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Los Angeles-San Diego Rail Corridor Agency which includes not less than $10,000,000 for fiscal year 1992 and not less than $5,000,000 in each of fiscal years 1993 and 1994 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to provide for capital improvements to the rail corridor between Los Angeles and San Diego, California.

(h) SAN JOSE-GILROY-HOLLISTER COMMUTER RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the responsible operating entity for the San Francisco Peninsula Commute Service which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $13,000,000 for capital improvements and trackage rights related to the extension of commuter rail service from San Jose, through Gilroy, to Hollister, California. The Secretary shall allocate to the Santa Clara County Transit District in fiscal year 1992, from funds made available under such section 3(k)(1)(B), $8,000,000 for the purpose of a one-time purchase of perpetual trackage rights between the existing terminus in San Jose and Gilroy, California, to run passenger rail service.

(i) DALLAS LIGHT RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with Dallas Area Rapid Transit which includes $160,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the locally preferred alternative for the initial 6.4 miles and 10 stations of the South Oak Cliff light rail line. Non-Federal funds used to acquire rights-of-way and to plan, design, and construct any of the elements of such light rail line on or after August 13, 1983, may be used to meet the non-Federal share funding requirement for financing construction of any of such elements.

(j) SOUTH BOSTON PIERS TRANSITWAY/LIGHT RAIL PROJECT.—No later than June 1, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Massachusetts Bay Transportation Authority which includes $278,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the South Station to World Trade Center segment of the locally preferred alternative for the South Boston Piers Transitway/Light Rail Project. Not later than February 28, 1992, the Secretary shall allocate from such $278,000,000 such sums as may be necessary to carry out preliminary engineering and design for the entirety of such preferred alternative. Section 330 of the Department of Transportation and Related Agencies Appropriations Act, 1992, is amended by striking "—", by striking "(a)", by striking "; and" at the end of paragraph (a) and all that follows through the period at the end of such section and inserting a period, and by running in the remaining matter of paragraph (a) following "Administration".

(k) KANSAS CITY LIGHT RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Kansas City Area Transportation Authority which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $1,500,000 in fiscal year 1992, and $4,400,000 in fiscal year 1993 to provide for the completion of alternatives analysis and preliminary engineering for the Kansas City Light Rail Project.

(l) ORLANDO STREETCAR (OSCAR) DOWNTOWN TROLLEY PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the City of Orlando, Florida, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $5,000,000 to provide for the completion of alternatives analysis and preliminary engineering for the Orlando Streetcar (OSCAR) Downtown Trolley Project.

(m) DETROIT LIGHT RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and enter into a multiyear grant agreement with the city of Detroit, Michigan, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, not less than $10,000,000 for fiscal year 1992, and not less than $10,000,000 for fiscal year 1993, to provide for the completion of alternatives analysis and preliminary engineering for the Detroit Light Rail Project.

(n) BUS AND BUS RELATED EQUIPMENT PURCHASES IN ALTOONA, PENNSYLVANIA.—No later than April 30, 1992, the Secretary shall enter into a grant agreement with Altoona Metro Transit for $2,000,000 for fiscal year 1992 from funds made available under section 3(k)(1)(C) of the Federal Transit Act to provide for the purchase of 10 buses, a fuel storage tank, a bus washer and 2 service vehicles.

(o) LONG BEACH METRO LINK FIXED RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Los Angeles County Transportation Commission which includes $4,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act, to provide for the completion of alternatives analysis and preliminary engineering for the Metro Link Project in Long Beach, California.

(p) LAKEWOOD-FREEHOLD-MATAWAN OR JAMESBURG RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the New Jersey Transit Corporation, which includes, from funds made available to the Northeastern New Jersey urbanized area under section 3(k)(1)(B) of the Federal Transit Act, $1,800,000 in fiscal year 1992 and $3,000,000 in each of fiscal years 1993 and 1994 to provide for the completion of alternatives analysis, preliminary engineering, and environmental impact statement for the Lakewood-Freehold-Matawan or Jamesburg Rail Project.

(q) SAN FRANCISCO, CALIFORNIA.—No later than April 30, 1992, the Secretary shall enter into a grant agreement for $2,500,000 from funds made available under section 3(k)(1)(C) for fiscal year 1992 to construct a parking facility as part of a multimodal transportation facility in the vicinity of California Pacific Medical Center, San Francisco, California.

(r) CHARLOTTE LIGHT RAIL STUDY.—No later than April 30, 1992, the Secretary shall negotiate and sign a multi-year grant agreement with the City of Charlotte, North Carolina which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $125,000 in fiscal year 1992 and $375,000 in fiscal year 1993 to provide for the completion of systems planning and alternatives analysis for a priority light rail corridor in the Charlotte metropolitan area.

(s) BUCKHEAD PEOPLE MOVER CONCEPTUAL ENGINEERING STUDY.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Atlanta Regional Commission which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $200,000 in fiscal year 1992, to provide for the completion of a conceptual engineering study for a people mover system in Atlanta, Georgia.

(t) CLEVELAND DUAL HUB RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Greater Cleveland Regional Transit Authority which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $2,000,000 in fiscal year 1992, $2,000,000 in fiscal year 1993, and $1,000,000 in fiscal year 1994, to provide for the completion of alternatives analysis on the Cleveland Dual Hub Rail Project.

(u) SAN DIEGO MID COAST LIGHT RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the San Diego Metropolitan Transit Development Board which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $2,000,000 in fiscal year 1992, $5,000,000 in fiscal year 1993, and $20,000,000 in fiscal year 1994, to provide for the completion of alternatives analysis and the final environmental impact statement, and to purchase right-of-way, for the San Diego Mid Coast Light Rail Project.

(v) CHATTANOOGA DOWNTOWN TROLLEY PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Chattanooga Area Regional Transportation Authority which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $1,000,000 in fiscal year 1992 and $1,000,000 in fiscal year 1993 to provide for the completion of alternatives analysis on a proposed trolley circulator in downtown Chattanooga, Tennessee.

(w) NORTHEAST OHIO COMMUTER RAIL FEASIBILITY STUDY.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Northeast Ohio Areawide Coordinating Agency which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $800,000 in fiscal year 1992 and $800,000 in fiscal year 1993 to study the feasibility of providing commuter rail service connecting urban and suburban areas in northeast Ohio.

(x) RAILTRAN COMMUTER RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Cities of Dallas and Fort Worth, Texas, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $2,480,000, in fiscal year 1992, and $3,200,000 in fiscal year 1993 to provide for preliminary engineering and construction of improvements to the Dallas/Fort Worth RAILTRAN System.

(y) BUS AND BUS RELATED EQUIPMENT PURCHASES IN JOHNSTOWN, PENNSYLVANIA.—No later than April 30, 1992, the Secretary shall enter into a grant agreement with the Cambria Coun-

VOL 137

NO 26
1991 — JA 3 1992
UMI

ty Transit Authority for $1,600,000 for fiscal year 1992 from funds made available under section 3(k)(1)(C) of the Federal Transit Act to provide for the purchase of 6 midsize buses; spare engines, transmissions, wheels, tires; wheelchair lifts for urban buses; 20 2-way radios; 29 electronic fareboxes and related equipment; computer hardware and software; and shop tools, equipment and parts for the Cambria County Transit System; and a new 400 HP electric motor and related components; cable replacement; hillside erosion control; park-and-ride facilities; and a handicapped pedestrian crosswalk for the Johnstown Inclined Plane.

(z) BUS PURCHASE FOR EUREKA SPRINGS, ARKANSAS.—No later than April 30, 1992, the Secretary shall enter into a grant agreement with Eureka Springs Transit for $63,600 for fiscal year 1992 from funds made available under section 3(k)(1)(C) of the Federal Transit Act to provide for the purchase of an electrically powered bus which is accessible to and usable by individuals with disabilities.

(aa) TUCSON DIAL-A-RIDE PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a grant agreement with the City of Tucson, Arizona which includes, from funds made available under section 3(k)(1)(C) of the Federal Transit Act, $8,000,000 in fiscal year 1992 to make capital improvements related to the Tucson dial-a-ride project.

(bb) LONG BEACH BUS FACILITY PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a grant agreement with the Long Beach Transportation Company to include, from funds made available under section 3(k)(1)(C) of the Federal Transit Act, $13,875,000 in fiscal year 1992, to provide for the construction of a bus maintenance facility in the service area of such company.

(cc) PARK-AND-RIDE LOT.—No later than April 30, 1992, the Secretary shall negotiate and sign a grant agreement with the Southeastern Pennsylvania Transportation Authority which includes, from funds made available under section 3(k)(1)(C) of the Federal Transit Act, $4,000,000 in fiscal year 1992 to construct a park-and-ride lot in suburban Philadelphia, Pennsylvania.

(dd) NASHVILLE INTERMODAL TERMINAL.—No later than April 30, 1992, the Secretary shall negotiate and sign a grant agreement with the City of Nashville, Tennessee, which includes, from funds made available under section 3(k)(1)(C) of the Federal Transit Act, $3,700,000 in fiscal year 1992 to provide for the construction of an intermodal passenger terminal in Nashville, Tennessee.

(ee) MAIN STREET TRANSIT MALL.—No later than April 30, 1992, the Secretary shall negotiate and sign a grant agreement with the City of Akron, Ohio, which includes, from funds made available to that State under section 3(k)(1)(C) of the Federal Transit Act, $1,450,000 in fiscal year 1992 to provide for preliminary engineering and construction of an extension to the Main Street Transit Mall.

(ff) PEOPLE MOBILIZER.—No later than April 30, 1992, the Secretary shall negotiate and sign a grant agreement with PACE which includes, from funds made available to the suburban Chicago urbanized area under section 3(k)(1)(C), $2,300,000 in fiscal year 1992 to make capital purchases necessary for implementing the people mobilizer project in such area. The limitation on operating assistance which but for this section would apply to the people mobilizer project for fiscal year 1992 under section 9(k)(2)(A) of the Federal Transit Act shall be increased by $700,000.

(gg) CENTRE AREA TRANSPORTATION AUTHORITY REIMBURSEMENT.—Notwithstanding any other provision of law, the Secretary shall reimburse the Centre Area Transportation Authority in State College, Pennsylvania, from funds made available under section 3(k)(1)(C) of the Federal Transit Act, $1,000,000 in fiscal year 1992 for costs incurred by the Centre Area Transportation Authority between August 1989 and October 1991 in connection with the construction of an administrative maintenance and bus storage facility.

(hh) KEY WEST, FLORIDA.—Not later than April 30, 1992, the Secretary shall negotiate and enter into a grant agreement with the city of Key West, Florida, which includes, from funds made available under section 3(k)(1)(C) of the Federal Transit Act, $239,666 in fiscal year 1992 for the cost of purchasing 3 buses.

(ii) BOSTON, MASSACHUSETTS.—The Secretary shall conduct at a cost of $250,000 in fiscal year 1992 from funds made available under section 3(k)(1)(B) of the Federal Transit Act a feasibility study of a proposed rail link between North Station and South Station in Boston, Massachusetts.

(jj) BUFFALO, NEW YORK.—No later than April 30, 1992, the Secretary shall enter into a grant agreement with the Niagara Frontier Transportation Authority for $2,000,000 for fiscal year 1992 from funds made available under section 3(k)(1)(C) of the Federal Transit Act to provide for the construction of metro bus transit centers in the service area of such transportation authority.

(kk) STATE OF MICHIGAN.—No later than June 30, 1992, the Secretary shall enter into a multiyear grant agreement with the State of Michigan for $10,500,000 for fiscal year 1992, and not less than $10,000,000 for each of fiscal years 1993 through 1997 from funds made available under section 3(k)(1)(C) of the Federal Transit Act for the purchase of buses and bus-related equipment to be distributed among local transit operators. Of the grant amount for fiscal year 1992, $500,000 shall be made available for a study of the feasibility of consolidation of transit services.

(ll) ANN ARBOR, MICHIGAN.—No later than April 30, 1992, the Secretary shall enter into a grant agreement with the Ann Arbor Transportation Authority for $1,500,000 for fiscal year 1992 from funds made available under section 3(k)(1)(C) of the Federal Transit Act for the purchase of equipment and software for advanced fare collection technology.

(mm) BAY AREA RAPID TRANSIT DISTRICT PARKING.—Not later than April 30, 1992, the Secretary shall negotiate and enter into a multiyear grant agreement with the San Francisco Bay Area Rapid Transit District which includes, from funds made available under section 3(k)(1)(C) of the Federal Transit Act, $12,600,000 for construction of a parking area for the planned East Dublin/Pleasanton BART station.

(nn) BALTIMORE-WASHINGTON TRANSPORTATION IMPROVEMENTS PROGRAM.—The Secretary shall carry out the Baltimore-Washington Transportation Improvements Program as follows:

(1) BALTIMORE-CENTRAL LIGHT RAIL EXTENSION.—By entering into a full funding grant agreement with the Mass Transit Administration of the Maryland Department of Transportation to carry out construction of locally preferred alternatives for the Hunt Valley, Baltimore-Washington International Airport and Penn Station extensions to the light rail line in Baltimore, Maryland. The grant agreement under this paragraph shall provide that the Federal share shall be paid from amounts provided under section 3(k)(1)(B) of the Federal Transit Act as follows:

(A) Not less than $30,000,000 for fiscal year 1993.

(B) Not less than $30,000,000 for fiscal year 1994.

(2) MARC EXTENSIONS.—By entering into a full funding grant agreement with the Mass Transit Administration of the Maryland Department of Transportation for service extensions and other improvements, including extensions of the MARC commuter rail system to Frederick and Waldorf, planning and engineering, purchase of rolling stock and station improvements and expansions. The grant agreement under this paragraph shall be paid from amounts provided under section 3(k)(1)(B) of the Federal Transit Act as follows:

(A) Not less than $60,000,000 for fiscal year 1993.

(B) Not less than $50,000,000 for fiscal year 1994.

(C) Not less than $50,000,000 for fiscal year 1995.

(3) LARGO EXTENSION.—By entering into a full funding grant agreement with the State of Maryland or its designee to provide alternative analysis, the preparation of an environmental impact statement and preliminary engineering for a proposed rail transit project to be located in the corridor between the Washington Metropolitan Area Transit Authority Addison Road rail station and Largo, Maryland. The grant agreement under this paragraph shall provide that the Federal share shall be paid from amounts provided under section 3(k)(1)(B) of the Federal Transit Act in an amount not less than $5,000,000 for fiscal year 1993.

(oo) MILWAUKEE EAST-WEST CORRIDOR PROJECT.—The Secretary shall negotiate and sign a multiyear grant agreement with the State of Wisconsin which includes $200,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the initial segment of the locally preferred alternative as identified in the alternatives analysis of the Milwaukee East-West Corridor Project.

(pp) BOSTON TO PORTLAND TRANSPORTATION CORRIDOR.—If the State of Maine or an agency thereof decides to initiate commuter rail service in the Boston to Portland transportation corridor, $30,000,000 under section 3(k)(1)(B) is authorized to be appropriated for capital improvements to allow such service.

(qq) NORTHEAST PHILADELPHIA COMMUTER RAIL STUDY.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Southeastern Pennsylvania Transportation Authority, which includes $400,000 from funds made available to the Philadelphia urbanized area under section 3(k)(1)(B) of the Federal Transit Act to provide for a study of the feasibility of instituting commuter rail service as an alternative to automobile travel to Center City Philadelphia on I-95.

(rr) ATLANTA COMMUTER RAIL STUDY.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Atlanta Regional Commission which includes, from funds made available to the Atlanta urbanized area under section 3(k)(1)(B) of the Federal Transit Act, $100,000 to study the feasibility of instituting commuter rail service in the Greensboro corridor.

(ss) PITTSBURGH LIGHT RAIL REHABILITATION PROJECT.—No later than 90 days after the date of the enactment of this Act, the Secretary shall negotiate and sign a multiyear grant agreement with the Port Authority of Allegheny County which includes $5,000,000 from funds made available to the Pittsburgh urbanized area under section 3(k)(1)(B) of the Federal Transit Act, to complete preliminary engineering for Stage II LRT rehabilitation in Allegheny County, Pennsylvania.

(tt) ATLANTA NORTH LINE EXTENSION.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Metropolitan Atlanta Rapid Transit Authority which includes $329,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the locally preferred alternative for a 3.1 mile extension of the North Line of the heavy rail rapid transit system in Atlanta, Georgia.

(uu) HOUSTON PRIORITY CORRIDOR FIXED GUIDEWAY PROJECT.—Provided that a locally preferred alternative for the Priority Corridor fixed guideway project has been selected by March 1, 1992, no later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Metropolitan Transit Authority of Harris County which includes $500,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of such locally preferred alternative.

(vv) JACKSONVILLE AUTOMATED SKYWAY EXPRESS EXTENSION.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Jacksonville Transportation Authority which includes $71.2 million from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the locally preferred alternative for a 1.8 mile extension to the Automated Skyway Express starter line.

(ww) HONOLULU RAPID TRANSIT PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the City and County of Honolulu which includes $618,000,000 from funds made available under section 3(k)(1)(B) of the Federal Transit Act to carry out the construction of the locally preferred alternative of a 17.3 mile fixed guideway system.

(xx) SACRAMENTO LIGHT RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Sacramento Regional Transit District which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $26,000,000 to provide for the completion of alternatives analysis, preliminary engineering, and final design on proposed extensions to the light rail system in Sacramento, California.

(yy) PHILADELPHIA CROSS-COUNTY METRO RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Southeastern Pennsylvania Transportation Authority which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $2,400,000 to provide for the completion of alternatives analysis and preliminary engineering for the Philadelphia Cross-County Metro Rail Project.

(zz) CLEVELAND BLUE LINE LIGHT RAIL EXTENSION.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the Greater Cleveland Regional Transit Authority which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $1,200,000 to provide for the completion of alternatives analysis and preliminary engineering for an extension of the Blue Line to Highland Hills, Ohio.

(aaa) DULLES CORRIDOR RAIL PROJECT.—No later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the State of Virginia, or its assignee, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $6,000,000 to provide for the completion of alternatives analysis and preliminary engineering for a rail corridor from the West Falls Church Washington Metropolitan Area Transit Authority rail station to Dulles International Airport.

(bbb) PUGET SOUND CORE RAPID TRANSIT PROJECT.—Not later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the municipality of metropolitan Seattle, Washington, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $300,000,000 for the Puget Sound Core Rapid Transit Project.

(ccc) SEATTLE-TACOMA COMMUTER RAIL.—Not later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the municipality of metropolitan Seattle, Washington, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $25,000,000 for the Seattle-Tacoma Commuter Rail Project.

(ddd) ALTOONA PEDESTRIAN CROSSOVER.—Not later than April 30, 1992, the Secretary shall negotiate and sign a multiyear grant agreement with the city of Altoona, Pennsylvania, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $3,200,000 for construction of the 14th Street Pedestrian Crossover in Altoona, Pennsylvania.

(eee) MULTI-MODAL TRANSIT PARKWAY.—Not later than April 30, 1992, the Secretary shall negotiate and enter into a multiyear grant agreement with the State of California which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $15,000,000 for construction of a multi-modal transit parkway in western Los Angeles, California.

(fff) CANAL STREET CORRIDOR LIGHT RAIL, NEW ORLEANS, LOUISIANA.—No later than April 30, 1992, the Secretary shall negotiate and sign a grant agreement with the city of New Orleans, Louisiana, which includes, from funds made available under section 3(k)(1)(B) of the Federal Transit Act, $4,800,000 to provide for the completion of alternatives analysis, preliminary engineering, and an environmental impact statement for the Canal Street Corridor Light Rail System in New Orleans, Louisiana.

SEC. 3036. UNOBLIGATED M ACCOUNT BALANCES.

Notwithstanding any other provision of law, any obligated M account balances remaining available for expenditure as of August 1, 1991, under "Urban Discretionary Grants" and "Interstate Transfer Grants-Transit" of the Federal Transit Administration program shall be exempt from the application of the provisions of section 1405(b)(4) and (b)(6) of Public Law 101-510 and section 1552 of title 31, United States Code, and shall be available until expended.

SEC. 3037. TECHNICAL ACCOUNTING PROVISIONS.

Notwithstanding any other provision of law, any funds appropriated before October 1, 1983, under section 6, 10, 11, or 18 of the Act, or section 103(e)(4) of title 23, United States Code, in effect on September 30, 1991, that remain available for expenditure after October 1, 1991, may be transferred to and administered under the most recent appropriation heading for any such section.

SEC. 3038. REDUCTION IN AUTHORIZATIONS FOR BUDGET COMPLIANCE.

If the total amount authorized by this Act (including amendments made by this Act) out of the Mass Transit Account of the Highway Trust Fund exceeds $1,900,000,000 for fiscal year 1992, or exceeds $13,800,000,000 for fiscal years 1992 through 1996, then each amount so authorized shall be reduced proportionately so that the total equals $1,900,000,000 for fiscal year 1992, or equals $13,800,000,000 for fiscal years 1992 through 1996, as the case may be.

SEC. 3039. PETROLEUM VIOLATION ESCROW ACCOUNT FUNDS.

Notwithstanding any other provision of law, the Federal Transit Administration shall allow petroleum violation escrow account funds spent by the New Jersey Transit Corporation on transit improvements to be applied as credit towards the non-Federal match for any transit project funded under the Federal Transit Act. The New Jersey Transit Corporation shall demonstrate that the use of such a credit does not result in the reduction in non-Federal funding for transit projects within the fiscal year in which the credit is applied.

SEC. 3040. CHARTER SERVICES DEMONSTRATION PROGRAM.

(a) ESTABLISHMENT.—Notwithstanding any provision of law, the Secretary shall implement regulations, not later than 9 months after the date of the enactment of this Act, in not more than 4 States to permit transit operators to provide charter services for the purposes of meeting the transit needs of government, civic, charitable, and other community activities which otherwise would not be served in a cost effective and efficient manner.

(b) CONSULTATION.—In developing such regulations, the Secretary shall consult with a board that is equally represented by public transit operators and privately owned charter services.

(c) REPORT.—Not later than 3 years after the date of the enactment of this Act, the Secretary shall transmit to Congress a report containing an evaluation of the effectiveness of the demonstration program regulations established under this section and make recommendations to improve current charter service regulations.

SEC. 3041. GAO REPORT ON CHARTER SERVICE REGULATIONS.

The Comptroller General shall submit to the Congress, not later than 12 months after the date of the enactment of this Act, a report evaluating the impact of existing charter service regulations. The report shall—

(1) assess the extent to which the regulations promote or impede the ability of communities to meet the transportation needs of government, civic, and charitable organizations in a cost-effective and efficient manner;

(2) assess the extent to which the regulations promote or impede the ability of communities to carry out economic development activities in a cost-effective and efficient manner;

(3) analyze the extent to which public transit operators and private charter carriers have entered into charter service agreements pursuant to the regulations; and

(4) analyze the extent to which such agreements enable private carriers to profit from the provision of charter service by public transit operators using federally subsidized vehicles.

The report shall also include an assessment of the factors specified in the preceding sentence within the context of not less than 3 communities selected by the Comptroller General.

SEC. 3042. 1993 WORLD UNIVERSITY GAMES.

Notwithstanding any other provision of law, before apportionment under section 9 of the Federal Transit Act of funds provided under section 21(a)(1) of such Act for fiscal year 1993, $4,000,000 of such funds shall be made available to the State of New York or to any public body to which the State further delegates authority, as the designated recipient for the purposes of this section, to carry out projects by contracts with private or public service providers to meet the transportation needs associated with the staging of the 1993 World University Games in the State of New York. Such funds shall be available for any purpose eligible under section 9 of such Act without limitation. The matching requirement for operating assistance under section 9(k)(1) of such Act shall not apply to funds made available under this section.

SEC. 3043. OPERATING ASSISTANCE LIMITATION FOR STATEN ISLAND FERRY.

The limitation of operating assistance which, but for this section, would apply to the Staten Island Ferry for fiscal year 1993 under section 9(k)(2)(A) of the Federal Transit Act shall be increased by $2,700,000.

SEC. 3044. FORGIVENESS OF CERTAIN OUTSTANDING OBLIGATIONS.

Notwithstanding the fifth sentence of section 4(a) of the Federal Transit Act, the outstanding balance on grant agreement number NC-05-0021 made to the Fayetteville Transit Authority, North Carolina, is forgiven.

SEC. 3045. FORGIVENESS OF LOAN REPAYMENT.

Notwithstanding any other provision of law (including any regulation), the outstanding balances on the following loan agreements do not have to be repaid:

(1) Loan agreement number PA-03-9002 made to the Southeastern Pennsylvania Transit Authority.

(2) Loan agreement number PA-03-9003 made to the Southeastern Pennsylvania Transit Authority.

SEC. 3046. MODIFIED BUS SERVICE TO ACCOMMODATE THE NEEDS OF STUDENTS.

Nothing in the Federal Transit Act, including the regulations issued to carry out such Act, shall be construed to prohibit the use of buses acquired or operated with Federal assistance under such Act to provide tripper bus service in New York City, New York, to accommodate the needs of students, if such buses carry normal designations and clear markings that such buses are open to the general public. For the purposes of this section, the term "tripper bus service" shall have the meaning such term has on the date of the enactment of this Act in regulations issued pursuant to the Federal Transit Act and shall include the service provided by express buses operating along regular routes and as indicated in published route schedules.

SEC. 3047. ELIGIBILITY DETERMINATIONS FOR DISABILITY.

(a) STUDY.—The Secretary shall conduct a study of procedures for determining disability for the purpose of obtaining off peak reduced fares under section 5(m) of the Federal Transit Act. The study should review different requirements, degree of uniformity, and degree of reciprocity between transit systems.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall report to Congress on the results of the study conducted under this section.

SEC. 3048. MILWAUKEE ALTERNATIVES ANALYSIS APPROVAL.

No later than January 15, 1992, the Secretary shall enter into an agreement with the Wisconsin Department of Transportation giving approval to undertake an alternatives analysis for the East-West Central Milwaukee Corridor. The alternatives analysis shall be funded entirely from non-Federal sources.

TITLE IV—MOTOR CARRIER ACT OF 1991

SEC. 4001. SHORT TITLE.

This title may be cited as the "Motor Carrier Act of 1991".

SEC. 4002. MOTOR CARRIER SAFETY GRANT PROGRAM AMENDMENTS.

(a) CONTENTS OF STATE PLANS.—Section 402(b)(1) of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2302(b)(1)) is amended—

(1) by striking subparagraph (D) and inserting the following new subparagraph:

"(D) provides a right of entry and inspection to carry out the plan and provides that the State will grant maximum reciprocity for inspections conducted pursuant to the North American Inspection Standard, through the use of a nationally accepted system allowing ready identification of previously inspected commercial motor vehicles;";

(2) by striking "and" at the end of subparagraph (F);

(3) by striking the period of subparagraph (G) and inserting a semicolon; and

(4) by adding at the end the following new subparagraphs:

"(H) ensures that activities described in paragraphs (1), (2), and (3) of subsection (e) if funded with grants under this section will not diminish the effectiveness of development and implementation of commercial motor vehicle safety programs described in subsection (a);

"(I) ensures that fines imposed and collected by the State for violations of commercial motor vehicle safety regulations will be reasonable and appropriate and provides that, to the maximum extent practicable, the State will seek to implement into law and practice the recommended fine schedule published by the Commercial Vehicle Safety Alliance;

"(J) ensures that such State agency will coordinate the plan prepared under this section with the State highway safety plan under section 402 of title 23, United States Code;

"(K) ensures participation by the 48 contiguous States in SAFETYNET by January 1, 1994;

"(L) gives satisfactory assurances that the State will undertake efforts that will emphasize and improve enforcement of State and local traffic safety laws and regulations pertaining to commercial motor vehicle safety;

"(M) gives satisfactory assurances that the State will promote activities—

"(i) to remove impaired commercial motor vehicle drivers from our Nation's highways through adequate enforcement of regulations on the use of alcohol and controlled substances and by ensuring ready roadside access to alcohol detection and measuring equipment;

"(ii) to provide an appropriate level of training to its motor carrier safety assistance program officers and employees on the recognition of drivers impaired by alcohol or controlled substances;

"(iii) to promote enforcement of the requirements relating to the licensing of commercial motor vehicle drivers, especially including the checking of the status of commercial drivers' licenses; and

"(iv) to improve enforcement of hazardous materials transportation regulations by encouraging more inspections of shipper facilities affecting highway transportation and more comprehensive inspections of the loads of commercial motor vehicles transporting hazardous materials; and

"(N) give satisfactory assurance that the State will promote—

"(i) effective interdiction activities affecting the transportation of controlled substances by commercial motor vehicle drivers and training on appropriate strategies for carrying out such interdiction activities; and

"(ii) effective use of trained and qualified officers and employees of political subdivisions and local governments, under the supervision and direction of the State motor vehicle safety agency, in the enforcement of regulations affecting commercial motor vehicle safety and hazardous materials transportation safety.".

(b) MAINTENANCE OF EFFORT.—Section 402(d) of such Act is amended—

(1) by inserting "and for enforcement of commercial motor vehicle size and weight limitations, for drug interdiction, and for enforcement of State traffic safety laws and regulations described in subsection (e)" after "programs";

(2) by striking "two" and inserting "3";

(3) by striking "this section" the second place it appears and inserting "the Intermodal Surface Transportation Efficiency Act of 1991"; and

(4) by adding at the end the following new sentence: "In estimating such average level, the Secretary may allow the State to exclude State expenditures for federally sponsored demonstration or pilot programs and shall require the State to exclude Federal funds and State matching funds used to receive Federal funding under this section.".

(c) USE OF GRANT FUNDS FOR ENFORCEMENT OF CERTAIN OTHER LAWS.—Section 402 of such Act is amended by adding at the end the following new subsection:

"(e) USE OF GRANT FUNDS FOR ENFORCEMENT OF CERTAIN OTHER LAWS.—A State may use funds received under a grant under this section—

"(1) for enforcement of commercial motor vehicle size and weight limitations at locations other than fixed weight facilities, at specific geographical locations (such as steep grades or mountainous terrains) where the weight of a commercial motor vehicle can significantly affect the safe operation of such vehicle, or at seaports where intermodal shipping containers enter and exit the United States;

"(2) for detecting the unlawful presence of a controlled substance (as defined under section 102 of the Controlled Substances Act (21 U.S.C. 802)) in a commercial motor vehicle or on the person of any occupant (including the operator) of such a vehicle; and

"(3) for enforcement of State traffic laws and regulations designed to promote safe operation of commercial motor vehicles;

if such activities are carried out in conjunction with an appropriate type of inspection of the commercial motor vehicle for enforcement of Federal or State commercial motor vehicle safety regulations.".

(d) FEDERAL SHARE.—Section 403 of such Act (49 U.S.C. App. 2303) is amended by inserting after the first sentence the following new sentence: "In determining such costs incurred by the State, the Secretary shall include in-kind contributions by the State.".

(e) AUTHORIZATION OF APPROPRIATIONS.—Section 404 of such Act (49 U.S.C. App. 2304) is amended—

(1) in subsection (a)(2) by striking "and" before "$60,000,000" and inserting a comma; and

(2) by striking the period at the end of subsection (a)(2) and inserting ", $65,000,000 for fiscal year 1992, $76,000,000 for fiscal year 1993, $80,000,000 for fiscal year 1994, $83,000,000 for fiscal year 1995, $85,000,000 for fiscal year 1996, and $90,000,000 for fiscal year 1997.".

(f) AVAILABILITY, RELEASE, AND REALLOCATION OF FUNDS.—Section 404(c) of such Act is amended to read as follows:

"(c) AVAILABILITY, RELEASE, AND REALLOCATION OF FUNDS.—Funds made available by this section shall remain available for obligation by the Secretary until expended. Allocations to a State shall remain available for expenditure in that State for the fiscal year in which they are allocated and 1 succeeding fiscal year. Funds not expended by a State during those 2 fiscal years shall be released to the Secretary for reallocation. Funds made available under this part which, as of October 1, 1992, were not obligated shall be available for reallocation and obligation under this subsection.".

(g) ALLOCATIONS.—Section 404(f) of such Act is amended to read as follows:

"(f) ADMINISTRATIVE EXPENSES; ALLOCATION CRITERIA.—

"(1) DEDUCTION FOR ADMINISTRATIVE EXPENSES.—On October 1 of each fiscal year, or as soon thereafter as is practicable, the Secretary may deduct, for administration of this section for that fiscal year, not to exceed 1.25 percent of the funds made available for that fiscal year by subsection (a)(2). At least 75 percent of the funds so deducted for administration shall be used for the training of non-Federal employees, and the development of related training materials, to carry out the purposes of section 402.

"(2) ALLOCATION CRITERIA.—On October 1 of each fiscal year, or as soon thereafter as is practicable, the Secretary, after making the deduction authorized by paragraph (1), shall allocate, among the States with plans approved under section 402, the available funds for that fiscal year, pursuant to criteria established by the Secretary; except that the Secretary, in allocating funds available for research, development, and demonstration under subsection (g)(5) and for public education under subsection (g)(6), may designate specific eligible States among which to allocate such funds.".

(h) FUNDING FOR SPECIFIED PROGRAMS.—Section 404 of such Act is further amended by adding at the end of such section the following new subsection:

"(g) FUNDING FOR SPECIFIED PROGRAMS.—

"(1) TRAINING OF HAZMAT INSPECTORS.—The Secretary shall obligate from funds made available by subsection (a)(2) for each fiscal year beginning after September 30, 1992, not less than $1,500,000 to make grants to States for training inspectors for enforcement of regulations which are issued by the Secretary and pertain to transportation by commercial motor vehicle of hazardous materials.

"(2) COMMERCIAL MOTOR VEHICLE INFORMATION SYSTEM REVIEW.—The Secretary may obligate from funds made available by subsection (a)(2) for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 not to exceed $2,000,000 to carry out section 407 of this title, relating to the commercial motor vehicle information system.

"(3) TRUCK AND BUS ACCIDENT DATA GRANT PROGRAM.—The Secretary may obligate from funds made available by subsection (a)(2) for each of fiscal years 1993, 1994, 1995, 1996, and 1997 not to exceed $2,000,000 to carry out section 408 of this title, relating to the truck and bus accident data grant program.

"(4) ENFORCEMENT.—

"(A) TRAFFIC ENFORCEMENT ACTIVITIES.—The Secretary shall obligate from funds made available by subsection (a)(2) for each of fiscal years 1993, 1994, and 1995 not less than $4,250,000 and for each of fiscal years 1996 and 1997 not less than $5,000,000 for traffic enforcement activities with respect to commercial motor vehicle drivers which are carried out in conjunction with an appropriate inspection of a commercial motor vehicle for compliance with Federal or State commercial motor vehicle safety regulations.

"(B) LICENSING REQUIREMENTS.—The Secretary shall obligate from the funds made available by subsection (a)(2) not less than $1,000,000 for each of fiscal years 1993, 1994, and 1995 to increase enforcement of the licensing requirements of the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. 2701 App. et seq.) by motor carrier safety assistance program officers and employees, including the cost of purchasing equipment for and conducting inspections to check the current status of licenses issued pursuant to such Act.

"(5) RESEARCH AND DEVELOPMENT.—The Secretary shall obligate from funds made available by subsection (a)(2) not less than $500,000 for any fiscal year for research, development, and demonstration of technologies, methodologies, analyses, or information systems designed to promote the purposes of section 402 and which are beneficial to all jurisdictions. Such funds shall be announced publicly and awarded competitively, whenever practicable, to any of the eligible States for up to 100 percent of the State costs, or to other persons as determined by the Secretary.

"(6) PUBLIC EDUCATION.—The Secretary shall obligate from funds made available by subsection (a)(2) for any fiscal year not less than $350,000 to educate the motoring public on how to share the road safely with commercial motor vehicles. In carrying out such education activities, the States shall consult with appropriate industry representatives.".

(i) PAYMENTS TO STATES.—Section 404 of such Act is further amended by adding at the end the following new subsection:

"(h) PAYMENTS TO STATES.—The Secretary shall make payments to a State of costs incurred by it under this section and section 402, as reflected by vouchers submitted by the State. Payments shall not exceed the Federal share of costs incurred as of the date of the vouchers.".

(j) MOTOR CARRIER SAFETY FUNCTIONS.—There is authorized to be appropriated for the motor carrier safety functions of the Federal Highway Administration $49,317,000 for fiscal year 1992.

(k) NEW FORMULA FOR ALLOCATION OF FUNDS.—Not later than 6 months after the date of the enactment of this Act, the Secretary, by regulation, shall develop an improved formula and processes for the allocation among eligible States of the funds made available under the motor carrier safety assistance program. In conducting such a revision, the Secretary shall take into account ways to provide incentives to States that demonstrate innovative, successful, cost-efficient, or cost-effective programs to promote commercial motor vehicle safety and hazardous materials transportation safety. In particular, the Secretary shall place special emphasis on incentives to States that conduct traffic safety enforcement activities that are coupled with motor carrier safety inspections. In improving the formula, the Secretary shall also take into account ways to provide incentives to States that increase compatibility of State commercial motor vehicle safety and hazardous materials transportation regulations with the Federal safety regulations and promote other factors intended to promote effectiveness and efficiency that the Secretary determines appropriate.

(l) INTRASTATE COMPATIBILITY.—Not later than 9 months after the date of the enactment of this Act, the Secretary shall issue final regulations specifying tolerance guidelines and standards for ensuring compatibility of intrastate commercial motor vehicle safety law and regulations with the Federal motor carrier safety regulations under the motor carrier safety assistance program. Such guidelines and standards shall, to the extent practicable, allow for maximum flexibility while ensuring the degree of uniformity that will not diminish transportation safety. In the review of State plans and the allocation or granting of funds under section 153 of title 23, United States Code, as added by this Act, the Secretary shall ensure that such guidelines and standards are applied uniformly.

SEC. 4003. COMMERCIAL MOTOR VEHICLE INFORMATION SYSTEM.

Part A of title IV of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2301–2305) is amended by adding at the end the following new section:

"SEC. 407. COMMERCIAL VEHICLE INFORMATION SYSTEM PROGRAM.

"(a) INFORMATION SYSTEM.—

"(1) REGISTRATION SYSTEMS REVIEW.—Not later than 1 year after the effective date of this section, the Secretary, in cooperation with the States, shall conduct a review of State motor vehicle registration systems pertaining to license tags for commercial motor vehicles in order to determine whether or not such systems could be utilized in carrying out this section.

"(2) ESTABLISHMENT.—The Secretary, in cooperation with the States, may establish, as part of the motor carrier safety information network system of the Department of Transportation and similar State systems, an information system which will serve as a clearinghouse and depository of information pertaining to State registration and licensing of commercial motor vehicles and the safety fitness of the registrants of such vehicles.

"(3) OPERATION.—Operation of the information system established under paragraph (2) shall be paid for by a system of user fees. The Secretary may authorize the operation of the information system by contract, through an agreement with a State or States, or by designating, after consultation with the States, a third party which represents the interests of the States.

"(4) DATA COLLECTION AND REPORTING STANDARDS.—The Secretary shall establish standards to ensure uniform data collection and reporting by all States necessary to carry out this section and to ensure the availability and reliability of the information to the States and the Secretary from the information system established under paragraph (2).

"(5) TYPE OF INFORMATION.—As part of the information system established under paragraph (2), the Secretary shall include information on the safety fitness of the registrant of the commercial motor vehicle and such other information as the Secretary considers appropriate, including data on vehicle inspections and out-of-service orders.

"(b) DEMONSTRATION PROJECT.—The Secretary shall make grants to States to carry out a project to demonstrate methods of establishing an information system which will link the motor carrier safety information network system of the Department of Transportation and similar State systems with the motor vehicle registration and licensing systems of the States. The purposes of the project shall be—

"(1) to allow a State when issuing license plates for a commercial motor vehicle to determine through use of the information system the safety fitness of the person seeking to register the vehicle; and

"(2) to determine the types of sanctions which may be imposed on the registrant, or the types of conditions or limitations which may be imposed on the operations of the registrant, to ensure the safety fitness of the registrant.

"(c) REGULATIONS.—The Secretary shall issue such regulations as may be necessary to carry out this section.

"(d) REPORT.—Not later than January 1, 1995, the Secretary shall prepare and submit to Congress a report assessing the cost and benefits and feasibility of the information system established under this section and, if the Secretary determines that such system would be beneficial on a nationwide basis, including recommendations on legislation for the nationwide implementation of such system.

"(e) FUNDING.—Funds necessary to carry out this section may be made available by the Secretary as provided in section 404(g)(2) of this title.

"(f) COMMERCIAL MOTOR VEHICLE DEFINED.—For purposes of this section, the term 'commercial motor vehicle' means any self-propelled or towed vehicle used on highways in intrastate or interstate commerce to transport passengers or property—

"(1) if such vehicle has a gross vehicle weight rating of 10,001 or more pounds;

"(2) if such vehicle is designed to transport more than 15 passengers, including the driver; or

"(3) if such vehicle is used in the transportation of materials found by the Secretary to be hazardous for the purposes of the Hazardous Materials Transportation Act (49 U.S.C. App. 1801 et seq.) and are transported in a quantity requiring placarding under regulations issued by the Secretary under such Act.".

SEC. 4004. TRUCK AND BUS ACCIDENT DATA GRANT PROGRAM.

Part A of title IV of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2301–2305) is further amended by adding at the end the following new section:

"SEC. 408. TRUCK AND BUS ACCIDENT DATA GRANT PROGRAM.

"(a) GENERAL AUTHORITY.—The Secretary shall make grants to States which agree to adopt or have adopted the recommendations of the National Governors' Association with respect to police accident reports for truck and bus accidents.

"(b) GRANT PURPOSES.—Grants may only be made under this section for assisting States in the implementation of the recommendations referred to in subsection (a), including—

"(1) assisting States in designing appropriate forms;

"(2) drafting instruction manuals;

"(3) training appropriate State and local officers, including training on accident investigation techniques to determine the probable cause of accidents;

"(4) analyzing and evaluating safety data so as to develop, if necessary, recommended changes to existing safety programs that more effectively would address the causes of truck and bus accidents; and

"(5) such other activities as the Secretary determines are appropriate to carry out the objectives of this section.

"(c) COORDINATION.—The Secretary shall coordinate grants made under this section with the highway safety programs being carried out under section 402 of title 23, United States Code, and may require that the data from the reports described in subsection (a) be included in the reports made to the Secretary under the uniform data collection and reporting program carried out under such section.

"(d) FUNDING.—Funds necessary to carry out this section may be made available by the Secretary as provided in section 404(g)(3) of this title.".

SEC. 4005. SINGLE STATE REGISTRATION SYSTEM.

Section 11506 of title 49, United States Code, is amended to read as follows:

"§11506. Registration of motor carriers by a State

"(a) DEFINITIONS.—In this section, the terms 'standards' and 'amendments to standards' mean the specification of forms and procedures required by regulations of the Interstate Commerce Commission to prove the lawfulness of transportation by motor carrier referred to in section 10521(a) (1) and (2) of this title.

"(b) GENERAL RULE.—The requirement of a State that a motor carrier, providing transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title and providing transportation in that State, register the certificate or permit issued to the carrier under section 10922 or 10923 of this title is not an unreasonable burden on transportation referred to in section 10521(a) (1) and (2) of this title when the registration is completed under standards of the Commission under subsection (c) of this section. When a State registration requirement imposes obligations in excess of the standards, the part in excess is an unreasonable burden.

"(c) SINGLE STATE REGISTRATION SYSTEM.—

"(1) IN GENERAL.—Not later than 18 months after the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991, the Commission shall prescribe amendments to the standards existing as of such date of enactment. Such amendments shall implement a system under which—

"(A) a motor carrier is required to register annually with only one State;

"(B) the State of registration shall fully comply with standards prescribed under this section; and

"(C) such single State registration shall be deemed to satisfy the registration requirements of all other States.

"(2) SPECIFIC REQUIREMENTS.—

"(A) EVIDENCE OF CERTIFICATE; PROOF OF INSURANCE; PAYMENT OF FEES.—Under the amended standards implementing the single State registration system described in paragraph (1) of this subsection, only a State acting in its capacity as registration State under such single State system may require a motor carrier holding a certificate or permit issued under this subtitle—

"(i) to file and maintain evidence of such certificate or permit;

"(ii) to file satisfactory proof of required insurance or qualification as a self-insurer;

"(iii) to pay directly to such State fee amounts in accordance with the fee system established under subparagraph (B)(iv) of this paragraph, subject to allocation of fee revenues among all States in which the carrier operates and which participate in the single State registration system; and

"(iv) to file the name of a local agent for service of process.

"(B) RECEIPTS; FEE SYSTEM.—Such amended standards—

"(i) shall require that the registration State issue a receipt, in a form prescribed under the amended standards, reflecting that the carrier has filed proof of insurance as provided under subparagraph (A)(ii) of this paragraph and has paid fee amounts in accordance with the fee system established under clause (iv) of this subparagraph;

"(ii) shall require that copies of the receipt issued under clause (i) of this subparagraph be kept in each of the carrier's commercial motor vehicles;

"(iii) shall not require decals, stamps, cab cards, or any other means of registering or identifying specific vehicles operated by the carrier;

"(iv) shall establish a fee system for the filing of proof of insurance as provided under subparagraph (A)(ii) of this paragraph that (I) will be based on the number of commercial motor vehicles the carrier operates in a State and on the number of States in which the carrier operates, (II) will minimize the costs of complying with the registration system, and (III) will result in a fee for each participating State that is equal to the fee, not to exceed $10 per vehicle, that such State collected or charged as of November 15, 1991; and

"(v) shall not authorize the charging or collection of any fee for filing and maintaining a certificate or permit under subparagraph (A)(i) of this paragraph.

"(C) PROHIBITED FEES.—The charging or collection of any fee under this section that is not in accordance with the fee system established under subparagraph (B)(iv) of this paragraph shall be deemed to be a burden on interstate commerce.

"(D) LIMITATION ON PARTICIPATION BY STATES.—Only a State which, as of January 1, 1991, charged or collected a fee for a vehicle identification stamp or number under part 1023 of title 49, Code of Federal Regulations, shall be eligible to participate as a registration State under this subsection or to receive any fee revenue under this subsection.

"(3) EFFECTIVE DATE OF AMENDMENTS.—Amendments prescribed under this subsection shall take effect by January 1, 1994.

"(d) INTERPRETATION AUTHORITY OF COMMISSION.—This section does not affect the authority of the Commission to interpret its regulations and certificates and permits issued under section 10922 or 10923 of this title.".

SEC. 4006. VEHICLE LENGTH RESTRICTION.

(a) CARGO CARRYING UNIT LIMITATION.—Section 411 of the Surface Transportation Assistance Act of 1982 (49 U.S.C. App. 2311) is amended by adding at the end the following new subsection:

"(j) CARGO CARRYING UNIT LIMITATION.—

"(1) IN GENERAL.—No State shall allow by statute, regulation, permit, or any other means the operation on any segment of the National System of Interstate and Defense Highways and those classes of qualifying Federal-aid primary system highways as designated by the Secretary pursuant to subsection (e) of this section, of any commercial motor vehicle combination (except for those vehicles and loads which cannot be easily dismantled or divided and which have been issued special permits in accordance with applicable State laws) with 2 or more cargo carrying units (not including the truck tractor) whose cargo carrying units exceed—

"(A) the maximum combination trailer, semitrailer, or other type of length limitation authorized by statute or regulation of that State on or before June 1, 1991; or

"(B) the length of the cargo carrying units of those commercial motor vehicle combinations, by specific configuration, in actual, lawful operation on a regular or periodic basis (including continuing seasonal operation) in that State on or before June 1, 1991.

"(2) WYOMING, OHIO, AND ALASKA.—

"(A) WYOMING.—In addition to those vehicles allowed under paragraphs (1)(A) and (1)(B), the State of Wyoming may allow the operation of additional vehicle configurations not in actual operation on June 1, 1991, but authorized by State law not later than November 3, 1992, if such vehicle configurations comply with the single axle, tandem axle, and bridge formula limits set forth in section 127(a) of title 23, United States Code, and do not exceed 117,000 pounds gross vehicle weight.

"(B) OHIO.—In addition to vehicles which the State of Ohio may continue to allow to be operated under paragraphs (1)(A) and (1)(B), such State may allow commercial motor vehicle combinations with 3 cargo carrying units of 28 1/2 feet each (not including the truck tractor) not in actual operation on June 1, 1991, to be operated within its boundaries on the 1-mile segment of Ohio State Route 7 which begins at and is south of exit 16 of the Ohio Turnpike.

"(C) ALASKA.—In addition to vehicles which the State of Alaska may continue to allow to be operated under paragraphs (1)(A) and (1)(B), such State may allow operation of commercial motor vehicle combinations which were not in actual operation on June 1, 1991, but which were in actual operation prior to July 6, 1991.

"(3) MEASUREMENT OF LENGTH.—For purposes of this subsection, the length of the cargo carrying units of a commercial motor vehicle combination is the length measured from the front of the first cargo carrying unit to the rear of the last cargo carrying unit.

"(4) LIMITATIONS.—Commercial motor vehicle combinations whose operations in a State are not prohibited under paragraphs (1) and (2) of this subsection may continue to operate in such State on the highways described in paragraph (1) only if in compliance with, at the minimum, all State statutes, regulations, limitations, and conditions, including but not limited to routing-specific and configuration-specific designations and all other restrictions in force in such State on June 1, 1991; except that subject to such regulations as may be issued by the Secretary, pursuant to paragraph (8) of this subsection, the State may make minor adjustments of a temporary and emergency nature to route designations and vehicle operating restrictions in effect on June 1, 1991, for specific safety purposes and road construction. Nothing in this subsection shall prevent any State from further restricting in any manner or prohibiting the operation of any commercial motor vehicle combination subject to this subsection, except that such restrictions or prohibitions shall be consistent with the requirements of this section and of section 412 and section 416 (a) and (b) of this Act. Any State further restricting or prohibiting the operations of commercial motor vehicle combinations or making such minor adjustments of a temporary and emergency nature as may be allowed pursuant to regulations issued by the Secretary pursuant to paragraph (8) of this subsection shall advise the Secretary within 30 days after such action and the Secretary shall publish a notice of such action in the Federal Register.

"(5) LIST OF STATE LENGTH LIMITATIONS.—

"(A) SUBMISSION TO SECRETARY.—Within 60 days after the date of the enactment of this subsection, each State shall submit to the Secretary for publication a complete list of State length limitations applicable to commercial motor vehicle combinations operating in each State on the highways described in paragraph (1). The list shall indicate the applicable State statutes and regulations associated with such length limitations. If a State does not submit information as required, the Secretary shall complete and file such information for such State.

"(B) INTERIM LIST.—Not later than 90 days after the date of the enactment of this subsection, the Secretary shall publish an interim list in the Federal Register, consisting of all information submitted pursuant to subparagraph (A). The Secretary shall review for accuracy all information submitted by the States pursuant to subparagraph (A) and shall solicit and consider public comment on the accuracy of all such information.

"(C) LIMITATION.—No statute or regulation shall be included on the list submitted by a State or published by the Secretary merely on the grounds that it authorized, or could have authorized, by permit or otherwise, the operation of commercial motor vehicle combinations not in actual operation on a regular or periodic basis on or before June 1, 1991.

"(D) FINAL LIST.—Except as modified pursuant to subparagraph (B) or (E) of this subsection, the list shall be published as final in the Federal Register not later than 180 days after the date of the enactment of this subsection. In publishing the final list, the Secretary shall make any revisions necessary to correct inaccuracies identified under subparagraph (B). After publication of the final list, commercial motor vehicle combinations prohibited under paragraph (1) may not operate on the National System of Interstate and Defense Highways and other Federal-aid primary system highways as designated by the Secretary except as published on the list. The list may be combined by the Secretary with the list required under section 127(d) of title 23, United States Code.

"(E) REVIEW AND CORRECTION PROCEDURE.—The Secretary, on his or her own motion or upon a request by any person (including a State), shall review the list issued by the Secretary pursuant to subparagraph (D). If the Secretary determines there is cause to believe that a mistake was made in the accuracy of the final list, the Secretary shall commence a proceeding to determine whether the list published pursuant to subparagraph (D) should be corrected. If the Secretary determines that there is a mistake in the accuracy of the list, the Secretary shall correct the publication under subparagraph (D) to reflect the determination of the Secretary.

"(6) LIMITATIONS ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to—

"(A) allow the operation on any segment of the National System of Interstate and Defense Highways of any longer combination vehicle prohibited under section 127(d) of title 23, United States Code;

"(B) affect in any way the operation of commercial motor vehicles having only 1 cargo carrying unit; or

"(C) affect in any way the operation in a State of commercial motor vehicles with 2 or more cargo carrying units if such vehicles were in actual operation on a regular or periodic basis (including seasonal operation) in that State on or before June 1, 1991, authorized under State statute, regulation, or lawful State permit.

"(7) CARGO CARRYING UNIT DEFINED.—As used in this subsection, 'cargo carrying unit' means any portion of a commercial motor vehicle combination (other than the truck tractor) used for the carrying of cargo, including a trailer, semitrailer, or the cargo carrying section of a single unit truck.

"(8) REGULATIONS REGARDING MINOR ADJUSTMENTS.—Not later than 180 days after the date of the enactment of this subsection, the Secretary shall issue regulations establishing criteria for the States to follow in making minor adjustments under paragraph (4).

"(9) REGULATIONS FOR DEFINING NONEASILY DISMANTLED OR DIVIDED LOADS.—For the purposes of this subsection only, the Secretary shall define by regulation loads which cannot be easily dismantled or divided.".

(b) APPLICABILITY TO BUSES.—

(1) GENERAL RULE.—Section 411(a) of such Act is amended by inserting "of less than 45 feet on the length of any bus," after "vehicle length limitation".

(2) ACCESS TO POINTS OF LOADING AND UNLOADING.—Section 412(a)(2) of such Act is amended by inserting ", motor carrier of passengers," after "household goods carriers".

(c) CONFORMING AMENDMENT.—Section 411(e)(1) of such Act is amended by striking "those Primary System highways" and inserting "those highways of the Federal-aid primary system in existence on June 1, 1991,".

SEC. 4007. TRAINING OF DRIVERS; LONGER COMBINATION VEHICLE REGULATIONS, STUDIES, AND TESTING.

(a) ENTRY LEVEL.—

(1) STUDY OF PRIVATE SECTOR.—Not later than 12 months after the date of the enactment of this Act, the Secretary shall report to Congress on the effectiveness of the efforts of the private sector to ensure adequate training of entry level drivers of commercial motor vehicles. In preparing the report, the Secretary shall solicit the views of interested persons.

(2) RULEMAKING PROCEEDING.—Not later than 12 months after the date of the enactment of this Act, the Secretary shall commence a rulemaking proceeding on the need to require training of all entry level drivers of commercial motor vehicles. Such rulemaking proceeding shall be completed not later than 24 months after the date of such enactment.

(3) FOLLOWUP STUDY.—If the Secretary determines under the proceeding conducted under paragraph (2) that it is not in the public interest to issue a rule that requires training for all entry level drivers, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Public Works and Transportation of the House of Representatives not later than 25 months after the date of the enactment of this Act a report on the reasons for such decision, together with the results of a cost benefit analysis which the Secretary shall conduct with respect to such proceeding.

(b) LCVs TRAINING REQUIREMENTS.—

(1) INITIATION OF RULEMAKING PROCEEDING.—Not later than 60 days after the date of the enactment of this Act, the Secretary shall initiate a rulemaking proceeding to establish minimum training requirements for operators of longer combination vehicles. This training shall include certification of an operator's proficiency by an instructor who has met the requirements established by the Secretary.

(2) FINAL RULE.—Not later than 24 months after the date of the enactment of this Act, the Secretary shall issue a final regulation establishing minimum training requirements for operators of longer combination vehicles.

(c) SAFETY CHARACTERISTICS.—

(1) STUDY.—The Comptroller General shall conduct a study of the safety of longer combination vehicles for the purpose of comparing the safety characteristics and performance, including engineering and design safety characteristics, of such vehicles to other truck-trailer combination vehicles and for the purpose of reviewing the history and effectiveness of State safety enforcement pertaining to such vehicles for those States in which such vehicles are permitted to operate. Such study shall include an assessment of each of the following:

(A) The adequacy of currently available data bases for the purpose of determining the safety of longer combination vehicles and recommending safety improvements.

(B) Whether or not such States are actively monitoring the safety of such operations.

(C) The best available information on the safety of such operations.

(D) Enforcement actions which have been taken in such States to ensure the safety of such operations.

(E) Current procedures and controls used by such States to ensure the safety of operation of such vehicles.

(F) Whether or not any special inspections of equipment maintenance is required to improve the safety of such operations.

(G) The economic and safety impact of longer combination vehicles on shared highways.

(2) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Comptroller General shall transmit a report on the results of the study conducted under paragraph (1) to the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(d) OPERATIONS OF LONGER COMBINATION VEHICLES.—

(1) TESTS.—The Secretary shall conduct on the road tests with respect to the driver and vehicle characteristics of operations of longer combination vehicles for the purpose of determining whether or not any modifications are necessary to the Federal commercial motor vehicle safety standards of the Department of Transportation as they apply to longer combination vehicles. At a minimum, such tests shall examine driver fatigue and stress and time of operation characteristics. Such tests also shall examine the characteristics of longer combination vehicles, including an assessment of on-board computers, anti-lock brakes, and anti-trailer under ride systems to determine the potential safety effectiveness of those technologies as applied to such vehicles.

(2) REPORT.—Not later than 3 years after the date of the enactment of this Act, the Secretary shall transmit a report on the results of the tests conducted under paragraph (1) to the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(e) FUNDING.—There shall be available to the Secretary for carrying out this section, out of the Highway Trust Fund (other than the Mass Transit Account), $1,000,000 per fiscal year for each of fiscal years 1992, 1993, and 1994. Such sums shall remain available until expended.

(f) LONGER COMBINATION VEHICLE DEFINED.—For the purposes of this section, the term "longer combination vehicle" means any combination of a truck tractor and 2 or more trailers or semitrailers which operate on the National System of Interstate and Defense Highways with a gross vehicle weight greater than 80,000 pounds.

SEC. 4008. PARTICIPATION IN INTERNATIONAL REGISTRATION PLAN AND INTERNATIONAL FUEL TAX AGREEMENT.

(a) WORKING GROUP.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall establish a working group comprised of State and local government officials, including representatives of the National Governors' Association, the American Association of Motor Vehicle Administrators, the National Conference of State Legislatures, the Federation of Tax Administrators, the Board of Directors for the International Fuel Tax Agreement, and a representative of the Regional Fuel Tax Agreement, for the purpose of—

(1) proposing procedures for resolving disputes among States participating in the International Registration Plan and among States participating in the International Fuel Tax Agreement including designation of the Department of Transportation or any other person for resolving such disputes; and

(2) providing technical assistance to States participating or seeking to participate in the Plan or in the Agreement.

(b) CONSULTATION REQUIREMENT.—The working group established under this section shall consult with members of the motor carrier industry in carrying out subsection (a).

(c) REPORTS.—Not later than 24 months after the date of the enactment of this Act, the working group established under this section shall transmit a report to the Secretary, to the Committee on Commerce, Science, and Transportation of the Senate, to the Committee on Public Works and Transportation and the Committee on the Judiciary of the House of Representatives, to those States participating in the International Registration Plan, and to those States participating in the International Fuel Tax Agreement. The report shall contain a detailed statement of the findings and conclusions of the working group, together with its joint recommendations concerning the matters referred to in subsection (a). After transmission of such report, the working group may periodically review and modify the findings and conclusions and the joint recommendations as appropriate and transmit a report containing such modifications to the Secretary and such committees.

(d) APPLICABILITY OF ADVISORY COMMITTEE ACT.—The working group established under this section shall not be subject to the Federal Advisory Committee Act.

(e) GRANTS.—

(1) IN GENERAL.—The Secretary may make grants to States and appropriate persons for the purpose of facilitating participation in the International Registration Plan and participation in the International Fuel Tax Agreement and for the purpose of administrative improvements in any other base State fuel use tax agreement in existence as of January 1, 1991, including such purposes as providing technical assistance, personnel training, travel costs, and technology and equipment associated with such participation.

(2) CONTRACT AUTHORITY.—Notwithstanding any other provision of law, approval by the Secretary of a grant with funds made available under this section shall be deemed a contractual obligation of the United States for payment of the Federal share of the grant.

(f) VEHICLE REGISTRATION.—After September 30, 1996, no State (other than a State which is participating in the International Registration Plan) shall establish, maintain, or enforce any commercial motor vehicle registration law, regulation, or agreement which limits the operation of any commercial motor vehicle within its borders which is not registered under the laws of the State if the vehicle is registered under the laws of any other State participating in the International Registration Plan.

(g) FUEL USE TAX.—

(1) REPORTING REQUIREMENTS.—After September 30, 1996, no State shall establish, maintain, or enforce any law or regulation which has fuel use tax reporting requirements (including tax reporting forms) which are not in conformity with the International Fuel Tax Agreement.

(2) PAYMENT.—After September 30, 1996, no State shall establish, maintain, or enforce any law or regulation which provides for the payment of a fuel use tax unless such law or regulation is in conformity with the International Fuel Tax Agreement with respect to collection of such a tax by a single base State and proportional sharing of such taxes charged among the States where a commercial motor vehicle is operated.

(3) LIMITATION.—For purposes of paragraphs (1) and (2), in the event of an amendment to the International Fuel Tax Agreement, conformity by a State that is not participating in such Agreement when such amendment is made may not be required with respect to such amendment until a reasonable time period for such conformity has elapsed, but in no case earlier than—

(A) the expiration of the 365-day period beginning on the first day that the corresponding compliance with such amendment is required of States that are participating in such Agreement; or

(B) the expiration of the 365-day period beginning on the day the relevant office of the State receives written notice of such amendment from the Secretary.

(4) EXCEPTION.—Paragraphs (1), (2), and (3) shall not apply with respect to a State that participates on January 1, 1991, in the Regional Fuel Tax Agreement and that continues to participate after such date in such Agreement.

(h) ENFORCEMENT.—

(1) ACTION.—On the request of the Secretary, the Attorney General may commence, in a court of competent jurisdiction, a civil action for such injunctive relief as may be appropriate to ensure compliance with subsections (f) and (g).

(2) VENUE.—Such action may be commenced only in the State in which relief is required to ensure such compliance.

(3) RELIEF.—Subject to section 1341 of title 28, United States Code, such court, upon a proper showing—

(A) shall issue a temporary restraining order or a preliminary or permanent injunction; and

(B) may require in such injunction that the State or any person comply with such subsections.

(i) LIMITATIONS ON STATUTORY CONSTRUCTION.—Nothing in subsections (f) and (g) shall be construed as limiting the amount of money a State may charge for registration of a commercial motor vehicle or the amount of any fuel use tax a State may impose.

(j) FUNDING.—There is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for fiscal year 1992 $1,000,000 for funding the activities of the working group under this section and $5,000,000 for making grants under subsection (e). Amounts authorized by the preceding sentence shall be subject to the obligation limitation established by section 102 of this Act for fiscal year 1992. From sums made available under section 404 of the Surface Transportation Assistance Act of 1982, the Secretary shall provide for each of fiscal years 1993 through 1997 $1,000,000 for funding the activities of the working group under this section and $5,000,000 for making grants under subsection (e). Such sums shall remain available until expended.

(k) DEFINITIONS.—In this section, the following definitions apply:

(1) COMMERCIAL MOTOR VEHICLE.—The term "commercial motor vehicle"—

(A) as used with respect to the International Registration Plan, has the meaning the term "apportionable vehicle" has under such plan; and

(B) as used with respect to the International Fuel Tax Agreement, has the meaning the term "qualified motor vehicle" has under such agreement.

(2) FUEL USE TAX.—The term "fuel use tax" means a tax imposed on or measured by the consumption of fuel in a motor vehicle.

(3) INTERNATIONAL FUEL TAX AGREEMENT.—The term "International Fuel Tax Agreement" means the interstate agreement for the collection and distribution of fuel use taxes paid by motor carriers, developed under the auspices of the National Governors' Association.

(4) INTERNATIONAL REGISTRATION PLAN.—The term "International Registration Plan" means the interstate agreement for the apportionment of vehicle registration fees paid by motor carriers, developed by the American Association of Motor Vehicle Administrators.

(5) REGIONAL FUEL TAX AGREEMENT.—The term "Regional Fuel Tax Agreement" means the interstate agreement for the collection and distribution of fuel use taxes paid by motor carriers in the States of Maine, Vermont, and New Hampshire.

(6) STATE.—The term "State" means the 48 contiguous States and the District of Columbia.

SEC. 4009. VIOLATIONS OF OUT-OF-SERVICE ORDERS.

(a) FEDERAL REGULATIONS.—The Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. App. 2701–2716) is amended by adding at the end the following new section:

"SEC. 12020. VIOLATION OF OUT-OF-SERVICE ORDERS.

"(a) REGULATIONS.—The Secretary shall issue regulations establishing sanctions and penalties relating to violations of out-of-service orders by persons operating commercial motor vehicles.

"(b) MINIMUM REQUIREMENTS.—Regulations issued under subsection (a) shall, at a minimum, require that—

"(1) any operator of a commercial motor vehicle who is found to have committed a first violation of an out-of-service order shall be disqualified from operating such a vehicle for a period of not less than 90 days and shall be subject to a civil penalty of not less than $1,000;

"(2) any operator of a commercial motor vehicle who is found to have committed a second violation of an out-of-service order shall be disqualified from operating such a vehicle for a period of not less than 1 year and not more than 5 years and shall be subject to a civil penalty of not less than $1,000; and

"(3) any employer that knowingly allows, permits, authorizes, or requires an employee to operate a commercial motor vehicle in violation of an out-of-service order shall be subject to a civil penalty of not more than $10,000.

"(c) DEADLINES.—The regulations required under subsection (a) shall be developed pursuant to a rulemaking proceeding initiated within 60 days after the date of the enactment of this section and shall be issued not later than 12 months after such date of enactment.".

(b) STATE REGULATIONS.—Section 12009(a)(21) of the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. App. 2708(a)(21)) is amended by inserting "and section 12020(a)" before the period at the end.

SEC. 4010. EXEMPTION OF CUSTOM HARVESTING FARM MACHINERY.

Section 12019(5) of the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. App. 2716(5)), relating to the definition of motor vehicle, is amended by inserting "or custom harvesting farm machinery" before the period at the end.

SEC. 4011. COMMON CARRIERS PROVIDING TRANSPORTATION FOR CHARITABLE PURPOSES.

Section 10723(b) of title 49, United States Code, is amended—

(1) in paragraph (2) by inserting "(other than a motor carrier of passengers)" after "carrier"; and

(2) by adding at the end the following new paragraph:

"(3) In the case of a motor carrier of passengers, that carrier may also establish a rate and related rule equal to the rate charged for the transportation of 1 individual when that rate is for the transportation of—

"(A) a totally blind individual and an accompanying guide or a dog trained to guide the individual;

"(B) a disabled individual and accompanying attendant, or animal trained to assist the individual, or both, when required because of disability; or

"(C) a hearing-impaired individual and a dog trained to assist the individual.".

SEC. 4012. BRAKE PERFORMANCE STANDARDS.

(a) INITIATION OF RULEMAKING.—Not later than May 31, 1992, the Secretary shall initiate rulemaking concerning methods for improving braking performance of new commercial motor vehicles, including truck tractors, trailers, and their dollies. Such rulemaking shall include an examination of antilock systems, means of improving brake compatibility, and methods of ensuring effectiveness of brake timing.

(b) LIMITATION WITH RESPECT TO RULES.—Any rule which the Secretary determines to issue regarding improved braking performance pursuant to the rulemaking initiated under this section shall take into account the need for the rule and, in the case of trailers, shall include articulated vehicles and their manufacturers.

(c) RULEMAKING PROCEDURE.—Any rulemaking under this section shall, consistent with section 229 of the Motor Carrier Safety Act of 1984 (49 U.S.C. App. 2519(b)), be carried out pursuant to, and in accordance with, the National Traffic and Motor Vehicle Safety Act of 1966.

(d) COMPLETION OF RULEMAKING.—The Secretary shall complete the rulemaking within 18 months after its initiation; except that the Secretary may extend that period for an additional 6 months after giving notice in the Federal Register of the need for such an extension. Such extension shall not be reviewable.

(e) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed as affecting the authority of the Secretary under this Act (or preventing the Secretary) from simultaneously initiating a rulemaking concerning methods for improving brake performance in the case of vehicles, other than new manufactured commercial motor vehicles, and for considering the necessity for effective enforcement of any rule relating to improving such performance as part of the rulemaking proceeding and for considering the reliability, maintainability, and durability of any brake equipment.

(f) COMMERCIAL MOTOR VEHICLE DEFINED.—For purposes of this section only, the term "commercial motor vehicle" means any self-propelled or towed vehicle used on highways to transport passengers or property if such vehicle has a gross vehicle weight rating of 26,001 or more pounds.

SEC. 4013. FHWA POSITIONS.

To help implement the purposes of this title, the Secretary in fiscal year 1992 shall employ and maintain thereafter 2 additional employees in positions at the headquarters of the Federal Highway Administration in excess of the number of employees authorized for fiscal year 1991 for the Federal Highway Administration.

SEC. 4014. COMPLIANCE REVIEW PRIORITY.

If the Secretary identifies a pattern of violations of State or local traffic safety laws or regulations, or commercial motor vehicle safety rules, regulations, standards, or orders, among the drivers of commercial motor vehicles employed by a particular motor carrier, the Secretary or a State representative shall ensure that such motor carrier receives a high priority for review of such carrier's compliance with applicable Federal and State commercial motor vehicle safety regulations.

TITLE V—INTERMODAL TRANSPORTATION

SEC. 5001. NATIONAL GOAL TO PROMOTE INTERMODAL TRANSPORTATION.

Section 302 of title 49, United States Code (relating to policy standards for transportation), is further amended by adding at the end the following new subsection:

"(e) INTERMODAL TRANSPORTATION.—It is the policy of the United States Government to encourage and promote development of a national intermodal transportation system in the United States to move people and goods in an energy-efficient manner, provide the foundation for improved productivity growth, strengthen the Nation's ability to compete in the global economy, and obtain the optimum yield from the Nation's transportation resources.".

SEC. 5002. DUTIES OF SECRETARY; OFFICE OF INTERMODALISM.

(a) DUTIES OF SECRETARY.—Section 301 of title 49, United States Code (relating to leadership, consultation and cooperation), is amended by redesignating paragraphs (3) through (7) as paragraphs (4) through (8), respectively, and by inserting after paragraph (2) the following new paragraph:

"(3) coordinate Federal policy on intermodal transportation and initiate policies to promote efficient intermodal transportation in the United States;".

(b) INTERMODAL TRANSPORTATION ADVISORY BOARD.—

(1) ESTABLISHMENT.—There shall be established within the Office of the Secretary an Intermodal Transportation Advisory Board.

(2) MEMBERSHIP.—The Intermodal Transportation Advisory Board shall consist of the Secretary, who shall serve as Chairman, and the Administrator, or his or her designee, of—

(A) the Federal Highway Administration;

(B) the Federal Aviation Administration;

(C) the Maritime Administration;

(D) the Federal Railroad Administration; and

(E) the Federal Transit Administration.

(3) FUNCTIONS.—The Intermodal Transportation Advisory Board shall provide recommendations for carrying out the responsibilities of the Secretary described in section 301(3) of title 49, United States Code.

(c) OFFICE OF INTERMODALISM.—

(1) ESTABLISHMENT.—The Secretary shall establish within the Office of the Secretary an Office of Intermodalism.

(2) DIRECTOR.—The Office shall be headed by a Director who shall be appointed by the Secretary not later than 6 months after the date of the enactment of this Act.

(3) FUNCTION.—The Director shall be responsible for carrying out the responsibilities of the Secretary described in section 301(3) of title 49, United States Code.

(4) INTERMODAL TRANSPORTATION DATA BASE.—The Director shall develop, maintain, and disseminate intermodal transportation data through the Bureau of Transportation Statistics. The Director shall coordinate the collection of data for the data base with the States and metropolitan planning organizations. The data base shall include—

(A) information on the volume of goods and number of people carried in intermodal transportation by relevant classification;

(B) information on patterns of movement of goods and people carried in intermodal transportation by relevant classification in terms of origin and destination; and

(C) information on public and private investment in intermodal transportation facilities and services.

The Director shall make information from the data base available to the public.

(5) RESEARCH.—The Director shall be responsible for coordinating Federal research on intermodal transportation in accordance with the plan developed pursuant to section 6009(b) of this Act and for carrying out additional research needs identified by the Director.

(6) TECHNICAL ASSISTANCE.—The Director shall provide technical assistance to States and to metropolitan planning organizations for urban areas having a population of 1,000,000 or more in collecting data relating to intermodal transportation in order to facilitate the collection of such data by such States and metropolitan planning organizations.

(7) ADMINISTRATIVE AND CLERICAL SUPPORT.—The Director shall provide administrative and clerical support to the Intermodal Transportation Advisory Board.

SEC. 5003. MODEL INTERMODAL TRANSPORTATION PLANS.

(a) GRANTS.—The Secretary shall make grants to States for the purpose of developing model State intermodal transportation plans which are consistent with the policy set forth in section 302(e) of title 49, United States Code. Such model plans shall include systems for collecting data relating to intermodal transportation.

(b) DISTRIBUTION.—The Secretary shall award grants to States under this section which represent a variety of geographic regions and transportation needs, patterns, and modes.

(c) TRANSMITTAL OF PLANS.—As a condition to receiving a grant under this section, the Secretary shall require that a State provide assurances that the State will transmit to the Secretary a State intermodal transportation plan not later than 18 months after the date of receipt of such grant.

(d) AGGREGATE AMOUNT.—The Secretary shall reserve, from amounts deducted under section 104(a) of title 23, United States Code, $3,000,000 for the purpose of making grants under this section. The aggregate amount which a State may receive in grants under this section shall not exceed $500,000.

SEC. 5004. SURFACE TRANSPORTATION ADMINISTRATION.

(a) STUDY.—Not later than 60 days after the date of the enactment of this Act, the Secretary shall enter into an agreement with the National Academy of Public Administration to continue a study of options for organizing the Department of Transportation to increase the effectiveness of program delivery, reduce costs, and improve intermodal coordination among surface transportation-related agencies.

(b) REPORT.—The Secretary shall report to Congress on the findings of the study continued under subsection (a) and recommend appropriate organizational changes no later than January 1, 1993. No organizational changes shall be implemented until such changes are approved by law.

SEC. 5005. NATIONAL COMMISSION ON INTERMODAL TRANSPORTATION.

(a) ESTABLISHMENT.—There is established a National Commission on Intermodal Transportation.

(b) FUNCTION.—The Commission shall make a complete investigation and study of intermodal transportation in the United States and internationally. The Commission shall determine the status of intermodal transportation, the problems that exist with respect to intermodal transportation, and the resources needed to enhance intermodal transportation. Based on such investigation and study, the Commission shall recommend those policies which need to be adopted to achieve the national goal of an efficient intermodal transportation system.

(c) SPECIFIC MATTERS TO BE ADDRESSED.—The Commission shall specifically investigate and study the following:

(1) INTERMODAL STANDARDIZATION.—The Commission, in coordination with the National Academy of Sciences, shall examine current and potential impediments to international standardization in specific elements of intermodal transportation. The Commission shall evaluate the potential benefits and relative priority of standardization in each such element and the time period and investment necessary to adopt such standards.

(2) INTERMODAL IMPACTS ON PUBLIC WORKS INFRASTRUCTURE.—The Commission shall examine current and projected intermodal traffic flows, including the current and projected market for intermodal transportation, and how such traffic flows affect infrastructure needs. The Commission shall make recommendations as to capital needs for infrastructure development that will be required to accommodate intermodal transportation, particularly with respect to surface transportation access to airports and ports.

(3) LEGAL IMPEDIMENTS TO EFFICIENT INTERMODAL TRANSPORTATION.—The Commission shall identify legal impediments to efficient intermodal transportation. Specifically, the Commission shall study the relationship between current regulatory schemes for individual modes of transportation and intermodal transportation efficiency.

(4) FINANCIAL ISSUES.—The Commission shall examine existing impediments to the efficient financing of intermodal transportation improvements. In carrying out such examination, the Commission shall examine (A) the most efficient use of existing sources of funds for connecting individual modes of transportation and for accommodating transfers between such modes, and (B) the use of innovative methods of financing for making such improvements. The Commission shall examine current methods of public funding, the desirability of increased flexibility in the use of amounts in Federal transportation trust funds, and increased use of private sources of funding.

(5) NEW TECHNOLOGIES.—The Commission shall study new technologies for improving intermodal transportation and problems associated with incorporating these new technologies in intermodal transportation.

(6) DOCUMENTATION.—The Commission shall study problems in documentation resulting from intermodal transfers of freight and make recommendations for achieving uniform, efficient, and simplified documentation.

(7) RESEARCH AND DEVELOPMENT.—The Commission shall identify the areas relating to intermodal transportation for which continued research and development is needed after the report required by this section is completed, and propose an agenda for carrying out such research and development.

(8) PRODUCTIVITY.—The Commission shall examine the relationship of intermodal transportation to transportation rates, transportation costs, and economic productivity.

(d) MEMBERSHIP.—

(1) APPOINTMENT.—The Commission shall be composed of 11 members as follows:

(A) 3 members appointed by the President.

(B) 2 members appointed by the Speaker of the House of Representatives.

(C) 2 members appointed by the minority leader of the House of Representatives.

(D) 2 members appointed by the majority leader of the Senate.

(E) 2 members appointed by the minority leader of the Senate.

(2) QUALIFICATIONS.—Members appointed pursuant to paragraph (1) shall be appointed from among individuals interested in intermodal transportation policy, including representatives of Federal, State, and local governments, other public transportation authorities or agencies, and organizations representing transportation providers, shippers, labor, the financial community, and consumers.

(3) TERMS.—Members shall be appointed for the life of the Commission.

(4) VACANCIES.—A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

(5) TRAVEL EXPENSES.—Members shall serve without pay but shall receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.

(6) CHAIRMAN.—The Chairman of the Commission shall be elected by the members.

(e) STAFF.—The Commission may appoint and fix the pay of such personnel as it considers appropriate.

(f) STAFF OF FEDERAL AGENCIES.—Upon request of the Commission, the head of any department or agency of the United States may detail, on a reimbursable basis, any of the personnel of that department or agency to the Commission to assist it in carrying out its duties under this section.

(g) ADMINISTRATIVE SUPPORT SERVICES.—Upon the request of the Commission, the Administrator of General Services shall provide to the Commission, on a reimbursable basis, the administrative support services necessary for the Commission to carry out its responsibilities under this section.

(h) OBTAINING OFFICIAL DATA.—The Commission may secure directly from any department or agency of the United States information (other than information required by any statute of the United States to be kept confidential by such department or agency) necessary for the Commission to carry out its duties under this section. Upon request of the Commission, the head of that department or agency shall furnish such nonconfidential information to the Commission.

(i) REPORT AND PROPOSED NATIONAL INTERMODAL TRANSPORTATION PLAN.—Not later than September 30, 1993, the Commission shall transmit to Congress a final report on the results of the investigation and study conducted under this section. The report shall include recommendations of the Commission for implementing the policy set forth in section 302(e) of title 49, United States Code, including a proposed national intermodal transportation plan and a proposed agenda for implementing the plan.

(j) TERMINATION.—The Commission shall terminate on the 180th day following the date of transmittal of the report under subsection (i). All records and papers of the Commission shall thereupon be delivered to the Administrator of General Services for deposit in the National Archives.

TITLE VI—RESEARCH

PART A—PROGRAMS, STUDIES, AND ACTIVITIES

SEC. 6001. RESEARCH AND TECHNOLOGY PROGRAM.

Subsections (a), (b), and (c) of section 307 of title 23, United States Code, are amended to read as follows:

"(a) RESEARCH AND TECHNOLOGY PROGRAM.—

"(1) AUTHORITY OF THE SECRETARY.—

"(A) IN GENERAL.—The Secretary may engage in research, development, and technology transfer activities with respect to motor carrier transportation and all phases of highway planning and development (including construction, operation, modernization, development, design, maintenance, safety, financing, and traffic conditions) and the effect thereon of State laws and may test, develop, or assist in testing and developing any material, invention, patented article, or process.

"(B) COOPERATION, GRANTS, AND CONTRACTS.—The Secretary may carry out this section either independently or in cooperation with other Federal departments, agencies, and instrumentalities or by making grants to, and entering into contracts and cooperative agreements with, the National Academy of Sciences, the American Association of State Highway and Transportation Officials, or any State agency, authority, association, institution, corporation (profit or nonprofit), organization, or person.

"(C) RESEARCH FELLOWSHIPS.—

"(i) GENERAL AUTHORITY.—The Secretary may, acting either independently or in cooperation with other Federal departments, agencies, and instrumentalities, make grants for research fellowships for any purpose for which research is authorized by this section.

"(ii) DWIGHT DAVID EISENHOWER TRANSPORTATION FELLOWSHIP PROGRAM.—The Secretary shall establish and implement a transportation research fellowship program for the purpose of attracting qualified students to the field of transportation engineering and research. Such program shall be known as the "Dwight David Eisenhower Transportation Fellowship Program". Of the funds made available pursuant to paragraph (3) for each fiscal year beginning after September 30, 1991, the Secretary shall expend not less than $2,000,000 per fiscal year to carry out such program.

"(2) COLLABORATIVE RESEARCH AND DEVELOPMENT.—

"(A) IN GENERAL.—For the purposes of encouraging innovative solutions to highway problems and stimulating the marketing of new technology by private industry, the Secretary is authorized to undertake, on a cost-shared basis, collaborative research and development with non-Federal entities, including State and local governments, foreign governments, colleges and universities, corporations, institutions, partnerships, sole proprietorships, and trade associations which are incorporated or established under the laws of any State.

"(B) AGREEMENTS.—In carrying out this paragraph, the Secretary may enter into cooperative research and development agreements, as such term is defined under section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a).

"(C) FEDERAL SHARE.—The Federal share payable on account of activities carried out under a cooperative research and development agreement entered into under this paragraph shall not exceed 50 percent of the total cost of such activities; except that, if there is substantial public interest or benefit, the Secretary may approve a higher Federal share. All costs directly incurred by the non-Federal partners, including personnel, travel, and hardware development costs, shall be treated as part of the non-Federal share of the cost of such activities for purposes of the preceding sentence.

"(D) UTILIZATION OF TECHNOLOGY.—The research, development, or utilization of any technology pursuant to a cooperative research and development agreement entered into under this paragraph, including the terms under which the technology may be licensed and the resulting royalties may be distributed, shall be subject to the Stevenson-Wydler Technology Innovation Act of 1980.

"(3) FUNDS.—

"(A) IN GENERAL.—The funds necessary to carry out this subsection and subsections (b), (d), and (e) shall be taken by the Secretary out of administrative funds deducted pursuant to section 104(a) of this title and such funds as may be deposited by any cooperating organization or person in a special account of the Treasury of the United States established for such purposes.

"(B) MINIMUM EXPENDITURES ON LONG-TERM RESEARCH PROJECTS.—Not less than 15 percent of the funds made available under this paragraph shall be expended on long-term research projects which are unlikely to be completed within 10 years.

"(4) WAIVER OF ADVERTISING REQUIREMENTS.—The provisions of section 3709 of the Revised Statutes (41 U.S.C. 5) shall not be applicable to contracts or agreements entered into under this section.

"(b) MANDATORY CONTENTS OF RESEARCH PROGRAM.—

"(1) INCLUSION OF CERTAIN STUDIES.—The Secretary shall include in the highway research program under subsection (a) studies of economic highway geometrics, structures, and desirable weight and size standards for vehicles using the public highways and of the feasibility of uniformity in State regulations with respect to such standards. The highway research program shall also include studies to identify and measure, quantitatively and qualitatively, those factors which relate to economic, social, environmental, and other impacts of highway projects.

"(2) SHRP RESULTS.—

"(A) IMPLEMENTATION.—The highway research program under subsection (a) shall include a program to implement results of the strategic highway research program carried out under subsection (d) (including results relating to automatic intrusion alarms for street and highway construction work zones) and to continue the long-term pavement performance tests being carried out under such program.

"(B) MINIMUM FUNDING.—Of amounts deducted under section 104(a) of this title, the Secretary shall expend not less than $12,000,000 in fiscal year 1992, $16,000,000 in fiscal year 1993, and $20,000,000 per fiscal year for each of fiscal years 1994, 1995, 1996, and 1997 to carry out this paragraph.

"(3) SURFACE TRANSPORTATION SYSTEM PERFORMANCE INDICATORS.—The highway research program under subsection (a) shall include a coordinated long-term program of research for the development, use, and dissemination of performance indicators to measure the performance of the surface transportation system of the United States, including indicators for productivity, efficiency, energy use, air quality, congestion, safety, maintenance, and other factors which reflect the overall performance of such system.

"(4) SHORT HAUL PASSENGER TRANSPORTATION SYSTEMS.—The Secretary shall conduct necessary systems research in order to develop a concept for a lightweight, pneumatic tire multiple-unit, battery-powered system, in conjunction with recharging stations at strategic locations. The Secretary shall create a potential systems concept and, as part of the surface transportation research and development plan under subsection (b), make recommendations to Congress by January 15, 1993.

"(5) SUPPORTING INFRASTRUCTURE.—The Secretary shall establish a program to strengthen and expand surface transportation infrastructure research and development. The program shall include the following elements:

"(A) Methods and materials for improving the durability of surface transportation infrastructure facilities and extending the life of bridge structures, including new and innovative technologies to reduce corrosion.

"(B) Expansion of the Department of Transportation's inspection and mobile nondestructive examination capabilities, including consideration of the use of high energy field radiography for more thorough and more frequent inspections of bridge structures as well as added support to State highway departments.

"(C) The Secretary shall determine whether or not to initiate a construction equipment research and development program directed toward the reduction of costs associated with the construction of highways and mass transit systems. The Secretary shall transmit to Congress a report containing such determination on or before July 1, 1992.

"(D) The Secretary shall undertake or supervise surface transportation infrastructure research to develop—

"(i) nondestructive evaluation equipment for use with existing infrastructure facilities and for next generation infrastructure facilities that utilize advanced materials;

"(ii) information technologies, including—

"(I) appropriate computer programs to collect and analyze data on the status of the existing infrastructure facilities for enhancing management, growth, and capacity; and

"(II) dynamic simulation models of surface transportation systems for predicting capacity, safety, and infrastructure durability problems, for evaluating planned research projects, and for testing the strengths and weaknesses of proposed revisions in surface transportation operations programs; and

"(iii) new and innovative technologies to enhance and facilitate field construction and rehabilitation techniques for minimizing disruption during repair and maintenance of existing structures.

"(c) STATE PLANNING AND RESEARCH.—

"(1) GENERAL RULE.—2 percent of the sums apportioned for each fiscal year beginning after September 30, 1991, to any State under sections 104 and 144 of this title and for highway projects under section 103(e)(4) of this title shall be available for expenditure by the State highway department, in consultation with the Secretary, only for the following purposes:

"(A) Engineering and economic surveys and investigations.

"(B) The planning of future highway programs and local public transportation systems and for planning for the financing thereof, including statewide planning under section 135 of this title.

"(C) Development and implementation of management systems under section 303 of this title.

"(D) Studies of the economy, safety, and convenience of highway usage and the desirable regulation and equitable taxation thereof.

"(E) Research, development, and technology transfer activities necessary in connection with the planning, design, construction, and maintenance of highway, public transportation, and intermodal transportation systems and study, research, and training on engineering standards and construction materials for such systems, including evaluation and accreditation of inspection and testing and the regulation and taxation of their use.

"(2) MINIMUM EXPENDITURES ON RESEARCH, DEVELOPMENT, AND TECHNOLOGY TRANSFER ACTIVITIES.—Not less than 25 percent of the funds which are apportioned to a State for a fiscal year and are subject to paragraph (1) shall be expended by the State for research, development, and technology transfer activities described in paragraph (1) relating to highway, public transportation, and intermodal transportation systems unless the State certifies to the Secretary for such fiscal year that total expenditures by the State for transportation planning under sections 134 and 135 will exceed 75 percent of the amount of such funds and the Secretary accepts such certification.

"(3) FEDERAL SHARE.—The Federal share payable on account of any project financed with funds which are subject to paragraph (1) shall be 80 percent unless the Secretary determines that the interests of the Federal-aid highway program would be best served by decreasing or eliminating the non-Federal share.

"(4) ADMINISTRATION OF SUMS.—Funds which are subject to paragraph (1) shall be combined and administered by the Secretary as a single fund which shall be available for obligation for the same period as funds apportioned under section 104(b)(1) of this title.

SEC. 6002. NATIONAL HIGHWAY INSTITUTE.

Section 321 of title 23, United States Code, is amended to read as follows:

"§321. National Highway Institute

"(a) ESTABLISHMENT; DUTIES; PROGRAMS.—

"(1) ESTABLISHMENT.—The Secretary shall establish and operate in the Federal Highway Administration a National Highway Institute (hereinafter in this section referred to as the 'Institute').

"(2) DUTIES.—The Institute shall develop and administer, in cooperation with the State transportation or highway departments, and any national or international entity, training programs of instruction for Federal Highway Administration, State and local transportation and highway department employees, State and local police, public safety and motor vehicle employees, and United States citizens and foreign nationals engaged or to be engaged in highway work of interest to the United States. The Secretary shall administer, through the Institute, the authority vested in the Secretary by this title or by any other provision of law for the development and conduct of education and training programs relating to highways.

"(3) TYPES OF PROGRAMS.—Programs which the Institute may develop and administer may include courses in modern developments, techniques, management, and procedures relating to highway planning, environmental factors, acquisition of rights-of-way, relocation assistance, engineering, safety, construction, maintenance, contract administration, motor carrier activities, and inspection.

"(b) SET-ASIDE; FEDERAL SHARE.—Not to exceed 1/16 of 1 percent of all funds apportioned to a State under section 104(b)(3) for the surface transportation program shall be available for expenditure by the State highway department for payment of not to exceed 80 percent of the cost of tuition and direct educational expenses (but not travel, subsistence, or salaries) in connection with the education and training of State and local highway department employees as provided in this section.

"(c) FEDERAL RESPONSIBILITY.—Education and training of Federal, State, and local highway employees authorized by this section shall be provided—

"(1) by the Secretary at no cost to the States and local governments for those subject areas which are a Federal program responsibility; or

"(2) in any case in which education and training are to be paid for under subsection (b), by the State (subject to the approval of the Secretary) through grants and contracts with public and private agencies, institutions, individuals, and the Institute; except that private agencies and individuals shall pay the full cost of any education and training received by them.

"(d) TRAINING FELLOWSHIPS; COOPERATION.—The Institute is authorized, subject to approval of the Secretary, to engage in all phases of contract authority for training purposes authorized by this section, including the granting of training fellowships. The Institute is also authorized to carry out its authority independently or in cooperation with any other branch of the Government, State agency, authority, association, institution, corporation (profit or nonprofit), any other national or international entity, or any other person.

"(e) COLLECTION OF FEES.—

"(1) GENERAL RULE.—The Institute may, in accordance with this subsection, assess and collect fees solely to defray the costs of the Institute in developing and administering education and training programs under this section.

"(2) LIMITATION.—Fees may be assessed and collected under this subsection only in a manner which may reasonably be expected to result in the collection of fees during any fiscal year in an aggregate amount which does not exceed the aggregate amount of the costs referred to in paragraph (1) for the fiscal year.

"(3) PERSONS SUBJECT TO FEES.—Fees may be assessed and collected under this subsection only with respect to—

"(A) persons and entities for whom education or training programs are developed or administered under this section; and

"(B) persons and entities to whom education or training is provided under this section.

VOL
137
PT

1991
—
JA
3
1992
UMI

"(4) AMOUNT OF FEES.—The fees assessed and collected under this subsection shall be established in a manner which ensures that the liability of any person or entity for a fee is reasonably based on the proportion of the costs referred to in paragraph (1) which relate to such person or entity.

"(f) FUNDS.—The funds required to carry out this section may be from the sums deducted for administration purposes under section 104(a). The sums provided pursuant to this subsection may be combined or held separate from the fees or memberships collected under subsection (e) and may be administered by the Secretary as a fund which shall be available until expended.

"(g) CONTRACTS.—The provisions of section 3709 of the Revised Statutes (41 U.S.C. 5) shall not be applicable to contracts or agreements made under the authority of this section.".

SEC. 6003. INTERNATIONAL HIGHWAY TRANSPORTATION OUTREACH PROGRAM.

Chapter 3 of title 23, United States Code, is amended by adding at the end the following new section:

"§325. International highway transportation outreach program

"(a) ACTIVITIES.—The Secretary is authorized to engage in activities to inform the domestic highway community of technological innovations abroad that could significantly improve highway transportation in the United States, to promote United States highway transportation expertise internationally, and to increase transfers of United States highway transportation technology to foreign countries. Such activities may include—

"(1) development, monitoring, assessment, and dissemination domestically of information about foreign highway transportation innovations that could significantly improve highway transportation in the United States;

"(2) research, development, demonstration, training, and other forms of technology transfer and exchange;

"(3) informing other countries about the technical quality of American highway transportation goods and services through participation in trade shows, seminars, expositions, and other such activities;

"(4) offering those Federal Highway Administration technical services which cannot be readily obtained from the United States private sector to be incorporated into the proposals of United States firms undertaking foreign highway transportation projects if the costs for assistance will be recovered under the terms of each project; and

"(5) conducting studies to assess the need for or feasibility of highway transportation improvements in countries that are not members of the Organization for Economic Cooperation and Development as of the date of the enactment of this section, and in Greece and Turkey.

"(b) COOPERATION.—The Secretary may carry out the authority granted by this section, in cooperation with appropriate United States Government agencies and any State or local agency, authority, association, institution, corporation (profit or nonprofit), foreign government, multinational institution, or any other organization or person.

"(c) FUNDS.—The funds available to carry out the provisions of this section shall include funds deposited in a special account with the Secretary of the Treasury for such purposes by any cooperating organization or person. The funds shall be available for promotional materials, travel, reception and representation expenses necessary to carry out the activities authorized by this section. Reimbursements for services provided under this section shall be credited to the appropriation concerned.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 3 of such title is amended by adding at the end the following new item:

"325. International highway transportation outreach program.".

SEC. 6004. EDUCATION AND TRAINING PROGRAM.

(a) IN GENERAL.—Chapter 3 of title 23, United States Code, is amended by adding at the end the following new section:

"§326. Education and training program

"(a) AUTHORITY.—The Secretary is authorized to carry out a transportation assistance program that will provide highway and transportation agencies in (1) urbanized areas of 50,000 to 1,000,000 population, and (2) rural areas, access to modern highway technology.

"(b) GRANTS AND CONTRACTS.—The Secretary may make grants and enter into contracts for education and training, technical assistance, and related support service that will—

"(1) assist rural local transportation agencies to develop and expand their expertise in road and transportation areas (including pavement, bridge and safety management systems), to improve roads and bridges, to enhance programs for the movement of passengers and freight, to deal effectively with special road related problems by preparing and providing training packages, manuals, guidelines, and technical resource materials, and developing a tourism and recreational travel technical assistance program;

"(2) identify, package, and deliver usable highway technology to local jurisdictions to assist urban transportation agencies in developing and expanding their ability to deal effectively with road related problems; and

"(3) establish, in cooperation with State transportation or highway departments and universities (A) urban technical assistance program centers in States with 2 or more urbanized areas of 50,000 to 1,000,000 population, and (B) rural technical assistance program centers.

Not less than 2 centers under paragraph (3) shall be designated to provide transportation assistance that may include, but is not necessarily limited to, a 'circuit-rider' program, providing training on intergovernmental transportation planning and project selection, and tourism recreational travel to American Indian tribal governments.

"(c) FUNDS.—The funds required to carry out the provisions of this section shall be taken out of administrative funds deducted under section 104(a). The sum of $6,000,000 per fiscal year for each of the fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 shall be set aside from such administrative funds for the purpose of providing technical and financial support for these centers, including up to 100 percent for services provided to American Indian tribal governments.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 3 of such title is amended by adding at the end the following new item:

"326. Education and training program.".

(c) USE OF BUREAU OF INDIAN AFFAIRS' ADMINISTRATIVE FUNDS.—Section 204(b) of such title is amended by adding at the end the following new sentence: "The Secretary of Interior may reserve funds from the Bureau of Indian Affairs' administrative funds associated with the Indian reservation roads program to finance the Indian technical centers authorized under section 326.".

SEC. 6005. APPLIED RESEARCH AND TECHNOLOGY PROGRAM; SEISMIC RESEARCH PROGRAM.

(a) IN GENERAL.—Section 307 of title 23, United States Code, is amended by redesignating subsections (e) and (f) as subsections (g) and (h), respectively, and by inserting after subsection (d) the following new subsections:

"(e) APPLIED RESEARCH AND TECHNOLOGY PROGRAM.—

"(1) ESTABLISHMENT.—The Secretary shall establish and implement in accordance with this subsection an applied research and technology program for the purpose of accelerating testing, evaluation, and implementation of technologies which are designed to improve the durability, efficiency, environmental impact, productivity, and safety of highway, transit, and intermodal transportation systems.

"(2) GUIDELINES.—Not later than 18 months after the date of the enactment of this subsection, the Secretary shall issue guidelines to carry out this subsection. Such guidelines shall include:

"(A) TECHNOLOGIES.—Guidelines on the selection of both foreign and domestic technologies to be tested.

"(B) TEST LOCATIONS.—Guidelines on the selection of locations at which tests will be conducted. Such guidelines shall ensure that testing is conducted in a range of climatic, traffic, geographic, and environmental conditions, as appropriate for the technology being tested.

"(C) DATA.—Guidelines for the scientific collection, evaluation, and dissemination of appropriate test data.

"(3) TECHNOLOGIES.—Technologies which may be tested under this subsection include, but are not limited to—

"(A) accelerated construction materials and procedures;

"(B) environmentally beneficial materials and procedures;

"(C) materials and techniques which provide enhanced serviceability and longevity under adverse climatic, environmental, and load effects;

"(D) technologies which increase the efficiency and productivity of vehicular travel; and

"(E) technologies and techniques which enhance the safety and accessibility of vehicular transportation systems.

"(4) HEATED BRIDGE TECHNOLOGIES.—

"(A) PROJECTS.—As part of the program under this subsection, the Secretary shall carry out projects to assess the state of technology with respect to heating the decks of bridges and the feasibility of, and costs and benefits associated with, heating the decks of bridges. Such projects shall be carried out by installing heating equipment on the decks of bridges which are being replaced or rehabilitated under section 144 of this title.

"(B) MINIMUM NUMBER OF BRIDGES.—The number of bridges for which heating equipment is installed under this subsection in a fiscal year shall not be less than 10 bridges.

"(5) ELASTOMER MODIFIED ASPHALT.—As part of the program under this subsection, the Secretary shall carry out a project in the State of New Jersey to demonstrate the environmental and safety benefits of elastomer modified asphalt.

"(6) HIGH PERFORMANCE BLENDED HYDRAULIC CEMENT.—As part of the program under this subsection, the Secretary shall carry out a project in the State of Missouri to demonstrate the durability and construction efficiency of high performance blended hydraulic cement.

"(7) THIN BONDED OVERLAY AND SURFACE LAMINATION OF PAVEMENT.—As part of the program under this subsection, the Secretary shall carry out projects to assess the state of technology with respect to thin bonded overlay (including inorganic bonding systems) and surface lamination of pavement, and to assess the feasibility of, and costs and benefits associated with, the repair, rehabilitation, and upgrading of highways and bridges with overlay. Such projects shall be carried out so as to minimize overlay thickness, minimize initial laydown costs, minimize time out of service, and maximize lifecycle durability.

"(8) ALL WEATHER PAVEMENT MARKINGS.—As part of the program under this subsection, the Secretary shall carry out a program to demonstrate the safety and durability of all weather pavement markings.

"(9) TESTING OF HIGHWAY TECHNOLOGIES.—Projects carried out under this subsection to test technologies related to highways shall be carried out on highways on the Federal-aid system.

"(10) TECHNICAL ASSISTANCE.—The Secretary shall provide technical assistance to States and localities in carrying out projects under this subsection.

"(11) ANNUAL REPORT.—Not later than 1 year after the date of the enactment of this subsection, and annually thereafter, the Secretary shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the progress and research findings of the program carried out under this subsection.

"(12) FEDERAL SHARE.—The Federal share of the cost of a project carried out under this subsection shall not exceed 80 percent.

"(13) FUNDING.—The Secretary shall expend from administrative and research funds deducted under section 104(a) of this title and funds made available under section 26(a)(1) of the Federal Transit Act "$35,000,000 for fiscal year 1992 and $41,000,000 per fiscal year for each of fiscal years 1993, 1994, 1995, 1996, and 1997 to carry out this subsection. Of such amounts, in each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997, the Secretary shall expend not less than $4,000,000 per fiscal year to carry out projects related to heated bridge technologies under paragraph (4), not less than $2,500,000 per fiscal year to carry out projects related to thin bonded overlay and surface lamination of pavements under paragraph (7), and not less than $2,000,000 per fiscal year to carry out projects related to all weather pavement markings under paragraph (8). Amounts made available under this subsection shall remain available until expended and shall not be subject to any obligation limitation.

"(f) SEISMIC RESEARCH PROGRAM.—

"(1) ESTABLISHMENT.—The Secretary shall establish a program to study the vulnerability of highways, tunnels, and bridges on the Federal-aid system to earthquakes and develop and implement cost-effective methods of retrofitting such highways, tunnels, and bridges to reduce such vulnerability.

"(2) COOPERATION WITH NATIONAL CENTER FOR EARTHQUAKE ENGINEERING RESEARCH.—The Secretary shall conduct the program under this section in cooperation with the National Center for Earthquake Engineering Research at the University of Buffalo.

"(3) COOPERATION WITH AGENCIES PARTICIPATING IN NATIONAL HAZARDS REDUCTION PROGRAM.—The Secretary shall further conduct the program under this section in consultation and cooperation with Federal departments and agencies participating in the National Hazards Reduction Program established by section 5 of the Earthquake Hazards Reduction Act of 1977 and shall take such actions as may be necessary to ensure that the program under this subsection is consistent with—

"(A) planning and coordination activities of the Federal Emergency Management Agency under section 5(b)(1) of such Act; and

"(B) the plan developed by the Director of the Federal Emergency Management Agency under section 8(b) of such Act.

"(4) FUNDING.—Of amounts deducted under section 104(a) of this title, the Secretary shall expend not more than $2,000,000 per fiscal year in each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 to carry out this subsection.

"(5) REPORT.—Not later than 2 years after the date of the enactment of this section, the Secretary shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the progress and research findings of the program carried out under this section.".

(b) HIGHWAY AND BRIDGE CONDITIONS AND PERFORMANCE REPORT.—Section 307(h) of title 23, United States Code, as redesignated by subsection (a), is amended by adding at the end the following new sentence: "The biennial reports required under this subsection shall provide the means, including all necessary information, to relate and compare the conditions and service measures used in different years when such measures are changed.".

SEC. 6006. BUREAU OF TRANSPORTATION STATISTICS.

Chapter 1 of title 49, United States Code, is amended by adding at the end the following new section:

"§111. Bureau of Transportation Statistics

"(a) ESTABLISHMENT.—There is established in the Department of Transportation a Bureau of Transportation Statistics.

"(b) DIRECTOR.—

"(1) APPOINTMENT.—The Bureau shall be headed by a Director who shall be appointed by the President, by and with the advice and consent of the Senate.

"(2) QUALIFICATIONS.—The Director shall be appointed from among individuals who are qualified to serve as the Director by virtue of their training and experience in the compilation and analysis of transportation statistics.

"(3) REPORTING.—The Director shall report directly to the Secretary.

"(4) TERM.—The term of the Director shall be 4 years. The term of the first Director to be appointed shall begin on the 180th day after the date of the enactment of this section.

"(c) RESPONSIBILITIES.—The Director of the Bureau shall be responsible for carrying out the following duties:

"(1) COMPILING TRANSPORTATION STATISTICS.—Compiling, analyzing, and publishing a comprehensive set of transportation statistics to provide timely summaries and totals (including industrywide aggregates and multiyear averages) of transportation-related information. Such statistics shall be suitable for conducting cost-benefit studies (including comparisons among individual transportation modes and intermodal transport systems) and shall include information on—

"(A) productivity in various parts of the transportation sector;

"(B) traffic flows;

"(C) travel times;

"(D) vehicle weights;

"(E) variables influencing traveling behavior, including choice of transportation mode;

"(F) travel costs of intracity commuting and intercity trips;

"(G) availability of mass transit and the number of passengers served by each mass transit authority;

"(H) frequency of vehicle and transportation facility repairs and other interruptions of transportation service;

"(I) accidents;

"(J) collateral damage to the human and natural environment; and

"(K) the condition of the transportation system.

"(2) IMPLEMENTING LONG-TERM DATA COLLECTION PROGRAM.—Establishing and implementing, in cooperation with the modal administrators, the States, and other Federal officials a comprehensive, long-term program for the collection and analysis of data relating to the performance of the national transportation system. Such program shall—

"(A) be coordinated with efforts to develop performance indicators for the national transportation system undertaken pursuant to section 307(b)(3) of title 23, United States Code;

"(B) ensure that data is collected under this subsection in a manner which will maximize the ability to compare data from different regions and for different time periods; and

"(C) ensure that data collected under this subsection is controlled for accuracy and disseminated to the States and other interested parties.

"(3) ISSUING GUIDELINES.—Issuing guidelines for the collection of information by the Department of Transportation required for statistics to be compiled under paragraph (1) in order to ensure that such information is accurate, reliable, relevant, and in a form that permits systematic analysis.

"(4) COORDINATING COLLECTION OF INFORMATION.—Coordinating the collection of information by the Department of Transportation required for statistics to be compiled under paragraph (1) with related information-gathering activities conducted by other Federal departments and agencies and collecting appropriate data not elsewhere gathered.

"(5) MAKING STATISTICS ACCESSIBLE.—Making the statistics published under this subsection readily accessible.

"(6) IDENTIFYING INFORMATION NEEDS.—Identifying information that is needed under paragraph (1) but which is not being collected, reviewing such needs at least annually with the Advisory Council on Transportation Statistics, and making recommendations to appropriate Department of Transportation research officials concerning extramural and intramural research programs to provide such information.

"(d) LIMITATIONS ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed—

"(1) to authorize the Bureau to require any other department or agency to collect data; or

"(2) to reduce the authority of any other officer of the Department of Transportation to collect and disseminate data independently.

"(e) PROHIBITION ON CERTAIN DISCLOSURES.—Information compiled by the Bureau shall not be disclosed publicly in a manner that would reveal the personal identity of any individual, consistent with the Privacy Act of 1974 (5 U.S.C. 552a), or to reveal trade secrets or allow commercial or financial information provided by any person to be identified with such person.

"(f) TRANSPORTATION STATISTICS ANNUAL REPORT.—On or before January 1, 1994, and annually thereafter, the Director shall transmit to the President and Congress a Transportation Statistics Annual Report which shall include information on items referred to in subsection (c)(1), documentation of methods used to obtain and ensure the quality of the statistics presented in the report, and recommendations for improving transportation statistical information.

"(g) PERFORMANCE OF FUNCTIONS OF DIRECTOR PENDING CONFIRMATION.—An individual who, on the date of the enactment of this section, is performing any function required by this section to be performed by the Director may continue to perform such function until such function is undertaken by the Director.".

(b) FUNDING.—There shall be available from the Highway Trust Fund (other than the Mass Transit Account) only for carrying out the amendment made by subsection (a) $5,000,000 for fiscal year 1992, $10,000,000 for fiscal year 1993, $15,000,000 per fiscal year for each of fiscal years 1994 and 1995, $20,000,000 for fiscal year 1996, and $25,000,000 for fiscal year 1997. Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code.

(c) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by adding at the end the following new items:

"Sec. 110. Saint Lawrence Seaway Development Corporation.

"Sec. 111. Bureau of Transportation Statistics.".

(d) AMENDMENT TO TITLE 5, U.S.C.—Section 5316 of title 5, United States Code, is amended by adding at the end the following:

"Director, Bureau of Transportation Statistics.".

SEC. 6007. ADVISORY COUNCIL ON TRANSPORTATION STATISTICS.

(a) ESTABLISHMENT.—The Director of the Bureau of Transportation Statistics shall establish an Advisory Council on Transportation Statistics.

(b) FUNCTION.—It shall be the function of the advisory council established under this section to advise the Director of the Bureau of Transportation Statistics on transportation statistics and analyses, including whether or not the statistics and analysis disseminated by the Bureau of Transportation Statistics are of high quality and are based upon the best available objective information.

(c) MEMBERSHIP.—The advisory council established under this section shall be composed of not more than 6 members appointed by the Director who are not officers or employees of the United States and who (except for 1 member who shall have expertise in economics and 1 member who shall have expertise in statistics) have expertise in transportation statistics and analysis.

(d) APPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act shall apply to the advisory council established under this section, except that section 14 of the Federal Advisory Committee Act shall not apply to the Advisory Committee established under this section.

SEC. 6008. DOT DATA NEEDS.

(a) STUDY.—Not later than 1 year after the date of the establishment of the Bureau of Transportation Statistics, the Secretary shall enter into an agreement with the National Academy of Sciences to conduct a study on the adequacy of data collection procedures and capabilities of the Department of Transportation.

(b) CONSULTATION.—The Secretary shall enter into the agreement under subsection (a) in consultation with the Director of the Bureau of Transportation Statistics.

(c) CONTENTS.—The study under subsection (a) shall include an evaluation of the Department of Transportation's data collection resources, needs, and requirements and an assessment and evaluation of the systems, capabilities, and procedures established by the Department to meet such needs and requirements, including the following:

(1) Data collection procedures and capabilities.

(2) Data analysis procedures and capabilities.

(3) Ability of data bases to integrate with one another.

(4) Computer hardware and software capabilities.

(5) Information management systems, including the ability of information management systems to integrate with one another.

(6) Availability and training of the personnel of the Department.

(7) Budgetary needs and resources of the Department for data collection.

(d) REPORT.—Not later than 18 months after the date of the agreement under subsection (a), the National Academy of Sciences shall transmit to Congress a report on the results of the study under this section, including recommendations for improving the Department of Transportation's data collection systems, capabilities, procedures, and analytical hardware and software and recommendations for improving the Department's management information systems.

SEC. 6009. SURFACE TRANSPORTATION RESEARCH AND DEVELOPMENT PLANNING.

(a) FINDINGS.—Congress finds that—

(1) despite an annual expenditure in excess of $10,000,000,000 on surface transportation and its infrastructure, the Federal Government has not developed a clear vision of—

(A) how the surface transportation systems of the 21st century will differ from the present;

(B) how they will interface with each other and with other forms of transportation;

(C) how such systems will adjust to changing American population patterns and lifestyles; and

(D) the role of federally funded research and development in ensuring that appropriate transportation systems are developed and implemented;

(2) the population of the United States is projected to increase by over 30,000,000 people within the next 20 years, mostly in existing major metropolitan areas, which will result in increased traffic congestion within and between urban areas, more accidents, loss of productive time, and increased cost of transportation unless new technologies are developed to improve public transportation within cities and to move people and goods between cities;

(3) 18,000,000 crashes, 4,000,000 injuries, and 45,000 fatalities each year on the Nation's highways are intolerable and substantial research is required in order to develop safer technologies in their most useful and economic forms;

(4) current research and development funding for surface transportation is insufficient to provide the United States with the technologies essential to providing its own advanced transportation systems in the future and, as a result, the United States is becoming increasingly dependent on foreign surface transportation technologies and equipment to meet its expanding surface transportation needs;

(5) a more active, focused surface transportation research and development program involving cooperation among the Federal Government, United States based industry, and United States universities should be organized on a priority basis;

(6) intelligent vehicle highway systems represent the best near-term technology for improving surface transportation for public benefit by providing equipment which can improve traffic flow and provide for enhanced safety;

(7) research and development programs related to surface transportation are fragmented and dispersed throughout government and need to be strengthened and incorporated in an integrated framework within which a consensus on the goals of a national surface transportation research and development program must be developed;

(8) the inability of government agencies to cooperate effectively, the difficulty of obtaining public support for new systems and rights-of-way, and the high cost of capital financing discourage private firms from investing in the development of new transportation equipment and systems; therefore, the Federal Government should sponsor and coordinate research and development of new technologies to provide safer, more convenient, and affordable transportation systems for use in the future; and

(9) an effective high technology applied research and development program should be implemented quickly by strengthening the Department of Transportation research and development staff and by contracting with private industry for specific development projects.

(b) SURFACE TRANSPORTATION RESEARCH AND DEVELOPMENT PLAN.—

(1) DEVELOPMENT.—The Secretary shall develop an integrated national surface transportation research and development plan (hereinafter in this subsection referred to as the "plan").

(2) FOCUS.—The plan shall focus on surface transportation systems needed for urban, suburban, and rural areas in the next decade.

(3) CONTENTS.—The plan shall include the following:

(A) Details of the Department's surface transportation research and development programs, including appropriate funding levels and a schedule with milestones, preliminary cost estimates, appropriate work scopes, personnel requirements, and estimated costs and goals for the next 3 years for each area of research and development.

(B) A 10-year projection of long-term programs in surface transportation research and development and recommendations for the appropriate source or mechanism for surface transportation research and development funding, taking into account recommendations of the Research and Development Coordinating Council of the Department of Transportation and the plan of the National Council on Surface Transportation Research.

(C) Recommendations on changes needed to assure that Federal, State, and local contracting procedures encourage the adoption of advanced technologies developed as a consequence of the research programs in this Act.

(4) OBJECTIVES.—The plan shall provide for the following:

(A) The development, within the shortest period of time possible, of a range of technologies needed to produce convenient, safe, and affordable modes of surface transportation to be available for public use beginning in the mid-1990's.

(B) Maintenance of a long-term advanced research and development program to provide for next generation surface transportation systems.

(5) COOPERATION WITH INDUSTRY.—A primary component of the plan shall be cooperation with industry in carrying out this part and strengthening the manufacturing capabilities of United States firms in order to produce products for surface transportation systems.

(6) CONFORMANCE WITH PLAN.—All surface transportation research and development within the Department of Transportation shall be included in the plan and shall be evaluated in accordance with the plan.

(7) COORDINATION.—In developing the plan and carrying out this part, the Secretary shall consult with and, where appropriate, use the expertise of other Federal agencies and their laboratories.

(8) TRANSMITTAL.—On or before January 15, 1993, and annually thereafter, the Secretary shall transmit the plan to Congress, together with the Secretary's comments and recommendations. The Secretary shall review and update the plan before each transmittal under this paragraph.

(9) RECOMMENDATIONS FOR ALTERNATIVES.—In the event a different technology or alternative program can be identified that would accomplish the same or better results than those described in this part, the Secretary may make recommendations for an alternative, and shall promptly report such alternative recommendations to Congress.

SEC. 6010. NATIONAL COUNCIL ON SURFACE TRANSPORTATION RESEARCH.

(a) ESTABLISHMENT.—There is established a National Council on Surface Transportation Research (hereinafter in this section referred to as the "Council").

(b) FUNCTION.—The Council shall make a complete investigation and study of current surface transportation research and technology developments in the United States and internationally. The Council shall identify gaps and duplication in current surface transportation research efforts, determine research and development areas which may increase efficiency, productivity, safety, and durability in the Nation's surface transportation systems, and propose a national surface transportation research and development plan for immediate implementation.

(c) SPECIFIC MATTERS TO BE ADDRESSED.—The Council shall—

(1) survey current surface transportation public and private research efforts in the United States and internationally;

(2) examine factors which lead to fragmentation of surface transportation research efforts and determine how increased coordination in such efforts may be achieved;

(3) compare the role of the Federal Government with the role of foreign governments in promoting transportation research and evaluate the appropriateness of United States policy on government-sponsored surface transportation research;

(4) identify barriers to innovation in surface transportation systems;

(5) examine the range of funding arrangements available for surface transportation research and development and the level of resources currently available for such purposes; and

(6) identify surface transportation research areas and opportunities, including opportunities for international cooperation offering potential benefit to the Nation's surface transportation system, assess the relative priority of such research areas and plans, and develop a plan for national surface transportation research and development which includes short-range and long-range objectives.

(d) MEMBERSHIP.—

(1) APPOINTMENT.—The Council shall be composed of 7 members as follows:

(A) Three members appointed by the President.

(B) One member appointed by the Speaker of the House of Representatives.

(C) One member appointed by the minority leader of the House of Representatives.

(D) One member appointed by the majority leader of the Senate.

(E) One member appointed by the minority leader of the Senate.

(2) QUALIFICATIONS.—

(A) IN GENERAL.—Members appointed pursuant to paragraph (1) shall be appointed from among individuals involved in surface transportation research, including representatives of Federal, State, and local governments, other public agencies, colleges and universities, public, private, and nonprofit research organizations, and organizations representing transportation providers, shippers, labor, and the financial community.

(B) INTERNATIONAL ADVISOR.—One of the members appointed by the President pursuant to paragraph (1)(A) shall serve as an international research advisor for the Council.

(3) TERMS.—Members shall be appointed for the life of the Council.

(4) VACANCIES.—A vacancy in the Council shall be filled in the manner in which the original appointment was made.

(5) TRAVEL EXPENSES.—Members shall serve without pay but shall receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.

(6) CHAIRMAN.—The Chairman of the Council shall be elected by the members.

(e) STAFF.—The Council may appoint and fix the pay of such personnel as it considers appropriate.

(f) STAFF OF FEDERAL AGENCIES.—Upon request of the Council, the head of any department or agency of the United States may detail, on a reimbursable basis, any of the personnel of that department or agency to the Council to assist it in carrying out its duties under this section.

(g) ADMINISTRATIVE SUPPORT SERVICES.—Upon the request of the Council, the Administrator of General Services shall provide to the Council, on a reimbursable basis, the administrative support services necessary for the Council to carry out its responsibilities under this section.

(h) OBTAINING OFFICIAL DATA.—The Council may secure directly from any department or agency of the United States information necessary for it to carry out its duties under this section. Upon request of the Council, the head of that department or agency shall furnish that information to the Council.

(i) REPORT.—Not later than September 30, 1993, the Council shall transmit to Congress a final report on the results of the investigation and study conducted under this section. The report shall include recommendations of the Council, including a proposed national surface transportation research plan for immediate implementation.

(j) TERMINATION.—The Council shall terminate on the 180th day following the date of transmittal of the report under subsection (i). All records and papers of the Council shall thereupon be delivered to the Administrator of General Services for deposit in the National Archives.

SEC. 6011. RESEARCH ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—Not later than 180 days after the date of transmittal of the report to Congress under section 6010, the Secretary shall establish an independent surface transportation research advisory committee (hereinafter in this section referred to as the "advisory committee").

(b) PURPOSES.—The advisory committee shall provide ongoing advice and recommendations to the Secretary regarding needs, objectives, plans, approaches, content, and accomplishments with respect to short-term and long-term surface transportation research and development. The advisory committee shall also assist in ensuring that such research and development is coordinated with similar research and development being conducted outside of the Department of Transportation.

(c) MEMBERSHIP.—The advisory committee shall be composed of not less than 20 and not more than 30 members appointed by the Secretary from among individuals who are not employees of the Department of Transportation and who are specially qualified to serve on the advisory committee by virtue of their education, training, or experience. A majority of the members of the advisory committee shall be individuals with experience in conducting surface transportation research and development. The Secretary in appointing the members of the advisory committee shall ensure that representatives of Federal, State, and local governments, other public agencies, colleges and universities, public, private, and nonprofit research organizations, and organizations representing transportation providers, shippers, labor, and the financial community are represented on an equitable basis.

(d) CHAIRMAN.—The chairman of the advisory committee shall be designated by the Secretary.

(e) PAY AND EXPENSES.—Members of the advisory committee shall serve without pay, except that the Secretary may allow any member, while engaged in the business of the advisory committee or a subordinate committee, travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.

(f) SUBORDINATE COMMITTEES.—The Secretary shall establish a subordinate committee to the advisory committee to provide advice on advanced highway vehicle technology research and development, and may establish other subordinate committees to provide advice on specific areas of surface transportation research and development. Such subordinate committees shall be subject to subsections (e), (g), and (i) of this section.

(g) ASSISTANCE OF SECRETARY.—Upon request of the advisory committee, the Secretary shall provide such information, administrative services, support staff, and supplies as the Secretary determines to be necessary for the advisory committee to carry out its functions.

(h) REPORTS.—The advisory committee shall, within 1 year after the date of establishment of the advisory committee, and annually thereafter, submit to the Congress a report summarizing its activities under this section.

(i) TERMINATION.—Section 14 of the Federal Advisory Committee Act shall not apply to the advisory committee established under this section.

SEC. 6012. COMMEMORATION OF DWIGHT D. EISENHOWER NATIONAL SYSTEM OF INTERSTATE AND DEFENSE HIGHWAYS.

(a) STUDY.—The Secretary shall conduct a study to determine an appropriate symbol or emblem to be placed on highway signs referring to the Interstate System to commemorate the vision of President Dwight D. Eisenhower in creating the Dwight D. Eisenhower National System of Interstate and Defense Highways.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study under this section.

SEC. 6013. STATE LEVEL OF EFFORT.

(a) STUDY.—Not later than 3 months after the date of the enactment of this Act, the Secretary and the Director of the Bureau of Transportation Statistics shall begin a comprehensive study of the most appropriate and accurate methods of calculating State level of effort in funding surface transportation programs.

(b) CONTENTS.—The study under subsection (a) shall include collection of data relating to State and local revenues collected and spent on surface transportation programs. Such revenues include income from fuel taxes, toll revenues (including bridge, tunnel, and ferry tolls), sales taxes, general fund appropriations, property taxes, bonds, administrative fees, taxes on commercial vehicles, and such other State and local revenue sources as the Director of the Bureau considers appropriate.

(c) REPORT.—Not later than 9 months after the date of the enactment of this Act, the Secretary and the Director of the Bureau shall transmit to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report on the results of the study under this section, including recommendations on the most appropriate measure of State level of effort in funding surface transportation programs and comprehensive data, by State, on revenue sources and amounts collected by States and local governments and devoted to surface transportation programs.

SEC. 6014. EVALUATION OF STATE PROCUREMENT PRACTICES.

(a) STUDY.—The Secretary shall conduct a study to evaluate whether or not current procurement practices of State departments and agencies, including statistical acceptance procedures, are adequate to ensure that highway and transit systems are designed, constructed, and maintained so as to achieve a high quality for such systems at the lowest overall cost.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of the study conducted under this section, together with an assessment of the need for establishing a national policy on transportation quality assurance and recommendations for appropriate legislative and administrative actions.

SEC. 6015. BORDER CROSSINGS.

(a) IDENTIFICATION.—The Secretary, in cooperation with other appropriate Federal agencies, shall identify existing and emerging trade corridors and transportation subsystems that facilitate trade between the United States, Canada, and Mexico.

(b) PRIORITIES AND RECOMMENDATIONS.—The Secretary shall investigate and develop priorities and recommendations for rail, highway, water, and air freight centers and all highway border crossings for States adjoining Canada and Mexico, including the Gulf of Mexico States and other States whose transportation subsystems affect the trade corridors. The recommendations shall provide for improvement and integration of transportation corridor subsystems, methods for achieving the optimum yield from such subsystems, methods for increasing productivity, methods for increasing the use of advanced technologies, and methods to encourage the use of innovative marketing techniques, such as just-in-time deliveries.

(c) MINIMUM ELEMENTS.—The highway border crossing assessment under this section shall at a minimum—

(1) determine whether or not the border crossings are in compliance with current Federal highway regulations and adequately designed for future growth and expansion;

(2) assess their ability to accommodate increased commerce due to the United States-Canada Free Trade Agreement and increased trade between the United States and Mexico; and

(3) assess their ability to accommodate increasing tourism-related traffic between the United States, Canada, and Mexico.

The review shall specifically address issues related to the alignment of United States and adjoining Canadian and Mexican highways at the border crossings, the development of bicycle paths and pedestrian walkways, and potential energy savings to be realized by decreasing truck delays at the border crossings and related parking improvements.

(d) CONSULTATION.—In carrying out this section, the Secretary shall consult with appropriate Governors and representatives of the Republic of Mexico and Canada.

(e) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Secretary shall report to Congress and border State Governors on transportation infrastructure needs, associated costs, and economic impacts identified and propose an agenda to develop systemwide integration of services for national benefits.

SEC. 6016. FUNDAMENTAL PROPERTIES OF ASPHALTS AND MODIFIED ASPHALTS.

(a) STUDIES.—The Administrator of the Federal Highway Administration (hereinafter in this section referred to as the "Administrator") shall conduct studies of the fundamental chemical property and physical property of petroleum asphalts and modified asphalts used in highway construction in the United States. Such studies shall emphasize predicting pavement performance from the fundamental and rapidly measurable properties of asphalts and modified asphalts.

(b) CONTRACTS.—To carry out the studies under subsection (a), the Administrator shall enter into contracts with the Western Research Institute of the University of Wyoming in order to conduct the necessary technical and analytical research in coordination with existing programs which evaluate actual performance of asphalts and modified asphalts in roadways, including the Strategic Highway Research Program.

(c) ACTIVITIES OF STUDIES.—The studies under subsection (a) shall include the following activities:

(1) Fundamental composition studies.

(2) Fundamental physical and rheological property studies.

(3) Asphalt-aggregate interaction studies.

(4) Coordination of composition studies, physical and rheological property studies, and asphalt-aggregate interaction studies for the purposes of predicting pavement performance, including refinements of Strategic Highway Research Program specifications.

(d) TEST STRIP.—

(1) IMPLEMENTATION.—The Administrator, in coordination with the Western Research Institute of the University of Wyoming, shall implement a test strip for the purpose of demonstrating and evaluating the unique energy and environmental advantages of using shale oil modified asphalts under extreme climatic conditions.

(2) FUNDING.—For the purposes of construction activities related to this test strip, the Secretary and the Director of the National Park Service shall make up to $1,000,000 available from amounts made available from the authorization for parkroads and parkways.

(3) REPORT TO CONGRESS.—Not later than November 30, 1995, the Administrator shall transmit to Congress as part of a report under subsection (e) the Administrator's findings on activities conducted under this subsection, including an evaluation of the test strip implemented under this subsection and recommendations for legislation to establish a national program to support United States transportation and energy security requirements.

(e) ANNUAL REPORT TO CONGRESS.—Not later than 180 days after the date of the enactment of this Act, and on or before November 30th of each year beginning thereafter, the Administrator shall transmit to Congress a report of the progress made in implementing this section.

(f) AUTHORIZATION OF APPROPRIATIONS.—The Secretary shall expend from administrative and research funds deducted under section 104(a) of this title at least $3,000,000 for each of fiscal years 1992, 1993, 1994, 1995, and 1996 to carry out subsection (b).

SEC. 6017. RESEARCH AND DEVELOPMENT AUTHORITY OF SECRETARY OF TRANSPORTATION.

Section 301(6) of title 49, United States Code, as redesignated by section 502(a) of this Act, is amended by inserting ", and including basic highway vehicle science" after "to aircraft noise".

SEC. 6018. PURPOSES OF DEPARTMENT OF TRANSPORTATION.

Section 101(b)(4) of title 49, United States Code, is amended by inserting ", through research and development or otherwise" after "advances in transportation".

SEC. 6019. ADVANCED AUTOMOTIVE CONFERENCE AND AWARD.

The Stevenson-Wydler Technology Innovation Act of 1980 is amended by inserting after section 17 the following new sections, and by redesignating subsequent sections and all references thereto accordingly:

"SEC. 18. CONFERENCE ON ADVANCED AUTOMOTIVE TECHNOLOGIES.

"Not later than 180 days after the date of the enactment of this section, the Secretary of Commerce, through the Under Secretary of Commerce for Technology, in consultation with other appropriate officials, shall convene a conference of domestic motor vehicle manufacturers, parts suppliers, Federal laboratories, and motor vehicle users to explore ways in which cooperatively they can improve the competitiveness of the United States motor vehicle industry by developing new technologies which will enhance the safety and energy savings, and lessen the environmental impact of domestic motor vehicles, and the results of such conference shall be published and then submitted to the President and to the Committees on Science, Space, and Technology and Public Works and Transportation of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

"SEC. 19. ADVANCED MOTOR VEHICLE RESEARCH AWARD.

"(a) ESTABLISHMENT.—There is established a National Award for the Advancement of Motor Vehicle Research and Development. The award shall consist of a medal, and a cash prize if funding is available for the prize under subsection (c). The medal shall be of such design and materials and bear inscriptions as is determined by the Secretary of Transportation.

"(b) MAKING AND PRESENTING AWARD.—The Secretary of Transportation shall periodically make and present the award to domestic motor vehicle manufacturers, suppliers, or Federal laboratory personnel who, in the opinion of the Secretary of Transportation, have substantially improved domestic motor vehicle research and development in safety, energy savings, or environmental impact. No person may receive the award more than once every 5 years.

"(c) FUNDING FOR AWARD.—The Secretary of Transportation may seek and accept gifts of money from private sources for the purpose of making cash prize awards under this section. Such money may be used only for that purpose, and only such money may be used for that purpose.".

SEC. 6020. UNDERGROUND PIPELINES.

(a) STUDY.—The Secretary shall conduct a study to evaluate the feasibility, costs, and benefits of constructing and operating pneumatic capsule pipelines for underground movement of commodities other than hazardous liquids and gas.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study conducted under this section.

SEC. 6021. BUS TESTING.

(a) DEFINITION OF NEW BUS MODEL.—Section 12(h) of the Federal Transit Act (49 U.S.C. 1608(h)) is amended by inserting "(including any model using alternative fuels)" after "means a bus model".

(b) DUTIES OF BUS TESTING FACILITY.—Section 317(b)(1) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (49 U.S.C. App. 1608 note) is amended—

(1) by inserting "(including braking performance)" after "performance"; and

(2) by inserting "emissions," after "fuel economy,".

(c) FUNDING.—The first sentence of section 317(b)(5) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 is amended by inserting before the period at the end the following: ", for expansion of such facility $1,500,000 for fiscal year 1992, and for establishment of a revolving fund under paragraph (6) $2,500,000 for fiscal year 1992".

(d) REVOLVING LOAN FUND.—Section 317(b) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 is amended by adding at the end the following new paragraph:

"(6) REVOLVING LOAN FUND.—The Secretary shall establish a bus testing revolving loan fund with amounts authorized for such purpose under paragraph (5). The Secretary shall make available as repayable advances amounts from the fund to the person described in paragraph (3) for operating and maintaining the facility.".

SEC. 6022. NATIONAL TRANSIT INSTITUTE.

The Federal Transit Act (49 U.S.C. App. 1601–1621) is amended by adding after section 28 the following new section:

"SEC. 29. NATIONAL TRANSIT INSTITUTE.

"(a) ESTABLISHMENT.—The Secretary shall make grants to Rutgers University to establish a national transit institute. The institute shall develop and administer, in cooperation with the Federal Transit Administration, State transportation departments, public transit agencies, and national and international entities, training programs of instruction for Federal, State, and local transportation employees, United States citizens, and foreign nationals engaged or to be engaged in Federal-aid transit work. Such programs may include courses in recent developments, techniques, and procedures relating to transit planning, management, environmental factors, acquisition and joint use of rights-of-way, engineering, procurement strategies for transit systems, turn-key approaches to implementing transit systems, new technologies, emission reduction technologies, means of making transit accessible to individuals with disabilities, construction, maintenance, contract administration, and inspection. The Secretary shall delegate to the institute the authority vested in the Secretary for the development and conduct of educational and training programs relating to transit.

"(b) FUNDING.—Not to exceed one-half of 1 percent of all funds made available for a fiscal year beginning after September 30, 1991, to a State or public transit agency in the State for carrying out sections 3 and 9 of the Federal Transit Act shall be available for expenditure by the State and public transit agencies in the State, subject to approval by the Secretary, for payment of not to exceed 80 percent of the cost of tuition and direct educational expenses in connection with the education and training of State and local transportation department employees as provided in this section.

"(c) PROVISION OF TRAINING.—Education and training of Federal, State, and local transportation employees authorized by this section shall be provided—

"(1) by the Secretary at no cost to the States and local governments for those subject areas which are a Federal program responsibility; or

"(2) in any case where such education and training are to be paid for under subsection (b) of this section, by the State, subject to the approval of the Secretary, through grants and contracts with public and private agencies, other institutions, individuals, and the institute.

"(d) FUNDING.—The Secretary shall make available in equal amounts from funds provided under section 21(c)(3) and 21(c)(4) $3,000,000 per fiscal year for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 for carrying out this section. Notwithstanding any other provision of law, approval by the Secretary of a grant with funds made available under this subsection shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project.".

SEC. 6023. UNIVERSITY TRANSPORTATION CENTERS.

(a) ADDITIONAL RESPONSIBILITY.—Section 11(b)(2) of the Federal Transit Act (49 U.S.C. App. 1607c(b)(2)) is amended by inserting "transportation safety and" after "training concerning".

(b) ESTABLISHMENT OF NEW CENTERS; PROGRAM COORDINATION.—Section 11(b) of such Act (49 U.S.C. App. 1607c(b)) is amended by striking paragraphs (7) and (8), by redesignating paragraphs (9) and (10) as paragraphs (14) and (15), respectively, and by inserting after paragraph (6) the following new paragraphs:

"(7) NATIONAL CENTER.—To accelerate the involvement and participation of minority individuals and women in transportation-related professions, particularly in the science, technology, and engineering disciplines, the Secretary shall make grants under this section to Morgan State University to establish a national center for transportation management, research, and development. Such center shall give special attention to the design, development, and implementation of research, training, and technology transfer activities to increase the number of highly skilled minority individuals and women entering the transportation workforce.

"(8) CENTER FOR TRANSPORTATION AND INDUSTRIAL PRODUCTIVITY.—

"(A) IN GENERAL.—The Secretary shall make grants under this section to the New Jersey Institute of Technology to establish and operate a center for transportation and industrial productivity. Such center shall conduct research and development activities which focus on methods to increase surface transportation capacity, reduce congestion, and reduce costs for transportation system users and providers through the use of transportation management systems.

"(B) JAMES AND MARLENE HOWARD TRANSPORTATION INFORMATION CENTER.—

"(i) GRANT.—The Secretary shall make a grant to Monmouth College, West Long Branch, New Jersey, for modification and reconstruction of Building Number 500 at Monmouth College.

"(ii) ASSURANCES.—Before making a grant under clause (i), the Secretary shall receive assurances from Monmouth College that—

"(I) the building referred to in clause (i) will be known and designated as the 'James and Marlene Howard Transportation Information Center'; and

"(II) transportation-related instruction and research in the fields of computer science, electronic engineering, mathematics, and software engineering conducted at the building referred to in clause (i) will be coordinated with the Center for Transportation and Industrial Productivity at the New Jersey Institute of Technology.

"(iii) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) $2,242,000 in fiscal year 1992 for making the grant under clause (i).

"(iv) APPLICABILITY OF TITLE 23.—Funds authorized by clause (iii) shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code; except that the Federal share of the cost of activities conducted with the grant under clause (i) shall be 80 percent and such funds shall remain available until expended. Funds authorized by clause (iii) shall not be subject to any obligation limitation.

"(9) NATIONAL RURAL TRANSPORTATION STUDY CENTER.—The Secretary shall make grants under this section to the University of Arkansas to establish a national rural transportation center. Such center shall conduct research, training, and technology transfer activities in the development, management, and operation of intermodal transportation systems in rural areas.

"(10) NATIONAL CENTER FOR ADVANCED TRANSPORTATION TECHNOLOGY.—

"(A) IN GENERAL.—The Secretary shall make grants under paragraph (10) to the University of Idaho to establish a National Center for Advanced Transportation Technology. Such center shall be established and operated in partnership with private industry and shall conduct industry driven research and development activities which focus on transportation-related manufacturing and engineering processes, materials, and equipment.

"(B) GRANTS.—The Secretary shall make grants to the University of Idaho, Moscow, Idaho, for planning, design, and construction of a building in which the research and development activities of the National Center for Advanced Transportation Technology may be conducted.

"(C) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) $2,500,000 for fiscal year 1992, $3,000,000 for fiscal year 1993, and $2,500,000 for fiscal year 1994 for making the grants under subparagraph (B).

"(D) APPLICABILITY OF TITLE 23.—Funds authorized by subparagraph (C) shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of activities conducted with the grant under subparagraph (B) shall be 80 percent and such funds shall remain available until expended. Funds authorized by subparagraph (B) shall not be subject to any obligation limitation.

"(E) APPLICABILITY OF GRANT REQUIREMENTS.—Any grant entered into under this paragraph shall not be subject to the requirements of subsection (b) of this section.

"(11) PROGRAM COORDINATION.—

"(A) IN GENERAL.—The Secretary shall provide for the coordination of research, education, training, and technology transfer activities carried out by grant recipients under this subsection, the dissemination of the results of such research, and the establishment and operation of a clearinghouse between such centers and the transportation industry. The Secretary shall review and evaluate programs carried out by such grant recipients at least annually.

"(B) FUNDING.—Not to exceed 1 percent of the funds made available from Federal sources to carry out this subsection may be used by the Secretary to carry out this paragraph.

"(12) OBLIGATION CEILING.—Amounts authorized out of the Highway Trust Fund (other than the Mass Transit Account) to carry out this subsection shall be subject to obligation limitations established by section 102 of the Intermodal Surface Transportation Efficiency Act of 1991.

"(13) AUTHORIZATIONS.—There shall be available from the Highway Trust Fund (other than the Mass Transit Account) to carry out this section $5,000,000 for fiscal year 1992 and $6,000,000 for each of the fiscal years 1993 through 1997. Notwithstanding any other provision of law, approval by the Secretary of a grant under this section shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project."

SEC. 6024. UNIVERSITY RESEARCH INSTITUTES.

Section 11 of the Federal Transit Act (49 U.S.C. App. 1607c) is amended by adding at the end the following new subsection:

"(c) UNIVERSITY RESEARCH INSTITUTES.—

"(1) INSTITUTE FOR NATIONAL SURFACE TRANSPORTATION POLICY STUDIES.—The Secretary shall make grants under this section to San Jose State University to establish and operate an institute for national surface transportation policy studies. Such institute shall—

"(A) include both male and female students of diverse socioeconomic and ethnic backgrounds who are seeking careers in the development and operations of surface transportation programs; and

"(B) conduct research and development activities to analyze ways of improving aspects of the development and operation of the Nation's surface transportation programs.

"(2) INFRASTRUCTURE TECHNOLOGY INSTITUTE.—The Secretary shall make grants under this section to Northwestern University to establish and operate an institute for the study of techniques to evaluate and monitor infrastructure conditions, improve information systems for infrastructure construction and management, and study advanced materials and automated processes for construction and rehabilitation of public works facilities.

"(3) URBAN TRANSIT INSTITUTE.—The Secretary shall make grants under this section to North Carolina A. and T. State University through the Institute for Transportation Research and Education and the University of South Florida and a consortium of Florida A and M, Florida State University, and Florida International University to establish and operate an interdisciplinary institute for the study and dissemination of techniques to address the diverse transportation problems of urban areas experiencing significant and rapid growth.

"(4) INSTITUTE FOR INTELLIGENT VEHICLE-HIGHWAY CONCEPTS.—The Secretary shall make grants under this section to the University of Minnesota, Center for Transportation Studies, to establish and operate a national institute for intelligent vehicle-highway concepts. Such institute shall conduct research and recommend development activities which focus on methods to increase roadway capacity, enhance safety, and reduce negative environmental effects of transportation facilities through the use of intelligent vehicle-highway systems technologies.

"(5) INSTITUTE FOR TRANSPORTATION RESEARCH AND EDUCATION.—The Secretary shall make grants under this section to the University of North Carolina to conduct research and development and to direct technology transfer and training for State and local transportation agencies to improve the overall surface transportation infrastructure.

"(6) FUNDING.—There is authorized to be appropriated out of the Highway Trust Fund, other than the Mass Transit Account, for each of fiscal years 1992, 1993, 1994, 1995, 1996, and 1997 $250,000 per fiscal year to carry out paragraph (1), $3,000,000 per fiscal year to carry out paragraph (2), $1,000,000 per fiscal year to carry out paragraph (3), $1,000,000 per fiscal year to carry out paragraph (4), and $1,000,000 per fiscal year to carry out paragraph (5).

"(7) APPLICABILITY OF TITLE 23.—Funds authorized by this subsection shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code.".

PART B—INTELLIGENT VEHICLE-HIGHWAY SYSTEMS ACT

SEC. 6051. SHORT TITLE.

This part may be cited as the "Intelligent Vehicle-Highway Systems Act of 1991".

SEC. 6052. ESTABLISHMENT AND SCOPE OF PROGRAM.

(a) ESTABLISHMENT.—Subject to the provisions of this part, the Secretary shall conduct a program to research, develop, and operationally test intelligent vehicle-highway systems and promote implementation of such systems as a component of the Nation's surface transportation systems.

(b) GOALS.—The goals of the program to be carried out under this part shall include, but not be limited to—

(1) the widespread implementation of intelligent vehicle-highway systems to enhance the capacity, efficiency, and safety of the Federal-aid highway system and to serve as an alternative to additional physical capacity of the Federal-aid highway system;

(2) the enhancement, through more efficient use of the Federal-aid highway system, of the efforts of the several States to attain air quality goals established pursuant to the Clean Air Act;

(3) the enhancement of safe and efficient operation of the Nation's highway systems with a particular emphasis on aspects of systems that will increase safety and identification of aspects of the system that may degrade safety;

(4) the development and promotion of intelligent vehicle-highway systems and an intelligent vehicle-highway systems industry in the United States, using authority provided under section 307 of title 23, United States Code;

(5) the reduction of societal, economic, and environmental costs associated with traffic congestion;

(6) the enhancement of United States industrial and economic competitiveness and productivity by improving the free flow of people and commerce and by establishing a significant United States presence in an emerging field of technology;

(7) the development of a technology base for intelligent vehicle-highway systems and the establishment of the capability to perform demonstration experiments, using existing national laboratory capabilities where appropriate; and

(8) the facilitation of the transfer of transportation technology from national laboratories to the private sector.

SEC. 6053. GENERAL AUTHORITIES AND REQUIREMENTS.

(a) COOPERATION.—In carrying out the program under this part, the Secretary shall foster use of the program as a key component of the Nation's surface transportation systems and strive to transfer federally owned or patented technology to State and local governments and the United States private sector. As appropriate, in carrying out the program under this part, the Secretary shall consult with the Secretary of Commerce, the Administrator of the Environmental Protection Agency, the Director of the National Science Foundation, and the heads of other interested Federal departments and agencies and shall maximize the involvement of the United States private sector, colleges and universities, and State and local governments in all aspects of the program, including design, conduct (including operations and maintenance), evaluation, and financial or in-kind participation.

(b) STANDARDS.—The Secretary shall develop and implement standards and protocols to promote the widespread use and evaluation of intelligent vehicle-highway systems technology as a component of the Nation's surface transportation systems. To the extent practicable, such standards and protocols shall promote compatibility among intelligent vehicle-highway systems technologies implemented throughout the States. In carrying out this subsection, the Secretary may use the services of such existing standards-setting organizations as the Secretary determines appropriate.

(c) EVALUATION GUIDELINES.—The Secretary shall establish guidelines and requirements for the evaluation of field and related operational tests carried out pursuant to section 6055. Any survey, questionnaire, or interview which the Secretary considers necessary to carry out the evaluation of such tests shall not be subject to the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.).

(d) INFORMATION CLEARINGHOUSE.—

(1) ESTABLISHMENT.—The Secretary shall establish and maintain a repository for technical and safety data collected as a result of federally sponsored projects carried out pursuant to this part and shall make, upon request, such information (except for proprietary information and data) readily available to all users of the repository at an appropriate cost.

(2) DELEGATION OF AUTHORITY.—The Secretary may delegate the responsibility of the Secretary under this subsection, with continuing oversight by the Secretary, to an appropriate entity not within the Department of Transportation. If the Secretary delegates such responsibility, the entity to which such responsibility is delegated shall be eligible for Federal assistance under this part.

(e) ADVISORY COMMITTEES.—The Secretary may utilize one or more advisory committees in carrying out this part. Any advisory committee so utilized shall be subject to the Federal Advisory Committee Act. Funding provided for any such committee shall be available from moneys appropriated for advisory committees as specified in relevant appropriations Acts and from funds allocated for research, development, and implementation activities in connection with the intelligent vehicle-highway systems program under this part.

SEC. 6054. STRATEGIC PLAN, IMPLEMENTATION, AND REPORT TO CONGRESS.

(a) STRATEGIC PLAN.—

(1) DEVELOPMENT AND IMPLEMENTATION.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall develop, submit to Congress, and commence implementation of a plan for the intelligent vehicle-highway systems program.

(2) SCOPE.—The plan shall—

(A) specify the goals, objectives, and milestones of the intelligent vehicle-highway program and how specific projects relate to the goals, objectives, and milestones, including consideration of the 5-, 10-, and 20-year timeframes for the goals and objectives;

(B) detail the status of and challenges and nontechnical constraints facing the program;

(C) establish a course of action necessary to achieve the program's goals and objectives;

(D) provide for the development of standards and protocols to promote and ensure compatibility in the implementation of intelligent vehicle-highway systems technologies; and

(E) provide for the accelerated use of advanced technology to reduce traffic congestion along heavily populated and traveled corridors.

(b) INTELLIGENT VEHICLE HIGHWAY SYSTEMS.—The Secretary shall develop an automated highway and vehicle prototype from which future fully automated intelligent vehicle-highway systems can be developed. Such development shall include research in human factors to ensure the success of the man-machine relationship. The goal of this program is to have the first fully automated roadway or an automated test track in operation by 1997. This system shall accommodate installation of equipment in new and existing motor vehicles.

(c) IMPLEMENTATION REPORTS.—

(1) IN GENERAL.—Not later than 2 years after the date of the enactment of this Act, and annually thereafter, the Secretary shall submit to Congress a report on implementation of the plan developed under subsection (a).

(2) SCOPE OF IMPLEMENTATION REPORTS.—In preparing reports under this subsection, the Secretary shall—

(A) analyze the possible and actual accomplishments of intelligent vehicle-highway systems projects in achieving congestion, safety, environmental, and energy conservation goals and objectives of the program;

(B) specify cost-sharing arrangements made, including the scope and nature of Federal investment, in any research, development, or implementation project under the program;

(C) assess nontechnical problems and constraints identified as a result of each such implementation project; and

(D) include, if appropriate, any recommendations of the Secretary for legislation or modification to the plan developed under subsection (a).

(d) NONTECHNICAL CONSTRAINTS.—

(1) REPORT TO CONGRESS.—In cooperation with the Attorney General and the Secretary of Commerce, the Secretary shall prepare and submit, not later than 2 years after the date of the enactment of this Act, a report to Congress addressing the nontechnical constraints and barriers to implementation of the intelligent vehicle-highway systems program.

(2) SCOPE OF REPORT.—The report shall—

(A) address antitrust, privacy, educational and staffing needs, patent, liability, standards, and other constraints, barriers, or concerns relating to the intelligent vehicle-highway systems program;

(B) recommend legislative and administrative actions necessary to further the program; and

(C) address ways to further promote industry and State and local government involvement in the program.

(3) UPDATE OF REPORT.—Not later than 5 years after the date of the enactment of this Act, the Secretary shall prepare and submit to Congress an update of the report under this subsection.

SEC. 6055. TECHNICAL, PLANNING, AND OPERATIONAL TESTING PROJECT ASSISTANCE.

(a) TECHNICAL ASSISTANCE AND INFORMATION.—The Secretary may provide planning and technical assistance and information to State and local governments seeking to use and evaluate intelligent vehicle-highway systems technologies. In doing so, the Secretary shall assist State and local officials in developing plans for areawide traffic management control centers, necessary laws pertaining to establishment and implementation of such systems, and plans for infrastructure for such systems and in conducting other activities necessary for the intelligent vehicle-highway systems program.

(b) PLANNING GRANTS.—The Secretary may make grants to State and local governments for feasibility and planning studies for development and implementation of intelligent vehicle-highway systems. Such grants shall be made at such time, in such amounts, and subject to such conditions as the Secretary may determine.

(c) ELIGIBILITY OF CERTAIN TRAFFIC MANAGEMENT ENTITIES.—Any interagency traffic and incident management entity, including independent public authorities or agencies, contracted by a State department of transportation for implementation of a traffic management system for a designated corridor is eligible to receive Federal assistance under this part through the State department of transportation.

(d) OPERATIONAL TESTING PROJECTS.—The Secretary may make grants to non-Federal entities, including State and local governments, universities, and other persons, for operational tests relating to intelligent vehicle-highway systems. In deciding which projects to fund under this subsection, the Secretary shall—

(1) give the highest priority to those projects that—

(A) will contribute to the goals and objectives specified in plan developed under section 6054; and

(B) will minimize the relative percentage of Federal contributions (excluding funds apportioned under section 104 of title 23, United States Code) to total project costs;

(2) seek to fund operational tests that advance the current state of knowledge and, where appropriate, build on successes achieved in previously funded work involving such systems; and

(3) require that operational tests utilizing Federal funds under this part have a written evaluation of the intelligent vehicle-highway systems technologies investigated and of the results of the investigation which is consistent with the guidelines developed pursuant to section 6053(c).

(e) AUTHORITY TO USE FUNDS.—Each State and eligible local entity is authorized to use funds provided under this part for implementation purposes in connection with the intelligent vehicle-highway systems program.

SEC. 6056. APPLICATIONS OF TECHNOLOGY.

(a) IVHS CORRIDORS PROGRAM.—The Secretary shall designate transportation corridors in which application of intelligent vehicle-highway systems will have particular benefit and, through financial and technical assistance under this part, shall assist in the development and implementation of such systems.

(b) PRIORITIES.—In providing funding for corridors under this section, the Secretary shall allocate not less than 50 percent of the funds made available to carry out this section to eligible State or local entities for application of intelligent vehicle-highway systems in not less than 3 but not more than 10 corridors with the following characteristics:

(1) Traffic density (as a measurement of vehicle miles traveled per highway mile) at least 1.5 times the national average for such class of highway.

(2) Severe or extreme nonattainment for ozone under the Clean Air Act, as determined by the Administrator of the Environmental Protection Agency.

(3) A variety of types of transportation facilities, such as highways, bridges, tunnels, and toll and nontoll facilities.

(4) Inability to significantly expand capacity of existing surface transportation facilities.

(5) A significant mix of passenger, transit, and commercial motor carrier traffic.

(6) Complexity of traffic patterns.

(7) Potential contribution to the implementation of the Secretary's plan developed under section 6054.

(c) OTHER CORRIDORS AND AREAS.—After the allocation pursuant to subsection (b), the balance of funds made available to carry out this section shall be allocated to eligible State and local entities for application of intelligent vehicle-highway systems in corridors and areas where the application of such systems and associated technologies will make a potential contribution to the implementation of the Secretary's plan for the intelligent vehicle-highway systems program under section 6054 and demonstrate benefits related to any of the following:

(1) Improved operational efficiency.

(2) Reduced regulatory burden.

(3) Improved commercial productivity.

(4) Improved safety.

(5) Enhanced motorist and traveler performance.

Such corridors and areas may be in both urban and rural areas and may be interstate and intercity corridors. Urban corridors shall have a significant number of the characteristics set forth in subsection (b).

SEC. 6057. COMMERCIAL MOTOR VEHICLE SAFETY TECHNOLOGY.

(a) STUDY.—The Secretary shall conduct a study to evaluate technology which is designed for installation on a commercial motor vehicle to provide the individual operating the vehicle with a warning if a turn, lane change, or other intended movement of the vehicle by the operator will place the vehicle in the path of an adjacent object or vehicle.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report containing findings and recommendations concerning the study conducted under this section.

SEC. 6058. FUNDING.

(a) IVHS CORRIDORS PROGRAM.—There is authorized to be appropriated to the Secretary for carrying out section 6056, out of the Highway Trust Fund (other than the Mass Transit Account), $71,000,000 for fiscal year 1992 and $86,000,000 per fiscal year for each of fiscal years 1993 through 1997. In addition to amounts made available by subsection (b), any amounts authorized by this subsection and not allocated by the Secretary for carrying out section 6056 for fiscal years 1992 and 1993 may be used by the Secretary for carrying out other activities authorized under this part.

(b) OTHER IVHS ACTIVITIES.—There is authorized to be appropriated to the Secretary for carrying out this part (other than section 6056), out of the Highway Trust Fund (other than the Mass Transit Account), $23,000,000 for fiscal year 1992 and $27,000,000 per fiscal year for each of fiscal years 1993 through 1997.

(c) RESERVATION OF FUNDS.—Of the funds made available pursuant to subsection (a), not less than 5 percent shall only be available for innovative, high-risk operational or analytical tests that do not attract substantial non-Federal commitments but are determined by the Secretary as having significant potential to help accomplish long-term goals established by the plan developed pursuant to section 6054.

(d) FEDERAL SHARE PAYABLE.—The Federal share payable on account of activities carried out under this part shall not exceed 80 percent of the cost of such activities. The Secretary may waive application of the preceding sentence for projects undertaken pursuant to subsection (c) of this section. The Secretary shall seek maximum private participation in the funding of such activities.

(e) APPLICABILITY OF TITLE 23.—Funds authorized by this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code; except that the Federal share of the cost of any activity under this section shall be determined in accordance with this section and such funds shall remain available until expended. Such funds shall be subject to the obligation limitation imposed by section 102 of this Act.

SEC. 6059. DEFINITIONS.

For the purposes of this part, the following definitions apply:

(1) IVHS.—The term "intelligent vehicle-highway systems" means the development or application of electronics, communications, or information processing (including advanced traffic management systems, commercial vehicle operations, advanced traveler information systems, commercial and advanced vehicle control systems, advanced public transportation systems, satellite vehicle tracking systems, and advanced vehicle communications systems) used singly or in combination to improve the efficiency and safety of surface transportation systems.

(2) CORRIDOR.—The term "corridor" means any major transportation route which includes parallel limited access highways, major arterials, or transit lines; and, with regard to traffic incident management, such term may include more distant transportation routes that can serve as viable options to each other in the event of traffic incidents.

(3) STATE.—The term "State" has the meaning such term has under section 101 of title 23, United States Code.

PART C—ADVANCED TRANSPORTATION SYSTEMS AND ELECTRIC VEHICLES

SEC. 6071. ADVANCED TRANSPORTATION SYSTEM AND ELECTRIC VEHICLE RESEARCH AND DEVELOPMENT CONSORTIA.

(a) GENERAL AUTHORITY.—

(1) PROPOSAL.—Not later than 3 months after the date of the enactment of this Act, an eligible consortium may submit to the Secretary a proposal for receiving grants made available under this section for electric vehicle and advanced transportation research and development.

(2) CONTENTS OF PROPOSAL.—A proposal submitted under paragraph (1) shall include—

(A) a description of the eligible consortium making the proposal;

(B) a description of the type of additional members targeted for inclusion in the consortium;

(C) a description of the eligible consortium's ability to contribute significantly to the development of vehicles, transportation systems, or related subsystems and equipment, that are competitive in the commercial market and its ability to enable serial production processes;

(D) a description of the eligible consortium's financing scheme and business plan, including any projected contributions of State and local governments and other parties;

(E) assurances, by letter of credit or other acceptable means, that the eligible consortium is able to meet the requirement contained in subsection (b)(6); and

(F) any other information the Secretary requires in order to make selections under this section.

(3) GRANT AUTHORITY.—Except as provided in paragraph (4), not later than 6 months after the date of the enactment of this Act, the Secretary shall award grants to not less than 3 eligible consortia. No one eligible consortium may receive more than one-third of the funds made available for grants under this section.

(4) EXTENSION.—If fewer than 3 complete applications from eligible consortia have been received in time to permit the awarding of grants under paragraph (3), the Secretary may extend the deadlines for the submission of applications and the awarding of grants.

(b) ELIGIBILITY CRITERIA.—To be qualified to receive assistance under this section, an eligible consortium shall—

(1) be organized for the purpose of designing and developing electric vehicles and advanced transportation systems, or related systems or equipment, or for the purpose of enabling serial production processes;

(2) facilitate the participation in the consortium of small- and medium-sized businesses in conjunction with large established manufacturers, as appropriate;

(3) to the extent practicable, include participation in the consortium of defense and aerospace suppliers and manufacturers;

(4) to the extent practicable, include participation in the consortium of entities located in areas designated as nonattainment areas under the Clean Air Act;

(5) be designed to use State and Federal funding to attract private capital in the form of grants or investments to further the purposes stated in paragraph (1); and

(6) ensure that at least 50 percent of the costs of the consortium, subject to the requirements of subsection (a)(3), be provided by non-Federal sources.

(c) SERVICES.—Services to be performed by an eligible consortium using amounts from grants made available under this part shall include—

(1) obtaining funding for the acquisition of plant sites, conversion of plant facilities, and acquisition of equipment for the development or manufacture of advanced transportation systems or electric vehicles, or other related systems or equipment, especially for environmentally benign and cost-effective manufacturing processes;

(2) obtaining low-cost, long-term loans or investments for the purposes described in paragraph (1);

(3) recruiting and training individuals for electric vehicle- and transit-related technical design, manufacture, conversion, and maintenance;

(4) conducting marketing surveys for services provided by the consortium;

(5) creating electronic access to an inventory of industry suppliers and serving as a clearinghouse for such information;

(6) consulting with respect to applicable or proposed Federal motor vehicle safety standards;

(7) creating access to computer architecture needed to simulate crash testing and to design internal subsystems and related infrastructure for electric vehicles and advanced transportation systems to meet applicable standards; and

(8) creating access to computer protocols that are compatible with larger manufacturers' systems to enable small- and medium-sized suppliers to compete for contracts for advanced transportation systems and electric vehicles and other related systems and equipment.

SEC. 6072. DEFINITIONS.

For purposes of this part, the following definitions apply:

(1) ADVANCED TRANSPORTATION SYSTEM.—The term "advanced transportation system" means a system of mass transportation, such as an electric trolley bus or alternative fuels bus, which employs advanced technology in order to function cleanly and efficiently;

(2) ELECTRIC VEHICLE.—The term "electric vehicle" means a passenger vehicle, such as a van, primarily powered by an electric motor that draws current from rechargeable storage batteries, fuel cells, or other sources of electrical current, and that may include a nonelectrical source of supplemental power; and

(3) ELIGIBLE CONSORTIUM.—The term "eligible consortium" means a consortium of—

(A) businesses incorporated in the United States;

(B) public or private educational or research organizations located in the United States;

(C) entities of State or local governments in the United States; or

(D) Federal laboratories.

SEC. 6073. FUNDING.

Funds shall be made available to carry out this part as provided in section 21(b)(3)(E) of the Federal Transit Act.

TITLE VII—AIR TRANSPORTATION

SEC. 7001. SHORT TITLE.

This title may be cited as the "Metropolitan Washington Airports Act Amendments of 1991".

SEC. 7002. BOARD OF REVIEW.

(a) COMPOSITION.—Section 6007(f)(1) of the Metropolitan Washington Airports Act of 1986 (49 U.S.C. App. 2456(f)(1)) is amended to read as follows:

"(1) COMPOSITION.—The board of directors shall be subject to review of its actions and to requests, in accordance with this subsection, by a Board of Review of the Airports Authority. The Board of Review shall be established by the board of directors to represent the interests of users of the Metropolitan Washington Airports and shall be composed of 9 members appointed by the board of directors as follows:

"(A) 4 individuals from a list provided by the Speaker of the House of Representatives.

"(B) 4 individuals from a list provided by the President pro tempore of the Senate.

"(C) 1 individual chosen alternately from a list provided by the Speaker of the House of Representatives and from a list provided by the President pro tempore of the Senate.

In addition to the recommendations on a list provided under this paragraph, the board of directors may request additional recommendations.".

(b) TERMS AND QUALIFICATIONS.—Section 6007(f)(2) of such Act is amended to read as follows:

"(2) TERMS, VACANCIES, AND QUALIFICATIONS.—

"(A) TERMS.—Members of the Board of Review appointed under paragraphs (1)(A) and (1)(B) shall be appointed for terms of 6 years. Members of the Board of Review appointed under paragraph (1)(C) shall be appointed for terms of 2 years. A member may serve after the expiration of that member's term until a successor has taken office.

"(B) VACANCIES.—A vacancy in the Board of Review shall be filled in the manner in which the original appointment was made. Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of such term.

"(C) QUALIFICATIONS.—Members of the Board of Review shall be individuals who have experience in aviation matters and in addressing the needs of airport users and who themselves are frequent users of the Metropolitan Washington Airports. A member of the Board of Review shall be a registered voter of a State other than Maryland, Virginia, or the District of Columbia.

"(D) EFFECT OF MORE THAN 4 VACANCIES.—At any time that the Board of Review established under this subsection has more than 4 vacancies and lists have been provided for appointments to fill such vacancies, the Airports Authority shall have no authority to perform any of the actions that are required by paragraph (4) to be submitted to the Board of Review.".

(c) PROCEDURES.—Section 6007(f)(3) of such Act is amended by inserting "and for the selection of a Chairman" after "proxy voting".

(d) REVIEW PROCEDURE.—

(1) ACTIONS SUBJECT TO REVIEW.—Section 6007(f)(4)(B) of such Act is amended—

(A) by inserting "and any amendments thereto" before the semicolon at the end of clause (i);

(B) by inserting "and an annual plan for issuance of bonds and any amendments to such plan" before the semicolon at the end of clause (ii);

(C) in clause (iv) by striking ", including any proposal for land acquisition; and" and inserting a semicolon;

(D) by striking the period at the end of clause (v) and inserting a semicolon; and

(E) by adding at the end the following new clauses:

"(vi) the award of a contract (other than a contract in connection with the issuance or sale of bonds which is executed within 30 days of the date of issuance of the bonds) which has been approved by the board of directors of the Airports Authority;

"(vii) any action of the board of directors approving a terminal design or airport layout or modification of such design or layout; and

"(viii) the authorization for the acquisition or disposal of land and the grant of a long-term easement.".

(2) RECOMMENDATIONS.—Section 6007(f)(4) of such Act is amended by striking subparagraphs (C) and (D) and inserting the following new subparagraphs:

"(C) RECOMMENDATIONS.—The Board of Review may make to the board of directors recommendations regarding an action within either (i) 30 calendar days of its submission under this paragraph; or (ii) 10 calendar days (excluding Saturdays, Sundays, and holidays, and any day on which neither House of Congress is in session because of an adjournment sine die, a recess of more than 3 days, or an adjournment of more than 3 days) of its submission under this paragraph; whichever period is longer. Such recommendations may include a recommendation that the action not take effect. If the Board of Review does not make a recommendation in the applicable review period under this subparagraph or if at any time in such review period the Board of Review decides that it will not make a recommendation on an action, the action may take effect.

"(D) EFFECT OF RECOMMENDATION.—

"(i) RESPONSE.—An action with respect to which the Board of Review has made a recommendation in accordance with subparagraph (C) may only take effect if the board of directors adopts such recommendation or if the board of directors has evaluated and responded, in writing, to the Board of Review with respect to such recommendation and transmits such action, evaluation, and response to Congress in accordance with clause (ii) and the 60-calendar day period described in clause (ii) expires.

"(ii) NONADOPTION OF RECOMMENDATION.—If the board of directors does not adopt a recommendation of the Board of Review regarding an action, the board of directors shall transmit to the Speaker of the House of Representatives and the President of the Senate a detailed description of the action, the recommendation of the Board of Review regarding the action, and the evaluation and response of the board of directors to such recommendation, and the action

may not take effect until the expiration of 60 calendar days (excluding Saturdays, Sundays, and holidays, and any day on which neither House of Congress is in session because of an adjournment sine die, a recess of more than 3 days, or an adjournment of more than 3 days) beginning on the day on which the board of directors makes such transmission to the Speaker of the House of Representatives and the President of the Senate.

"(E) LIMITATION ON EXPENDITURES.—Unless an annual budget for a fiscal year has taken effect in accordance with this paragraph, the Airports Authority may not obligate or expend any money in such fiscal year, except for (i) debt service on previously authorized obligations, and (ii) obligations and expenditures for previously authorized capital expenditures and routine operating expenses.".

(3) CONFORMING AMENDMENT.—Section 6007(f)(4) of such Act is further amended by striking "DISAPPROVAL PROCEDURE.—" and inserting "REVIEW PROCEDURE.—".

(e) CONGRESSIONAL DISAPPROVAL PROCEDURE.—Section 6007(f) of such Act is amended by redesignating paragraphs (5), (6), (7), and (8) as paragraphs (6), (7), (8), and (9), respectively, and by inserting after paragraph (4) the following new paragraph:

"(5) CONGRESSIONAL DISAPPROVAL PROCEDURE.—

"(A) IN GENERAL.—This paragraph is enacted by Congress—

"(i) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such these provisions are deemed a part of the rule of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by this paragraph; and they supersede other rules only to the extent that they are inconsistent therewith; and

"(ii) with full recognition of the constitutional right of either House to change the rule (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

"(B) RESOLUTION DEFINED.—For the purpose of this paragraph, the term 'resolution' means only a joint resolution, relating to an action of the board of directors transmitted to Congress in accordance with paragraph (4)(D)(ii), the matter after the resolving clause of which is as follows: 'That the Congress disapproves of the action of the board of directors of the Metropolitan Washington Airports Authority described as follows: .', the blank space therein being appropriately filled. Such term does not include a resolution which specifies more than one action.

"(C) REFERRAL.—A resolution with respect to a board of director's action shall be referred to the Committee on Public Works and Transportation of the House of Representatives, or the Committee on Commerce, Science and Technology of the Senate, by the Speaker of the House of Representatives or the President of the Senate, as the case may be.

"(D) MOTION TO DISCHARGE.—If the committee to which a resolution has been referred has not reported it at the end of 20 calendar days after its introduction, it is in order to move to discharge the committee from further consideration of that joint resolution or any other resolution with respect to the board of directors action which has been referred to the committee.

"(E) RULES WITH RESPECT TO MOTION.—A motion to discharge may be made only by an individual favoring the resolution, is highly privileged (except that it may not be made after the committee has reported a resolution with respect to the same action), and debate thereon shall be limited to not more than 1 hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion is not in order, and it is not in order to move to reconsider the vote by which the motion is agreed to or disagreed to. Motions to postpone shall be decided without debate.

"(F) EFFECT OF MOTION.—If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other resolution with respect to the same action.

"(G) SENATE PROCEDURE.—

"(i) MOTION TO PROCEED.—When the committee of the Senate has reported, or has been discharged from further consideration of, a resolution, it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion is highly privileged and is not debatable. An amendment to the motion is not in order, and it is not in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

"(ii) LIMITATION ON DEBATE.—Debate in the Senate on the resolution shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing the resolution. A motion further to limit debate is not debatable. An amendment to, or motion to recommit, the resolution is not in order, and it is not in order to move to reconsider the vote by which the resolution is agreed to or disagreed to.

"(iii) NO DEBATE ON CERTAIN MOTIONS.—In the Senate, motions to postpone made with respect to the consideration of a resolution and motions to proceed to the consideration of other business shall be decided without debate.

"(iv) APPEALS.—Appeals from the decisions of the Chair relating to the application of the rules of the Senate to the procedure relating to a resolution shall be decided without debate.

"(H) EFFECT OF ADOPTION OF RESOLUTION BY OTHER HOUSE.—If, before the passage by 1 House of a joint resolution of that House, that House receives from the other House a joint resolution, then the following procedures shall apply:

"(i) The joint resolution of the other House shall not be referred to a committee and may not be considered in the House receiving it, except in the case of final passage as provided in clause (ii)(I).

"(ii) With respect to a joint resolution described in clause (i) of the House receiving the joint resolution—

"(I) the procedure in that House shall be the same as if no joint resolution had been received from the other House; but

"(II) the vote on final passage shall be on the joint resolution of the other House.

Upon disposition of the joint resolution received from the other House, it shall no longer be in order to consider the joint resolution that originated in the receiving House.".

(f) CONFLICTS OF INTEREST; REMOVAL FOR CAUSE.—Section 6007(f) of such Act is further amended by adding at the end the following new paragraphs:

"(10) CONFLICTS OF INTEREST.—In every contract or agreement to be made or entered into, or accepted by or on behalf of the Airports Authority, there shall be inserted an express condition that no member of a Board of Review shall be admitted to any share or part of such contract or agreement, or to any benefit to arise thereupon.

"(11) REMOVAL.—A member of the Board of Review shall be subject to removal only for cause by a two-thirds vote of the board of directors.".

(g) LIMITATION ON AUTHORITY.—Section 6007(h) of such Act is amended by inserting "thereafter" before "shall have no".

(h) REVIEW OF CONTRACTS.—Section 6007 of such Act is further amended by adding at the end the following new subsection:

"(i) REVIEW OF CONTRACTING PROCEDURES.—The Comptroller General shall review contracts of the Airports Authority to determine whether such contracts were awarded by procedures which follow sound Government contracting principles and are in compliance with section 6005(c)(4) of this title. The Comptroller General shall submit periodic reports of the conclusions reached as a result of such review to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.".

SEC. 7003. AMENDMENT OF LEASE.

The Secretary of Transportation may amend the lease entered into with the Metropolitan Washington Airports Authority under section 6005(a) of the Metropolitan Washington Airports Authority Act of 1986 to secure the Airports Authority's consent to the conditions relating to the new Board of Review to be established pursuant to the amendments made by this Act.

SEC. 7004. TERMINATION OF EXISTING BOARD OF REVIEW AND ESTABLISHMENT OF NEW BOARD OF REVIEW.

(a) TERMINATION OF EXISTING BOARD AND ESTABLISHMENT OF NEW BOARD.—Except as provided in subsection (b), the Board of Review of the Metropolitan Washington Airports Authority in existence on the day before the date of the enactment of this Act shall terminate on such date of enactment and the board of directors of such Airports Authority shall establish a new Board of Review in accordance with the Metropolitan Washington Airports Act of 1986, as amended by this Act.

(b) PROTECTION OF CERTAIN ACTIONS.—The provisions of section 6007(h) of the Metropolitan Washington Airports Act (49 U.S.C. App. 2456(h)) in effect on the day before the date of the enactment of this Act shall apply only to those actions specified in section 6007(f)(4)(B) of such Act that would have been submitted to the Board of Review of the Metropolitan Washington Airports Authority on or after June 17, 1991, the date on which the Board of Review of the Airports Authority was declared unable to carry out certain of its functions pursuant to judicial order. Actions taken by the Airports Authority and submitted to the Board of Review pursuant to section 6007(f)(4) of such Act prior to June 17, 1991, and not disapproved, shall remain in effect and shall not be set aside solely by reason of a judicial order invalidating certain functions of the Board of Review.

(c) LIMITATION ON AUTHORITY OF AIRPORTS AUTHORITY.—The Metropolitan Washington Airports Authority shall have no authority to perform any of the actions that are required by section 6007(f)(4) of the Metropolitan Washington Airports Act, as amended by this Act, to be submitted to the Board of Review after the date of the enactment of this Act until the board of directors of the Airports Authority establishes a new Board of Review in accordance with such Act and appoints the 9 members of the Board of Review.

TITLE VIII—EXTENSION OF HIGHWAY-RELATED TAXES AND TRUST FUND

SEC. 8001. SHORT TITLE; AMENDMENT OF 1986 CODE.

(a) SHORT TITLE.—This title may be cited as the "Surface Transportation Revenue Act of 1991".

(b) AMENDMENT OF 1986 CODE.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

SEC. 8002. EXTENSION OF HIGHWAY-RELATED TAXES AND TRUST FUND.

(a) Extension of Taxes.—The following provisions are each amended by striking "1995" each place it appears and inserting "1999":

(1) Section 4051(c) (relating to tax on heavy trucks and trailers sold at retail).

(2) Section 4071(d) (relating to tax on tires and tread rubber).

(3) Section 4081(d)(1) (relating to Highway Trust Fund financing rate on gasoline).

(4) Section 4091(b)(6)(A) (relating to Highway Trust Fund financing rate on diesel fuel).

(5) Sections 4481(c), 4482(c)(4), and 4482(d) (relating to highway use tax).

(b) Extension of Exemptions.—The following provisions are each amended by striking "1995" each place it appears and inserting "1999":

(1) Section 4041(f)(3) (relating to exemptions for farm use).

(2) Section 4041(g) (relating to other exemptions).

(3) Section 4221(a) (relating to certain tax-free sales).

(4) Section 4483(g) (relating to termination of exemptions for highway use tax).

(5) Section 6420(h) (relating to gasoline used on farms).

(6) Section 6421(i) (relating to gasoline used for certain nonhighway purposes, etc.).

(7) Section 6427(g)(5) (relating to advance repayment of increased diesel fuel tax).

(8) Section 6427(o) (relating to fuels not used for taxable purposes).

(c) Other Provisions.—

(1) Floor stocks refunds.—Section 6412(a)(1) (relating to floor stocks refunds) is amended—

(A) by striking "1995" each place it appears and inserting "1999", and

(B) by striking "1996" each place it appears and inserting "2000".

(2) Installment payments of highway use tax.—Section 6156(e)(2) (relating to installment payments of highway use tax on use of highway motor vehicles) is amended by striking "1995" and inserting "1999".

(d) Extension of Deposits Into, and Certain Transfers From, Trust Fund.—

(1) In general.—Subsection (b), and paragraphs (2) and (3) of subsection (c), of section 9503 (relating to the Highway Trust Fund) are each amended—

(A) by striking "1995" each place it appears and inserting "1999", and

(B) by striking "1996" each place it appears and inserting "2000".

(2) Motorboat and small-engine fuel tax transfers.—

(A) In general.—Paragraphs (4)(A)(i) and (5)(A) of section 9503(c) are each amended by striking "1995" and inserting "1997".

(B) Conforming amendments to land and water conservation fund.—Section 201(b) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l-11) is amended—

(i) by striking "1995" and inserting "1997", and

(ii) by striking "1996" each place it appears and inserting "1998".

(C) Extension of expenditures from boat safety account.—Subsection (c) of section 9504 is amended by striking "1994" and inserting "1998".

(e) Extension and Expansion of Expenditures From Trust Fund.—

(1) Expenditures.—Subsections (c)(1) and (e)(3) of section 9503 are each amended by striking "1993" and inserting "1997".

(2) Purposes.—Paragraph (1) of section 9503(c) is amended by striking subparagraph (D) and inserting the following:

"(D) authorized to be paid out of the Highway Trust Fund under the Intermodal Surface Transportation Efficiency Act of 1991. In determining the authorizations under the Acts referred to in the preceding subparagraphs, such Acts shall be applied as in effect on the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991.".

(f) Expansion of Mass Transit Account Expenditure Purposes.—Paragraph (3) of section 9503(e) is amended—

(1) by inserting "or capital-related" after "capital" the first place it appears, and

(2) by striking "in accordance with section 21(a)(2) of the Urban Mass Transportation Act of 1964." and inserting "in accordance with—

"(A) paragraph (1) or (3) of subsection (a), or paragraph (1) or (3) of subsection (b), of section 21 of the Federal Transit Act, or

"(B) the Intermodal Surface Transportation Efficiency Act of 1991,

as such Acts are in effect on the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991.".

(g) Use of Revenues for Enforcement of Highway Trust Fund Taxes.—The Secretary of Transportation shall not impose any condition on the use of funds transferred under section 1040 of this Act to the Internal Revenue Service. The Secretary of the Treasury shall, at least 60 days before the beginning of each fiscal year (after fiscal year 1992) for which such funds are to be transferred, submit a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate detailing the increased enforcement activities to be financed with such funds with respect to taxes referred to in section 9503(b)(1) of the Internal Revenue Code of 1986.

(h) Tax Evasion Report.—The Secretary of Transportation shall also submit each report prepared pursuant to section 1040(d) of this Act to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate not later than the applicable date specified therein.

(i) Expenditures From Sport Fish Restoration Account.—Subparagraph (B) of section 9504(b)(2) is amended to read as follows:

"(B) to carry out the purposes of the Coastal Wetlands Planning, Protection and Restoration Act (as in effect on November 29, 1990).".

SEC. 8003. NATIONAL RECREATIONAL TRAILS TRUST FUND.

(a) In General.—Subchapter A of chapter 98 (relating to trust fund code) is amended by adding at the end thereof the following new section:

"SEC. 9511. NATIONAL RECREATIONAL TRAILS TRUST FUND.

"(a) Creation of Trust Fund.—There is established in the Treasury of the United States a trust fund to be known as the "National Recreational Trails Trust Fund", consisting of such amounts as may be credited or paid to such Trust Fund as provided in this section, section 9503(c)(6), or section 9602(b).

"(b) Crediting of Certain Unexpended Funds.—There shall be credited to the National Recreational Trails Trust Fund amounts returned to such Trust Fund under section 1302(e)(8) of the Intermodal Surface Transportation Efficiency Act of 1991.

"(c) Expenditures From Trust Fund.—Amounts in the National Recreational Trails Trust Fund shall be available, as provided in appropriation Acts, for making expenditures before October 1, 1997, to carry out the purposes of sections 1302 and 1303 of the Intermodal Surface Transportation Efficiency Act of 1991, as in effect on the date of the enactment of such Act.".

(b) Certain Highway Trust Fund Receipts Paid Into National Recreational Trails Trust Fund.—Subsection (c) of section 9503 is amended by adding at the end thereof the following new paragraph:

"(6) Transfers from trust fund of certain recreational fuel taxes, etc.—

"(A) In general.—The Secretary shall pay from time to time from the Highway Trust Fund into the National Recreational Trails Trust Fund amounts (as determined by him) equivalent to 0.3 percent (as adjusted under subparagraph (C)) of the total Highway Trust Fund receipts for the period for which the payment is made.

"(B) Limitation.—The amount paid into the National Recreational Trails Trust Fund under this paragraph during any fiscal year shall not exceed the amount obligated under section 1302 of the Intermodal Surface Transportation Efficiency Act of 1991 (as in effect on the date of the enactment of this paragraph) for such fiscal year to be expended from such Trust Fund.

"(C) Adjustment of percentage.—

"(i) First year.—Within 1 year after the date of the enactment of this paragraph, the Secretary shall adjust the percentage contained in subparagraph (A) so that it corresponds to the revenues received by the Highway Trust Fund from nonhighway recreational fuel taxes.

"(ii) Subsequent years.—Not more frequently than once every 3 years, the Secretary may increase or decrease the percentage established under clause (i) to reflect, in the Secretary's estimation, changes in the amount of revenues received in the Highway Trust Fund from nonhighway recreational fuel taxes.

"(iii) Amount of adjustment.—Any adjustment under clause (ii) shall be not more than 10 percent of the percentage in effect at the time the adjustment is made.

"(iv) Use of data.—In making the adjustments under clauses (i) and (ii), the Secretary shall take into account data on off-highway recreational vehicle registrations and use.

"(D) Nonhighway recreational fuel taxes.—For purposes of this paragraph, the term 'nonhighway recreational fuel taxes' means taxes under section 4041, 4081, and 4091 (to the extent attributable to the Highway Trust Fund financing rate) with respect to—

"(i) fuel used in vehicles on recreational trails or back country terrain (including vehicles registered for highway use when used on recreational trails, trail access roads not eligible for funding under title 23, United States Code, or back country terrain), and

"(ii) fuel used in campstoves and other nonengine uses in outdoor recreational equipment.

Such term shall not include small-engine fuel taxes (as defined by paragraph (5)) and taxes which are credited or refunded.

"(E) Termination.—No amount shall be paid under this paragraph after September 30, 1997.".

(c) Clerical Amendment.—The table of sections for subchapter A of chapter 98 is amended by adding at the end thereof the following new item:

"Sec. 9511. National Recreational Trails Trust Fund."

(d) Report on Nonhighway Recreational Fuel Taxes.—The Secretary of the Treasury shall, within a reasonable period after the close of each of fiscal years 1992 through 1996, submit a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate specifying his estimate of the amount of nonhighway recreational fuel taxes (as defined in section 9503(c)(6) of the Internal Revenue Code of 1986, as added by this Act) received in the Treasury during such fiscal year.

SEC. 8004. COMMUTE-TO-WORK BENEFITS.

(a) Findings.—The Congress finds that—

(1) current Federal policy places commuter transit benefits at a disadvantage compared to drive-to-work benefits;

(2) this Federal policy is inconsistent with important national policy objectives, including the need to conserve energy, reduce reliance on energy imports, lessen congestion, and clean our Nation's air;

(3) commuter transit benefits should be part of a comprehensive solution to national transportation and air pollution problems;

(4) current Federal law allows employers to provide only up to $21 per month in employee benefits for transit or van pools;

(5) the current "cliff provision", which treats an entire commuter transit benefit as taxable income if it exceeds $21 per month, unduly penalizes the most effective employer efforts to change commuter behavior;

(6) employer-provided commuter transit incentives offer many public benefits, including increased access of low-income persons to good jobs, inexpensive reduction of roadway and parking congestion, and cost-effective incentives for timely arrival at work; and

(7) legislation to provide equitable treatment of employer-provided commuter transit benefits has been introduced with bipartisan support in both the Senate and House of Representatives.

(b) Policy.—The Congress strongly supports Federal policy that promotes increased use of employer-provided commuter transit benefits. Such a policy "levels the playing field" between transportation modes and is consistent with important national objectives of energy conservation, reduced reliance on energy imports, lessened congestion, and clean air.

SEC. 8005. BUDGET COMPLIANCE.

(a) In General.—If obligations provided for programs pursuant to this Act for fiscal year 1992 will cause—

(1) the total outlays in any of the fiscal years 1992 through 1995 which result from this Act, to exceed

(2) the total outlays for such programs in any such fiscal year which result from appropriation Acts for fiscal year 1992 and are attributable to obligations for fiscal year 1992,

then the Secretary of Transportation shall reduce proportionately the obligations provided for each program pursuant to this Act for fiscal year 1992 to the extent required to avoid such excess outlays.

(b) Coordination With Other Provisions.—The provisions of this section shall apply, notwithstanding any provision of this Act to the contrary.

And the Senate agree to the same.

From the Committee on Public Works and Transportation for consideration of the entire House bill (except title VII), the entire Senate amendment, and modifications committed to conference:

Robert A. Roe,
Glenn M. Anderson,
Norman Y. Mineta,
James L. Oberstar,
Henry J. Nowak,
Nick Rahall,
Douglas Applegate,

Thomas E. Petri,
Ron Packard,
Sherwood Boehlert,
Helen Delich Bentley,

From the Committee on Ways and Means, for consideration of title VII of the House bill, and secs. 140E, 141 through 144, 271(b)(12), and 305 of the Senate amendment, and modifications committed to conference:

Dan Rostenkowski,
Sam Gibbons,
J.J. Pickle,
Charles B. Rangel,
Pete Stark,
Guy Vander Jagt,

As additional conferees from the Committee on Energy and Commerce, for consideration of secs. 5, 121(a), 123, 124, 134 (a) and (b), 143, 184, 209, 322(m), 335, title V (insofar as it addresses railroads), secs. 601(b), 608 through 610, 617, and 620 of the House bill, and secs. 103 (b) (1), (2), and (9), 106(a), 107, 113, 114, 115 (a)(2) and (d), 116, 117, 122(b), 127, 128, 131, 140G, 140T, 140U, 239, 261, 262, 319, and 336 of the Senate amendment, and modifications committed to conference:

John D. Dingell,
Al Swift,
Gerry Sikorski,
Norman F. Lent,
Don Ritter,

Provided that Mr. Dannemeyer is appointed in place of Mr. Ritter for consideration of secs. 123 and 124 of the House bill, and secs. 103(b)(2), 106(a) (insofar as it addresses 23 U.S.C. 133(a)(10)), 107, 113, 114, and 319 of the Senate amendment:

As additional conferees from the Committee on Energy and Commerce, for consideration of secs. 140I, 140N, part A of title II (except secs. 204, 218, and 226), 264, and 271 of the Senate amendment, and modifications committed to conference:

John D. Dingell,
Al Swift,
Dennis E. Eckart,
W.J. (Billy) Tauzin,
Jim Slattery,
Rick Boucher,
Thomas J. Manton,
Terry L. Bruce,
Claude Harris,
Mike Synar,
Norman F. Lent,
Carlos J. Moorhead,
Matthew J. Rinaldo,
Don Ritter,
Jack Fields,
Michael G. Oxley,

As additional conferees from the Committee on the Judiciary, for consideration of sec. 409 of the House bill, and sec. 238 and title IV of the Senate amendment, and modifications committed to conference:

Jack Brooks,
Don Edwards,
Barney Frank,
Hamilton Fish, Jr.,
Carlos J. Moorhead,

As additional conferees from the Committee on Science, Space, and Technology, for consideration of secs. 141 (a) and (e), 202, 317, 405, 502, 601, 604 through 609, 616 through 618, 651 through 659, and 671 through 673 of the House bill, and secs. 103(b) (9) and (10), 106(a), 107, 115, 116, 127(g), 136(b), 203(e), 204, 232(a), 329, and 341 of the Senate amendment, and modifications committed to conference:

George E. Brown, Jr.,
Tim Valentine,
Dan Glickman,
Tom Lewis
(Except Sections 103(b)(9) and 116),

As additional conferees from the Committee on Government Operations, for consideration of title IV of the Senate amendment and modifications committed to conference:

John Conyers, Jr.,
Frank Horton,
Managers on the Part of the House.

From the Committee on Environment and Public Works:

Daniel Patrick Moynihan,
Quentin Burdick,
George Mitchell,

Bob Dole,

From the Committee on Governmental Affairs, only for the consideration of the Uniform Relocation Act Amendment:

John Glenn,
Carl Levin,
Bill Roth,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

Program Structure

House bill

The House bill restructures the four major Federal-aid highway systems plus the two safety construction programs (hazard elimination and railroad highway crossings) into five new programs: the National Highway Program, Urban Mobility Program, Rural Mobility Program, Combined Safety Improvement Program, and State Flexible Program.

The State Flexible Program is available to the state for any highway or transit capital projects in urban or rural areas. The urban and rural mobility programs are available for highway and transit capital projects. A state is able to transfer up to 25 percent of its National Highway Program apportionment to its Urban or Rural Mobility Program without conditions, and up to an additional 10 percent with the Secretary's approval if the state can demonstrate that its Interstate System is being maintained. A state may transfer 100 percent of the funds apportioned under the National Highway Program if over 90 percent of the land area of the state is within nonattainment areas.

The National Highway System consists of the Interstate System, the Strategic Highway Network, and principal arterial routes from the primary system. The Secretary through coordination with state and local governments will propose a National Highway System of 155,000 miles that could be adjusted by 15 percent. The National Highway System designation requires approval by Congress.

The Urban Mobility Program consists of the existing Federal-aid urban system and principal arterial routes in urban areas that are not a part of the National Highway System. Funds made available under the urban mobility program may be used for the construction of highway projects and transit capital projects. The Metropolitan Planning Organization (MPO) in the urban area has the authority, along with the state, to determine its transportation priorities.

The Rural Mobility Program consists of the existing Federal-aid secondary system and the arterials not on the National Highway System. Eligibility is provided for transit capital projects. The Federal-aid primary system rural mileage that does not meet the National Highway System criteria is eligible for inclusion in the Rural System. About 125,000–150,000 miles is expected to be added to the existing secondary system to constitute a 525,000–550,000 mile rural Federal-aid system. Roads functionally classified as rural minor collector or rural local are not eligible for inclusion in this rural Federal-aid system; however, funding for off system safety and bridge improvements are eligible under other programs.

The State Flexible Program is an innovative program that for the first time provides each state with funds that can be used for any highway or transit capital purpose eligible under Federal law. The state can use these funds for any purpose that is eligible under the National Highway Program, the Urban Mobility Program, the Rural Mobility Program, or the Combined Safety Improvement Program.

Each state is required to spend a percentage of these funds in clean air nonattainment areas equal to the percentage of its population living in nonattainment areas, up to 50 percent. Thus, if 30 percent of a state's population lives in nonattainment areas, the state would be required to spend at least 30 percent in nonattainment areas. If 70 percent of a state's population lives in nonattainment areas, at least 50 percent is required to be spent in nonattainment areas. These are minimum percentages; each state could choose to spend additional portions of its State Flexibility funds in these areas.

The Hazard Elimination and Rail-Highway Grade Crossings programs are combined into one flexible safety program, at an authorization level which represents 4% of the total funds authorized for the five new programs under the restructured highway program.

Within the combined program, the current funding levels of $160 million for Rail-Highway Crossings and $170 million for Hazard Elimination remain fixed, and any additional amount is available for funding eligible projects under either the Hazard Elimination or the Rail-Crossing programs, at the discretion of the state.

The restructured Federal-aid highway program funds the programs as follows: 49% to the National Highway System, 17% to Urban Mobility, 13% to Rural Mobility, 17% to State Flexible and 4% to the Combined Safety Improvement Program.

Senate amendment

This section establishes a new program that gives the States and local governments greater flexibility in using Federal funds to meet their transportation needs. Funds for the new program may be used for eligible projects on any public roads, except roads functionally, classified as local or rural minor collector, except as approved by the Secretary.

Eligible activities include construction, reconstruction, rehabilitation, resurfacing, restoration and operational improvements of highways including work necessary to accommodate other modes, painting and seismic retrofit of bridges, capital costs for mass transit (including improvements to bus shelters), passenger rail (including high speed rail) and magnetic levitation systems, carpool and vanpool projects, fringe and corridor parking facilities and programs, and bicycle facilities and programs; surface transportation safety improvements; surface transportation research and development programs; transportation enhancement activities as defined in 23 U.S.C. 101; and other activities. This section also authorizes the use of Surface Transportation Program funds to mitigate wetland loss related to past or future highway construction.

This section designates two types of regions in each state for the purpose of dividing Federal funds. The first type of region consists of areas with a Metropolitan Statistical Area population 250,000 or greater and areas with an urbanized area population of 50,000 or greater that are in nonattainment for ozone or carbon monoxide. The second type of region consists of all other areas. Seventy-five (75) percent of funds apportioned to a State under the Surface Transportation Program must be divided between these two types of areas based on their relative share of the State's total population. The remaining 25 percent may be distributed to any area of the State. At least 8 percent of the funds apportioned to a State must be programmed for transportation enhancement activities. Projects must be consistent with requirements for metropolitan planning in 23 U.S.C. 134 and statewide planning in 23 U.S.C. 135.

The basic federal share for projects under the Surface Transportation Program is 80 percent. If funds apportioned under this program are used to construct new facilities or expand existing facilities to be available primarily to single-occupant vehicles, the Federal share is 75 percent. If the State constructs a facility not available to single occupant vehicles and subsequently makes the facility available to single occupant vehicles, the State must repay with interest the increase in the Federal share of the project the State received by constructing a facility not available to single occupant vehicles.

The State must submit an annual certification that it will meet all requirements of this section. The State must also notify the Secretary of the amount of obligations it plans to incur for Surface Transportation Program projects during the fiscal year. Acceptance of the certification and notice of obligation constitutes a contractual obligation of the Federal Government for this estimated amount of obligations for projects not subject to review by the Secretary. The State may adjust the estimated obligation at a later date if it wants to obligate more or less funds. Payments will be made to the State for the Federal share of costs incurred on the subject.

Projects must be designed, constructed, operated and maintained in accordance with State laws, regulations, directives, safety standards, design standards and construction standards.

A State may inform the Secretary that it does not wish review and approval of design and construction standards for projects except for projects on the Interstate System and other multi-lane limited access control highways.

If the Secretary determines that a State or local government has not complied with a requirement of this section, the State will be notified and have 60 days to take corrective action. If corrective action is not taken within 60 days, future payments will be held until adequate corrective action is taken.

In a departure from the current system whereby funds are apportioned by category according to specific formula factors, funds for the Surface Transportation Program shall be apportioned such that they result in each State receiving a percent share of combined Bridge Program, Interstate Maintenance Program, and Surface Transportation Program funds equal to its percent share of total apportionments and allocations made pursuant to Title 23 U.S.C. for fiscal years 1987, 1988, 1989, 1990 and 1991, subject to certain exclusions and adjustments specified in the bill. The Bridge Program and Interstate Maintenance apportionment formulas thus serve principally to determine the amount of funds a State must devote to each program; the apportionment of Surface Transportation Program funds serves to make each State's percentage of Federal aid equal to its percentage under the five years of the 1987 Act.

Paragraph 133(b)(1)(A), which provides for an energy conservation congestion, mitigation and clean air bonus program, is to provide an incentive for States and metropolitan areas to use the enhanced flexibility in the Surface Transportation Program to reduce traffic congestion, improve air quality and lower fuel consumption. The paragraph alters the apportionment of funds under the Surface Transportation Program by rewarding affected States that control growth in vehicle miles of travel per capita and penalizing affected States that do not.

The provision affects only States with metropolitan areas of 250,000 or more and affects only the Surface Transportation Program funds allocated to metropolitan areas pursuant to section 106(b). Because only large urban areas can make significant cuts in growth of vehicle miles traveled, the provision only affects States with such communities.

By using vehicle miles of travel per capita, rather than absolute growth in VMT, the paragraph does not penalize States facing rapid population growth. Instead, it rewards those States which do a better job of managing growth. Thus, some States with the largest absolute growth in VMT (such as Nevada and Florida), have had slow growth in VMT per capita. The Secretary shall apply the most accurate and timely data available in measuring changes in VMT per capita under this paragraph.

This paragraph affects only the apportionment of Surface Transportation Program funds attributed to metropolitan areas pursuant to section 133(b)(1) of Title 23 U.S.C. The provision does not affect the State's 25 percent share of Surface Transportation Program funds or the funds suballocated to nonmetropolitan areas under section 133(b)(1) of title 23 U.S.C. The paragraph provides that bonuses and funds redistributed from the Bonus Fund shall only be used in metropolitan areas and that they be obligated for projects in metropolitan areas within a State in accordance with section 133 of title 23 U.S.C.

The reallocation of funds provided for in the provision will only come into operation after it is determined that one or more of the States subject to this paragraph has VMT per capita in excess of 110 percent of such State's VMT in 1990 (or 110 percent of 1995 levels commencing in fiscal year 1996). If every State maintains its current VMT per capita, the provision will not affect the apportionments.

However, if one or more States subject to this paragraph has VMT per capita in excess of 110 percent of their 1990 levels (or 1995 levels commencing in 1996), the Secretary is required to reduce the metropolitan area funds which would have been allocated to those States by 10 percent. The reduction funds are then placed into a Surface Transportation Bonus Fund which used to reward States that reduce their VMT per capita to less than 90 percent of 1990 levels in the same year. For example, if a State reduced its VMT per capita to 85 percent of its 1990 level, and several other States allowed increases in VMT per capita in excess of 110 percent of 1990 levels, the State with the reduction would be entitled to receive a bonus of up to 10 percent of its base metropolitan area apportionment, to the extent such funds are available.

If funds remain available in the Bonus Fund after bonuses have been awarded, the remaining funds are redistributed to the metropolitan areas of all States subject to the provision, whether they received a bonus, a reduction, or were unaffected by the provision. The amount each State receives is determined by each State's relative share of all metropolitan area funds allocated.

The provision applies beginning in fiscal year 1993 because of the ongoing development of methodologies to improve the measurement of VMT on road systems within a State. Such methodologies are expected to be available by 1993.

Beginning in fiscal year 1996, the paragraph provides for using 1995 as the base year to measure percentage changes in VMT per capita. This provision is intended to provide a continuing incentive for States which receive bonuses to do a better job over time.

Section 106(c) provides that the Federal share of capital projects that add capacity available to single occupant vehicles is 75 percent. The Federal share for all other projects including projects for high occupancy vehicles that permit single occupant vehicle use during the off-peak periods is 80 percent of the cost of construction. The Secretary will issue guidance on how to determine what portion of a project qualifies for an 80 percent Federal share.

23 U.S.C. 133(b)(2) requires the Secretary to find that the programming and expenditure of funds under section 106 of this bill is consistent with the requirements of section 134. Subsection 133(b)(3) requires that the Secretary also to find that the programming and expenditure of funds for projects in nonmetropolitan areas is consistent with the statewide planning requirements of section 135 of this title.

23 U.S.C. 133(c) states the procedures the Secretary must follow in the event the Secretary determines through the certification review process that a State or local government does not comply with any provision of section 106 of this bill, including the requirement to program and expend funds in a manner consistent with the long range plan and the TIP required by section 134, and the planning requirements of section 135. These procedures require the Secretary to give notice to the State or local government of its failure to comply, and to give the State or local government 60 days to take corrective action. If corrective measures are not taken after the 60-day period has elapsed, the Secretary will not be able to certify that the provisions of section 133 have been complied with, and would have to take actions pursuant to section 134(e)(3).

23 U.S.C. 133(b)(6) requires that States assure equitable distribution of urban Surface Transportation Program funds among metropolitan and nonattainment areas based on relative population. The subsection, however, creates an exception to this general rule where a State and the relevant metropolitan planning organizations "jointly apply to the Secretary for permission to do so and the Secretary grants the request."

Conference substitute

Adopts the Senate provision with modifications.

PROJECT ELIGIBILITY

House bill

The House bill, for the National Highway System, makes eligible for funding: those activities allowed under current law, including construction, reconstruction, resurfacing, restoration, and rehabilitation; operational improvements; startup costs for traffic management and control; and participation in wetland mitigation banks.

For the Federal-aid mobility systems, the House bill makes eligible for funding: those activities allowed under current law, including construction, reconstruction, resurfacing, restoration, and rehabilitation; highway safety projects; operational improvements; startup costs for traffic management and control; and participation in wetland mitigation banks; and transit.

Senate bill

The Senate bill, for the Surface Transportation Program, makes eligible for funding: those activities allowed under current law, including construction, reconstruction, resurfacing, restoration, and rehabilitation; highway safety projects; off-system bridges; capital costs for mass transit and passenger rail; certain operating costs for Amtrak; bus terminals; magnetic levitation systems; contracted passenger rail costs; transportation enhancement activities; transportation control measures listed in the Clean Air Act; incremental costs of alternative fuels school buses; wetlands mitigation; and any other purpose approved by the Secretary.

Conference substitute

The conference substitute makes eligible for funding: those activities allowed under current law, including construction, reconstruction, resurfacing, restoration, and rehabilitation; highway safety projects; off-system bridges; capital costs for mass transit; bus terminals; certain transportation control measures listed in the Clean Air Act; and wetlands mitigation activities. In certain instances, passenger rail operations provide significant mass transit services. The conferees do not intend to preclude consideration of passenger rail capital costs where those operations provide significant commuter service on a regular basis.

WETLANDS MITIGATION

House bill

Section 108(a) of the House bill amends 23 U.S.C. 103(i) and adds a new subsection (j) to include authority to use highway trust fund money for participation in wetlands mitigation banks and statewide programs to create, conserve, or enhance wetland habitat, including development of statewide mitigation plans and State or regional wetlands conservation and enhancement banks. Contributions may occur in advance of specific project activity to build up credit for future projects which may impact wetlands. Participation in this program does not exempt any highway project from any requirements of Federal law.

Senate amendment

Section 106 of the Senate amendment adds a new section 133 to Title 23 of the U.S. Code, including the authority to use Surface Transportation Program Funds as part of a highway construction project, or as a separate effort, to mitigate wetland loss related to highway construction or to contribute to statewide efforts to conserve and restore wetlands adversely affected by highway construction. Efforts must comply with applicable requirements of and regulations under Federal law. Efforts may include development of statewide wetland conservation plans and other state or regional efforts to conserve and restore wetlands. Contributions may occur in advance of specific highway construction activity only if the state has a planning process which precludes the use of such efforts to influence the environmental assessment of the highway project, decisions related to the need for the project, or the selection of the project design or location.

Conference substitute

The Conference Substitute authorizes the use of Federal transportation funds for wetlands mitigation efforts, including participation in wetlands mitigation banks, consistent with all applicable Federal law and regulations. Mitigation efforts should be undertaken through the application of guidelines promulgated pursuant to Section 404(b)(1) of the Federal Water Pollution Control Act and relevant interagency Memoranda of Agreement. The Managers note that the Section 404(b)(1) guidelines prohibit discharges into aquatic ecosystems, including wetlands, if there is a practicable alternative to the discharge. The guidelines also require appropriate and practicable steps be taken to minimize potential adverse impact upon the aquatic ecosystem. The current Memorandum of Agreement between the Corps of Engineers and the Environmental Protection Agency states that mitigation banking may be an acceptable form of compensatory mitigation depending on the specific circumstances.

The reference to "Federal law and regulations" in this paragraph includes, but is not limited to, the Endangered Species Act, the National Environmental Policy Act, the Federal Water Pollution Control Act, and any applicable regulation promulgated under such Acts.

It is the intent of the Managers that the mitigation efforts if consistent with all requirements of Federal law as described above, may include mitigation outside the acquired right of way and that funding may be made available under this section to carry out mitigation measures, prior to initiation of project construction.

It is the intent of the Managers that, to the extent practicable, mitigation of wetlands losses be undertaken through protection, restoration or creation of similar types of wetlands. For example, if a salt marsh is lost or degraded pursuant to a highway project, it is the intent of the Managers that preference would be given to the restoration of a salt marsh, rather than a fresh-water wetland.

DISADVANTAGED BUSINESS PROGRAM

House bill

Subsection (b) of Section 103 provides for the continuation of the Disadvantaged Business Enterprise program with an adjustment of the 3-year annual average gross receipts limit of $15.37 billion.

Subsection (c) authorizes the Office of the Comptroller General of the Federal Highway Administration to study the disadvantaged business program (DBE) graduation rate; the participation level of disadvantaged business enterprises with out-of-state contracts; training programs, the success rate; and performance and financial capabilities of DBE's. The Comptroller General shall transmit the report to Congress within 12 months after the date of enactment.

The Committee understands that there is no formal "graduation" from the federal highway Disadvantaged Business Enterprise (DBE) Program. In fact, the only way that a DBE is no longer eligible for the DBE program is if it exceeds the size standards, i.e.

average gross revenues over three (3) years exceed $14 million. Thus, in using the term "graduation", the Committee is referring to those DBE firms who have essentially "grown out" of and are no longer eligible for the DBE program.

Since "growing out" of the DBE Program may be highly unlikely after just three (3) years, the Committee in B(i)(IV) directs the "Study" to determine just how many years is reasonable for a DBE to either "grow out" of the Program or no longer need it. Such determination should be made in light of an investigation of barriers DBEs presently face in successfully developing within the highway construction industry.

In addition, a determination of how long it takes a non-DBE to successfully compete in the highway construction field should be determined in order to further justify a definition of what is reasonable. The Study should take into account where the non-DBE gains access to bonding, capital, technical/management expertise, skilled labor and subcontracts and whether such contractor enjoys certain advantages in such areas over the average DBE.

B(i)(VI) directs the GAO to determine to what extent prime contractors continue to use DBEs once they have "graduated" from the program. This clause is to address the possibility that prime contractors do not utilize DBE firms unless there is a legislative requirement to do so.

B(i)(VII) seeks to direct the GAO to determine not only the additional costs incurred by the Federal Highway Administration in meeting the requirement of the DBE program but also whether such costs are offset by benefits of the program. Such benefits might include: additional tax revenues paid to the state by DBE firms; unemployment tax reduction; racial and gender diversity in the highway construction field; economic developing in disadvantaged communities as a result of increased capital to DBEs; and an increase in the number of skilled subcontractors in the highway construction field, thus providing for greater competition among such contractors in the future.

To enhance the evaluation of the disadvantaged business program, the Secretary shall include in the annual reports submitted to Congress, data on the level of participation of disadvantaged business enterprises to reflect the number and dollar awards to ethnic DBE's eligible under this program and the number and dollar awards to women DBE's.

Section 119. Disadvantaged Business Enterprises

This section provides for an ongoing Disadvantaged Business Enterprise (DBE) program. The section is a continuation of section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987, which maintained the statutory authority originated in section 105(f) of the Surface Transportation Assistance Act of 1982.

The definition of a "Small Business Concern" has been modified to include an adjustment for inflation.

Senate amendment

Similar to House.

Conference substitute

Adopts the House provision.

Substitute Program

House bill

The bill authorizes $240 million per fiscal year for each of the fiscal years 1992 through 1995 to complete the remaining Interstate substitute highway projects. This Interstate substitute highway funds are apportioned in accordance with cost estimates adjusted by the Secretary.

Funds are made available for the apportionment of Interstate substitute transit funds for fiscal years 1992 and 1993 in accordance with cost estimates adjusted by the Secretary.

Substitute funds are made available until expended.

Senate amendment

This section authorizes $240 million for each of fiscal years 1992 through 1995 for highway or transit assistance projects for the Interstate Substitution Program.

Conference substitute

Adopts the House provision.

APPORTIONMENTS

House bill

The House bill establishes new formulas to be applied to new federal-aid highway programs.

Senate amendment

The Senate amendment provides that each state will receive a percent of funds based on the percent received over the proceeding five year average.

Conference substitute

The Conference substitute includes a modification that provides each state with an amount of funding over six years that is consistent with their historical funding experience.

Program and Project Approval

House bill

The House provision directs the States to submit a program of proposed projects for the Secretary of Transportation's approval.

Senate amendment

The Senate amendment repeals section 105 of title 23, United States Code relating to programs.

Conference substitute

The House recedes to the Senate amendment.

Preconstruction Activities

House bill

Section 106(c) of title 23, U.S.C. is amended to provide for items included in estimates for construction engineering for a state for a fiscal year may not exceed 15 percent of the total estimated costs of Federal-aid projects.

The Secretary is required to consult with the states and report to Congress within two years a national list of rights-of-way that may be included in a Transportation Right-of-Way Land Bank in order to preserve vital transportation corridors. The states are permitted to use funds apportioned for the National Highway System, the urban mobility, and rural mobility systems to purchase right-of-way to preserve transportation corridors. Any right-of-way acquired under the provisions of this subsection may not be converted for non-transportation purposes.

Sentate amendment

The Senate amendment amends 23 U.S.C. 108 to make three changes to current law. First, the period within which construction must be commenced on a right-of-way funded from the right-of-way revolving fund is increased from 10 years to 20 years.

Second, costs incurred by a State to acquire rights-of-ways in advance of Federal approval of authorization and costs incurred to acquire land necessary to preserve environmental and scenic values may be reimbursed with Federal funds if certain conditions are satisfied.

Third, to conform section 108 of title 23 with the other title 23 changes being made by this legislation, this section eliminates the requirement that right-of-way revolving fund advances be for projects "on the Federal-aid system" and authorizes the use of the fund for projects such as passenger rail facilities, magnetic levitation systems, transportation corridor preservation, and long-term transportation planning.

Conference substitute

Adopts House provision.

Letting of Contracts

House bill

This section amends section 112(b)(2) of title 23, U.S.C. to require that any audit of a contract or subcontract awarded as a part of a Federal-aid highway project shall be performed and audited in compliance with the cost principles contained in the Federal acquisition regulations of part 31 of title 48 C.F.R. The indirect cost rates established in accordance with Federal acquisition regulations shall apply for the purposes of contract estimation, negotiation, administration, report, and contract payment and shall not be limited by administrative or de facto ceilings.

The intent of these provisions is to establish a single and uniform audit procedure for qualifications based engineering and design services.

Senate amendment

No comparable provision.

Conference substitute

The conference substitute establishes a pilot program for the implementation of single and uniform audit procedures for qualification based engineering and design services. The Secretary of Transportation may permit up to ten states to participate in the pilot program and report to Congress any recommendations for establishing a single and uniform audit procedure for qualifications based engineering and design services within two years.

Convict Produced Materials

House bill

The bill clarifies the intent of Congress that materials produced by convict labor after July 1, 1991, may not be used for Federal-aid highway construction projects unless produced at a prison facility producing convict made materials for Federal-aid construction projects prior to July 1, 1987.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Period of Availability

House bill

The House amendment provides one-year availability of Interstate Construction funds. After October 1, 1994, these funds would be available until expended. In general, non-Interstate funds will continue to be available for four years.

Senate amendment

The Senate amendment provides one-year availability of Interstate Construction funds. After October 1, 1994, these funds would be available until expended. Interstate Construction funds apportioned or allocated to Massachusetts on or before October 1, 1989, shall remain available until expended. Existing provisions relating to Alaska and Puerto Rico are continued.

Conference substitute

House recedes to the Senate.

Federal Share

House bill

The House bill provides for a Federal share of 80 percent on non-Interstate Federal aid

highway projects, and up to 100% for certain safety projects.

A Federal share of 90 percent is provided for Interstate construction and maintenance projects.

Senate bill

The Senate bill provides for a Federal share of up to 80 percent for all projects, with the exception of construction of new highway capacity not designed for high-occupancy vehicle use, in which case the Federal share would be up to 75 percent.

A Federal share of 90 percent is provided for Interstate construction.

Conference substitute

The conference substitute provides for a Federal share of up to 80 percent for all projects. A Federal share of 90 percent is provided for Interstate construction.

Emergency Relief

House bill

The House extends from 90 days to 180 days the period to receive 100 percent funding for emergency repair work. The annual limitation imposed on the territories for receipt of emergency relief funds is increased from $5 million to $20 million. The Secretary is authorized to advance emergency relief funds to the State of Washington to repair a bridge damaged in November, 1990. Repayment is required if it is determined that the cause of the damage to the bridge was the result of human error. All provisions in this section will apply only to natural disaster and catastrophic failures occurring after enactment of this legislation.

Senate amendment

The Senate amendment contains no comparable provisions, with the exception of the aspect relating to the advance to the State of Washington which is substantially the same as the House bill.

Conference substitute

The conference substitute is the same as the House bill, with the exception that the provision concerning the State of Washington was not adopted. The repayment provision for Washington was resolved in the 1992 Appropriations bill.

Gross Vehicle Weight Restriction

House bill

Subsection (a), Continuation of Certain Longer Combination Vehicles, amends title 23 U.S.C. by adding a new substitution (d).

New subsection (d)(1) provides that except as provided in this subsection, no state may allow a longer combination vehicle to be operated on the Interstate System within its boundaries, without having its apportionment withheld under subsection (a).

New subsection (d)(2) permits a state to continue to allow to be operated on the Interstate System within its boundaries longer combination vehicles with configuration and weight if (a) the state determined on or before June 1, 1991 that such longer combination vehicles with such configuration and weight could lawfully operate on such system pursuant to a state statute or regulation in effect on June 1, 1991; and if the longer combination vehicles with such configuration and weight were in lawful operation on a regular or periodic basis (including seasonal operation or operation pursuant to a permit issued by the state; or if longer combination vehicles with such configuration and weight were in lawful operation on a regular or periodic basis on such System on or before June 1, 1991 pursuant to section 335 of the Department of Transportation and Related Agencies Appropriations Act, 1991 (104 Stat. 2186); and (B) if all operations of longer combination vehicles with such configuration and weight on the Interstate System continue to be subject to, at a minimum, all state statutes, regulations, limitations, and conditions (including routing-specific and configuration specific designations and all other restrictions) in effect on June 1, 1991; except that subject to guidelines established by the Secretary, the state may make minor adjustments to routing-specific designations for safety purposes and for road construction purposes.

New subsection (d)(3) provides that in addition to the vehicles which may continue to operate in the State of Wyoming under (d)(2), such state may allow commercial motor vehicle combinations not in actual use on June 1, 1991 on the relevant system and highways by enactment of a state law on or before November 3, 1992. The state must notify the Secretary of enactment of such state law within 30 days and the Secretary must publish notice of the enactment of such law in the Federal Register.

New subsection (d)(4) provides that states may further restrict or prohibit vehicles covered by this provision, however, any such restriction or prohibition must be consistent with sections 411, 412, and 416 of the Surface Transportation Assistance Act of 1982 (40 U.S.C. App. 2311, 2312, and 2316). Any such changes must be submitted to the Secretary. Such change must be published in the Federal Register by the Secretary.

New subsection (d)(5) requires that within 90 days after the effective date of this subsection (October 1, 1991) states must complete and file in writing with the Secretary a complete list of all state statutes, regulations, limitations and conditions governing the operation of these types of vehicles.

If the state fails to file within the specified time, the Secretary is given the authority to complete and file the list for the state.

The state is further required to certify in writing that the state had determined pursuant to a state statute on regulation in effect on June 1, 1991 that such longer combination vehicles could lawfully be operated on such relevant system and highways, and such combinations were in operation on a regular or periodic basis on such system and highways on or before June 1, 1991.

The Secretary is required to publish the list in the Federal Register. After publication the Secretary is required to review the certifications and may commence a proceeding, on the Secretary's own initiative or pursuant to a challenge by any person, to determine whether or not the state's certification is inaccurate. The state has the burden of proof.

If the Secretary determines the certification is inaccurate, the Secretary is required to amend the list published in the Federal Register.

This subsection also provides that no state statute or regulation shall be included on the list published by the Secretary merely on the grounds that it authorized, or could have authorized, by permit or otherwise, the operation of longer combination vehicles not in actual operation on a regular or periodic basis on or before June 1, 1991.

This subsection further provides the lists published in the Federal Register shall become final on the 30th day after publication, with the exception of adjustments made pursuant to paragraphs 2(B) 3 and 4 and subparagraph (D) of paragraph 5.

New subsection (d)(6) requires the Secretary to issue regulations establishing guidelines for states to follow in making minor adjustments for safety or road construction purposes.

New subsection (d)(7) provides that nothing in this subsection should be construed to allow operation on the relevant system or highways of any Commercial Motor Vehicle prohibited under section 411(j) of the Surface Transportation Assistance Act of 1992 (49 U.S.C. App. 2311(j)).

New subsection (d)(8) provides that if a state allows a longer combination vehicle to be operated on the Interstate System within its boundaries in violation of this subsection, the state shall have its apportionment of funds withheld under subsection (a).

New subsection (d)(9) defines longer combination vehicle; it further requires that each state certify that it is complying with the provisions of section 127(d) of this title and section 411(j) of the Surface Transportation Assistance Act of 1982 (49 U.S.C. 2311(j); and makes a conforming amendment.

Subsection (b) Interstate Route 68—amends section 127, title 23 by adding at the end the following new subsection (e).

New subsection (e) provides that the single axle, tandem axle, and bridge formula limits set forth in subsection (a) shall not apply to the operation on Interstate 68 in Garrett and Allegany Counties, Maryland, of any specialized vehicle equipped with a steering axle and a tridem axle and used for hauling coal and logs if such vehicle is of a type of vehicle as was operating in such counties on U.S. 40 or 48 for such purposes in calendar year 1991.

Subsection (c) makes a conforming amendment.

Subsection (d) requires the Secretary to conduct a study pertaining to transporters of water well drilling rigs on public highways to determine if state and federal requirements place a burden on them. The report is due 2 years after date of enactment.

Subsection (e)(1) provides for a waiver from the axle weight requirements and bridge formula for firefighting equipment. The waiver is for two years, but it may be extended for one additional year. The waiver applies to the Federal requirement.

Subsection (e)(2) provides that during the period in which the waiver is in effect, the Secretary is to conduct a study on this type of equipment and its regulations by the various states, including the issuance of permits by states. The purpose is to determine whether there is a need for a change in Federal and state laws with respect to such vehicles.

Subsection (e)(3) provides that a report on the study, together with the recommendations of the Secretary, shall be submitted to Congress within 18 months of the date of enactment.

Senate amendment

Section 138. Gross vehicle weight restrictions

Summary

This section adds a new subsection (d) to section 127 of title 23, U.S.C., to limit the use of Longer Combination Vehicles (LCV's) on the Interstate System to those places, and under the conditions now imposed, where they are allowed on or before June 1, 1991.

The responsibility for enforcing compliance with the new LCV limitation lies with the Secretary of Transportation, under section 141 of title 23.

The section defines an LCV as a truck tractor with two or more trailers or semitrailers, with a gross vehicle weight of more than 80,000 pounds.

The provision will prevent any further expansion of the use of LCV's. The operation of LCV's on the Interstate System would be illegal unless: (a) they operate under 80,000 pounds gross vehicle weight; or (b) are found by the Secretary to be in "actual, continuing lawful operation" on or before June 1, 1991.

Included in the freeze on LCV operations are those now occurring in Wyoming, pursuant to a specific authorization in the fiscal year 1991 Department of Transportation and Related Agencies Appropriations Act. This section makes the Wyoming provisions in the Act permanent, subject to existing operating restrictions adopted by the State of Wyoming, and consistent with axle and bridge formula specifications in section 127 of title 23, United States Code.

Conference substitute

This section amends section 127 of title 23 by adding new subsections, (d) and (e), to prohibit the expansion of the use of longer combination vehicles on the Interstate System.

New subsection (d)(1) allows only those LCV configurations that were authorized by State statute or regulation and in lawful "regular or periodic" use on or before June 1, 1991. To be considered "regular or periodic" use, operations must have occurred at recurring intervals over a period of time. Moreover, periodic operations must have occurred on an intermittent but consistent basis. Use of an LCV on only one or two occasions pursuant to a special permit would not provide a basis for satisfactorily certifying grandfather rights or operations under this subsection. Seasonal LCV operations, if occurring on a recurring basis, would be allowed to continue. As specified in both the Senate and House provisions, certain LCV operations in the State of Wyoming, other than those that were in regular, periodic operation on or before June 1, 1991, would be allowed, if so directed by the State's voters not later than November 3, 1992. Additionally, limited exceptions to the restrictions of this subsection are provided for certain operations in the States of Ohio and Alaska. Other than those specifically referenced, no additional LCV operations that would otherwise be prohibited under this subsection may be allowed.

New subsection (d)(2) clarifies that States retain the ability to further restrict the use of LCV's, above and beyond the limitations imposed by this subsection. Any such restrictions must be consistent with applicable provisions of title 49. Under the terms of regulations to be promulgated by the Secretary, States are given the ability to make minor adjustments to LCV use of a temporary and emergency nature. The scope of such adjustments is intended to be temporary and very limited; for example, in the case of a bridge failure that would require the re-routing of traffic, including LCV's, to highways on which LCV operations would otherwise be prohibited.

New subsection (d)(3) establishes procedures for determining what specific operations are to be allowed. States are required to submit to the Secretary a list of all information pertaining to LCV use and limitations, including routing-specific and configuration-specific designations and all other restrictions, not later than 60 days after enactment. That information is to be published by the Secretary, and reviewed by the Secretary for accuracy. This review is not intended to provide for a rollback of lawful operations; it is intended to confirm that operations listed by the States were, on or before June 1, 1991, authorized by State statute or regulation, and that they were in regular or periodic operation on or before June 1, 1991. The list of this information, with necessary revisions, is to be published as final not later than 180 days after the date of enactment. Requirements are also established for review and correction of the final list. The provision makes it clear that, in order to be allowed to continue, LCV operations not only must have been authorized by State statute or regulation, but also in lawful regular or periodic operation on or before June 1, 1991.

New subsection (d)(4) defines longer combination vehicles.

New subsection 127(e) allows for the continued operation of certain vehicles in Garrett and Allegany Counties, Maryland.

Subsection (e) provides for a two-year exemption from axle weight limitations and the bridge formula for fire-fighting vehicles. The Secretary is directed to conduct a study to address, long-term, issues involving such vehicles.

Subsection (f) retains identical provisions from the House and Senate bills pertaining to Montana-Canada trade.

Subsection (g) retains the House provisions requiring a study of water well drilling rigs.

CONTROL OF OUTDOOR ADVERTISING

House bill

Subsection (a) authorizes a state to use any Federal-aid highway funds apportioned to the state for the removal of nonconforming signs and the payment of just compensation in accordance with title 23, section 131.

Subsection (b) requires the owner of an illegal sign to remove it within 90 days from enactment of this Act. If the owner of an illegal sign does not remove it within the 90 day period, the state shall remove the illegal sign and assess the costs for removal to the owner of the illegal sign.

Subsection (c) prohibits the erection of any new sign along any highway on the Interstate and Primary system (as in existence on June 1, 1991) that is designated as a scenic byway under a state scenic byway program. This subsection makes it clear that control of outdoor advertising on scenic byways along the Interstate, Primary System and the National Highway System shall be in accordance with title 23, Section 131. This subsection also redefines the Primary System for purposes of application of the Highway Beautification Act as the Primary System in existence on June 1, 1991.

Subsection (d) is intended to avoid confusion among the States in the implementation of these amendments to the Highway Beautification Act. This section makes it clear that the States, in implementing these new provisions, should ensure that signs displays and devices that have received state certification under the existing structure of federal-state agreements and state laws implementing section 131 of title 23 United States Code are not affected in any manner.

Senate amendment

The Senate Amendment has no comparable provision. But the Senate does make funding under the newly defined "Transportation Enhancement Activities" eligible for the removal of outdoor advertising.

Conference substitute

Subsection (a) authorizes a state to use any Federal-aid highway funds apportioned to the state for the removal of nonconforming signs and the payment of just compensation in conformance with title 23, section 131. This provision also applies to signs located along Interstate and Primary system roads designated as Scenic Byways by the states.

Subsection (b) requires the owner of an illegal sign to remove it within 90 days from enactment of this act. If the owner of an illegal sign does not remove it within the 90 day period, the state shall remove the illegal sign and assess the costs for removal to the owner of the illegal sign.

Subsection (c) intends that under the Conference agreement, no signs shall be erected on scenic byways on the Interstate or primary system as those systems are in effect on the date of enactment of the Intermodal Surface Transportation Efficiency Act of 1991.

Subsection (d) is intended to avoid confusion among the States in the implementation of these amendments to the Highway Beautification Act. This section makes it clear that the States, in implementing these new provisions, should ensure that signs displays and devices that have received state certification under the existing structure of federal-state agreements and state laws implementing section 131 of title 23 United States Code are not affected in any manner.

METROPOLITAN PLANNING

House bill

The House Bill revises and strengthens the metropolitan planning process. The general objective of the planning process is to develop transportation facilities that will function as an intermodal transportation system giving emphasis to those facilities which serve important national and regional transportation functions such as moving goods within urbanized areas and to distant markets, enhancing productivity and economic competitiveness, enabling persons to move quickly to and from their homes, jobs, and other destinations, providing access to international border crossings, and connecting roadways within the area with roadways outside the area.

Each urbanized area over 50,000 population is required to designate a metropolitan planning organization to carry out the required planning process. Existing MPOs are treated as continuing and are not required to be redesignated.

The planning process for an area is required to cover the existing urbanized area plus the area expected to be urbanized within the planning forecast period. In addition, the covered area may include the entire metropolitan statistical area or consolidated metropolitan statistical area on an area designated as nonattainment for transportation-related pollutants.

The planning process will include both a long-range plan and a transportation improvement program (TIP). In developing the long range plan and the transportation improvement program, the MPO shall provide affected parties a reasonable opportunity to comment on the proposed plan. The TIP is prepared cooperatively with the state and includes projects proposed for funding under Title 23 and the Urban Mass Transportation Act of 1964 that are consistent with the long-range plan and conform to the applicable clean air state implementation plan in nonattainment areas for transportation related pollutants. A project can only be included in a TIP if it can reasonably be expected to be funded within the time period contemplated for completion of the project. The TIP must be revised at least every two years.

Nothing added by this section of the House bill or the section on statewide planning changes any requirement of the Clean Air Act.

The bill lists a series of factors to be considered in developing plans and programs. In summary these include:

(1) efficient use of existing transportation facilities;

(2) energy conservation goals;

(3) social, economic and environmental effects;

(4) Clean Air Act requirements;

(5) methods to reduce and prevent traffic congestion;

(6) methods to expand and enhance transit use;

(7) effect on land use and land development;

(8) transportation needs identified by management systems;

(9) innovative methods financing;

(10) preservation of transportation corridors;

(11) long range needs;

(12) methods to enhance efficient movement of commercial vehicles;

(13) life cycle costs in design and engineering of bridges, tunnels, and pavements.

In addition to any other requirements, urbanized areas over 200,000 in population must develop plans and programs in cooperation with the state and affected transit operators. Also these urbanized areas must identify methods to reduce congestion that are appropriate for the size of the area and the complexity of the transportation problems in the area. In nonattainment areas, the methods must be coordinated with the development of the state implementation plan for the Clean Air Act.

Finally, the bill provides for the establishment within DOT of an advisory committee to review the metropolitan planning procedures and their relationship with the state planning process.

Senate amendment

Amends 23 U.S.C. 134, Transportation Planning in Certain Urban Areas. The term "certain urban areas" (urban areas of more than 50,000 population) is replaced with the term "metropolitan areas" and the title of Section 134 is now "Metropolitan Planning". Metropolitan area boundaries are determined by the metropolitan planning organization and the Governor, and as a minimum must encompass the existing urbanized area and the area expected to be urbanized within the forecast period. The metropolitan area may encompass the entire Metropolitan Statistical Area/Consolidated Metropolitan Statistical Area. For areas designated as non-attainment for ozone or carbon monoxide, the boundaries must be the boundaries for the non-attainment area unless otherwise provided by the metropolitan planning organization.

The requirement that a metropolitan planning organization (MPO) be designated for each urbanized area over 50,000 population by agreement among the local units of general purpose government and the Governor is continued. Designations made prior to enactment remain valid and redesignation is not required.

The current requirement for a continuing, cooperative, and comprehensive urban transportation planning process in all urbanized areas over 50,000 population is continued with modifications to strengthen the planning process, particularly for metropolitan areas with a metropolitan statistical area (MSA) population of more than 250,000 and in areas classified as non-attainment for ozone or carbon monoxide under the Clean Air Act. Increased emphasis is placed on preserving and making more efficient use of existing transportation facilities; consistency with energy conservation programs, goals and objectives; congestion relief; Clean Air Act requirements; effect of transportation policy decisions on land use and development, and the provisions of land use and development plans; use of innovative financing mechanisms including value capture, tolls, and congestion pricing; programming of transportation enhancement activities; development of transportation improvement programs that are consistent with anticipated funding sources; and establishment of project priorities for implementing the transportation plan.

Transportation improvement programs (TIP) are developed by the MPO, in cooperation with the State and relevant transit operators, and must include all projects to be funded under Title 23 and the Urban Mass Transportation Act. The TIP must be consistent with the long range transportation plan and in nonattainment areas for ozone and carbon monoxide conform with the applicable State implementation plan developed pursuant to the Clean Air Act. The TIP must be approved by the MPO and the Governor, and be updated at least every two years. For metropolitan areas of 250,000 population or less, projects to funded (programmed) with Title 23 funds are selected from the TIP by State in cooperation with the MPO.

In metropolitan areas with a MSA population of more than 250,000, a congestion management system that provides for the effective management of new and existing transportation facilities through travel demand reduction and operational management strategies must be developed through the required technical process. In nonattainment areas for ozone or carbon monoxide where a transportation element of the State Implementation Plan is required by the Clean Air Act, the congestion management system must be coordinated with it. Further in non-attainment areas for ozone or carbon monoxide, Federal funds cannot be used for any highway project that provides a significant increase in carrying capacity for single occupant vehicles unless the project is part of the congestion management system. The conformity review process for transportation plans, programs, and projects funded under Title 23 or the Urban Mass Transportation Act in nonattainment areas must take into account any lack of progress in implementing projects in accordance established priorities and take into consideration the emissions expected from all regionally significant transportation projects regardless of the source of funding. Although emissions from all regionally significant projects will be taken into account, any finding of non-conformity will only delay Federally assisted projects.

In areas over 250,000 population, all projects to be funded under Title 23 (except Bridge and Interstate Maintenance projects) or the Urban Mass Transportation Act must be selected by the MPO and the Governor, and must be consistent with the TIP including the priorities established in the TIP. Bridge and Interstate Maintenance projects are selected by the State in cooperation with the MPO.

In areas over 250,000 population, the Secretary must assure that the requirements of this section are adequately carried out in each metropolitan area and certify the process in each area on annual basis. If at any time after October 1, 1992, the Secretary does not certify the process for an area, the obligation authority for Surface Transportation Program that is attributed to the area automatically lapses and is redistributed to other States.

One percent of the funds authorized for programs under Sections 104 and 144, except for the Interstate Construction and Interstate Substitution programs, is set aside for metropolitan planning. The State must distribute the metropolitan planning funds to MPOs by a formula approved by the Secretary which considers population, status of planning, attainment of air quality standards, metropolitan area transportation needs and other factors necessary to provide an appropriate distribution of funds to carry out applicable statutory requirements. Metropolitan planning funds made available to a MPO and not needed to carry out the provisions of this section may be made available to the State to carry out Statewide transportation planning.

Conference substitute

The Conference Bill incorporates selected provisions from the Highway & Transit Titles of the Senate with the selected provisions of the House Bill to revise and strengthen the metropolitan planning process.

Metropolitan planning organizations are to be designated in each urbanized area over 50,000 population by agreement among the local units of general purpose government and the Governor is modified to require the agreement of local officials representing at least 75 percent of the affected population (including central cities or cities as defined by the Bureau of Census), or as otherwise provided under state or local procedures. All designations whether under this provision or previous provisions of law remain in effect until revoked by agreement between the Governor and local unite of general purpose governments representing at least 75 percent of the affected population. If the Governor and local units of government representing 75% of the affected population decide they want to redesignate the metropolitan planning organization, the existing metropolitan planning organization will remain in effect until a new metropolitan planning organization is designated by the Governor and local officials representing 75 percent of the affected population or the existing metropolitan planning organization is revoked by the Governor and local officials representing 75 percent of the population. A special provision is included to allow metropolitan planning organizations to reorganize under certain conditions that pertain to the Chicago and Los Angeles regions.

The managers recognize that the Lake Tahoe Basin was recognized by Congress in P.L. 96-551 as an ecologically fragile area of national significance. The Federal ownership of lands in this California/Nevada Bi-State Basin is approximately 73% and MPO status for purposes of federal transit and transportation funding and assistance is appropriate.

For redesignations or reorganizations of metropolitan planning organizations in transportation management areas subsequent to enactment where the proposed membership varies from the current membership, the metropolitan planning organization must include local elected officials, officials of agencies that administer or operate major modes of transportation in the metropolitan area (including all agencies included as of June 1, 1991), and appropriate State officials. However, the requirement is not intended to interfere with any authority of public agencies with multimodal transportation responsibility under State law to develop plans and programs for adoption by the metropolitan planning organization.

Metropolitan area boundaries are determined by the metropolitan planning organization and the Governor, and as a minimum must encompass the existing urbanized area and the area expected to be urbanized within the forecast period. The metropolitan area may encompass the entire Metropolitan Statistical Area/Consolidated Metropolitan Statistical Area. For areas designated as non-attainment for ozone or carbon monoxide, the boundaries must be the boundaries for the non-attainment area unless otherwise provided by the metropolitan planning organization and the Governor.

The planning process in metropolitan areas must as a minimum consider the following items:

(1) efficient use of existing transportation facilities;

(2) energy conservation goals;

(3) methods to reduce and prevent traffic congestion;

(4) effect on land use and land development;

(5) programming of expenditures for transportation enhancement activities;

(6) effects of all transportation projects regardless of source of funds;

(7) international border crossings and access to major traffic generators such as ports, airports, intermodal transportation facilities, and major freight distribution routes;

(8) connectivity of roads within the metropolitan area with roads outside the metropolitan area;

(9) transportation needs identified by management systems;

(10) preservation of transportation corridors;

(11) methods to enhance efficient movement of commercial vehicles;

(12) life cycle costs in design and engineering of bridges, tunnels, and pavement;

(13) social, economic and environmental effects.

Each MPO is required to prepare and update a long range transportation plan for its metropolitan area in accordance with a schedule established by the Secretary. The long range plan must identify transportation facilities that should function as an integrated metropolitan transportation system, giving emphasis to those facilities that serve important national and regional transportation functions. In nonattainment areas for transportation related pollutants, the metropolitan planning organization must coordinate the development of the long range plan with the process for development of transportation measures of the State Implementation Plan required by the Clean Air Act. The long range plan must be made available for public review prior to approval.

Transportation improvement programs (TIP) are developed by the MPO, in cooperation with the State and relevant transit operators, and must include all projects to be funded under Title 23 and the Federal Transit Act. The TIP must be approved by the MPO and the Governor, and be updated at least every two years. The TIP must be made available for public review prior to approval. In areas that are not designated as transportation management areas, projects are selected by the State in cooperation with the metropolitan planning organization from the approved TIP.

For urbanized areas not designated as transportation management areas, the Secretary may prescribe abbreviated requirements for the development of transportation plans and programs. However, the Secretary may not prescribe abbreviated requirements for any area designated as nonattainment for ozone or carbon monoxide under the Clean Air Act.

Urbanized areas over 200,000 population must be designated as transportation management areas. In addition to the general requirements for all urbanized areas, transportation management areas must develop a transportation management system that provides for effective management of new and existing transportation facilities through travel demand and operational management strategies. In transportation management areas all projects funded under Title 23 (except for National Highway System, Bridge or Interstate Maintenance projects) and the Urban Mass transportation Act are selected by the metropolitan planning organization in consultation with the State. National Highway System, Bridge and Interstate Maintenance projects are selected by the State in cooperation with the metropolitan planning organization.

The Secretary must assure that the requirements of this section are adequately carried out in each transportation management area and certify the process in each transportation management area at least every 3 years. If an area is not certified, the Secretary may withhold, in whole or part, the apportionments under the Surface Transportation Program attributed to the metropolitan area.

In areas classified as nonattainment for ozone or carbon monoxide, Federal funds may not be used for any highway project that will significantly increase the carrying capacity for single occupant vehicles unless the project is part of or consistent with the approved congestion management system.

The Secretary shall prescribe an appropriate phase-in schedule for any new requirements under this section.

One percent of the funds authorized for programs under Sections 104 and 144, except for the Interstate Construction and Interstate Substitution programs, is set aside for metropolitan planning. The State must distribute the metropolitan planning funds to MPOs by a formula approved by the Secretary which considers population, status of planning, attainment of air quality standards, metropolitan area transportation needs and other factors necessary to provide an appropriate distribution of funds to carry out applicable statutory requirements. Metropolitan planning funds made available to a MPO and not needed to carry out the provisions of this section may be made available to the State to carry out Statewide transportation planning.

STATEWIDE PLANNING

House bill

In carrying out statewide transportation planning, the state is required to prepare a long-range plan and a transportation improvement program, taking into consideration the factors listed for the metropolitan planning process. Specifically, the state is required to incorporate, coordinate, and reconcile the plans and programs developed under the metropolitan planning process, provide for comprehensive planning in areas of the state which are not urbanized areas, consult with Indian tribal governments, and establish management and traffic monitoring systems.

Senate amendment

This section would establish a requirement for a statewide transportation planning process in Section 135 of Title 23. Under this section the States would be required to have a Bridge Management System, a Pavement Management System, a Safety Management System, and a Congestion Management System developed in accordance with regulations issued by the Secretary. A State that certifies to the satisfaction of the Secretary that no congestion exists or is expected to exist will not be required to have a congestion management system. These systems are currently in various stages of development. Full development is expected to occur in stages with final implementation by 1995. If a State does not have approved management systems by 1995, the Secretary may: (1) withhold project approvals under 23 U.S.C. 106 and (2) decline acceptance of the State's certification and notice under the 23 U.S.C. 133(c)(2). Each State must also have a Traffic Monitoring System to provide data determined necessary under Title 23. Guidelines and requirements will be established by the Secretary.

The Statewide transportation planning process must take into account the required management systems; Federal, State or local energy use goals, objectives, programs or requirements; and valid state or local development or land use plans, programs, or requirements. The process must provide for comprehensive surface transportation planning for non-metropolitan areas and the integration of any non-metropolitan area plan with any metropolitan area plans. In non-attainment areas for ozone and carbon monoxide, the process must be coordinated with development of the transportation portion on any state implementation plan (SIP) required under the Clean Air Act (CAA) and must provide for compliance with any revelant requirements of the SIP. Any State containing a non-attainment area for ozone or carbon monoxide must develop a State transportation plan and update it at least every two years. In addition to the general requirements for a State transportation plan, the plans in non-attainment areas must incorporate without change metropolitan area plans and provide for coordination in the development of the plan with the SIP.

The funds set aside under 23 U.S.C. 307(c)(1) are available to carry out the requirements of this section.

Conference substitute

The conference Bill incorporates selected provisions from the Senate Bill with the selected provisions of the House Bill to establish a statewide multimodal transportation planning process for the development of transportation plans and programs for all areas of the state. The planning process must consider all modes of transportation and must be continuing, cooperative, and comprehensive to the degree appropriate based on the complexity of the transportation problems.

In developing the transportation plan, the State must provide an opportunity for public involvement and consult with Indian tribal governments having jurisdiction over lands within the State. In developing the transportation improvement program, the State must provide an opportunity for public involvement and cooperate with the metropolitan planning organizations. The transportation improvement programs must include all projects proposed for funding under title 23 or the Federal Transit Act, and must be reviewed and approved at least biennially.

The States would be required to have a Bridge Management System, a Pavement Management System, a Safety Management System, a Congestion Management System, a Transit Management System, and an Intermodal Management System developed in accordance with regulations issued by the Secretary. A State that certifies to the satisfaction of the Secretary that no congestion exists or is expected to exist will not be required to have a congestion management system. These systems are currently in various stages of development. Full development is expected to occur in stages with final implementation by 1995. If a State does

not have approved management systems, the Secretary may: (1) withhold project approvals under 23 U.S.C. 106 and (2) decline acceptance of the State's certification and notice under the 23 U.S.C. 133(c)(2). Each State must also have a Traffic Monitoring System to provide data determined necessary under Title 23. Guidelines and requirements will be established by the Secretary.

The Statewide transportation planning process must provide for or take into account:

(1) transportation needs identified by management systems;

(2) plans for bicycle transportation and pedestrian walkways in the various areas of the State to the degree appropriate;

(3) energy conservation goals;

(4) international border crossings and access to major traffic generators such as ports, airports, intermodal transportation facilities, and major freight distribution routes;

(5) comprehensive surface transportation planning for nonmetropolitan areas through a process that includes consultation with local elected officials;

(6) :metropolitan plan developed under section 134;

(7) connectivity between metropolitan areas within the State and with metropolitan areas in other States;

(8) recreational travel and tourism;

(9) any State plan developed pursuant to the Federal Water Pollution Control Act;

(10) Clean Air Act requirements in non-attainment areas for transportation related pollutants;

(11) transportation system management and investment strategies to make efficient use of existing transportation facilities;

(12) social, economic and environmental effects;

(13) methods to reduce and prevent traffic congestion;

(14) methods to expand and enhance transit use;

(15) effect on land use and land development;

(16) transportation needs identified through use of the management systems required by this section;

(17) innovative methods of financing;

(18) preservation of transportation corridors;

(19) long range needs;

(20) methods to enhance efficient movement of commercial vehicles;

(21) life cycle costs in design and engineering of bridges, tunnels, and pavements.

The Secretary shall prescribe an appropriate phase-in schedule for the requirements of this section.

The funds set aside under 23 U.S.C. 307(c)(1) are available to carry out the requirements of this section.

INDIAN NONDISCRIMINATION

House bill

Section 140 of Title 23 is amended to make Indian tribal governments eligible for grants to develop, conduct and implement highway construction training and skills programs.

Section 140(d) is amended to authorize states to extend Indian employment preference programs to projects near reservations. Currently, such programs are limited to Indians living on or near reservations and to projects on Indian reservation roads.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

PUBLIC TRANSPORTATION

House bill

The House amendment allows for the improved access between intercity and rural bus service.

Senate amendment

No comparable provision.

Conference substitute

The House recedes to the Senate.

BRIDGE REPLACEMENT AND REHABILITATION

House bill

The Secretary, in consultation with the Secretary of Interior is required to conduct an inventory of Indian reservation and park bridges; classify them according to serviceability, safety, and essentiality for public use; assign a priority for replacement or rehabilitation; and determine the cost of replacing or rehabilitating each bridge.

Bridge painting and the application of calcium magnesium acetate is made an eligible cost under the bridge program.

The Federal share is 80 percent.

There is authorized $ million per fiscal year for each of the fiscal years 1992 through 1996 for the bridge discretionary program. Of that amount, $ million per fiscal year is set-aside for timber bridges.

The provisions of the off-system bridge program are extended to permit the cost of bridge painting and the application of calcium magnesium acetate to off system bridges.

No less than 1 percent of the amount apportioned to each state in bridge funds shall be used on Indian reservation bridges. The funds will be deducted in advance of each state's apportionment and allocated to the Secretary of the Interior for expenditure. The Secretary may reduce the set-aside with the concurrence of the Secretary of the Interior after consultation with the state and tribal governments if it is determined that there are inadequate needs to justify such expenditure. The non-Federal share for Indian reservation bridge projects may be paid from amounts made available from the Indian reservation roads program.

Subsection (g) protects any previously apportioned bridge funds.

Funds are authorized and allocated for high cost bridge projects.

Senate amendment

This section amends Section 144 of Title 23, United States Code. The Federal share payable is retained at 80% for bridge projects where rehabilitation or replacement is for structural reasons. It is also retained for replaced or rehabilitated bridges where additional capacity is needed for other than single occupant vehicles. Where expanded capacity is proposed by either replacement or rehabilitation for use by single occupant vehicles, the federal share is 75 percent. For example, an existing two-lane bridge could be rehabilitated or replaced by a new two-lane bridge with a Federal share of 80 percent. However, if an additional third lane primarily available to single occupant vehicles is constructed, the federal share for the third lane would be 75 percent. Pay back provisions are included for those cases where a State uses 80 percent Federal funding for a bridge, but later converts the bridge for use by single occupant vehicles. The Secretary is to develop the criteria for determining the appropriate Federal share of bridge replacement or rehabilitated bridge projects.

Bridge painting and seismic retrofit is made an allowable expense for bridges eligible for bridge program funding. The discretionary bridge program is repealed.

States need to fully consider the environmental effects and long-term economic costs associated with traditional highway and bridge maintenance and safety practices such as the use of road salt in winter. To encourage States to adopt environmentally safer highway maintenance practices, calcium magnesium acetate (CMA) is included as an eligible expense under the Bridge program. This action is a continuation of Section 173 of Public Law 100-17. This provision should encourage States to use CMA on a limited number of bridges in order to extend their useful life, and to protect the surrounding environment.

Level-of-service criteria are to be established for the bridge program by January 1, 1992. The level-of-service criteria are target values against which bridge characteristics are to be compared. The values vary by highway system or functional classification. Using the comparison, bridges can be categorized as needing or not needing rehabilitation or replacement. The bridges thus categorized are those eligible for bridge program funds, and are the bridges used in apportioning these funds to the States. The bill also permits the States to expend up to 35 percent of Federal bridge funds on bridges that are not in the level-of-service inventory.

Conference substitute

The Conference Substitute adopts the House provisions with an amendment that permits seismic retrofit as an eligible expense for bridges.

SPEED LIMIT

House bill

Section 130 of the House bill establishes new compliance requirements to reflect the higher risk associated with higher speeds, road design, and enforcement capabilities. The House bill also modifies the current sanction requirement.

Under the House bill, the Secretary is required to transfer not less than 1 percent and not more than 5 percent of a state's National Highway System funds to its apportionment under section 402 of this title if the percentage of vehicles in such state (A) on 55 mph Interstate highways are traveling at speeds in excess of the posted speed limit plus 5 miles per hour exceed 50%, (B) on 55 mph Interstate highways are traveling at speeds in excess of the speed limit plus 10 miles per hour exceeds 30 percent, (C) on 65 mph Interstate highways are traveling at speeds in excess of the posted speed limit plus 5 miles per hour exceeds 35 percent, (D) on 65 mph Interstate highways are traveling at speeds in excess of the speed limit plus 20 miles per hour exceeds 20 percent, (E) on non-interstate highways are traveling at speeds in excess of the posted speed limit plus 5 miles per hour exceeds 30 percent, or (F) on non-interstate highways are traveling at speeds in excess of the posted speed limit plus 10 miles per hour exceeds 15%.

Fifty percent of any funds transferred to Section 402 must be used for speed enforcement activities and public education and information. At the request of a state, the Secretary may waive this requirement for any fiscal year quarter after a fiscal year quarter the state is found to be in compliance with this section.

The bill also codifies the current provisions that permit states to raise the speed limit up to 65 mph on certain non-Interstate highways built to Interstate standards and located outside of an urbanized area. In addition, it requires the collection of uniform data on 55 mph and 65 mph highways and requires the Secretary to issue regulations that devices and equipment are placed at locations on maximum speed limit highways on a scientifically random basis which takes into account the relative risk of motor vehicle accidents as they relate to speed and class of highways.

The House bill would further transfer the administration of this section and appropriate Federal Highway Administration personnel to the National Highway Traffic Safety Administration.

Senate amendment

Section 139(a) repeals 23 U.S.C. 141(a), which requires each state to certify annually that it is enforcing all speed limits on public highways posted at the national maximum speed limit and requires the Secretary to withhold project approval in any state that fails to certify accordingly. The language of 23 U.S.C. 141(a) is incorporated in 23 U.S.C. 154 as rewritten in subsection (b) of this section.

Subsection (b) rewrites 23 U.S.C. 154, the national maximum speed limit law. As rewritten, section 154:

(1) continues the current national maximum speed limit of 55 mph on public highways other than Interstate highways located outside of an urbanized area and 65 mph on Interstate highways located outside of an urbanized area;

(2) codifies the current permission for states to raise the speed limit up to 65 mph on certain non-Interstate highways built to Interstate standards and located outside of an urbanized area.

(3) requires each state to collect and submit to the Secretary annual speed-related data on public highways posted at or above 55 mph (current data collection and compliance requirements apply only to highways posted at 55 mph);

(4) incorporates the language of the current section 141(a) prohibiting the approval of state highway construction projects in a state that fails to certify that it is enforcing all speed limits on public highways; and

(5) repeals, by omission, current provisions of the national maximum speed limit law that: (a) require states to submit to the Secretary compliance data for a 12-month period on the percentage of motor vehicles exceeding 55 mph on their public highways posted at 55, and (b) establish a process under which a state could lose up to 10 percent of its non-Interstate highway construction funds for the following fiscal year if the state's 12-month compliance data show that more than 50 percent of its motorists exceeded the posted 55 mph limit;

Conference substitute

The Conference Substitute modifies Sec. 154(e), Title 23 U.S.C., to provide that speed limit data to be reported annually to the Secretary include, but not be limited to, data on citations, travel speeds and the posted speed limit and the design characteristics of roads from which such travel speed data are gathered. The Substitute also adopts the House language regarding the collection of data and the adoption of regulations by the Secretary on the placement of monitoring devices.

The House provision relating to enforcement is amended by requiring the Secretary, one year after the enactment of this Act, to publish in the Federal Register a proposed rulemaking to establish speed limit enforcement requirements which shall devise a formula for determining compliance with the requirements of the rulemaking (1) which assigns greater weight for violations of such speed limits in proportion to the amount by which the speed of the motor vehicle exceeds the speed limit and (2) which differentiates between the type of road on which speed limit violations occur. In developing the formula, the Secretary is required to consider factors relating to (1) the enforcement of efforts made by the states, data concerning fatalities and serious injuries occurring on roads posted at 55 mph or higher, and (2) any other measure of speed enforcement or speed-related highway safety trends which the Secretary deems appropriate. The Conference Substitute applies the same reprogramming provision and Secretarial discretion with regard to the percentage transferred as in the House bill.

The Secretary must publish the final form of the prescribed regulations in the Federal Register within 60 days after publication of the proposed rulemaking. Such final rule shall take effect no later than 12 months after such publication.

MINIMUM ALLOCATION

House bill

The House bill increases the minimum allocation level from 85 percent to 90 percent, i.e. it assures that each State's share of the Federal-aid program (calculated based on that year's apportionment and prior year's allocations) will not be less than 90 percent of its relative share of contributions to the Highway Trust Fund. The base upon which this calculation takes place includes all Federal-aid programs with the exception of forest highways, Indian reservation roads, parkways and park roads, highway related safety grants, non-construction safety grants, motor carrier safety grants, and projects from either this Act or the 1987 STURAA.

Further, the House bill provides a separate guaranteed minimum for the projects contained in the House bill.

Senate amendment

The Senate amendment contains no comparable provision, thus continuing minimum allocation as in current law.

Conference substitute

The conference substitute retains the minimum allocation concept, increased to a 90 percent level, although the base upon which it is calculated is changed. That base includes apportionments for interstate construction, interstate substitution, interstate maintenance, bridge and surface transportation programs as well as prior years discretionary allocations derived from these programs.

BICYCLE TRANSPORTATION AND PEDESTRIAN WALKWAYS

House bill

Section 132 amends Section 217 of title 23, United States Code to provide that, with the approval of the Secretary, a state may obligate its Rural and Urban Mobility and Flexible funds to construct pedestrian walkways and bicycle transportation facilities on any Federal-aid highway, except on the Interstate system. No bicycle projects may be carried out that are not principally for transportation rather than recreational purposes. Also with the Secretary's approval, a state may obligate its national highway system funds to construct bicycle transportation facilities on land adjacent to any National Highway System highway other than on the Interstate system. Funds authorized for forest highways, forest and public lands development, roads and trails, park roads, parkways, Indian reservation roads and public lands highways shall be available for the construction of pedestrian walkways and bicycle transportation facilities in conjunction with such trails, roads, highways and parkways at the discretion of the department which administers the funds.

States shall use urban and rural mobility and flexible apportionments to fund a bicycle and pedestrian coordination position with the state department of transportation. The coordinator shall promote and facilitate increased use of nonmotorized modes of transportation, development of pedestrian and bicycle facilities, public education, and promotional and safety programs for using the facilities. At least 50 percent of the coordinator's position shall be dedicated to coordinating and developing such programs and facilities.

On Federally assisted bridge deck replacement or rehabilitation projects and on highways which are not fully access controlled, where bicycles are permitted to operate at each end, accommodations for bicycles may be included in the project if the Secretary determines it is safe to do so and it can be provided at a reasonable cost. Pedestrian walkways and bicycle transportation facilities shall be located and designed as part of an overall plan with due consideration for safety and contiguous routes, and no motorized vehicles shall be permitted on pedestrian walkways and trails except for maintenance purposes or when snow conditions and state or local regulation permit, motorized wheelchairs.

Senate amendment

The Senate amendment continues existing law with conforming amendments. It also includes facilities for pedestrian and bicycles as an eligible item for funding under transportation enhancement activities.

Conference substitute

The Conference Substitute adopts the House provision.

INDIAN RESERVATION ROADS

House bill

The House bill provides for 2% of IRR funding under the Federal Lands Highway Program to be allocated to tribes applying for transportation planning pursuant to the provisions of the Indian Self Determination and Education Assistance Act. In addition, the bill directs the Secretary to conduct a study related to Indian reservation roads.

Senate amendment

The Senate bill also provides for 2% of IRR funding to tribes applying for transportation planning.

Conference substitute

The managers have agreed to the House language with the exception that the 2% of the funding provided has been amended to provide "up to" 2% is provided.

FEDERAL LANDS

Indian Reservation Roads

House bill

The House amendment directs the Secretary to conduct a study on differences between the use of funds from the Highway Trust Fund on Indian reservation roads and other federal-aid highways to identify inequities. The study results, including legislative and administrative recommendations, shall be sent to Congress within one year.

Senate amendment

The Senate bill contains no comparable provision.

Conference substitute

The Senate recedes to the House.

House bill

The House bill provides that two percent of each year's Indian Reservation Roads funds

be allocated to tribal governments applying for transportation planning pursuant to the Indian Self-Determination and Assistance Act.

Senate amendment

The Senate bill provides an identical provision.

Conference substitute

The Conference substitute amends the provision for "up to" two percent for such purposes so allocated amount is based on actual applications by tribal governments. Tribes not applying for planning grants under the Self Determination Act will continue to receive such services from the Bureau of Indian Affairs administrative cost account.

Program Structure

House bill

The House bill contains no comparable provisions.

Senate amendment

The Senate amendment restructures the federal land category by consolidating the forest roads and nation-wide discretionary account into a new public lands highway program. Sixty-six percent of the public lands highway account shall be allocated to the Forest Service regional offices for use in 41 states based on forest highway criteria. The remaining 34 percent shall be allocated by the Secretary based on national competition for other forest or public land highways.

The Senate amendment qualifies each class of Federal land highways for transportation planning for tourism and recreational travel and makes certain costs such as interpretative signage and rest areas eligible cost items.

The Senate amendment authorizes the Secretary to transfer appropriate funds to the Secretary of Interior to cover road-related administrative costs of the Bureau of Land Management in connection with public lands highways.

The Senate amendment directs the Secretaries of Transportation, Interior and Agriculture to develop appropriate transportation planning procedures, and safety, bridge and pavement management systems for funds funded under the Federal Lands Highway Program.

CONFERENCE SUBSTITUTE

The Conference recedes to the Senate provisions.

Funding levels

House bill

The House amendment authorizes $268 million for forest roads, $193 million for public lands highways, $292 for parks and parkways, and $1,028 for Indian Reservation Roads over six years.

Senate amendment

The Senate amendment authorizes $1 billion for the new consolidated public land highways program, $600 million for parks and parkways, and $1 billion for Indian reservation roads.

Conference substitute

The Conference substitute provides $1 billion for the public lands highways, $486 million for parks and parkways and $1.114 for Indian reservation roads.

MANAGEMENT SYSTEMS

House bill

The House bill requires the Secretary to issue regulations within one year for the development, establishment, and implementation of six (6) management systems: pavement, bridges, safety, congestion, public transportation, and intermodal. Beginning with FY 96, the Secretary may withhold 10 percent of funds apportioned under Title 23 and the UMTA Act of 1964 for failure to implement and certify implementation of each system in the preceding year. Costs to develop and establish these systems are eligible uses of Federal-aid apportionments.

Senate amendment

The Senate amendment, as part of the Statewide planning process, requires the States to have systems comparable to those of the House bill with the exception of public transportation and intermodal. The penalty for failure to establish approved systems, at the discretion of the Secretary, withholding project approvals and/or decline acceptance for the certification necessary as part of the Surface Transportation Program.

Conference substitute

The Conference substitute adopts the House provision requiring the Secretary to withhold up to 10 percent of the funds apportioned to the states that have adopted and implemented management systems.

LIMITATION ON DISCOVERY OF CERTAIN REPORTS AND SURVEYS

House bill

This section clarifies that no report, survey schedule list, or data compiled for the purpose of complying with Section 130 and 144 of Title 23, United States Code, or for developing any highway safety construction project which may be implemented with Federal-aid highway funds shall be subject to discovery or admitted into evidence in a Federal or state court proceeding.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House Provision.

BUY AMERICA

House bill

This section clarifies the intent of Congress to include products manufactured with iron under the Buy America provisions.

The Secretary of Transportation is required to submit to Congress a report on purchases from foreign entities that include the dollar value of items for which waivers were granted under the Buy America provisions.

This section also contains provisions that establish penalties for certain violations and limitations on the applicability of waivers for products produced in foreign countries that have trade agreements with the United States.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

RELOCATION ASSISTANCE REGULATIONS RELATING TO THE RURAL ELECTRIFICATION ADMINISTRATION

House bill

This section exempts the Rural Electrification Administration (REA) from certain rules relating to appraisal required by the Department of Transportation to carry out property acquisitions. If the acquisition activities of the REA result in the dislocation of a person, then REA must follow the rules of adequately compensating a displaced person.

Senate amendment

The Senate amendment amends section 213(c) of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1973. It exempts the Rural Electrification Administration (REA) from the uniform regulation relating to the acquisition of real property under title III of that Act. The relocation provisions in title II of the Act would still apply where the activities of REA (or TVA which is already exempted) result in the displacement of persons or businesses.

Conference substitute

Adopts the Senate provision.

TEMPORARY MATCHING FUND WAIVER

House bill

The House bill contains a provision comparable to that incorporated into the 1987 STURAA, permitting the states to request a waiver of the non-Federal share for a qualifying project, in this case for fiscal years 1992 and 1993. The state shares waived must be fully repaid by March 30, 1994, with payments deposited in the Highway Trust Fund and repaid amounts credited to the appropriate apportionment account of the state.

Any amounts not repaid are to be deducted from the state's fiscal year 1995 and 1996 apportionments and then apportioned to other states which have not received a higher Federal share under this section and to those states which have made the required repayment.

Senate amendment

The Senate amendment contained no comparable provision.

Conference substitute

The conference substitute adopted the House provision.

HIGH PRIORITY CORRIDORS

House bill

This section identifies 16 high priority corridors that are regionally and nationally important. These corridors are required to be put on the National Highway System.

For all of these corridors, both long-range planning and specific feasibility and design studies will be carried out by the Secretary and the states cooperatively. For work on these corridors the Secretary may use certification acceptance under section 117 of title 23 and shall, to the maximum extent feasible, use procedures for acceleration of projects.

Specific high priority segments are identified for specific funding. The overall funding that is available for these projects is $200 million for FY 1992 and $450 million per year for each of FY 1993-1996. In addition, since this special funding will generally not be sufficient to complete work on these segments, the bill requires states to give priority to funding these segments with apportioned funds.

A separate authorization of $10 million per year is provided for feasibility and design studies. In addition, a revolving loan fund of $200 million is established from a $50 million set aside for each of FY 1993-1996. This Fund would be available to advance amounts to a state for construction of projects in the corridors, with priority given to the high priority segments. A state would repay amounts advanced from National Highway System apportionments.

Senate amendment

The Senate amendment contained no comparable provision.

Conference substitute

The conference substitute adopted the House provisions with the following changes: (1) various authorization levels for high priority segments were modified, (2) the mandatory "shall" language was made permissive by substituting the word "may," and (3) a new corridor and segment was added in New York. Technical corrections were made to make the advance construction provisions workable for the Cumberland Gap as well as to clarify the intent of establishing contract authority for the feasibility studies funded under this Section.

HIGHWAY TIMBER BRIDGE RESEARCH AND DEMONSTRATION PROGRAM

House bill

The House amendment directs the Secretary to establish a Timber Bridge Construction and Discretionary grant program, allowing States to receive grants for the construction of highway timber bridges.

Senate amendment

The Senate amendment directs the Secretary to establish a Timber Bridge Construction Discretionary Grant Program, as well as a Program of Research on Wood Use in Transportation Structures.

Conference substitute

House recedes to Senate amendment with funding level to be split between Senate level and the level contained in House bill.

CONSTRUCTION OF FERRY BOATS AND FERRY TERMINAL FACILITIES

House bill

This section provides that the Secretary shall carry out a program for construction of ferry boats and ferry terminal facilities in accordance with section 129(c) of title 23. The Federal share for construction of ferry boats under this section shall be 80%. There is authorized $36 million for fiscal year 1992 and $43 million per fiscal year for each of the fiscal years 1993 through 1997 out of the Highway Trust Fund and shall be available to the Secretary each fiscal year to obligate at his or her discretion for grants under this section. The funds shall remain available until expended. All the provisions of chapter 1 of title 23 that apply to the National Highway System, except those related to the apportionment formula and Federal share, shall apply to funds made available to carry out this section, unless the Secretary determines they are inconsistent with this section.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision with modifications to the funding levels.

ASPHALT PAVEMENT CONTACTING RECYCLED MATERIALS

House bill

Section 143 of H.R. 2950 specifies that, for a period of five years, the Secretary of Transportation may not disapprove any state highway project on the basis that such project utilizes rubber modified asphalt. This section also requires the Secretary to conduct a two-year study on the utilization of recycled materials in paving materials and highway devices and appurtenances.

Senate bill

Section 127 of S. 1204 requires the Secretary of Transportation to withhold grants under title 23, other than for projects or grants relating to safety, from any state which cannot certify to the Secretary that it has met the minimum utilization requirement of the equivalent of 6 pounds of rubber derived from scrap tires for each ton of finished asphalt pavement used in federally-assisted highway projects. The provision allows the Secretary to set aside the requirement for any three-year period upon a determination that 1) the use or application of asphalt rubber pavement creates a risk to human health or the environment; 2) asphalt rubber pavement cannot be recycled to the same degree as conventional pavement; or 3) asphalt rubber pavement does not perform adequately as a paving material.

The Secretary, in cooperation with the Administrator of the Environmental Protection Agency, is required to conduct research on the environmental risks, technical performance and recyclability of asphalt rubber pavement.

Conference substitute

The Conference Substitute combines the major provisions of both the House and Senate bills. It includes the provision which prevents the Secretary from disapproving a highway project because it includes the use of asphalt pavement containing recycled rubber. It also requires the Secretary and the Administrator of EPA, in cooperation with the states, to conduct a study on the health and environmental threats, recyclability, and technical performance of asphalt pavement containing recycled rubber. In addition, the study will determine the economic savings, technical performance qualities, and environmental threats and benefits of using other recycled materials, including recycled glass, plastic and asphalt, in highway projects. The Secretary is instructed to encourage the use of recycled materials determined to be appropriate by this study. In procuring such materials, procuring agencies as defined in section 1004(17) of the Solid Waste Disposal Act shall comply with all applicable guidelines or regulations issued by the Administrator of the Environmental Protection Agency including those issued pursuant to section 6002 of the Solid Waste Disposal Act.

Beginning January 1, 1995, each state is required to certify to the Secretary that it has satisfied the minimum utilization requirement for asphalt pavement contacting recycled rubber, as follows: five percent in 1994; ten percent in 1995; 15 percent in 1996; and 20 percent in 1997 and each year thereafter. The Secretary shall withhold from any state failing to make such certification a percentage of highway construction, rehabilitation and repair apportionments equivalent to the percentage utilization requirements established in this section.

Other recycled materials, as determined appropriate by the Secretary and the Administrator of EPA, pursuant to the study required by this section, may be substituted for recycled rubber under the minimum utilization requirement up to five percent. The conferees recognize that other recycled materials with the potential for exhibiting technical performance qualities may require substantial time for further development and testing. In such case, it is intended that the Secretary will note this in the report submitted to Congress, and that the authorization to substitute will not go into effect until such time as such other recycled materials have been developed and tested, and as a result of such development and testing, demonstrate, to the satisfaction of the Secretary, that asphalt containing recycled material or materials will perform in a manner equivalent to asphalt contacting recycled rubber.

The conferees recognize that a state may not have a sufficient quantity of scrap tires to meet the minimum utilization requirements established by this section, because it is recycling or processing tires (which includes retreading or energy recovery), or shipping tires to another state for such recycling or processing. In such case the state may request that the Secretary, in concurrence with the Administrator of EPA, reduce the minimum utilization requirement for that state.

The term "recycled rubber", as used in this section, is any crumb rubber derived from processing whole scrap tires or shredded tire material taken from automobiles, trucks or other equipment owned and operated in the United States provided that, such processing does not produce, as a waste, casings or other round tire material that can hold water when stored or disposed above ground.

HIGHWAY USE TAX EVASION PROJECTS

House bill

This section provides in subsection (a) that the Secretary shall use funds made available by subsection (f) to carry out highway use tax evasion projects. At the discretion of the Secretary, the funds may be allocated to the Internal Revenue Service and the states.

Funds may be used only to expand efforts to enhance motor fuel tax enforcement; to fund additional Internal Revenue Service staff solely to carry out the functions described in this subsection; to supplement motor fuel tax examinations and criminal investigations; to develop automated data processing tools to monitor motor fuel production and sales; to evaluate and implement registration and reporting requirements for motor fuel taxpayers; to reimburse state expenses that supplement existing fuel tax compliance efforts; and to analyze and implement programs to reduce tax evasion of other highway use taxes.

The Secretary is authorized to conduct a study to determine the feasibility and the desirability of using dye and markets to aid in motor fuel enforcement activities. The Secretary must transmit a report on the results of the study not later than one year after the effective date of this section.

The Secretary shall establish an advisory committee to prepare a plan to carry out and coordinate highway use tax evasion projects, monitor the results of the projects, provide progress reports, and make recommendations to the Secretary for the distribution of funds under this section, including recommendations for distributing funds among states fairly and equitably. The advisory committee members shall be appointed no later than 180 days after enactment. Members shall include representatives of the Federal Highway Administration, the Internal Revenue Service and the States. The advisory committee shall terminate on September 30, 1996.

The Secretary may not make a grant to a state unless it certifies that the aggregate expenditure of state funds, exclusive of Federal funds, for fuel tax enforcement activities will not fall below the average level expended for the last two years.

On October 1 and April 1 of each year, the Secretary shall transmit to the Senate Committee on Environment and Public Works and the House on Public Works and Transportation a report on motor fuel tax enforcement activities and the expenditure of funds made available under this section including the hiring of additional staff by any Federal agency.

There is $7 million authorized for fiscal year 1992 and $8 million per year for fiscal years 1993 through 1997 to be made available to the Secretary for projects under this section. Funds shall be obligated in the same manner and to the same extent as funds apportioned under chapter 1 of Title 23, except that the Federal share for projects shall be 100% and remain available under expended.

For the purposes of this section "state" means the 50 States and the District of Columbia.

Senate amendment

The amendment authorizes $5 million for each of the fiscal years 1992 through 1996 to carry out highway use tax evasion projects. The funds will be allocated to the Internal Revenue Service at the discretion of the Secretary. The funds may be used only to expand efforts to enhance motor fuel tax enforcement, fund additional IRS staff, supplement motor fuel tax examination and criminal investigation and for other related purposes.

The Secretary shall transmit to the Congress a report on motor fuel tax enforcement activities and the expenditure of funds made available under this section, including the hiring of additional staff by any Federal agency, on October 1 and April 1 of each year.

Conference substitute

Adopts the House provision with an amendment that authorizes $25 million in contract authority and $15 million in General Fund appropriations spread out over the 6-year life of the bill.

SUBSTITUTE PROJECT

House bill

The House provision allows the Secretary to approve substitute highway, bus transit, and light rail transit projects, in lieu of construction of I-94.

Senate amendment

The Senate amendment is similar; however, the source of funding for any transit substitute projects approved shall be the Mass Transit Account of the Highway Trust Fund.

Conference substitute

The Senate recedes to the House.

RENTAL RATES

House bill

The House bill authorizes a study on equipment rental rate for use of reimbursing contractors for extra work on Federal-aid projects.

Senate amendment

The Senate amendment contained no comparable provision.

Conference substitute

The conference substitute adopts the House provision.

SCENIC BYWAYS PROGRAM

House bill

Section 147 of the House bill establishes a Scenic Byways Advisory Committee within the Department of Transportation for the purpose of assisting the Secretary in developing a national scenic byways program and in making recommendations to the Secretary regarding minimum criteria for use by state and Federal agencies in designating highways as scenic byways and all-American roads.

Membership must consist of the Administrator or a designate of the Administrator of the Federal Highway Administration; the Chief or designee of the Chief of the Forest Service of the Department of Agriculture; the Director or designee of the Director of the Bureau of Land Management of the Department of the Interior; the Under Secretary or designee of the Under Secretary for Travel and Tourism of the Department of Commerce; the Assistant Secretary or designee of the Assistant Secretary of Indian Affairs of the Department of the Interior; and appointees of the Secretary to represent the interests of conservationists, recreational users of scenic byways, the tourism industry, historic preservationists, highway users, state highway and transportation officials, local highway and transportations officials, an individual qualified to serve on the advisory committee as a planner, one representative each of the motoring public and of groups interested in scenic preservation, and a representative of the outdoor advertising industry.

Recommendations made by the advisory committee shall include consideration of the scenic beauty and historic significance of highways proposed for designation and the areas surrounding the highways; operation and management standards for scenic byways and all-American roads including strategies for maintaining and improving their scenic and historic qualities, for protecting and enhancing landscape and view corridors and for minimizing traffic congestion; standards for scenic byway-related signs, and other matters.

No later than 18 months after enactment, the advisory committee shall submit to the Secretary and Congress a report with all recommendations described in this section. The Secretary shall provide technical assistance and grants to the states for planning, design and development of state scenic byway programs.

An Interim Scenic Byways Program is created for fiscal years 1992, 1993 and 1994, during which the Secretary may make grants to the States for eligible projects on State-designated scenic byways. The Secretary is to give priority to eligibility projects which are included in a corridor management plan for maintaining scenic, historic, recreational, cultural and archeological characteristics of the corridor while providing for accommodation of increased tourism and development of related amenities; to eligible projects for which a strong local commitment is demonstrated for implementing the management plans and protecting the characteristics for which the highway is likely to be designated; to eligible projects included in programs which can serve as models for other States; and to eligible projects in multi-State corridors where the States submit joint applications. Eligible projects include planning, design, and development of State scenic byway programs; making safety improvements to the extent such improvements are necessary to accommodate increased traffic and changes in the types of vehicles using the highway; construction of facilities for the use of pedestrians and bicycles, rest areas, turnouts, highway shoulder improvements, passing lanes, overlooks, and interpretative facilities; improvements to the highway which will enhance access to an area for the purpose of recreation, including water-related recreation; protecting historical and cultural resources in areas adjacent to the highway; and developing and providing tourist information to the public, including interpretive information about the scenic byway.

Senate amendment

Section 129 provides for the creation of a National Scenic and Historic Byways Program and implements the recommendations from the national study completed by the Federal Highway Administration in January 1991. As part of this program, the Federal Highway Administration will establish the capability to provide information and technical assistance to the state agencies responsible for scenic and historic byway programs. In addition, the Federal Highway Administration will provide grants to these state agencies for the planning, design, and development of State scenic byway programs. These grants may be used for initiating or expanding planning and program development efforts and for providing such road user amenities as information services, maps and brochures, and interpretive displays on existing byways. Criteria for allocating these grants will be established by the Federal Highway Administration consistent with the findings from the national study.

The development of the All American Roads Programs should include a broad-based group of federal, state, local, and private sector representatives having knowledge and experience with scenic byway programs. At a minimum, the federal involvement should include representatives from the Department of Transportation, the United States Forest Service, the Bureau of Land Management, the National Park Service, the Bureau of Indian Affairs, and the U.S. Travel and Tourism Administration. The national study should be consulted in developing the criteria for the All American Roads program. Roads to be considered for this program are to be nominated by the states and federal agencies. For state-owned roads nominated by federal agencies, the state department of transportation shall concur in the nomination. The intent of the All American Roads program is to identify and designate roads having outstanding qualities of scenic, historic, and cultural attractiveness; to preserve and protect these roads and their unique characteristics; and to enhance rural tourism, economic development, and world-class tourism destinations.

Conference substitute

The Conference Substitute adopts the House version, but permits up to 10 percent of scenic highway funds to be used for billboard removal on scenic byways.

The Conferees intend that under the Conference agreement no new billboards shall be enacted on scenic byways on the Interstate or Primary Systems as those systems are in effect on the date of enactment of the Intermodal Transportation Efficiency Act of 1991.

UNIFORM TRAFFIC CONTROL DEVICES

House bill

This section authorizes the Secretary to carry out a project in Arkansas to provide training to country and town traffic officials in the need for and application of uniform traffic control devices and to demonstrate the safety benefits of providing for adequate and safe warning and regulatory signs.

A total of $1.2 million is authorized for fiscal year 1992 to carry out this project.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The conference substitute adopts the House provision.

RURAL AND URBAN ACCESS PROJECTS

House bill

Subsection (a) authorizes specific projects for the Secretary to carry out to ensure better rural access and promote economic development in rural areas. $100 million is authorized for FY 1992 and $150 million is authorized for each of FY's 1993 through 1996 to carry out these projects.

Subsection (b) authorizes specific projects to enhance urban access and urban mobility. $100 million is authorized for FY 1992 and $150 million is authorized for each of FY's 1993 through 1996 to carry out these projects.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The conference substitute contains the House provisions with the following changes:

(1) various authorization levels for projects were modified, and (2)

Molly Ann's Brook, New Jersey

SECTION 150

House bill

The House bill directs the Secretary to carry out a project to make modifications to bridges necessary for the Secretary of the Army to carry out a project for flood control, Molly Ann's Brook, New Jersey, authorized by section 401 of the Water Resources Development Act of 1986. Any Federal expenditures for the raising of bridges over Molly Ann's Brook shall be treated as part of the non-Federal share of the cost of such flood control project.

Senate amendment

No comparable provision.

Conference substitute

Same as House bill.

Passaic and Bergen Counties, New Jersey

House bill

This section creates a model program of delegation to the State of New Jersey of the Administration of the completion of Route 21 in Passaic County. All aspects of law, regulation, policy and practice are delegated to the State and the State is authorized to administer all aspects of the project design and construction process pursuant to State laws, rules and regulations.

It is the intention of the Committee to continue to determine methods of reducing the time required to complete an urban highway project, as was provided for in the Surface Transportation and Uniform Relocation Assistance Act of 1987, Sec. 149(a)(1), when administration of all Federal Highway Administration requirements are delegated to a state. It is also the intention of the Committee that time reduction be demonstrated through acquisition of right-of-way prior to the determination of the preferred alternative.

The Committee expects expeditious construction of this long-delayed and badly needed project and, therefore, all Federal regulatory requirements, including but not limited to procurement of professional services, staging of design and Right-of-Way acquisition, and all Federal procedures, practices and interpretations, are delegated to the State and may be waived by the State if considered in the public interest.

Senate amendment

No comparable provision.

Conference substitute

Adopts House provision with a modification to authorize the Government to waive any and all Federal requirements relating to the scheduling of activities associated with such highway project, including final design and right-of-way activities.

Regulatory Interpretations

House bill

This section requires that any regulations, rulings, or decisions issued by the Department of Transportation relating to the Buy America requirements be applied as if to include coating.

This section also requires that Sec. 393.95 of Title 49 of the Code of Federal Regulations shall be applied so that fuses and flares are given equal priority with regard to use as reflecting signs.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provisions.

Handicapped Parking

House bill

Subsection (a) requires the Secretary to conduct a study on the programs being made by the states in adopting and implementing a uniform system for handicapped parking regulations issued by the Department of Transportation.

Subsection (b) provides for the Secretary to report to the Congress within two (2) years from the date of enactment of this Act the results of the study.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The conference substitute adopts the House provision.

Roadside Barrier Technology

House bill

This section requires each state use innovative safety barriers for at least 5 percent of the mileage of new or replacement permanent median barrier included in awarded contracts on Federal aid highways. Innovative safety barriers are those barriers, other than guard rail, that are classified by the Federal Highway Administration as experimental or that were classified as operational after January 1, 1985. Each state is required to certify annually to the Secretary its compliance with this requirement.

Senate amendment

No comparable provision.

Conference substitute

The conference substitute is the House provision with a modification in the requirement. The Conferees agree that 2.5%, rather than 5%, of new or replacement permanent median barrier erected in each state must be "innovative safety barrier".

Design Standards

House bill

Section 155 of the House bill requires the Secretary to conduct a survey to identify current state standards on all Federal-aid highways relating to geometric design, traffic control devices, roadside safety, safety appurtenance designs, uniform traffic control devices and sign legibility and directional clarity for the purpose of determining the need to upgrade such standards.

The Secretary must report to Congress on the results of the Survey and on the crashworthiness of traffic lights, traffic signs, guardrails, impact attenuators, concrete barrier treatments and breakaway utility poles for bridges and roadways currently used by states, together with any recommendations, within two years after enactment.

Senate bill

The Senate bill contains no comparable provision.

Conference substitute

The Conference substitute adopts the House language.

Effective Date

House bill

The House amendment allows unobligated balances of funds apportioned to the States to be transferred to program categories.

Senate amendment

Identical provision that includes the Senate program categories.

Conference substitute

The Conference substitute includes the Senate provision with comparable Senate categories.

Unobligated Balances

House bill

The House bill provides that the amendments of this title do not apply to funds appropriated before September 30, 1991. It also provides that unobligated balances apportioned before October 1, 1991 shall be obligated according to the law in effect on September 30, 1991. In some cases, the unobligated balances may be transferred to the primary, secondary, interstate 4R or urban system programs if the unobligated funds were apportioned before October 1, 1991.

Senate amendment

The Senate provision provides that unobligated balances apportioned for the primary, secondary and urban systems and the railway-highway crossing and hazard elimination programs may be obligated for the Surface Transportation Program.

Conference substitute

The managers have provided that unobligated balances already apportioned are transferable to the new program.

Innovative Projects

House bill

This section authorizes the Secretary to carry out specific projects demonstrating innovative techniques and advanced technologies in highway construction. $100 million is authorized for FY 1992 and $225 million is authorized for each of Fy's 1993 through 1996 to carry out these projects.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The conference substitute contains the House provisions with modifications to various authorization levels for projects.

Orange County Toll Pilot Projects

House bill

This section exempts certain toll pilot projects in Orange County, California, from section 4(f) requirements applicable to public park, recreation area, wildlife and waterfowl refuges.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The conference substitute contains the House provision.

Prior Demonstration Projects

House bill

This section amends the provisions of three demonstration projects located in Tampa, Florida; Santa Fe, New Mexico; and Larkspur to Korbel, California, that were authorized in the Surface Transportation and Uniform Relocation Assistance Act of 1987 to make the unobligated balances of funds available for other projects.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

William H. Harsha Bridge

House bill

This section renames the United States Route 68 bridge across the Ohio River between Aberdeen, Ohio, and Marysville, Kentucky, as the William H. Harsha Bridge.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The conference substitute adopts the House provision.

Commemoration of Dwight D. Eisenhower National System of Interstate and Defense Highways

House bill

This section authorizes the Secretary to conduct a study to determine the appropriate symbol or emblem to be placed on highway signs to commemorate Former President Eisenhower for his efforts to enact legislation authorizing the construction of the Interstate System.

The report shall be submitted to the Congress not later than one year after the effective date of this title.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Use of High Occupancy Vehicle Lanes by Motorbikes

House bill

This section requires the Secretary to not recognize any certification made by a state on the safety of motor bikes on high occupancy vehicle lanes that was made prior to the enactment of the Intermodal Surface Transportation Infrastructure Act of 1991 until the Secretary publishes notice of such certification in the Federal Register and provides an opportunity for public comment on such certification.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Tourist Oriented Directional Signs

House bill

This section directs the Secretary to encourage states to provide for equitable participation in the use of tourist oriented directional signs, or logo signs, along the Interstate and Federal-aid primary systems as covered under the Highway Beautification Act.

The Secretary is required to report to the Congress on the participation in the use of tourist oriented directional signs within one year of enactment.

There have been reports that new business enterprises opening at exits on Interstate highways are not afforded equal treatment as all competitors. The intent of this provision is to encourage states to administer their tourist oriented directional logo signs program fairly among all interested eligible enterprises.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Pensacola, Florida

House bill

This section authorizes the Secretary to conduct a study of the feasibility of constructing a 4-lane highway, in accordance with all Federal standards applicable to the construction standards of Interstate highways, to connect Interstate Route 65 and Interstate Route 10 in Pensacola, Florida.

The Secretary must transmit the report along with recommendations for the location of a corridor to construct the 4-lane highway connector not later than 2 years after the date of enactment of this Act.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Calhoun County, Mississippi

House bill

This section amends section 403 of the Appalachian Regional Development Act of 1965 to include Calhoun County, Mississippi as an eligible county for receipt of Appalachian Regional Development funds.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Higher Federal Share

House bill

This section authorizes for higher Federal share projects constructed on Federally-owned property and for projects entitled to a higher Federal share under Section 204 of 23 U.S.C.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Work Zone Safety

House bill

Sec. 168 of the House bill requires the Secretary of Transportation to develop a work zone safety program which would improve work zone safety by enhancing the quality and effectiveness of traffic control devices, safety appurtenances, traffic control plans, and bidding practices for traffic control devices and services.

No later than 2 years after enactment of this title, the Secretary shall submit to Congress such proposed program and recommendations for implementation.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The Conference Report directs the Secretary to develop and implement a work zone safety program.

Miscellaneous Projects

House bill

This section authorizes a series of miscellaneous highway projects to be appropriated.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Railroad Relocation Demonstration Program

House bill

This section extends the amounts ($15 million per fiscal year) authorized for the railroad relocation demonstration program an additional three years through fiscal year 1994.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

J. Clifford Naugle Bypass

House bill

This section designates the highway bypass being constructed around the Borough of Ligonier in Westmoreland County, Pennsylvania, as the "J. Clifford Naugle Bypass." Mr. Naugle is the former mayor of Ligonier and has worked tirelessly to advance the construction of the bypass.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Interim Advance Construction Program

House bill

This section authorizes the reimbursement for the construction of eligible Federal-aid highway projects commenced after September 30, 1991 and before the date of enactment of this Act. The amounts obligated under this provision is limited to the amounts apportioned to the states for fiscal year 1991.

Senate amendment

No comparable provision.

Conference substitute

No provision.

Presidential Highway, Fulton County, Georgia

House bill

The bill authorizes the Secretary to approve the construction of the Presidential Highway as agreed to by the Georgia Department of Transportation, the city of Atlanta, and CAUTION, Inc. The execution of the settlement agreement by the DeKalb County, Georgia Superior Court will be deemed to constitute full compliance with all Federal laws applicable to carrying out the project.

There is also a limitation established on the expenditure of Federal funds for the construction of this project. All limitations on the construction and funding of the Presidential Highway are subject to the approval of the settlement agreement executed by all parties.

Senate amendment

No comparable provision.

Conference substitute

Adopts House provision.

Infrastructure Awareness Program

House bill

This section authorizes $2 million for the purpose of creating an awareness by the public and state and local governments of the state of the Nation's infrastructure and to encourage and stimulate efforts by the public and governments to undertake studies and projects to improve the infrastructure.

The Secretary is authorized to fund the production of a documentary on the state of the Nation's infrastructure with a not-for-profit national public television station.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

United States-Canada Bridges

House bill

This section authorizes the Secretary to collect and analyze data on the volume of traffic crossing at three international bridge crossings under the authority of the Niagara Falls Bridge Commission.

Senate amendment

No comparable provision.

Conference substitute

The Conference substitute provides the Niagara Falls Bridge Commission the authority to issue tax exempt bonds.

Use of Compost

House bill

This section expresses the sense of Congress that State and local governments should encourage the environmentally safe use of compost and other products along the rights-of-way of Federal-aid highways.

Senate amendment

No comparable provision.

Conference substitute

No provision.

Study on State Compliance With Requirements for Revocation and Suspension of Drivers' License

House bill

This section authorizes the Secretary to conduct a study of States' efforts to comply with provisions relating to revocation and suspension of drivers' licenses for individuals convicted of drug and alcohol offenses. The study shall be transmitted to Congress not later than 180 days after the date of enactment.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision with a change in the date of the report.

Private Sector Involvement Program

House bill

This section authorizes the Secretary to establish a private sector involvement program to encourage States to contract with private firms for engineering and design services in carrying out Federal-aid highway projects.

The Secretary is also authorized to make grants to States to conduct this program.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision with a modification to ensure that any contracts would be cost effective.

New Hampshire Federal-Aid Payback

House bill

This section authorizes the State of New Hampshire to repay to the Treasurer of the United States the amount of Federal-aid highway funds paid on account of those completed sections of the Nashua-Hudson Circumferential. The amounts repaid will be deposited to the credit of the unprogrammed balance of funds apportioned to the State of New Hampshire. The amounts credited to the State will be in addition to all other funds apportioned to the State and shall remain available until expended.

Upon repayment of the Federal share of the cost to construct certain segments of the Nashua-Hudson Circumferential, the State of New Hampshire may impose and collect tolls on the Nashua-Hudson Circumferential.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Metric System Signing

House bill

Repeals the prohibition for the placement of metric signs along Federal-aid highways.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Signing of United States Highway 71

House bill

This section authorizes the Arkansas State Highway and Transportation Department to erect signs along United States Highway 71 from the I-40 intersection to the Missouri-Arkansas State line designating the highway as the "John Paul Hammerschmidt Highway" as required to be erected by the Arkansas State law designated as Act 6 of 1989.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Disposition of Paving Materials

House bill

Section 186 of the House bill requires the Secretary to initiate, no later than 60 days after enactment of this Act, a rulemaking proceeding to establish minimum requirements for the economic reuse and environmentally sound disposition of pavement materials removed during construction, reconstruction, or repaving in any federally assisted highway project.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The House recedes to the Senate since section 143, Recycled Paving Materials, contains a provision requiring the Secretary to study state practices with regard to disposal of pavement materials removed during construction.

Study on Impact of Climatic Conditions

House bill

This section authorizes the Secretary to conduct a study of the effects of climatic conditions on the costs of highway construction and maintenance. The study shall consider various climatic conditions and the impact of the climatic conditions on increased highway design costs and decreased highway service life in the various regions of the United States.

The Secretary shall transmit the results of the study along with any recommendations to Congress not later than September 30, 1993.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Methods To Reduce Traffic Congestion During Construction

House bill

This section expressed a sense of Congress that many highway projects are carried out in a way which unnecessarily disrupts traffic flow during construction and that methods need to be adopted to eliminate or reduce these disruptions.

The Secretary is required to conduct a study on methods of enhancing traffic flow during construction and report to Congress on the results of the study not later than September 30, 1992.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Guaranty and Warranty Clauses

House bill

This section requires the Secretary to develop regulations to permit a State highway department to include a clause in a contract for engineering and design services, or for the construction of any Federal-aid highway projects for work performed.

Senate amendment

No comparable provision.

Conference substitute

The conference substitute authorizes a study to be conducted by the Secretary on the feasibility of requiring the inclusion of warranty or guaranty clauses for work performed on Federal-aid highway projects.

Highway Tree Planting Program

House bill

The bill authorizes $5 million per fiscal year for each of the fiscal years 1992 through 1996 for the Secretary to make grants to States for developing a plan for tree planting, developing, and implementing a program for the planting of trees along the rights-of-way of Federal-aid highways. The maximum aggregate amount of grants to a State in a fiscal year is limited to $500,000 and the Federal share may not exceed 60 percent.

The Secretary is required to take action as necessary to encourage State highway departments to enter into cooperative agreements with State foresters to implement the requirements of this subsection. The donation of trees is permitted for carrying out the provisions of this section.

Senate amendment

No comparable provision.

Conference substitute

House recedes to the Senate.

Federal Share on Special Projects

House bill

This section requires the Federal share payable on account of any demonstration project authorized under certain sections to be 80 percent.

Senate amendment

No comparable provision.

Conference substitute

Adopts the House provision.

Private Property Rights

House bill

No comparable provision.

Senate amendment

Title IV of the Senate Amendment imposes certain procedural requirements for regulations issued by all Federal agencies. Prior to the promulgation of any regulations by any agency, the Attorney General must certify that the regulation is in compliance with the Executive Order 12630 or similar procedures relating to minimizing the taking of private property as a result of regulatory activity.

Conference substitute

The Senate recedes to the House.

Cleveland Harbor, Ohio

House bill

Section 182 of the House bill deauthorizes a portion of the navigation project for Cleveland Harbor, Ohio to allow for the consideration of permit applications related to construction activities within a portion of Cleveland Harbor. The U.S. Army Corps of Engineers will not consider applications for permits to conduct activities in navigable waters which would impact upon a Federally authorized navigation project.

Senate amendment

No comparable provision.

Conference substitute

The conference Substitute adopts the House provision with an amendment. The Conference Substitute adds language to also declare a certain portion of Cleveland Harbor as nonnavigable waters of the United States.

Stormwater Permits

House bill

No comparable provision.

Senate amendment

Section 140L of the Senate Amendment extends certain application deadlines for and

enforcement of the stormwater permitting requirements of Section 402(p) of the Federal Water Pollution Control Act (33 U.S.C. 1342(p)) for industrial activities owned or operated by municipalities with a population of under 100,000.

Conference substitute

The conference substitute extends individual and group permit application deadlines for stormwater discharges associated with industrial activities from municipally owned or operated facilities. Individual permit applications must be submitted no later than October 1, 1992, except that where a timely group permit application is denied the applicant would be entitled to an additional six months from the date of the denial to submit an individual application. Group application deadlines are extended until September 30, 1991 for Part I and October 1, 1992 for Part II except that for municipalities of under 250,000 an additional period of time is provided. No stormwater discharge permits for industrial activities for municipalities of under 100,000 are required prior to October 1, 1992 except stormwater discharges from municipally owned or operated power plants, airports, and certain landfills. The conference substitute also requires that general permit regulations for stormwater discharge permits be promulgated no later than February 1, 1992. The conference substitute is not intended to prejudice or in any manner affect any ongoing litigation.

Hudson River, New York

House bill

No comparable provision.

Senate amendment

Section 140U of the Senate Amendment declares a portion of the Hudson River, New York to be nonnavigable waters of the United States. The area declared as nonnavigable is the current location of the structure known as Pier A and its immediate surroundings. The nonnavigability declaration does not affect the application of Federal laws or regulations to activities within the area declared nonnavigable.

Conference substitute

Same as the Senate Amendment.

Providence, Rhode Island, Bridge Removal

House bill

No provision.

Senate amendment

No provision.

Conference substitute

The Conference Substitute includes a provision to extend the authorization for a project to remove the center span of the India Point Railroad Bridge over the Seekonk River in Providence, Rhode Island. The project was originally authorized pursuant to Section 1166(c) of the Water Resources Development Act of 1986 but has been deauthorized by operation of law.

Brunswick Harbor, Georgia

House bill

No provision.

Senate amendment

No provision.

Conference substitute

The Conference Substitute includes a provision to deauthorize the Academy Creek feature of the Brunswick Harbor, Georgia navigation project. This feature is no longer needed for commercial navigation.

Port Canaveral, Florida

House bill

No provision.

Senate amendment

No provision.

Conference substitute

The Conference Substitute includes a provision to deauthorize a portion of the Federal navigation project for Port Canaveral, Florida, to accommodate new, larger cruise ships at the Port's terminals.

Joseph Ralph Sasser Boat Ramp

House bill

No provision.

Senate amendment

No provision.

Conference substitute

The Conference Substitute includes a provision to name a boat ramp facility on the Mississippi River in Shelby County, Tennessee on behalf of Joseph Ralph Sasser, the late father of Senator Jim Sasser.

Mr. Sasser joined the Soil Conservation Service—Civilian Conservation Corps in Selmer, Tennessee in 1935. He attained the rank of major in the 1st Marine Division during World War II. After the war, he returned to work with the Soil Conservation Service until 1970. He then went to Tennessee State University as U.S. Department of Agriculture Liaison Officer until his retirement in 1972. He worked tirelessly for the improvement and preservation of the natural resources of Tennessee.

Lindy Claiborne Boggs Lock and Dam

House bill

No provision.

Senate amendment

No provision.

Conference substitute

The Conference Substitute includes a provision renaming lock and dam number 1 on the Red River Waterway in Louisiana as the Lindy Claiborne Boggs Lock and Dam.

Congresswoman Boggs served in the House of Representatives from 1973, succeeding her husband Hale Boggs, who had served in the House for 27 years, until the end of the 101st Congress. She was the first woman from Louisiana to serve in the House. She devoted great energies to improving the lives of children and to protecting the rights of all Americans. She represented the people of New Orleans with grace, wit, and dedication to the best public policies.

Rockaway Inlet to Norton Point, New York

House bill

No provision.

Senate amendment

No provision.

Conference substitute

The Conference Substitute includes a provision modifying the project for shoreline protection, Atlantic Coast of New York City from Rockaway Inlet to Norton Point, to authorize construction of the project in accordance with the current General Design Memorandum dated April 1991. The project was originally authorized for construction by section 501(a) of the Water Resources Development Act of 1986.

Appomattox River, Virginia

House bill

No provision.

Conference substitute

The conference substitute provides that the Federal Energy Regulatory Commission (FERC) shall re-issue a license under the Federal Power Act to the Appomattox River Water Authority together with any amendments necessary and appropriate and extend the period for construction for three years after enactment. The order would be subject to the requirements of this section and the Federal Power Act. During the three year period FERC is directed to issue an order at the request of the Authority permitting the authority to transfer a license to a third party for the purpose of protecting the Authority from challenge as specified in this provision. The transferee would be subject to, and must comply with, the Federal Power Act, including provisions of section 10 relating to fish and wildlife.

The transferred license would be subject to revocation at the request of the Authority to permit the Authority to surrender the license. That surrender could not take place, however, until notice, the completion of the project construction, including fish and wildlife facilities, and delivery to FERC of a statement by the Board of the Authority that there is a need to surrender because the Authority would be acting in violation of its charter or be inconsistent with bond indentures. The provision requires FERC to accept this surrender.

In addition, the provision includes authority for the FERC to extend the period for construction under section 13 of the Federal Power Act for three identified projects.

Finally, the provision relates to a project in Union City, Michigan and provides that it is not unlawful for the municipality of Union City to operate, maintain, repair, reconstruct, replace or modify the project without a license from FERC.

Interstate Maintenance

House bill

The House bill does not continue Interstate 4R as a separate category, however, it requires that a minimum amount of funds apportioned to the states for the National Highway System must be used for interstate resurfacing, restoring, and rehabilitating. The minimum amount shall be equal to 70 percent of the amounts apportioned to each state in fiscal year 1991 under the Interstate 4R program.

Senate amendment

The Senate amendment renames and modifies the existing Interstate 4R program to eliminate eligibility for projects which expand capacity, except in the case of expansion of capacity for projects where the expansion is for other than single occupant vehicles.

The provisions which allow an unconditional transfer of up to 20 percent of the Interstate Maintenance Program funds to other categories are retained. It requires a positive finding by the Secretary that a State transportation department is adequately maintaining the Interstate system before a State may be allowed to transfer to other categories an amount of Interstate Maintenance funds in excess of 20 percent of its Interstate Maintenance apportionment.

The Federal share for any Interstate maintenance project is established at 80 per centum. The provisions to allow increases in participation ratios up to 95 percent based on the percentage of Indian or Federal lands within the State has been retained.

The Secretary is required to develop guidance for the State transportation departments for determining what share of a project is attributable to the expansion of capacity of an Interstate highway and for what criteria will be used to determine whether the State is adequately maintaining the Interstate system before the State is allowed to transfer to other categories an amount of Interstate Maintenance funds in excess of 20 percent of its Interstate Maintenance apportionment.

Conference substitute

The conference substitute adopts the Senate amendment with some technical changes: (1) eligibility for preventative maintenance is tied to a cost effectiveness determination per recommendations by the General Accounting Office, and (2) eligible for funding for non-chargeable interstate segments.

TOLL FACILITIES

House bill

The House bill amends title 23, United States Code, to permit Federal participation in toll highways, bridges and tunnels at the option of all states. The House bill contains limitations on the kinds of facilities that may be tolled and continues the maximum federal participation at 35%.

Senate amendment

The Senate amendment amends title 23, United States Code, in a manner similar to that of the House. In addition, the Senate would permit up to 80% federal participation in the cost of the project for rehabilitation of existing toll facilities or conversion of existing free facilities to toll facilities.

Conference substitute

The conference substitute contains the provision allowing all states the option of using federal-aid highway funds on toll road facilities except for Interstate Highways. Other provisions contained in the House bill and Senate amendment thereto have been combined.

NATIONAL MAGNETIC LEVITATION DESIGN PROGRAM

House bill

No comparable provision.

Senate amendment

The Senate amendment declares that it is the policy of the United States to establish in the shortest time practicable a United States designed magnetic levitation technology capable of operating along Federal-aid highway rights-of-way as part of a national transportation system of the United States. It establishes a National Magnetic Levitation Design Program to be managed jointly by the Secretary of Transportation and the Assistant Secretary of the Army for Civil Works and requires development of a strategic plan for the design and construction of a magnetic levitation surface transportation system to be delivered to Congress within 18 months of enactment of the Act.

It establishes a three-phase competitive contract program to ultimately develop and construct an operational prototype maglev system within six years of enactment of the Act. Projects are to be cost-shared with non-federal organizations to encourage collaborative research. The Senate amendment authorizes $750 million for the program, and periodic reports to Congress are required.

Conference substitute

The conference agreement accepts the Senate amendment with substantial modifications. The title of the section is changed to the National High-Speed Ground Transportation Programs, and a National High-Speed Ground Transportation Technology Demonstration Program and high-speed ground transportation research and development are added to the maglev prototype development program. The strategic plan for development of a national maglev transportation system is replaced with a report to Congress in 1995 on the commercial feasibility of one or more high-speed ground transportation systems in the United States, and the time line to develop the maglev prototype is extended by 18 months. Funding for the maglev prototype program is reduced to $700 million, of which $475 million is to come from the Mass Transit Account of the Highway Trust Fund and the rest from general revenues. Authorization for the Transportation Technology and Demonstration Program is $50 million, of which $25 million is to come from the Mass Transit Account and the remainder from general revenues. The research and development program is authorized at $25 million from general revenues.

The Secretary will be required to establish, no later than June 1, 1996, a National High-Speed Ground Transportation Policy. In addition, current law is amended to permit the Secretary to guarantee obligations for qualified high-speed rail systems pursuant to Section 511 of the Railroad Revitalization and Regulatory Reform Act of 1976, 45 U.S.C. 831. It is the intent of the conferees that all obligations authorized pursuant to this section, National High-Speed Ground Transportation Programs, will be funded in full.

Section 302 of title 49, United States Code, is amended by declaring it to be the policy of the United States to promote the construction and commercialization of high-speed ground transportation systems by conducting economic and technological research demonstrating advancements in high-speed ground transportation technologies, and establishing a comprehensive policy for the development and integration of various high-speed ground transportation technologies, and minimizing long-term risks to investors.

The conferees recognize that increasing delays related to congestion on highways and airports could be mitigated by high-speed ground transportation technologies such as maglev and high-speed steel wheel, but that the risks of development are too great to be borne without government participation. It is the intent of the conferees to encourage development of such technologies, cooperatively with the non-federal organizations, by sharing in the costs and risks of development. The conferees recognize that government subsidies for high-speed ground transportation systems may be appropriate in cases where economic externalities such as pollution, time lost due to congestion, and condemnation of private property to build new airports and highway lanes, are not adequately reflected in the cost of alternative transportation modes.

This section also declares that it is the policy of the United States to establish in the shortest time practicable a United States-designed and constructed maglev technology capable of operating along Federal-aid highway rights-of-way, as part of a national transportation system of the United States. The conferees recognize that maglev technology was originally developed in the United States in the 1970's, but that since that time lack of funding has resulted in technology development for maglev and high-speed steel wheel technology shifting to Japan and Europe. This section reflects the conferees' desire to shift the balance back toward the United States by encouraging development of next-generation U.S. technologies relating to maglev, superconductors, vehicles, switching, and other technology relating to maglev and/or high-speed steel wheel. Because of the significant cost of right-of-way acquisition in congested corridors, the conferees further intend that high-speed ground transportation technologies be developed to take advantage of existing Federal-aid highway and/or railroad rights of way along substantial portions of their route.

There is established a National Magnetic Levitation Prototype Development Program to be managed by a Program Director appointed jointly by the Secretary of Transportation and the Assistant Secretary of the Army for Civil Works. The Director will carry out the program through a National Maglev Joint Project Office. The conferees recognize that if the program is to be successful, it must have a single leader of exceptional capability, who can coordinate the considerable and varied expertise available to the program from the Department of Transportation and the Corps of Engineers, as well as other interested Federal agencies. The conferees intend that the Director should have substantial technical expertise in a maglev-related technology and successful experience in managing large, complex research and development programs. The conferees do not intend for the Maglev Joint Project Office to be larger than the minimum needed to support the activities of the Director.

Development of a maglev prototype shall occur in three phases. Not later than 12 months after enactment of the Act, the Maglev Project Office shall release a request for proposals for research and development of conceptual designs for a maglev prototype system. The conferees extended the time for submission of the request for proposals to allow the technical results from research currently funded under the National Maglev Initiative to be applied to the preparation and review of Phase I proposals.

Not later than 15 months after enactment of the Act, the Secretary and Assistant Secretary shall award up to five Phase I contracts for development of conceptual plans for development of the prototype. Criteria that should be considered in reviewing the proposals include cost-effectiveness, ease of maintenance, safety, limited environmental impact, ability to achieve sustained high speeds, ability to operate along Interstate highway rights-of-way, the potential of a guideway design to be a national standard, the bidder's resources, capabilities, and history of successfully designing and developing systems of similar complexity, and the desirability of geographic diversity among contractors. The conferees intend that these criteria be applied in such a way as to maximize the probability that the conceptual design will successfully meet the criteria for selection of a Phase III contract, and that awards be made according to the technical merits of the proposals as determined by the Director with advice from expert peer reviewers. The conferees do not intend that poor Phase I projects be selected to satisfy the geographic criterion, but do intend that criterion to be applied to technically acceptable proposals. Bidders are to pay ten percent of the Phase I project costs. it is the intention of the conferees that Phase I contracts be funded at $7–10 million each. Phase I project reports are to be completed within 12 months of contract awards.

It is the intention of the conferees that Phase I and all other contracts include opportunities to conduct research and development in support of components of the proposed designs. The conferees recognize the need to conduct research and development in such areas as superconducting magnets, low-weight vehicle technology and aerodynamics, electromagnetic shielding, environmental mitigation, propulsion systems, guideway configuration and manufacturing technology, switching technology, and rider safety and comfort. The conferees believe that such research and development will be more efficient and productive if it is associated with one or more integrated conceptual designs, than if it is conducted in isolation, but believe that it is critical to the success of developing a United States maglev industry.

Within 3 months of receiving the final reports from the Phase I projects, the Secretary and Assistant Secretary shall select not more than three participants to receive 18-month Phase II contracts for development of detailed designs for the prototype. Selection is to be based on technical merit and potential for further development of the design into a prototype. The Director will make recommendations to the Secretary and Assistant Secretary as to technical merit. Phase II contractors must contribute 20 percent of project costs and submit a final report within 18 months of contract awards.

It is the intention of the conferees that Phase II contracts be funded in the range of $40–50 million each and provide substantial requirements for research and development of components of the prototype. The conferees intend that at least two Phase II awards be made in order to allow alternative system designs to be evaluated. The conferees intend that at least one of the Phase II contracts be based on a superconducting suspension system, unless no acceptable design is submitted in Phase I. The conferees are willing to accept some risk and uncertainty in selection of Phase II contracts in return for reasonable prospects of developing an all-American maglev technology, except that the best technical Phase I project should be selected for Phase II, regardless of the technology. The conferees do not intend for a contract to be awarded to any contractor who did not submit a Phase I project report.

Within six months of receiving the detailed designs developed under Phase II, the Secretary and Assistant Secretary shall select one design for development into a full-scale prototype, unless they determine that no design should be selected based on technical feasibility and projected cost. A Maglev Prototype Selection Committee composed of members appointed by the Secretary, the Assistant Secretary, and the Majority and Minority Leaders of both Houses of Congress, is established to make a recommendation to the Secretary and Assistant Secretary on the prototype project to be selected. The conferees intend that the members of the Maglev Prototype Selection Committee be chosen for their technical expertise and experience in transportation systems planning and engineering. The conferees intend that the Director be responsible for providing thorough technical reviews of the Phase II contracts to the Committee, and otherwise assisting the Committee in making its recommendation.

If the Secretary and Assistant Secretary determine not to select a design, they shall report to Congress on the basis for such a determination, together with recommendations for further action, including further research, development or design, or termination of the program, or such other action such as they deem appropriate. The conferees intend that a failure to select a prototype design within the specified period constitutes a decision not to proceed, requiring a report to Congress.

It is the intent of the conferees that no prototype be developed if, in the opinion of the Director and the Selection Committee, none of the Phase II conceptual designs will yield a working prototype at a reasonable cost. The conferees understand that it is difficult accurately to anticipate the risks of implementing a new technology, and are willing to accept a prudent amount of risk in this regard. The conferees also intend that additional research and development will be performed as a component of prototype implementation.

In awarding a prototype contract, the Secretary and Assistant Secretary shall encourage the development of domestic manufacturing capabilities and, in selecting awardees, shall consider existing railroads with excess production capacity, including railroads with experience in advanced technologies, including self-propelled cars. The conferees do not intend to exclude manufacturers of aircraft, automobiles, or other vehicles by this provision.

Selection of a prototype design shall be based on consideration of the following factors, among others:

The project should be capable of utilizing interstate highway rights-of-way along significant portions of its route, and may also use railroad rights of way. The conferees recognize that right-of-way acquisition often represents a significant fraction of guideway cost in congested areas and intend to encourage technologies capable of minimizing such costs by incorporating guideway/vehicle systems capable of operation within the constraints of curve radii, interchanges, overpasses, and other features typical of interstate highway and railroad rights of way.

The project shall have sufficient length, at least 19 miles, to allow significant full-speed operation between stops. The conferees intend that the prototype be capable of evaluating factors that attend sustained high-speed operation which may be relevant to long-distance maglev systems.

No more than 75% of the cost shall be borne by the United States. The conferees intend the substantial non-federal investment to discourage contractors that do not have substantial confidence in completion of a successful operational prototype.

The project shall be constructed and ready for operational testing within 3 years. The conferees intend to attract non-federal cost-sharing by insuring that funding for the prototype will be available within the authorization period covered by this Act, and that the full cost of the prototype be obligated within the authorization period, with funds to be available until expended.

The project shall be located in an area that provides a potential ridership base for future commercial operation. The conferees intend that the maglev prototype be an experimental system capable of fully evaluating the chosen technical design, but the substantial federal investment, including the anticipated non-federal cost sharing, makes it highly desirable that upon completion of adequate testing, the system also be useful for assessing the economics of maglev travel, as well as providing a public service.

The project shall utilize a technology capable of being applied in commercial service in most parts of the contiguous United States. The conferees intend that the site chosen for construction of the project should, to the extent feasible, be so located as to test the technology in the rain and snow, changes in elevation, wind, and heat. To the extent that this is not completely feasible, the conferees intend that these factors be considered as part of the design, even if testing is not possible.

The project shall have at least one switch. The conferees recognize that high-speed switching technology is essential to the commercial application of maglev technology and should be tested in the prototype. The conferees believe that it also would be highly desirable to be able to test the effects of two vehicles passing in opposite directions on a guideway.

The section protects trade secrets and commercial or financial information, and protects any technology developed pursuant to this section under the Stevenson-Wydler Technology Innovation Act of 1980. The section provides contract authority and defines eligible participants as United States private businesses, United States public and private research organizations, Federal Laboratories, and consortia of such businesses, organizations, or laboratories.

The conference agreement amends Subchapter I of Chapter 3 of Title 49, United States Code, to provide for a National High-Speed Ground Transportation Technology Demonstration Program, and a research and development program. It requires the Secretary, in consultation with the Secretaries of Commerce, Energy, and Defense, the Administrator of the Environmental Protection Agency, the Assistant Secretary of the Army for Civil Works, and other heads of interested agencies, to lead and coordinate Federal efforts in the research and development of high-speed ground transportation technologies in order to foster the implementation of magnetic levitation and high-speed steel wheel on rail transportation systems as alternatives to existing transportation systems. This subsection also authorizes the Secretary to award grants and contracts for demonstrations of specific technologies in high-speed ground transportation projects or systems under construction or in commercial revenue service to determine the contributions that high-speed ground transportation could make to more efficient, safe, and economical intercity transportation systems.

The conferees intend that under the National High-Speed Ground Transportation Technology Demonstration Program established by this subsection, any eligible applicant may submit to the Secretary a proposal for demonstration of any advancement in a high-speed ground transportation technology or technologies to be incorporated as a component, subsystem or system in any revenue-service high-speed ground transportation project or system under construction or in operation at the time the application is made. The conferees intend that one or more of the specific criteria enumerated under this subsection be considered in awarding grants or contracts to applicants showing demonstrable benefit to the research and development, design, construction, or ultimate commercial operation of any maglev technology or high-speed steel wheel on rail technology. A total of $50 million, of which $25 million shall be derived from the Highway Trust Fund, shall be made available for grants and contracts awarded pursuant to this subsection.

The conferees intend that the Secretary shall have discretion over the amount and distribution of grants and contracts made pursuant to this subsection, except that no grants or contracts shall be awarded to demonstrate a technology to be incorporated in a State that prohibits under State law the expenditure of non-Federal public funds or revenues on the construction or operation of such projects or systems. Applicants eligible to participate under this demonstration program include any United States private business, State government, local government, organization of State or local governments, or any combination thereof. Any business owned in whole or in part by the Federal government is not considered to be eligible for participation. Recipients of grants made pursuant to this paragraph shall agree to submit a report to the Secretary detailing the results and benefits of the technology demonstration, during the demonstration or following the demonstration as required by the Secretary.

In establishing a high-speed ground transportation research and development program pursuant to this subsection, the Conferees intend to make available up to $25 million from general obligations to fund broad research and development into all forms of high-speed ground transportation. Specifically with respect to research and development related to maglev technology, several other Federal agencies in addition to the Department of Transportation have participated in the assessment of the future potential for maglev systems, including the Department of Energy, the Army Corps of Engineers within the Department of Defense, the Department of Commerce, and the Environmental Protection Agency. The national laboratories, including the Brookhaven and Argonne National Laboratories, have also been involved in maglev through the National Maglev Initiative program. The Conferees intend for the Secretary to coordinate and cultivate the relationships already established with these various Federal agencies and entities as the present maglev technology assessment phase moves forward into further research, development, design and eventual construction of a prototype system.

In order further to promote research and development of all high-speed ground transportation technologies, including high-speed steel wheel on rail technologies, this section would give the Secretary authority to enter into cooperative research and development agreements (CRADAs) (as defined under section 12 of the Stevenson-Wydler Technology Innovation Act of 1980), and one or more funding agreements (as defined by section 201 (b) of title 35, United States Code), with U.S. companies. These CRADAs and funding agreements would be entered into in order to conduct research to overcome technical and other barriers to the development and construction of high-speed ground transportation systems and to transfer that research and basic generic technologies to industry. The purpose of these agreements would be to help stimulate a viable commercial high-speed ground transportation industry within the United States.

The conferees envision that the Secretary would determine, with assistance from the director of any Government-operated Federal laboratory, which CRADAs to enter into with other Federal agencies; units of State and local government; industrial organizations (including corporations, partnerships, and limited partnerships, and industrial development organizations); public and private foundations; nonprofit organizations (including universities); or other persons (including licensees of inventions owned by the Federal agency). The Department of Transportation's Systems Center in Cambridge, Massachusetts, is a Federal laboratory with the demonstrated capability of performing research and development activities pursuant to this legislation. It is, however, the intent of the Conferees to provide the Secretary with sufficient flexibility to contract with any Federal laboratory as the Secretary deems appropriate.

In addition to the CRADA mechanism, the Conferees intend for the Secretary to enter into one or more funding agreements which do not require the participation of a Federal laboratory. Under a "funding agreement," the non-Federal recipient of Federal funds automatically gets the right to ownership of any patentable inventions resulting from research conducted under the agreement. Under a CRADA, the disposition of rights is negotiated. The Federal laboratory may agree to give up its ownership rights, or to grant licensing rights in advance.

The Conferees intend to provide the Secretary with clear authority to commit Federal funds to maglev and other high-speed ground transportation research and development both within and outside of the Federal laboratory environment. The conferees believe the use of funding agreements would provide additional incentives for private industry to participate in the research and development process.

In order to monitor the results of technology research, development and transfer conducted pursuant to this subsection, the conferees intend that the Secretary be required to provide reports to Congress at the end of FY 1993 and FY 1996 on activities conducted as a result of this subsection.

The conference agreement also requires the Secretary of Transportation to complete a study of the feasibility of constructing one or more high-speed ground transportation systems in the United States and to submit the results of such study to Congress by June 1, 1995. The study required under this section would consist of the following three parts: (1) an economic and financial analysis; (2) a technical assessment; and (3) recommendations for model legislation for State and local governments to facilitate construction of high-speed ground transportation systems.

The first part of the study is required to include the following components: (1) an examination of the potential market for a nationwide high-speed ground transportation network; (2) an examination of the potential markets for short-haul (e.g., commuter) high-speed ground transportation systems and for intercity and other long-haul high-speed ground transportation systems, including an assessment of the current transportation practices and trends in each market and the extent to which high-speed ground transportation systems would relieve the current or anticipated congestion on other modes of transportation; (3) projections of the costs of designing, constructing, and operating high-speed ground transportation systems, the extent to which such systems can recover their costs (including capital costs), and the alternative methods available for public and private financing; (4) consideration of the utility and availability of rights-of-way to serve each market, including the possibility of acquiring additional rights-of-way without significant adverse effects on adjacent communities; (5) a comparison of the projected costs of the various competing high-speed ground transportation technologies; (6) recommendations for funding mechanisms, tax incentives, liability provisions, and changes in statutes and regulations necessary to facilitate the development of individual high-speed ground systems and the completion of a nationwide high-speed ground transportation network; (7) an examination of the effect of the construction and operation of high-speed ground transportation systems on regional employment and economic growth; (8) recommendations for the roles appropriated for local, regional, and State governments to facilitate construction of high-speed ground transportation systems, including the roles of regional economic development authorities; (9) an assessment of the potential of a high-speed transportation technology export market; (10) recommendations regarding the coordination and centralization of Federal efforts relating to high-speed ground transportation; (11) an examination of the role of the National Railroad Passenger Corporation (Amtrak) in the development and operation of high-speed ground systems; and (12) any other economic or financial analyses the Secretary considers important for carrying out this title.

The economic and financial analysis described in the previous paragraph will require the Secretary to consider and analyze a broad range of issues. The conferees believe this analysis should provide Congress with an understanding of the current and future transportation marketplace and its relation to high-speed ground transportation, reasonable estimates of the cost of various high-speed ground transportation technologies, reasonable estimates of the cost of constructing high-speed ground transportation systems, possible and practical financial incentives for facilitating the development of high-speed ground systems, the relative benefits of high-speed ground transportation systems compared to current transportation systems, the economic benefits of developing high-speed ground transportation technology and systems, and the potential role of Amtrak in high-speed ground transportation systems in the United States.

The technical assessment required under the second part of the study requires the Secretary to examine: (1) the various technologies developed for use in the transportation of passengers by high-speed ground transportation, including a comparison of the safety (including dangers associated with grade crossings), energy efficiency, operational efficiencies, and environmental impacts of each system; (2) the potential role of a United States-designed maglev system, developed as a prototype under the National Magnetic Levitation Prototype Development Program of this Act in relation to the implementation of other high-speed ground transportation technologies and the national transportation system; (3) the work being done to establish safety standards for high-speed ground transportation as a result of the enactment of section 7 of the Rail Safety Improvement Act of 1988; (4) the need to establish appropriate technological, quality, and environmental standards for high-speed ground transportation systems; (5) the significant unresolved technical issues surrounding the design, engineering, construction, and operation of high-speed ground transportation systems, including the potential for the use of existing rights-of-way; (6) the effects on air quality, energy consumption, noise, land use, health, and safety as a result of the decreases in traffic volume on other modes of transportation that are expected to result from the full-scale development of high-speed ground transportation systems; and (7) other technical assessments the Secretary deems important for carrying out the study.

This technical assessment uses the Department's expertise in dealing with a number of technological and inter-disciplinary issues. For example, as the Department responsible for issuing regulations with respect to all aspects of transportation safety (including high-speed railroads, as provided in the Rail Safety Improvement Act of 1988), the Department is in an ideal position to fully analyze and assess the progress of efforts to ensure and enhance high-speed ground safety.

The third prong of the study requires the Secretary to make recommendations for model legislation for State and local governments to facilitate construction of high-speed ground transportation systems. The conferees recognize the critical role of State and local governments in the development of high-speed ground transportation. States and local governments currently are on the cutting edge of exploring innovative and diverse mechanisms to encourage high-speed ground transportation systems. The conferees believe that States and local governments will continue to lead the way toward actual implementation of high-speed ground transportation systems but that model legislation could help to encourage and coordinate such efforts.

Finally, within 12 months after the submission of the study described above, this act requires the Secretary to establish the National High-Speed Ground Transportation Policy. The Policy is to include: (1) provisions to promote the design, construction and operation of high-speed ground transportation systems in the United States; (2) a determination regarding whether the various high-speed ground transportation technologies can be integrated effectively into a national network and, if not, whether one or more technologies should receive Federal government encouragement in order to enable a national network; (3) a strategy for prioritizing markets and corridors for high-speed ground transportation construction; and (4) provisions designed to promote American competitiveness in the market for high-speed ground transportation technologies. The Secretary is required to solicit public comments and may consult with other federal agencies as appropriate in developing the Policy.

The conference agreement also amends section 511 of the Railroad Revitalization and Regulatory Reform Act of 1976, to provide projects designed to acquire, rehabilitate, improve, develop, or establish high-speed ground transportation facilities or equipment will also be eligible for consideration by the Secretary under section 511. Currently, under section 511, the Secretary is authorized to guarantee the payment of obligations that are used to acquire or to rehabilitate and improve railroad facilities and equipment, or to develop or establish new railroad facilities. The amendment would not alter the terms of the current section 511 program (or applicable regulations issued thereunder; see, 49 CFR Part 260), which includes provisions limiting the rate of interest which may be applicable to an obligation, a requirement that the obligation be adequately secured, a requirement that the terms of the obligation not extend beyond 25 years, a requirement that the financing be justified by the present or probable future demand for rail services, a requirement that the equipment and facilities be economically utilized, a requirement that the prospective earning power of the applicant be sufficient to provide the Federal government with reasonable security and protection, limitations on making discretionary dividend payments, a requirement that the applicant not use funds or assets of the operation for nonrail purposes, authority of the Secretary to assess and collect certain fees from the applicant, and the authority of the Comptroller General to audit operations of the fund established under section 511.

Finally, the bill requires the Comptroller General, within two years after the date of enactment, and annually thereafter, to analyze the effectiveness of application of section 511 of the Railroad Revitalization and Regulatory Reform Act to high-speed ground transportation facilities and equipment, and to report the results of such analysis to the conferees of jurisdiction.

ACCESS TO RIGHTS OF WAY

House bill

No comparable provision.

Senate amendment

This section amends subsection 142(g) of Title 23, United States Code, to require the Secretary to authorize a State to make Federal-aid highway right-of-way available with or without charge to a publicly or privately-owned authority or company for passenger or commuter rail (including high-speed rail), magnetic levitation systems, and other mass transit facilities.

Section 156 of title 23 is also amended to expand the exclusions to the application of section 156 to include governmental use, use by public or private entities for passenger or commuter rail (including high speed rail), magnetic levitation systems, mass transit facilities, and utility use and occupancy necessary for a transportation improvement allowed under this section, in addition to the current exclusions for utility use and occupancy and use for transportation projects eligible for assistance under title 23 U.S.C.

Section 142 is further amended by the deletion of several related subsections; (a)(2), (c), (e)(2), (i), and (k), which, in effect, become redundant because their subject matter is provided in section 106 of this bill which adds Section 133 to title 23 U.S.C.

Conference substitute

The conference substitute contains the Senate amendment.

REIMBURSEMENT

House bill

No comparable provision.

Senate amendment

The Senate amendment provides for an update of the findings of the report required by section 114 of the Federal-Aid Highway Act of 1956 to determine what amount the United States would pay to the States to reimburse the States for segments incorporated into the Interstate System that were constructed at non-Federal expense.

Conference substitute

The conference substitute provides that, during the fifth and sixth year of the bill, the reimbursement program will be implemented.

PROGRAM EFFICIENCIES

House bill

No comparable provision.

Senate amendment

The Senate amendment amends sections 102, 109, and 302 of title 23 U.S.C.

23 U.S.C. 102(a) provides that all Surface Transportation Program projects must be designed, constructed, operated, and maintained in compliance with applicable state and federal requirements. The design and construction standards adopted by states for projects on principal arterials shall be AASHTO standards. Any state may request that the Secretary no longer undertake project-by-project review of design and construction standards for any project, except those on an Interstate highway or a multi-lane limited access control highway. After receiving such a request, the Secretary can only undertake project design and construction review as requested by the State.

23 U.S.C. 102(b) allows a state highway department to approve the design of any pavement rehabilitation or highway resurfacing project. Once the state highway department has approved the design of such a project, the secretary's approval of the design is not required.

23 U.S.C. 102(c) provides that a state highway department may establish its own standards for routine maintenance of projects constructed under title 23. Those standards will be subject to annual review and approval by the Secretary. If a state is meeting its own standards for routine maintenance, as approved by the Secretary, the Secretary may not withhold project approval pursuant to section 106.

23 U.S.C. 102(d) provides that a state may establish the occupancy requirements of vehicles travelling in HOV lanes, except that no fewer than two occupants may be required. Motorcycles and bicycles are not single occupant vehicles for purposes of title 23, and nothing in this section alters the requirement that each state allow the operation of motorcycles in HOV lanes unless the state certifies that such operation would create a safety hazard.

23 U.S.C. 102(e) provides that a state must repay all federal funds for preliminary engineering for any project that has not advanced to construction or acquisition of right-of-way within 10 years after receipt of the federal funds. Current law requires a state to repay federal funds received for preliminary engineering if a project has not advanced after a period of time. This subsection establishes a uniform period of time before such repayment is required.

23 U.S.C. 109 is amended to allow Interstate Substitute, Surface Transportation Program, and Bridge Rehabilitation projects which are located in areas of historic and scenic value to be designed to standards appropriate to preserve the historic and scenic value of the road. The standards in section 109 (a) and (b) may be modified to provide alternative standards to preserve these historic and scenic values as long as safety of the facility is maintained.

23 U.S.C. 302 is amended to authorize the Secretary, at the request of the Governor of any state, to permit the highway department of a city of over 1 million population within the state to perform the duties and responsibilities of the state highway department for projects undertaken within the city.

Conference substitute

Same as the Senate with respect to the provisions regarding HOV occupancy requirements and repayment of preliminary engineering funds. The Senate recedes with respect to highway maintenance standards. With respect to project approval and design and construction standards, the conferees agreed to the following: 23 U.S.C. 109 is amended to establish design and construction standards for the National Highway System (NHS) highway projects and non-NHS highway projects. The design and construction standards for NHS projects are those approved by the Secretary in cooperation with the state highway agencies. For non-NHS projects, the design and construction standards are established in accordance with State laws, regulations, or directives, based on state-of-the-art practices.

23 U.S.C. 106 is amended to allow a State highway agency to request that the Secretary no longer review plans, specifications, and estimates for any project other than an NHS project or an NHS project with an estimated construction cost of $1 million or less.

23 U.S.C. 106 is further amended to allow a state highway agency to approve, on a

project-by-project basis, the plans, specifications, and estimates for any pavement resurfacing, rehabilitation, or restoration project on the NHS. Further, this subsection allows states to meet or exceed standards for eligible work.

23 U.S.C. 106 is further amended to allow safety considerations to be met by phase construction consistent with the Safety Management System developed under section 303.

Subsection delegating duties and responsibilities of the state highway department to the highway department of a city of over 1 million population is deleted.

New subsection is added to state that nothing in this section shall affect or discharge any responsibility or obligation of the secretary under any federal law, including the National Environmental Policy Act of 1969, section 303 of title 49, title VI of the Civil Rights Act of 1964, title VIII of the Act of April 11, 1968, and the Uniform Relocation Assistance and Land Acquisition Policies Act of 1970.

SECTION 204—GRANTS TO STATES WHICH ADOPT NATIONAL SAFETY BELT AND MOTORCYCLE HELMET USE REQUIREMENTS

House bill

Authorize the Secretary to make grants to a State which has laws which make unlawful both the operation of a motorcycle by an individual who is not wearing a motorcycle helmet and the operation of a passenger vehicle whenever an individual in the front seat (other than a child secured in a child restraint system) is not wearing a seatbelt.

Requires a State to use grants to adopt and implement traffic safety programs in vehicle safety and education, law enforcement training, monitoring of compliance, and enforcement of laws.

Requires a State, as a condition of receiving grants, to maintain their aggregate expenditures for such traffic safety programs at or above their average level in the preceding two fiscal years.

Prohibits any State from receiving a grant in more than 3 fiscal years. Stipulates that federal grants shall be a maximum of 75 percent of a State's cost of implementing such traffic safety programs in the first fiscal year, a maximum of 50 percent in the second year, and a maximum of 25 percent in the third fiscal year.

Limits aggregate amount of grants to a State under this section to 90 percent of such State's apportionment for fiscal year 1990 under section 402 of this title.

Requires as a general condition for receiving grants in any fiscal year that a State enter into an agreement with the Secretary to implement a traffic safety program. Additionally requires for a State to receive a grant in a fiscal year succeeding the first fiscal year it receives a grant that it have a law requiring seatbelt use and achieve a rate of compliance with such law of not less than 70 percent and have a law requiring motorcycle helmet use and achieve a rate of compliance with such law of not less than 65 percent. Additionally requires for a State to receive a grant in a fiscal year succeeding the second fiscal year that it receives a grant that it have a law requiring seatbelt use and achieve a rate of compliance with such law of not less than 80 percent and have a law requiring motorcycle helmet use and achieve a rate of compliance with such law of not less than 80 percent.

Provides that each State shall measure compliance using methods which conform to guidelines issued by the Secretary.

Stipulates that if a State does not have both a law requiring helmet use and a law requiring seatbelt use at all times in fiscal year 1994 the Secretary shall transfer 1½ percent of funds apportioned to the State under each of the subsections (b)(1), (b)(2) and (b)(6) of Section 104 of this title to the apportionment of the State under Section 402 of this title. Stipulates that if at any time after September 30, 1994 a State does not have both a law requiring helmet use and a law requiring seatbelt use at all times during a fiscal year, then in the succeeding fiscal year the Secretary shall transfer 3 percent of the funds apportioned to the states under each of the above subsections to the apportionment of the State under Section 402 of this title.

Defines terms.

Authorizes to be appropriated out of the Highway Trust Fund $40,000,000 for fiscal year 1992, $30,000,000 for fiscal year 1993, and $25,000,000 for fiscal year 1994.

Provides that certain provisions of chapter 1 of this title are applicable to the funds authorized to be appropriated under this Section and that funds authorized to be appropriated under this Section shall remain available until expended.

SECTION 122—USE OF SAFETY BELTS AND MOTORCYCLE HELMETS

Senate amendment

Authorizes the Secretary to make grants to a State which has laws which make unlawful both the operation of a motorcycle if any individual on the motorcycle is not wearing a motorcycle helmet and the operation of a passenger vehicle whenever an individual in the front seat (other than a child secured in a child restraint system) is not wearing a seatbelt.

Requires a State to use grants to adopt and implement traffic safety programs in vehicle safety and education, law enforcement training, monitoring of compliance, and enforcement of laws.

Requires a State, as a condition of receiving grants, to maintain their aggregate expenditures for such traffic safety programs at or above their average level of the preceding two fiscal years.

Prohibits any State from receiving a grant in more than 3 fiscal years. Stipulates that federal grants shall be a maximum of 75 percent of a State's cost of implementing such traffic safety programs in the first fiscal year, a maximum of 50 percent in the second year, and a maximum of 25 percent in the third fiscal year.

Limits aggregate amount of grants to a State under this section to 90 percent of such State's apportionment for fiscal year 1990 under Section 402 of this title.

Requires as a general condition for receiving grants in any fiscal year that a State enter into an agreement with the Secretary to implement a traffic safety program. Additionally requires for a State to receive a grant in a fiscal year succeeding the first fiscal year it receives a grant that it have a law requiring seatbelt use and achieve a rate of compliance with such law of not less than 50 percent and have a law requiring motorcycle helmet use and achieve a rate of compliance with such law of not less than 75 percent. Additionally requires for a State to receive a grant in a fiscal year succeeding the second fiscal year that it receives a grant that it have a law requiring seatbelt use and achieve a rate of compliance with such law of not less than 70 percent and have a law requiring motorcycle helmet use and achieve a rate of compliance with such law of not less than 85 percent.

Provides that each State shall measure compliance using methods which conform to guidelines issued by the Secretary.

Stipulates that if a State does not have both a law requiring helmet use and a law requiring seatbelt use at all times in fiscal year 1994 such State shall expend for highway safety programs 1½ percent of funds apportioned to the State under subsection (b)(1) of Section 104 of this title. Stipulates that if at any time after September 30, 1994 a State does not have both a law requiring helmet use and a law requiring seatbelt use at all times during a fiscal year, then in the succeeding fiscal year such State shall expend for highway safety programs 3 percent of funds apportioned to the State under subsection (b)(1) of Section 104 of this title. Provides that States required to expend funds for highway safety programs spend such funds for purposes eligible under Sections 402, 152 (except repavement) and section 130. Stipulates that the federal share for such projects shall be 100 percent. Stipulates that funds required to be set aside under this subsection shall be available only in the year for which they were apportioned and shall thereafter lapse.

Defines terms.

Authorizes to be appropriated out of the Highway Trust Fund $45,000,000 for fiscal year 1992, $30,000,000 for fiscal year 1993, and $25,000,000 for fiscal year 1994.

Provides that certain provisions of chapter 1 of this title are applicable to the funds authorized to be appropriated under this Section and that funds authorized to be appropriated under this Section shall remain available until expended.

Requires the Secretary to conduct a study of the cost and severity of injuries of restrained and unrestrained individuals injured in motor vehicle crashes and of helmeted and non-helmeted motorcyclists injured in motorcycle crashes. Authorizes to be appropriated out of the Highway Trust Fund $5 million for such study. Requires the Secretary to report the results of such study within 40 months after the date of enactment of this Act.

Requires the Secretary to issue regulations to carry out this Section within 180 days of the date of enactment of this Act.

Conference agreement

The conference agreement generally follows the Senate Bill. The agreement adopts the House language on the purposes for which redirected funds may be spent by the States, and adopts the House language on definitions.

House bill

No provision.

Senate bill

Section 123 allows States to use as a credit toward meeting non-Federal match requirements non-Federal capital expenditures on toll facilities that are an integral part of the interstate commerce network.

In receiving such a credit, a State would have to maintain its aggregate transportation capital spending, excluding Interstate and discretionary funding, at or above the average level of such spending for the preceding three fiscal years, as required by the Secretary.

Under this section, an agency from which the credit is generated would not be subject to any additional Federal oversight or regulation, above and beyond any that otherwise exist.

Conference substitute

Same as Senate bill.

The conferees do not intend that these credits would result in a small reduction in non-Federal transportation spending by a State receiving the credit.

ACQUISITION OF RIGHTS OF WAY

House bill

No comparable provision.

Senate amendment

Summary

This section amends 23 U.S.C. 108 makes three changes to current law. First, the period within which construction must be commenced on a right-of-way funded from the right-of-way revolving fund is increasing from 10 years to 20 years.

Second, costs incurred by a State to acquire rights-of-way in advance of Federal approval or authorization and costs incurred to acquire land necessary to preserve environmental and scenic values may be reimbursed with Federal funds if certain conditions are satisfied.

Third, to conform section 108 of title 23 with the other title 23 changes being made by this legislation, this section eliminates the requirement that right-of-way revolving fund advances be for projects "on the Federal-aid system" and authorizes the use of the fund for projects such as passenger rail facilities, magnetic levitation systems, transportation corridor preservation, and long-term transportation planning.

Discussion

This amendment will allow states that have rigorous planning and environmental impact analysis requirements to purchase rights-of-way prior to obtaining Federal approval or authorization and to use Federal funds to reimburse the costs of early acquisition if certain conditions are satisfied. As a result, States will be better able to identify and preserve corridors with the express intent of protecting environmental sensitive areas.

To take advantage of the authority provided in this section, the state must satisfy a number of conditions, including demonstrating to the Secretary that: (1) the state has considered the environmental impacts of the acquisition and various alternatives; (2) the early acquisition did not influence the environmental assessment of the underlying project, the decision to proceed with this project, or the selection of the project design or location; (3) the state has a mandatory comprehensive and coordinated land use, environment, and transportation planning process under state law; (4) the acquisition is certified by the Governor as being consistent with the state planning process; and (5) prior to approval of the use of Federal funds to reimburse the costs of early acquisition, all applicable Federal environmental laws have been complied with, including but not limited to the National Environmental Policy Act, section 4(f) of the Department of Transportation Act, and section 7 of the Endangered Species Act. The directive that the Secretary identify the applicable environmental laws in regulations does not authorize the Secretary to waive or otherwise modify the requirements of any environmental law and failure of the Secretary to identify a law shall not affect the substantive or procedural requirements of the law.

Conference substitute

The conference substitute includes the Senate provision with a study added by the House and technical language amendments.

House bill

No similar provision.

Senate amendment

TRANSPORTATION IN PARKLANDS

(a) IN GENERAL.—Not later than 12 months after the date of enactment of this Act, the Secretary, in consultation with the Secretary of the Interior, shall submit to the Congress a study of alternative transportation modes for use in the National Park System. Such study shall consider the economic and technical feasibility, environmental effects, projected costs and benefits as compared to the costs and benefits of existing transportation systems, and the general suitability of transportation modes that would provide efficient and environmentally sound ingress to and egress from National Park lands. The study shall also consider methods to obtain private capital for the construction of such transportation modes and related infrastructure.

(b) Authorization of Appropriations.—From within the sums authorized to be appropriated for subsection 202(d) of title 23, United States Code, $300,000 shall be made available to carry out this section.

Conference substitute

SEC. 125. TRANSPORTATION IN PARKLANDS

(a) IN GENERAL.—Not later than twelve months after the date of enactment of this Act, the Secretary, in consultation with the Secretary of the Interior, shall submit to the Congress a study of alternative transportation modes for use in the National Park system that is consistent with the findings and purposes of Section 301 of Public Law 95–344. Such study shall consider the economic and technical feasibility, environmental effects, projected costs and benefits as compared to the costs and benefits of existing transportation systems, and the general suitability of transportation modes that would provide efficient and environmentally sound ingress to and egress from National Park System lands. Such study shall also consider methods to obtain private capital for the construction of such transportation modes and related infrastructure.

(b) (same as Senate language, except amount authorized and appropriated is $240,000)

TRAFFIC CONTROL STANDARDS

House bill

No comparable provision.

Senate amendment

The Senate amendment directs the Secretary to revise the Manual of Uniform Traffic Control Devices to include a standard minimum maintenance level of retroreflectivity for pavement markings and signs and to define the roads that must have a center line or edge line or both. The functional classification of roads, traffic volumes, and the number and width of the lanes are to be considered in making this standard.

Conference substitute

House recedes.

RIGHT OF WAY REVOLVING FUND

House bill

No comparable provision.

Senate amendment

Summary

Section 128 amends Section 108, title 23 U.S.C. by expanding projects eligible for right-of-way revolving fund advances to passenger rail facilities.

Discussion

The right-of-way revolving fund was established by the Federal-Aid Highway Act of 1956 to facilitate the acquisition of rights-of-way in anticipation of construction on the federal-aid highway system. This change was made to make this program consistent with the intermodal philosophy of this bill and to encourage corridor preservation and long-term transportation planning.

Conference substitute

The conference substitute recedes to the House.

RECODIFICATION

House bill

No comparable provision.

Senate amendment

The Senate amendment requires the Secretary to prepare and submit a recodification of title 23, United States Code, to Congress for consideration by October 1, 1993.

Conference substitute

The conference substitute requires the Secretary to prepare and submit a proposed recodification of title 23, United States Code, to Congress for consideration by October 1, 1991.

INDIAN ROAD SEALING

House bill

No comparable provision.

Senate amendment

The Senate amendment amends title 23, United States Code, to establish that the Bureau of Indian Affairs of the Department of the Interior shall be allowed to use Highway Trust Funds for the purpose of the sealing of Indian reservation roads under their jurisdiction.

Conference substitute

The managers have included language authorizing the use of Highway Trust Funds for road sealing projects on Indian reservations but want to make quite clear that these funds are entirely distinguishable from road maintenance funds historically requested in the Bureau of Indian Affairs annual budget. In light of the significant underfunding of Indian reservation roads, the extremely poor conditions of said roads and the need to have an acceptable infrastructure for our Native American communities, it is the Committee's intent that HTF funds are authorized in addition to—and not in lieu of—the BIA's road maintenance program. Pursuant to the provisions of Title 23, Section 116 and 204, and pursuant to the Memorandum of Agreement between BIA and FHWA signed on May 24, 1983, the BIA is clearly responsible for maintaining roads built with Highway Trust Fund dollars. The managers expect the BIA to request funding in FY 1993 that is at least consistent with the level requested and appropriated in FY 1992.

HIGHWAY CONSTRUCTION TRAINING

House bill

No comparable provision.

Senate amendment

The Senate amendment allows one-fourth of 1 percent of funds apportioned to a State for the Surface Transportation Program or Bridge Program may be available for highway construction training.

Conference substitute

House recedes to Senate amendment.

EROSION CONTROL

House bill

No provision.

Senate bill

Section 140B directs the Secretary to develop erosion control guidelines for States to follow in carrying out projects under this Act.

Conference substitute

Same as Senate bill.

INTERNATIONAL TRANSPORTATION OUTREACH

House bill

The House amendment authorizes the Department of Transportation to conduct a

3
1992
UMI

program to share technological innovations developed abroad with the U.S. highway community and to increase transfere of U.S. highway transportation technology to foreign countries. Chapter 3 of title 23, United States Code, is amended.

Senate amendment

The Senate amendment authorizes the Department of Transportation to conduct a program to share technological innovations developed abroad with the U.S. highway community and to increase transfers of U.S. highway transportation technology to foreign countries.

Conference substitute

The Conference Substitute includes the Senate provision with the House amendment to Chapter 3 of title 23, United States Code.

EDUCATION AND TRAINING PROGRAM

House bill

The House bill authorizes the Secretary of Transportation to make grants and enter into contracts for a transportation assistance program to provide access to modern highway technology for urbanized areas with populations of 50,000 to 1,000,000 and rural areas. Technical assistance program centers are established to provide usable technology and information to rural and urban transportation agencies to expand their expertise in road and transportation areas.

The Secretary of Transportation is authorized to conduct and report to Congress on the results of a study to determine the appropriate symbol for highway signs to commemorate the Interstate system as the Dwight D. Eisenhower National System of Interstate and Defense Highways.

Senate bill

The Senate amendment contains a provision authorizing the Secretary to make grants and enter into contracts for a transportation assistance programs to provide access to modern highway technology to urbanized areas with populations of 50,000 to 1,000,000 and rural areas. Technical assistance program centers are established to provide usable technology and information to rural and urban transportation agencies to expand their expertise in road and transportation areas.

The Secretary shall establish and administer the Dwight David Eisenhower Transportation Fellowship Program to attract qualified students to the field of transportation engineering and research. No less than $2,000,000 per fiscal year is provided for the fellowship program.

Conference substitute

The conference substitute contains a provision authorizing such sums as may be necessary for the Secretary to make grants and enter into direct contacts for a transportation assistance program to provide access to modern highway technology to urbanized areas with populations of 50,000 to 1,000,000 and rural areas. Technical assistance program centers are established to provide usable technology and information to rural and urban transportation agencies to expand their expertise in road and transportation areas.

The Secretary shall establish and administer the Dwight David Eisenhower Transportation Fellowship Program to attract qualified students to the field of transportation and engineering and research. No less than $2,000,000 per fiscal year is provided for this program. Development of new and efficient combinations of transportation infrastructure requires that the nation's brightest minds be attracted to the transportation and engineering and research professions. The Dwight David Eisenhower Transportation Fellowship Program is designed to accomplish this objective.

The conferees recognize that the fellowship program will be most successful if it serves to attract critical masses of students and professors to evolve into centers of excellence. Therefore, the conferees intend that the program shall be limited to no more than fifty universities, to be selected by the Secretary on the basis of their academic reputation in the transportation engineering and research areas. The conferees intend that the fellowships should be awarded competitively, and be available only to students enrolled in work toward a graduate degree in transportation engineering or research, but exceptions can be made for students in the final year of undergraduate engineering degrees who can demonstrate that they intend to specialize in a transportation-related field following graduation.

The Secretary of Transportation is authorized to conduct and report to Congress on the results of a study to determine the appropriate symbol for highway signs to commemorate the Interstate system as the Dwight D. Eisenhower National System of Interstate and Defense Highways.

NATIONAL HIGHWAY INSTITUTE

House bill

The House bill establishes a National Highway Institute within the Federal Highway Administration to provide technical training programs for federal, State and local employees, U.S. citizens, and foreign nationals engaged in highway work. Up to one-fourth of one percent of all funds apportioned to a State for the Federal-aid primary system funds are available to the State highway department for payment of up to 80 percent of the cost of tuition and direct expenses.

Senate amendment

The Senate amendment establishes a National Highway Institute within the Federal Highway Administration to provide technical training programs for federal, State and local employees, U.S. citizens, and foreign nationals engaged in highway work. Up to one-fourth of one percent of all Surface Transportation Program funds apportioned to a State are available to the State highway department for payment of up to 75 percent of, the cost of tuition and direct educational expenses.

Conference substitute

The House recedes with modification of subsection (b) to reflect the 80% federal share provided in the House bill and with modification that any fees collected by the National Highway Institute be placed in a special account for recovering costs for the purpose of this section.

ZEBRA MUSSELS

House bill

No comparable provision.

Senate amendment

Establishes a study and program for the use of Zebra Mussels as an infrastructure building material.

Conference substitute

Senate recedes to the House.

INFRASTRUCTURE INVESTMENT COMMISSION

House bill

No comparable provision.

Senate amendment

The Senate amendment establishes the Commission to Promote Investment in America's Infrastructure, to be composed of seven members: two each to be appointed by the Majority Leader of the Senate and the Speaker of the House of Representatives; respectively; and one each to be appointed by the Minority Leaders of the Senate, the Minority Leader of the House of Representatives, and the President of the United States, respectively. Members of the Commission are to have appropriate backgrounds in finance, construction, lending, actuarial disciplines, pensions, and infrastructure policy.

The Commission will conduct a study of the feasibility and desirability of creating a type of infrastructure security which would permit the investment of pension funds in funds used to design, plan, and construct infrastructures in the United States. The Commission can include recommendations for private sector or other innovative public policy alternatives to encourage infrastructure investments at all levels of government. The Commission will report to Congress on its findings and recommendations within 180 days of enactment of this Act.

This section provides for reimbursing Commission members for expenses and for a staff to assist the Director is he so chooses. Such sums as may be necessary are authorized to carry out this section.

Conference substitute

The conference accepts the Senate substitute.

REGULATORY INTERPRETATION

House bill

No comparable provision.

Senate amendment

The Senate amendment establishes that steel coating is covered by the federal regulations interpreting Buy America legislation.

Conference substitute

Same as Senate amendment.

CLEAR GASOLINE REQUIREMENT

House bill

No comparable provision.

Senate amendment

The Senate amendment imposes a clear gasoline requirement on refiners pursuant to the Clean Air Act.

Conference substitute

The Senate recedes to the House.

NATIONAL DEFENSE HIGHWAYS

House bill

No comparable provision.

Senate amendment

The Senate amendment declares that upon certification by the Secretary, after consultation with the Secretary of Defense, a highway or portion of highway located outside the territory of the United States is important to the national defense, up to $20,000,000 shall be made available for reconstruction of an eligible highway from the Interstate Construction Program funds.

Conference substitute

House recedes to Senate amendment.

ALLOCATION FORMULA STUDY

House bill

No comparable provision.

Senate amendment

The Senate amendment authorizes a study to be conducted to determine a fair and equitable apportionment formula for the allocation of Federal-aid highway funds.

Conference substitute

The conference substitute contains the allocation formula study.

STORMWATER PERMITS

House bill

No comparable provision.

Senate amendment

Section 140L of the Senate Amendment extends certain application deadlines for and enforcement of the stormwater permitting requirements of Section 402(p) of the Federal Water Pollution Control Act (33 U.S.C. 1342(p)) for industrial activities owned or operated by municipalities with a population of under 250,000.

Conference substitute

The conference substitute extends individual and group permit application deadlines for stormwater discharges associated with industrial activities from municipally owned or operated facilities. Individual permit applications must be submitted no later than October 1, 1992, except that where a timely group permit application is denied the applicant would be entitled an additional six months from the date of the denial to submit an individual application. Group application deadline are extended until September 30, 1991 for Part I and October 1, 1992 for Part II except that for municipalities of under 250,000 an additional period of time is provided. No stormwater discharge permits for industrial activities for municipalities of under 100,000 are required prior to October 1, 1992 except stormwater discharges from municipally owned or operated power plants, airports, and certain landfills. The conference substitute also requires that general permit regulations for stormwater discharge permits be promulgated no later than February 1, 1992. The conference substitute is not intended to prejudice or in any manner affect any ongoing litigation, including Natural Resources Defense Council v. U.S. Environmental Protection Agency, Case Nos. 90–70671 and 91–70200 (9th Cir., 1990).

INVESTIGATION AND REPORT

House bill

No comparable provision.

Senate amendment

The Senate amendment provides for a study on the feasibility of requiring that trucks be restricted from using the left lanes of Interstate highways.

Conference substitute

The Senate recedes to the House.

USE OF OXYGENATED FUELS

House bill

No comparable provision.

Senate amendment

The Senate amendment requires the Secretary, in consultation with the EPA Administrator to submit to Congress a report on the feasibility and effectiveness of requiring all cities and metropolitan statistical areas with a population of 250,000 or more the use of oxygenated fuels (with a percentage of 2.7 or greater).

Conference substitute

Senate recedes to House.

YOUTH JOBS PROGRAMS

House bill

No comparable provision.

Senate amendment

The Senate amendment establishes a youth program in conjunction with highway landscaping and beautification activities and allows States to use up to 0.2 percent of their funds for this purpose.

Conference substitute

The Senate recedes to the House.

INTERSTATE STUDY COMMISSION

House bill

No comparable provision.

Senate amendment

Interstate Transportation Agreements and Compacts. States have Congressional approval to enter into and carry out agreements or compacts to address interstate highway and bridge problems of regional significance identified by metropolitan planning organizations.

Conference substitute

The conference substitute establishes the Interstate Study Commission for Transportation for the National Capital Region to make recommendations on funding and management of the transportation system of the region. The Commission will evaluate existing mechanisms and processes by which transportation decisions are made within the region and make recommendations to provide a coordinated regional approach and process for funding and implementing transportation improvements, primarily focusing on interstate highway and bridge systems. The conferees intend that the recommendations developed by the commission will be consistent with the planning requirements for metropolitan areas, and the recommendations will be made to Congress, the Department of Transportation, the governors of Maryland and Virginia, the mayor of the District of Columbia and the National Capital Region Transportation Planning Board.

MONTANA-CANADA TRADE

House bill

Identical provision.

Senate amendment

The Senate amendment states that the Secretary may not withhold funds from the State of Montana on the basis of actions taken by Montana pursuant to a draft memorandum with the Province of Alberta, Canada, regarding truck transportation between Canada and Shelby, Montana.

Conference substitute

The Conference Substitute contains the Senate amendment.

LEVEL OF EFFORT

House bill

No comparable provision.

Senate amendment

Provides additional funding to states who have a lower than average per capita discretionary spending and higher than average gasoline tax.

Conference substitute

Senate recedes to House.

The conference agreement includes a study to measure a state's total level of effort with regard to state highway expenditures. Three months after the date of enactment, the Secretary and the newly formed DOT Bureau of Statistics are directed to conduct a study of state level of effort. Not later than nine months, the Secretary is to provide such report to the Senate Environment and Public Works Committee and the House Committee on Public Works.

The Secretary is directed to use data reflecting state and local revenue support for highways. This data shall include: income fuel taxes, toll revenues including bridge tolls and highway tolls, sales taxes (if used by a state on highway expenditures), general fund revenues used for highways, property taxes used for highways, bonds, administrative fees such as vehicle registration and driver license fees collected that may be expended by a state for highway expenses, taxes on commercial vehicles and other appropriate state and local revenue sources.

There was much discussion on the Senate floor with regard to how best to measure a state's total level of effort. The conferees direct the Secretary to conduct a comprehensive study that will compare a state's total level of effort comparing revenues raised and expended for highway purposes with per capita income.

NATIONAL POLICY FOR INFRASTRUCTURE REUSE

House bill

No comparable provision.

Senate amendment

The Senate amendment amends Sec. 307 of title 23 of the United States Code by adding a section at the end that requires within 12 months of the date of enactment of this Act, that the Secretary conduct a study of methods to facilitate the reuse of industrial manufacturing facilities. The Secretary shall consult with other government officials to ascertain regulatory, technical, and other barriers or constraints associated with reusing industrial manufacturing facilities. The Secretary shall report the results of the study to Congress upon its completion. $200,000 is authorized to be taken from administration and research funds in Sec. 104 to conduct the study.

Conference substitute

The conference accepts the Senate substitute.

NONNAVIGABILITY DECLARATION

House bill

No comparable provision.

Senate amendment

The Senate amendment establishes a nonnavigable status for a portion of the Hudson River adjacent to a bulkhead line.

Conference substitute

The House recedes to the Senate.

SENSE OF SENATE (LEVEL OF EFFORT)

House bill

No comparable provision.

Senate amendment

The Senate amendment directs committee conferees to determine each State's total apportionments in a way that reflects each State's total effort for highways including each State's ability to finance its total effort for highways, as measured by its per capita disposable income as compared to the average State per capita disposable income, as well as taking into account the effect of such apportionment formula on energy conservation, energy security, and environmental quality.

Conference substitute

Senate recedes to House.

MILLER HIGHWAY

House bill

No comparable provision.

Senate amendment

No comparable provision.

Conference substitute

The conferees have authorized $14.5 million to undertake engineering and environmental studies and begin to realign Miller Highway inland, between 59th and 72nd Streets, to promote the development of a major public-private works project which will include the creation of a 23-acre public waterfront park to be built with private funds. This authorization shall not be construed to interrupt or interfere with the current rehabilitation of the Miller Highway on its present alignment, which is urgently needed to ensure public safety. Moreover, this project shall be deemed separate and independent from the Route 9A project between the Battery and 59th Street, which has independent utility and logical termini and should be advanced *under* [at] its own *independent engineering and environmental process and* rapid schedule.

REVISION OF MANUAL

House bill

Section 121(m) requires the Secretary to revise the Manual of Uniform Traffic Control Devices and other Federal Highway Administration regulations as may be necessary to permit states and local governments to install stop or yield signs at any rail-highway grade crossing without automatic traffic crossing devices with 2 or more trains operating across such rail-highway crossing.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The Conference Substitute adopts the House provision.

ROADSIDE BARRIERS AND SAFETY APPURTENANCES

House bill

Section 121(c) of the House bill requires the Secretary to initiate a rulemaking proceeding to revise the guidelines and establish standards for installation of roadside barriers and other safety appurtenances. This rulemaking shall reflect criteria related to approval standards contained in the National Cooperative Highway Research Program Report 230 which provide a level of crashworthy performance to accommodate vans, minivans, pickup trucks and 4-wheel drive vehicles, along with all other vehicles.

The Secretary shall issue the final rule no later than one year after the date of enactment of this Act regarding the implementation of such guidelines and standards.

Senate amendment

The Senate amendment contains no comparable provision.

Conference substitute

The Conference substitute adopts the House provision.

TITLE II—HIGHWAY SAFETY

PART A—HIGHWAY SAFETY GRANT PROGRAMS

SECTION 2000—SHORT TITLE

House bill

No provision.

Senate amendment

No provision.

Conference substitute

The short title of this part is the "Highway Safety Act of 1991".

SECTION 2001—HIGHWAY SAFETY PROGRAMS

House bill

The House bill, in section 2001, amends Section 402 to provide for mandatory and optional programs for Section 402 grants. To qualify for a 402 grant, each state would be required to establish programs on drunk driving; speeding; occupant protection; emergency medical services; motorcycle safety; uniform data collection and reporting; accident location; highway design; construction and maintenance; traffic engineering services. Programs on bicycle, pedestrian, school bus safety, police traffic services, and traffic record systems, would be left to the discretion of the states.

Senate amendment

The Senate bill contains no comparable provisions.

Conference substitute

The substitute adopts the Senate version which, in effect, maintains existing law, but requires that the programs listed as mandatory programs under the House bill be listed as priority items within the guidelines promulgated by the Secretary. If the Secretary does not prioritize the programs, the Secretary is required to submit a report to the Congress describing why there is no need for the prioritization of the programs.

The agreement also provides that the Secretary is to establish a program to provide for a national uniform data collection and reporting system of traffic-related deaths and injuries. The purposes of this program are to allow the Secretary to determine the causes of such deaths and injuries, to develop programs to reduce such deaths and injuries, and to make recommendations to Congress concerning legislation necessary to implement such programs. The program shall include information obtained by the Secretary under section 404 of the Act and provide for annual reports to the Secretary on the efforts being made by the states in reducing deaths and injuries occurring at highway construction sites and the effectiveness and results of these efforts. In addition, the Secretary is required to establish minimum reporting criteria to obtain certain accident information necessary to improve analysis at the state and federal levels. Such criteria shall include criteria on deaths and injuries resulting from police pursuits, school bus accidents, and speeding, on traffic-related deaths and injuries at highway construction sites, on the configuration of commercial motor vehicles involved in motor vehicle accidents, and any other data elements essential for analysis of highway safety issues the Secretary shall develop through the Critical Automated Data Reporting Elements for Highway Safety Analysis (CADRE).

SECTION 2002—HIGHWAY SAFETY RESEARCH AND DEVELOPMENT

House bill

The House bill, in section 202, amends current law to authorize research into all aspects of highway safety and traffic conditions, including the relationship between the use of drugs and its effect on highway safety and driver performance. The bill provides that funds appropriated for Section 403 of 23 U.S. Code be used for training and education of highway safety personnel; research fellowships in highway safety; accident investigation procedures; emergency service plans; demonstration projects; and any other related activities the Secretary believes will promote highway safety. The bill also authorizes the Secretary to undertake collaborative research and development with non-federal entities, including state and local governments, universities, corporations and partnerships, on cost-shared basis.

Senate amendment

The Senate bill contains no comparable provisions.

Conference substitute

The conference substitute adopts the House provision.

SECTION 2003—ALCOHOL-IMPAIRED DRIVING COUNTERMEASURES

House bill

The House bill, in Section 203, maintains the existing program under section 410 of title 23, but establishes new grant requirements for the program. The bill establishes basic and supplemental grant programs. To be eligible for a basic grant, a state would have to institute a program involving (1) highway sobriety checkpoints; (2) prompt license suspension of individuals operating vehicles under the influence of alcohol or drugs; (3) a requirement that any person with a blood alcohol concentration (BAC) equal to or greater than 0.10 percent for the first two years of the program, and 0.08 percent thereafter is deemed to be driving under the influence; and (4) mandatory minimum sentences for persons convicted of impaired driving. States that met the basic grant criteria would receive an amount equal to 80% of their allocation under Section 402 of Title 23.

Supplemental grants would be available for each of the following actions: (1) enhanced enforcement of "21 drinking age" laws; (2) the enactment of laws prohibiting the possession of open containers of alcohol in the passenger area of motor vehicles (excepting charter buses) while on the road; and (3) the suspension of car licenses and registrations, and the impoundment of vehicles of repeat offenders of impaired driving laws. States that met the supplemental grant criteria would be eligible for an amount equal to five percent of their 402 grant allocation.

The House bill also authorizes, from funds made available to carry out section 402 of Title 23, the use of $17 million for each of the fiscal years 1993–1997 to carry out this program.

Senate amendment

The Senate amendment, in Section 226, amends Chapter 4 of title 23, to establish a new and comprehensive drunk and impaired driving program. The new program would have a structure identical to that of the existing sections 408 and 410 programs, and would replace those programs when the terms of those programs expired. The program would make available to the states basic and supplemental grants for a maximum of five years. States that met certain basic criteria would receive a grant equal to 30 percent of their section 402 grant amount, which would be funded on a declining share basis—75% for the first year, 50% for the second year, and 25% for the third year.

The amendment provides that a state is eligible for a basic grant if it establishes requirements for (1) administrative revocation of drunk drivers' licenses; (2) sobriety checkpoints; (3) a 0.10 BAC standard for persons who are deemed to be driving while under the influence of alcohol, that would have to be reduced to 0.08 BAC after 3 years; (4) videotaping of drunk drivers; (5) mandatory minimum sentences for those convicted of impaired driving; and (6) a requirement that the program be planned to become self-supporting. The bill provides a waiver of any one of the basic grant criteria for any state which achieves a decrease in its alcohol-related fatalities by an average of three percent per calendar year for five consecutive years.
